## Bachelor of Arts Degree

The Faculty of Arts offers programs of study leading to the BA Degree (90 credits) and the Honours BA Degree (120 credits). Students may proceed toward a degree at their own pace, and select courses from a wide variety of areas within the Faculty of Arts as well as from the offerings of other Faculties.

The curriculum is designed to provide an education in the Liberal Arts; to foster students' abilities to read, write, speak and think critically; and to prepare students for post-graduate studies. To these ends, the curriculum includes both a General Education component and more specialized fields of concentration, both disciplinary and interdisciplinary.

## Fields of Concentration

The Liberal Arts have traditionally been organized into clearly defined disciplines, each with its own specialized subject matter and techniques, and each taught by a single department. The Faculty of Arts has developed undergraduate programs in a wide range of these disciplines, most of which can later be pursued in York's Faculty of Graduate Studies. The Faculty also recognizes the need for cooperation and cross-fertilization among different subjects and methods, and accordingly offers a number of programs in interdisciplinary studies, which draw on the resources of several departments. Interdisciplinary programs are available in a range of degree structures, some offering independent degrees, others linked to major programs in disciplines. For details on disciplinary and interdisciplinary programs, consult the Programs of Study section.

## Academic Advising and Student Responsibility

The information contained in this Handbook and other publications is designed to be self-explanatory. The Faculty recognizes, however, there may be specific questions about regulations which are not answered here. Those questions, and other more general ones, should be addressed to one of the following sources of information and advice given below.

### The Office of the Registrar

The office which administers most of the academic regulations contained in the Faculty of Arts section of this Calendar is the Office of the Registrar, located in the West Office Building, (416) 736-5440. This office provides a wide range of administrative services to students, staff and faculty members. Among its functions are:

- performing general registrarial functions relating to enrolment and record-keeping;
- applying the Faculty's rules on academic standing, including eligibility to graduate;
- reporting final grades to students; producing official university transcripts;
- advising students about petitions, and receiving petitions for exemptions from academic regulations.

### Advising

The Faculty of Arts considers academic advising an important responsibility of the Faculty. The term academic advising covers a number of complementary functions related to helping students

- select majors and courses;
- ascertain whether they are meeting the Faculty's academic regulations;
- plan for their academic future both before and after graduation; and

- generally make the most of their talents and interests.

These functions may vary in their significance to individual students at different times of the academic year and at different points in a student's academic career. Other kinds of advising and counselling are offered by such offices as Career Services, the Counselling and Development Centre, and the Office of Student Affairs.

Advising for Continuing Students is a shared responsibility of the individual departments, divisions and programs of the Faculty, the Faculty affiliated Colleges, and the Advising Centre. Students should contact these offices throughout the year for advice and information related to their academic career including academic performance, degree programs and requirements.

In support of the academic mission of the Faculty of Arts, with respect to students' overall academic experience while pursuing their academic career to its successful completion, the Faculty established the Advising Centre, South 319 Ross Building. Among other functions, the Advising Centre is responsible for the following:

- Advising for New Students: Advising for newly admitted, first-year students is coordinated by the Faculty of Arts Advising Centre and includes: orientation to the University; overview of degree programs and requirements; overview of enrolment and registration procedures (including course selection); and an overview of advising services available to students throughout the year.
- Advising for New Students (with Advanced Standing Credit): Students who transfer from another postsecondary institution may be eligible for advanced standing/transfer credit. After advanced standing/transfer credit is determined by the Admissions Office, students are required to attend an advising/orientation session at the Advising Centre prior to enrolling in courses.

### Sources of Advice and Information

The Office of the Dean of the Faculty of Arts, S928 Ross Building, (416) 736-5260; the Academic Advisors/Senior Tutors of the Colleges; the Undergraduate Program Directors of the Departments and Divisions; and the Office of Student Affairs, 103 Central Square, (416) 736-5144, are also available to assist students and faculty members.

### Student Responsibilities

Every effort is made to ensure that students in the Faculty of Arts have access to sound information and individual advice and guidance. Within this context, and within the framework of Faculty and program regulations, students are responsible for making their own choices regarding courses and programs. Students should take special care to:

- ensure the courses they choose meet all requirements for graduation;
- ensure the courses they choose meet prerequisites and are not exclusions or equivalents of other courses already taken;
- ensure the times of the courses they choose do not conflict;
- ensure the accuracy of their registration records, including all changes;
- note and observe deadlines and procedures, especially deadlines for adding and dropping courses;
- ensure full documentation is provided in support of petitions and other requests for special consideration;
- keep themselves informed about their academic progress, including their performance in individual courses. It is incumbent on faculty members to make available to their students assessments of their work and, if requested, to discuss students' progress with them. By the first week of classes in the second term, in each 6 and 9 credit course, all first year students must receive back at least one piece of letter graded work. Instructors in 6 and 9 credit courses are required to supply, on request and on reasonable notice, a mid-year letter grade to any first-year student before the end of January, based on the whole of the first term gradable work.

## Policy on Personal Relationships Between Instructors and Students

### Evaluation Procedures

It is the policy of the Faculty of Arts to endeavour to create and maintain a learning environment characterized by equitable conditions for all students. In order to further that goal and to ensure the continuing integrity of academic standards, it is expected that instructors who have a close personal relationship with a student who desires to enrol in their course will, in consultation with their Chair and/or Dean (or designate), make appropriate alternative arrangements for the evaluation of that student. If no appropriate alternative arrangements for evaluation can be agreed upon, the student may not enrol in the course.

Without limiting the generality of the relationships in question, these include the following: (a) where the instructor is the parent (or child) of the student; (b) where the instructor is the spouse or spousal equivalent of the student. Should a relationship such as the one described in (b) arise during the course and before completion of evaluation of the student, the instructor shall consult with the Chair and/or Dean (or designate) as to an appropriate evaluation procedure.

It is incumbent upon the instructor to exercise professional responsibility and to declare a potential or apparent conflict of interest where it exists. If the instructor fails to do so, the Chair and/or Dean (or designate) shall make the appropriate alternative arrangements for the evaluation of the student.

## Students Pursuing a Bachelor of Arts (BA) Degree in the Faculty of Arts

### Candidates for a First Degree

Most students in the Faculty are studying for their first undergraduate degree, a Bachelor of Arts (BA).

### Candidates for Reclassifying a BA Degree as an Honours BA Degree

Students who have graduated in a BA degree program in the Faculty of Arts and have maintained the minimum honours standing in 90 credits, may take additional courses in order to obtain an Honours BA degree in the same subject. The same subject may be combined with a second major or minor. If they are successful, their BA degree is reclassified as an Honours BA degree. Applications may be obtained from the Office of the Registrar, West Office Building.

### Candidates for Second and Subsequent Degrees

Students who hold a first Bachelor of Arts (BA) degree from an accredited institution, and who are admissible according to Faculty and University policies, may pursue a second (or subsequent) degree program in the Faculty of Arts.

Eligibility for admission and standing will be assessed according to performance in the first degree. Students will be assessed as eligible for an Honours BA if they have a 5.0 cumulative grade point average on all courses completed for the first degree, including failed courses. Students who are eligible for an Honours BA program will be enrolled in Honours, but may elect to graduate with a BA degree.

Students admitted to a BA program will be granted advanced standing credit in accordance with the University's Residence/In-Faculty requirement. Under certain circumstances, students admitted to a BA degree program may qualify to proceed in an Honours BA, however, the advanced standing credit granted upon admission will not be amended.

All second (and subsequent) degree candidates must meet the Residence/In-Faculty requirements for their program, and must satisfy all upper-level requirements and requirements in the major/minor subject(s). Grade point averages are calculated for students in second (or subsequent) degree programs only on the courses taken for that degree, and not on courses taken to satisfy requirements for the first degree.

For further details, students should consult the Advising Centre, S319 Ross Building, or the Admissions Office.

## Students Not Pursuing a Bachelor of Arts (BA) Degree in the Faculty of Arts

Students who are not pursuing a Bachelor of Arts (BA) degree in the Faculty of Arts fall into the following categories.

### Special Students

There are three groups of Special Students. The deadline for applications for all categories of Special Students is August 1.

### Students from Other Universities

These students are pursuing a degree at another university and have a letter of permission from their home institution to complete courses at York towards that degree.

Contact the Admissions Office, 150 Atkinson, (416) 736-5000 for application information.

### First Degree Holders

These students hold a first degree from York or another accredited institution and wish to take additional undergraduate courses in the Faculty, not for degree credit, but to broaden their knowledge and/or deepen their specialization.

For students applying from another accredited institution, application information is available from the Admissions Office, 150 Atkinson, (416) 736-5000. For students applying from York University, application information is available from the Office of the Registrar, West Office Building, (416) 736-5440.

### Non-Degree Students

Students who neither hold a degree nor wish at present to apply for admission to a degree program may be admitted to take up to 18 credits in any academic session. Students in this category only, who subsequently gain admission to a degree program, may apply to have these courses considered for advanced standing credit towards the degree.

Contact the Admissions Office, 150 Atkinson, (416) 736-5000 for application information.

### Auditors

An auditor attends classes and participates in a course in the same way as other students, but does not submit assignments or write tests or examinations. Students registered for a degree at York University may audit a course in the Faculty of Arts provided they obtain the permission of the course director. Persons from outside the University may request permission to audit up to 18 credits. Further information about admissibility, application procedures, courses available, and fees may be obtained at the Office of the Registrar, West Office Building, (416) 736-5440.

### Course Loads

The following course loads apply to students in the Faculty of Arts. In certain circumstances the Faculty may set other limits.

#### Fall/Winter Session

**Normal Load:** The normal course load for students in the Fall/Winter Session is 30 credits. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session.

**Maximum Load:** Students may take a maximum of 36 credits overall (and 18 credits per term) without petitioning.

#### Summer Session

During the Summer Session, students may take a maximum of 15 credits. Within this limit, no more than 6 credits may be taken during one six-week term. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session.

## Residence Requirement and In-Faculty Courses

### General Guidelines

While allowing students to take a certain number of courses at other Universities and in other Faculties of York University, in order to meet the Residence Requirement, the Faculty of Arts requires that students complete a portion of their courses as follows:

- (a) At least 30 credits must be taken at York University;
- (b) At least half (50%) of the requirements in each Arts major/minor must be taken in the Faculty of Arts.

In addition, any Departmental/Divisional requirements for the major/minor must be satisfied.

*Note: Courses taken to satisfy (b) will also satisfy (a). In some cases, satisfying (b) will automatically satisfy (a). In-Faculty courses are defined as those with an "AS" prefix.*

The following table lists the minimum number of In-Faculty courses required to satisfy the major/minor requirements described in part (b) above.

Program	Major 1	Major 2	Minor
Honours BA			
Specialized	27 credits		
Single Major	21 credits		
Major/Minor	21 credits		15 credits
Double Major			
-unlinked	21 credits	21 credits	
-linked	18 credits	18 credits	
BA	15 credits		

These minimum requirements apply to all students in the Faculty of Arts; individual programs may have additional requirements.

### Co-Registration in the Faculty of Education:

Students enrolled in the Faculty of Arts may apply for admission to the Pre-Service program of the Faculty of Education. If they are accepted, they may co-register in the Faculty of Education and upon successful completion of the separate degree requirements of both Faculties will be awarded two degrees: Honours Bachelor of Arts (BA) and a Bachelor of Education (BEd) or Bachelor of Arts (BA) and Bachelor of Education (BEd).

Although the Arts and Education courses are taken concurrently, they are counted separately by each Faculty. Grade Point Averages for courses in the two Faculties are also calculated separately. Thus, the 30 Education credits required for the BEd are independent of the 120 credits required for an Honours BA, or the 90 credits required for a BA. Therefore, a student completing the requirements of both the BA and the BEd would complete a total of 150 credits for the Honours BA/BEd, or 120 credits for the BA/BEd.

### Credit for Education Courses:

Faculty of Arts students who are co-registered in the Faculty of Education may count Education courses taken beyond the requirements for the BEd for credit towards the Honours BA or BA program as Out-of-Faculty courses.

Faculty of Arts students who are not co-registered in the Faculty of Education may receive Arts degree credit for non-practicum courses in accordance with the Faculty of Arts regulations on Residence Requirement/In-Faculty Courses.

### Honours Programs Jointly with the Faculty of Environmental Studies:

Students in the Faculty of Arts may pursue an Honours (Double Major) or Honours (Major/Minor) program with the Faculty of Environmental Studies, subject to the following regulations:

- Students must maintain Honours standing, a cumulative grade point average of 5.0 or above over all courses including those in Environmental Studies;
- Faculty of Arts degree requirements and program regulations apply.

### Major in Environmental Studies:

- 42 credits in Environmental Studies, including: ENVS 1000 6.0, ENVS 2000 3.0, 3 credits in the Environmental Studies Foundations series at the 2000-level, ENVS 2500 6.0, ENVS 3000 3.0, 12 credits at the 4000-level; and 9 additional credits at the 3000-level or higher. (36 credits for the Linked Interdisciplinary programs combined with the Science and Society program and the Urban Studies program in the Faculty of Arts).

### Minor in Environmental Studies:

- For details about degree requirements in Environmental Studies, students should consult the Faculty of Environmental Studies.
- For both the major or minor in Environmental Studies, students will also complete the requirements of an Honours BA in the Faculty of Arts. Students successfully completing this program will receive an Honours BA degree. For information on admission requirements and procedures, consult the Advising Centre, S319 Ross Building.
- The interdisciplinary programs in Science and Society or Urban Studies may also be pursued as an Honours (Double Major) Linked program with Environmental Studies. Consult the Advising Centre, S319 Ross Building for more information.
- Students should be aware that in order to complete the requirements of the Honours (Double Major) or Honours (Major/Minor) programs, it may be necessary to complete more than 120 credits.

### Honours Programs Jointly with the Faculty of Fine Arts:

Students in the Faculty of Arts may pursue an Honours (Double Major) or Honours (Major/Minor) program with the Faculty of Fine Arts.

Fine Arts Honours majors which may be pursued by students with any Honours major in the Faculty of Arts:

- Visual Arts (studio)

Faculty of Arts degree requirements and program regulations apply. Students should consult the Faculty of Arts Programs of Study section of this Calendar for the requirements of specific majors and minors. Fine Arts courses taken by Arts students as part of these joint programs are considered Out-of-Faculty courses. Students who complete such a program receive an Honours BA degree from the Faculty of Arts. Students pursuing an Honours (Double Major) program should note that, in some cases, it may be necessary to complete more than a total of 120 credits in order to satisfy requirements. For further details, consult the Advising Centre, S319 Ross Building.

All Fine Arts majors/minors require an evaluation. Depending on the Department, this may include a personal interview, an audition, a written exercise, or portfolio evaluation. For information on admission requirements in Fine Arts areas, students should consult Fine Arts Liaison and Advising, 213 Centre for Fine Arts.

## Honours Programs Jointly with the Faculty of Pure and Applied Science:

Students in the Faculty of Arts may pursue an Honours (Double Major) or Honours (Major/Minor) program with the Faculty of Pure and Applied Science.

Honours majors in Pure and Applied Science which may be pursued by students with an Honours major in the Faculty of Arts\* (see Note below):

- Earth and Atmospheric Science (Atmospheric Science stream – 40 credits or Earth Science stream – 45 credits)
- Physics and Astronomy (Physics stream – 44 credits or Astronomy stream – 43 credits)

The interdisciplinary program in Science and Society may be pursued as an Honours (Double Major) Linked program with either Earth and Atmospheric Science or Physics and Astronomy (described above). Consult the Advising Centre, S319 Ross Building for more information.

*\*Note: The following Faculty of Arts Honours major programs of study may not be pursued jointly as an Honours (Double Major) with the Faculty of Pure and Applied Science—Computer Science, Geography, Information Technology, Kinesiology, Mathematics and Psychology.*

Honours minors in Pure and Applied Science which may be pursued by students with any Honours major in the Faculty of Arts:

- Biology – 30 credits
- Chemistry – 30 credits
- Physics and Astronomy (Physics stream – 32 credits or Astronomy stream – 37 credits)

Faculty of Arts degree requirements and program regulations apply. Students should consult the Faculty of Arts Programs of Study section of this Handbook for the requirements of specific majors. Students who complete such a program receive an Honours BA degree from the Faculty of Arts. Students pursuing an Honours (Double Major) or an Honours (Major/Minor) program should note that, in some cases, it may be necessary to complete more than a total of 120 credits in order to satisfy requirements. For further details, consult the Advising Centre, S319 Ross Building.

## Letters of Permission

Letters of Permission allow Faculty of Arts students to receive credit at York for courses taken at other universities. In order to receive credit for such courses, a Letter of Permission must be obtained prior to enrolling.

Several formal programs exist for students to pursue study at universities in other countries. Where formal programs do not exist, and academic and personal circumstances warrant, individual arrangements may be made. For further information contact the Office of Student Affairs, 103 Central Square, (416) 736-5144.

Application forms for Letters of Permission are available at the Office of the Registrar, West Office Building.

Courses which students propose to take on a Letter of Permission must be acceptable to the Faculty of Arts teaching unit best able to judge their academic merit. The Faculty is under no obligation to accept courses taken without its permission.

Students must be in good academic standing to be eligible for a Letter of Permission; students under Academic Warning or Debarment Warning are not eligible.

In order to receive credit for courses taken on a Letter of Permission, students must arrange for the host institution to submit an official transcript to the Office of the Registrar, West Office Building. A minimum grade of C as understood in the Faculty of Arts is required for credit to be granted. Grades earned in courses taken at other postsecondary institutions are not part of the student's York transcript and are not incorporated into the student's Grade Point Average in the Faculty of Arts.

## Summer Courses

### Courses Taken at York University:

The Faculty of Arts offers a limited number of courses in the summer. Courses are also offered in Italy by the Department of Languages, Literatures and Linguistics. In addition, Independent Study, Directed Reading and Thesis courses are offered by some departments. Students

interested in arranging such courses should inquire at the relevant Department/Division.

Atkinson offers courses which may be taken for degree and major credit by Faculty of Arts students. Individual programs may place restrictions on the number and nature of summer courses taken for program credit. Students are responsible for ensuring that any summer courses taken conform to the Faculty of Arts regulations on Residence Requirement/In-Faculty Courses; and that they fulfill major, minor and Faculty-wide requirements; and do not violate regulations relating to prerequisites, corequisites and equivalent and excluded courses.

### Courses Taken at other Universities:

Faculty of Arts students who wish to receive credit for courses taken at other universities must obtain a Letter of Permission from the Office of the Registrar prior to enrolling in these courses.

## Independent Reading Courses

Students may wish to pursue intensive work with a particular faculty member on a topic of study not offered in a particular academic session. The Faculty of Arts provides for such Independent Reading Courses which are subject to the guidelines of the Departments and Divisions, and to the following regulations:

- Students may take Independent Reading Courses only after having successfully completed 24 credits in the Faculty of Arts.
- The maximum permissible number of Independent Reading Courses depends on a student's program type. Students in Honours BA programs may take 24 such credits; students in a BA program may take 18 such credits.
- Within their last 30 credits, students may take a maximum of 12 credits in Independent Reading Courses.
- Students may take a maximum of 12 credits of Independent Reading Courses with the same faculty member.
- The student and the faculty member must agree on a written description of the course, its content, and its method of evaluation at the time of enrolment in the course, and submit this description for approval according to the requirements of the unit teaching the course. Copies must be deposited with that unit, and the student and faculty member should each retain a copy.

## Degree Requirements

Degree requirements in the Faculty of Arts refer to the following categories of courses.

### General Education Courses

The Faculty believes that students will benefit from taking courses which provide a broad interdisciplinary perspective, in addition to courses which focus on a specific subject. The required interdisciplinary courses, called General Education courses, are offered by three academic units, the Divisions of Humanities, Natural Science and Social Science.

The Faculty of Arts Foundations courses are part of the General Education requirement and are affiliated with the appropriate Faculty of Arts Colleges. These courses emphasize critical skills, especially writing, and provide a supportive learning environment. The connection to one of the Faculty of Arts Colleges — Calumet, Founders, McLaughlin, Stong, or Vanier — enables students to participate more fully in college life and co-curricular events.

### Major (and Minor) Courses

In addition to taking courses which contribute to their broad knowledge, students are required to specialize in a specific subject or combination of subjects. The area of primary concentration is known as the major; an area of secondary concentration (if any) is known as the minor.

Students may choose to major/minor in a specific subject when they enter the University; or they may wait until they have completed up to 24 credits. At this point, students must choose a major/minor, but subsequent changes are possible. In selecting courses, students who are undecided should try to take introductory courses in a number of potential major subjects. This will allow them to proceed in their subject(s) of choice without a delay which might otherwise occur.

## Elective Courses

Electives are courses which are intended to broaden the educational experience of students beyond their area of specialization. They include most courses which a student does not use to fulfill either General Education requirements or major/minor requirements.

Courses not considered to be electives are:

- major/minor courses taken above the required number;
- non-major/minor courses taken within the major/minor subject (e.g. AS/FR 1020 6.0 is a non-major French course);
- courses outside the major/minor taken to fulfill major/minor requirements (e.g. AS/COSC 1520 3.0 and AS/COSC 1530 3.0 are Mathematics for Commerce requirements);
- courses which are cross-listed or designated as equivalents or exclusions to courses offered by the major/minor program (e.g. AS/MATH 1530 3.0 is cross-listed to AS/ECON 1530 3.0).

## Upper-level Courses

The Faculty also considers it good educational practice to ensure that students take a number of courses at the 3000-level and/or 4000-level. (A course's level is indicated by the first digit of its number.)

## In-Faculty Courses

In-Faculty courses are courses offered by the Faculty of Arts as indicated by the Faculty prefix "AS."

## Program Types

The Faculty offers the following types of programs.

### Honours BA Programs

These are 120 credit programs. They require more specialization, a higher minimum performance, and in some cases, different courses than does the BA program. There are four kinds of Honours BA programs.

**Specialized Honours BA Program:** This is the most highly specialized program type in the Faculty of Arts. Students in a Specialized Honours program must complete a minimum of 54 credits in their major subject. Some programs require more than 54 credits in the major subject for the Specialized Honours BA. For details of individual programs, see the section on Programs of Study.

**Honours (Single Major) BA Program:** Students in an Honours (Single Major) program have one major subject in which they must complete a minimum of 42 credits. Some programs require more than 42 credits in the major subject for the Honours (Single Major) BA. For details of individual programs, see the section on Programs of Study.

**Honours (Double Major) BA Program:** Honours (Double Major) programs involve two areas of primary specialization. There are two types of Honours (Double Major) programs:

- **Unlinked:** Most Double Major programs involve two independent subjects of concentration such as History and English, or Psychology and French Studies. The two majors are considered to be unlinked. Students must usually complete a minimum of 42 credits in each major. Some programs require more than 42 credits in each major subject for the Honours (Double Major) BA. For details of individual programs, see the section on Programs of Study.
- **Linked:** Certain interdisciplinary majors (for example, Law and Society) must be taken in conjunction with other specified majors. The two majors, in these cases, are considered to be linked. Students must complete a minimum of 36 credits in each major. Some programs require more than 36 credits in each major subject for the Honours (Double Major) BA. For details of individual programs, see the section on Programs of Study.

Students may also combine any Honours major in the Faculty of Arts with an Honours major in the Faculties of Environmental Studies, Fine Arts, or Pure and Applied Science.

*Note: The following Faculty of Arts Honours major programs of study may not be pursued jointly as an Honours (Double Major) with the Faculty of Pure and Applied Science—Computer Science, Geography, Information Technology, Kinesiology, Mathematics and Psychology.*

Students taking an Honours major in Anthropology in the Faculty of Arts may pursue an Honours (Double Major) program with Music (Ethnomusicology) in the Faculty of Fine Arts.

**Honours (Major/Minor) BA Program:** Students in this type of program have one major subject in which they must complete a minimum of 42 credits. In addition to the major, they have an area of secondary specialization, known as a minor, in which they must complete a minimum of 30 credits. Some programs require more than 30 credits in the minor subject for the Honours (Major/Minor) BA. For details of individual programs, see the section on Programs of Study.

Students may also combine any Honours major in the Faculty of Arts with and an Honours minor in the Faculties of Environmental Studies, Fine Arts, or Pure and Applied Science.

## BA Program

This is a 90 credit program which requires some specialization, a minimum of 30 credits, in a single area of concentration (Major), as well as more general courses. Some programs require more than 30 credits in the major subject for the BA. For details of individual programs, see the section on Programs of Study.

## Designation of Honours BA or BA Program

**Automatic Honours BA Designation:** Students are automatically considered to be in an Honours BA program provided they achieve and maintain a cumulative grade point average of at least 5.0.

**Automatic BA Designation:** Students are automatically considered to be in a BA program if they fail to achieve or maintain the cumulative grade point average of at least 5.0 required for an Honours BA program.

**Option to Graduate with a BA Degree:** Students registered in an Honours BA degree may opt to graduate with a BA degree if they fulfill program requirements. Students who wish to take advantage of this option should complete the relevant form at the Office of the Registrar, West Office Building, by mid-December for graduation the following Spring, or by mid-July for graduation the following Fall.

## General Education Requirements

Students will select their General Education requirements in accordance with the following:

1. One 1000-level 9 credit Foundations course, in either the Division of Humanities or the Division of Social Science — to be successfully completed within the first 24 credits;
2. One 1000-level 6 credit course in the Division of Natural Science or in the Department of Biology, Chemistry, Earth and Atmospheric Science, or Physics — to be successfully completed prior to graduation, and preferably within the first 42 credits;
3. One 2000-level 9 credit Foundations course, in either the Division of Humanities or the Division of Social Science. If the 1000-level 9 credit Foundations course is taken in the Division of Humanities, then the 2000-level 9 credit Foundations course must be taken in the Division of Social Science (and vice versa) — to be successfully completed within the first 48 credits;
4. Breadth requirement — will be satisfied by successfully completing the General Education/Foundations courses described above. (Breadth requirement is described below.)

The Breadth requirement must be successfully completed before graduation and requires at least 6 credits from each of the following areas:

Area I	Area II
English	Anthropology
French Studies	Economics
History	Geography
Humanities	Political Science
Languages, Literatures, & Linguistics	Psychology
Philosophy	Social Science
	Sociology

*Note: Computer Science, Information technology, Kinesiology and Health Science, and Mathematics courses, will satisfy neither requirement, unless they are cross-listed with a unit listed above.*

## Requirements by Program Type

The following requirements apply to all Faculty of Arts students. Each program of study (major or minor) may stipulate additional requirements. For details of individual programs, see the section on Programs of Study. Also consult the section on Academic Standing.

### Honours BA Programs

In order to graduate with an Honours BA Degree, students must successfully complete a minimum of 120 credits which fulfill all of the following requirements.

#### Specialized Honours BA

## Grading System

Refer to the *Grades and Grading Schemes* section.

### Passed Courses

A passed course is one in which the student has achieved a grade of D or better. A student who has received a passing grade for a course may not repeat that course or take an equivalent or excluded course for degree credit.

However, students are allowed to retake a passed course once for academic degree or certificate credit ONLY IF the student has failed to achieve sufficient standing to proceed in a core or prerequisite course in a degree or certificate program, and if no alternative remedies are provided. When a student is allowed to repeat a passed course for academic degree or certificate credit, both grades are counted in the Grade Point Average and both grades will be included on a transcript. A course will only be credited once towards satisfaction of academic degree or certificate credit requirements. Passed courses which are repeated will have the notation "REP" (repeated) beside the first occurrence of the course on a transcript.

### Failing Courses

There are two failing grades in the Faculty of Arts—E (marginal failure) and F (failure). Grades of E and F are calculated into Grade Point Averages. Students are allowed to retake a failed course (grade of E or F) once for academic degree or certificate credit. Where a student retakes a course in which a grade of E or F is received and passes it, the passing grade is also calculated into the Grade Point Average. Failed courses which have been repeated will have the notation "REP" (repeated) on a transcript.

### Grades from Other Universities

Grades for courses taken at other universities either prior to admission to York or on a York Letter of Permission are not listed on the York transcript and are not included in the calculation of Grade Point Averages in the Faculty of Arts. Where it is necessary for the Faculty to take into consideration a student's grades from another institution, this Faculty's definitions of grades apply.

### Alternative Grading Option

#### Pass/Fail

The Faculty wants capable upper-year students to feel free to enrol in elective/free-choice courses without fear of jeopardizing their Grade Point Average. For this reason, students may take a limited number of such courses offered within the Faculty of Arts for full degree credit on an ungraded basis. Courses taken on this basis are listed on the transcript as "Pass" or as "Fail". Neither of these two grades is calculated into the student's Grade Point Averages. The course director forwards a written evaluation of the student's work in the course to the student and to the

Office of the Registrar, West Office Building. The following regulations apply to courses taken as a Pass/Fail Alternative Grading Option.

- Only students who are not under Academic Warning or Debarment Warning may take such courses.
- Students may apply to take such courses only after they have successfully completed 24 credits.
- Courses taken on a Pass/Fail Alternative Grading Option may not be used for courses taken to satisfy major, minor, General Education, Certificate requirements, or 1000-level Science courses.
- Students registered in an Honours program may take a maximum of 12 credits as a Pass/Fail Alternative Grading Option.
- Students registered in the Ordinary program may take a maximum of 6 credits as a Pass/Fail Alternative Grading Option.
- Students who wish to designate a course as Pass/Fail Alternative Grading Option must do so within the first two weeks of the term in which the course begins; they must first obtain the signature of the course director on the form available for this purpose from the Office of the Registrar. The completed form should then be returned to the Office of the Registrar.
- Students who elect to complete a course as a Pass/Fail Alternative Grading Option can switch back to a graded basis until the last date to drop a course without academic penalty.

### Credit/No Credit

The notations "Credit" and "No Credit" will be used when an entire course is being offered on an ungraded basis. "No Credit" will count as an earned failing grade of F in the Grade Point Average.

### Grades in Courses

#### Marking Scheme

The means of determining the final grade in a course must be announced in writing in each course within the first two weeks of classes. Such information must include the kinds of assignments, essays, examinations, and other components which make up the grade; their relative weights; and any other procedures which enter into the determination of the final grade.

In exceptional circumstances, a previously announced marking scheme for a course may be changed, but only with the consent of all students. The new marking scheme must also be distributed in written form.

Instructors are obligated to provide a mechanism by which students can be apprised of their progress in a course; in particular, students must be able to make an informed decision on whether to withdraw from a course. This will normally mean that students will receive some graded feedback on work worth at least 10% of the course grade before the deadline for withdrawing from that course. Instructors are urged to provide more feedback where possible.

In courses where percentages are used as a means of reporting grades on individual pieces of work, the following conversion table is to be used in converting percentage grades to letter grades, unless alternative provisions for scaling and/or conversion are announced to students in writing within the first two weeks of classes.

From Percentage	To Letter Grade
90-100	A+
80-89	A
75-79	B+
70-74	B
65-69	C+
60-64	C
55-59	D+
50-54	D
40-49	E
0-39	F

## Requests for Reappraisal of Final Grades

Students may, with sufficient grounds, request that a final grade in a course be reappraised. Further information may be obtained from the Department/Division offering the course. Students applying to have a grade reappraised in a Faculty of Arts course should note the following:

- Requests for reappraisal must be filed with the unit offering the course within 21 calendar days of the release of the final grade in the course.
- Students may question the marking of specific pieces of work, or the overall course grade. Normally, however, only written work can be reassessed.
- When a student asks for a reappraisal, an original grade may be raised, lowered, or confirmed.
- Students wishing to request the reappraisal of a final grade should fill out the appropriate form available from the Department/Division offering the course and submit it to the same office.
- The decision of the Department/Division may be appealed to the Faculty of Arts Executive Committee only on grounds of procedural irregularity or new evidence.

## Deferred Standing and Aegrotat Standing

In some cases, students may be eligible for deferred standing or aegrotat standing on the grounds of illness, accident, or family misfortune.

### Deferred Standing

Deferred standing (an extension) allows a student additional time to write a test or final examination, or to complete an assignment after the Faculty's deadline for submission of term work.

In the Faculty of Arts, deferred standing is arranged by means of a form called a Deferred Standing Agreement (DSA). The deadlines for submitting a DSA are January 15 (Fall term 1, 3 and 4 credit courses), and May 1 (6 and 9 credit courses, and Winter term 1, 3 and 4 credit courses). A petition for deferred standing will be accepted only if the course director indicates on a DSA form that she or he refuses to approve deferred standing.

### Aegrotat Standing

In cases where a student cannot be expected to complete the work for a course, the phrase "Aegrotat standing" (from the Latin for "she/he is ill") is substituted for a grade on the transcript. Aegrotat standing is seldom granted, and only in exceptional circumstances where deferred standing is inappropriate.

### Petitions for Deferred Standing and Aegrotat Standing

Petitions for deferred standing or aegrotat standing are expected to be submitted to the Petitions Committee within 48 hours of the DSA application deadline, and will not be accepted more than one month after the last day of examinations for the term in question without evidence of circumstances which account for the delay. It is the responsibility of the student to ensure that full documentation (medical or other) is provided in support of petitions for deferred or aegrotat standing. Appropriate forms and guidelines are available from the Office of the Registrar, West Office Building.

## Term Work, Tests and Examinations

### Term Work

Term Work includes reports, assignments, essays, tests and other written work assigned in a course with the exception of final examinations.

### Deadline for Submission

Term work must be submitted by the first day of the official Examination Period of the term in which the course ends. Instructors, departments and divisions may, however, set earlier deadlines for the submission of term work.

## Tests and Examinations

Tests and examinations are important parts of the educational process. They must be conducted under fair conditions which allow students to demonstrate what they have learned. Disruptions or attempts to obtain an unfair advantage are offences against academic process and carry severe penalties. (See Senate Policy on Academic Honesty and Academic Conduct). The following regulations apply:

### General Regulations

**Identification:** Students who are being tested or examined are required to present their Sessional Identification Card and a YorkCard.

**Answer Booklets:** Are the property of University. Test papers, examination booklets, and other answer forms remain the property of the University unless they are released by an instructor. Students may not remove them from the test or examination room without permission; nor may they possess blank examination booklets.

**Students' Right to Review:** Students may always have the opportunity, under properly controlled conditions, to review and discuss their graded test and examination answers, but final examination answer booklets (and at the discretion of the course director, other answer booklets) remain the property of the University and are retained by the teaching unit for a certain period of time before they are destroyed.

### Tests and Examinations During the Term

**Restriction at End of Term:** In the Fall/Winter Session, the total value of any test(s) or examination(s) given in the last two weeks of classes in a term must be no more than 20 per cent of the final mark for the course.

**Scheduling of Tests:** Except where testing is conducted during individual appointments which accommodate the schedules of students (for example: individual oral interviews in language courses, individually scheduled make-up tests), tests or examinations given during the term must be held within the hours regularly scheduled for the course in question.

**Students' Right of Refusal:** Students who are asked to write tests or examinations in contravention of the preceding two regulations may refuse to do so without academic penalty; they also have the right to raise the matter with the Chair of the Department or the Division in which the course is offered, or with the Dean.

### Formally Scheduled Examinations

**Final Examination Period:** There is a final examination period at the end of each term.

**Examination Schedules:** The dates and times of formally scheduled examinations are published each term in the student newspaper Excalibur. Examinations may last two or three hours.

**Missed Examinations:** A student who misses an examination should contact the Office of the Registrar, West Office Building, within 48 hours of the examination. A student who wishes to write a make-up examination must petition for deferred standing in the course.

**Rewriting of Examinations:** The Faculty has no provision for the rewriting of a final examination to improve a mark.

## Academic Standing

Academic standing depends on several factors including the number of courses a student has passed, the Grade Point Average achieved during a particular session ("Sessional Grade Point Average"), and the overall Grade Point Average ("Cumulative Grade Point Average").

## Honours BA Degree

### Qualifying for Honours:

**Students With No Previous Postsecondary Education:** Students who enter the Faculty of Arts with no prior experience at a postsecondary educational institution (such as a university or college) are automatically enrolled in an Honours program.

**Transfer Students:** Students who enter with prior experience at a postsecondary educational institution are enrolled in an Honours program if their prior Cumulative Grade Point Average (including failed courses) is at least the equivalent of 5.0 on the York scale. (*Note: Courses taken at other postsecondary institutions are not calculated as part of the student's Grade Point Average at York, nor do they appear on the York transcript.*)

#### **Continuing in Honours:**

To continue in an Honours program students must maintain a Cumulative Grade Point Average of at least 5.0.

#### **Graduating in Honours:**

To graduate in an Honours program, students must successfully complete (pass) at least 120 credits which meet Faculty of Arts and program requirements. The Cumulative Grade Point Average for all courses taken must be at least 5.0.

#### **Transferring from an Honours BA to a BA Program:**

**Opting to Graduate in a BA program:** Students who are eligible for Honours may opt to graduate in a BA program in the session in which they have completed their final course(s).

**Ineligibility to Continue in Honours:** Students whose Cumulative Grade Point Average falls below 5.0 may continue their studies only in a BA degree program.

**Re-entering Honours:** Students who are ineligible to continue in Honours because their Cumulative Grade Point Average has fallen below 5.0 may re-enter Honours if they raise their Cumulative Grade Point Average to 5.0 or above by the time they have successfully completed their 90th credit.

**Graduating with a BA Degree:** Students registered in an Honours program whose Cumulative Grade Point Average after completion of 90 credits falls below 5.0, but remains 4.0 or above, may request to graduate with a BA degree if they fulfill the BA degree requirements, or may continue in a BA program until those requirements are fulfilled. They may not continue in an Honours program and they may not take extra courses in a subsequent session in an effort to raise their cumulative average.

### **BA Degree**

#### **Graduating with a BA Degree:**

Students must successfully complete (pass) at least 90 credits which meet Faculty of Arts and program requirements. The Cumulative Grade Point Average for all courses taken must be at least 4.0.

#### **Courses taken Beyond the Normal Maximum—in Order to Raise Cumulative Grade Point Average**

Students in a BA program who have passed 90 credits in accordance with Faculty and program requirements, but whose Cumulative Grade Point Average is below 4.0 may attempt to raise their average to 4.0 by taking up to 12 additional credits, to a maximum of 102 credits. These courses must be above the 1000-level and must be taken at York; regulations on equivalent and excluded courses apply.

#### **Courses taken Beyond the Normal Maximum:**

Students in a BA program who successfully complete more than 90 credits and whose Cumulative Grade Point Average is at least 4.0 and less than 5.0 will have all credits counted towards their BA and their Cumulative Grade Point Average. Students in an Honours BA program who successfully complete more than 120 credits and whose Cumulative Grade Point Average is at least 5.0 will have all credits counted towards their Honours BA and their Cumulative Grade Point Average.

#### **Transferring to Honours:**

Students in a BA program who become eligible for Honours are transferred to an Honours program. Students who have graduated from the Faculty of Arts with a BA degree and whose record makes them eligible for Honours may pursue an Honours degree in the same subject.

## **Academic Honours**

The Faculty recognizes the academic excellence of its students in appropriate ways. The following honours are recorded on a student's transcript:

### **Scholarships and Merit Awards**

These include Merit Awards, Entrance Scholarships, Renewable Scholarships and In-Course Scholarships.

#### **Faculty of Arts Sessional Academic Achievement List:**

The Faculty of Arts Sessional Academic Achievement List recognizes outstanding academic achievement in the following ways:

Students taking 12 - 15 credits: in a given session who have attained a Sessional Grade Point Average of 8.0 or higher;

Students taking 18 or more credits: in a given session who have attained a Sessional Grade Point Average of 7.5 or higher;

#### **Graduating Honours:**

Students with high grade point averages are eligible for the following honours upon graduation from the Faculty:

##### **Honours BA Degree**

Summa cum laude: 8.0 or above Cumulative Grade Point Average; Magna cum laude: 7.8 - 7.99 Cumulative Grade Point Average; Cum laude: 7.5 - 7.79 Cumulative Grade Point Average. Dean's Honour Roll: 7.0 Cumulative Grade Point Average.

##### **BA Degree**

With Distinction: 8.0 or above Cumulative Grade Point Average; With Merit: 7.5-7.99 Cumulative Grade Point Average. Dean's Honour Roll: 7.0 Cumulative Grade Point Average.

## **Academic Penalties**

Students whose academic record does not meet Faculty or program standards are subject to the academic penalties of Academic Warning, Required Withdrawal, Debarment Warning, Debarment and Academic Probation.

### **Academic Warning**

Students whose Cumulative Grade Point Average falls below 4.0 at the end of any session, or who enter the Faculty with a Grade Point Average equivalent to less than 4.0 on the Faculty of Arts scale, receive an Academic Warning. Students on Academic Warning must achieve a Cumulative Grade Point Average of at least 4.0 within the next 24 credits taken, or earn a sessional grade point average of at least 5.0 in the session in which that 24th credit is completed and in each subsequent session until the cumulative average reaches 4.0, or be required to withdraw.

### **Required Withdrawal**

Students whose academic record shows marked weakness may be required to withdraw from their studies for one year, during which they are encouraged to identify and remedy any problems which may have contributed materially to their failure to perform up to their potential, and to reflect on their reasons for pursuing a university education. The following regulations apply to required withdrawals.

**Grade Point Average Below 4.0:** Students who have received an Academic Warning for a Cumulative Grade Point Average below 4.0 must achieve a Cumulative Grade Point Average of at least 4.0 within their next 24 credits taken or earn a sessional grade point average of at least 5.0 in the session in which that 24th credit is completed and in each subsequent session until the cumulative average reaches 4.0; otherwise, they must withdraw for twelve months. Should the student's cumulative grade point average fall below 2.5 at any time after completion of 24 credits, they will be required to withdraw.

**Grade Point Average Below 2.5:** Students who have not received an Academic Warning but whose Cumulative Grade Point Average on at least 24 credits is below 2.5 must withdraw for twelve months.

**Petition to Continue Without Interruption:** Students who have been required to withdraw may submit a petition to the Faculty of Arts Petitions Committee requesting permission to continue their studies without interruption. For further information, see the section on Petitions.

**Reactivation after Required Withdrawal:** Students who have been required to withdraw may apply for reactivation after the requisite period of absence by submitting a form obtainable from the Office of the Registrar, West Office Building. Students who return to their studies after such a required withdrawal (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive a Debarment Warning.

### Debarment Warning

Students who have been required to withdraw from the Faculty of Arts, or from another Faculty at York, or elsewhere receive a Debarment Warning upon continuing their studies in the Faculty. Students on Debarment Warning must achieve a Cumulative Grade Point Average of at least 4.0 within the next 24 credits taken or earn a sessional grade point average of at least 5.0 in the session in which that 24th credit is completed and in each subsequent session until the cumulative average reaches 4.0, and must then maintain this average. Students who do not fulfill these conditions will be debarred from the University. Students whose cumulative grade point average falls below 2.5 at any time while on debarment warning will be debarred.

### Debarment

Students who have already been required to withdraw because of their unsatisfactory academic record and whose record does not show improvement are debarred from the University. Debarment, the minimum period for which is normally two years, means that the student is no longer a student at York University.

**Petition to Continue Without Interruption:** Students who have been debarred may submit a petition to the Faculty of Arts Petitions Committee requesting permission to continue their studies without interruption.

**Reapplying after Debarment:** Students who have been debarred and who wish to resume their studies must apply for admission through the Admissions Office, and must provide persuasive evidence that they are ready and able to complete a degree program.

**Debarment Warning Remains in Effect:** Students who have been debarred and who subsequently resume their studies in the Faculty of Arts, whether by petitioning to continue without interruption or by reapplying for admission, receive an Academic Probation.

## Policy on Academic Honesty

A central purpose of the University is to teach students to think independently and critically. Cheating and other forms of academic dishonesty run counter to this purpose and violate the ethical and intellectual principles of the University; they are therefore subject to severe penalties. For more information, please see the Senate Policy on Academic Honesty (see section on University Policies and Regulations).

## Petitions for Exemptions from the Regulations

The purpose of academic regulations is to allow students to develop their interests and talents to the fullest in ways consistent with the philosophy and standards of the Faculty. In establishing academic regulations, the Faculty also recognizes that instances will arise where it makes sense, in the context of a student's academic career, to waive regulations which would otherwise apply.

### Petitions Committee

The Petitions Committee considers requests for exceptions to all Faculty regulations, including petitions to continue their studies without interruption from students who have been required to withdraw or debarred.

## Note on Grade Reappraisals

Requests for the reappraisal of final grades are not petitions in the formal sense. Such requests should be directed to the teaching unit offering the course in question.

### Right to Petition

Students in the Faculty of Arts have the right to petition for special consideration. It should be noted, however, that a petition is a request for the waiver of a regulation; it cannot be used to create legislation (for example: a degree program) that does not exist. Normally, petitions will not be considered by the Petitions Committee more than one year beyond the date of the release of grades for the session to which the petition relates.

### Petitions Procedures

Petitions are held in the strictest confidence. The committee considers the petition itself, any supporting documents (from professors or medical practitioners), and other relevant information contained in the student's record. Students may not appear in person.

### Initiating a Petition

To initiate a petition, students should obtain an instruction sheet and, where appropriate, an Attending Physician's Statement Form from the Office of the Registrar, West Office Building, (416) 736-5440. Advice on petitioning is available from the Office of the Registrar, from the Office of the Dean, S928 Ross Building, (416) 736-5260; and the Advising Centre, S319 Ross, (416) 736-5022. Petitions should be brought or mailed to the appropriate committee in care of the Office of the Registrar, West Office Building.

*Recently approved Senate policies on petitions and grade reappraisals are posted on the Web at [http://www.yorku.ca/admin/univsec/sen\\_comm/sac/index.htm](http://www.yorku.ca/admin/univsec/sen_comm/sac/index.htm). Students may contact the Office of the Registrar or their Faculty for further information.*

## Programs of Study - Arts

### African Studies

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

### Honours (Double Major) Interdisciplinary BA Program

The Faculty of Arts offers, under the Honours (Double Major) program, a pattern of courses in African Studies. Students participating as majors in African Studies must also select a major in one of the following departments/divisions: Anthropology, Economics, English, French Studies, History, Humanities, Political Science, Psychology, Sociology, or another approved discipline. In order to pursue a combination of studies not listed above, students must obtain permission from both the relevant departmental/divisional Undergraduate Program Director and the African Studies Coordinator. All African Studies majors should arrange their program of study in consultation with the African Studies Coordinator, Pablo Idahosa, 314 Founders College, and an advisor in their major department/division. Students who do not wish to formally register in the program, but who are interested in Africa, are also encouraged to consult with the Coordinator.

Since African Studies is considered a linked interdisciplinary program, students will combine a minimum of 36 credits in their chosen departmental/divisional major with a minimum of 36 credits in African Studies. Courses taken to meet African Studies requirements cannot also be used to meet the requirements of the departmental/divisional major. Once they have successfully completed 24 credits, students registered in African Studies will take the core course: AS/SOSC 2480 9.0\* Introduction to African Studies (\*Note: 6 credits of this course will count towards the African Studies major). In addition to the core course, students will take at least 30 credits in African Studies including a minimum of 6 credits in African Studies at the 4000-level. Students must complete a minimum of

18 credits at the 4000-level including at least 6 credits in African Studies and 6 credits in the departmental/divisional major.

Students who wish to follow this program of study should register in the Honours (Double Major) program and indicate both their departmental/divisional major subject and African Studies; for example, Honours (Double Major) Anthropology/African Studies.

For more information including a list and descriptions of African Studies courses, students should pick up a supplemental calendar from the program office, 217 Founders College.

**Please refer to the current Departmental/Divisional Supplemental Calendar for updated program/major requirements.**

## Business-Oriented Programs

### (Coordinated Program in Business, Public Policy and Administrative Studies)

Students interested in administration or business may delay their choice of program until the end of their first year by declaring the Coordinated program in Business, Public Policy and Administration. This is a specially designed entry program. Students interested in the Bachelor of Business Administration (BBA) are encouraged to apply directly to this program in Year I. However, those requiring a year in which to discover their interests and strengths, and to learn about other business options at York, may enter the Coordinated program in Year I. At the end of that year, which provides a common set of prerequisite courses, students may apply for admission to:

- Bachelor of Business Administration (BBA, Schulich School of Business)
- Bachelor of Administration Studies (BAS, Atkinson – evening study)
- Economics and Business (Honours BA, Faculty of Arts)
- Public Policy and Administration (Honours BA, Faculty of Arts)

or they may seek advising for a change of major to:

- Business and Society (Honours BA or BA, Faculty of Arts)
- Mathematics for Commerce (Honours BA or BA, Faculty of Arts)
- Another Honours BA or BA program in the Faculty of Arts

Normally, students in the Coordinated program select the following set of courses among their first 30 credits in the Faculty of Arts: (1) 9 credits in a 1000-level Humanities or Social Science Foundations course; (2) Economics AS/ECON 1000 3.0/1010 3.0; (3) one of Mathematics AS/MATH 1550 6.0 or AS/MATH 1530 3.0/1540 3.0 (cross-listed to Economics AS/ECON 1530 3.0/1540 3.0), or equivalent; (4) 6 credits in a 1000-level Natural Science course, or 6 credits in an elective; (5) 3 credits in an elective.

Students may choose to remain in the Coordinated Business program through second year if they are unsure of their choice between the four Arts business-related programs listed above. It is recommended, however, that they seek academic advice from the preferred program(s) to guarantee that their course selection is appropriate.

*Note: Students interested in any of the programs stemming from the Coordinated Business program are strongly advised to include Calculus among their OAC credits.*

## Certificate in Business Fundamentals

York University students may earn a Certificate in Business Fundamentals in addition to fulfilling the requirements for an Honours undergraduate BA degree. This Certificate is open to students in all undergraduate faculties except for students enrolled in the Schulich School of Business Bachelor of Business Administration program or the Atkinson Bachelor of Administrative Studies program. Students may not earn both a Certificate in Business Fundamentals and a Certificate in Non-Profit Management.

To qualify for possible admission to the Certificate in Business Fundamentals, students must complete 30 credits from a list of approved courses, and the cumulative grade point average in these 30 credits must be 5.0. There are a limited number of spaces available in the Certificate in Business Fundamentals, and therefore meeting the minimum requirements for application will not guarantee admission to the Certificate program. In order to be granted the Certificate in Business Fundamentals upon graduation, students must be qualified to graduate with an Honours BA (120 credits) and must therefore maintain an overall grade point average of 5.0 on all courses completed.

Application to the Certificate in Business Fundamentals may be made only after successfully completing at least 54 credits, and the successful completion of the following requirements with a minimum overall grade point average of 5.0.

Course requirements and application/admission requirements for the Certificate in Business Fundamentals are as follows:

- AS/ECON 1000 3.0 and AS/ECON 1010 3.0, or equivalent;
- At least 3 credits chosen from: AS/MATH 1300 3.0, or AS/MATH 1530 3.0, or AS/MATH 1550 6.0, or equivalent;
- At least 3 credits chosen from: AS/MATH 2560 3.0, or AS/ECON 2500 3.0, or AS/POLS 3300 6.0, or AS/PSYC 2020 6.0, or AS/PSYC 2021 3.0, or AS/SOCI 3030 6.0, or equivalent;
- At least 6 credits chosen from: AS/POLS 2100 6.0, or AS/POLS 2610 6.0, or AS/ECON 2300 3.0, or AS/ECON 2350 3.0, or AS/ECON 2400 3.0, or AS/ECON 2450 3.0, or AS/MATH 2580 6.0, or AS/PHIL 2070 3.0, or AS/PHIL 2075 3.0, or equivalent.

*Note: Students may take courses through Atkinson or Glendon College (subject to Degree Credit Exclusion(s) and In-Faculty regulations).*

Students in an Honours undergraduate BA program who have successfully completed at least 54 credits with an overall grade point average of 5.0, and who will also have successfully completed the requirements listed above by June 1 may apply to the Certificate in Business Fundamentals by March 15 of the year these requirements will be completed. The minimum acceptable overall grade point average for application and possible admission is 5.0. Since there are a limited number of spaces available, successful admission will be based primarily on the applicant's overall grade point average.

If admitted, students must successfully complete the following courses offered by the Schulich School of Business in the following sequence and over two academic sessions:

- SB/BFND 3100 3.0;
- SB/BFND 3200 3.0, (*Note: Degree Credit Exclusions: AS/ECON 3580 3.0 and AS/ECON 3590 3.0. Students who have successfully completed AS/ECON 3580 3.0 and AS/ECON 3590 3.0 with a minimum grade of C+ in each may not enrol in SB/BFND 3200 3.0, and are therefore exempted from this requirement.*);

- SB/BFND 4200 3.0.

In order to be granted the Certificate in Business Fundamentals upon graduation, students must be qualified to graduate with an Honours BA (120 credits) and must therefore maintain an overall grade point average of 5.0 on all courses completed.

Further information about the Certificate in Business Fundamentals is available from the Coordinator of the Business and Society program or from the Faculty of Arts Advising Centre, South 319 Ross Building.

The program combines courses that provide the analytical tools necessary to study and research business and society with courses that focus on the political, social and cultural context of business, both in Canada and in the global system. It offers a better understanding of the interaction of economic and social development.

The Centre for Academic Writing assists students to become effective independent writers, within both their academic life and elsewhere. The primary means of achieving this objective is through the Centre's individualized tutoring program. The Centre also regularly offers mini-courses on various issues related to writing effectively in university.

In addition, students can enrol in one of the Centre's credit courses on writing in the Humanities or the Social Sciences. ## Communication Arts – Joint Program With Colleges of Applied Arts and Technology

Students in the Faculty of Arts may study concurrently towards an Honours BA/BA Degree at York and a Diploma or Certificate in one of four areas of study in Communication Arts at Centennial or Seneca College. The following areas are available through the Community Colleges:

- Book and Magazine Publishing (Centennial - Certificate)
- Corporate Communications (Centennial - Diploma)
- Creative Advertising (Seneca - Diploma)
- Radio and Television Broadcasting (Seneca - Diploma)

Faculty of Arts students in an Honours BA program are eligible for entry to the Joint program after the successful completion of a minimum of 90 credits at York, and students in a BA program are eligible for entry after the successful completion of 60 credits at York. All students must complete the requirements for an Honours BA or BA degree in the Faculty of Arts. The Joint program normally takes only one year longer to complete because some advanced standing credit is given by York and the College, if conditions of eligibility for advanced standing are met. For further information, contact the Advising Centre, S319 Ross, (416) 736-5022.

## Communication Studies

*Note: The Communication Studies program was formerly called the Mass Communications program.*

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

### Honours (Double Major) Interdisciplinary BA Program

For the most current information, see the Communication Studies program supplemental calendar issued in the spring of each year.

Communication Studies must be pursued jointly with studies in Anthropology, Classical Studies/Classics, Computer Science, Creative Writing, East Asian Studies, Economics, English, French Studies, German, Humanities, Italian, Linguistics, Philosophy, Psychology, Political Science, Religious Studies, Russian, Spanish, Sociology, or Women's Studies. Students may also undertake a double major with another discipline in the Faculty of Arts, provided they attain approval from the Communication Studies Program Coordinator and the Undergraduate Program Director of the discipline. Students must combine at least 36 credits in departmental specialization courses with at least 36 credits in the field of Communication Studies. Courses taken to meet Communication Studies requirements cannot also be used to meet the requirements of the departmental/divisional major. Students must arrange their program of study in consultation with the above departments and with the Communication Studies Coordinator, or an advisor.

Students in this program will take the Core Course - AS/SOSC 2310 9.0\* Introduction to Communications (*\*Note: 6 credits of this course will count towards the Communication Studies major*), 6 credits at the 3000-level from a special series of Communication Studies courses, 6 credits in a 4000-level senior seminar, and 18 credits from the approved Communication Studies options. Students must take a total of at least 18 credits at the 4000-level, including at least 6 credits in the program and at least 6 credits in the departmental/divisional major subject.

Students who wish to follow this pattern of studies should register in the Honours (Double Major) program and indicate both their departmental/divisional major subject and Communication Studies, for example, Honours (Double Major) Political Science/Communication Studies.

*Please refer to the current Departmental/Divisional Supplemental Calendar for updated program/major requirements.*

### Creative Writing

*Note: Please refer to the Creative Writing Supplemental Calendar for details on program requirements and course offerings.*

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

The objective of the Creative Writing program is to give students with the talent and ambition for a career in writing the opportunity to develop their talent and make it the centre of a program of university study. Two major assumptions inform this program: first, that the capabilities of talent can be increased through training; and second, that the necessary curriculum for aspiring writers consists of the study of language and writing idioms of past and contemporary writers.

The program aims to expose students to the history of formal experimentation and growth in particular genres, and to encourage specialization in two genres while emphasizing literary writing rather than formula writing.

The Creative Writing program is an honours program. Students who wish to apply for admission to the Creative Writing program are strongly advised to take one of the following courses among their first 30 university credits: AS/EN 1200 6.0 Introduction to Literary Genres or AS/EN 1300 6.0 Literature and Theory: An Introduction.

Students wishing to major in the Creative Writing program should apply for AS/HUMA 2900 9.0\* Introduction to Creative Writing (*\*Note: 6 credits of this course will count towards the Creative Writing major*), at the end of their first year of study. Students must successfully complete AS/HUMA 2900 9.0\* (*Note: 6 credits of this course will count towards the Creative Writing major*) or have its equivalency before applying for admission to the Creative Writing program. Students may apply for admission to the program at the end of their second year of study, and before the completion of their first 78 credits.

Students will plan a course of study with the approval of the Coordinating Committee of the program in Creative Writing.

## East Asian Studies

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

The East Asian Studies program offers a broadly based approach to the study of the peoples and civilizations of East Asia. It is a rich and flexible program of study that brings together courses from the academic disciplines of the Humanities, Social Sciences, Languages and Literatures, and Fine Arts. Most of the existing courses focus on Chinese and Japanese societies past and present, but more and more new courses are being developed that deal with Korea, or with those parts of Southeast Asia that sustain close cultural ties with East Asia.

The East Asian Studies program offers a number of undergraduate degree programs; the requirements for which are described in detail in the following sections. These degree programs have certain characteristics in common:

1. The focus of the degree programs is on the modern period. However, it is emphasized that students also should learn to appreciate the cultural traditions behind developments during the 19th and 20th centuries.
2. East Asian Studies is an interdisciplinary program. Students are trained to use the concepts, skills, and information of at least two academic disciplines.
3. Competence in an East Asian language (usually Chinese or Japanese) is a feature of all of the degree programs except the Honours Minor.

Within the general guidelines and requirements, students could choose from a rich array of course offerings every year to create a combination which best serves their academic interests and career aspirations. Students should consult the Coordinator when designing their programs of study.

### Program Distribution Requirements (common to all programs)

1. A student must complete courses in East Asian Studies from at least TWO departments or divisions.
2. A student must complete at least one course which is concerned mainly with pre-modern East Asia.
3. Students concentrate in either Chinese or Japanese studies, but must also study other East Asian cultures outside their area of concentration:
  - a) A student who concentrates in Chinese studies must complete at least 12 credits in non-Chinese subjects within East Asian Studies.
  - b) A student who concentrates in Japanese studies must complete at least 12 credits in non-Japanese subjects within East Asian Studies.
  - c) Language/translation courses will not meet program distribution requirements.
4. All students must complete at least one of the following core courses:
  - AS/HUMA 1400 9.0 (*Note: 6 credits of this course will count towards the East Asian Studies major*), or;
  - AS/CH 2700 6.0, or;
  - AS/HIST 2710 6.0.

### Specialized Honours BA Program

Students will take at least 54 credits in East Asian Studies, including at least one core course and at least 12 credits (other than language/translation courses) at the 4000-level. This requirement would normally be met by successful completion of AS/CH 3000 6.0 or AS/JP 3000 6.0. It may also be met by passing a competency test, or by successful completion of another course recognized for the purpose.

**Economics and Business****Specialized Honours BA Program**

The Department of Economics offers a limited enrolment Specialized Honours program in Economics and Business. Students who have taken 12 prerequisite credits with the required minimum program averages are encouraged to apply for admission to the program in January of the academic session in which they are completing their first year (normally 24 to 30 credits). The required average in the prerequisites (and any additional core courses) is B or 6.0, and the required overall average is C+ or 5.0. Applications received after the deadlines—the first Monday in February and before August 1—may be wait-listed. Because competition is keen, admission is not guaranteed for all students with the minimum requirements. Students majoring in Economics and Business must complete 78 credits in the program, as outlined below.

*Note: Because some of the program's core and area of concentration courses have specific prerequisites, students may find that additional courses must be taken to fulfill the Economics and Business requirements.*

## French Studies

The Department offers courses in four curricular areas:

1. Language,
2. Linguistics,
3. Literature, and
4. Courses for Non-Majors

The Language sequence is a required series of language-skills courses which prepare the student for further study in the areas of Linguistics and Literature. Level I of the Language sequence (AS/FR 1080 6.0) is a prerequisite to all other courses in the department, excluding those courses from Area 4 – Courses for Non-Majors. Students having AS/FR 1030 6.0 or its equivalent will be eligible to take AS/FR 1080 6.0. However, students enrolling in a Faculty of Arts French course for the first time must complete a French language questionnaire prior to enrolment. Failure to do so will result in denial of access to the course, and/or de-enrolment from the course.

In order to proceed to any French Studies course offered at a higher level, students must obtain a minimum grade of C in each course taken within the Language sequence: AS/FR 1080 6.0, AS/FR 2080 6.0, and AS/FR 3080 6.0, and also in AS/FR 1020 6.0 and AS/FR 1030 6.0. As well, students must obtain a minimum grade of B in AS/FR 4090 6.0.

Students majoring or minoring in French Studies must take Levels I, II and III of the Language sequence unless they are exempted from one or more levels on the recommendation of the department. Students, (normally in their third year), may earn a Certificate of Proficiency in French by passing a set of optional examinations which are given immediately after the final examination period in May.

To this core of language-skills courses, majors will add further courses in French Linguistics and in French Literature. Students are advised that their choice of courses is also governed by departmental regulations specifying the numbers and levels of courses taken to satisfy the various program requirements.

The Department of French Studies offers two French language courses for non-majors/minors.

Students may take one academic session (which cannot be their graduating year) at a francophone university. In the case of students entering this program after the completion of 24 credits, a grade of B+ in AS/FR 1080 6.0 or its equivalent is the minimum requirement. For students entering the program after the completion of 48 credits, a grade of B+ in AS/FR 2080 6.0 or its equivalent is the minimum requirement. A minimum grade of B+ in either AS/FR 2100 6.0 or AS/FR 2200 6.0 is also required.

In all cases, the student must have a sessional average of 6.0 or above. Detailed information concerning this extra-mural year is available from the Department of French Studies.

All degree candidates are advised that their eventual acceptance into graduate programs in French Literature may depend on their having studied several periods of French literature. Degree candidates are further advised that their eventual acceptance into graduate programs in French Linguistics, into certain French teaching programs (BEd, MEd, MAT), or into schools of translation and interpretation may be favoured by an undergraduate concentration in French linguistics. Degree students may take more than the required courses at any level. They may only take courses for non-majors with the permission of the department. In both instances, such courses will not count for credit towards the major. Exceptionally, individual required courses may be waived on petition if the student can satisfy the department that such permission should be granted.

## Geography

### Specialized Honours BA Program-Applied Geography

Applied Geography uses geographical theory and methodology to solve real world problems that have a geographical dimension. The program in Applied Geography is a specialized honours undergraduate program directed to students seeking employment in occupations in planning, business, industry and government where geographical skills are an asset. Qualified students may also apply to graduate level programs in planning, geography and cognate applied fields. The program combines concepts and technical skills in applied geography with a knowledge base to situate both. In their fourth year, students may obtain academic credit for an approved work experience. The goal of the program is to present practical and professionally oriented aspects of geography.

#### To Enter the Program:

1. Students are encouraged to apply for admission to the program in Applied Geography after their first year of study (successful completion of at least 24 credits). #### To Graduate:

Students must complete 120 credits, achieving a cumulative grade point average of 6.0 (B) in the required Geography courses and an overall cumulative grade point average of 5.0 (C+). Note that Faculty of Arts regulations require 18 credits at the 4000-level for graduation.

Students enrolled in this program are required to take 36 credits in their other major according to the requirements and regulations specified by each program for students in Honours (Double Major) interdisciplinary programs. They are similarly required to meet general education, distribution and other degree requirements which the Faculty of Arts prescribes for Honours students. Courses taken to meet German Studies requirements cannot also be used to meet the requirements of the departmental/divisional major.

Students must take 36 credits from the German Studies list, all distinct from the courses in their other major. The German Studies courses must include the following courses (or their equivalents as designated by the German Studies Coordinator): (1) AS/HUMA 2190 9.0\* Germany Through the Ages: Culture and Society (\*Note: 6 credits of this course will count towards the German Studies major), (2) AS/GER 2200 6.0 or AS/GER 2201 6.0 Introduction to German Literature and Culture, (3) AS/HIST 3320 6.0 Modern Germany: 1871 to the Present, (4) 18 other approved credits, including 6 credits at the 4000-level. ## Individualized Studies

### Specialized Honours BA Program

The program in Specialized Honours—Individualized Studies is designed for students who wish to pursue a topic or line of enquiry that requires drawing together courses from several of the University's disciplines or fields of study.

Students interested in pursuing an Individualized Studies degree will be asked by the Coordinator to prepare a statement describing the particular subject they wish to pursue. They will also be asked to identify a set of courses, from the Faculty of Arts and elsewhere, which are relevant to this theme. If the Coordinator is satisfied that the proposed subject cannot be adequately pursued under an established program or departmental major and that sufficient courses and faculty expertise exist to support individualized study in the area in question, the student will be permitted to enter the Individualized Studies program. Normally, students are eligible to join the program if they have completed at least 24 credits and no more than 66 credits by the start of the academic year.

Students in Individualized Studies must successfully complete and follow all the regulations for a degree in Specialized Honours in the Faculty of Arts. In addition, they must take, as part of the 54 credits relevant to their theme, the Individualized Studies Thesis Course, AS/INDV4000 6.0. This course is to be taken during the student's final year of study.

## Labour Studies

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

### Honours (Double Major) Interdisciplinary BA Program

The Labour Studies program allows students to explore the world of work and workers and to better prepare themselves for employment in the labour movement, private industry, government service, journalism, social work, law, teaching and many other settings. Labour Studies courses are offered in the Division of Social Science and elsewhere in the University.

Students must enrol in an Honours (Double Major) program leading to an Honours BA, and combine 36 credits in Labour Studies with a 36 credit Honours major in Anthropology, Economics, History, Political Science, Psychology, Sociology, Women's Studies, or another approved subject.

For Labour Studies, students must complete 36 credits as follows: 12 credits in core courses - AS/SOSC 2210 9.0\* (*Note: 6 credits of this course will count towards the Labour Studies major*), which provides a broad introduction to the field, and AS/SOSC 4210 6.0, a collective bargaining simulation which grounds students in the framework of contemporary labour relations; at least 12 credits chosen from a range of optional Labour Studies courses (involving more intensive study of particular topics and themes); no more than 12 additional credits chosen in consultation with the Labour Studies program Coordinator from the list of related courses (to provide a broader context). Students in their final year may qualify for a work placement (AS/SOSC 4240 6.0) in the field.

Courses taken towards the linked major field may not also count towards Labour Studies, and normally students will not count more than 6 credits in their linked major field towards their Labour Studies major. Where appropriate, a maximum of 6 credits in related courses from Atkinson, Glendon College, or the Schulich School of Business may be taken towards the Labour Studies major.

Students majoring in Labour Studies meet with the Program Coordinator annually (usually March/April) to arrange their program of study. Students who do not take advantage of advising appointments cannot be assured placement in Labour Studies courses.

## Latin American and Caribbean Studies

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

### Honours (Double Major) Interdisciplinary BA Program

The Faculty of Arts offers, under the Honours (Double Major) program, a pattern of courses in Latin American and Caribbean Studies (LACS). Students participating as majors in LACS must also select a major in one of the following departments/divisions: Anthropology, Economics, English, History, Humanities, Political Science, Sociology, Spanish, or another approved discipline. Students in the Faculty of Environmental Studies may also pursue a linked Double Major with LACS. In order to pursue a combination of studies not listed above, students must obtain permission from both the relevant departmental/divisional Undergraduate Program Director and the LACS Coordinator. All LACS majors should arrange their program of study in consultation with the LACS Coordinator, Eduardo Canel, 234 Founders College, and an advisor in their major department/division.

Since LACS is considered a linked interdisciplinary program, students will combine a minimum of 36 credits in their chosen departmental/divisional major with a minimum of 36 credits in LACS. Courses taken to meet LACS requirements cannot also be used to meet the requirements of the departmental/divisional major. Once they have successfully completed 24 credits, students registered in LACS will take one of two core courses: AS/HUMA 2310 9.0\* (*Note: 6 credits of this course will count towards the Latin American and Caribbean Studies major*) or AS/SOSC 2460 6.0. In addition to the core course, students will take at least 30 credits in LACS including a minimum of 6 credits in LACS at the 4000-level. Students must complete a minimum of 18 credits at the 4000-level including at least 6 credits in LACS and 6 credits in the departmental/divisional major.

In addition to their course work, students registered in LACS must also satisfy a language requirement by demonstrating a working knowledge of either Spanish, Portuguese, French or another language (other than English) spoken in Latin America and the Caribbean and relevant to the student's program of study. Students may satisfy this requirement by translating into English a text of no more than two pages in length. Alternatively, they may complete a university-level language course (at a level determined by a departmental placement test) with a final grade of C+ or higher. Language courses do not count toward the 36 credits required of LACS majors.

Students who wish to follow this program of study should register in the Honours (Double Major) program and indicate both their departmental/divisional major subject and Latin American and Caribbean Studies; for example, Honours (Double Major) Sociology/Latin American and Caribbean Studies.

For more information including a list and descriptions of LACS courses, students should pick up a supplemental calendar from the program office located in 217 Founders College.

**Please refer to the current Departmental/Divisional Supplemental Calendar for updated program/major requirements.**

## Law and Society

*Note: For purposes of meeting program requirements, all Foundations courses will count as 6 credits towards the major.*

### Honours (Double Major) Interdisciplinary BA Program

The Division of Social Science and the departments of Anthropology, Economics, History, Philosophy, Political Science, Psychology and Sociology offer a pattern of studies which combines departmental specialization in 36 credits together with 36 credits in the field of Law and Society. Students interested in this program must arrange their program of study in consultation with the Coordinator of the program.

Students must take 36 credits in one of the departments of Anthropology, Economics, History, Philosophy, Political Science, Psychology, or Sociology, or another approved discipline. With respect to Law and Society requirements, students will take AS/SOSC 2350 6.0 and AS/SOSC 4350 6.0. In addition, students will take at least 24 additional credits from those offered by the Law and Society program. These 24 credits must be chosen from three different departments or divisions, and at least 12 of these credits must be chosen from the following: AS/PHIL 2050 6.0, AS/POLS 2100 6.0, AS/POLS 3075 3.0, AS/POLS 3165 6.0, AS/POLS 3600 3.0 and AS/POLS 3605 3.0, AS/SOSC 1210 9.0\*, AS/SOSC 1350 9.0\*, AS/SOSC 2330 9.0\* (*Note: 6 credits of these courses will count towards the Law and Society major*), AS/SOSC 3030 6.0, AS/SOSC 3360 6.0, AS/SOSC 3370 6.0, AS/SOSC 3380 6.0, AS/SOSC 3381 6.0, AS/SOSC 3990B6.0, or AS/SOCI 3810 6.0.

Students may count a maximum of 6 credits of either AS/SOSC 1210 9.0 or AS/SOSC 1350 9.0 towards the Honours degree in Law and Society. Courses taken to meet the requirements of Law and Society cannot also be used to meet the requirements of the departmental major. Students must take a total of at least 18 credits at the 4000-level including at least 6 credits in the program and at least 6 credits in the departmental major subject.

Students who wish to follow this pattern of study should register in the Honours (Double Major) program and indicate both their departmental major subject and Law and Society, for example, Honours (Double Major) Anthropology/Law and Society.

Students in the Faculty of Arts who complete the Honours (Double Major) program in Law and Society and an affiliated department may apply to enter the Court and Tribunal Administration program or the Legal Assistant program offered by Seneca College of Applied Arts and Technology. York students are required to complete specific courses within the Law and Society program in order to be eligible for admission consideration to the abbreviated one year diploma program at Seneca College. For further information, contact the Advising Centre S319 Ross, (416) 736-5022, and refer to the course listings for Law and Society (Arts).

For information about the Seneca College program, contact the Director, Court and Tribunal Administration Program, Seneca College, 43 Sheppard Avenue East, North York, Ontario, M2N 2Z8, (416) 491-5050, ext. 2816.

Students applying for admission to York University on the basis of their Seneca College Diploma in Court and Tribunal administration would be expected to satisfy the admission requirements of the session to which they are applying.

***Please refer to the current Departmental/Divisional Supplemental Calendar for updated program/major requirements.***

**York-Seneca Joint Program in Rehabilitation Services**

This program allows a student to complete a BA or an Honours BA degree in Psychology at York in conjunction with a Certificate in Rehabilitation Counselling. The certificate is awarded jointly by York University and Seneca College. A full-time student would normally require four years of study for a BA degree, and five years of study for an Honours BA degree, in the joint program.

In order to fulfill the requirements of an BA in Psychology, a student is required to take a minimum of 30 (but not more than 36) credits in Psychology, including AS/PSYC 1010 6.0 (with a minimum grade of C). For an Honours BA in Psychology, a minimum of 42 (but not more than 48) credits in Psychology are required. (See degree program requirements.)

During Years III and IV, students will normally take 30 credits at York, from the required program list, and the equivalent of 30 credits will be chosen from the Seneca offerings. In addition to in-class academic instruction, students are required to complete two full year (September-April) courses involving a total of 800 hours of supervised fieldwork in each of the three major domains of rehabilitation: physical, emotional and developmental. Programs will be tailored to each student through discussion with the

Coordinators. Minimum academic requirement for applicants is a 5.0 grade point average in the first 60 credits.

**Admission Requirements and Procedures**

Students who wish to enter the Rehabilitation Services program should apply in the January preceding the final year of their BA degree program to the Departmental Program Office. Generally, a student who demonstrates good intellectual ability, emotional stability and a strong interest in working with the disabled will be considered for entry into the program. Applicants must have:

- completed 60 university level credits towards a BA or 90 university level credits towards an Honours BA with a minimum cumulative grade point average of 5.0;
- completed an Introduction to Psychology course (with a minimum grade of C);
- fulfilled the General Education requirements of York University;
- previous employment or volunteer work in the field of rehabilitation.

Application materials for students currently enrolled at York University may be obtained from Room 282, Behavioural Sciences Building. Students from other universities should apply through the York Admissions Office located in the Atkinson College Building on the York campus. In order to be considered for admission, applicants must submit a complete application (i.e. application form, official transcripts and two letters of recommendation). Complete applications received by the deadline (March 1) will be rank-ordered according to academic standing and previous experience in the field of rehabilitation. The top applicants will be interviewed jointly by York and Seneca coordinators.

## Public Policy and Administration

### Specialized Honours BA Program

The Department of Political Science offers a limited-enrolment Specialized Honours BA program in Public Policy and Administration. It consists of required courses such as quantitative methods in policy analysis (statistics and research design), public law, economics and public administration. Upon entry into the University, students interested in this program should declare a major in Honours Political Science.

The purpose of the Public Policy and Administration program is to provide students with skills required for public sector employment as well as giving them a broad and liberal education. In addition, many graduates have gone on to graduate school or law school, or have found private sector employment in areas dealing with government.

As the Public Policy and Administration program has many specific course requirements, students are strongly advised to plan their course load in advance. Interested students should apply for admission to the program preferably at the end of their first year. Applications are only accepted in March and April of each year. Candidates must have completed at least 24 credits by the end of the Fall/Winter session in April. An Honours Grade Point Average (5.0 or C+) is necessary to be considered for the program; however, as enrolment is limited, a slightly higher GPA is generally required. Acceptance letters are mailed in June, upon review of each applicant's final grades.

Public Policy and Administration students must take 66 required credits, of which at least 54 credits must be in Political Science. These courses are: AS/POLS 1000 6.0; AS/POLS 2040 6.0; AS/POLS 2300 6.0; AS/POLS 2610 6.0 (or AS/POLS 2100 6.0); AS/POLS 3300 6.0; AS/POLS 3600 3.0; AS/POLS 3605 3.0; AS/POLS 4300 6.0; AS/ECON 1000 3.0; AS/ECON 1010 3.0; 6 Economics credits above the 1000-level or AS/POLS 4115 6.0; 6 credits at the 3000-level in Administration/Organization - (either AS/POLS 3190 6.0, AS/POLS 3610 6.0 or AS/SOCI 3620 6.0); and 6 credits in 4000-level Political Science courses.

*Note 2: With the written permission of the Director of Undergraduate Studies, 6 credits at the 3000 or 4000-level in Political Theory may be substituted for AS/POLS 2040 6.0. This provision is intended primarily for students who become PPA majors in their third or fourth years (after completing at least 60 credits at the university).*

*Note 3: Students who choose to take AS/POLS 4115 6.0 as the upper level Economics requirement must take an additional 6 credit 4000-level Political Science course (not including AS/POLS 4300 6.0) in order to satisfy the 4000-level Political Science major requirement. Students who take AS/POLS 4115 6.0 in addition to an upper level Economics 6 credit course may count it toward the 4000-level Political Science requirement.*

The Core Courses are offered by the School of Women's Studies and, like the Required Courses, have the second digit five (5) in the course number, e.g. WMST 2500 6.0. Students are required to select between 12 and 24 credits of Core Courses depending on their degree program. The Required and Core Courses will:

- focus primarily on women;
- be taught from feminist perspectives;
- be interdisciplinary;
- address the intersections of race, ethnicity, disability, sexual identity and gender;
- acknowledge the different perspectives on women in a global context;
- explicitly identify the critical skills to be developed in the course.
