The purpose of a B.A. Liberal Studies degree is to allow a student to follow a programme of studies of related courses which offers greater flexibility than a Major programme or which lies in an area for which there may not be a Major programme. Students are advised to make an appointment with the Office of Student and Academic Services to discuss course selection and theme approval. The major programme consists of at least 48 credits in a designated theme area, which form a coherent pattern of study, including at least 18 credits at the 3000 level or above. A Liberal Studies Degree Programme may contain no more than 24 credits from any one academic discipline. Cross-listed courses may not be used to exceed 24 credits from any one discipline. It is possible for students to take the equivalent of an honours programme in Liberal Studies if they enrol under General Honours. Types of Liberal Studies Programmes are as follows:

COMMUNICATION STUDIES
 CREATIVE ARTS AND CULTURAL EXPRESSION
 HEALTH STUDIES
 PUBLIC SERVICE STUDIES
 SOCIAL AND POLITICAL THOUGHT
 THIRD WORLD STUDIES
 INDIVIDUALIZED LIBERAL STUDIES

(Students may initiate their own programmes to suit their particular interests. Speak to a Student Advisor in OSAS).

PSYCHOLOGY

Degree Options

Students may choose to major in psychology as part of the requirements for the B.A. (Ordinary) or the B.Sc. (Ordinary) degree. The main difference between these two degrees is that for the B.Sc. degree,

students must take courses in mathematics and the physical sciences, and that the required psychology courses emphasize the biological/quantitative aspects of psychology. Courses taken for either degree are fully compatible with the requirements for the B.A. (Honours) degree.

PROGRAMME REQUIREMENTS

B.A. (Ordinary):

30 credits in Psychology, including AK/PSYC 2410 6.0 (must be completed at minimum C prior to any other Psychology course being taken):

- (a) AK/PSYC 2510 3.0, AK/PSYC 2530 3.0; and
- (b) 18 credits in Psychology at the 3000 level Psychology, including: (i) 6 credits chosen from the 3100 3.0 series; and (ii) 6 credits chosen from the 3200 3.0 series.

Professional Ethics

Ethical issues are becoming increasingly central to almost all areas of professional and public life. As work becomes faster, more technologically and bureaucratically complex, and evermore economically productive, ethical issues increase in difficulty and seriousness. As a result, the demand for people with qualifications in professional ethics is growing in all sectors. Our especially large range of courses in the area of professional ethics concentrates on real situations and case studies. Almost all of these courses are cross-listed with the relevant professional department or discipline. By taking a number of these courses, students encounter many different concrete ethical issues and learn a variety of perspectives and methodologies for dealing with them. Our style of professional ethics recognizes the diversity of values, traditions and points of view that are brought to bear today on actual current ethical problems. Nonetheless, these courses constantly attempt to integrate this situational approach by means of a search for generally applicable methodologies and ways of theorizing such issues. The certificate therefore gives students a wide range of experience and methodologies for understanding institutional practices that deal with ethical issues in the public and private sectors. They develop capacities to flexibly adapt this knowledge to different institutions and unforeseen ethical problems in such areas as education, business, health, media, government, law, social work, politics, and personal life. Because the resolution of concrete ethical issues needs a creative response to the particularities of unforeseen situations, practice on cases in a number of different institutions and professions helps one to prepare for dealing with problems in one's own.

The Certificate in Professional Ethics is based in the Atkinson Philosophy Department. It is a direct entry program that is available to any students admitted to the College or University.
