Psychology

Department of Psychology

Contact: TBA

Students may choose to major in psychology as part of the requirements for the BA or the BSc degree. The main difference between these two degrees is that for the BSc degree, students must take elective courses in mathematics and the physical sciences. Courses taken for either degree are fully compatible with the requirements for the BA (Honours) degree.

Program Requirements

Admission to all 2000-, 3000-, and 4000-level courses in psychology (with the exception of AK/AS/SC/PSYC 2020 6.00, AK/AS/SC/PSYC 2021 3.00, and AK/AS/SC/PSYC 2022 3.00) is conditional upon satisfactory completion of AK/AS/SC/PSYC 1010 6.00.

Students must obtain a minimum grade of C (4.0) in AK/AS/SC/PSYC 1010 6.00 to be permitted to continue as a major in psychology, as well as to take any further psychology courses for which AK/AS/SC/PSYC 1010 6.00 is a prerequisite.

Under exceptional circumstances, non-majors who have not obtained a minimum grade of C (4.0) in AK/AS/SC/PSYC 1010 6.00 may apply for special consideration to enrol in an upper-level psychology course for which AK/AS/SC/PSYC 1010 6.00 is a prerequisite. This application should be made to the psychology undergraduate program director in the Faculty offering the course.

BA: 90 credits

Major: 30 credits in psychology including:

- AK/AS/SC/PSYC 1010 6.00 (with a minimum grade of C);
- AK/AS/SC/PSYC 2021 3.00, AK/AS/SC/PSYC 2030 3.00; and
- 18 credits in psychology at the 2000/3000 level, including: (i) at least six credits chosen from the AK/AS/SC/PSYC 2100/3100 3.00 series; and (ii) at least six credits chosen from the AK/AS/SC/PSYC 2200/3200 3.00 series.

Note: At least 12 of the 30 credits in psychology must be at the 3000 level or above.

BA (Specialized Honours): 120 credits

Major: 54 credits in psychology including:

- AK/AS/SC/PSYC 1010 6.00 (with a minimum grade of C);
- AK/AS/SC/PSYC 2021 3.00; AK/AS/SC/PSYC 2022 3.00; AK/AS/SC/PSYC 2030 3.00; AK/AS/SC/PSYC 3010 3.00; and

(c) 18 credits in psychology at the 2000/3000 level, including (i) at least six credits chosen from the AK/AS/SC/PSYC 2100/3100 3.00 series, and (ii) at least six credits chosen from the AK/AS/SC/PSYC 2200/3200 3.00 series; and

(d) at least 18 credits in psychology at the 4000 level, including AK/AS/SC/PSYC 4000 6.00. Only six credits in clinical courses (see department mini-calendar for the list of clinical courses) may be taken to fulfill requirements. This does not prevent students from taking more than six credits in clinical courses.

Women's Studies

School of Women's Studies

Atkinson Coordinator: Ruby Newman

The School of Women's Studies offers a consolidated undergraduate program which brings together the women's studies programs from the Faculties of Arts, Atkinson and Glendon College. This merged undergraduate program provides students with increased flexibility and access to a greater number and variety of women's studies courses. Courses offered through the School of Women's Studies will count as in-Faculty courses for Atkinson, Arts, and Glendon students, and will be offered during the day and evening on both the Keele campus and the Glendon campus. Please consult the School of Women's Studies mini-calendar for further information, available at the school's main office, S711 Ross, 416-650-8144 (press 1).

The undergraduate women's studies curriculum is built around four different kinds of courses.

Required Courses

- AK/AS/GL/WMST 2500 6.00 or AK/AS/GL/WMST 2510 9.00: required for all women's studies majors;
- AK/AS/GL/WMST 4500 6.00: required for all women's studies majors in an Honours BA program.

Core Courses

The core courses are offered by the School of Women's Studies and, like the required courses, have the second digit five (5) in the course number, e.g. WMST 2500 6.00. Students are required to select between 12 and 24 credits of core courses depending on their degree program. Core courses cover themes deemed essential to women's studies and will explicitly aim to develop critical reading, writing and oral presentation skills, research skills and more advanced research and theoretical skills as appropriate to the course and year level. The required and core courses will:

- focus primarily on women;
- be taught from feminist perspectives;
- be interdisciplinary;
- address the intersections of race, ethnicity, disability, sexual identity and gender;
- acknowledge the different perspectives on women in a global context;

- explicitly identify the critical skills to be developed in the course.

Non-Core Courses

The School of Women's Studies will offer a small number of non-core courses designed to serve a narrower disciplinary focus than the core courses, meet a particular program need (e.g. independent study or special topics courses), or appeal to non-women's studies majors. These courses will have the second digit 8 in the course number, e.g. WMST 4802 3.00.

Courses Offered by Other Units

Courses offered by other teaching units may be accepted for program credit or cross-listed with the School of Women's Studies. These courses will count towards the major requirements in women's studies. Please consult the School of Women's Studies mini-calendar, available in the school's main office, S711 Ross Building, 416-650-8144 (press 1).

Department of Psychology

Students may choose to major in psychology as part of the requirements for the BA or the BSc degree. The main difference between these two degrees is that for the BSc degree, students must take courses in mathematics and the physical sciences. Courses taken for either degree are fully compatible with the requirements for the BA (Honours) degree.

Admission to all 2000-, 3000-, and 4000-level courses in psychology (with the exception of AK/AS/SC/PSYC 2020 6.00, AK/AS/SC/PSYC 2021 3.00, and AK/AS/SC/PSYC 2022 3.00) is conditional upon satisfactory completion of AK/AS/SC/PSYC 1010 6.00.

Students must obtain a minimum grade of C (4.0) in AK/AS/SC/PSYC 1010 6.00 to be permitted to continue as a major in psychology, as well as to take any further psychology courses for which AK/AS/SC/PSYC 1010 6.00 is a prerequisite.

Under exceptional circumstances, non-majors who have not obtained a minimum grade of C (4.0) in AK/AS/SC/PSYC 1010 6.00 may apply for special consideration to enrol in an upper-level psychology course for which AK/AS/SC/PSYC 1010 6.00 is a prerequisite. This application

should be made to the psychology undergraduate program director in the Faculty offering the course.

Certificates

“Undergraduate Certificate” is the term applied to a program of study attesting to a level of competence or skill in a particular area or field. It is distinct from a defined undergraduate degree program, stream, specialization or informal concentration. A certificate recognizes a specific grouping of courses that are cross-disciplinary but with a thematic coherence; form a coherent yet distinctive complement to the major of a degree program, or: lead to the acquisition of specific skills or professional expertise that may meet requirements of outside accrediting bodies.

1. Categories of Certificates: Atkinson offers advanced, cross-disciplinary, general and professional certificates. For titles and patterns of study, refer below.

2. Admission: Students seeking direct entry to a certificate program must submit written application when applying for admission to the University. Students already enrolled in an undergraduate degree program are also expected to apply for entry to a certificate program, normally prior to completion of 36 credits of their undergraduate degree program. Applications should be obtained and filed with the unit administering the certificate program.

Students who were admitted to a Professional Certificate offered by the School of Administrative Studies prior to Fall/Winter 2005-2006 may elect to follow the old certificate regulations or the new Certificate regulations whichever is more advantageous. All students admitted from September 2005 must follow new regulations.

3. Minimum Standards:

- (i) Advanced certificates: As described by program
- (ii) Cross-disciplinary certificates: Minimum 24 credits, at least 18 of which must be at the 2000 level or above, including six credits at the 3000 or 4000 level.
- (iii) General certificates: As described by program.

General Certificates

Professional Ethics

School of Analytic Studies and Information Technology

Contact: Suzanne Jaeger and Joseph Keeping

Ethical issues are becoming increasingly central to almost all areas of professional and public life. As work becomes faster, more technologically and bureaucratically complex, and evermore economically productive, ethical issues increase in difficulty and seriousness. As a result, the demand for people with qualifications in professional ethics is growing in all sectors. Our especially large range of courses in the area of professional ethics concentrates on real situations and case studies. Almost all of these courses are cross-listed with the relevant professional department or discipline. By taking a number of these courses, students encounter many different concrete ethical issues and learn a variety of perspectives and methodologies for dealing with them. Our style of professional ethics recognizes the diversity of values, traditions and points of view that are brought to bear today on actual current ethical problems. Nonetheless, these courses constantly attempt to integrate this situational approach by means of a search for generally applicable methodologies and ways of theorizing such issues. The certificate therefore gives students a wide range of experience and methodologies for understanding institutional practices that deal with ethical issues in the public and private sectors. They develop capacities to flexibly adapt this knowledge to different institutions and unforeseen ethical problems in such areas as education, business, health, media, government, law, social work, politics and personal life. Because the resolution of concrete ethical issues needs a creative response to the particularities of unforeseen situations, practice on cases in a number of different institutions and professions helps one to prepare for dealing with problems in one's own.

The Certificate in Professional Ethics is based in Atkinson's School of Analytic Studies and Information Technology. It is a direct entry program that is available to any students admitted to Atkinson or the University.

Professional Development Courses/Workshops in Dispute Resolution

This professional development series is designed to assist mediators and other practitioners to develop and refine their skills within specialized areas of practice and management. The series will explore three key areas of specialization: Dispute Resolution in the Workplace; Building a Successful Mediation Practice and Family Mediation.

Building a Successful Mediation Practice

To establish and maintain a successful mediation practice practitioners must have business know-how, marketing skills and administrative expertise. This 39-hour non-credit course will help dispute resolution practitioners develop these skills, design the kind of practice they want, attract a desirable clientele, and lead their business in profitable new directions. Participants will have the opportunity to practice their skills with a coach/student ratio of 1:5, along with receiving videotaped feedback on their role-play(s). The course utilizes the performance-based training model, in which the role-play becomes the learning forum, rather than an extension of the lecture. There will be demonstrations by the instructor during the workshop. (http://www.atkinson.yorku.ca/~dce/Programs/Professional/ProDev_DR/ProDevDRDesc.html)
