General Certificates

Professional Ethics

Coordinator: Samuel B. Mallin

Ethical issues are becoming increasingly central to almost all areas of professional and public life. As work becomes faster, more technologically and bureaucratically complex, and evermore economically productive, ethical issues increase in difficulty and seriousness. As a result, the demand for people with qualifications in professional ethics is growing in all sectors. Our especially large range of courses in the area of professional ethics concentrates on real situations and case studies. Almost all of these courses are cross-listed with the relevant professional department or discipline. By taking a number of these courses, students encounter many different concrete ethical issues and learn a variety of perspectives and methodologies for dealing with them. Our style of professional ethics recognizes the diversity of values, traditions and points of view that are brought to bear today on actual current ethical problems. Nonetheless, these courses constantly attempt to integrate this situational approach by means of a search for generally applicable

methodologies and ways of theorizing such issues. The certificate therefore gives students a wide range of experience and methodologies for understanding institutional practices that deal with ethical issues in the public and private sectors. They develop capacities to flexibly adapt this knowledge to different institutions and unforeseen ethical problems in such areas as education, business, health, media, government, law, social work, politics and personal life. Because the resolution of concrete ethical issues needs a creative response to the particularities of unforeseen situations, practice on cases in a number of different institutions and professions helps one to prepare for dealing with problems in one's own.

The Certificate in Professional Ethics is based in Atkinson's School of Analytic Studies and Information Technology. It is a direct entry program that is available to any students admitted to Atkinson or the University.

Students wishing to enrol or make inquiries should contact Atkinson's School of Analytic Studies and Information Technology, 527 Atkinson, 416-736-5232, fax 416-736-5188, e-mail akphil@yorku.ca. The requirements for the Certificate are as follows:

English

Coordinator: Diana Cooper-Clark

The goal of the English program is to guide students to connect their personal literary interests with the major genres and periods of English Literature. Students proceeding from this ground are encouraged to develop areas of concentration by choosing from among the following modules which contain traditional as well as highly innovative courses, some of which are available in distance education format.

The Historical Canon
Canadian Literature
Literature of Gender
Comparative Literature
Critical Theory and Genres
Cross-Cultural Literature
Applied Literature

The basic program modules consist of introductory courses at the 1000 level and critical training at the 2000 level.

English Courses at the introductory 1000 level are designed as attractive keynote approaches to English Literary Studies, and are for elective credit only.

Courses at the 2000 level are Gateway courses. They are the basic gateways to Major studies in English, because they prepare students to respond skillfully to texts of all periods and genres. They may not be taken for Major period credit.

3000-level courses are for Major and Elective credit. With the help of faculty advisers, students may choose a direction of study among modules designed to satisfy the requirements of their personal interests as well as fulfill degree requirements. Major and Elective courses are listed in the Calendar by their period groupings, and qualify to satisfy Major period requirements.

4000-level courses are normally English Specialized Honours Seminars. These courses also qualify to satisfy Major period requirements and are open as Electives to Honours students from any discipline, or to students with equivalent preparation and permission of the Coordinator of English.

Liberal Studies

Contact:

Office of Student and Academic Services (OSAS)
 Tel: 416-736-5222, Fax: 416-736-5923

The purpose of a BA Liberal Studies degree is to allow a student to follow a program of studies of related courses which offers greater flexibility than a Major program or which lies in an area for which there may not be a Major program. Students are advised to make an appointment with the Office of Student and Academic Services to discuss course selection and theme approval. The major program consists of at least 48 credits in a designated theme area, which form a coherent pattern of study, including at least 18 credits at the 3000 level or above. A Liberal Studies degree program may contain no more than 24 credits from any one academic discipline. Cross-listed courses may not be used to exceed 24 credits from any one discipline. Types of Liberal Studies programs are as follows:

Communication Studies (School of Social Sciences)

Creative Arts And Cultural Expression (School of Arts and Letters)

Health Studies (School of Nursing)

Public Service Studies (School of Social Sciences)

Social And Political Thought (School of Social Sciences)

Individualized Liberal Studies (Office of Student and Academic Services)

It is possible for students to take the equivalent of an honours program in Liberal Studies if they enrol under General Honours. (Students may initiate their own programs to suit their particular interests. Speak to a Student Advisor in OSAS).

School of Social Work Entry Procedures

Given that Social Work is a professional degree program, selection is based on both academic ability and professional potential. The Entry Procedures include the following criteria: academic achievement; work, volunteer and community experience; personal statement; problem statement; academic record and references. An interview may be required. Applications for entry to the BSW program must be made by January 30. Students may begin their studies in the program either in the following Summer or Fall/Winter session. For further information regarding the Entry Procedures, contact the School of Social Work, 416-736-5226.

The BSW degree must be completed within five years.

Atkinson reserves the right to reassess a student should it be deemed necessary by the School of Social Work.

Some Social Work courses are open to non-majors, subject to space availability.

School of Social Work Regulation on Involuntary Withdrawal

A student may be required to withdraw from a course if:

1. the student fails to meet the requirements of the course, either through unsatisfactory seminar and/or practicum attendance/participation, or through the unprofessional behaviour in fulfilling course requirements; or
2. the student's performance is judged to disrupt the functioning of the practicum site and/or jeopardize the well-being of clients of the practicum site, and/or demonstrate unprofessional behaviour at the practicum site.

The decision to require the student to withdraw will be taken by the Director of the School of Social Work on the recommendation of the Course Director and/or the Practicum Coordinator, following a meeting with the student.

Students will have access to the usual appeal procedures in such instances.

S711 Ross Building, Tel: 416-650-8144, Fax: 416-650-3900

Coordinator:

Andrea O'Reilly

The School of Women's Studies offers a consolidated undergraduate program which brings together the Women's Studies programs from the Faculties of Arts, Atkinson and Glendon College. This merged undergraduate program provides students with increased flexibility and access to a greater number and variety of Women's Studies courses. Courses offered through the School of Women's Studies will count as In-Faculty courses for Arts, Atkinson and Glendon students, and will be offered during the day and evening on both the Keele campus and the Glendon campus. Please consult the School of Women's Studies mini-calendar for further information, available at the School's main office, S711 Ross, 416-650-8144 (press 1).

The undergraduate Women's Studies Curriculum is built around four different kinds of courses.

Required Courses

- WMST 2500 6.0 or WMST 2510 9.0: required for all Women's Studies majors;
- WMST 4500 6.0: required for all Women's Studies majors in an Honours BA program.

Core Courses

The Core Courses are offered by the School of Women's Studies and, like the Required Courses, have the second digit five (5) in the course number, e.g.: WMST 2500 6.0. Students are required to select between 12 and 24 credits of Core Courses depending on their degree program. Core Courses cover themes deemed essential to Women's Studies and will explicitly aim to develop critical reading, writing and oral presentation skills, research skills and more advanced research and theoretical skills as appropriate to the course and year level. The Required and Core Courses will:

- focus primarily on women;
- be taught from feminist perspectives;
- be interdisciplinary;
- address the intersections of race, ethnicity, disability, sexual identity and gender;
- acknowledge the different perspectives on women in a global context;
- explicitly identify the critical skills to be developed in the course;

Non-Core Courses

The School of Women's Studies will offer a small number of Non-Core Courses designed to serve a narrower disciplinary focus than the Core Courses, meet a particular program need (e.g. Independent Study or Special Topics courses), or appeal to non Women's Studies majors. These courses will have the second digit 8 in the course number, e.g.: WMST 2801 6.0.

Courses Offered by Other Units

Courses offered by other teaching units may be accepted for program credit or cross-listed with the School of Women's Studies. These courses will count towards the major requirements in Women's Studies. Please consult the School of Women's Studies mini-calendar, available in the School's main office, S711 Ross Building, 416-650-8144 (press 1).
