York-Seneca Joint Program in Psychology and Rehabilitation Services

This program allows a student to complete a BA or BSc or an Honours BA or Honours BSc degree in psychology at York in conjunction with a Certificate in Rehabilitation Counselling. The certificate is awarded jointly by York University and Seneca College. A full-time student would normally require four years of study for a BA or BSc degree, and five years of study for an Honours BA or Honours BSc degree, in the joint program.

In order to fulfill the requirements of a BA or BSc in psychology, a student is required to take a minimum of 30 (but not more than 42) credits in psychology, including HH/PSYC 1010 6.00 (with a minimum grade of C). For an Honours BA or Honours BSc in psychology, a minimum of 42 (but not more than 54) credits in psychology are required. (See degree program requirements.)

During years 3 and 4, students will normally take 30 credits at York, from the required program list, and the equivalent of 30 credits will be chosen from the Seneca offerings. In addition to in-class academic instruction, students are required to complete two full year (September - April) courses involving a total of 800 hours of supervised fieldwork in each of the three major domains of rehabilitation: physical, emotional, and developmental. Programs will be tailored to each student through discussion with the coordinators. Minimum academic requirement for applicants is a 5.0 grade point average in the first 60 credits.

Admission Requirements and Procedures

Students who wish to enter the Rehabilitation Services Program should apply in the January preceding the final year of their BA or BSc degree program to the departmental program office. Generally, a student who demonstrates good intellectual ability, emotional stability and a strong interest in working with the disabled will be considered for entry into the program. Applicants must have:

- completed 60 University-level credits towards a BA or BSc or 90 University-level credits towards an Honours BA or Honours BSc with a minimum cumulative grade point average of 5.0;
- completed an Introduction to psychology course (with a minimum grade of C);
- fulfilled the general education requirements of York University;
- previous employment or volunteer work in the field of rehabilitation.

Application materials for students currently enrolled at York University may be obtained by contacting Sandra Locke, 281 Behavioural Sciences Building, 416-736-5115, extension 66210; e-mail: slocke@yorku.ca.

Students from other universities should apply through the York University Admissions Office. In order to be considered for admission, applicants must submit a complete application (i.e., application form, official transcripts, and two letters of recommendation). Complete applications received by the deadline (March 1) will be rank-ordered according to academic standing and previous experience in the field of rehabilitation. The top applicants will be interviewed jointly by York and Seneca coordinators.
