En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).

- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé général

Un minimum de 36 crédits en Science politique est requis, incluant :

- six crédits de cours d'introduction ;
- 18 crédits au niveau 3000 ou 4000 dont six crédits au niveau 4000.

En plus des exigences mentionnées ci-dessus, les étudiants faisant une majeure doivent obtenir au moins six crédits dans trois des quatre domaines suivants : politique comparative, politique canadienne, théorie politique et politique internationale (voir, ci-dessous, en 4, exception pour étudiants de mineure).

Baccalauréat international spécialisé

Un minimum de 36 crédits en Science politique est requis, incluant :

- six crédits de cours d'introduction ;
- 18 crédits au niveau 3000 ou 4000 dont six crédits au niveau 4000.

En plus des exigences mentionnées ci-dessus, les étudiants faisant une majeure doivent obtenir au moins six crédits dans trois des quatre domaines suivants : politique comparative, politique canadienne, théorie politique et politique internationale (voir, ci-dessous, en 4, exception pour étudiants de mineure).

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé avec double majeure

Un minimum de 36 crédits en Science politique est requis, incluant :

- 12 crédits de cours d'introduction ;
- 18 crédits au niveau 3000 ou 4000 dont six crédits au niveau 4000.

En plus des exigences mentionnées ci-dessus, les étudiants faisant une majeure doivent obtenir au moins six crédits dans trois des quatre domaines suivants : politique comparative, politique canadienne, théorie politique et politique internationale (voir, ci-dessous, en 4, exception pour étudiants de mineure).

Les étudiants doivent consulter l'Annuaire des programmes du premier cycle pour se renseigner sur les exigences de l'autre discipline dans laquelle ils désirent se spécialiser.

Baccalauréat international spécialisé avec double majeure

Les étudiants peuvent choisir Science politique dans un programme spécialisé avec double majeure. Veuillez consulter l'Annuaire de l'Université pour les exigences de la deuxième majeure.

Baccalauréat spécialisé bidisciplinaire

Majeure en Science Politique

Un minimum de 36 crédits en Science politique est requis, incluant :

- six crédits de cours d'introduction ;
- 18 crédits au niveau 3000 ou 4000 dont six crédits au niveau 4000.

Mineure en Science Politique

Un minimum de 24 crédits en Science politique est requis, incluant :

- 12 crédits au niveau 3000 ou 4000.

En plus des exigences mentionnées ci-dessus, les étudiants faisant une majeure doivent obtenir au moins six crédits dans trois des quatre domaines suivants : politique comparative, politique canadienne, théorie politique et politique internationale (voir, ci-dessous, en 4, exception pour étudiants de mineure).

Baccalauréat international spécialisé avec majeure et mineure

Les étudiants peuvent choisir Science politique dans un programme spécialisé avec une mineure dans une autre discipline. Veuillez consulter l'Annuaire de l'Université pour les exigences de la mineure.

Baccalauréat ès arts

Un minimum de 30 crédits en Science politique est requis, incluant :

- six crédits de cours d'introduction ;
- 12 crédits au niveau 3000 ou 4000.

En plus des exigences mentionnées ci-dessus, les étudiants faisant une majeure doivent obtenir au moins six crédits dans trois des quatre domaines suivants : politique comparative, politique canadienne, théorie politique et politique internationale (voir, ci-dessous, en 4, exception pour étudiants de mineure).

N.B. : Les cours de Méthodes sont fortement recommandés comme connaissances de base pour les programmes d'études supérieures centrés sur l'analyse quantitative du comportement politique, les relations internationales et la politique publique.

Bilingual Certificate in Public Administration and Public Policy

Admission Requirements

Students will normally register for the certificate in their second year of study toward a York degree. Students are required to have completed 24 credits with a grade point average of at least 5.00 (C+) prior to admission to the certificate program. These 24 credits must include six credits chosen from group A and six credits chosen from group B as follows:

Group A: six credits as follows:

GL/ECON 2500 3.00
GL/ECON 2510 3.00

Group B: six credits chosen from:

GL/POLS 1400 6.00
GL/POLS 2600 6.00

Certificate Requirements

In order to receive the certificate, students must be registered simultaneously in a degree program at York University and present a cumulative grade point average of 5.00 (C+) on the courses taken to satisfy the requirements of the certificate. 24 credits must be taken to obtain the certificate. All of these courses must be taken at York University and selected according to the guidelines which follow.

Of the 24 credits required for the certificate, at least six must be taken in an English language course and six in a French language course. Students must take six additional credits in a disciplinary course in their second language. In meeting this requirement, students must do all the work of the course in the language of the course.

Group 1

GL/POLS 2500 6.00

Group 2 – quantitative/methodology requirement - six credits chosen from the following:

GL/MODR 1610 3.00 (cross-listed to: GL/POLS 2610 3.00, GL/SOCI 2610 3.00)

GL/MODR 1620 3.00 (cross-listed to: GL/POLS 2620 3.00, GL/SOCI 2620 3.00)

GL/SOCI 3680 3.00 (cross-listed to: GL/POLS 3680 3.00, GL/CDNS 3680 3.00)

GL/SOCI 3690 3.00 (cross-listed to: GL/POLS 3690 3.00, GL/CDNS 3690 3.00)

Group 3 – upper year public administration requirement - one of the following two courses:

GL/POLS 3240 6.00

GL/POLS 3260 6.00

Note: with the permission of the coordinator, students may substitute a third- or fourth-year course in public administration offered in the Faculty of Liberal Arts and Professional Studies for one of the two above courses.

Group 4 – one of the following:

GL/POLS 4295 6.00(EN)

GL/POLS 4295 6.00(FR)

or

an elective - six credits chosen from the following courses:

GL/ECON 2710 3.00

GL/ECON 2720 3.00

GL/ECON 3570 3.00

GL/PHIL 2615 3.00

GL/PHIL 2937 6.00

GL/POLS 3615 6.00

GL/POLS 4635 6.00

GL/POLS 4920 3.00

GL/POLS 4921 3.00

GL/SOCI 2625 6.00

GL/WMST 3503 6.00 (cross-listed to: GL/ILST 3665 6.00, GL/SOCI 3665 6.00, GL/SOSC 3665 6.00)

GL/WMST 3513 6.00 (cross-listed to: GL/SOSC 3975 6.00)

GL/WMST 3520 6.00

Other courses must be approved by the coordinator.

Certificat bilingue en administration publique et politique publique

Conditions d'admission

Les étudiants s'inscriront normalement pour le certificat dans leur deuxième année d'étude. Pour pouvoir s'inscrire au certificat, les étudiants devront avoir obtenu 24 crédits avec une moyenne cumulative d'au moins 5.00 (C+). Ces 24 crédits doivent comprendre six crédits dans le groupe A et six crédits choisis dans le groupe B comme suit :

Group A : six crédits comme suit :

GL/ECON 2500 3.00

GL/ECON 2510 3.00

Group B : six crédits au choix parmi les cours suivants :

GL/POLS 1400 6.00

GL/POLS 2600 6.00

Conditions d'obtention du certificat

Pour recevoir ce certificat, les étudiants doivent être inscrits simultanément à un programme de baccalauréat à l'Université York et avoir obtenu une moyenne cumulative de 5.00 (C+) aux cours suivis pour satisfaire aux conditions du certificat. Il faut 24 crédits pour obtenir le certificat. Tous les cours doivent être choisis en fonction des directives suivantes et être suivis à l'Université York.

Sur les 24 crédits exigés pour le certificat, il en faut au moins six dans un cours en français et six dans un cours en anglais. Les étudiants doivent obtenir six crédits supplémentaires dans un cours de discipline dans leur langue seconde et ils doivent obligatoirement soumettre, dans ce cours, tous leurs travaux dans la langue du cours.

Groupe 1

GL/POLS 2500 6.00

Groupe 2 – questions quantitatives/méthodologie - six crédits parmi les cours suivants :

GL/MODR 1610 3.00 (cours identique à GL/POLS 2610 3.00, GL/SOCI 2610 3.00)

GL/MODR 1620 3.00 (cours identique à GL/POLS 2620 3.00, GL/SOCI 2620 3.00)

GL/SOCI 3680 3.00 (cours identique à GL/POLS 3680 3.00, GL/CDNS 3680 3.00)

GL/SOCI 3690 3.00 (cours identique à GL/POLS 3690 3.00, GL/CDNS 3690 3.00)

Groupe 3 – cours de niveau avancé en administration publique - l'un des deux cours suivants au choix :

GL/POLS 3240 6.00

GL/POLS 3260 6.00

Remarque : Avec la permission du coordinateur ou de la coordonnatrice, les étudiants peuvent substituer à l'un des deux cours ci-dessus un cours de 3e ou de 4e année en administration publique offert par la Faculté des arts libéraux et études professionnelles.

Groupe 4 – l'un des deux cours suivants au choix :

GL/POLS 4295 6.00 (EN)

GL/POLS 4295 6.00 (FR)

ou

six crédits au choix parmi les cours suivants :

GL/ECON 2710 3.00

GL/ECON 2720 3.00

GL/ECON 3570 3.00

GL/PHIL 2615 3.00

GL/PHIL 2937 6.00

GL/POLS 3615 6.00

GL/POLS 4635 6.00

GL/POLS 4920 3.00

GL/POLS 4921 3.00

GL/SOCI 2625 6.00

GL/WMST 3503 6.00 (cours identique à GL/ILST 3665 6.00, GL/SOCI 3665 6.00, GL/SOSC 3665 6.00)

GL/WMST 3513 6.00 (cours identique à GL/SOSC 3975 6.00)

GL/WMST 3520 6.00

Tout autre cours doit être approuvé par le coordonnateur/la coordonnatrice.

Psychology/Psychologie

Program Requirements

Core Courses
GL/PSYC 2510 6.00
GL/PSYC 2520 3.00
GL/PSYC 2530 3.00

GL/PSYC 3525 3.00
GL/PSYC 4230 3.00
GL/MODR 17XX 6.00 or GL/MODR 2640 6.00

Specialized Honours BA

Students must complete at least 54 credits (48 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses;
- GL/PSYC 4000 6.00 and GL/PSYC 4240 3.00.

Specialized Honours iBA

Students must complete at least 54 credits (48 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses;
- GL/PSYC 4000 6.00 and GL/PSYC 4240 3.00.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

General Honours BA

Students must complete at least 42 credits (36 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses.

Honours iBA

Students must complete at least 42 credits (36 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

Honours Double Major BA

The Honours BA program may be pursued jointly with another Honours degree program offered at Glendon. Please check the York Undergraduate Calendar for the requirements of the other major.

Students must complete at least 42 credits (36 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses.

Candidates must check the Undergraduate Calendar for the requirements of the other discipline in which they wish to major.

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any other Honours iBA degree program offered at Glendon. For further details on requirements, see the listings for specific Honours iBA programs.

Combined Honours BA

Major in Psychology

Students must complete at least 42 credits (36 credits in psychology, six credits in modes of reasoning), including:

- 24 credits of core courses.

For further details on requirements, see the listings for specific Honours Minor programs.

Minor in Psychology

Students must complete at least 24 credits in psychology, including:

- GL/PSYC 2510 6.00, GL/PSYC 2520 3.00 and GL/PSYC 2530 3.00.

Honours Major/Minor iBA

The Honours iBA program in Psychology described above may be pursued jointly with any Honours Minor BA program at Glendon.

Bachelor of Arts

Students must complete at least 36 credits (30 credits in psychology, six credits in modes of reasoning), including:

- GL/PSYC 2510 6.00, GL/PSYC 2520 3.00 and GL/PSYC 2530 3.00;
- a course in the GL/MODR 17XX 6.00 series or GL/MODR 2640 6.00;

Baccalauréat spécialisé

Un minimum de 54 crédits (48 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base ;
- GL/PSYC 4000 6.00 et GL/PSYC 4240 3.00.

Baccalauréat international spécialisé approfondi

Un minimum de 54 crédits (48 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base ;
- GL/PSYC 4000 6.00 et GL/PSYC 4240 3.00.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé général

Un minimum de 42 crédits (36 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base.

Ils doivent obtenir l'assentiment du département pour établir leur programme de cours de deuxième, troisième et quatrième années.

Baccalauréat international spécialisé

Un minimum de 42 crédits (36 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base.

Ils doivent obtenir l'assentiment du département pour établir leur programme de cours de deuxième, troisième et quatrième années.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :

- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé avec double majeure

Un minimum de 42 crédits (36 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base.

Les étudiants doivent obtenir l'approbation du département quant au choix des cours dans leur deuxième, troisième et quatrième années.

Ils doivent consulter l'Annuaire des programmes du premier cycle pour se renseigner sur les exigences de l'autre discipline dans laquelle ils désirent se spécialiser.

Baccalauréat international spécialisé avec double majeure

Les étudiants peuvent choisir Psychologie dans un programme spécialisé avec double majeure. Veuillez consulter l'Annuaire de l'Université pour les exigences de la deuxième majeure.

Baccalauréat spécialisé bidisciplinaire

Majeure en Psychologie

Un minimum de 42 crédits (36 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- 24 crédits de cours de base.

Mineure en Psychologie

Un minimum de 24 crédits en Psychologie est requis, incluant :

- GL/PSYC 2510 6.00 et GL/PSYC 2520 3.00 et GL/PSYC 2530 3.00.

Baccalauréat international spécialisé avec majeure et mineure

Les étudiants peuvent choisir Psychologie dans un programme spécialisé avec une mineure dans une autre discipline. Veuillez consulter l'annuaire de l'Université pour les exigences de la mineure.

Baccalauréat ès arts

Un minimum de 36 crédits (30 crédits en Psychologie, six crédits en Logique) est requis, incluant :

- GL/PSYC 2510 6.00, GL/PSYC 2520 3.00 et GL/PSYC 2530 3.00 ;
- Un cours de la série GL/MODR 17XX 6.00 ou GL/PHIL 2640 6.00.

Sexuality Studies

Sexuality studies is an interdisciplinary field that examines sexed, gendered, and sexualized bodies, desires, pleasures, acts, behaviours, identities, subjectivities, communities, cultures, movements, and organizing. The field explores artistic, cultural, economic, geographic, historical, legal, literary, political, psychological, scientific, and social aspects of sexuality, while also investigating the sexual aspects of arts, cultures, economies, geographies, histories, laws, literatures, politics, psychologies, sciences, and societies. York's Sexuality Studies Program has three primary intellectual and political commitments. First, the program is committed to interdisciplinarity, encouraging its students and faculty to work within and across disciplinary boundaries and to work within and across the boundaries that structure the humanities, the social sciences, the fine arts, and various professional fields. Second, the program is committed to transnational methods and approaches. In this respect the program is concerned with sexualities in diverse Canadian contexts; it explores sexualities in African, Asian and Pacific, Caribbean, North and South American, European, and Oceanic contexts; and it examines sexual migrations, movements, and diasporas in transnational and transcontinental contexts. Third, the program is committed to intersectional teaching, learning, and research, which we understand to mean that sexualities are productively studied in relation to other categories of difference and power, including (dis)ability, age, class, gender, gender identity, ethnicity, health, nationality, race, and religion. Sexualities are also productively studied in relation to diverse bodies and ever-changing embodiments. Committed to examining lesbian, gay, bisexual, transgendered, transsexual, intersexed, heterosexual, and heteronormative people and phenomena, the program also studies alternative ways of organizing and conceptualizing sexualities and, indeed, alternatives to sexuality.

Note: for purposes of meeting program requirements, foundations courses will count as six credits towards the major or minor.

Note: normally students will not enrol in AP/GL/SXST 2600 6.00 and AP/GL/SXST 4600 6.00 in the same academic session.

Program Requirements

Specialized Honours BA

Students must complete at least 54 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 42 credits in SXST primary or secondary courses (listed below).

Of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned in primary courses, and of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned at the 3000 or 4000 level, and a minimum of 12 must be earned at the 4000 level.

Specialized Honours iBA

Students must complete at least 54 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 42 credits in SXST primary or secondary courses (listed below).

Of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned in primary courses, and of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned at the 3000 or 4000 level, and a minimum of 12 must be earned at the 4000 level.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

General Honours BA

Students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

Honours iBA

Students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

Honours Double Major BA

The Honours BA program described above may be pursued jointly with any other Honours BA program offered at Glendon. For further details on requirements, see the listings for specific Honours programs.

Students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any other Honours iBA program offered at Glendon. For further details on requirements, see the listings for specific Honours iBA programs.

Combined Honours BA

Major in Sexuality Studies

Students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

Minor in Sexuality Studies

The Honours Minor must be pursued jointly with a Combined Honours BA or an Honours Major/Minor iBA program at Glendon.

The Honours Minor in sexuality studies comprises at least 30 credits, as follows:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 18 credits in SXST primary or secondary courses (listed below).

Of the 18 credits earned in primary/secondary courses, a minimum of 12 must be earned in primary courses, and a minimum of six (primary or secondary) must be earned at the 3000 or 4000 level.

Honours Major/Minor International iBA

The Honours iBA program in Sexuality Studies described above may be pursued jointly with any Honours Minor BA program offered at Glendon.

Bachelor of Arts

Students must complete at least 30 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 18 credits in SXST primary or secondary courses (listed below).

Of the 18 credits earned in primary/secondary courses, a minimum of 12 must be earned in primary courses, and of the 18 credits earned in primary/secondary courses, a minimum of six must be earned at the 3000 or 4000 level.

Sexuality Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and in-Faculty regulations, students may complete other courses for program credit in sexuality studies.

Études sur la sexualité

Remarque : Pour satisfaire aux exigences du programme, tous les cours de formation de base compteront pour six crédits à valoir sur la majeure ou la mineure.

Exigences du Programme

Baccalauréat spécialisé

Un minimum de 54 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 42 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 42 crédits de cours primaires/secondaires, un minimum de 30 crédits doit être des cours primaires ; de ces 42 crédits de cours primaires/secondaires, un minimum de 30 crédits doit être au niveau 3000 ou 4000, avec au moins 12 crédits au niveau 4000.

Baccalauréat international spécialisé approfondi

Un minimum de 54 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 42 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 42 crédits de cours primaires/secondaires, un minimum de 30 crédits doit être des cours primaires ; de ces 42 crédits de cours primaires/secondaires, un minimum de 30 crédits doit être au niveau 3000 ou 4000, avec au moins 12 crédits au niveau 4000.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé général

Un minimum de 42 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 30 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être des cours primaires ; de ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être au niveau 3000 ou 4000, avec au moins 6 crédits au niveau 4000.

Baccalauréat international spécialisé

Un minimum de 42 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;

- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 30 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être des cours primaires ; de ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être au niveau 3000 ou 4000, avec au moins 6 crédits au niveau 4000.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé avec double majeure

Un minimum de 42 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 30 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être des cours primaires ; de ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être au niveau 3000 ou 4000, avec au moins 6 crédits au niveau 4000.

Baccalauréat international spécialisé avec double majeure

Les étudiants peuvent choisir Études sur la sexualité dans un baccalauréat international spécialisé avec double majeure offert à Glendon. Veuillez consulter l'Annuaire de York pour les exigences de la deuxième majeure.

Baccalauréat spécialisé bidisciplinaire

Majeure en Études sur la sexualité

Un minimum de 42 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 30 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être des cours primaires ; de ces 30 crédits de cours primaires/secondaires, un minimum de 18 crédits doit être au niveau 3000 ou 4000, avec au moins 6 crédits au niveau 4000.

Mineure en Études sur la Sexualité

Un minimum de 30 crédits en Études sur la sexualité est requis, incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;

- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 18 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 18 crédits de cours primaires/secondaires, un minimum de 12 crédits doit être des cours primaires et un minimum de 6 crédits (cours primaires ou secondaires) doit être au niveau 3000 ou 4000.

Les étudiants peuvent choisir une mineure en Études sur la sexualité dans un baccalauréat spécialisé, ou un baccalauréat international spécialisé, avec une majeure dans une autre discipline à Glendon. Veuillez consulter l'Annuaire de York pour les exigences de la majeure.

Baccalauréat international spécialisé avec majeure et mineure

Les étudiants peuvent choisir Études sur la sexualité dans un baccalauréat international spécialisé avec une mineure dans une autre discipline à Glendon. Veuillez consulter l'Annuaire de York pour les exigences de la mineure.

Baccalauréat ès arts

Pour un baccalauréat ès arts en Études sur la sexualité, un minimum de 30 crédits est requis incluant :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 18 crédits en SXST de cours primaires ou secondaires (voir la liste ci-dessous).

De ces 18 crédits de cours primaires/secondaires, un minimum de 12 crédits doit être des cours primaires ; de ces 18 crédits de cours primaires/secondaires, un minimum de 6 crédits doit être au niveau 3000 ou 4000.

Cours sur la sexualité

Tous les cours indiqués ci-dessous ne sont pas nécessairement offerts chaque année, veuillez consulter l'Annuaire du département.

Avec l'autorisation du coordonnateur du programme, et sous réserve d'incompatibilité de cours et des règlements de la Faculté, les étudiants peuvent compléter d'autres cours pour satisfaire aux exigences du programme.

Cross-Disciplinary Certificate in Sexuality Studies

Note: for purposes of meeting certificate requirements, foundations courses will count as six credits.

Glendon students may earn a Cross-Disciplinary Certificate in Sexuality Studies concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is not, however, open to students who are pursuing or who already hold a degree in sexuality studies.

To qualify for the Cross-Disciplinary Certificate in Sexuality Studies, students must complete 24 credits and the cumulative grade point average in these 24 credits must be 4.00 (C) or higher. Course requirements for the certificate are as follows:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 12 credits in SXST primary or secondary courses.

Of the 12 credits earned in primary/secondary courses, a minimum of six must be earned in primary courses and a minimum of six (primary or secondary) must be earned at the 3000 or 4000 level.

Certificat interdisciplinaire en études sur la sexualité

Remarque : Pour satisfaire aux exigences du programme, tous les cours de formation de base compteront pour six crédits.

Les étudiants peuvent obtenir un certificat interdisciplinaire en Études sur la sexualité tout en satisfaisant aux exigences d'un baccalauréat. Les étudiants qui poursuivent un programme en Études sur la sexualité, ou qui possèdent déjà un diplôme dans ce domaine, ne sont pas admissibles à ce certificat.

Pour obtenir ce certificat, les étudiants doivent compléter 24 crédits avec une moyenne cumulative pondérée de 4.00 (C) ou plus. Les cours requis pour l'obtention du certificat sont les suivants :

- AP/GL/SXST 2600 6.00 (cours identique à AP/GL/WMST 2600 6.00) ;
- AP/GL/SXST 4600 6.00 (cours identique à AP/GL/WMST 4600 6.00) ;
- un minimum de 12 crédits en SXST de cours primaires ou secondaires ;
- de ces 12 crédits de cours primaires/secondaires, un minimum de 6 crédits doit être des cours primaires et un minimum de 6 crédits (cours primaires ou secondaires) doit être au niveau 3000 ou 4000.

Sociology/Sociologie

Program Requirements

Core Courses
GL/SOCI 2510 6.00
GL/SOCI 3692 6.00
GL/SOCI 3680 3.00
GL/SOCI 3690 3.00

Specialized Honours BA

Students must complete 48 credits in sociology, including:

- 18 credits of core courses;
- 12 credits at the 3000 or 4000 level, exclusive of the core courses.

Specialized Honours iBA

Students must complete 48 credits in sociology, including:

- 18 credits of core courses;
- 12 credits at the 3000 or 4000 level, exclusive of the core courses.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

General Honours BA

Students must complete 36 credits in sociology, including:

- 18 credits of core courses;
- six credits at 3000 or 4000 level, exclusive of the core courses.

Honours iBA

Students must complete 36 credits in sociology, including:

- 18 credits of core courses;
- six credits at 3000 or 4000 level, exclusive of the core courses.

In addition to the courses required for their major, students must also fulfill the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, at least 18 credits in each official language (English and French) at Glendon (French as a second language and/or in English as a second language at the 2000 level or above or in discipline courses which are designated as satisfying the bilingual requirement);
- for the iBA trilingual, in addition to the 18 credits in each official language (English and French), 18 credits in Hispanic studies (including GL/SP 2610 6.00 or six credits of an advanced level course) or 18 credits in a modern language offered by York University (including six credits of an advanced-level course in the chosen language).

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

Honours Double Major BA

Students must complete 36 credits in sociology, including:

- 18 credits of core courses;
- six credits at 3000 or 4000 level, exclusive of the core courses.

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any other Honours iBA degree program offered at Glendon. For further details on requirements, see the listings for specific Honours iBA programs.

Combined Honours BA

Major in Sociology

Students must complete 36 credits in sociology, including:

- 18 credits of core courses;
- six credits at 3000 or 4000 level, exclusive of the core courses.

For further details on requirements, see the listings for specific Honours Minor programs.

Minor in Sociology

Students must complete 24 credits in sociology, including:

- GL/SOCI 2510 6.00;
- 12 credits at 3000 or 4000 level.

Honours Major/Minor iBA

The Honours iBA program in sociology described above may be pursued jointly with any Honours Minor BA program at Glendon.

Bachelor of Arts

Students must complete 30 credits in sociology, including:

- GL/SOCI 2510 6.00; GL/SOCI 3692 6.00 (or GL/SOCI 3680 3.00/GL/SOCI 3690 3.00);
- 12 credits at the 3000 or 4000 level.

Exigences du Programme

Cours de base
GL/SOCI 2510 6.00
GL/SOCI 3692 6.00
GL/SOCI 3680 3.00
GL/SOCI 3690 3.00

Baccalauréat spécialisé

Un minimum de 48 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- 12 crédits au niveau 3000 ou 4000 en plus des cours de base.

Baccalauréat international spécialisé approfondi

Un minimum de 48 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- 12 crédits au niveau 3000 ou 4000 en plus des cours de base.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé général

Un minimum de 36 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- six crédits au niveau 3000 ou 4000 en plus des cours de base.

Baccalauréat international spécialisé

Un minimum de 36 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- six crédits au niveau 3000 ou 4000 en plus des cours de base.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé avec double majeure

Un minimum de 36 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- six crédits au niveau 3000 ou 4000 en plus des cours de base.

Baccalauréat international spécialisé avec double majeure

Les étudiants peuvent choisir Sociologie dans un programme spécialisé avec double majeure. Veuillez consulter l'Annuaire de l'Université pour les exigences de la deuxième majeure.

Baccalauréat spécialisé bidisciplinaire

Majeure en sociologie

Un minimum de 36 crédits en Sociologie est requis, incluant :

- 18 crédits de cours de base ;
- six crédits au niveau 3000 ou 4000 en plus des cours de base.

Le cours obligatoire GL/SOCI 2510 6.00 doit avoir été suivi avec succès avant la fin de la deuxième année par tous les étudiants préparant un baccalauréat spécialisé bidisciplinaire. Pour avoir de plus amples renseignements, veuillez consulter le mini-Annuaire du département. Tous les étudiants ayant opté pour un programme d'études spécialisées bidisciplinaires doivent obtenir l'assentiment des deux départements intéressés pour établir leur programme de cours de deuxième, troisième et quatrième années.

Mineure en sociologie

- Un minimum de 24 crédits en Sociologie est requis, incluant :
 - GL/SOCI 2510 6.00 ;
 - 12 crédits au niveau 3000 ou 4000.

Baccalauréat international spécialisé avec majeure et mineure

Les étudiants peuvent choisir Sociologie dans un programme spécialisé avec une mineure dans une autre discipline. Veuillez consulter l'Annuaire de l'Université pour les exigences de la mineure.

Baccalauréat ès arts

Pour un baccalauréat ès arts en Sociologie, un minimum de 30 crédits est requis, incluant :

- GL/SOCI 2510 6.00; GL/SOCI 3692 6.00 (ou GL/SOCI 3680 3.00/ GL/SOCI 3690 3.00);
- 12 crédits au niveau 3000 ou 4000.

Certificate in Technical and Professional Communication

The School of Translation offers a Certificate in Technical and Professional Communication.

This program will provide (1) an understanding of how the English language works to convey meanings of different kinds and to respond to different needs; (2) an ability to write effectively and revise the writing of others in a professional and technical setting and; (3) the skills to work as a technical and professional writer and act as a language consultant.

Admission Requirements

Applicants must a) be enrolled in the third year of a degree program at York University in a relevant discipline; or b) have completed a university degree in a related discipline; or c) have recent work experience in an administrative or a technical field which requires writing.

Program Requirements

The following 18 credits are required:

- 12 credits in professional writing and documentation as follows:
 - GL/TRAN 3310 3.00,
 - GL/TRAN 4310 3.00,
 - GL/TRAN 4320 3.00,
 - GL/TRAN 4330 3.00;
- six credits from the following courses in information technology: ITEC 2915 3.00 and ITEC 2925 3.00 or ITEC 1010 3.00 and ITEC 1011 3.00 or the equivalent as approved by the program coordinator or six credits in computer science.

In order to receive the certificate, students must achieve a minimum grade of C+ in each course.

In addition to the course requirements, there is a final comprehensive examination.

General Certificate in Work and Study/Certificat général en travail et études

The Work and Study program provides students with the opportunity to obtain a General Certificate in Work and Study and a bachelor's degree simultaneously. It gives them the opportunity to gain workplace experience, allowing them to choose a work placement according to their individual aspirations and aptitudes.

Working with a traditionally bilingual liberal arts institution, the General Certificate in Work and Study is unique, both in its objectives and in its structure. Work and study does not aim to introduce students to a specific discipline. Focusing on changes in the working world and providing students with the opportunity for unique professional experience, the program is designed to complement or even provide a new dimension to the student's undergraduate study program.

The General Certificate in Work and Study requires 24 credits, 15 of which are offered within the program and nine of which are offered by other programs and departments of Glendon and recognized by the program.

Students enrolled in the Work and Study program may only receive their certificate on the condition that they complete the requirements for their bachelor's degree.

Admission Requirements

To be eligible for admission to the work and study, students must be enrolled in a degree program at York University and must:

- have completed 24 credits or the equivalent;
- have achieved Honours standing;
- apply for admission to the program.

Students who have already obtained a BA from York University or from another university, with a 5.00 (C+) average, may also apply for admission to the program. To obtain their certificate, these students will be required to take the 15 credits offered by the program.

Program Requirements

Work and Study program students must take 24 credits, chosen in consultation with the work and study coordinator including GL/WKST 2500 3.00, GL/WKST 2510 3.00, GL/WKST 3200 6.00, GL/WKST 3205 3.00 and nine credits chosen from the list of work and study courses.

To remain in the Work and Study program and to be eligible for the certificate, students must maintain an average of 5.00 (C+) as is required for honours standing.

Le programme Travail et études offre à des étudiants, engagés dans des études de baccalauréat, la possibilité de mener, simultanément, des études pour l'obtention du Certificat général en travail et études. Il les invite à vivre une expérience de travail, tenant compte de leurs aspirations et aptitudes, dans une activité de leur choix.

Issu d'un milieu universitaire de tradition bilingue voué à l'enseignement des lettres et des sciences humaines, le Certificat général en travail et études est unique de par sa nature et ses intentions. Il n'a pas à initier des étudiants à une discipline précise mais, en mettant l'accent sur les mutations du monde du travail et en leur permettant de vivre une expérience professionnelle unique, il entend ainsi leur offrir un complément, voire une nouvelle dimension d'une formation déjà en cours.

Le Certificat général en travail et études comprend 24 crédits dont 15 sont pris à l'intérieur du programme et neuf parmi des cours retenus par le programme et offerts au sein de différents départements et programmes du Collège universitaire Glendon.

Les étudiants inscrits au programme Travail et études ne pourront recevoir leur Certificat que s'ils ont rempli toutes les conditions nécessaires à l'obtention de leur Baccalauréat.

Conditions d'admission

Pour être admissibles au Certificat général en travail et études, les étudiants doivent être inscrits dans un programme de BA à l'Université York et doivent :

- avoir obtenu 24 crédits ou l'équivalent ;
- avoir obtenu la moyenne exigée pour le BA spécialisé ;
- faire la demande d'admission au programme.

Les détenteurs d'un baccalauréat de l'Université York ou d'une autre institution universitaire, qui ont obtenu une moyenne de 5.00 (C+), peuvent être considérés comme candidats admissibles au programme. Pour l'obtention du Certificat, ces étudiants sont tenus d'obtenir les 15 crédits de cours offerts à l'intérieur du programme.

Exigences du Programme

Les étudiants inscrits au Programme travail et études doivent obtenir l'équivalent de 24 crédits, y compris GL/WKST 2500 3.00, GL/WKST 2510 3.00, GL/WKST 3200 6.00, GL/WKST 3205 3.00 et neuf crédits choisis en consultation avec le coordonnateur du programme dans la liste ci-dessous.

Pour demeurer inscrit au programme Travail et études, et obtenir le Certificat, les étudiants doivent maintenir une moyenne de 5.00 (C+), soit la moyenne exigée pour l'obtention d'un baccalauréat spécialisé.

School of Women's Studies/École des études des femmes

Women's Studies

Women's studies is both a complement and a corrective to established fields at York and a new academic discipline of its own. Until recently, both the humanities and the social sciences reflected predominantly male perspectives. Women have been largely invisible in literature, art, history, philosophy, politics, social sciences and law. Through cross-cultural and disciplinary assessment, women's studies exposes misconceptions about women expressed through myth, ideologies, teachings and writings. It replaces negative cultural images of women with visions that reaffirm women's strength, capability and intelligence.

The School of Women's Studies unites academic resources at York University in women's studies, bringing together the undergraduate and graduate programs, the non-credit Bridging program and the Centre for Feminist Research/Le centre de recherches féministes à York.

A feature which distinguishes the Glendon Women's Studies program from the other two undergraduate programs offered at York is its bilingual focus. Non-parallel courses are offered in both languages. As a result, a genuine

dialogue develops between the approaches of anglophones and francophones to theory, philosophy, literature, legal structures and language.

Program Requirements

Specialized Honours BA

Students must complete at least 54 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 24 additional credits of core courses;
- 12 credits at the 4000 level.

Specialized Honours iBA

Students must complete at least 54 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 24 additional credits of core courses;
- 12 credits at the 4000 level.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.
- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

General Honours BA

Students must complete at least 42 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 18 additional credits of core courses;
- 12 credits at the 4000 level.

Honours iBA

Students must complete at least 42 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 18 additional credits of core courses;
- 12 credits at the 4000 level.

In addition to the courses required for their major, students must also complete the following requirements:

- at least 12 credits of internationally-oriented courses;
- at least one full term abroad as a full-time student at an institution with which Glendon and/or York has a formal exchange agreement;
- for the iBA bilingual, students must complete at least 18 credits in each official language (French and English) at Glendon from the following two categories:
 - a) courses at the second-year level and above in French as a second language (FRLS) and/or in English as a second language (ENSL);
 - b) courses in any discipline which are designated as satisfying the bilingual requirement.

- for the iBA trilingual, in addition to the above 18 credits in English and French, students must complete 18 credits in Hispanic studies including GL/SP 2610 6.00 or another advanced-level course (six credits) in Hispanic studies or in a modern language offered by York University, including an advanced-level course in the chosen language.

Courses taken to fulfill the major requirements may also be used to fulfill the above iBA requirements.

Students may choose the Specialized, Honours, Honours Double Major or Honours Major/Minor program (Major only).

Honours Double Major BA

Students must complete at least 42 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 18 additional credits of core courses;
- 12 credits at the 4000 level.

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any other Honours iBA degree program offered at Glendon. For further details on requirements, see the listings for specific Honours iBA programs.

Combined Honours BA

Major in Women's Studies

Students must complete at least 42 credits in women's studies, including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00) and GL/W MST 4500 6.00;
- 18 additional credits of core courses;
- 12 credits at the 4000 level.

Minor in Women's Studies

Students must complete at least 30 credits in women's studies including:

- GL/W MST 2500 6.00 (or AP/GL/W MST 2510 9.00);
- 12 additional credits from the core courses;
- 12 credits at the 3000 or 4000 level, including six credits at the 4000 level.

Honours Major/Minor iBA

The Honours iBA in Women's Studies described above may be pursued jointly with any existing Honours Minor BA program at Glendon College.

Bachelor of Arts

Students must complete at least 30 credits in women's studies including:

- GL/W MST 2500 6.00 (or GL/W MST 2510 9.00);
- 12 additional credits from the core courses;
- 12 credits at the 3000 or 4000 level, including six credits at the 4000 level.

Études des femmes

Les Études des femmes, qui sont à la fois un complément et un prolongement des domaines établis à York, n'en constituent pas moins une nouvelle discipline universitaire en soi. Tout récemment encore, les humanités et les sciences sociales reflétaient surtout le point de vue masculin. Les femmes sont quasiment absentes de la littérature, des arts, de l'histoire, de la philosophie, de la politique, des sciences sociales et du droit. Les Études des femmes se fondent sur l'évaluation interculturelle et interdisciplinaire pour exposer les idées fausses sur les femmes qui sont véhiculées dans les mythes, les idéologies, l'enseignement et les écrits. Les stéréotypes culturels négatifs sont remplacés par des points de vue qui réaffirment la force, la vitalité et l'intelligence des femmes.

L'École des études des femmes regroupe les programmes de premier, deuxième et troisième cycles, le programme de mise à niveau non crédité, et le Centre de recherches féministes.

Le programme de Glendon se distingue par son caractère bilingue. Des cours différents sont offerts dans les deux langues et abordent les réalités propres aux anglophones et aux francophones, de sorte qu'il est possible de comparer leurs analyses respectives de la théorie, de la philosophie, de la littérature, des structures juridiques et de la langue.

Exigences du Programme

Baccalauréat spécialisé

Un minimum de 54 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 24 crédits additionnels choisis parmi les cours de base ;
- 12 crédits au niveau 4000.

Baccalauréat international spécialisé approfondi

Un minimum de 54 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 24 crédits additionnels choisis parmi les cours de base ;
- 12 crédits au niveau 4000.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :
 - a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
- Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé général

Un minimum de 42 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 18 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 4000.

Baccalauréat international spécialisé

Un minimum de 42 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 18 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 4000.

En plus des cours requis pour la majeure, les étudiants doivent satisfaire aux exigences suivantes :

- Au moins 12 crédits de cours axés sur la dimension internationale ;
- Au moins un semestre à temps plein dans un programme d'échange international et dans une institution reconnue par Glendon ou l'Université York ;
- Pour le programme iBA bilingue, les étudiants doivent obtenir 18 crédits dans chaque langue officielle (français et anglais) au Collège universitaire Glendon dans les deux catégories suivantes :

- a) des cours de 2^e année ou d'un niveau supérieur en Français langue seconde ou en Anglais langue seconde ;
 - b) des cours dans une discipline qui respecte les exigences du Collège en matière de bilinguisme.
- Pour le programme iBA trilingue, en sus des exigences du programme bilingue, les étudiants doivent obtenir : 18 crédits en Études hispaniques (incluant GL/SP 2610 6.00 ou six crédits en Études hispaniques au niveau avancé) ou 18 crédits dans une autre langue vivante offerts par l'Université York (dont six crédits au niveau avancé).
 - Les cours de la majeure peuvent aussi satisfaire aux exigences susmentionnées.

Baccalauréat spécialisé avec double majeure

Un minimum de 42 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 18 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 4000.

Baccalauréat international spécialisé avec double majeure

Les étudiants peuvent choisir Études des femmes dans un programme spécialisé international avec double majeure. Veuillez consulter l'Annuaire de l'Université pour les exigences de la deuxième majeure.

Baccalauréat spécialisé bidisciplinaire

Majeure en Études des femmes

Un minimum de 42 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 et GL/W MST 4500 6.00 ;
- 18 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 4000.

Mineure en Études des femmes

Un minimum de 30 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 ;
- 12 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 3000 ou 4000, dont six au niveau 4000.

Baccalauréat international spécialisé avec majeure et mineure

Les étudiants peuvent choisir Études des femmes dans un programme spécialisé avec une mineure dans une autre discipline. Veuillez consulter l'Annuaire de l'Université pour les exigences de la mineure.

Baccalauréat ès arts

Un minimum de 30 crédits en Études des femmes est requis, incluant :

- GL/W MST 2500 6.00 ou GL/W MST 2510 9.00 ;
- 12 crédits additionnels choisis parmi les cours de base ;
- 12 crédits en Études des femmes au niveau 3000 ou 4000.

Faculty of Health

Dean:

H. Skinner

Associate Deans:

G. Flett and S. Vail

General Information

The Faculty offers a range of perspectives on health drawn from natural science, social science, nursing, humanities, management and administration. The Faculty's vision is driven by the following principals and goals:

- to promote York's expertise in teaching, research, and practice in health by bringing it together in one Faculty;
- to foster the development of new academic programs in health at York that capitalize on existing strengths among faculty members across the University; and
- to create an academic environment and culture that will support the continual development of novel, innovative and multidisciplinary approaches to health and health care.

This multidisciplinary approach creates opportunities to explore a wide variety of health issues ranging from public policy decisions to the search for better clinical interventions.

A variety of methods for studying health and social phenomena is used in the Faculty, ranging from experimental and epidemiological techniques to clinical case studies, oral histories and ethnographic observation. Research focuses not only on hospitals and clinics but communities, homes, farms, schools, factories and the global economic environment.

Faculty of Health Programs

- Bachelor of Arts with Honours, majoring in kinesiology and health science
 - Bachelor of Arts and Bachelor of Arts with Honours, majoring in psychology
 - Bachelor of Health Studies and Bachelor of Health Studies with Honours, all majors
 - Bachelor of Science with Honours, majoring in kinesiology and health science
 - Bachelor of Science and Bachelor of Science with Honours, majoring in psychology
 - Bachelor of Science in Nursing with Honours, all streams
-

Academic Advising and Student Responsibility

The Faculty of Health considers academic advising an important responsibility. The term academic advising covers a number of complementary functions related to assisting students, such as:

- selecting courses;
- ascertaining whether students are meeting academic regulations;
- planning for students' academic future both before and after graduation.

These functions may vary in their significance to students at different times of the academic year and at different points in students' academic careers.

Advising students is a shared responsibility between Faculty of Health schools and departments and the Office of Student and Academic Services. Students should contact these offices throughout the year for advice and information related to their academic career including academic performance, degree programs and requirements.

Student Responsibility

Every effort is made to ensure that students in the Faculty of Health have access to sound information and individual advice and guidance. Within this context, and within the framework of Faculty and program regulations, students are responsible for making choices regarding courses and programs. Students should take special care to:

- ensure the courses they choose meet all requirements for graduation;
 - ensure the courses they choose meet prerequisites and are not exclusions or equivalents of other courses already taken;
 - ensure the times of the courses they choose do not conflict with other courses;
 - ensure the accuracy of their registration records, including all changes;
 - note and observe deadlines and procedures, especially deadlines for adding and dropping courses;
 - keep informed about their academic progress, including performance in individual courses;
 - ensure full documentation is provided in support of petitions and other requests for special consideration.
-

Academic Honesty and Integrity

Academic Honesty

A central purpose of the University is to teach students to think independently and critically. Cheating and other forms of academic dishonesty run counter to this purpose and violate the ethical and intellectual principles of the University; they are therefore subject to severe penalties. For more information, refer to the Senate Policy on Academic Honesty (see University Policies and Regulations section of this publication or <http://www.yorku.ca/secretariat/policies/>).

Academic Integrity

Students are encouraged to familiarize themselves about issues of academic integrity, positive strategies to improve academic efforts and avoid committing an academic offence. An academic integrity tutorial, including a self-test are located at http://www.yorku.ca/tutorial/academic_integrity/.

Rules and Regulations

Course Loads

The following course loads apply to students in the Faculty of Health. In certain circumstances the Faculty may set other limits.

Fall/Winter Session

The normal course load for students in the fall/winter session is 30 credits. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session. Students may take a maximum of 36 credits overall (and 18 credits per term) without petitioning.

Summer Session

During the summer session, students may take a maximum of 15 credits. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session.

Residency Requirement

A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Coregistration in the Faculty of Education

Students enrolled in the bachelor of arts or bachelor of science degrees offered by the Faculty of Health may apply for admission to the Pre-Service Concurrent program of the Faculty of Education. If they are accepted, they may coregister in the Faculty of Education and upon successful completion of the separate degree requirements of both Faculties will be awarded two degrees:

- Honours bachelor of arts (BA) and a bachelor of education (BEd) or
- bachelor of arts (BA) and bachelor of education (BEd) or
- Honours bachelor of science (BSc) and a bachelor of education (BEd) or
- bachelor of science (BSc) and a bachelor of education (BEd).

Although the health and education courses are taken concurrently, they are counted separately by each Faculty. Grade point averages for courses in the two Faculties are also calculated separately. Thus, the 30 credits required for the BEd are independent of the 120 credits required for an Honours BA or BSc, or the 90 credits required for the BA or BSc. Therefore, a student completing the requirements for both degrees would complete a total of 150 credits for the Honours BA/BEd or Honours BSc/BEd or 120 credits for the BA/BEd or BSc/BEd.

Letters of Permission

Letters of permission allow Faculty of Health students to receive credit at York for courses taken at other universities. In order to receive credit for such courses, a letter of permission must be obtained prior to enrolling. Application forms for letters of permission are available at Student Client Services or from the Current Students Web site (<http://www.yorku.ca/yorkweb/cs.htm>).

Courses which students propose to take on a letter of permission must be acceptable to the Faculty of Health teaching unit best able to judge their academic merit. The Faculty is under no obligation to accept courses taken without its permission.

Students must be in good academic standing to be eligible for a letter of permission; students on academic warning, debarment warning or academic probation are not eligible.

In order to receive credit for courses taken on a letter of permission, students must arrange for the host institution to submit an official transcript to the Registrar's Office. A minimum grade of C as understood at York University is required for credit to be granted. Grades earned in courses taken at other postsecondary institutions are not part of the student's York transcript and are not incorporated into the student's grade point average in the Faculty of Health.

Several formal programs exist for students to pursue study at universities in other countries. Where formal programs do not exist, and academic and personal circumstances warrant, individual arrangements may be made. For further information contact York International.

Should a student leave York University to pursue study at another postsecondary institution without a letter of permission, upon return to York, a new application to York is required and all previous transfer credit will be reassessed.

Inter-Faculty Double Major and Major/Minor Degree Options

Students have opportunities to combine a Faculty of Health Honours BA, Honours BSc or Honours BHS program with options available in the Faculties of Environmental Studies, Fine Arts, Liberal Arts and Professional Studies and Science and Engineering.

Faculty of Environmental Studies Options

Students in the Faculty of Health may combine any Honours Double Major BA program, Honours Major or Minor BA program, Honours Double Major BSc program, Honours Major or Minor BHS program with the Faculty of Environmental Studies:

- Students must maintain Honours standing.
- Faculty of Health degree requirements and program regulations apply.

Students successfully completing this program will receive an Honours BA, Honours BSc degree or Honours BHS degree. Consult the Office of Student and Academic Services, Faculty of Health for more information.

Students should note that in order to complete the requirements of the Honours Double Major or Honours Minor programs, it may be necessary to successfully complete more than 120 credits.

Students in the Faculty of Environmental Studies may also pursue an Honours Double Major or Honours Minor program with the Faculty of Health. For more information, contact the Faculty of Environmental Studies.

Faculty of Fine Arts Options

Students in the Faculty of Health may combine an Honours Double Major BA program, Honours Major or Minor BA program, Honours Major or Minor BSc program in Kinesiology and Health Science with the Faculty of Fine Arts:

- Students must maintain Honours standing.
- Faculty of Health degree requirements and program regulations apply.

Students should consult the Faculty of Fine Arts Programs of Study section for the requirements of specific majors or minors. Fine arts courses taken by Health students as part of these programs are considered out-of-Faculty courses. Students who complete such a program receive an Honours BA or BSc degree from the Faculty of Health. Students pursuing an Honours Double Major program should note that, in some cases, it may be necessary to successfully complete more than 120 credits in order to satisfy requirements. For further details, consult the Office of Student and Academic Services, Faculty of Health.

All fine arts majors or minors require an evaluation. Depending on the Faculty of Fine Arts department, this may include a personal interview, an audition, a written exercise, or portfolio evaluation. For information on admission requirements in fine arts areas, students should consult the Fine Arts Office of Student and Academic Services.

Students in the Faculty of Fine Arts may also pursue an Honours Double Major or Honours Minor program with the Faculty of Health. For more information, contact the Faculty of Fine Arts.

Faculty of Liberal Arts and Professional Studies Options

Students in the Faculty of Health may combine any Honours Double Major BA program, Honours Major or Minor BA program, Honours Double Major BSc program, Honours Major or Minor BSc program, Honours Double Major BHS program, Honours Major or Minor BHS program with the Faculty of Liberal Arts and Professional Studies:

- Students must maintain Honours standing.
- Faculty of Health degree requirements and program regulations apply.

Faculty of Health Honours Double Major BA programs may be pursued with any Faculty of Liberal Arts and Professional Studies Interdisciplinary Honours Double Major programs.

Students in the Faculty of Liberal Arts and Professional Studies may also pursue an Honours Double Major or Honours Minor program with the Faculty of Health. For more information, contact the Faculty of Liberal Arts and Professional Studies.

Faculty of Science and Engineering Options

Students in the Faculty of Health may combine any Honours Double Major BA program, Honours Major or Minor BA program, Honours Double Major BSc program, Honours Major or Minor BSc program, Honours Double Major BHS program, Honours Major or Minor BHS program with the Faculty of Science and Engineering:

- Students must maintain Honours standing.
- Faculty of Health degree requirements and program regulations apply.

Students pursuing an Honours Double Major or an Honours Minor program should note that, in some cases, it may be necessary to successfully complete more than 120 credits in order to satisfy requirements. For further details, consult the Office of Student and Academic Services, Faculty of Health.

Students in the Faculty of Science and Engineering may also pursue an Honours Double Major or Honours Minor program with the Faculty of Health. For more information, contact the Faculty of Science and Engineering.

Academic Honours

The Faculty recognizes the academic excellence of its students in appropriate ways. The following honours are recorded on a student's transcript:

Sessional Honours (Dean's Honour Roll)

- Students taking 12 to 17 credits in a given session who have attained a sessional grade point average of 8.00 or higher.
- Students taking 18 or more credits in a given session who have attained a sessional grade point average of 7.50 or higher.

Graduation Honours for Honours Degrees

Summa cum laude: 8.00 or higher cumulative grade point average

Magna cum laude: 7.80 to 7.99 cumulative grade point average

Cum laude: 7.50 to 7.79 cumulative grade point average

Dean's Honour Roll: 7.00 or higher cumulative grade point average

Graduation Honours for Bachelor Degrees

With distinction: 8.00 or higher cumulative grade point average

With merit: 7.50 to 7.99 cumulative grade point average

Dean's Honour Roll: 7.00 or higher cumulative grade point average

In addition

- medals
- scholarships and merit awards
- entrance scholarships
- renewable scholarships
- in-course scholarships

are recorded on the student's transcript.

Academic Standing

Academic standing depends on several factors which include the number of credits a student has passed, the grade point average achieved during a particular session (sessional grade point average), or the overall grade point average (cumulative grade point average).

Year Level and Student Progress

Students progress toward a degree in the Faculty of Health is measured in terms of the number of credits passed (or earned) rather than years of study completed. The year level includes transfer credit. Year 4 applies to students in honours programs only.

Year Level	Credits Earned
1	Fewer than 24 earned
2	Fewer than 54 earned
3	Fewer than 84 earned
4	84 earned or greater

Faculty of Education courses taken by students coregistered in the Faculty of Education are not included in Faculty of Health year levels.

Honours Standing Grade Point Average Requirement

Students who have completed less than 84 earned credits whose cumulative grade point average is below 5.00, may continue in a Faculty of Health Honours degree program provided you meet the year level progression requirements as follows:

Year Level	Credits Earned	Cumulative Grade Point Average
1	0 to 23 earned	Minimum cumulative grade point average 4.00
2	24 to 53 earned	Minimum cumulative grade point average 4.25
3	54 to 83 earned	Minimum cumulative grade point average 4.80
4	84 earned or greater	Minimum cumulative grade point average 5.00

Limited Additional Credits for Bachelor Degree Program

Students in a bachelor program who have passed 90 credits in accordance with Faculty and program requirements, but whose cumulative grade point average is below 4.00 may attempt to raise their average to 4.00 by taking up to 12 additional credits, to a maximum of 102 credits. These courses must be above the 1000 level and must be taken at York University.

Senate Policy on Repeating Passed or Failed Courses for Academic Credit

- a) Students are allowed to repeat a passed or a failed course once for academic degree or certificate credit. Students should note that course availability and space considerations may preclude the possibility of repeating a course in the session they choose.
 - b) When a student is allowed to repeat a course for academic degree or certificate credit, the second grade will be the grade of record and the only grade calculated in the student's grade point average (major, cumulative, sessional and overall). A course can be credited only once towards satisfaction of degree or certificate academic credit requirements.
 - c) The record of both the first and second time the course was taken will appear on the student's transcript, with the first course designated as "No Credit Retained"².
 - d) The restrictions regarding repeating a passed or failed course also apply to cross-listed courses and course credit exclusions.
- The above items do not apply to graduate degree or diploma programs, the BEd degree programs of the Faculty of Education or the JD degree program of Osgoode Hall Law School.
- The above items do not apply to practicum courses offered in the Bachelor of Social Work degree program or practicum courses offered in the Bachelor of Science in Nursing (BScN) degree program.

- It should be noted that when a course is repeated, the first instance of the course being taken and the grade that was awarded will continue to appear on the transcript with the designation NCR (No Credit Retained) added as a qualification beside the grade. The transcript legend will explain that the NCR designation means that neither the course credit nor grade have been included in the calculation of the student's grade point average.

Academic Standing Requirements for Bachelor of Science in Nursing Honours Degree Program

Students who have completed less than 120 credits and maintain a cumulative grade point average of at least 5.00 may proceed in Honours.

Students at the point of completing 120 credits who have at least a cumulative grade point average of 5.00 and have a minimum grade of C (4.00) in all courses used in the major may apply to graduate or continue in the BScN Honours if requirements are not met.

Entry/re-entry. Students who attain the 5.00 cumulative grade point average prior to completion of 90 credits and have fulfilled the entry requirements may apply for entry/re-entry to the program. Students who have not attained the 5.00 cumulative grade point average at the point of completing 90 credits, will be ineligible for the program. No extra courses may be taken in a subsequent session in an effort to raise the grade point average. All requests for re-entry to the BScN are subject to School of Nursing approval. Some programs may have limited entry. Students may submit a change of degree request to enter/re-enter the program to the School of Nursing. All students who enter/re-enter the BScN program must follow the requirements of the program in place at the time of entry/re-entry.

Faculty transfers. Students from other Faculties may submit a Faculty or Degree Change Request to enter the program to Student Client Services.

Failure to maintain academic standing. Advising recommended. Please refer to the Academic Penalties section which contains information on program warning, program warning conditions, required withdrawal, reactivation after required withdrawal, debarment warning and debarment warning conditions.

Academic Standing Requirements for Visiting Students

Individuals who wish to enrol in undergraduate credit courses, but who do not intend to complete a degree or a certificate may be admitted to York as a visiting student (see the Admissions section for more information). There are three categories of visiting students:

- those who hold an undergraduate degree (three-year bachelor's degree minimum) from an accredited university/university-level institution;
- those who **do not hold an undergraduate degree** but wish to enrol in York courses to fulfill the academic, upgrading or professional development requirements of a professional designation;
- those who are currently attending another recognized university and wish to take York courses on a letter of permission issued by their home institution.

Grade Point Average (GPA) Requirement

Students in categories a) and b) whose overall cumulative grade point average (OCGPA) falls below 4.00 on at least 24 credits attempted will not be allowed to enrol in any subsequent session as visiting students. Students who are not permitted to re-enrol must apply for re-admission through the Admissions Office.

Note: repeated course legislation does not apply to visiting students but only to academic degrees and certificates. Therefore, all courses attempted or taken will count in the OCGPA.

Credit Limits

Students in category b) who have maintained an OCGPA of 4.00 throughout their studies and who have completed 30 credits will not be allowed to enrol in subsequent sessions and must either reactivate to proceed as visiting students or may choose to apply for admission to a degree or certificate program.

Academic Penalties

Students whose academic record does not meet Faculty or program standards are subject to the academic penalties of academic warning, required withdrawal, debarment warning, debarment and academic probation. Students enrolled in the Bachelor of Science in Nursing Degree program are subject to a separate set of academic penalties.

Academic Warning

Students whose cumulative grade point average falls below 4.00 at the end of any session, or who enter the Faculty with a grade point average equivalent to less than 4.00 on the York scale, receive an academic warning. Students on academic warning must achieve a cumulative grade point average of at least 4.00 within the next 24 credits taken, or earn a sessional grade point average of at least 5.00 in the session in which that 24th credit is completed and in each subsequent session until the cumulative grade point average reaches 4.00, or be required to withdraw. Students whose cumulative grade point average on at least 24 credits is below 2.50 will be required to withdraw.

Required Withdrawal

Students whose academic record shows marked weakness may be required to withdraw from their studies for one year, during which they are encouraged to identify and remedy any problems which may have contributed materially to their failure to perform up to their potential and to reflect on their reasons for pursuing a university education. The following regulations apply to required withdrawals.

Grade point average below 2.50. Students whose cumulative grade point average on at least 24 York credits is below 2.50 must withdraw for 12 months.

Grade point average below 4.00 and equal to or greater than 2.50. Students who have received an academic warning for a cumulative grade point average below 4.00 must achieve a cumulative grade point average of at least 4.00 within their next 24 credits taken or earn a sessional grade point average of at least 5.00 in the session in which that 24th credit is completed and in each subsequent session until the cumulative grade point average reaches 4.00; otherwise, they must withdraw for 12 months. Should the student's cumulative grade point average fall below 2.50 at any time after completion of 24 York credits, they will be required to withdraw for 12 months.

Petition to continue without interruption. Students who have been required to withdraw may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition will be allowed to continue their studies on debarment warning.

Reactivation after required withdrawal. Students who have been required to withdraw must apply for reactivation after the requisite period of absence by submitting a reactivation form to Student Client Services. The form is available on the Web at <http://www.registrar.yorku.ca/services/everything/reacts/>. Students who return to their studies after such a required withdrawal (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive a debarment warning.

Debarment Warning

Students who have been required to withdraw from the Faculty of Health or from another Faculty at York or elsewhere, receive a debarment warning upon continuing their studies in the Faculty. Students on debarment warning must achieve a cumulative grade point average of at least 4.00 within the next 24 credits taken or earn a sessional grade point average of at least 5.00 in the session in which that 24th credit is completed and in each subsequent session until the cumulative grade point average reaches 4.00, and must then maintain this average. Students who do not fulfill these conditions will be debarred from the University.

Debarment

Students who fail to meet the debarment warning conditions outlined above will be debarred from the University. Debarment, the minimum period for which is normally two years, means that the student is no longer a student at York University.

Petition to continue without interruption. Students who have been debarred may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition will be allowed to continue their studies on academic probation.

Reapplying after debarment. Students who have been debarred and who wish to resume their studies must apply for admission through the Admissions Office, <http://www.yorku.ca/web/futurestudents>, and must provide persuasive evidence that they are ready and able to complete a degree program. Students who are re-admitted (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive an academic probation.

Academic Probation

Students who have been debarred and who subsequently resume their studies in the Faculty of Health, whether by petitioning to continue without interruption or by reapplying for admission, receive an academic probation. Students on academic probation must meet the debarment warning conditions outlined above; otherwise, they will be debarred again.

Honours Bachelor of Science in Nursing - Honours BScN (All Streams)

Program Warning for Honours BScN

BScN students who have completed less than 120 credits will be placed on a program warning if the cumulative grade point average is at least 4.00 but is below 5.00.

Students may continue in BScN providing they meet the program warning conditions outlined below.

Program warning conditions for BScN. BScN students on program warning, within the next 24 credits taken, must have a cumulative grade point average of at least 5.00. At no time may the cumulative grade point average fall below 4.00. At no time may the cumulative grade point average fall below 2.50 upon completion of at least 24 York credits.

Upon completion of 120 credits BScN students who do not have a cumulative grade point average of at least 5.00 including a minimum grade of C (4.00) in all courses used in the major will be ineligible to proceed in the program or graduate.

Failure to meet the above program warning conditions. Students whose cumulative grade point average on at least 24 York credits is below 2.50 must withdraw for 12 months (required withdrawal).

Students who do not meet the program warning conditions for their program as listed above will not be eligible to continue in the program and must declare a new degree program to be eligible to continue with their studies.

Students with less than a 4.00 cumulative grade point average who have completed less than 90 credits must declare a new degree program and will proceed in the new degree program on academic warning.

Required Withdrawal

Students whose academic record shows marked weakness may be required to withdraw from their studies for 12 months, during which they are encouraged to identify and remedy any problems which may have contributed materially to their failure to perform up to their potential and to reflect on their reasons for pursuing a university education. The following regulations apply to required withdrawals.

Grade point average below 4.00 and equal to or greater than 2.50. Students who have received an academic warning for a cumulative grade point average below 4.00 (C) must achieve a cumulative grade point average of at least 4.00 (C) within their next 24 credits taken or earn a sessional grade point average of at least 5.00 (C+) in the session in which

that 24th credit is completed and in each subsequent session until the cumulative grade point average reaches 4.00 (C); otherwise, they must withdraw for 12 months. Students will be required to withdraw for 12 months should their cumulative grade point average fall below 2.50 at any time after completion of 24 York credits.

Grade point average below 2.50. Students whose cumulative grade point average on at least 24 York credits is below 2.50 must withdraw for 12 months.

Petition to continue without interruption. Students who have been required to withdraw may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on debarment warning.

Reactivation after required withdrawal. Students who have been required to withdraw may apply for reactivation after the requisite period of absence by submitting a form obtainable from Student Client Services. Students who return to their studies after such a required withdrawal (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive a debarment warning.

Debarment Warning

Students who have been required to withdraw receive a debarment warning upon continuing their studies in the Faculty.

Debarment warning conditions. Students on debarment warning must achieve a cumulative grade point average of at least 4.00 (C) within the next 24 credits taken or earn a sessional grade point average of at least 5.00 (C+) in the session in which the 24th credit is completed and in each subsequent session until the cumulative average reaches 4.00 (C), and must then maintain this average. Students who do not fulfill these conditions will be debarred from the University. Students whose cumulative grade point average falls below 2.50 at any time while on debarment warning will be debarred.

Debarment

Students who fail to meet the debarment warning conditions outlined above will be debarred from the University. Debarment, the minimum period for which is normally two years, means that the student is no longer a student at York University.

Petition to continue without interruption. Students who have been debarred may submit a petition to the Faculty of Health Petitions Committee requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on academic probation.

Reapplying after debarment. Students who have been debarred and who wish to resume their studies must apply for re-admission through the Admissions Office, and must provide persuasive evidence that they are ready and able to complete a degree program. Students who are re-admitted (as well as those who have been allowed to continue their studies by virtue of a petition to the Petitions Committee) receive an academic probation.

Academic Probation

Students who have been debarred and who subsequently resume their studies in the Faculty whether by petitioning to continue without interruption or by applying for re-admission, receive an academic probation. Students on academic probation must meet the debarment warning conditions outlined above; otherwise, they will be debarred. Students who have completed 120 credits or greater who do not have the required cumulative grade point average of at least 5.00 and/or a minimum grade of C (4.00) in all courses used in the major will be ineligible to proceed or graduate.

Petitions for Exemptions from Regulations

Academic regulations allow you to develop your interests and talents to the fullest in ways consistent with the philosophy and standards of the Faculty. In establishing academic regulations, the Faculty also recognizes that instances will arise where it makes sense, in the context of a student's academic career, to waive regulations which would otherwise apply.

Petitions Committee

The Petitions Committee considers requests for exceptions to all Faculty regulations, including petitions to continue studies without interruption from students who have been required to withdraw or debarred. The guidelines for consideration of petitions/appeals by Faculty committees are located at <http://yorku.ca/univsec/senate/committees/sac/petguid.htm>.

Right to Petition

Students in the Faculty of Health have the right to petition for special consideration. A petition is a request for the waiver of a regulation: it cannot be used to create legislation (e.g. a degree program) that does not exist. Normally, petitions will not be considered by the Petitions Committee more than one year beyond the date of the release of grades for the session to which the petition relates.

Petitions Procedures

Petitions are held in the strictest confidence and are presented anonymously to the committee. The committee considers the petition itself, any supporting documentation from professors or medical practitioners and other relevant information contained in the student's record. Students may not appear in person.

Initiating a Petition

To initiate a petition, you must obtain a petition package from Student Client Services at <http://www.registrar.yorku.ca/services/petitions/>.

Petitions must be mailed or hand delivered to:

Faculty of Health Petitions Committee
c/o Registrar's Office, Bennett Centre for Student Services

The drop box is located in the front lobby and is available 24 hours a day, 7 days a week.

More information on petitioning is available from Student Client Services, or the Faculty of Health Office of Student and Academic Services, Ground Floor, Health, Nursing and Environmental Studies Building. You may also visit the Current Students Web site.

Faculty of Health – Programs of Study

The following degree programs comprise the Faculty of Health:

Health Studies

- Bachelor of Health Studies and Bachelor of Health Studies with Honours, all majors

Health Studies provides a comprehensive understanding of current health care challenges and the skills to address them, from Honours Major in health studies to the three different concentrations - health informatics, health management, and health policy.

Kinesiology and Health Science

- Bachelor of Arts with Honours, majoring in kinesiology and health science
- Bachelor of Science with Honours, majoring in kinesiology and health science

Kinesiology and health science provides a broad curriculum focused on the anatomical, physiological, psychological and cultural aspects of human movement and health.

Nursing

- Bachelor of Science in Nursing, all streams

Nursing offers three ways to achieve the BScN, including a collaborative option, a second-degree entry option and a BScN designed to meet the needs of internationally educated nurses.

Psychology

- Bachelor of Arts and Bachelor of Arts with Honours, majoring in psychology
- Bachelor of Science and Bachelor of Science with Honours, majoring in psychology

The Psychology program enables you to choose from the extensive range of in-class and Internet courses covering the broad range of health-related topics including cancer care, autism, cardiovascular disease, eating disorders, bullying, clinical treatments, HIV/AIDS, SARS, rehabilitation psychology and depression.

Health Studies

Bachelor of Health Studies Honours and Bachelor of Health Studies Degree Programs

The School of Health Policy and Management offers a bachelor of health studies degree (BHS) with three Specialized Honours major programs: health informatics, health management and health policy and an Honours and bachelor program majoring in health studies. In addition, the school offers a Cross-Disciplinary Undergraduate Certificate in Health Informatics. Certificate requirements are listed in the Faculty of Health Undergraduate Certificate section.

Health Informatics (Specialized Honours BHS Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 66 major credits (36 core course credits and 30 health informatics course credits) as follows:

Core Courses (36 credits)

AP/ECON 1000 3.00
 HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 AP/ADMS 2300 6.00
 HH/HLST 3010 3.00
 AP/ECON 3510 3.00
 HH/HLST 4000 3.00
 HH/HLST 4010 3.00

Health Informatics Courses (30 credits)

AP/ITEC 1000 3.00
 AP/ITEC 1620 3.00
 HH/HLST 3310 3.00 or HH/NURS 3240 3.00
 HH/HLST 3320 3.00
 HH/HLST 3341 3.00
 HH/HLST 4200 6.00
 HH/HLST 4310 3.00 or AP/ITEC 3010 3.00
 HH/HLST 4320 3.00
 HH/HLST 4330 3.00

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: additional credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill upper-level credits.

Health Management (Specialized Honours BHS Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level.

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 66 major credits (36 core course credits and 30 health management course credits) as follows:

Core Courses (36 credits)

AP/ECON 1000 3.00
 HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 AP/ADMS 2300 6.00
 HH/HLST 3010 3.00

AP/ECON 3510 3.00
 HH/HLST 4000 3.00
 HH/HLST 4010 3.00

Health Management Courses (30 credits)

AP/ADMS 1000 3.00
 select one of: AP/ADMS 2600 3.00, AP/ADMS 3120 3.00, HH/HLST 3015 3.00, HH/HLST 3240 3.00 (cross-listed to: AP/ADMS 3400 3.00), HH/HLST 3540 3.00 or HH/HLST 4320 3.00
 HH/HLST 3230 3.00
 HH/HLST 3250 3.00
 HH/HLST 3400 3.00
 HH/HLST 4200 6.00
 HH/HLST 4210 3.00
 HH/HLST 4250 3.00
 HH/HLST 4330 3.00

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: additional credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill upper-level credits.

Health Policy (Specialized Honours BHS Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 66 major credits (36 core course credits and 30 health policy course credits) as follows:

Core Courses (36 credits)

AP/ECON 1000 3.00
 HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 AP/ADMS 2300 6.00
 HH/HLST 3010 3.00
 AP/ECON 3510 3.00
 HH/HLST 4000 3.00
 HH/HLST 4010 3.00

Health Policy Courses (30 credits)

AP/POLS 2910 6.00
 HH/HLST 3015 3.00 or HH/HLST 3540 3.00
 HH/HLST 3110 3.00
 HH/HLST 3120 3.00
 HH/HLST 3230 3.00
 HH/HLST 4110 3.00
 select one of: HH/HLST 4130 3.00, HH/HLST 4140 3.00 or HH/HLST 4510 3.00
 HH/HLST 4200 6.00

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level including, at least 18 credits at the 4000 level.

Electives: additional credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill upper-level credits.

Health Studies (Honours BHS Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 42 credits in the major as follows:

HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 AP/ADMS 2300 6.00
 HH/HLST 3120 3.00
 HH/HLST 3230 3.00
 HH/HLST 3341 3.00
 HH/HLST 3010 3.00
 HH/HLST 4010 3.00
 HH/HLST 4200 6.00

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: additional credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill upper-level credits.

Honours Double Major BHS Program

The Honours BHS program described above may be pursued jointly with Honours Double Major bachelor's degree programs in the Faculties of Environmental Studies, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, contact the respective Faculty.

Honours Major/Minor BHS Program

The Honours BHS program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Honours Minor in Health Informatics

The Honours Minor in health informatics comprises of at least 30 credits in health informatics. These include:

HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 HH/HLST 3310 3.00
 HH/HLST 3341 3.00
 HH/HLST 3320 3.00
 HH/HLST 4320 3.00
 HH/HLST 4330 3.00
 HH/HLST 4340 3.00 or HH/HLST 4300 3.00

Honours Minor in Health Management

The Honours Minor in health management comprises of at least 30 credits in health management. These include:

HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2030 3.00
 HH/HLST 3010 3.00
 HH/HLST 3230 3.00
 HH/HLST 3250 3.00
 HH/HLST 3400 3.00
 HH/HLST 4010 3.00 or HH/HLST 4000 3.00
 HH/HLST 4210 3.00
 HH/HLST 4250 3.00 or HH/HLST 4330 3.00

Honours Minor in Health Policy

The Honours Minor in health policy comprises of at least 30 credits in health policy. These include:

HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 3010 3.00
 HH/HLST 3110 3.00
 HH/HLST 3120 3.00
 HH/HLST 3230 3.00
 HH/HLST 4010 3.00 or HH/HLST 4000 3.00
 HH/HLST 4110 3.00
 HH/HLST 4130 3.00

Health Studies (BHS Program): 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 90 credits, with a minimum cumulative grade point average of 4.00 (C).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 30 credits in the major including the following:

HH/HLST 1000 6.00 or HH/HLST 1010 3.00 and HH/HLST 1011 3.00
 HH/HLST 2020 3.00
 HH/HLST 2030 3.00
 HH/HLST 2040 3.00
 HH/HLST 3010 3.00

at least 12 additional credits in health studies (HLST) credits at the 3000 level

Upper-level credits: at least 18 credits at the 3000 level or 4000 level, including at least 12 credits at the 3000 level or 4000 level in health studies.

Electives: additional credits as required for an overall total of at least 90 credits. Elective credits may be used to fulfill upper-level credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residence requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements:

Program Course	Course Substitutes
HH/HLST 2040 3.00	HH/NURS 3200 3.00
HH/HLST 4330 3.00	AP/ADMS 4300 3.00
AP/ECON 1000 3.00	AP/ECON 1000 3.00, GL/ECON 2500 3.00
AP/POLS 2910 6.00	AK/POLS 3420 6.00 (prior to Summer 2005), AS/POLS 2100 6.00 (prior to Summer 2003), AS/POLS 2610 6.00 (prior to Summer 2003), GL/POLS 2600 6.00
HH/HLST 4300 3.00	HH/NURS 4200 3.00
HH/HLST 4310 3.00	AP/ITEC 2010 3.00

Kinesiology and Health Science

Bachelor of Arts Honours and Bachelor of Science Honours Degree Programs

The School of Kinesiology and Health Science offers courses leading to a bachelor of arts (BA) degree in kinesiology and health science (Specialized Honours, Honours, Honours Double Major and Honours Major and Minor options) and a bachelor of science (BSc) degree in kinesiology and health science (Specialized Honours, Honours, Double Major and Honours Major and Minor options). In each of these programs, students complete a specified core of academic courses as well as practicum courses.

Kinesiology and Health Science (Specialized Honours BA Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+) and all practicum requirements.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 54 major credits in kinesiology and health science, including at least 12 credits at the 4000 level.

Core Courses (42 credits)

HH/KINE 1000 6.00
 HH/KINE 1020 6.00
 HH/KINE 2011 3.00
 HH/KINE 2031 3.00
 HH/KINE 2049 3.00
 HH/KINE 2050 3.00
 HH/KINE 3000 3.00
 HH/KINE 3012 3.00
 HH/KINE 3020 3.00
 HH/KINE 3030 3.00
 HH/KINE 4010 3.00
 HH/KINE 4020 3.00

at least 12 additional kinesiology and health science (KINE) credits including six credits at the 4000 level

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: a minimum of 18 credits outside the major. Elective credits may be used to fulfill upper-level credits.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes, that they obtain the signature of the course director on the applicable form and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Kinesiology and Health Science (Honours BA Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+) and all practicum requirements.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 48 major credits in kinesiology and health science, including at least 12 credits at the 4000 level.

Core Courses (42 credits)

HH/KINE 1000 6.00
 HH/KINE 1020 6.00
 HH/KINE 2011 3.00
 HH/KINE 2031 3.00
 HH/KINE 2049 3.00
 HH/KINE 2050 3.00
 HH/KINE 3000 3.00
 HH/KINE 3012 3.00
 HH/KINE 3020 3.00
 HH/KINE 3030 3.00
 HH/KINE 4010 3.00
 HH/KINE 4020 3.00

at least six additional kinesiology and health science (KINE) credits at the 4000 level

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: a minimum of 18 credits outside the major. Elective credits may be used to fulfill upper-level credits.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes, that they obtain the signature of the course director on the applicable form and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Honours Double Major BA Program

The Honours BA program described above may be pursued jointly with Honours Double Major bachelor's degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Honours Double Major Interdisciplinary BA Programs

The Honours BA program described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 48 credits in kinesiology and health science including the kinesiology and health science core, and at least 36 credits in the interdisciplinary program. Courses taken to meet kinesiology and health science requirements cannot also be used to meet requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in kinesiology and health science and six credits in the interdisciplinary program. For further details on requirements, see the listings for specific Honours Double Major Interdisciplinary BA programs in the Faculty of Liberal Arts and Professional Studies Programs of Study section of the Undergraduate Calendar.

Honours Major/Minor BA Program

The Honours BA program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Honours Minor BA Program

Students must complete a minimum of 42 credits in kinesiology and health science courses, including the kinesiology and health science core, with a minimum of six credits at the 4000 level.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement for the double major and major/minor options, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes, that they obtain the signature of the course director on the applicable form and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Kinesiology and Health Science (Specialized Honours BSc Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+) and all practicum requirements.

Note: more than 120 credits may be required to complete the degree requirements in the applied certificate stream.

Science requirement: of the 120 credits, at least 84 credits must be earned in science courses. The composition of the 84 science credits includes courses in the major, basic science courses and electives.

Science credits can be selected from the following:

- All courses offered through the Faculty of Science and Engineering.
- All kinesiology and health science courses excluding:
 - HH/KINE 2380 3.00, HH/KINE 3240 3.00, HH/KINE 3250 3.00, HH/KINE 3360 3.00, HH/KINE 3420 3.00, HH/KINE 3430 3.00, HH/KINE 3440 3.00, HH/KINE 3490 3.00, HH/KINE 3510 3.00, HH/KINE 3530 3.00, HH/KINE 3580 3.00, HH/KINE 3620 3.00, HH/KINE 4340 3.00, HH/KINE 4350 3.00, HH/KINE 4360 3.00, HH/KINE 4370 3.00, HH/KINE 4375 3.00, HH/KINE 4420 3.00, HH/KINE 4430 3.00, HH/KINE 4480 3.00, HH/KINE 4485 3.00, HH/KINE 4490 3.00, HH/KINE 4530 3.00, HH/KINE 4560 3.00, HH/KINE 4620 3.00, HH/KINE 4630 3.00, HH/KINE 4645 3.00.
- All psychology courses excluding:
 - HH/PSYC 3430 3.00, HH/PSYC 3600 3.00, HH/PSYC 3620 3.00, HH/PSYC 3630 3.00, HH/PSYC 3670 3.00, HH/PSYC 4120 3.00.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level
- six credits in modes of reasoning (MODR) at the 1000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Basic science requirement: a minimum of 21 credits as follows:

- six credits in mathematics selected from:
 - SC/MATH 1505 6.00
 - SC/MATH 1013 3.00
 - SC/MATH 1014 3.00
 - SC/MATH 1025 3.00
- 15 credits selected from:
 - SC/BIOL 1010 6.00
 - SC/CHEM 1000 3.00
 - SC/CHEM 1001 3.00
 - SC/CSE 1520 3.00 or SC/CSE 1540 3.00
 - SC/EATS 1010 3.00
 - SC/EATS 1011 3.00
 - SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00

Note: for kinesiology and health science students, six (6) of the 15 preceding credits are satisfied by completing the kinesiology and health science major program requirements.

Major credits: students must complete a minimum of 54 major credits in kinesiology and health science.

Core Courses (42 credits)

HH/KINE 1000 6.00
 HH/KINE 1020 6.00
 HH/KINE 2011 3.00
 HH/KINE 2031 3.00

HH/KINE 2049 3.00
 HH/KINE 2050 3.00
 HH/KINE 3000 3.00
 HH/KINE 3012 3.00
 HH/KINE 3020 3.00
 HH/KINE 3030 3.00
 HH/KINE 4010 3.00
 HH/KINE 4020 3.00

at least 12 additional kinesiology and health science (KINE) credits including six credits at the 4000 level

Upper-level credits: a minimum of 42 credits at the 3000 level or 4000 level.

Electives: additional elective credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill science and upper-level credits.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes, that they obtain the signature of the course director on the applicable form and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Kinesiology and Health Science (Honours BSc Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+) and all practicum requirements.

Science requirement: of the 120 credits, at least 84 credits must be earned in science courses. The composition of the 84 science credits includes courses in the major, basic science courses and electives.

Science credits can be selected from the following:

- All courses offered through the Faculty of Science and Engineering.
- All kinesiology and health science courses excluding:
 - HH/KINE 2380 3.00, HH/KINE 3240 3.00, HH/KINE 3250 3.00, HH/KINE 3360 3.00, HH/KINE 3420 3.00, HH/KINE 3430 3.00, HH/KINE 3440 3.00, HH/KINE 3490 3.00, HH/KINE 3510 3.00, HH/KINE 3530 3.00, HH/KINE 3580 3.00, HH/KINE 3620 3.00, HH/KINE 4340 3.00, HH/KINE 4350 3.00, HH/KINE 4360 3.00, HH/KINE 4370 3.00, HH/KINE 4375 3.00, HH/KINE 4420 3.00, HH/KINE 4430 3.00, HH/KINE 4480 3.00, HH/KINE 4485 3.00, HH/KINE 4490 3.00, HH/KINE 4530 3.00, HH/KINE 4560 3.00, HH/KINE 4620 3.00, HH/KINE 4630 3.00, HH/KINE 4645 3.00.
- All psychology courses excluding:
 - HH/PSYC 3430 3.00, HH/PSYC 3600 3.00, HH/PSYC 3620 3.00, HH/PSYC 3630 3.00, HH/PSYC 3670 3.00, HH/PSYC 4120 3.00.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level
- six credits in modes of reasoning (MODR) at the 1000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three

credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Basic science requirement: a minimum of 21 credits as follows:

- six credits in mathematics selected from:
 - SC/MATH 1505 6.00
 - SC/MATH 1013 3.00
 - SC/MATH 1014 3.00
 - SC/MATH 1025 3.00
- 15 credits selected from:
 - SC/BIOL 1010 6.00
 - SC/CHEM 1000 3.00
 - SC/CHEM 1001 3.00
 - SC/CSE 1520 3.00 or SC/CSE 1540 3.00
 - SC/EATS 1010 3.00
 - SC/EATS 1011 3.00
 - SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00

Note: for kinesiology and health science students, six (6) of the 15 preceding credits are satisfied by completing the kinesiology and health science major program requirements.

Major credits: students must complete a minimum of 48 major credits in kinesiology and health science.

Core Courses (42 credits)

HH/KINE 1000 6.00
 HH/KINE 1020 6.00
 HH/KINE 2011 3.00
 HH/KINE 2031 3.00
 HH/KINE 2049 3.00
 HH/KINE 2050 3.00
 HH/KINE 3000 3.00
 HH/KINE 3012 3.00
 HH/KINE 3020 3.00
 HH/KINE 3030 3.00
 HH/KINE 4010 3.00
 HH/KINE 4020 3.00
 at least six additional kinesiology and health science (KINE) credits at the 4000 level

Upper-level credits: a minimum of 42 credits at the 3000 level or 4000 level.

Electives: additional elective credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill science and upper-level credits.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes; that they obtain the signature of the course director on the applicable form; and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Honours Double Major BSc Program

The Honours BSc program described above may be pursued jointly with Honours Double Major bachelor's degree programs in the Faculties of Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Honours Major/Minor BSc Program

The Honours BSc program described above may be pursued jointly with an Honours Minor bachelor's degree in the Faculties of Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Honours Minor BSc Program

Students must complete a minimum of 42 credits in kinesiology and health science courses, including the kinesiology and health science core.

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Practicum (PKIN): in addition to the 120 credit minimum degree requirement for the double major and major/minor options, students must take 8 practicum (PKIN) courses including at least one course in each of the following practicum areas:

- aquatics
- dance/gymnastics
- emergency care
- individual and dual sports
- team games/sports
- track and field

Note: students may take practicum (PKIN) courses on a pass/fail basis provided that they apply to do so within the first two weeks of classes; that they obtain the signature of the course director on the applicable form; and that the completed form is submitted to the Kinesiology and Health Science Undergraduate Office.

Refer to the end of this section for the practicum course list.

Kinesiology and Health Science Practicum Program

All students enrolled in Kinesiology and Health Science programs must complete the practicum core, which consists of one practicum course in each of the following six areas: aquatics, dance/gymnastics, emergency care, individual and dual sports, team sports, track and field and an additional two free choice practicum courses, for a total of eight courses. A detailed description of the course offerings and requirements is available from the School of Kinesiology and Health Science.

Practicum Course List

While practicum courses are required of all kinesiology and health science students in order to graduate, they are not applied towards the academic degree requirements in kinesiology and health science. The second digit of the practica courses indicates the practicum area. One practicum course represents a total of 24 contact hours of sports activity or equivalent.

Practicum courses provide professional preparation for kinesiology and health science students and as such may require vigorous physical activity. It is strongly recommended that every student in the practicum program have a medical examination prior to participating. Students with disabilities are considered on a case-by-case basis. Practicum courses are open to both men and women unless otherwise specified. For practicum course descriptions, please consult the School of Kinesiology and Health Science supplemental calendar.

Undergraduate Certificates

The School of Kinesiology and Health Science offers undergraduate certificates in: athletic therapy; coaching; fitness assessment and exercise counselling; and sport administration that may be taken concurrently with an Honours degree. Upon graduation, students who have successfully completed the degree and certificate requirements receive a certificate in addition to the undergraduate degree. Students may only enrol in one certificate stream at a time.

Certificate requirements are listed in the Faculty of Health Undergraduate Certificate section.

Course Substitutes

The School of Kinesiology and Health Science does not recognize any course substitutes for its academic course requirements.

Nursing

Bachelor of Science in Nursing (BScN) Honours Degree Programs (Collaborative BScN, 2nd Degree Entry BScN, Post-RN IEN BScN)

The Bachelor of Science in Nursing (BScN Honours) program focuses on the development of the theoretical, scientific and philosophical knowledge of human caring. The role of nurses, through caring relationships, in promoting and preserving health and healing is emphasized through both theory and self-reflective practice. Graduates will be prepared to practise collaboratively in a variety of settings to enhance individual, family, community and global health.

York-Seneca-Georgian Collaborative BScN Program

Students in the four-year Collaborative BScN program select one of two collaborative partner sites (Seneca or Georgian Colleges) for Years 1 and 2 of their degree followed by Years 3 and 4 at York University.

Program Requirements for Students Entering Year 3 at York University for the Fall/Winter 2009-2010 or Fall/Winter 2010-2011 Session

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

120 credits including:

- 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology.

Major credits: students must complete a minimum of 51 major credits in nursing as follows:

HH/NURS 2300 3.00
 HH/NURS 3040 3.00
 HH/NURS 3050 3.00
 HH/NURS 3300 3.00
 HH/NURS 3400 3.00
 HH/NURS 3410 3.00
 HH/NURS 4100 3.00
 HH/NURS 4110 9.00
 HH/NURS 4111 3.00
 HH/NURS 4120 6.00
 HH/NURS 4130 6.00

at least six additional nursing (NURS) credits at the 3000 level or 4000 level

Upper-level requirement: a minimum of 57 credits must be taken at the 3000 level or 4000 level, including at least 27 credits at the 4000 level.

Electives: a minimum of nine credits outside nursing at the 3000 level or 4000 level.

Note: HH/NURS 4110 9.00, HH/NURS 4111 3.00, HH/NURS 4120 6.00 and HH/NURS 4130 6.00 have a practicum component. If the grade for the practicum component is "fail" then the overall final course grade will be "F".

Program Requirements for Students Entering Year 3 at York University Effective the Fall/Winter 2011-2012 Session

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in the major must be taken at York University.

Graduation: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all nursing (NURS) courses.

120 credits including:

- 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology.

Note: students who have been granted 60 credits for successful completion of the first two years of the program at an approved collaborative program partner College of Applied Arts and Technology will be deemed to have fulfilled the following general education requirements for the Collaborative BScN program.

General education requirements: a minimum of 12 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level

It is strongly recommended that students complete the general education requirements within their first 54 credits.

Year 3 and 4 (Completed at York University)

60 credits, including:

Major requirements: a minimum of 48 major credits in nursing as follows:

HH/NURS 3514 3.00
 HH/NURS 3515 3.00
 HH/NURS 3524 6.00
 HH/NURS 4516 3.00
 HH/NURS 4525 6.00
 HH/NURS 4526 6.00
 HH/NURS 4527 9.00
 HH/NURS 4528 3.00
 HH/NURS 4546 3.00

and six nursing (NURS) credits at the 3000 level or higher

In addition, students must complete a minimum of six credits as follows:

Either HH/PSYC 2021 3.00 or HH/KINE 2050 3.00, plus SC/BIOL 2900 3.00.

Note: HH/NURS 3524 6.00, HH/NURS 4525 6.00, HH/NURS 4526 6.00, HH/NURS 4527 9.00 have a practicum component. Students need to pass both the classroom and practical components in order to pass the course. If the grade for the practicum component is "fail" then the overall final course grade will be "F".

Required courses outside the major: a minimum of six credits outside nursing at the 3000 level or higher.

Upper-level requirement: a minimum of 54 credits must be taken at the 3000 level or above, including at least 30 credits at the 4000 level.

2nd Degree Entry BScN Program

This is a concentrated six semester program, requiring students to study in fall, winter and summer terms over two years.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 150 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

150 credits including:

- 60 credits completed at a recognized university prior to admission.

Major credits: students must complete a minimum of 90 credits as follows:

HH/NURS 1900 6.00
 HH/NURS 1950 3.00
 HH/NURS 1960 3.00
 HH/NURS 2900 6.00
 HH/NURS 2930 3.00
 HH/NURS 2950 3.00
 HH/NURS 2960 3.00
 HH/NURS 3300 3.00
 HH/NURS 3400 3.00
 HH/NURS 3410 3.00
 HH/NURS 3900 6.00
 HH/NURS 3910 6.00
 HH/NURS 3950 3.00
 HH/NURS 3960 3.00
 HH/NURS 4000 3.00
 HH/NURS 4100 3.00
 HH/NURS 4120 6.00
 HH/NURS 4900 9.00
 HH/NURS 4901 3.00

Required major courses outside of nursing: SC/CHEM 1550 3.00 and SC/CHEM 2550 3.00.

Upper-level requirement: a minimum of 57 credits must be taken at the 3000 level or 4000 level, including at least 24 credits at the 4000 level.

Electives: a minimum of six credits outside nursing at the 3000 level or higher.

Note: HH/NURS 1900 6.00, HH/NURS 2900 6.00, HH/NURS 3900 6.00, HH/NURS 3910 6.00, HH/NURS 4120 6.00, HH/NURS 4900 9.00, HH/NURS 4901 3.00 and have a practicum component. If the grade for the practicum component is "fail" then the overall final course grade will be "F".

Post-RN IEN BScN Program

This program is for internationally educated nurses.

Admission requirements: entry procedures include the following academic and professional criteria:

- International education assessed by the College of Nurses of Ontario as "diploma equivalent".
- Minimum overall average of C+ in previous nursing studies.
- Proof of language proficiency for applicants who do not meet one of the following criteria:
 - their first language is English; or
 - they have completed at least one year of full-time study at an accredited university in a country (or institution) where English is the official language of instruction. Proficiency in English is demonstrated by a minimum TOEFL score of Computer: 230; Paper: 573; iBT: 88; or equivalent.

Qualifying period: once admitted, the students will enter a conditional qualifying period comprised of the following York University degree level courses:

- AP/WRIT 3900 3.00 - three credits University 3000-level course - Essentials of Professional Writing;
- HH/NURS 3902 3.00 - three credits University 3000-level course - Providing Culturally Competent Care;
- HH/NURS 3901 3.00 - three credits University 3000-level course - Pharmacotherapeutics.

Successful completion of the qualifying period requires a minimum overall average of 5.00 (C+) at the end of each session to be eligible to continue in the Post-RN IEN BScN.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+), including a minimum grade of 4.00 (C) in all major courses.

120 credits including:

- 60 transfer credits for recognition of diploma equivalent education and successful completion of nine credits from the pre-qualifying session.

Major credits: students must complete a minimum of 51 major credits as follows:

HH/NURS 2300 3.00
 HH/NURS 2731 6.00
 HH/NURS 3010 3.00
 HH/NURS 3130 3.00
 HH/NURS 3300 3.00
 HH/NURS 3400 3.00
 AP/ADMS 3710 3.00
 HH/NURS 3770 3.00
 HH/NURS 4120 6.00
 HH/NURS 4131 6.00
 HH/NURS 4150 6.00
 HH/NURS 4710 3.00
 HH/NURS 4910 3.00

Upper-level requirement: a minimum of 51 credits must be taken at the 3000 level or 4000 level, including at least 24 credits at the 4000 level.

Note: HH/NURS 2731 6.00, HH/NURS 4120 6.00 and HH/NURS 4131 6.00 have practicum components. If the grade for the practicum component is "fail" then the overall final course grade will be "F". HH/NURS 4150 6.00 is graded as credit/no credit. Successful completion of the practicum course, as indicated by achieving a credit, is a requirement in the BScN program.

School of Nursing: Policy on Involuntary Withdrawal

A student may be required to withdraw involuntarily from a course with a practicum component if:

1. The student fails to meet the requirements of the course with a practicum component, either through unsatisfactory attendance and/or participation in class or practicum settings, or through unprofessional behaviour in fulfilling course requirements; or
2. The student's performance is judged to disrupt the functioning of the practicum site and/or jeopardize the well-being of clients of the practicum site, and/or demonstrate failure to meet professional standards for practice currently mandated by the College of Nurses of Ontario.

Following a meeting with the student, the decision to require the student to withdraw will be taken by the director of the School of Nursing on the recommendation of the course director and/or practicum coordinator.

Students have access to the usual appeal procedures in such instances.

School of Nursing: Student Behaviour Policy

The bachelor of science in nursing (BScN) degree is an important determinant of eligibility for registration with the College of Nurses of Ontario. Given the professional trajectory of the BScN degree, a professional standard of behaviour is expected from nursing students. At issue in this policy is the protection of the public and the University's role in graduating competent professionals. The policy recognizes the general responsibility of the faculty members of the School of Nursing to foster acceptable standards of professional behaviour and of the student to be mindful of and abide by such standards.

Progression through the BScN program at the School of Nursing at York University is contingent on students' behaviour meeting the ethical and behavioural standards set forth in the Canadian Nurses Association Code of Ethics for Registered Nurses, the College of Nurses of Ontario Professional Standards, including the Ethics Practice Standard, the York

University Student Code of Conduct, and other relevant York University policies including, but not limited to, the Sexual Harassment Policy and the Policy Concerning Racism.

Behaviour that may result in withdrawal from the BScN program

A student may be withdrawn from the BScN program if he or she:

1. commits any breach of the CNA Code of Ethics, the CNO Professional Standards, the CNO Ethics Practice Standards and/or any York University Policy that relates to student behaviour, such as the York University Student Code of Conduct or the Senate Policy on Academic Honesty that would engage the behavioural and ethical standards of the profession;
2. engages in any proscribed behaviour in a practicum agency as detailed in the School of Nursing's Handbook;
3. acquires a criminal conviction after being admitted to the program (or which was acquired prior to admission but became known only after having been admitted to the program) which jeopardizes the student's ability to gain registration as a nurse; or
4. engages in behaviour that impairs the performance of professional responsibilities.

For more information, refer to School of Nursing Supplemental Calendar.

Psychology

Bachelor of Arts Honours, Bachelor of Arts and Bachelor of Science Honours, Bachelor of Science Degree Programs; York/Seneca Joint Program in Psychology and Rehabilitation Services

The Department of Psychology offers bachelor of arts (BA) and bachelor of science (BSc) degrees in psychology (Specialized Honours, Honours, bachelor, Honours Double Major and Honours Major and Minor options).

Admission to all 2000, 3000 and 4000 level courses in psychology (with the exception of HH/PSYC 2020 6.00, HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00) is conditional upon satisfactory completion of HH/PSYC 1010 6.00.

Students must obtain a minimum grade of C in HH/PSYC 1010 6.00 to be permitted to continue as a major in psychology, as well as to take any further psychology courses for which HH/PSYC 1010 6.00 is a prerequisite.

Under exceptional circumstances, non-majors who have not obtained a minimum grade of C in HH/PSYC 1010 6.00 may apply for special consideration to enrol in an upper-level psychology course for which HH/PSYC 1010 6.00 is a prerequisite. This application should be made to an undergraduate program director in the Department of Psychology.

Psychology (Specialized Honours BA Program): 120 Credits

Admission: students must be currently enrolled in an Honours program in Psychology, with a minimum overall cumulative grade point average of 7.00 (B+). The application process for this program includes the completion of an application form available through the Department of Psychology. Applicants must have completed a minimum of 53 credits in total, including HH/PSYC 1010 6.00 (with a minimum grade of C), HH/PSYC 2020 6.00 and HH/PSYC 2030 3.00 or equivalent. Students who have completed or project to complete 53 credits by the end of the academic year may submit an application by April 15 of that year.

Continuing: to continue in the Specialized Honours program, students must maintain an overall cumulative grade point average of at least 7.00 (B+).

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete a minimum of 54 (but not more than 66) credits in psychology, including at least 12 credits at the 4000 level.

Psychology courses must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00
 HH/PSYC 2030 3.00
 HH/PSYC 3010 3.00
 HH/PSYC 3031 3.00
 HH/PSYC 3090 3.00
 HH/PSYC 3125 3.00

at least six credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least six credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

at least 12 credits in psychology (PSYC) at the 4000 level, including HH/PSYC 4001 6.00

at least three additional credits in psychology (PSYC)

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: a minimum of 18 credits outside the major. Elective credits may be used to fulfill upper-level credits.

Psychology (Honours BA Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three

credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete at least 42 (but not more than 54) credits in psychology, including at least 12 credits at the 4000 level.

Psychology courses must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00
 HH/PSYC 2030 3.00

at least three credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3125 3.00
 HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least three credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

at least 12 credits in psychology (PSYC) at the 4000 level, including HH/PSYC 4000 6.00 or HH/PSYC 4170 6.00

at least nine additional credits in psychology (PSYC)

Upper-level credits: a minimum of 36 credits must be taken at the 3000 level or 4000 level, including at least 18 credits at the 4000 level.

Electives: a minimum of 18 credits outside the major. Elective credits may be used to fulfill upper-level credits.

Honours Double Major BA Program

The Honours BA program described above may be pursued jointly with Honours Double Major bachelor's degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Honours Double Major Interdisciplinary BA Programs

Psychology may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must complete at least 36 credits (but not more than 54 credits) in psychology and at least 36 credits in the interdisciplinary program. Courses taken to meet psychology requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in psychology and six credits in the interdisciplinary program. For further details on requirements, see the listings for specific Honours Double Major Interdisciplinary BA programs in the Faculty of Liberal Arts and Professional Studies Programs of Study section of the Undergraduate Calendar.

The 36 credits in psychology must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00
 HH/PSYC 2030 3.00

at least three credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3125 3.00

HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least three credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

one of: HH/PSYC 4000 6.00 or HH/PSYC 4170 6.00
 at least nine additional credits in psychology (PSYC)

Honours Major/Minor BA Program

The Honours BA program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Honours Minor BA Program

The Honours Minor in psychology comprises at least 30 (but not more than 42) credits in psychology. These 30 credits must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2021 3.00 or HH/PSYC 2020 6.00
 HH/PSYC 2030 3.00

at least six credits in psychology (PSYC) courses at the 4000 level
 additional credits from psychology (PSYC) courses for an overall total of at least 30 credits in psychology

Psychology (BA Program): 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 90 credits with a minimum overall cumulative grade point average of 4.00 (C).

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level or modes of reasoning (MODR) at the 1000 level
- six credits in natural science (NATS) at the 1000 or 2000 level.

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Major credits: students must complete at least 30 (but not more than 42) credits in psychology, including at least 12 credits at the 3000 level or 4000 level in psychology.

Psychology courses must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2021 3.00 or HH/PSYC 2020 6.00
 HH/PSYC 2030 3.00

at least three credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3125 3.00

HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least three credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

additional credits from psychology (PSYC) for an overall total of at least 30 credits

Upper-level credits: a minimum of 18 credits must be taken at the 3000 level or 4000 level.

Electives: a minimum of 18 credits outside the major. Elective credits may be used to fulfill upper-level credits.

Psychology (Specialized Honours BSc Program): 120 Credits

Admission: students must be currently enrolled in an Honours program in Psychology, with a minimum overall cumulative grade point average of 7.00 (B+). The application process for this program includes the completion of an application form available through the Department of Psychology. Applicants must have completed a minimum of 53 credits in total, including HH/PSYC 1010 6.00, HH/PSYC 2020 6.00 and HH/PSYC 2030 3.00 or equivalent. Students who have completed or project to complete 53 credits by the end of the academic year may submit an application by April 15 of that year.

Continuing: to continue in the Specialized Honours program, students must maintain an overall cumulative grade point average of at least 7.00 (B+).

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 7.00 (B+).

Science requirement: of the 120 credits, at least 84 credits must be earned in science courses. The composition of the 84 science credits includes courses in the major, basic science courses and electives.

Science credits can be selected from the following:

- All courses offered through the Faculty of Science and Engineering.
- All kinesiology and health science courses excluding:

HH/KINE 2380 3.00, HH/KINE 3240 3.00, HH/KINE 3250 3.00, HH/KINE 3360 3.00, HH/KINE 3420 3.00, HH/KINE 3430 3.00, HH/KINE 3440 3.00, HH/KINE 3490 3.00, HH/KINE 3510 3.00, HH/KINE 3530 3.00, HH/KINE 3580 3.00, HH/KINE 3620 3.00, HH/KINE 4340 3.00, HH/KINE 4350 3.00, HH/KINE 4360 3.00, HH/KINE 4370 3.00, HH/KINE 4375 3.00, HH/KINE 4420 3.00, HH/KINE 4430 3.00, HH/KINE 4480 3.00, HH/KINE 4485 3.00, HH/KINE 4490 3.00, HH/KINE 4530 3.00, HH/KINE 4560 3.00, HH/KINE 4620 3.00, HH/KINE 4630 3.00, HH/KINE 4645 3.00.

- All psychology courses excluding:

HH/PSYC 3430 3.00, HH/PSYC 3600 3.00, HH/PSYC 3620 3.00, HH/PSYC 3630 3.00, HH/PSYC 3670 3.00, HH/PSYC 4120 3.00.

General education requirement: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level
- six credits in modes of reasoning (MODR) at the 1000 level

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three

credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Basic science requirement: a minimum of 21 credits as follows:

- six credits in mathematics selected from:
 - SC/MATH 1505 6.00
 - SC/MATH 1013 3.00
 - SC/MATH 1014 3.00
 - SC/MATH 1025 3.00
- 15 credits selected from:
 - SC/BIOL 1010 6.00
 - SC/CHEM 1000 3.00
 - SC/CHEM 1001 3.00
 - SC/CSE 1520 3.00 or SC/CSE 1540 3.00
 - SC/EATS 1010 3.00
 - SC/EATS 1011 3.00
 - SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00

Note: for kinesiology and health science students, six of the 15 preceding credits are satisfied by completing the kinesiology and health science major program requirements.

Major credits: students must complete a minimum of 54 (but not more than 66) credits in psychology.

Psychology courses must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00
 HH/PSYC 2030 3.00
 HH/PSYC 3010 3.00
 HH/PSYC 3031 3.00
 HH/PSYC 3090 3.00
 HH/PSYC 3125 3.00

at least six credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least six credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

at least 12 credits in psychology (PSYC) at the 4000 level, including HH/PSYC 4001 6.00

at least three additional credits in psychology (PSYC)

Upper-level credits: a minimum of 42 credits at the 3000 level or 4000 level.

Electives: additional elective credits as required for an overall total of at least 120 credits. Elective credits may be used to fulfill science and upper-level credits.

Psychology (Honours BSc Program): 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: all graduates must complete a total of at least 120 credits with a minimum overall cumulative grade point average of 5.00 (C+).

Science requirement: of the 120 credits, at least 84 credits must be earned in science courses. The composition of the 84 science credits includes courses in the major, basic science courses and electives.

Science credits can be selected from the following:

- All courses offered through the Faculty of Science and Engineering.
- All kinesiology and health science courses excluding:
 - HH/KINE 2380 3.00, HH/KINE 3240 3.00, HH/KINE 3250 3.00, HH/KINE 3360 3.00, HH/KINE 3420 3.00, HH/KINE 3430 3.00, HH/KINE 3440 3.00, HH/KINE 3490 3.00, HH/KINE 3510 3.00, HH/KINE 3530 3.00, HH/KINE 3580 3.00, HH/KINE 3620 3.00, HH/KINE 4340 3.00, HH/KINE 4350 3.00, HH/KINE 4360 3.00, HH/KINE 4370 3.00, HH/KINE 4375 3.00, HH/KINE 4420 3.00, HH/KINE 4430 3.00, HH/KINE 4480 3.00, HH/KINE 4485 3.00, HH/KINE 4490 3.00, HH/KINE 4530 3.00, HH/KINE 4560 3.00, HH/KINE 4620 3.00, HH/KINE 4630 3.00, HH/KINE 4645 3.00.
- All psychology courses excluding:
 - HH/PSYC 3430 3.00, HH/PSYC 3600 3.00, HH/PSYC 3620 3.00, HH/PSYC 3630 3.00, HH/PSYC 3670 3.00, HH/PSYC 4120 3.00.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level
- six credits in modes of reasoning (MODR) at the 1000 level.

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Basic science requirement: a minimum of 21 credits as follows:

- six credits in mathematics selected from:
 - SC/MATH 1505 6.00
 - SC/MATH 1013 3.00
 - SC/MATH 1014 3.00
 - SC/MATH 1025 3.00
- 15 credits selected from:
 - SC/BIOL 1010 6.00
 - SC/CHEM 1000 3.00
 - SC/CHEM 1001 3.00
 - SC/CSE 1520 3.00 or SC/CSE 1540 3.00
 - SC/EATS 1010 3.00
 - SC/EATS 1011 3.00
 - SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00

Note: for kinesiology and health science students, six of the 15 preceding credits are satisfied by completing the kinesiology and health science major program requirements.

Major credits: students must complete at least 42 (but not more than 54) credits in psychology.

Psychology courses must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00
 HH/PSYC 2030 3.00

at least three credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3125 3.00
 HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least three credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00

HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

at least 12 credits in psychology (PSYC) at the 4000 level, including HH/PSYC 4000 6.00 or HH/PSYC 4170 6.00

at least nine additional credits in psychology (PSYC)

Upper-level credits: a minimum of 42 credits at the 3000 level or 4000 level.

Electives: additional elective credits for an overall total of at least 120 credits. Elective credits may be used to fulfill science and upper-level credits.

Honours Double Major BSc Programs

The Honours BSc program described above may be pursued jointly with an Honours Major bachelor's degree in the Faculties of Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Honours Major/Minor BSc Programs

The Honours BSc program described above may be pursued jointly with an Honours Minor bachelor's degree program in the Faculties of Health, Liberal Arts and Professional Studies or Science and Engineering as listed in the Faculty of Health Rules and Regulations section.

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Honours Minor

The Honours Minor in psychology comprises at least 30 (but not more than 42) credits in psychology. These 30 credits must include:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2021 3.00 or HH/PSYC 2020 6.00
 HH/PSYC 2030 3.00

at least six credits from psychology (PSYC) courses at the 4000 level
 additional credits from psychology (PSYC) courses for an overall total of at least 30 credits in psychology

Note: students pursuing double major or major/minor BSc programs are required to complete at least 66 credits in science courses.

Psychology (BSc Program): 90 Credits

Residency Requirement: A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation Requirement: All graduates must complete a total of at least 90 credits with a minimum overall cumulative grade point average of 4.00 (C).

Science requirement: of the 90 credits, at least 63 credits must be earned in science courses. The composition of the 63 science credits includes courses in the major, basic science courses and electives.

Science credits can be selected from the following:

- All courses offered through the Faculty of Science and Engineering.
- All kinesiology and health science courses excluding:

HH/KINE 2380 3.00, HH/KINE 3240 3.00, HH/KINE 3250 3.00, HH/KINE 3360 3.00, HH/KINE 3420 3.00, HH/KINE 3430 3.00, HH/KINE 3440 3.00, HH/KINE 3490 3.00, HH/KINE 3510 3.00, HH/KINE 3530 3.00, HH/KINE 3580 3.00, HH/KINE 3620 3.00, HH/KINE 4340 3.00, HH/KINE 4350 3.00, HH/KINE 4360 3.00, HH/KINE 4370 3.00, HH/KINE 4375 3.00, HH/KINE 4420 3.00, HH/KINE 4430 3.00, HH/KINE 4480 3.00, HH/KINE 4485 3.00, HH/KINE 4490 3.00, HH/KINE 4530 3.00, HH/KINE 4560 3.00, HH/KINE 4620 3.00, HH/KINE 4630 3.00, HH/KINE 4645 3.00.

- All psychology courses excluding:

HH/PSYC 3430 3.00, HH/PSYC 3600 3.00, HH/PSYC 3620 3.00, HH/PSYC 3630 3.00, HH/PSYC 3670 3.00, HH/PSYC 4120 3.00.

General education: a minimum of 18 credits as follows:

- six credits in humanities (HUMA) at the 1000 or 2000 level
- six credits in social science (SOSC) at the 1000 or 2000 level
- six credits in modes of reasoning (MODR) at the 1000 level.

It is strongly recommended that students complete the general education requirements above within their first 54 credits. Students may take nine credits of either HUMA or SOSC, six credits of which would count toward the corresponding general education area of study and the additional three credits would count toward electives. Students may complete a maximum of 30 credits in general education, any additional credits not being used to fulfill general education may count toward electives.

Basic science requirement: a minimum of 21 credits as follows:

- six credits in mathematics selected from:
 SC/MATH 1505 6.00
 SC/MATH 1013 3.00
 SC/MATH 1014 3.00
 SC/MATH 1025 3.00
- 15 credits selected from:
 SC/BIOL 1010 6.00
 SC/CHEM 1000 3.00
 SC/CHEM 1001 3.00
 SC/CSE 1520 3.00 or SC/CSE 1540 3.00
 SC/EATS 1010 3.00
 SC/EATS 1011 3.00
 SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00

Major credits:

HH/PSYC 1010 6.00 (with a minimum grade of C)
 HH/PSYC 2021 3.00 or HH/PSYC 2020 6.00
 HH/PSYC 2030 3.00

at least three credits chosen from:

HH/PSYC 2110 3.00
 HH/PSYC 2120 3.00
 HH/PSYC 2130 3.00
 HH/PSYC 3125 3.00
 HH/PSYC 3140 3.00
 HH/PSYC 3170 3.00
 HH/PSYC 3190 3.00

at least three credits chosen from:

HH/PSYC 2210 3.00
 HH/PSYC 2220 3.00
 HH/PSYC 2230 3.00
 HH/PSYC 2240 3.00
 HH/PSYC 3250 3.00
 HH/PSYC 3260 3.00
 HH/PSYC 3265 3.00
 HH/PSYC 3270 3.00
 HH/PSYC 3280 3.00
 HH/PSYC 3290 3.00

additional credits from psychology (PSYC) courses for an overall total of at least 30 credits

Upper-level credits: a minimum of 18 credits at the 3000 level or 4000 level, including 12 credits in the major.

Electives: additional elective credits as required for an overall total of at least 90 credits. Elective credits may be used to fulfill science and upper-level credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions, and residence requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements:

Program Course	Course Substitutes
HH/PSYC 1010 6.00	AK/PSYC 2410 6.00, GL/PSYC 2510 6.00
HH/PSYC 2020 6.00	AP/ECON 2500 3.00 and AP/ECON 3500 3.00; AK//ECON 3470 3.00 (prior to Winter 2008) and AP/ECON 3480 3.00; HH/KINE 2050 3.00 and HH/KINE 3150 3.00; SC/MATH 2560 3.00 and SC/MATH 2570 3.00; HH/PSYC 2021 3.00 and HH/PSYC 2022 3.00; AK/PSYC 2510 3.00 (prior to Winter 2002) and AK/PSYC 3110 3.00 (prior to Summer 2002)
HH/PSYC 2021 3.00	AP/ADMS 2320 3.00, SC/BIOL 2060 3.00, AP/ECON 2500 3.00, AK/ECON 3470 3.00 (prior to Winter 1998), HH/KINE 2050 3.00, SC/MATH 2560 3.00, GL/PSYC 2530 3.00, AK/PSYC 2510 3.00 (prior to Winter 2002)
HH/PSYC 2022 3.00	AP/ECON 3500 3.00, AP/ECON 3480 3.00, HH/KINE 3150 3.00, SC/MATH 2570 3.00, AK/PSYC 3110 3.00 (prior to Summer 2002)
HH/PSYC 2030 3.00	ES/ENVS 2009 3.00, ES/ENVS 3009 3.00, HH/KINE 2049 3.00, GL/PSYC 2520 3.00 (prior to Winter 2001)

York/Seneca Joint Program in Psychology and Rehabilitation Services

This program allows a student to complete a BA or BSc or an Honours BA or Honours BSc degree in psychology at York in conjunction with a Certificate in Rehabilitation Counselling. The certificate is awarded jointly by York University and Seneca College. A full-time student would normally require four years of study for a BA or BSc degree, and five years of study for an Honours BA or Honours BSc degree, in the joint program.

In order to fulfill the requirements of a BA or BSc in psychology, a student is required to take a minimum of 30 (but not more than 42) credits in psychology, including HH/PSYC 1010 6.00 (with a minimum grade of C). For an Honours BA or Honours BSc in psychology, a minimum of 42 (but not more than 54) credits in psychology are required (see degree program requirements).

During years three and four, students will normally take 30 credits at York, from the required program list, and the equivalent of 30 credits will be chosen from the Seneca offerings. In addition to in-class academic instruction, students are required to complete two full year (September to April) courses involving a total of 800 hours of supervised fieldwork in each of the three major domains of rehabilitation: physical, emotional and developmental. Programs will be tailored to each student through discussion with the coordinators. Minimum academic requirement for applicants is a 5.00 (C+) grade point average in the first 60 credits.

Admission Requirements and Procedures

Students who wish to enter the Rehabilitation Services program should apply in the January preceding the final year of their BA or BSc degree program to the departmental program office. Generally, a student who demonstrates good intellectual ability, emotional stability and relevant experience will be considered for entry into the program. Applicants must have:

- completed 60 University-level credits towards a BA or BSc or 90 University-level credits towards an Honours BA or Honours BSc with a minimum cumulative grade point average of 5.00 (C+);
- completed an Introduction to psychology course (with a minimum grade of C);

- fulfilled the general education requirements of York University;
- previous employment or volunteer work in the field of rehabilitation or related relevant experience.

Application materials for students currently enrolled at York University may be obtained by contacting Barbara Thurston, 283 Behavioural Sciences Building, 416-736-5115, ext. 66253; e-mail: bthurst@yorku.ca.

In order to be considered for admission, all applicants must submit a complete application (i.e. application form, official transcripts and two letters of recommendation). Students from other universities should apply through the York University Admissions Office. Complete applications received by the deadline (March 9) will be rank-ordered according to academic standing and previous experience by York and Seneca coordinators.

For Students Completing the Honours BA or Honours BSc Degree

Years 1, 2 and 3

Requirements at York

90 credits including HH/PSYC 1010 6.00 (with a minimum grade of C). So as not to exceed the maximum number of credits allowed by the Psychology program, students should not take more than 24 credits towards the major (including HH/PSYC 1010 6.00) and some of these should be from the required list of the joint program.

Years 4 and 5

Students will proceed to take the courses listed under Years 3 and 4 above.

Note: in addition to completing the above courses, students must also fulfill their specific degree requirements (for a detailed description of degree requirements, please refer to the Programs of Study description for the major).

For Students Completing the BA or BSc Degree

Years 1 and 2

Requirements at York

60 credits including HH/PSYC 1010 6.00 (with a minimum grade of C). So as not to exceed the maximum number of credits allowed by the Psychology program, students should not take more than 12 credits towards the major (including HH/PSYC 1010 6.00) unless taken from the required list for the joint program.

Year 3 (Year 1 of program)

Requirements at York

HH/PSYC 2130 3.00, HH/PSYC 3140 3.00, HH/PSYC 2230 3.00, HH/PSYC 3430 3.00 and AP/SOCI 3820 6.00.

Requirements at Seneca

YSR 819 Physical Disabilities - Part I, YSR 824 Interviewing and Case Management, YSR 826 Community Resources, YSR 828 Introduction to Rehabilitation and FWK 901 Rehabilitation Field Work (two days per week-two semesters).

Year 4 (Year 2 of program)

Requirements at York

HH/PSYC 4030 6.00 and HH/PSYC 4060 6.00.

Requirements at Seneca

YSR 820 Physical Disabilities - Part II, YSR 821 Theories of Vocational Development and Counselling, YSR 823 (half course) Canadian Social Policy Evolution, YSR 825 Rehabilitation Process (two semesters), YSR 901 Life Skills Coaching, and FWK 902 Rehabilitation Field Work (two days per week-two semesters).

Undergraduate Certificates

The Faculty of Health offers a number of undergraduate certificates. Certificate requirements are listed below. For information on certificate requirements, admissions and application procedures, contact the School offering the certificate.

Athletic Therapy

School of Kinesiology and Health Science

Coordinator: Frances Flint

Admission: students must be degree candidates in kinesiology and health science or students with previously completed kinesiology related degrees. The application process for this program includes an assessment of academic standing, a letter of application, a resume and reference letters. Interviews are given to selected candidates. Applicants must have completed a minimum of 24 credits including HH/KINE 1000 6.00 and HH/KINE 1020 6.00 and achieved a minimum cumulative average of 5.00 (C+). Standard First Aid and Basic Rescuer CPR certification is required for application to the program.

Required courses:

HH/KINE 2490 3.00
HH/KINE 3575 3.00
HH/KINE 3600 3.00
HH/KINE 3460 3.00
HH/KINE 4575 3.00
HH/KINE 4590 6.00

Plus three credits selected from the following courses:

HH/KINE 3465 3.00
HH/KINE 4430 3.00
HH/KINE 4460 3.00
HH/KINE 4470 3.00
HH/KINE 4475 3.00
HH/KINE 4565 3.00
HH/KINE 4740 3.00
HH/KINE 4900 3.00

Practica:

HH/PKIN 0761 0.00
HH/PKIN 0762 0.00
HH/PKIN 0821 0.00
HH/PKIN 0822 0.00

Course Substitutes

The School of Kinesiology and Health Science does not recognize any course substitutes for its academic course requirements.

Coaching

School of Kinesiology and Health Science

Coordinator: Bob Bain

Admission: students must be degree candidates in kinesiology and health science or students with previously completed kinesiology related degrees. Application to the certificate program may be made after completing a minimum of 24 credits (including HH/KINE 1020 6.00).

HH/KINE 2475 3.00
HH/KINE 3450 3.00 or HH/KINE 3580 3.00
HH/KINE 3570 3.00
HH/KINE 3610 3.00
HH/KINE 4550 6.00
HH/KINE 4600 3.00
HH/KINE 4610 3.00

Practica:

HH/PKIN 0460 0.00 and all PKIN courses in the sport specialty.

Course Substitutes

The School of Kinesiology and Health Science does not recognize any course substitutes for its academic course requirements. Students who complete a course offered by another unit or program that is a course

exclusion with a kinesiology course must replace the corresponding kinesiology course with another kinesiology course of equal or greater credit value at the same year level or higher.

Fitness Assessment and Exercise Counselling

School of Kinesiology and Health Science

Coordinator: Norman Gledhill

Admission: students must be degree candidates in kinesiology and health science or students with previously completed kinesiology related degrees. Application to the certificate program may normally be made after completing a minimum of 24 credits (including HH/KINE 1020 6.00).

Required courses (21 credits):

HH/KINE 3400 3.00
HH/KINE 3575 3.00
HH/KINE 3640 3.00
HH/KINE 4400 6.00
HH/KINE 4430 3.00
HH/KINE 4900 3.00

Plus three credits selected from the following courses:

HH/KINE 4455 3.00
HH/KINE 4460 3.00
HH/KINE 4470 3.00
HH/KINE 4475 3.00

Practicum:

HH/PKIN 0861 0.00
HH/PKIN 0862 0.00

Course Substitutes

The School of Kinesiology and Health Science does not recognize any course substitutes for its academic course requirements.

Health Informatics

School of Health Policy and Management

Coordinators: Serban Dinca-Panaitescu and Christo Elmorr

Admission: this certificate may be taken by students who hold community college diplomas or university degrees, concurrently by students enrolled in any university degree program or independently by professionals in the health field. Prospective students must be admitted to the Faculty of Health and must hold a community college diploma with an overall grade point average of B or a university degree with an overall grade point average of C.

The certificate may be taken concurrently with a university degree. There is no restriction about the type of degree program in which students are enrolled concurrently. If the student does not already hold a completed health-related university degree or college diploma, then the concurrent degree must be completed in order to obtain the certificate.

Certificate requirements:

Notes:

1. *Additional prerequisites that are not part of the certificate course requirements are waived for students registered in the certificate.*
2. *AP/ITEC 1000 3.00, HH/HLST 2040 3.00 and HH/HLST 3320 3.00 or HH/NURS 3230 3.00 or AP/ITEC 3220 3.00 must be completed before taking electives or 4000 level courses.*

A minimum of 30 credits as follows:

Core requirements (18 credits):

AP/ITEC 1000 3.00
HH/HLST 2040 3.00
HH/HLST 3310 3.00 or HH/NURS 3240 3.00
HH/HLST 4320 3.00
HH/HLST 3320 3.00 or HH/NURS 3230 3.00 or AP/ITEC 3220 3.00
HH/HLST 4300 3.00 or HH/NURS 4200 3.00

A minimum of 12 credits selected from the following courses:

AP/ADMS 2511 3.00
HH/HLST 3341 3.00
HH/HLST 4310 3.00 or AP/ITEC 3010 3.00

HH/HLST 4330 3.00
 HH/HLST 4340 3.00
 AP/ITEC 1620 3.00
 AP/ITEC 1630 3.00
 AP/ITEC 3020 3.00
 AP/ITEC 3210 3.00
 AP/ITEC 3230 3.00
 AP/ITEC 4010 3.00
 AP/ITEC 4040 3.00
 HH/NURS 3210 3.00
 HH/NURS 3220 3.00
 HH/NURS 4210 3.00

Course Substitutes

Subject to course exclusions, program requirements/restrictions, and residence requirements, the following courses are acceptable substitutes for the purpose of meeting certificate requirements.

Program Course	Course Substitutes
HH/HLST 2040 3.00	HH/NURS 3200 3.00
HH/HLST 4330 3.00	AP/ADMS 4300 3.00

Sport Administration

School of Kinesiology and Health Science

Coordinator: Susan Vail

Admission: this certificate is open to undergraduate students enrolled in any York University degree program, recent graduates or professionals currently employed in the sport management field. All candidates must have completed or be pursuing, a 120 credit degree with a minimum cumulative grade point average of 5.00 (C+).

Applicants are evaluated on the basis of academic performance, personal resume, letter of application, letters of recommendation (two) and an interview with the program coordinator.

Required courses (24 credits):

HH/KINE 2380 3.00
 HH/KINE 3240 3.00
 HH/KINE 3490 3.00
 HH/KINE 3510 3.00
 HH/KINE 4430 3.00
 HH/KINE 4530 3.00
 HH/KINE 4545 6.00

Faculty of Liberal Arts and Professional Studies

General Information

The following regulations apply to students taking courses in the Faculty of Liberal Arts and Professional Studies. Applicants seeking admission are referred to the Regulations Governing Admission to the Faculty of Liberal Arts and Professional Studies, York University.

All students are required to:

- observe the regulations of the Faculty of Liberal Arts and Professional Studies and the University;
- maintain a satisfactory standard of work;
- have discharged all financial liability to the University prior to graduation.

Undergraduate Degrees

Candidates admitted to a liberal arts and professional studies degree program are required to:

- have been admitted to York University as degree students;
- satisfy all the corequisite(s) and prerequisite(s) for courses selected for enrolment;
- satisfy the program and degree requirements for one of the following degrees:
 - Honours BA
 - BA
 - Honours iBA
 - Honours BAS
 - BAS
 - Honours BHRM
 - BHRM
 - Honours BSW

Candidates for Reclassifying a Bachelor Degree as an Honours Degree

Students who have graduated with a bachelor level 90-credit degree and wish to reclassify their degree to Honours must at the point of completing 90 passed credits have met the minimum academic standing for Honours (grade point averages) and maintained that standing upon graduation.

Undergraduate Certificates

“Undergraduate Certificate” is the term applied to a program of study attesting to a level of competence or skill in a particular area or field. It is distinct from a defined undergraduate degree program, stream, specialization or informal concentration. A certificate recognizes a specific grouping of courses that are cross-disciplinary but with a thematic coherence, form a coherent yet distinctive complement to the major of a degree program or lead to the acquisition of specific skills or professional expertise that may meet requirements of outside accrediting bodies.

All academic regulations applying to degree students in degree programs will apply to students in certificates.

A student who wishes to change from a certificate to a degree must re-apply to the York University Admissions Office.

Students enrolled in a certificate program and who are not concurrently enrolled in a degree program may take only the courses required for the completion of the certificate.

Admission: students seeking direct entry to a certificate program must submit written application when applying for admission to the University. Students already enrolled in an undergraduate degree program are also expected to apply for entry to a certificate program, normally prior to completion of 36 credits of their undergraduate degree program. Applications should be obtained and filed with the unit administering the certificate program.

Students who were admitted to a professional certificate offered by the School of Administrative Studies prior to the Fall/Winter 2005-2006 Session, may elect to follow the old certificate regulations or the new certificate regulations, whichever is more advantageous. All students admitted from September 2005 must follow new regulations.

Note: depending on the undergraduate certificate, students may have an option of completing the certificate concurrently or consecutively. Please refer to the specific undergraduate certificate for further details and requirements.

Types of Certificates Offered by the Faculty of Liberal Arts and Professional Studies

- Advanced certificate
- Cross-disciplinary certificate
- Certificate of proficiency
- General certificate
- Professional certificate

Degree Requirements

Residency Requirement

A minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

General Education

The Faculty of Liberal Arts and Professional Studies general education curriculum provides students with the foundation of interdisciplinary knowledge, breadth, methods and the approaches necessary for successful liberal and professional education. General education courses expose students to ways of knowing and fundamental ideas spanning the humanities, modes of reasoning, natural science and social science. These courses also provide explicit instruction in critical analytical skills and thought and its communication in writing and speech.

General Education Requirement by Degree Types

Honours BA, BA, Honours iBA and Honours BSW Degree Programs

The following are required:

- 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Honours BAS, BAS, Honours BHRM, BHRM Degree Programs

Modes of reasoning is recommended for Specialized Honours BAS

The following are required:

- 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science.

Guidelines for General Education Courses

It is strongly recommended that students successfully complete (pass) their first general education course within the first 24 credits and all general education courses within the first 48 credits.

Approved general education courses are offered at the 1000 and 2000 level.

A maximum of nine credits in each of the four areas (humanities, modes of reasoning, natural science and social science) will count towards fulfillment of general education requirements.

A maximum of 36 credits in general education will count towards the degree. Students who are required to exceed the 36 credit maximum because of program/degree requirements must obtain permission.

General education courses may be used to satisfy more than one requirement, but are counted only once toward the total number of credits required for the degree as follows:

- General education courses may be used to fulfill the general education requirement and, if applicable, major or minor program requirements. For the purpose of meeting major or minor program requirements, all nine credit general education courses will count as six credits towards the major or minor. The remaining three credits will count towards the total number of credits for the degree.
- General education courses used to fulfill the general education requirement, or major or minor program requirements, may not also be used to fulfill required credits outside the major.
- Additional general education courses not used to fulfill the general education requirement, or major or minor program requirements, may be used to fulfill required credits outside the major.

Major Credits

In addition to taking courses which contribute to their broad knowledge, students are required to specialize in a specific subject or combination of subjects. The area of primary concentration is known as the major; an area of secondary concentration (if any) is known as the minor. In a double major program, a course may count for major credit towards only one major. In a major/minor program, a course may count only for major credit or for minor credit.

Students may choose to major or minor in a specific subject when they enter the University or they may wait until they have completed up to 24 credits. At this point, students must choose a major and possibly a minor, but subsequent changes are possible. In selecting courses, students who are undecided should try to take introductory courses in a number of potential major subjects. This will allow them to proceed in their subject(s) of choice without the possibility of a delay.

Cross-listed courses may not be double counted in order to fulfill major requirements. For example, if AP/SOCI 3030 6.00 is cross-listed to AP/POLS 3300 6.00, it may be counted as a sociology course or a political science course, but not as both.

Upper-Level Credits

The Faculty also considers it good educational practice to ensure that students take a number of credits at the 3000 level and/or 4000 level. (A course's level is indicated by the first digit of its number.)

Credits Outside the Major

Credits outside the major are courses which are intended to broaden the educational experience of students beyond their area of specialization. Credits outside the major include most courses which are not used to fulfill the general education requirements or major/minor requirements. Please refer to programs of study section for program specific information.

Courses which are not considered as fulfilling the credits outside the major requirement:

- major/minor courses taken above the required number, non-major/minor courses taken within the major/minor subject (e.g. AP/FR 1020 6.00 is a non-major French course);
- courses outside the major/minor taken to fulfill major/minor requirements;
- courses which are cross-listed or designated as course substitutes to courses offered by the major/minor program (e.g. SC/MATH 1530 3.00 is cross-listed to AP/ECON 1530 3.00);
- cross-listed courses used to fulfill the major requirements may not also be used to fulfill the outside the major credits requirement.

Requirements by Program Type

The following requirements apply to all Faculty of Liberal Arts and Professional Studies students. Each program of study (major or minor) may stipulate additional requirements. For details of individual programs, refer to the Programs of Study section. Also consult the section on Academic Standing.

BA Degrees

In order to graduate with an Honours BA degree, students must achieve satisfactory academic standing to enter, proceed and graduate, and must successfully complete (pass) a minimum of 120 credits which fulfill all of the following requirements.

Specialized Honours BA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific program, a minimum of 54 credits, including at least 12 credits at the 4000 level;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: at least 18 credits.

Honours BA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific program, a minimum of 42 credits, including at least 12 credits at the 4000 level;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: at least 18 credits.

Honours Double Major BA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific programs; a minimum of 42 credits in each of the majors, at least 12 credits of which must be at the 4000 level in each of the major programs. In a double major program, a course may count for major credit towards only one major;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Double Major Interdisciplinary BA (Linked)

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;

- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific programs; a minimum of 36 credits in each of the majors, including at least six credits at the 4000 level in each of the major programs. In a double major interdisciplinary program, a course may count for major credit towards only one major;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Major/Minor BA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major/Minor credits: as defined by the specific programs:
 - Major: a minimum of 42 credits in the major, including at least 12 credits at the 4000 level;
 - Minor: a minimum of 30 credits in the minor, including at least six credits at the 4000 level.

In a major/minor program, a course may count only once toward major credit or minor credit;

- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

BA

In order to graduate with a BA degree, students must achieve satisfactory academic standing to enter, proceed and graduate, and must successfully complete (pass) a minimum of 90 credits which fulfill all of the following requirements.

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific program; a minimum of 30 credits, including at least 12 credits at the 3000 or 4000 level;
- Upper-level credits: at least 18 credits at the 3000 or 4000 level;
- Credits outside the major: at least 18 credits.

Honours iBA Degrees

Specialized Honours iBA

In order to graduate with an Honours iBA degree, students must achieve satisfactory academic standing to enter, proceed and graduate, and must successfully complete (pass) a minimum of 120 credits which fulfill all of the following requirements.

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
 - Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
 - General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
 - Major credits: as defined by the specific program, a minimum of 54 credits, including at least 12 credits at the 4000 level;
 - Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language;
 - Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major;
 - International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners;
 - Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
 - Credits outside the major: at least 18 credits.
- (Note: for the Specialized Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement.)*

Honours iBA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
 - Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
 - General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
 - Major credits: as defined by the specific program; a minimum of 42 credits, including at least 12 credits at the 4000 level;
 - Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language;
 - Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major;
 - International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners;
 - Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
 - Credits outside the major: at least 18 credits.
- (Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement.)*

Honours Double Major iBA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;

- Major credits: as defined by the specific programs; a minimum of 42 credits in each of the majors, at least 12 credits of which must be at the 4000 level in each of the major programs. In a double major program, a course may count for major credit towards only one major;
- Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language;
- Internationally-oriented courses: at least 12 credits of internationally-oriented courses chosen outside the major;
- International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Double Major Interdisciplinary iBA (Linked)

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific programs; a minimum of 36 credits in each of the majors, including at least six credits at the 4000 level in each of the major programs. In a double major interdisciplinary program, a course may count for major credit towards only one major;
- Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language;
- Internationally-oriented courses: at least 12 credits of internationally-oriented courses chosen outside the major;
- International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Major/Minor iBA

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major/Minor credits: as defined by the specific programs:
 - Major: a minimum of 42 credits in the major, including at least 12 credits at the 4000 level;
 - Minor: a minimum of 30 credits in the minor, including at least six credits at the 4000 level.
 In a major/minor program, a course may count only once toward major credit or minor credit;
- Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language;
- Internationally-oriented courses: at least 12 credits of internationally-oriented courses chosen outside the major;
- International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners;

- Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

BAS Degrees

In order to graduate with a Specialized Honours BAS degree, students must achieve satisfactory academic standing to enter, proceed and graduate, and must successfully complete (pass) a minimum of 120 credits which fulfill all of the following requirements.

Specialized Honours BAS

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50;
- General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. (*Note: modes of reasoning recommended for Specialized Honours BAS*).
- Major credits: as defined by the specific program; a minimum of 75 credits, including at least 18 credits at the 4000 level;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
- Credits outside the major: at least 18 credits.

BAS

In order to graduate with a BAS degree, students must achieve satisfactory academic standing to enter, proceed and graduate, and must successfully complete (pass) a minimum 90 credits which fulfill all of the following requirements.

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements, with a cumulative and major grade point average of at least 5.00;
- General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. (*Note: modes of reasoning recommended for BAS*);
- Major credits: as defined by the specific program; a minimum of 54 credits, including at least 18 credits at the 3000 or 4000 level;
- Upper-level credits: at least 18 credits at the 3000 or 4000 level;
- Credits outside the major: at least 18 credits.

BHRM Degrees

In order to graduate with an Honours BHRM degree, students must achieve satisfactory academic standing to enter, proceed and graduate and must successfully complete (pass) a minimum of 120 credits which fulfill all of the following requirements.

Honours BHRM

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50;

- General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. (*Note: modes of reasoning recommended for Honours BHRM*);
- Major credits: as defined by the specific program; a minimum of 81 credits, including at least 18 credits at the 4000 level;
- Upper-level credits: at least 36 credits at the 3000 or 4000 level including at least 18 credits at the 4000 level;
- Credits outside the major: at least 18 credits.

BHRM

In order to graduate with a BHRM degree, students must achieve satisfactory academic standing to enter, proceed and graduate and must successfully complete (pass) a minimum of 90 credits which fulfill all of the following requirements.

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements, with a cumulative and major grade point average of at least 5.00;
- General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. (*Note: modes of reasoning recommended for BHRM*);
- Major credits: as defined by the specific program; a minimum of 54 credits, including at least 18 credits at the 3000 or 4000 level;
- Upper-level credits: at least 18 credits at the 3000 or 4000 level;
- Credits outside the major: at least 18 credits.

Honours BSW Degrees

In order to graduate with an Honours BSW degree, students must achieve satisfactory academic standing to enter, proceed and graduate and must successfully complete (pass) a minimum of 120 credits which fulfill all of the following requirements.

Honours BSW (Direct Entry)

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements, with a cumulative grade point average of at least 5.00 and a minimum grade of 4.00 in all major credits;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;
- Major credits: as defined by the specific program; a minimum of 60 credits, including at least 18 credits at the 4000 level;
- Credits outside the major: at least 36 credits.

Honours Major/Minor BSW (Direct Entry)

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a minimum grade of 4.00 in all major credits;
- General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science;

- Major/Minor credits: as defined by the specific programs:
 - Major: a minimum of 60 credits in the major, including at least 18 credits at the 4000 level;
 - Minor: a minimum of 30 credits in the minor, including at least six credits at the 4000 level.
 In a major/minor program, a course may count only once toward major credit or minor credit;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours BSW (Post-Degree)

Note: Students admitted to the Honours BSW (Post-Degree) are granted 66 transfer credits.

- Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University;
- Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements, with a cumulative grade point average of at least 5.00 and a minimum grade of 4.00 in all major credits;
- General education: students who enter this program are deemed to fulfill this requirement.
- Major credits: as defined by the specific program; a minimum of 54 credits, including at least 18 credits at the 4000 level;
- Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Programs with Other Faculties (Honours Double Major, Major/Minor)

Students in the Faculty of Liberal Arts and Professional Studies may combine any Honours Major program that offers a double major or major/minor option with approved Honours Double Major or Honours Major/Minor programs offered within the Faculty or by the Faculties of Environmental Studies, Fine Arts, Health or Science and Engineering, subject to the following:

- students must maintain Honours standing, a cumulative grade point average of 5.00 or above for all courses taken at York. Students, whose cumulative grade point average is below 5.00, may proceed in Honours providing they meet the minimum Honours progression requirement;
- students registered in any Faculty of Liberal Arts and Professional Studies degree or program must complete at least half (50 per cent) of each major or minor at York;
- in some instances, in order to complete the requirements of an Honours Double Major or Honours Major/Minor program, it may be necessary to successfully complete (pass) more than 120 credits;
- Faculty of Liberal Arts and Professional Studies degree requirements and program regulations apply;
- students successfully completing an Honours BA Double Major or Honours Major/Minor programs combined with other programs or Faculties will receive an Honours BA degree;
- students successfully completing an Honours BSW Major/Minor program combined with other programs or Faculties will receive an Honours BSW degree.

Faculty of Environmental Studies

Students in the Faculty of Liberal Arts and Professional Studies may combine any Honours Double Major BA or Honours Major/Minor BA program with the Faculty of Environmental Studies. Environmental studies may be completed as a second major in an Honours Double Major BA program or as a minor in an Honours Major/Minor BA program. For details about the program requirements in environmental studies, students should consult the Faculty of Environmental Studies.

An Honours Double Major or Honours Major/Minor in environmental studies may not be combined with the Honours Double Major or Honours Major/Minor in human rights and equity studies.

An Honours Major/Minor in environmental studies may not be pursued with a business minor.

The minor in environmental studies may not be pursued with an Honours Major/Minor in social work.

Faculty of Fine Arts

Students in the Faculty of Liberal Arts and Professional Studies may combine any Honours Double Major BA or Honours Major/Minor BA program with the Faculty of Fine Arts.

The following are fine arts majors which may be completed as a second major in a double major BA program:

- dance
- fine arts cultural studies
- film and video (film studies)
- music
- theatre (theatre studies)
- visual arts (studio)
- visual arts (art history)

A fine arts cultural studies double major may not be combined with a double major BA Culture and Expression program.

For details about the program requirements in fine arts, students should consult the Faculty of Fine Arts.

The following are fine arts minors which may be completed as a minor in a major/minor BA program:

- dance
- fine arts cultural studies
- film and video (film studies)
- music
- theatre (production or theatre studies)
- visual arts (studio)
- visual arts (art history)

A fine arts cultural studies minor may not be combined with a major/minor BA Culture and Expression program.

For details about the program requirements in fine arts, students should consult the Faculty of Fine Arts.

Faculty of Health

Students in the Faculty of Liberal Arts and Professional Studies may combine any Honours Double Major BA or Honours Major/Minor BA program with the Faculty of Health. Specific programs may be completed as a second major in an Honours Double Major BA program, or as a minor in an Honours Major/Minor BA program. For details about the program requirements in the Faculty of Health, students should consult the Faculty of Health.

The following are Faculty of Health majors which may be completed as a second major in an Honours Double Major BA program:

- kinesiology and health science
- psychology
- health studies

The Honours Double Major Interdisciplinary (linked) BA programs in African Studies, European Studies, Latin American and Caribbean Studies, Social and Political Thought, or South Asian Studies may be pursued as an Honours Double Major Interdisciplinary BA program with either kinesiology and health science or psychology in the Faculty of Health.

The following are Faculty of Health minors which may be completed as a minor in an Honours Major/Minor BA program:

- kinesiology and health science
- psychology
- health management
- health informatics
- health policy

Faculty of Science and Engineering

Students in the Faculty of Liberal Arts and Professional Studies may combine any Honours Double Major BA or Honours Major/Minor BA program with the Faculty of Science and Engineering. For details about the program requirements in the Faculty of Science and Engineering, students should consult the Faculty of Science and Engineering.

The following are science and engineering majors which may be completed as a second major in an Honours Double Major BA program³:

- applied mathematics
- computer science
- earth and atmospheric science (atmospheric science stream or earth science stream)
- mathematics
- mathematics for education
- physics and astronomy (physics stream or astronomy stream)
- statistics

Note: a science and engineering major in computer science may not be taken as a second major in an Honours Double Major BA Information Technology program.

The Honours Double Major Interdisciplinary (linked) BA programs in African Studies, European Studies, Latin American and Caribbean Studies, Social and Political Thought or South Asian Studies may be pursued as an Honours Double Major Interdisciplinary BA program with either statistics or mathematics in the Faculty of Science and Engineering.

The following are science and engineering minors which may be completed as a minor in an Honours Major/Minor BA program:

- applied mathematics
- biology
- chemistry
- computer science
- mathematics
- mathematics for commerce
- mathematics for education
- physics and astronomy (physics stream or astronomy stream)
- statistics
- earth and atmospheric science

Note: a science and engineering minor in computer science may not be taken as a minor in an Honours Major/Minor BA Information Technology program.

Coregistration in the Faculty of Education

Students enrolled in a BA program in the Faculty of Liberal Arts and Professional Studies may apply for admission to the Pre-Service program of the Faculty of Education. If they are accepted, they may coregister in the Faculty of Education and upon successful completion of the separate degree requirements of both Faculties will be awarded two degrees: Honours bachelor of arts (BA) or bachelor of arts (BA) and bachelor of education (BEd).

Although liberal arts and professional studies and education courses are taken concurrently, they are counted separately by each Faculty. Grade point averages for courses in the two Faculties are also calculated separately. The 30 credits required for the BEd are independent of the 120 credits required for the Faculty of Liberal Arts and Professional Studies Honours BA or the 90 credits required for the BA. Therefore, a student completing the requirements for both degrees would complete a minimum total of 150 credits for the Faculty of Liberal Arts and Professional Studies Honours BA/BEd or 120 credits for the Faculty of Liberal Arts and Professional Studies BA/BEd.

Credit for Education Courses

Faculty of Liberal Arts and Professional Studies students who are coregistered in the Faculty of Education may count education courses taken beyond the requirements for the BEd for credit towards the Honours BA or BA degree as courses outside the major.

Faculty of Liberal Arts and Professional Studies students who are not coregistered in the Faculty of Education may receive degree credit for academic courses offered by the Faculty of Education as courses outside the major.

3. Students in the Faculties of Environmental Studies, Fine Arts, Health or Science and Engineering may also combine an Honours Double Major BA or Honours Major/Minor BA program with the Faculty of Liberal Arts and Professional Studies. For further details, consult with your home Faculty.

Cross-listed Courses

Some courses in the Faculty of Liberal Arts and Professional Studies are cross-listed, that is, they are offered jointly by two or more academic units/Faculties.

- Cross-listed courses may not be double counted in order to fulfill degree requirements.
- Cross-listed courses may not be used to fulfill degree requirements of courses required outside the major in the programs offering the cross-listing.

Academic Standards

Academic standing depends on several factors, including the number of courses a student has passed (including transfer credits), the grade point average achieved during a particular session (sessional grade point average) and the overall grade point average (cumulative grade point average).

Change of program. Students may request to change their program of study after completion of their first academic session in the Faculty, provided they meet the minimum academic standards and entry requirements for the program requested. Students must follow requirements of the program in place at the point of entry. A Change of Program form must be completed and submitted to Student Client Services. Some programs may require school/department approval.

Honours BA, Honours iBA and Honours BSW Degrees (120 Credits)

Entry/re-entry. Students may enter/re-enter prior to the completion of 90 credits. Some programs may have limited entry and/or further entry requirements. Some programs have mathematics entry requirements. Students should refer to the program of study section for further information on these and other requirements. Students who are ineligible to continue in Honours may re-enter Honours if they raise their cumulative grade point average to 5.00 (C+) or above by the time they have successfully completed their 90th credit.

Note: all students who enter/re-enter the program must follow the requirements of the program in place at the time of entry/re-entry.

Faculty transfers. Students qualify for faculty transfer to a Faculty of Liberal Arts and Professional Studies Honours program provided they have met the minimum Honours progression requirement.

Continuing in Honours. To continue in an Honours program, students must maintain a cumulative grade point average of at least 5.00. Students whose cumulative grade point average falls below 5.00 during the course of their studies may proceed in an Honours program, on warning, provided they meet the year level progression requirements described below.

Honours progression (BA, iBA and BSW). Students who have completed less than 84 earned credits whose cumulative grade point average is below 5.00 may continue in Honours provided they meet the minimum year level progression requirements as follows:

Year 1	0-23 earned credits	Minimum cumulative grade point average 4.00
Year 2	24-53 earned credits	Minimum cumulative grade point average 4.25
Year 3	54-83 earned credits	Minimum cumulative grade point average 4.80
Year 4	84 and above earned credits	Minimum cumulative grade point average 5.00

Note: year level is based on the number of earned credits including transfer credit.

Courses taken beyond the normal maximum. Students in an Honours program who successfully complete (pass) more than 120 credits and whose cumulative grade point average is at least 5.00 will have all credits counted towards their Honours and their cumulative grade point average.

Graduating with an Honours BA or Honours iBA degree. To graduate in an Honours program, students must successfully complete (pass) at least 120 credits which meet Faculty of Liberal Arts and Professional Studies degree and program requirements. The cumulative grade point average must be at least 5.00.

Graduating with an Honours BSW degree. To graduate in an Honours program, students must successfully complete (pass) at least 120 credits which meet Faculty of Liberal Arts and Professional Studies degree and program requirements. The cumulative grade point average must be at least 5.00 and a minimum grade of 4.00 in all major credits.

Failure to maintain minimum Honours standing (BA, iBA, BSW). Students who do not meet the conditions outlined above may continue their studies only in a BA degree program. Students who are ineligible to continue in Honours may re-enter Honours if they raise their cumulative grade point average to 5.00 or above by the time they have successfully completed (passed) their 90th credit. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to qualify for Honours. Please refer to the Academic Penalties section.

Opting to graduate with a BA degree (90 credits). Students who are eligible for Honours may opt to graduate in a BA program in the session in which they have completed their final course(s).

Bachelor of Arts (BA) Degree (90 Credits)

Entry/re-entry. Students may enter/re-enter prior to completion of 90 credits. Some programs may have limited entry and/or further entry requirements. Some programs have mathematics entry requirements. Students should refer to the program of study section for further information on these and other requirements.

Note: all students who enter/re-enter the BA program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry and/or further entry requirements.

Faculty transfers. Students may transfer to a Faculty of Liberal Arts and Professional Studies BA degree provided they meet the minimum cumulative grade point average of 4.00.

Continuing. Students who maintain a cumulative grade point average of at least 4.00 may proceed in good standing in the BA degree. Students who at the end of an academic session meet the minimum Honours progression requirement will automatically be placed in the Honours program (if applicable). Students at the point of enrolment in a new academic session can declare via the enrolment system if they wish to proceed in the BA or Honours BA degree.

Courses taken beyond the normal maximum. Students in a bachelor program who successfully complete (pass) more than 90 credits and whose cumulative grade point average is at least 4.00 will have all credits counted towards their Honours and their cumulative grade point average.

Graduating with a BA degree. Students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

Failure to maintain minimum BA standing (advising recommended). Students who have successfully completed (passed) less than 90 credits whose cumulative grade point average is below 4.00 will be placed on academic warning and may continue in the BA program only. Please refer to the Academic Penalties section.

Additional credits to raise grade point average to qualify for graduation. Students in a BA degree who have successfully completed (passed) 90 credits in accordance with Faculty and program requirements, but whose grade point average is below 4.00, will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative grade point average to at least 4.00 to qualify for graduation. New courses, repeated courses, passed courses and failed courses will count towards the total maximum number of attempted credits. These courses must be taken at York University.

Students who have 90 passed credits and have attempted 12 credits beyond the 90, who fail to attain the minimum required cumulative grade point average of 4.00 will be ineligible to continue or graduate.

Bachelor of Administrative Studies Honours (Honours BAS) Degree (120 Credits)

Entry/re-entry. Students prior to entering Honours BAS are required to have one high school grade 12U mathematics courses which must be Advanced Functions or the equivalent. Students majoring in BAS information technology are required to have completed one 12U high school mathematics course or the equivalent within the last five years, prior to entry/re-entry. Students with less than 90 passed credits completed require a minimum cumulative grade point average of 5.00. At the point of completing 90 passed credits students who have not attained the minimum cumulative and major grade point average of 5.00 will be ineligible to enter/re-enter the program. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to enter the BAS program. Faculty of Liberal Arts and Professional Studies students may submit a change of degree request to enter/re-enter the Honours BAS program.

Note: all students who enter/re-enter the Honours BAS program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry.

Faculty transfers. Students from other Faculties may submit a Faculty or Degree Change Request to enter the Honours BAS program to Student Client Services.

Continuing Honours BAS students. Students who have completed less than 90 passed credits and maintain a cumulative grade point average of at least 5.00 may proceed in good standing in the Honours BAS degree. Students who have completed 90 passed credits but less than 120 passed credits with a cumulative and major average of at least 5.00 may proceed in Honours.

Students who have completed at least 120 passed credits that have a minimum cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50 may continue in Honours, if program requirements are not met, or may apply to graduate.

Graduating with an Honours BAS degree. Students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50.

Courses taken beyond the normal maximum. Students who have completed 120 credits or greater who have a minimum cumulative grade point average of 5.00 and a major grade point average of 5.50 will have all credits counted towards their Honours and their cumulative grade point average.

Failure to maintain minimum Honours BAS standing. Students who have completed less than 90 passed credits whose cumulative grade point average is below 5.00 will be placed on "program warning" and may continue in the 90 credit BAS degree only. Please refer to the Academic Penalties section.

Opting to graduate with a BAS degree (90 credits). Students who are eligible for Honours may opt to graduate in a BAS program in the session in which they have completed their final course(s).

Bachelor of Administrative Studies (BAS) Degree (90 Credits)

Entry/re-entry. Students prior to entering BAS are required to have one high school grade 12U mathematics courses which must be Advanced Functions or the equivalent. Students with less than 90 passed credits completed require a minimum cumulative grade point average of 5.00. At the point of completing 90 passed credits students who have not attained the minimum cumulative and major grade point average of 5.00 will be ineligible to enter/re-enter the program. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to enter the BAS program. Faculty of Liberal Arts and Professional Studies students may submit a change of degree request to enter/re-enter the BAS program.

Note: all students who enter/re-enter the BAS program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry.

Faculty transfers. Students from other Faculties may submit a Faculty or Degree Change Request to enter the BAS program to Student Client Services.

Continuing BAS students. Students who have completed less than 90 passed credits and maintain a cumulative grade point average of at least 5.00 may proceed in good standing in the 90-credit or Honours BAS degree. Students who have completed 90 passed credits but less than 120 passed credits with a cumulative and major average of 5.00 may apply to graduate or have the option to proceed in Honours.

Courses taken beyond the normal maximum. Students in the bachelor program who successfully complete (pass) more than 90 credits and whose cumulative and major grade point average is at least 5.00 will have all credits counted towards their degree and their cumulative grade point average.

Graduating with a BAS degree. Students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements, with a cumulative and major grade point average of at least 5.00.

Failure to maintain minimum BAS standing (advising recommended). Students who have completed less than 90 passed credits whose cumulative grade point average is below 5.00 will be placed on "program warning" and may continue in the 90 credit BAS degree only. Please refer to the Academic Penalties section.

Additional credits to raise grade point average for graduation. BAS students who upon completion of 90 passed credits whose cumulative and major grade point average is below 5.00 will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative and major grade point average to the minimum of 5.00 to continue or graduate with the bachelor degree. New courses, repeated courses, passed courses and failed courses will count towards the total maximum number of attempted credits. These courses must be taken at York University.

Students who have 90 passed credits and have attempted 12 credits beyond the 90, who fail to attain the minimum cumulative and major grade point average of 5.00 will be ineligible to continue or graduate in BAS.

Bachelor of Human Resources Management Honours (Honours BHRM) Degree (120 Credits)

Entry/re-entry. Students prior to entering the Honours BHRM must have completed one 12U mathematics course or equivalent. Students with less than 90 passed credits completed require a minimum cumulative grade point average of 5.00. At the point of completing 90 passed credits students who have not attained the minimum cumulative and major grade point average of 5.00 will be ineligible to enter/re-enter the program. No courses may be taken in a subsequent session in an effort to raise the grade point average to enter the Honours BHRM program. Liberal Arts and Professional Studies students may submit a change of degree request to enter/re-enter the Honours BHRM.

Note: all students who enter/re-enter the Honours BHRM program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry.

Faculty transfers. Students from other Faculties may submit a Faculty or Degree Change Request to enter the Honours BHRM program to Student Client Services.

Continuing Honours BHRM students. Students who have completed less than 90 passed credits and maintain a cumulative grade point average of at least 5.00 may proceed in good standing in the Honours BHRM degree. Students who have completed 90 passed credits but less than 120 passed credits with a cumulative and major average of 5.00 may proceed in Honours.

Students who have completed 120 passed credits or greater who have a minimum cumulative grade point average of 5.00 and a major grade point average of 5.50 may continue in Honours if program requirements are not met or may apply to graduate.

Courses taken beyond the normal maximum. Students who have completed 120 credits or greater who have a minimum cumulative grade point average of 5.00 and a major grade point average of 5.50 will have all credits counted towards their Honours and their cumulative grade point average.

Graduating with an Honours BHRM degree. Students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50.

Failure to maintain minimum Honours BHRM standing. Students who have completed less than 90 passed credits whose cumulative grade point average is below 5.00 will be placed on "program warning" and may continue in the 90 credit BHRM degree only. Please refer to the Academic Penalties section.

Opting to graduate with a BHRM degree (90 credits). Students who are eligible for Honours may opt to graduate in a BHRM program in the session in which they have completed their final course(s).

Bachelor of Human Resources Management (BHRM) Degree (90 Credits)

Entry/re-entry. Students prior to entering the BHRM must have completed one 12U mathematics course or equivalent. Students with less than 90 passed credits completed require a minimum cumulative grade point average of 5.00. At the point of completing 90 passed credits students who have not attained the minimum cumulative and major grade point average of 5.00 will be ineligible to enter/re-enter the program. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to enter the BHRM program. Faculty of Liberal Arts and Professional Studies students may submit a change of degree request to enter/re-enter the BHRM.

Note: all students who enter/re-enter the BHRM program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry.

Faculty transfers. Students from other Faculties may submit a Faculty or Degree Change Request to enter the BHRM program to Student Client Services.

Continuing BHRM students. Students who have completed less than 90 passed credits and maintain a cumulative grade point average of at least 5.00 may proceed in good standing in the 90-credit or Honours BHRM degree. Students who have completed 90 passed credits or greater with a cumulative and major average of 5.00 may apply to graduate or have the option to proceed in Honours.

Courses taken beyond the normal maximum. Students in the bachelor program who successfully complete (pass) more than 90 credits and whose cumulative and major grade point average is at least 5.00 will have all credits counted towards their degree and their cumulative grade point average.

Graduating with a BHRM degree. Students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements, with a cumulative and major grade point average of at least 5.00.

Failure to maintain minimum BHRM standing (advising recommended). Students who have completed less than 90 passed credits whose cumulative grade point average is below 5.00 will be placed on "program warning" and may continue in the 90 credit bachelor BHRM degree only. Please refer to the Academic Penalties section.

Additional credits to raise grade point average for graduation. BHRM students who upon completion of 90 passed credits whose cumulative and major grade point average is below 5.00 will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative and major grade point average to the minimum of 5.00 to continue or graduate with the BHRM degree. New, repeated, passed and failed courses will count towards the total maximum number of attempted credits. These courses must be taken at York University.

Students who have 90 passed credits and have attempted 12 credits beyond the 90th credit, who fail to attain the minimum cumulative and major grade point average of 5.00 will be ineligible to continue or graduate in BHRM.

Bachelor of Social Work Honours (Honours BSW) Degree (120 Credits)

Entry/re-entry. Students may enter/re-enter Honours BSW if they meet the minimum Honours progression requirement. Students who have not attained the 5.00 cumulative grade point average at the point of completing 90 passed credits will be ineligible for Honours. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to qualify for Honours. Please refer to Academic Penalties section.

All requests for entry/re-entry also require a supplemental application and are subject to School of Social Work approval. Faculty of Liberal Arts and Professional Studies students may submit a change of degree request to enter/re-enter the Honours BSW.

Note: all students who enter/re-enter the Honours BSW program must follow the requirements of the program in place at the time of entry/re-entry. Some programs may have limited entry.

Faculty transfers. Students qualify for transfer to a Faculty of Liberal Arts and Professional Studies Honours program provided they have met the minimum Honours requirement. Students who have not attained the 5.00 cumulative grade point average at the point of completing 90 passed credits will be ineligible for Honours. No extra courses may be taken in a subsequent session in an effort to raise the grade point average to qualify for Honours. Students from other Faculties may submit a Faculty or Degree Change Request and a supplemental application to enter the BSW program to Student Client Services. All requests are subject to School of Social Work approval.

Continuing. Students may continue in an Honours program providing they meet the minimum Honours progression.

Courses taken beyond the normal maximum. Students in an Honours program who successfully complete (pass) more than 120 credits and whose cumulative grade point average is at least 5.00 will have all credits counted towards their Honours and their cumulative grade point average.

Graduating with an Honours BSW degree. Students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 including a minimum grade of C (4.00) in all courses used in the major.

Failure to maintain honours progression for Honours BSW degree. BSW students who fail to meet the Honours progression requirement will be ineligible to proceed in the BSW program. Students who have completed 90 passed credits but less than 120 passed credits may petition for an Honours waiver. Students who have completed less than 90 passed credits and wish to continue their studies must change their degree.

Undergraduate Certificates Minimum Standards

Minimum requirements for multiple certificates: students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Advanced certificates: as described by the program.

Cross-disciplinary certificates: 24 credits, at least 18 of which must be at the 2000-level or above, including six credits at the 3000 or 4000 level. In order to receive the certificate candidates must present a cumulative grade point average (GPA) of 4.00 or greater in the courses taken to satisfy certificate requirements.

Certificate of proficiency: there would normally be a comprehensive examination in addition to course requirements (normally 12 credits). In order to receive the certificate candidates must present a cumulative GPA of 4.00 or greater in the courses taken to satisfy certificate requirements, although language certificates normally have higher requirements.

General certificates: as described by the program.

Professional certificates: normally 24 credits, 18 credits of which would be at the 3000 level or above. In most cases, at least 12 credits of the disciplinary courses that satisfy certificate requirements must be in addition for those used to satisfy requirements of an undergraduate major being completed concurrently.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree.

Some certificate programs may have specific academic standing requirements.

Residency requirement: the University residency requirement for undergraduate certificate programs is 18 credits for certificate programs requiring up to 36 credits and 50 per cent of the required credits for certificates comprising more than 36 credits. Normally, for undergraduate certificate programs requiring 18 credits or less, all credits are completed at York.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit an Application to Graduate with a Certificate form. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively.

Rules and Regulations

Transfer Students

Students who enter with prior experience at a postsecondary educational institution are enrolled in an Honours program if their prior cumulative grade point average (including failed courses) is at least the equivalent of 5.00 on the York scale. (*Note: courses taken at other postsecondary institutions are not calculated as part of the student's grade point average at York, nor do they appear on the York transcript.*)

Academic Standing Requirements for Visiting Students

Individuals who wish to enrol in undergraduate credit courses, but who do not intend to complete a degree or a certificate may be admitted to York as a visiting student (refer to the Admissions section for more information). There are three categories of visiting students:

- Those who hold an undergraduate degree (three-year bachelor's degree minimum) from an accredited university/university-level institution;
- Those who **do not hold an undergraduate degree** but wish to enrol in York courses to fulfill the academic, upgrading or professional development requirements of a professional designation;
- Those who are currently attending another recognized university and wish to take York courses on a letter of permission issued by their home institution.

Repeated course legislation does not apply to visiting students but only to academic degrees and certificates. Therefore, all courses attempted or taken will count in the overall cumulative grade point average.

GPA Requirement

Students in categories a) and b) whose overall cumulative grade point average falls below 4.00 on at least 24 credits attempted will not be allowed to enrol in any subsequent session as visiting students. Students who are not permitted to re-enrol must apply for re-admission through the Admissions Office.

Credit Limits

Students in category b) who have maintained an overall cumulative grade point average of 4.00 throughout their studies and who have completed 30 credits will not be allowed to enrol in subsequent sessions and must either reactivate to proceed as visiting students or may choose to apply for admission to a degree or certificate program.

Visiting students admitted to the Faculty of Liberal Arts and Professional Studies may:

- enrol in degree credit courses providing they meet the published corequisite(s) and prerequisite(s), or obtain permission of the Chair of the discipline concerned;
- not register in a course equivalent to one already completed.

Faculty Transfers

Students who were last registered in an undergraduate degree program in another Faculty of York University and who wish to transfer to the Faculty of Liberal Arts and Professional Studies must submit a Faculty or Degree Change Request form to Student Client Services. Refer to the Academic Standing section for degree/program academic standing requirements.

Information for Continuing Students in a Grandparented Program

Students who were registered in a degree and program formerly in the Atkinson Faculty of Liberal and Professional Studies or the Faculty of Arts have been moved to the Faculty of Liberal Arts and Professional Studies. Grandparenting provisions have been developed for students continuing in these degrees and programs.

Grandparented rules allow students to complete their studies following the rules of the programs they were in prior to the Fall/Winter 2009-2010 Session. This includes all major and degree requirements including general education requirements and upper level requirements, as well as the electives or required credits outside the major. For more information on the grandparenting rules visit <http://www.yorku.ca/laps/transition/faqs/grandparented.html>.

Second or Subsequent Degrees

Students who hold an undergraduate degree from an accredited institution, and who are admissible according to Faculty and University policies, may pursue a second (or subsequent) degree program in the Faculty of Liberal Arts and Professional Studies.

Eligibility for admission and standing will be assessed according to performance in the first or subsequent degree(s). Students will be assessed as eligible for an Honours degree if they have graduated with Honours standing in their first degree. Students who are eligible for an Honours degree program will be enrolled in Honours, but may elect to graduate with a bachelor's degree. Students admitted to an Honours degree and 90-credit bachelor program will be granted transfer credit in accordance with the University's residency requirement. Under certain circumstances, students admitted to a 90-credit bachelor's degree program may qualify to proceed in an Honours degree; however, the transfer credit granted upon admission will not be amended.

All second (and subsequent) degree candidates must meet the residency requirements and must satisfy all upper-level requirements and requirements in the major/minor subject(s). Grade point averages are calculated for students in second (or subsequent) degree programs only on the courses taken for that degree and not on courses taken to satisfy requirements for the first or subsequent degree(s).

A student holding a university undergraduate degree may apply for admission to studies leading to a second degree. Such students must be admissible to the Faculty of Liberal Arts and Professional Studies. Students must apply through Admissions for second and subsequent undergraduate degree(s). University residency requirements apply.

Course Loads

Fall/Winter Session

A full course load is defined as 30 credits during the fall/winter session. Students may take a maximum of 36 credits overall (and 18 credits per term) without petitioning. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session. It is recommended that students take their personal circumstances and academic standing into consideration before taking a course load of 36 credits in the fall/winter session.

Summer Session

A full course load is defined as 15 credits in the summer session. Students may take a maximum of 18 credits overall without petitioning. Students with substantial familial or financial responsibilities outside the University are advised to consider taking fewer courses in a session. It is recommended that students take their personal circumstances and academic standing into consideration before taking a course load of 18 credits in the summer session.

Courses Taken at York University

Faculty of Liberal Arts and Professional Studies degree candidates may enrol in courses offered by other York University Faculties provided they meet the publicized corequisite(s) and/or prerequisite(s). Students are responsible for ensuring that out-of-Faculty courses meet Faculty of Liberal Arts and Professional Studies degree and program requirements. Out-of-Faculty courses are credited at the level at which they are taken.

York University courses are also offered in Italy by the Department of Languages, Literatures and Linguistics. In addition, independent study, directed reading and thesis courses are offered by some departments/schools. Students interested in arranging such courses should inquire at the relevant department/school. Individual programs may place restrictions on the number and nature of courses taken.

Courses at Other Accredited Universities/Letter of Permission (LOP)

Faculty of Liberal Arts and Professional Studies students pursuing a degree or a certificate may request a letter of permission to receive credit at York for courses taken at other accredited universities. Students not working toward a liberal arts and professional studies degree or a certificate are not eligible for letters of permission.

It is the responsibility of the student to ensure that:

- (i) courses completed on a letter of permission meet program requirements;
- (ii) courses will fulfill residency requirements for purposes of graduation or the granting of a certificate;
- (iii) the letter of permission request with course descriptions is submitted to the appropriate departmental office and returned with the completed form and the application fee to Student Client Services;
- (iv) a letter of permission is granted prior to enrolling in courses at another institution;
- (v) if they do not register for the courses or do not complete the approved courses, the student must provide the Registrar's Office with documentation from the host institution confirming that the student did not register or withdrew from the courses without academic penalty;
- (vi) arrangements are made for the host institution to forward an official transcript to the Registrar's Office as soon as final grades are available.

Notes:

1. *Students who receive a letter of permission to take their last course(s) at another institution will not normally graduate at the convocation directly following the session in which the letter of permission was issued.*
2. *Some programs may have specific policies restricting letters of permission on the basis of accreditation or professional association requirements. Please review the department/school policy.*
3. *Certain courses with a professional orientation fitting within the program of a division of York University, but offered by an institute or organization other than those already approved for purposes of credit may be eligible for credit towards a degree in the division concerned, provided the course in question is approved for this purpose by the Senate Committee on Admissions on the recommendation of an Academic Council of York University (<http://www.yorku.ca/secretariat/policies/document.php?document=74>).*

LOP regulations:

- students must be enrolled in a Faculty of Liberal Arts and Professional Studies degree or certificate program;
- including courses taken on a letter of permission, students may enrol in a maximum of 18 credits in a summer session and 36 credits (18 credits per term) in a fall/winter session;
- students must obtain a minimum grade of C (as understood in the Faculty of Liberal Arts and Professional Studies) for credit to be granted;
- a letter of permission will not be granted to students who are on academic warning, program warning, debarment warning or academic probation;
- if a student receives academic warning, program warning, debarment warning, academic probation or is ineligible to proceed at the conclusion of the session prior to taking courses on a letter of permission, the letter of permission will be rescinded;
- should a student leave York University to pursue study at another postsecondary institution without a letter of permission, upon return to York, a new application to York is required and all previous transfer credit will be re-assessed.

Audit a Course

With the permission of a course director, an auditor attends classes and participates in a course in the same way as other students, but does not submit assignments or write tests or examinations. Restrictions may apply. Further information about admissibility, application procedures, courses available and fees may be obtained at Student Client Services.

Directed Reading Courses

Students who are pursuing directed reading courses may do so after having successfully completed (passed) 24 credits in the Faculty of Liberal Arts and Professional Studies. The Faculty provides for such independent reading courses which are subject to the guidelines of the departments and schools, and to the following regulations:

- The maximum permissible number of directed reading courses depends on a student's degree option and availability.
- Students in Honours programs may take 24 credits; students in a bachelors program may take 18 credits.
- Within their last 30 credits, students may take a maximum of 12 credits in directed reading courses.
- Students may take a maximum of 12 credits of directed reading courses with the same faculty member.

Term Work, Tests and Examinations

Term Work

Term work includes reports, assignments, presentations, essays, tests and other written work assigned in a course with the exception of final examinations.

Deadline for Submission

Term work must be submitted by the first day of the official examination period of the term in which the course ends. Instructors, departments and schools may, however, set earlier deadlines for the submission of term work.

Tests and Examinations

Tests and examinations are important parts of the educational process. They must be conducted under fair conditions which allow students to demonstrate what they have learned. Disruptions or attempts to obtain an unfair advantage are offences against academic process and carry severe penalties. (Refer to Senate Policy on Academic Honesty and Student Code of Conduct at <http://www.yorku.ca/univsec/policies/>.) The following regulations apply to tests and examinations. (<http://www.yorku.ca/secretariat/policies/document.php?document=80>)

Identification

Students who are being tested or examined are required to present a valid York University photo identification card or other acceptable form of photo identification and to sign the attendance roster for the examination.

Answer Booklets

Answer booklets are the property of the University. Test papers, examination booklets and other answer forms remain the property of the University unless they are released by an instructor. Students may not remove them from the test or examination room without permission; nor may they possess blank examination booklets.

Students' Right to Review

Students may always have the opportunity, under properly controlled conditions, to review and discuss their graded test and examination answers, but final examination answer booklets (and at the discretion of the course director, other examination booklets) remain the property of the University, and are retained by the teaching unit for a certain period of time before they are destroyed.

Tests and Examinations During the Term

Restriction at End of Term

In the fall/winter session, the total value of any test(s) or examination(s) given in the last two weeks of classes in a term must be no more than 20 per cent of the final mark for the course.

Scheduling of Tests

Except where testing is conducted during individual appointments which accommodate the schedules of students (e.g. individual oral interviews in language courses, individually scheduled make-up tests), tests or examinations given during the term should be held within the hours regularly scheduled for the course in question. Any exceptions must be communicated within the first two weeks of classes and on the course outline.

Students' Right of Refusal

Students who are asked to write tests or examinations in contravention of the preceding two regulations may refuse to do so without academic penalty; they also have the right to raise the matter with the Chair/director of the department or the school in which the course is offered or with the dean.

Formally Scheduled Examinations

Final Examination Period

There is a final examination period at the end of each term. The dates and times of formally scheduled examinations are listed on the Current Students Web site (<http://www.yorku.ca/yorkweb/cs.htm>). Examinations may last two or three hours.

Missed Examinations

In accordance with University policy and procedure, a student who misses an examination should contact the course director and the department/school of the examination as soon as possible. A student who wishes to write a make-up examination must request deferred standing in the course.

Deferred Standing

Deferred standing is a process by which students who are either unable to write their final examination at the scheduled time (or submit term work) before the Faculty deadline to submit final grades reach an agreement with the course director granting deferred standing in the course and setting a date for writing the exam (or submitting the outstanding work).

In order to apply for deferred standing, students must complete a Final Examination/Assignment Deferred Standing Agreement (DSA) form and reach an agreement directly with the course director for an alternative final examination date or for an extension to the deadline. The form and

guidelines are available on the Registrar's Office Web site (http://www.registrar.yorku.ca/services/ds_faq.htm). When agreement cannot be reached by the instructor and student, the student has the option of submitting their request to the Faculty Petitions Committee.

Aegrotat Standing

In cases where a student cannot be expected to complete the work for a course, the phrase "aegrotat standing" (from the Latin for "she/he is ill") is substituted for a grade on the transcript. Aegrotat standing is seldom granted, and only in exceptional circumstances where deferred standing or late withdrawal from the course is inappropriate.

Rewriting of Examinations

The Faculty of Liberal Arts and Professional Studies has no provision for the rewriting of a final examination to improve a mark.

Exam Accommodation

Students with disabilities requiring accommodation or students requiring accommodation for significant religious observances shall be responsible for requesting the necessary accommodation in advance of the examination period and in accordance with the recommended timelines in the relevant policies and procedures.

Religious Accommodation Guidelines

Students who, because of religious commitment cannot write a formally scheduled examination (December and April examination periods) on the date scheduled, should contact the course instructor **no later than three weeks prior to the start of the examination period** to arrange an alternative examination date. An Examination Accommodation form is available for this purpose in Student Client Services. (<https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm.woa/wa/regobs>)

Grading in Courses

Grading

1. All course grades, including those assigned after a deferred examination(s) are derived from an evaluation of examination and term work, unless otherwise decided.
2. With the exception of courses explicitly required for certification by a professional body, or other exceptions agreed to by Senate, students pass or fail a course on the basis of final course average, without the additional requirement of having to obtain a passing grade on a final examination. (This does not preclude the possibility of a final examination representing more than 50 per cent of the final grade in a particular course or the requirement that a student pass a specific course lab component.)
3. Unless Senate agrees to explicit exemptions, eligibility to proceed in or graduate from an undergraduate degree program will not be based on a minimum grade requirement for each major course. It should be noted that this does not preclude setting requirements for a minimum cumulative grade point average in a major subject area. Nor does this preclude setting individual course grade requirements when a course is a prerequisite for upper-level courses or as part of a core requirement. Course grades are not official until released by the University.
4. The letter-grade system is the fundamental system of assessment of performance in undergraduate programs at York University. In courses where percentages are used as a means of reporting grades on individual pieces of work, the following conversion table is to be used in converting percentage grades to letter grades, unless alternative provisions for scaling and/or conversion are announced to students in writing within the first two weeks of classes.

From Percentage	To Letter Grade	Grade Point
90-100	A+	9
80-89	A	8
75-79	B+	7
70-74	B	6
65-69	C+	5
60-64	C	4
55-59	D+	3
50-54	D	2
40-49	E	1
0-39	F	0

Repeating passed or failed courses for academic credit:

- Students are allowed to repeat a passed or failed course once for academic degree or certificate credit. Students should note that course availability and space considerations may preclude the possibility of repeating a course in the session they choose.
- When a student is allowed to repeat a course for academic degree or certificate credit, the second grade will be the grade of record and the only grade calculated in the student's grade point average (major, cumulative, sessional and overall). A course can be credited only once towards satisfaction of degree or certificate academic credit requirements.
- The record of both the first and second time the course was taken will appear on the student's transcript, with the first course designated as NCR (No Credit Retained).
- The restrictions regarding repeating a passed or failed course also apply to cross-listed courses and course credit exclusions.

The above items do not apply to graduate degree or diploma programs, the BEED degree programs of the Faculty of Education or the JD degree program of Osgoode Hall Law School.

The above items do not apply to practicum courses offered in the Bachelor of Social Work degree program or practicum courses offered in the Bachelor of Science in Nursing (BScN) degree program.

It should be noted that when a course is repeated, the first instance of the course being taken and the grade that was awarded will continue to appear on the transcript with the designation NCR (No Credit Retained) added as a qualification beside the grade. The transcript legend will explain that the NCR designation means that neither the course credit nor grade have been included in the calculation of the student's grade point average.

Pass/Fail alternative grading option:

The Faculty wants capable upper-year students to feel free to enrol in free-choice courses without fear of jeopardizing their grade point average. For this reason, students may take a limited number of such courses for full degree credit on an ungraded basis. Courses taken on this basis are listed on the transcript as either pass or fail. Neither of these two grades is calculated into the student's grade point averages. The course director forwards a written evaluation of the student's work in the course to the student and to the Registrar's Office. The following regulations apply to courses taken as a pass/fail alternative grading option:

- Only students who are not under academic warning, debarment warning, or academic probation may take such courses.
- Students may apply to take such courses only after they have successfully completed (passed) 24 credits.
- Courses taken on a pass/fail alternative grading option may not be used for courses taken to satisfy major, minor, general education or certificate requirements.
- The ungraded option **cannot be used** by students in the Faculty of Liberal Arts and Professional Studies for 1000-level science courses or non-major courses required to satisfy program requirements.
- Students registered in an Honours program may take a maximum of 12 credits as a pass/fail alternative grading option.

- Students registered in a bachelor program may take a maximum of six credits as a pass/fail alternative grading option.
- Students who wish to designate a course as pass/fail alternative grading option must do so within the first two weeks of the term in which the course begins; they must first obtain the signature of the course director on the form available for this purpose from Student Client Services. The completed form should then be returned to Student Client Services.
- Students who elect to complete a course as a pass/fail alternative grading option can switch back to a graded basis until the last date to drop a course without academic penalty.

Credit/No Credit

The notations Credit and No Credit will be used when an entire course is being offered on an ungraded basis. No Credit will count as an earned failing grade of F in the grade point average.

Grades in Courses

The grading scheme (i.e. kinds and weights of assignments, essays, exams etc.) is to be announced, and be available in writing, within the first two weeks of classes.

Under normal circumstances, graded feedback worth at least 15 per cent of the final grade for fall, winter or summer term, and 30 per cent for full year courses offered in the fall/winter session, will be received by students in all courses prior to the final withdrawal date from a course without receiving a grade, with the following exceptions:

- graduate or upper level undergraduate courses where course work typically, or at the instructor's discretion, consists of a single piece of work and/or is based predominantly (or solely) on student presentations (e.g. Honours theses or graduate research papers not due by the drop date etc.);
- practicum courses;
- ungraded courses;
- courses in Faculties where the drop date occurs within the first three weeks of classes;
- courses which run on a compressed schedule (a course which accomplishes its academic credits of work at a rate of more than one credit hour per two calendar weeks).

Note: under unusual and/or unforeseeable circumstances which disrupt the academic norm, instructors are expected to provide grading schemes and academic feedback in the spirit of these regulations, as soon as possible.

Subsequent Changes

In exceptional circumstances, a previously announced marking scheme for a course may be changed, but only with the unanimous consent of students; the new marking scheme must also be distributed in written form.

In courses where percentages are used as a means of reporting grades on individual pieces of work, the conversion table is used in converting percentage grades to letter grades, unless alternative provisions for scaling and/or conversion are announced to students in writing within the first two weeks of classes.

Requests for Reappraisal of Final Grades

Students may, with sufficient grounds, request that a final grade in a course be reappraised. Further information may be obtained from the department/division offering the course. Students applying to have a grade reappraised in a Faculty of Liberal Arts and Professional Studies course should note the following:

- Requests for reappraisal must be filed with the unit offering the course within 21 calendar days of the release of the final grade in the course.
- Students may question the marking of specific pieces of work, or the overall course grade. Normally, however, only written work can be reassessed.
- When a student asks for a reappraisal, an original grade may be raised, lowered or confirmed.

- Students wishing to request the reappraisal of a final grade should fill out the appropriate form available from the department/school offering the course and submit it to the same office.
- The decision of the department/school may be appealed to the Faculty only on grounds of procedural irregularity or new evidence.

Academic Penalties

Students whose academic record does not meet the Faculty or program standards are subject to the academic penalties of program warning, academic warning, required withdrawal, debarment warning, debarment and academic probation.

Program Warning for BAS and BHRM

BAS

BAS students who have completed less than 90 passed credits, whose cumulative grade point average is below 5.00, will be placed on program warning and may continue in the 90 credit bachelor degree only providing they meet the program warning conditions outlined below.

Program warning conditions for BAS:

BAS students on program warning, within the next 24 credits taken, must raise the cumulative grade point average to at least 5.00. At no time may the cumulative grade point average fall below 2.50 upon completion of at least 24 York credits.

Additional credits to raise grade point average for graduation:

BAS students who upon completion of 90 passed credits whose cumulative and major grade point average is below 5.00 will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative and major grade point average to the minimum of 5.00 to continue or graduate with the bachelor degree. These courses must be taken at York University.

Note: new, repeated, passed and failed courses will count towards the total maximum number of attempted credits.

Students who have 90 passed credits and have attempted 12 credits beyond the 90, who fail to attain the minimum cumulative and major grade point average of 5.00 will be ineligible to continue or graduate in BAS.

BHRM

BHRM students who have completed less than 90 passed credits, whose cumulative grade point average is below 5.00, will be placed on program warning and may continue in the 90 credit bachelor degree only providing they meet the program warning conditions outlined below.

Program warning conditions for BHRM:

BHRM students on program warning, within the next 24 credits taken, must raise the cumulative grade point average to at least 5.00. At no time may the cumulative grade point average fall below 2.50 upon completion of at least 24 York credits.

Additional credits to raise grade point average for graduation:

BHRM students who upon completion of 90 passed credits whose cumulative and major grade point average is below 5.00 will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative and major grade point average to the minimum of 5.00 to continue or graduate with the bachelor degree. These courses must be taken at York University.

Note: new, repeated, passed and failed courses will count towards the total maximum number of attempted credits.

Students who have 90 passed credits and have attempted 12 credits beyond the 90, who fail to attain the minimum cumulative and major grade point average of 5.00 will be ineligible to continue or graduate in BHRM.

Academic Warning

Students who, prior to completion of 90 passed credits, whose cumulative grade point average falls below 4.00 at the end of any session, or who enter the Faculty with a grade point average equivalent to less than 4.00 on the York scale, receive an academic warning.

Academic warning conditions:

Students on academic warning must achieve a cumulative grade point average of at least 4.00 within the next 24 credits taken, or earn a sessional grade point average of at least 5.00 in the session in which that 24th credit is taken and in each subsequent session until the cumulative grade point average reaches 4.00, or be required to withdraw. Students whose cumulative grade point average on at least 24 York credits is below 2.50 will be required to withdraw for 12 months.

Failure to meet academic warning conditions:

Students on academic warning who fail to meet the academic warning conditions must withdraw for 12 months.

Additional credits to raise grade point average to qualify for graduation:

Students in a bachelors program who have successfully completed (passed) 90 credits in accordance with Faculty and program requirements, but whose grade point average is below 4.00 will be allowed a maximum of 12 attempted credits beyond the 90 passed credits in an effort to raise their cumulative grade point average to at least 4.00 to qualify for graduation. New courses, repeated courses, passed courses and failed courses will count towards the total maximum number of attempted credits. These courses must be taken at York University.

Students who have 90 passed credits and have attempted 12 credits beyond the 90, who fail to attain the minimum required cumulative grade point average of 4.00 will be ineligible to continue or graduate.

Required Withdrawal (BA, iBA, BAS, BHRM and BSW)

Students whose academic record shows marked weakness may be required to withdraw from their studies for twelve months, during which they are encouraged to identify and remedy any problems which may have contributed materially to their failure to perform up to their potential, and to reflect on their reasons for pursuing a university education. The following regulations apply to required withdrawals:

- **Grade point average below 2.50:** students whose cumulative grade point average on at least 24 credits is below 2.50 must withdraw for 12 months.
- **Students whose grade point average is below 4.00 and equal to or greater than 2.50:** students who have received an academic warning for a cumulative grade point average below 4.00 must satisfy the academic warning conditions as specified above or be required to withdraw for 12 months.

Petition to continue without interruption:

Students who have been required to withdraw may submit a petition requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on debarment warning.

Reactivation after required withdrawal:

Students who have been required to withdraw may apply for reactivation after the requisite period of absence by submitting a form obtainable from Student Client Services. Students who return to their studies after such a required withdrawal (as well as those who have been allowed to continue their studies by virtue of a petition to the Committee on Petitions) receive a debarment warning.

Debarment Warning

Students who have been required to withdraw from the Faculty of Liberal Arts and Professional Studies or from another Faculty at York or elsewhere, receive a debarment warning upon continuing their studies in the Faculty.

Debarment warning conditions

Students on debarment warning must achieve a cumulative grade point average of at least 4.00 within the next 24 credits taken or earn a sessional grade point average of at least 5.00 in the session in which the 24th credit is taken and in each subsequent session until the cumulative average reaches 4.00, and must then maintain this average. Students who do not fulfill these conditions will be debarred from the University.

Students on debarment warning are allowed to complete their subsequent 24 credits without restriction.

Debarment

Students who fail to meet the debarment warning conditions outlined above will be debarred from the University. Debarment, the minimum period for which is normally two years, means that the student is no longer a student at York University.

Petition to continue without interruption:

Students who have been debarred may submit a petition requesting permission to continue their studies without interruption. Students granted such a petition would be allowed to continue their studies on academic probation.

Reapplying after debarment:

Students who have been debarred and who wish to resume their studies must apply for readmission through the Admissions Office <http://www.yorku.ca/web/futurestudents> and must provide persuasive evidence that they are ready and able to complete a degree program. Students who are readmitted (as well as those who have been allowed to continue their studies by virtue of a petition) receive an academic probation.

Academic Probation

Students who have been debarred and who subsequently resume their studies in the Faculty whether by petitioning to continue without interruption or by applying for readmission, receive an academic probation. Students on academic probation must meet the debarment warning conditions outlined above; otherwise, they will be debarred.

Petitions for Exemptions from the Regulations

The purpose of academic regulations is to allow students to develop their interests and talents to the fullest in ways consistent with the philosophy and standards of the Faculty. In establishing academic regulations, the Faculty also recognizes that instances will arise where it makes sense, in the context of a student's academic career, to waive regulations which would otherwise apply.

Students are expected to familiarize themselves with the University policy on Petitions and Grade Reappraisal before taking any steps which may have repercussions or affect their academic progress. The purpose of a petition is to request an exemption from a regulation or deadline. Being unfamiliar of regulations or deadlines does not constitute a valid reason for a petition.

Petition

Students may petition for special consideration. It should be noted, however, that a petition is a request for the waiver of a regulation; it cannot be used to create legislation (e.g. a degree program) that does not exist. Normally, petitions will not be considered by the Petitions Committee more than one year beyond the date of the release of grades for the session to which the petition relates.

The Petitions Committee considers student academic petitions for exceptions to all Faculty regulations, including petitions to continue studies without interruption in cases where a student has been required to withdraw or debarred. The committee will give due consideration to transition difficulties documented by students in their first university session.

Petitions relating to a student's enrolment status in a course will only be considered if they are submitted within 30 days of the last day of classes. Such petitions may be considered for a period of up to one year if they are based on special circumstances.

Petitions are held in the strictest confidence. The committee considers the petition itself, any supporting documentation (from professors or medical practitioners) and other relevant information contained in the student's record. Students do not normally appear in person.

Appeal

An appeal is a written request for the alteration of the decision taken on a petition generally made to the same level but to another person, panel or committee.

Appeals against decisions of the Petitions Committee will be permitted only on the grounds of:

- new evidence, or
- evidence of procedural irregularity in the committee's consideration of the case.

Graduation and Academic Excellence**Academic Achievement List**

The Faculty of Liberal Arts and Professional Studies Sessional Academic Achievement List recognizes the outstanding achievement of the following students:

- Students taking 12 to 17 credits in a given session who have attained a sessional grade point average of 8.00 or higher.
- Students taking 18 or more credits in a given session who have attained a sessional grade point average of 7.50 or higher.

Graduating with Honours or Bachelor Academic Standing

Students with high grade point averages are eligible for the following recognition upon graduation from the Faculty of Liberal Arts and Professional Studies.

Summa cum laude: 8.00 or above cumulative grade point average.

Magna cum laude: 7.80 to 7.99 cumulative grade point average.

Cum laude: 7.50 to 7.79 cumulative grade point average.

Dean's Honour Roll: 7.00 cumulative grade point average.

School and Department Contact Information**School of Administrative Studies****Location:**

The School of Administrative Studies is home to a full range of business and administrative programs and courses taught by leading experts in a variety of fields. We provide the knowledge and skills that you want and employers demand.

Whether you are planning to pursue a career in business and management, or are already working and want to expand your knowledge of business concepts and practices, the bachelor's and master's programs (BAS, Honours BAS, MDEM, MFACC) will prepare you to meet the challenges and opportunities ahead.

Department of Anthropology

Location:

2054 Vari Hall, Tel.: 416-736-5261

Web Site:

<http://www.yorku.ca/laps/anth>

Chair:

D. Paul Lumsden

The Department of Anthropology concentrates on change in the contemporary world, especially in relation to new and emerging social challenges. Anthropologists are interested in exploring how people are subjected to, participate in and contest the processes of living in a world that is now interconnected by new and powerful economic, cultural and technological forces. Consideration is given to how class, race, gender, health and ethnic identity politics are produced and expressed in shifting local and global contexts of power. These themes are explored in a wide variety of courses that engage such topics as: development and the environment; media and popular culture; health, illness and disability; gender and sexualities; tourism, religion and science; diasporic communities and displaced peoples; violence and conflict; and the colonial process. Other courses focus on processes of change in the prehistoric and historic past. The overall goal is to prepare students to ask critical questions about contemporary, past and future social life, and to provide students with the vital analytic tools required to understand our place in the social and cultural diversity of the world, past and present.

Department of Communication Studies

Location:

3004 Technology Enhanced Learning Building, Tel.: 416-736-5057

Web Site:

<http://www.yorku.ca/laps/comn/>

Chair:

David Skinner

Undergraduate Program Director:

Patricia Mazepa

The Department of Communication Studies provides students with a comprehensive understanding of traditional forms of mass communication—print, radio, film and television, while also examining the interactive telecommunications networks and computer systems that have introduced new media and new modes of communication.

The emphasis is academic rather than technical because we aim to produce graduates who have acquired skills in communications analysis, who understand the increasingly complex fields of communications and who can clearly communicate their knowledge.

The courses offered by this program encompass four thematic areas: Media, Culture and Society; Politics and Policy; Interpersonal and Organizational Communication; and Critical Technology Studies.

Students who are interested in augmenting their Honours degree in Communication Studies are advised to consider enrolling in concurrent or post-graduate diplomas/certificates in media-specific training at an Ontario community college. York offers concurrent Joint Programs in Communication Arts in conjunction with Centennial College and Seneca College. There are also a number of post-graduate certificates at other Ontario universities (for details visit <http://www.yorku.ca/artscmn/>).

Course offerings include: Introduction to Communications; Advertising and Society; Communication in Organizations; Popular Culture and Communications and a fourth-year field experience course which provides students with an internship in the for-profit or not-for-profit communications fields.

Department of Economics

Location:

1144 Vari Hall, Tel.: 416-736-5322, Fax: 416-736-5987

Web Site:

<http://www.yorku.ca/laps/econ>

Chair:

John Beare

Undergraduate Program Director:

Ida Ferrara

The Department of Economics within the Faculty of Liberal Arts and Professional Studies offers an academic program leading to degrees in economics at the BA, Honours BA and Specialized Honours BA levels, business economics at the BA level, and financial and business economics at the Specialized Honours BA level.

Through a unique teaching approach that blends theory and application, students in our program are introduced to the analytical and quantitative tools of economic analysis and learn to apply them to a wide range of individual and social problems which arise out of the conflict between unlimited wants and limited resources to satisfy them. They may focus on management issues in applied business fields or on financial markets and instruments or, more generally, on those aspects of social behaviour and those institutions which are involved in the allocation of scarce resources among alternative uses. In an intellectually stimulating environment, economics students become skilled at identifying economic problems, at developing and applying economic theory to improve upon their understanding of the problems and their ability to solve them, and at evaluating the adequacy of their theoretical understanding through the use of data and empirical testing.

Economics graduates are well prepared to begin or advance in a variety of careers in business, government and the not-for-profit sector and to pursue graduate studies in economics or professional training in business, law, public administration, and other disciplines.

Department of English

Location:

208 Stong College, Tel.: 416-736-5166

Web Site:

<http://www.yorku.ca/laps/en>

Chair:

Arthur Redding

Undergraduate Program Director:

Allan Weiss

The Department of English offers a variety of courses in the literature of the English language. There are courses in historical periods from medieval to contemporary, in the literature of several nations (Canadian and post-colonial as well as English and American), in the various literary genres such as poetry, fiction, drama, non-fictional prose and criticism and in literary theory. In addition, during their final 36 credits, Honours English majors may propose their own thesis (AP/EN 4160 6.00).

The department also offers an Honours BA in Professional Writing and a Specialized Honours BA in English and Professional Writing.

Department of Equity Studies

Location:

302 Atkinson Building, Tel.: 416-736-5235, Fax: 416-650-3876

Web site:

<http://www.yorku.ca/laps/des>

Chair:

Hugh Shewell

Undergraduate Program Director:

Claudio Colaguori

The Department of Equity Studies (DES) offers a learning environment that values cultural diversity and supports social equality. It provides students with an understanding of the social environments that shape their interests, opportunities, and identities. Students gain a solid and critical grounding in research methods and theories in ways that allow them to link their education with various types of degrees and certificates.

The faculty of the department are actively engaged in socially relevant research that contributes both to academic scholarship and to communities beyond the university. The department reflects the teaching and research strengths of a core group of faculty members, as well as the degree programs that have emerged from those strengths.

The department offers undergraduate degree programs in Race, Ethnicity and Indigeneity (REI), Human Rights and Equity Studies (HREQ) and interdisciplinary Social Science (jointly offered with the Department of Social Science), as well as general education courses. Through an Indigenous studies focus, it offers a graduate MA/PhD in Indigenous Thought, undergraduate degree programming in Indigenous Studies (through REI) and a Certificate in Indigenous Studies. Additional offerings are a Cross-Disciplinary Certificate in Anti-Racist Research and Practice (CARRP) and a General Certificate in Refugee and Migration Studies (in conjunction with the Centre for Refugee Studies).

Graduates of the Department of Equity Studies will be well positioned to work in a wide range of areas with organizations, government, industry and communities that have programs, policies and procedures around the equitable treatment and experiences of Indigenous peoples, racialized peoples, immigrants and refugees, as well as in the area of human rights advocacy and redress.

Department of French Studies

Location:

N727 Ross Building, Tel.: 416-736-5086

Web Site:

<http://www.yorku.ca/laps/fr>

Chair:

Diane Beelen Woody

Undergraduate Program Director:

Christian Marjollet

The Department of French Studies offers courses in three curricular areas enabling students to pursue interests in French language, linguistics, and literature. The language-skills courses form a prescribed language sequence designed to help students improve their proficiency in French. The curricular core consists of courses in French language, literature and linguistics. In addition to Honours BA and BA degree programs, the Department of French Studies offers Certificates of Language Proficiency in Basic French, Intermediate French and Advanced French.

Le département d'études françaises (DÉF) offre au niveau du B.A. un programme interdisciplinaire de cours dans trois domaines d'étude: langue, linguistique et littérature.

Dans le programme de langue, les cours visent à développer chez les étudiant-e-s l'expression orale et écrite et la compréhension orale et écrite tout en leur donnant l'occasion d'explorer les aspects multiples de la culture francophone dans le monde.

Le programme de linguistique familiarise les étudiant-e-s avec les différentes branches de la linguistique (syntaxe, sémantique, phonétique, sociolinguistique, etc.) qui sont présentées à travers des approches théoriques diverses telles que la théorie structuraliste, la théorie de l'énonciation et la théorie générativiste.

Le programme de littérature offre des cours axés sur les littératures et les cultures du monde francophone avec une concentration sur les littératures française et canadienne française. Il permet aux étudiant-e-s d'acquérir des compétences d'analyse et d'explication de texte tout en leur présentant diverses approches théoriques et philosophiques.

Department of Geography

Location:

N430 Ross Building, Tel.: 416-736-5107

Web Site:

<http://www.yorku.ca/laps/geog>

Chair:

Lucia Lo

Undergraduate Program Director:

Robin Roth

Geography is a unique discipline in that it rests on all the three pillars of intellectual life: physical sciences, social sciences and humanities. Consequently it offers students opportunities to understand and explore different dimensions of the world in which we live and offers a synthetic approach to understanding landscapes, people, places and environments. Geography asks questions about how environmental, social, political and cultural processes shape how the world functions (and often fails to function!). In particular, Geography is concerned with the spatial variations of human and physical phenomena, the processes that produce these variations and the interrelationships between people and their environments. Geography courses are divided into seven themes, each of which include regional and systematic courses:

- The City;
- Globalization, Environment and Development;
- Production and the Politics of Difference;
- State, Empire and Power;
- Extreme Environments;
- Biophysical Processes and
- Geoinformatics.

Students are exposed to the breadth of geography in the Years 1 and 2 and encouraged to specialize in one or more of these themes in Years 3 and 4.

Department of History

Location:

2140 Vari Hall, Tel.: 416-736-5123

Web Site:

<http://www.yorku.ca/laps/hist>

Chair:

Jonathan Edmondson

Undergraduate Program Director:

TBA

History is an exciting and dynamic discipline that is always asking fascinating new questions about the past and answering important old questions in new ways. The study of history teaches us to think critically about how the past is fundamentally similar to the present, how the past is utterly different from the present, how the past is profoundly influential in shaping the present and how the past is recalled and remembered in the present.

The Department of History offers courses covering thousands of years of history in Africa, Asia, Europe and the Americas. At the 1000 level, students are introduced to the discipline of history through courses that emphasize theory, method and historiography, and that concentrate on fundamental reading, writing, research and analytic skills. At the 2000 level, students are introduced to major chronological and geographic fields of history. More specialized courses are offered at the 3000 level, while 4000-level seminars and colloquia enable small groups of Honours students to focus on specific historical topics.

Courses at the 1000 level have either a lecture/tutorial or seminar format. Courses at the 2000 level normally have two lecture hours and one tutorial hour. Courses at the 3000 level are taught as colloquia, lecture/tutorial or lecture courses. 4000-level courses will be offered as two- or three-hour seminars or colloquia. All courses are open to students studying in other units, unless otherwise indicated. Admission to 4000-level courses is by permission of the instructor or the instructor's representative. The department urges all students whose concentration is in history to contact the appropriate faculty adviser before choosing courses.

All history courses are numbered and grouped according to field. The thousands digit indicates the level at which the course is offered, the hundreds digit indicates the field (general 000, ancient 100, medieval and early modern Europe 200, modern Europe 300, Great Britain 400, Canada 500, United States 600, Africa, Asia, Latin America and Caribbean 700, comparative and interdisciplinary 800), and the remaining two digits indicate the number of the course within the field.

Department of Humanities

Location:

262 Vanier College, Tel.: 416-736-5158

Web Site:

<http://www.yorku.ca/laps/huma>

Chair:

Patrick Taylor

Undergraduate Program Director:

TBA

The Department of Humanities offers a broadly-based program of interdisciplinary study emphasizing the different ways in which human cultures and their multiple forms of expression have developed historically and continue to develop today. Humanities courses devote particular attention to the cultural practices of peoples in various times and places and the ways they have expressed cultural values and ideas of a philosophical, religious, moral, political and aesthetic nature. They foster a critical approach to reading and research that, in helping students learn to identify and question preconceived assumptions and values, allows them to engage and appreciate the interrelationship between diverse value systems and thereby to develop an analysis of the human and of human community. Courses offered in the Department of Humanities stress careful scrutiny of texts and cultural artifacts, critical thinking, reading, writing, seminar discussion and close contact between teacher and student.

The Department of Humanities offers Honours BA, Honours iBA and BA degrees in humanities which allow students to take advantage of a wide range of courses addressing important themes in the liberal arts. The department also offers Honours BA, Honours iBA and BA degrees in Canadian studies, children's studies, classics, classical and Hellenic studies, culture and expression, East Asian studies, European studies, individualized studies, Jewish studies and Religious studies. The department also participates in the Latin American and Caribbean Studies and Science and Technology Studies programs. Many humanities courses reflect these areas of concentration, thereby ensuring that humanities students have a wide range of course options to select from. For details, please consult the Programs of Study section.

Most first- and second-year courses offered through the Department of Humanities count towards the general education requirements of the Faculty of Liberal Arts and Professional Studies (see General Education Requirements). Foundations courses have a nine-credit value and place additional emphasis on developing critical thinking, reading and writing skills at the university level. Modes of reasoning courses are also offered as part of the general education program.

School of Human Resources Management

Location:

282 Atkinson Building, Tel.: 416-736-5210, Fax: 416-736-5963

Web site:

<http://www.yorku.ca/laps/shrm>

Director:

Monica Belcourt

Undergraduate Program Director:

Marie-Helene Budworth

Established in 2009, the School of Human Resources Management is the only HR School in Canada with full time faculty dedicated to the study of HRM. The School offers three undergraduate (BHRM, BHRM Honours and BAS Honours (HRM)) streams and two innovative graduate programs, including and MHRM and PhD.

School of Information Technology

Location:

3068 Technology Enhanced Learning Building, Tel.: 416-736-2100 (ext. 22647 or 40797), Fax: 416-736-5287

Web site:

<http://www.yorku.ca/laps/itec>

Director:

Marshall Walker

Undergraduate Program Director:

Younes Benslimane

The School of Information Technology prepares IT professionals prepared to work with both technical and non-technical users of information. The graduates of the Information Technology programs are uniquely positioned to plan, design, build and administer information systems. They are familiar with the latest technologies and are capable of customizing and integrating them according to the users' needs.

Department of Languages, Literatures and Linguistics

Location:

S561 Ross Building, Tel.: 416-736-5016

Web Site:

<http://www.yorku.ca/laps/dlll>

Chair:

Peter Avery

Undergraduate Program Director (Languages and Literatures):

TBA

Undergraduate Program Director (Linguistics):

Gabriela Alboiu

The Department of Languages, Literatures and Linguistics offers one of the widest selections of languages of any Canadian university: American Sign Language, Arabic, Chinese (Mandarin), German, Greek (both Classical and Modern), Hebrew, Hindi-Urdu, Jamaican Creole, Italian, Japanese, Korean, Latin, Portuguese, Russian, Swahili, Tamil and Yiddish. The study of foreign languages and literatures makes communication possible among people of different linguistic and cultural backgrounds and fosters intercultural understanding. This enables our students to engage the global community thoughtfully and creatively.

The department also offers courses in Linguistics, the discipline concerned with discovering the organizing principles of human language and applying these principles to the description of individual languages. Linguistics attempts to answer questions about the structure of languages, about how languages are alike and how they differ, about how children acquire language, about the relation between language and thought, language perception and production, as well as language and society. As a result, the study of linguistics can provide new perspectives on almost every aspect of the humanities and social sciences.

The department offers courses leading to Honours BA and BA degrees in German, German studies, Italian culture, Italian studies, linguistics, Portuguese studies, Russian, Russian studies and Spanish, as well as graduate MA and PhD degrees in Linguistics and Applied Linguistics. The department also offers Certificates of Language Proficiency in Chinese, German, Italian, Japanese, Modern Greek, Portuguese, Russian and Spanish, as well as an Advanced Certificate in Hebrew and Judaic Studies and a Certificate in Teaching English to Speakers of Other Languages (TESOL). The department's language programs, through their various courses and language proficiency certificates, contribute to a variety of area studies and interdisciplinary programs: African Studies, Classical Studies, East Asian Studies, Environmental Studies, European Studies, Hellenic Studies, International Development Studies, Jewish Studies, Latin American and Caribbean Studies, South Asian Studies, Religious Studies and Women's Studies. For course listings, please see the individual languages in this section of the Undergraduate Calendar. For specific program or certificate requirements, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Department of Philosophy

Location:

S428 Ross Building, Tel.: 416-736-5113, Fax: 416-736-5114

Web Site:

<http://www.yorku.ca/laps/phil>

Chair:

Robert Myers

Undergraduate Program Director:

TBA

The Department of Philosophy offers a wide range of undergraduate courses which examine contemporary problems and issues in applied ethics, social and political philosophy, feminism, cognitive science, philosophy of mind and argumentation theory. In addition, courses are offered in the history of philosophy, continental thought, and other traditional areas such as metaphysics and epistemology, logic and the philosophy of language, moral philosophy, and the philosophy of law.

The department is open to many avenues of thought and to diverse ways of doing philosophy. Efforts are made to blend contemporary and historical perspectives, and our faculty draws its inspiration from widely separated philosophical approaches. In keeping with this, there is a great deal of interdisciplinary work, and philosophy is involved in numerous cross-disciplinary programs.

The 23 full-time department members, among whom are some highly praised and very well known scholars, are supplemented by visiting and contract faculty who offer further diversity and breadth.

Department of Political Science

Location:

S672 Ross Building, Tel.: 416-736-5265

Web Site:

<http://www.yorku.ca/laps/pols>

Chair:

George Comninel

Associate Chair:

Rodney Loeppky

Undergraduate Program Director:

Bruce Smardon

The Department of Political Science has a reputation for research excellence and is noted for its commitment to teaching. Its objective is to expand critical awareness of political problems and to help overcome the barriers that separate politics from social life and the University from the community.

In today's challenging times, it often seems as if the institutions developed to improve our lives have escaped from our control. Problems such as poverty, war, inequality, oppression and a deteriorating environment press on us from all sides.

We cannot understand how these problems arose, nor how to deal with them, without discussing their political implications. The study of politics is concerned with how power and authority permeate almost every aspect of our lives - from the state to the courtroom, board room, work place and the family.

Politics is concerned not only with how power and authority are exercised but with how these relationships get transformed. We are interested in the forces that sustain consensus as well as in the forces that bring about change.

The department's approach to the study of politics has implications for education. A democratic education is education for democracy. Above all, it requires a dialogue in which students and teachers critically assess their own assumptions and beliefs about politics and society. Since none of us has all the answers, this dialogue must take place within a community where everyone's ideas are taken seriously and critically. This is what is meant by a community of scholars. This is what we have tried to create in the York University Department of Political Science.

School of Public Policy and Administration

Location:

N802 Ross Building, Tel.: 416-736-5384, Fax: 416-736-5382

Web site:

<http://www.yorku.ca/laps/sppa>

Joanne Magee

Undergraduate Program Director:

TBA

The School of Public Policy and Administration brings together the interdisciplinary research and teaching experience of its highly regarded faculty in a variety of degree and certificate programs. In addition to York's long-established BA in public policy and administration (PPA), the school offers new innovative undergraduate degree programs in public policy and management (PPM), and public administration and justice studies (PAJS). The graduate degree program of the school is the executive-style master's degree in Public Policy, Administration and Law (MPPAL). The school has two graduate Diplomas in Democratic Administration and Justice System Administration, as well as a Certificate in Public Sector Management.

The school prepares graduates for careers ranging from the private to the not-for-profit and public sectors as well as for post-graduate studies in the social sciences and professional programs.

The Department of Social Science is committed to maintaining high standards of a liberal education in all its courses; the responsibility within the Faculty of Liberal Arts and Professional Studies (along with the Department of Humanities) is interdisciplinary teaching and its accomplished in two ways. First, 1000- and 2000-level foundations courses are provided through which liberal arts and professional studies students may fulfill their social science general education requirements.

Second, the Department of Social Science is comprised of 12 interdisciplinary programs (African Studies, Business and Society, Criminology, Health and Society, International Development Studies, Labour Studies, Latin American and Caribbean Studies, Law and Society, Social and Political Thought, Social Science, South Asian Studies and Urban Studies) delivering courses in their fields of specialization. These

programs offer a range of degree options that may include a Specialized Honours major, a major or Honours Major, a double major, an Honours Minor, a well as other formats for specialization in the field.

Apart from some upper-level courses, most of the courses in the department's programs are open to students who are not program majors; please consult the various programs for a listing of their courses or consult the courses listed by year. Please note that students can only be enrolled in designated ESL sections through the Faculty of Liberal Arts and Professional Studies – Centre for Student Success.

School of Social Work

Location:

1017 Kinsmen Building, Tel.: 416-736-5226, Fax: 416-650-3861

Web site:

<http://www.yorku.ca/laps/sowk>

Director:

Wilburn Hayden Jr

Undergraduate Program Director:

TBA

The School of Social Work is committed to providing professional social work education, characterized by the development of practice strategies that promote human rights and social justice. Recognized as one of the most progressive and socially responsive social work programs in Canada, the school's unique curriculum addresses issues that have significant implications for the lives of marginalized and alienated segments of society. Graduates will be well prepared for a career as a critical practitioners and effective agents of change in the lives of individuals and communities.

Department of Sociology

Location:

2060 Vari Hall, Tel.: 416-736-5015

Web site:

<http://www.yorku.ca/laps/soci>

Chair:

TBA

Undergraduate Program Director:

TBA

Sociology is an exciting and dynamic field of study that analyzes and accounts for key moments in our personal lives, our communities and our world. Discover what makes us tick as individuals and as a society by exploring social relations, interactions and various power dynamics. Students gain a comprehensive understanding of how human action and consciousness both shape and are shaped by surrounding cultural and social structures. Students will also hone their networks and connect with professionals in the field through a unique array of community projects. Though members of the Department of Sociology teach a wide range of materials and perspectives on society in general and on Canadian society in particular, they take social criticism through theory development, research and teaching to be an essential element of their vocation.

Sociology majors learn to study people and the roles they play in society, both as individuals and in groups. There is a wide range of topics in sociology, just to name a few: race and racism, crime and social regulation, social policy, work and labour, gender, canadian society, immigration, education, health and health care, social organizations, culture, poverty, social interaction, socialization, criminal justice systems.

Writing Department

The Writing Department offers a variety of courses which may be taken for elective credit to help students develop their research and writing skills, both academic and professional. The department is also the home of the Writing Centre, which provides one-to-one and non-credit group instruction as described below.

Writing Centre

The Writing Department's Writing Centre provides students with one-to-one and group instruction designed to assist students to become effective independent writers both in their academic life and beyond. Instruction, both individual and group, is based on students' course assignments, usually on the draft of an essay, or other writing assignment, in progress. All Faculty of Liberal Arts and Professional Studies students, at any stage of a particular course assignment, are welcome to make appointments and take advantage of the opportunity to work on their writing with one of the centre's experienced faculty. Some students in other Faculties also may use the centre (information available on the Writing Department Web site). Appointments are for fifty minutes and are available in the day Monday through Saturday as well as evenings Monday through Thursday. The centre also regularly offers group workshops on various issues and skills related to writing effectively in university. For more information contact the Writing Department at 416-736-5134.

School of Women's Studies

Location:

206 Founders College, Tel.: 416-650-8144

Web Site:

<http://www.yorku.ca/laps/wmst>

Director:

Bettina Bradbury

Undergraduate Program Director:

Jan Kainer

Adviser and Mature Student Coordinator:

Alison Crosby

All women's studies courses at York University are centralized under the School of Women's Studies, which is located in Founders College. The mature student coordinator advises women's studies students with mature student status and ensures course availability for students dependent on the Faculty of Liberal Arts and Professional Studies commitment to access and flexibility. Women's studies is an interdisciplinary area of study, which provides valuable background for a variety of occupations.

Women's studies is both a complement and a corrective to established fields at York and a new academic discipline of its own. Until recently, both the humanities and the social sciences reflected predominantly male perspectives. Women have been largely invisible in literature, art, history, philosophy, politics, social sciences and law. Through cross-cultural and disciplinary assessment, women's studies exposes misconceptions about women expressed through myth, ideologies, teachings and writings. It replaces negative cultural images of women with visions that reaffirm women's strength, capability and intelligence.

In December 1997, women's studies resources at York University were formally linked under one administrative structure -- the School of Women's Studies. The School of Women's Studies unites academic resources at York University in women's studies, bringing together the undergraduate and graduate programs, the non-credit Bridging program and the Centre for Feminist Research.

Centre for Student Success

Office for New Students

103 Central Square, Tel.: 416-736-5022, E-mail: lapsinfo@yorku.ca

Office for Continuing Students

150 Atkinson Building, Tel.: 416-736-5222, E-mail: laps@yorku.ca

The Faculty of Liberal Arts and Professional Studies is a vibrant academic community that fosters engagement, development and academic success in all phases of the student life cycle. The successful student experience will involve personal, interpersonal, intellectual and social development and empowerment.

Student success depends upon an essential partnership between students and the University. The Centre for Student Success has been created to provide and partner with other responsible areas in the Faculty and University to deliver the successful student experience in LA&PS. Students served by the Centre for Student Success can be prospective, transitioning, continuing, graduating or alumni of LA&PS.

Advising

Advising is one of the crucial activities that support student engagement and success. The Faculty of Liberal Arts and Professional Studies considers academic advising to cover a number of complementary areas related to assisting students:

- select majors and courses;
- change majors or degrees;
- transferring to LA&PS;
- ascertain whether they are meeting the Faculty's academic regulations;
- plan for their academic future both before and after graduation;
- and generally make the most of their talents and interests.

The Centre for Student Success has two offices devoted to advising students.

The Office for New Students will assist prospective students with the transition into their first year at York University and support them throughout the entire first year. It is responsible for providing students with the advice and information required for a successful first year experience. The Office for New Students is located in 103 Central Square.

The Office for Continuing Students is located in Suite 150 of the Atkinson Building. Advising continuing students is a shared responsibility of the Office for Continuing Students, individual departments, divisions and programs of the Faculty as well as the Faculty-affiliated colleges. Students should contact these offices throughout the year for advice and information related to their academic career including academic performance, degree program requirements and career planning.

The two offices will combine to ensure that advising is available for new and continuing students from 9am to 7pm Monday to Thursday and 9am to 4:30pm on Fridays. Hours may change on Fridays during the summer session.

Student Responsibilities

Advising in LA&PS is approached as a partnership between the student, the Faculty, departments, schools, divisions, the Office for New Students, the Office for Continuing Students and the colleges. Within this context, and within the framework of Faculty and program regulations, students should take special care to:

- ensure the courses they choose meet all requirements for graduation;
- ensure the courses they choose meet prerequisites and are not course credit exclusions of other courses already taken;
- ensure the times of the courses they choose do not conflict;
- ensure the accuracy of their registration records, including all changes;
- note and observe deadlines and procedures, especially deadlines for adding and dropping courses;
- ensure full documentation is provided in support of petitions and other requests for special consideration;
- keep themselves informed about their academic progress, including their performance in individual courses;
- ensure they are familiar with the University Code of Conduct (<http://www.yorku.ca/scdr/StudentConduct.html>);
- ensure they understand University Academic Integrity provisions (<http://www.yorku.ca/secretariat/policies/document.php?document=69>).

It is also recommended that students become familiar with the broad range of information and services available through the LA&PS Web site. This site has a great deal of information on the matters listed above, but also provides useful links to services such as Web enrolment, Student Client Services in the Division of Students and Student Community & Leadership Development and Faculty colleges.

Student partnership in a successful academic experience is important to the Offices for New and Continuing Students and their staff looks forward to assisting students in reaching their goals.

Student Engagement

Student engagement also occurs in academic, cocurricular and extracurricular programs, initiatives and activities inside and outside of the classroom, as well as in the community. The Centre for Student Success recognizes that students who are actively engaged benefit more from their university experience. While every LA&PS faculty and staff member has a responsibility to "act" in ways that support student engagement and create a sense of community, staff in the Centre for Student Success are dedicated to providing and partnering with other areas of the Faculty and University to offer student engagement opportunities. Whether it is putting students in touch with an academic club, or inviting them to a workshop on student awards and bursaries, the staff in the Office for Student Success looks forward to assisting students in discovering the many opportunities for student involvement in the Faculty of Liberal Arts and Professional Studies.

Below is a sample listing of student activities that students can find out about in the Centre for Student Success:

- Peer mentorship programs in partnership with the Faculty colleges, which match upper year and new students to help during their first year experience.
- Volunteering and skills building opportunities for students.
- New student orientations in partnership with the Faculty colleges.
- Awards information sessions and scholarship/awards celebrations.
- Participation in LA&PS student clubs and Faculty governance.
- Student-Alumni Mentorship programs which link upper-year LA&PS students to alumni, based on common career interests.
- A host of other initiatives that encourage student leadership, development, alumni involvement and the active participation of all LA&PS community members.

The eServices Office

Contact information:

Suite 2120 Technology Enhanced Learning Building, Tel.: 416-736-5831, Fax: 416-736-5637, Toll Free Number (in North America): 1-866-261-1790, E-mail: esohelp@yorku.ca, Web site: <http://www.yorku.ca/laps/eso/students>

The eServices Office (eSO) at the Faculty of Liberal Arts and Professional Studies provides students with computing and course Web site access support for all LA&PS courses. The eServices Office also provides special administrative services for distance education courses (Internet and correspondence), that includes assistance for assignment submission and off-site examination scheduling.

Technology Enhanced Learning

LA&PS provides technology enhanced opportunities for teaching and learning with a generic course Web site template. Many LA&PS instructors choose to use this template to create a Web presence for their course that could provide academic information and communications for their students. Instructors inform their students of their Web usage plans at the beginning of term.

Distance Education Courses

Study at your own pace with LA&PS distance education courses via an Internet or correspondence format. You can learn from the convenience of your home, office or from the other side of the world. LA&PS distance courses use the same textbooks and materials as in-class instruction and cover the same course content. Distance courses count towards your degree in exactly the same way as other in-class courses. Create a more flexible schedule by mixing in-class courses with Internet and correspondence courses or even complete an entire program by distance.

Students taking distance courses obtain instructional information, assignments, course requirements and relevant materials online. Students are required to complete assignments, (due on specific dates) and to write the exams at the University or an alternative location as scheduled.

Detailed distance education course information is available from the Next Steps Web site. This site includes information for registered students, i.e. computer requirements/accounts, access instructions and specialized administrative information. Course listings and timetables are now navigated starting from the York Courses Web site page available at: <https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm/>. Once you find your course offering there will be a Course Web site link that includes the outline. The course outline contains academic and text requirements.

Programs Offered via Distance

The Faculty of Liberal Arts and Professional Studies offers a bachelor of administrative studies (BAS) degree, a business economics (BA) degree and a management certificate entirely by combining the flexibility of Internet and correspondence courses. Detailed degree requirements, prerequisites and descriptions are available online in the Undergraduate Calendar available at <http://calendars.registrar.yorku.ca>.

Mixed-Mode Courses: In-class and Internet

LA&PS offers mixed-mode courses which blend in-class and Internet modes of delivery. These courses combine and alternate on-campus classes with Internet online lectures. Mixed-mode courses combine the best of both teaching methods.

School of Administrative Studies

Contacts: B. Gaber and S. Scott

Students beginning this certificate must have successfully completed a 12U math, or the equivalent, completed within the last five years prior to starting the core requirements.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 57 credits including:

a) Prerequisites for core requirements:

- AP/ADMS 1000 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- And three credits in the area of management science.

b) Core requirements:

- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 3510 3.00;
- AP/ADMS 3530 3.00;
- AP/ADMS 3585 3.00;
- AP/ADMS 3595 3.00;
- AP/ADMS 4515 3.00 or AP/ADMS 4551 3.00*;
- AP/ADMS 4510 3.00* or AP/ADMS 4520 3.00* or AP/ADMS 4530 3.00*;
- AP/ADMS 3520 3.00 or AP/ADMS 4561 3.00*;
- AP/ADMS 4562 3.00*;
- AP/ADMS 4590 3.00*.

12 credits chosen from the following:

- AP/ADMS 1010 3.00;
- AP/ADMS 2400 3.00;
- AP/ADMS 2511 3.00;
- AP/ADMS 2610 3.00;
- AP/ADMS 3620 3.00;
- AP/ADMS 3630 3.00;
- AP/ADMS 4510 3.00*;
- AP/ADMS 4520 3.00*;
- AP/ADMS 4530 3.00*;
- AP/ADMS 4540 3.00*;
- AP/ADMS 4552 3.00*;
- AP/ADMS 4553 3.00*;
- AP/ADMS 4560 3.00*;
- AP/ADMS 4561 3.00;
- AP/ADMS 4570 3.00*;
- SC/CSE 1520 3.00;
- SC/CSE 1530 3.00.

*Prerequisites for these courses must be passed with a grade of C+ or better.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Administrative Studies

Students prior to entering the BAS are required to have completed one 12U mathematics Advanced Functions, or the equivalent.

AP/ADMS 1000 3.00, Introduction to Administrative Studies must be successfully completed prior to taking a course for which it is a prerequisite. For all other ADMS courses, AP/ADMS 1000 3.00 may be taken concurrently (corequisite) with the first ADMS course(s) taken.

For students with a prior degree in business-related programs, AP/ADMS 1000 3.00 is waived as a prerequisite for administrative studies courses. Students must replace the course with three credits in administrative studies.

The following notes apply to the Honours BAS and BAS programs:

Notes:

1. *These courses will not count toward the fulfillment of the 18 credits outside the major.*
 - AP/PHIL 3570 3.00 Ethics of Administration
 - HH/PSYC 3570 3.00 Organizational Psychology
2. *4000-level courses are open only to students in the Honours program who have completed a minimum of 78 credits, except for certain courses included within certificates where there is a C+ grade requirement on prerequisite courses. Any student may take these courses provided requirements are met.*
3. *Students are recommended to consider, when choosing their 18 required credits outside the major, the following courses in related disciplines through the School of Public Policy and Administration: AP/PPAS 2910 6.00 (cross-listed to: AP/POLS 2910 6.00), AP/PPAS 3410 6.00.*
4. *Faculty of Liberal Arts and Professional Studies courses are recognized towards certification in a number of professional programs.*
5. *Students of professional associations should note that degree requirements must be followed. Those who wish to combine a degree and professional designation or otherwise take courses at the Faculty of Liberal Arts and Professional Studies, in accordance with Faculty requirements, are advised to obtain full details from the organizations involved which include:*
 - Appraisal Institute of Canada (Ontario)
 - Canadian College of Health Service Executives
 - Canadian Institute of Marketing
 - Canadian Institute of Traffic and Transportation
 - Credit Union Institute of Canada
 - Financial Planners Standards Council
 - Human Resources Professionals Associations of Ontario
 - Institute of Canadian Bankers
 - Institute of Materials Management Societies
 - Institute of Municipal Assessors of Ontario
 - Ontario Association of Certified Engineering Technicians and Technologists
 - Purchasing Management Association of Canada
 - Real Estate Institute of Canada (Toronto Chapter)
 - Supply Chain & Logistics Canada (SCL)
 - The Canadian Institute of Certified Administrative Managers
 - The Certified General Accountants Association of Ontario
 - The Institute of Chartered Accountants of Ontario
 - The Institute of Chartered Secretaries and Administrators in Canada
 - The Insurance Institute of Ontario
 - The Society of Management Accountants

Specialized Honours BAS: 120 Credits

There are at present seven streams in the Specialized Honours BAS program. The prerequisites and requirements appear below.

Students prior to entering the BAS are required to have completed 12U mathematics Advanced Functions or the equivalent.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50.

General education: 18 credits of general education from humanities, modes of reasoning, natural science and social science. Minimum six credits in each of three areas: humanities, modes of reasoning, natural science and social science. Modes of reasoning is recommended.

Major credits: 78 credits including:

(i) Required Honours standard core courses: 45 credits including:

- AP/ADMS 1000 3.00;
- AP/ADMS 1010 3.00;
- AP/ADMS 2200 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 2400 3.00;
- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 2511 3.00;
- AP/ADMS 2600 3.00;
- AP/ADMS 2610 3.00;
- AP/ADMS 3330 3.00;
- AP/ADMS 3530 3.00*;
- AP/ADMS 3660 3.00;
- AP/ADMS 4900 3.00;
- three additional credits in ADMS.

*Students in the human resources stream may substitute any 3000 level or above ADMS course in place of AP/ADMS 3530 3.00.

Students who wish to meet the requirement of CHRP certification should take AP/HRM 3430 3.00 (cross-listed to: AP/ADMS 3430 3.00).

(ii) 33 additional credits at the 3000 level or above as specified in the requirements for one of the seven streams as described below. At least 18 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits including AP/ECON 1000 3.00 and AP/ECON 1010 3.00.

Accounting Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/ADMS 3510 3.00;
- AP/ADMS 3520 3.00;
- AP/ADMS 3585 3.00;
- AP/ADMS 3595 3.00;
- three additional credits in ADMS at the 3000 level or above;
- AP/ADMS 4515 3.00 or AP/ADMS 4551 3.00;
- AP/ADMS 4562 3.00;
- AP/ADMS 4590 3.00;
- AP/ADMS 4510 3.00 or AP/ADMS 4520 3.00 or AP/ADMS 4530 3.00;

Six credits at the 4000 level in administrative studies to be selected from:

- AP/ADMS 4510 3.00;
- AP/ADMS 4520 3.00;
- AP/ADMS 4530 3.00;
- AP/ADMS 4540 3.00;
- AP/ADMS 4552 3.00;
- AP/ADMS 4553 3.00;
- AP/ADMS 4560 3.00;
- AP/ADMS 4561 3.00;
- AP/ADMS 4563 3.00;
- AP/ADMS 4570 3.00.

Note: students must complete at least 18 credits at the 4000 level in the major.

Business Research Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/ADMS 3300 3.00;
- AP/ADMS 3352 3.00;
- AP/ADMS 4250 3.00;
- AP/ADMS 4260 3.00;
- AP/ADMS 4265 3.00;
- AP/ADMS 4300 3.00;
- AP/ADMS 4370 3.00;
- 12 additional credits at the 3000 level or above in administrative studies.

Note: students must complete at least 18 credits at the 4000 level in the major.

Finance Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/ADMS 3531 3.00;
- AP/ADMS 3541 3.00;
- one of: AP/ADMS 4501 3.00, AP/ADMS 4540 3.00;

At least 12 credits chosen from the following:

- AP/ADMS 4501 3.00;
- AP/ADMS 4502 3.00;
- AP/ADMS 4503 3.00;
- AP/ADMS 4504 3.00;
- AP/ADMS 4505 3.00;
- AP/ADMS 4506 3.00;
- AP/ADMS 4535 3.00;
- AP/ADMS 4536 3.00;
- AP/ADMS 4540 3.00;
- AP/ADMS 4541 3.00;
- AP/ADMS 4542 3.00;
- 12 additional credits at the 3000 level or above in administrative studies.

Note: students must complete at least 18 credits at the 4000 level in the major.

Human Resources Management Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/HRM 3400 3.00 (cross-listed to: AP/ADMS 3400 3.00; HH/HLST 3240 3.00);
- AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
- AP/HRM 3422 3.00 (cross-listed to: AP/ADMS 3422 3.00);
- AP/HRM 3470 3.00 (cross-listed to: AP/ADMS 3470 3.00);
- AP/HRM 3490 3.00 (cross-listed to: AP/ADMS 3490 3.00);
- AP/HRM 4460 3.00 (cross-listed to: AP/ADMS 4460 3.00);

15 credits at the 4000 level in administrative studies chosen from:

- AP/ADMS 4010 3.00;
- AP/ADMS 4370 3.00;
- AP/ADMS 4910 3.00;
- AP/HRM 4050 3.00 (cross-listed to: AP/ADMS 4050 3.00);
- AP/HRM 4410 3.00 (cross-listed to: AP/ADMS 4410 3.00);
- AP/HRM 4420 3.00 (cross-listed to: AP/ADMS 4420 3.00);
- AP/HRM 4430 3.00 (cross-listed to: AP/ADMS 4430 3.00);
- AP/HRM 4440 3.00 (cross-listed to: AP/ADMS 4440 3.00);
- AP/HRM 4470 3.00 (cross-listed to: AP/ADMS 4470 3.00);
- AP/HRM 4480 3.00 (cross-listed to: AP/ADMS 4480 3.00);
- AP/HRM 4481 3.00 (cross-listed to: AP/ADMS 4481 3.00);
- AP/HRM 4485 3.00 (cross-listed to: AP/ADMS 4485 3.00);
- AP/HRM 4490 3.00 (cross-listed to: AP/ADMS 4490 3.00);
- AP/HRM 4495 3.00 (cross-listed to: AP/ADMS 4495 3.00);

Notes:

1. Courses outside the major that may be of interest to human resources management students are: AP/ECON 3590 3.00; AP/ECON 3259 6.00; AP/ECON 3620 3.00; AP/ECON 3790 3.00; AP/ITEC 1010 3.00; HH/NURS 3770 3.00; AP/PHIL 3020 3.00; AP/POLS 3415 6.00 (cross-listed to: AP/REI 3745 6.00); HH/PSYC 2120 3.00; HH/PSYC 2130 3.00; HH/PSYC 2210 3.00; HH/PSYC 2230 3.00; HH/PSYC 3410 3.00; HH/PSYC 3420 3.00; HH/PSYC 3540 3.00; AP/SOCI 2030 6.00; AP/SOCI 3480 6.00 (cross-listed to: AP/HREQ 6.00); AP/SOCI 3680 3.00 (cross-listed to: AP/REI 3680 6.00); AP/SOSC 2410 6.00; AP/REI 3580 3.00; AP/GL/MMST 3510 6.00 (cross-listed to: AP/SOSC 3130 6.00; GL/WKST 3610 6.00); AP/HREQ 3414 6.00 (cross-listed to: AP/SOCI 3414 6.00).
2. Under the certification process, HRP AO requires an average of 70 per cent with the lowest acceptable grade in any required course of 65 per cent.
3. Students must complete at least 18 credits at the 4000 level in the major.

Management Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/ADMS 3930 3.00;
- AP/ADMS 4010 3.00;
- AP/ADMS 4910 3.00;

(iii) nine additional credits selected from the following:

- AP/ADMS 3300 3.00;
- AP/ADMS 3960 3.00;
- AP/ADMS 4444 3.00;
- AP/ADMS 4940 3.00;
- AP/HRM 4495 3.00 (cross-listed to: AP/ADMS 4495 3.00);

(iv) 15 additional credits selected from AP/ADMS 3000 and 4000 level courses.

Note: students must complete at least 18 credits at the 4000 level in the major.

Management Science Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

Nine credits:

- AP/ADMS 3300 3.00;
- AP/ADMS 3331 3.00;
- AP/ADMS 3351 3.00;

18 additional credits selected from the following:

- AP/ADMS 3345 3.00;
- AP/ADMS 3350 3.00;
- AP/ADMS 3352 3.00;
- AP/ADMS 3353 3.00;
- AP/ADMS 3360 3.00;
- AP/ADMS 4300 3.00;
- AP/ADMS 4331 3.00;
- AP/ADMS 4333 3.00;
- AP/ADMS 4340 3.00;
- AP/ADMS 4345 3.00;
- AP/ADMS 4353 3.00;
- AP/ADMS 4360 3.00;
- AP/ADMS 4370 3.00.

An additional six credits at the 4000 level in administrative studies. This may include courses not previously taken from the list above.

Note: students must complete at least 18 credits at the 4000 level in the major.

Marketing Stream

(i) The required Honours standard core 45 credits.

(ii) 33 additional credits as follows:

- AP/ADMS 3220 3.00;
- AP/ADMS 4220 3.00;
- AP/ADMS 4250 3.00;
- AP/ADMS 4260 3.00;
- 15 additional credits in marketing to be chosen from any AP/ADMS marketing course (starting with the numbers 32 or 42);
- six additional credits from any 4000-level administrative studies courses.

Note: students must complete at least 18 credits at the 4000 level in the major.

BAS: 90 Credits

Students prior to entering the BAS are required to have completed 12U mathematics Advanced Functions or the equivalent.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements. The cumulative grade point average for must be at least 5.00 and the major grade point average 5.00.

General education: 18 credits of general education from humanities, modes of reasoning, natural science and social science. Minimum six credits in each of three areas: humanities, modes of reasoning, natural science and social science. Modes of reasoning is recommended.

Major credits: 54 credits including:

(i) Required core courses: 42 credits including:

- AP/ADMS 1000 3.00;
- AP/ADMS 1010 3.00;
- AP/ADMS 2200 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 2400 3.00;
- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 2511 3.00;
- AP/ADMS 2610 3.00;
- AP/ADMS 3330 3.00;
- AP/ADMS 3530 3.00;
- AP/ADMS 3900 3.00 or AP/ADMS 3920 3.00;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
- three additional credits in ADMS.

(ii) 12 additional administrative studies credits at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits including AP/ECON 1000 3.00 and AP/ECON 1010 3.00.

Course Substitutes

Subject to course exclusions, program requirements/restrictions, and residency requirements, the following courses are acceptable substitutes for the purpose of meeting BAS program requirements.

Program Course	Course Substitutes
AP/ADMS 1010 3.00	AP/ADMS 2420 3.00, AP/ADMS 2410 3.00
AP/ADMS 2600 3.00	AP/ADMS 3480 3.00
AP/ADMS 3530 3.00	AP/ECON 4400 3.00
AP/ADMS 4540 3.00	AP/ECON 4410 3.00

Program notes for BAS: the following chart refers only to courses completed prior to entry to the BAS program.

BAS Program course	BAS course substitutes for Schulich courses complete prior to entering the program
ADMS 1000 3.00 and three credits at the 1000 level	SB/MGMT 1000 3.00 and SB/MGMT 1010 3.00

African Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours Double Major Interdisciplinary (Linked) BA

The African Studies program is an Honours Double Major Interdisciplinary BA program. African studies majors must take a second major (co-major) in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health. Students must take at least 36 credits in the African Studies program and at least 36 credits in the co-major according to the requirements and regulations specified by each department/discipline for an Honours Double Major Interdisciplinary BA program. Courses taken to meet African studies requirements cannot also be used to meet the requirements of the departmental major. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in African studies and six credits in the departmental major. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: the 36 credits in African studies must include the following:

- AP/SOSC 2480 9.00;
- 24 credits chosen from the list of African studies courses;
- six credits in African studies at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who are completing this program are deemed to fulfill this requirement.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in African studies comprises at least 30 credits including the following:

- AP/SOSC 2480 9.00;
- 18 credits chosen from the list of African studies courses;
- AP/SOSC 4510 6.00.

At least six credits in the minor must be at the 4000 level.

African Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator and subject to course exclusion and residency requirements, students may complete other courses for program credit in African studies.

American Sign Language

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in American Sign Language. Refer to American Sign Language in the Courses of Instruction section.

Anthropology

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in anthropology, including:

- AP/ANTH 1110 6.00;
- 12 credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- 12 additional credits at the 3000 level in anthropology;
- AP/ANTH 4110 6.00;
- 12 additional credits at the 4000 level in anthropology.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in anthropology, including:

- AP/ANTH 1110 6.00;
- 12 credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- six additional credits at the 3000 level in anthropology;
- AP/ANTH 4110 6.00;
- six additional credits at the 4000 level in anthropology.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional

Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Anthropology may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in anthropology and at least 36 credits in the interdisciplinary (linked) program. Courses taken to meet anthropology requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in anthropology and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

The 36 credits in anthropology must include:

- AP/ANTH 1110 6.00;
- six credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- six additional credits at the 3000 level in anthropology;
- AP/ANTH 4110 6.00;
- six additional credits at the 4000 level in anthropology.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in anthropology comprises at least 30 credits including:

- AP/ANTH 1110 6.00;
- six credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- six additional credits at the 2000 or 3000 level in anthropology;
- six credits at the 4000 level in anthropology.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in anthropology, including:

- AP/ANTH 1110 6.00;
- 12 credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- six additional credits at the 3000 or 4000 level in anthropology.

Note: at least 12 credits in the major must be at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in anthropology, including:

- AP/ANTH 1110 6.00;
- 12 credits at the 2000 level in anthropology;
- AP/ANTH 3110 6.00;
- six additional credits at the 3000 level in anthropology;
- AP/ANTH 4110 6.00;
- six additional credits at the 4000 level in anthropology.

Note: at least 12 credits in the major must be at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program in Anthropology described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Cross-Disciplinary Certificate in Anti-Racist Research and Practice (CARRP)

Department of Equity Studies

An interdisciplinary certificate based in the Department of Equity Studies, CARRP deals with racial issues in the workplace, schools, health care, immigration, law enforcement, media and the expressive arts. Students, who complete CARRP and who are accepted into the Social Work program will be eligible to count up to 12 certificate credits towards the social work degree, provided these courses are passed at minimum grades of B. For required courses in CARRP, refer to Certificate Requirements section. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 48* credits, including:

- six credits 1000-level course in social science;
- six credits in an introductory-level course in geography, political science, social science or sociology (AP/GEOG 1410 6.00, AP/POLS 1000 6.00 (cross-listed to: AP/PPAS 1000 6.00), AP/HREQ 2400 6.00, or AP/SOCI 1010 6.00);
- AP/SOCI 2040 6.00;
- 12 credits chosen from AP/REI 2050 6.00, AP/SOCI 3610 6.00 (cross-listed to: AP/REI 3610 6.00), AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00), AP/SOCI 3680 6.00 (cross-listed to: AP/REI 3680 6.00);
- 12 credits in the Faculty of Liberal Arts and Professional Studies from those courses listed below;
- and, as the final course AP/SOCI 4600 6.00 (cross-listed to: AP/HREQ 4600 6.00, AP/REI 4600 6.00), with a major research project on racism or anti-racism.

**Some courses in list may have prerequisites which will increase the number of courses required for the certificate. Students should consult the Courses of Instruction section for information.*

Certificate students may be admitted if they have completed a 1000-level course in humanities and are in their second or later year of study.

Prerequisites waived for certificate students.

Not open to students who are taking or have taken AP/WMST 3510 6.00 (cross-listed to: AP/SOSC 3130 6.00, GL/WKST 3610 6.00, GL/WMST 3510 6.00).

Prerequisites waived for certificate students. Please consult School of Social Work.

During the year, CARRP sponsors special talks for the University community on current topics dealing with racism, immigration and public policy. For more information, or to register in the certificate program, call 416-736-5235 or visit us at 302 Atkinson Building.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitute
AP/POLS 1000 6.00 (cross-listed to: AP/PPAS 1000 6.00)	GL/POLS 1400 6.00
AP/SOCI 1010 6.00	GL/SOCI 2510 6.00

Arabic

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in Arabic. Refer to Arabic in the Courses of Instruction section.

Cross-Disciplinary Certificate in Biblical Studies

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have

successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 24 credits from the following courses, of which at least 18 credits must be at the 2000 level or above including six credits at the 3000 or 4000 level:

- AP/HUMA 1850 6.00;
- AP/HUMA 2500 6.00;
- AP/HUMA 3415 3.00;
- AP/HUMA 3417 3.00;
- AP/HUMA 3421 3.00;
- AP/HUMA 3422 3.00;
- AP/HUMA 3423 3.00;
- AP/HUMA 3424 3.00;
- AP/HUMA 3425 3.00;
- AP/HUMA 3436 3.00;
- AP/HUMA 3437 3.00;
- AP/HUMA 3457 3.00;
- AP/HUMA 3457 6.00;
- AP/HUMA 3458 3.00;
- AP/HUMA 3459 3.00;
- AP/HUMA 4535 3.00;
- AP/HUMA 4630 3.00;
- AP/HUMA 4630 6.00;
- AP/HUMA 4651 3.00;
- AP/HUMA 4652 3.00;
- AP/HUMA 4653 6.00;
- AP/HUMA 4655 6.00;
- AP/HUMA 4660 6.00.

Refer also to Religious Studies program: students are encouraged to consult the course offerings of the Religious Studies program, to complement their certificate and to increase breadth, especially in Judaic and Islamic studies. Comparable courses will be considered for credit toward the certificate.

Business Minor

School of Administrative Studies

Honours Minor

The Honours Minor program described may be combined with any approved non-business Honours program that offers a major/minor option in the Faculties of Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Entry requirements:

Students prior to entering the business minor are required to have completed one 12U mathematics Advanced Functions or the equivalent and students must have completed 30 University credits or the equivalent and attained a minimum cumulative grade point average of 5.00 in their home program at York.

Minor credits: 30 credits including:

- AP/ADMS 1000 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ADMS 2200 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 2400 3.00;
- AP/ADMS 2500 3.00;
- AP/ADMS 3530 3.00;
- AP/ADMS 4900 3.00;
- three additional credits in ADMS at the 4000 level.

To graduate with a minor in business, students must satisfy Honours degree and program requirements including a minimum 5.00 grade point average in the minor.

Business and Society

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 72 credits, as follows:

- the program core;
- 18 credits from each of two of the streams;
- AP/SOSC 4040 6.00;
- 12 additional credits at the 4000 level including at least six credits at the 4000 level in each of the two streams.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Note: with permission of the program coordinator, students can replace AP/SOSC 4040 6.00 with AP/SOSC 4041 6.00, AP/SOSC 4042 6.00, AP/SOSC 4043 6.00 or AP/SOSC 4044 6.00.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 54 credits, as follows:

- the program core;
- 18 credits from each of the two streams including at least six credits at the 3000 level in each of the two streams.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Program Core

All business and society majors must complete the program core, as follows:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/SOSC 1340 6.00;
- AP/SOSC 2340 9.00.

Statistics Requirement

All business and society majors must complete at least three credits in an approved statistics course. Students normally complete the approved statistics course as part of their stream requirement. However, not all of the streams require or include as a course option an approved statistics course. Students who combine two streams which do not include an approved statistics course must complete at least three credits in an approved statistics course in addition to their stream requirements.

Note: statistics courses are offered in many of the streams and many of these courses have course credit exclusions. Check course descriptions carefully for course exclusions to avoid duplicating course work.

Business and Society Streams

Students must choose two of the streams listed below.

Business Ethics and Corporate Social Responsibility

- AP/PHIL 2070 3.00;
- six credits chosen from: AP/POLS 2900 6.00, AP/SOSC 2571 9.00 or AP/SOSC 2570 9.00;
- AP/SOSC 3040 6.00;
- three credits chosen from: SC/MATH 2560 3.00, AP/PHIL 2075 3.00, AP/PHIL 3020 3.00, AP/PHIL 3050 3.00, AP/PHIL 3776 3.00 or ES/ENVS 3000 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/PHIL 4150 3.00, AP/PHIL 4160 3.00, AP/SOSC 4043 6.00 or AP/SOSC 4044 6.00.

The Environment

- ES/ENVS 1000 6.00;
- ES/ENVS 2100 6.00 or ES/ENVS 2400 6.00;
- six credits chosen from: ES/ENVS 3120 3.00, ES/ENVS 3130 3.00, ES/ENVS 3410 3.00, ES/ENVS 3420 3.00, ES/ENVS 3430 3.00, ES/ENVS 3440 3.00, ES/ENVS 3510 3.00, AP/GEOG 3050 3.00 or AP/GEOG 3051 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/GEOG 4050 3.00, AP/GEOG 4160 3.00, AP/SOSC 4041 6.00, AP/SOSC 4042 6.00, ES/ENVS 4120 3.00, ES/ENVS 4140 3.00, ES/ENVS 4410 3.00, ES/ENVS 4430 3.00, ES/ENVS 4442 3.00 or ES/ENVS 4510 3.00.

The Firm

Note: prerequisites for courses must be met. Check course descriptions carefully for prerequisite requirements.

Students must choose from either Option A or Option B listed below.

Option A – Microeconomic Analysis

- AP/ECON 1530 3.00 (cross-listed to: SC/MATH 1530 3.00);
- AP/ECON 1540 3.00 (cross-listed to: SC/MATH 1540 3.00);
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3500 3.00;
- six credits, including at least three credits at the 3000 level, chosen from: AP/ECON 2300 3.00, AP/ECON 2350 3.00, AP/ECON 3200 3.00 or AP/ECON 3411 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ECON 4130 3.00, AP/ECON 4210 3.00, AP/ECON 4220 3.00 or AP/ECON 4350 3.00.

Note: students may not combine The Firm (Option A – Microeconomic Analysis) with The Macroeconomy (Option A – Macroeconomic Analysis).

Option B – Organizational Analysis

- AP/ADMS 1000 3.00;
- AP/ADMS 2400 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00;

- six credits chosen from: AP/ECON 3200 3.00, AP/ECON 3240 3.00, AP/ECON 3249 3.00, HH/PSYC 3570 3.00, AP/SOCI 3620 6.00 or AP/ADMS 3300 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ECON 4130 3.00, AP/ECON 4350 3.00, AP/SOSC 4041 6.00, AP/SOSC 4210 6.00, AP/ADMS 4010 3.00.

Note: if AP/ECON 2500 3.00 and/or AP/ECON 3210 3.00 are taken as part of The Macroeconomy, they must be replaced in The Firm (Option B – Organizational Analysis) with courses chosen from the listed course options at the 3000 level.

The Global Economy

- AP/HIST 1090 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- AP/ECON 3150 3.00;
- AP/ECON 3550 3.00;
- six credits chosen from: AP/ANTH 3220 6.00, AP/ECON 3190 3.00, AP/ECON 3560 3.00, AP/GEOG 3130 3.00, AP/POLS 3270 3.00, AP/POLS 3275 3.00, AP/POLS 3560 6.00, AP/POLS 3415 6.00 or AP/REI 3510 6.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ECON 4129 3.00, AP/ECON 4190 3.00, AP/ECON 4200 3.00, AP/GEOG 4220 3.00, AP/GEOG 4395 3.00, AP/POLS 4117 3.00, AP/POLS 4285 3.00, AP/POLS 4291 3.00, AP/POLS 4295 3.00 or AP/POLS 4403 3.00.

Labour

- AP/SOSC 2210 9.00;
- 12 credits chosen from: AP/ECON 3240 3.00, AP/ECON 3249 3.00, AP/ECON 3620 3.00, AP/GEOG 3800 3.00, SC/MATH 2560 3.00, AP/POLS 3140 3.00, AP/SOSC 3210 6.00, AP/SOSC 3240 3.00, AP/SOSC 3241 6.00, AP/SOSC 3380 6.00, AP/SOSC 3815 3.00, AP/SOSC 3980 3.00, AP/SOSC 3981 3.00, AP/SOSC 3993 3.00 or AP/GL/WMST 3510 6.00.

For the Honours program: students must include at least six credits chosen from:

- AP/SOSC 4041 6.00, AP/SOSC 4210 6.00, AP/SOSC 4240 6.00 or AP/SOSC 4250 6.00.

Law and Governance

- AP/PHIL 2050 6.00 or AP/SOSC 2350 6.00;
- AP/SOSC 2330 9.00;
- six credits chosen from: AP/ECON 4309 3.00, AP/POLS 3165 6.00 (cross-listed to: AP/SOSC 3165 6.00), AP/SOSC 3040 6.00 or AP/SOSC 3380 6.00.

For the Honours program:

- AP/SOSC 4043 6.00.

The Macroeconomy

Note: prerequisites for courses must be met. Check course descriptions carefully for prerequisite requirements.

Students must choose from either Option A or Option B listed below.

Option A – Macroeconomic Analysis

- AP/ECON 1530 3.00 (cross-listed to: SC/S/MATH 1530 3.00);
- AP/ECON 1540 3.00 (cross-listed to: SC/MATH 1540 3.00);
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00;
- six credits, including at least three credits at the 3000 level, chosen from: AP/ECON 2400 3.00, AP/ECON 2450 3.00, AP/ECON 3430 3.00, AP/ECON 3150 3.00 or AP/ECON 3200 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ECON 4070 3.00, AP/ECON 4080 3.00, AP/ECON 4129 3.00, AP/ECON 4190 3.00 or AP/ECON 4200 3.00.

Note: students may not combine The Macroeconomy (Option A – Macroeconomic Analysis) with The Firm (Option A – Microeconomic Analysis).

Note: if AP/ECON 2500 3.00 and/or AP/ECON 3210 3.00 are taken as part of The Firm, they must be replaced in The Macroeconomy (Option A – Macroeconomic Analysis) with courses chosen from the listed course options at the 2000 or 3000 level.

Option B – Public Policy Analysis

- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00;
- AP/POLS 3190 6.00;
- six credits chosen from: AP/ECON 3430 3.00, AP/ECON 3150 3.00, AP/ECON 3200 3.00, AP/HREQ 3125 3.00, AP/GL/POLS 3135 3.00, AP/GL/POLS 3136 3.00 or AP/POLS 3145 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ECON 4070 3.00, AP/ECON 4080 3.00, AP/ECON 4129 3.00, AP/ECON 4190 3.00, AP/ECON 4200 3.00, AP/ECON 4350 3.00, AP/POLS 4115 6.00 or AP/GL/POLS 4300 6.00.

Note: if AP/ECON 2500 3.00 and AP/ECON 3210 3.00 are taken as part of The Firm, they must be replaced in The Macroeconomy (Option B – Public Policy Analysis) with AP/POLS 2910 6.00.

The Media and Communication

- AP/COMN 1310 9.00 (cross-listed to: AP/SOSC 1310 9.00);
- AP/SOSC 2313 6.00 or AP/SOSC 2314 6.00 or AP/SOSC 2314 9.00;
- six credits chosen from: AP/SOSC 3310 6.00, AP/SOSC 3315 6.00, AP/SOSC 3350 3.00 or AP/SOSC 3351 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/ADMS 4295 6.00, AP/POLS 4180 6.00, AP/SOSC 4314 6.00, AP/SOSC 4801 6.00, AP/SOSC 4802 6.00 or AP/SOSC 4803 6.00.

Professions, Occupations and Social Change

- AP/SOCI 1010 6.00 or AP/HUMA 1790 6.00;
- AP/SOCI 3600 3.00;
- AP/SOCI 3610 3.00;
- six credits chosen from: SC/MATH 2560 3.00, AP/SOCI 3620 6.00, AP/SOSC 3311 6.00, AP/SOSC 3981 3.00, AP/SOSC 3993 3.00, AP/GL/WMST 3520 3.00 or AP/ADMS 3120 3.00.

For the Honours program: students must include at least six credits chosen from:

- AP/PHIL 4150 3.00, AP/PHIL 4160 3.00, AP/SOCI 4620 6.00, AP/SOSC 4042 6.00 or AP/SOSC 4315 6.00.

The Social Economy

- AP/SOSC 1341 9.00;
- one of the following: AP/GEOG 3130 3.00, AP/GEOG 3050 3.00, AP/GEOG 3051 3.00 or AP/GEOG 3800 3.00;
- an additional three credits from the following: AP/GEOG 2070 3.00, AP/GEOG 2075 3.00, AP/GEOG 2305 3.00, AP/GEOG 3051 3.00, AP/GEOG 3060 3.00, AP/GEOG 3130 3.00, AP/GEOG 3140 3.00, AP/GEOG 3600 3.00, AP/GEOG 3710 3.00, AP/GEOG 3770 3.00 or AP/GEOG 3800 3.00;
- AP/SOSC 4041 6.00.

For the Honours program: students must include at least six credits chosen from:

- AP/SOSC 3040 6.00, AP/SOSC 4042 6.00 or AP/SOCI 4200 6.00.

Business Economics

The Business Economics program integrates aspects of economics and business studies, focusing on the use of economic analysis and statistical methods to deal effectively with management problems in practical business fields. In applying economic theory to business management,

you will become familiar with the analytical and decision-making techniques used in the business world, and with the public and private institutional environments within which businesses operate. You will gain insight into critical business topics such as strategic competition, the internal organization of firms, and international issues facing businesses in the changing global marketplace. You will be able to pursue a degree in business economics at the BA level.

Prior to entering the Business Economics program, students are required to have completed Grade 12U Advanced Functions or an equivalent course.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 48 credits including the following 42 credits:

- AP/ITEC 1010 3.00;
- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- AP/ECON 3411 3.00 or AP/ECON 3810 3.00;

Six credits to be selected from:

- AP/ADMS 3351 3.00 (cross-listed to: AP/ECON 3120 3.00, SC/MATH 2751 3.00);
- AP/ADMS 3510 3.00;
- AP/ECON 3150 3.00;
- AP/ECON 3200 3.00;
- AP/ECON 3240 3.00;
- AP/ECON 3430 3.00;
- AP/ECON 3440 3.00;
- AP/ECON 3580 3.00.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Certificate in Business Fundamentals

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a Certificate in Business Fundamentals concurrent with fulfillment of the requirements for an Honours undergraduate BA degree. This certificate is open to students in all undergraduate Faculties except for students enrolled in the Schulich School of Business Bachelor of Business Administration program or the Faculty of Liberal Arts and Professional Studies Bachelor of Administrative Studies program. Students may not earn both a Certificate in Business Fundamentals and a Certificate in Non-Profit Management.

To qualify for possible admission to the Certificate in Business Fundamentals, students must complete 30 credits from a list of approved courses, and the cumulative grade point average in these 30 credits must be 5.00 (C+). There are a limited number of spaces available in the

Certificate in Business Fundamentals, and therefore meeting the minimum requirements for application will not guarantee admission to the certificate program. In order to be granted the Certificate in Business Fundamentals upon graduation, students must be qualified to graduate with an Honours BA (120 credits) and must therefore maintain an overall grade point average of 5.00 (C+) on all courses completed.

Application to the Certificate in Business Fundamentals may be made only after successfully completing at least 54 credits and the successful completion of the following requirements with a minimum overall grade point average of 5.00 (C+). Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Course requirements and application/admission requirements for the Certificate in Business Fundamentals are as follows:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- at least three credits chosen from: SC/MATH 1300 3.00 or AP/ECON 1530 3.00 (cross-listed to: SC/MATH 1530 3.00) or SC/MATH 1550 6.00;
- at least three credits chosen from: SC/MATH 2560 3.00 or AP/ECON 2500 3.00 or AP/POLS 3300 6.00 (cross-listed to: AP/PPAS 3300 6.00, AP/SOCI 3030 6.00) or HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00;
- at least six credits chosen from: AP/POLS 2910 6.00 (cross-listed to: AP/PPAS 2910 6.00) or AP/ECON 2300 3.00 or AP/ECON 2350 3.00 or AP/ECON 2400 3.00 or AP/ECON 2450 3.00 or SC/MATH 2580 6.00 or AP/PHIL 2070 3.00 or AP/PHIL 2075 3.00 or AP/SOSC 2210 9.00 or AP/SOSC 2340 9.00.

Note: students may take courses through Glendon College, subject to course credit exclusion(s) and residency requirements.

Students in an Honours BA program who have successfully completed at least 54 credits with an overall grade point average of 5.00 (C+), and who will also have successfully completed the requirements listed above by June 1 may apply to the Certificate in Business Fundamentals by March 30 of the year these requirements will be completed. The minimum acceptable overall grade point average for application and possible admission is 5.00 (C+). Since there are a limited number of spaces available, successful admission will be based primarily on the applicant's overall grade point average.

If admitted, students must successfully complete the following courses offered by the Schulich School of Business in the following sequence and over two academic sessions:

- SB/BFND 3100 3.00;
- SB/BFND 3200 3.00;
- SB/BFND 4100 3.00;
- and SB/BFND 4200 3.00.

In order to be granted the Certificate in Business Fundamentals upon graduation, students must be qualified to graduate with an Honours BA (120 credits) and must therefore maintain an overall grade point average of 5.00 (C+) on all courses completed.

Further information about the Certificate in Business Fundamentals is available from the coordinator of the Business and Society program.

Canadian Studies

Program note: with prior permission of the program coordinator, courses with Canadian content that are not listed below may be counted for major credit.

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits including:

- (i) AP/CDNS 2200 6.00.
- (ii) At least six credits from each of the three lists of courses with Canadian content provided below.
- (iii) The balance of the 54 credits must come from the three lists mentioned in (ii) with the additional Canadian studies courses also listed below.

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- (i) AP/CDNS 2200 6.00.
- (ii) At least six credits from each of the three lists of courses with Canadian content provided below.
- (iii) The balance of the 42 credits must come from the three lists mentioned in (ii) with the additional Canadian studies courses also listed below [refer to program note].

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: 30 credits including:

- (i) AP/CDNS 2200 6.00.
- (ii) At least six credits from each of the three lists of courses with Canadian content provided below.
- (iii) The balance of the 30 credits must come from the three lists mentioned in (ii) with the additional Canadian studies courses listed below [refer to program note].

Note: at least six credits in the minor must be completed at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major: 30 credits including:

- (i) AP/CDNS 2200 6.00.
- (ii) At least six credits from each of the three lists of courses with Canadian content.
- (iii) The balance of the 30 credits must come from the three lists mentioned in (ii) with the additional Canadian studies courses listed below [refer to program note].

Note: at least 12 credits in the major must be completed at the 3000 level or above.

Upper-level credits: the 90 credits above must include at least 18 credits at the 3000 level or above.

Credits outside the major: at least 18 credits.

Lists of Canadian Studies and Canadian Content Courses

Not all of the courses listed below will necessarily be offered in any given year.

Canadian Studies Courses

AP/CDNS 4100 6.00

Courses with Canadian Content

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitutes
AP/CDNS 2200 6.00	GL/CDNS 1920 6.00

Chinese

The Department of Languages, Literatures and Linguistics does not offer a degree program but does offer a certificate of proficiency, language courses in Chinese and courses on Chinese literature and culture. Refer to Chinese in the Courses of Instruction section.

Certificate of Proficiency in Chinese Language

York University students may earn a Certificate of Proficiency in Chinese Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Chinese.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed at least 12 credits in Chinese language in the Department of Languages, Literatures and Linguistics as follows:

- AP/CH 3000 6.00, with a minimum grade of B or AP/CH 3010 6.00, with a minimum grade of B;
- and six credits chosen from the following: AP/CH 2000 6.00, AP/CH 2030 6.00 or a Chinese literature course taught in Chinese.

Note: students who are exempted from an intermediate level language course must take another course taught in Chinese.

Children's Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students must achieve at least a grade of B (6.00) in AP/HUMA 1970 9.00 and AP/HUMA 2690 9.00 and AP/HUMA 3695 6.00 in order to be permitted to continue as a major in children's studies. Students must achieve at least a grade of B (6.00) in AP/HUMA 1970 9.00 and AP/HUMA 2690 9.00 in order to be permitted to continue in a minor in children's studies.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 42 credits in children's studies, including:

- AP/HUMA 1970 9.00;
- AP/HUMA 2690 9.00;

- AP/HUMA 3695 6.00;
- AP/HUMA 4142 6.00;
- 18 additional credits chosen from the children's studies list of courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Major credits: students must take the 42 required credits in children's studies as listed above and at least 36 credits in the interdisciplinary program. Courses taken to meet children's studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in children's studies and six credits in the interdisciplinary program. For further details on requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Minor credits: at least 30 credits including:

- AP/HUMA 1970 9.00;
- AP/HUMA 2690 9.00;
- at least six credits chosen from: AP/HUMA 4142 6.00, AP/HUMA 4140 6.00 or AP/HUMA 4145 6.00;
- 12 additional credits chosen from the children's studies list of courses.

Note: at least six credits in the minor must be at the 4000 level.

Children's Studies Courses

Not all of the courses listed below will necessarily be offered in any given year. For more information, please consult the relevant supplemental calendars.

With the approval of the program coordinator, students may complete other courses for credit in children's studies. Subject to course exclusion and residency requirements, students may complete courses offered outside of the Faculty of Liberal Arts and Professional Studies for credit in children's studies.

Classical Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits selected from the list of classical studies courses, including at least 24 credits in Ancient Greek (AP/GK) and/or Latin (AP/LA) and at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits, including at least 12 credits at the 4000 level, selected from the list of classical studies courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program in Classical Studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in classical studies and at least 36 credits in the interdisciplinary program. Courses taken to meet classical studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in classical studies and six credits in the interdisciplinary (Linked) program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits, including at least six credits at the 4000 level selected from the list of classical studies courses.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits selected from the list of classical studies courses, including at least 12 credits at the 3000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Classical Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in classical studies.

Classics

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits selected from the list of classics courses, of which at least 24 credits must be in Ancient Greek (AP/GK) and 24 credits in Latin (AP/LA), including at least six credits at the 4000 level in each.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in a combination of Ancient Greek (AP/GK) and Latin (AP/LA), including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA programs in Classics may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in classics and at least 36 credits in the interdisciplinary program. Courses taken to meet classics requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in classics and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits in a combination of Ancient Greek (AP/GK) or Latin (AP/LA), including at least six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits selected from offerings in the Classics program in a combination of Ancient Greek (AP/GK) and Latin (AP/LA), including at least 12 credits at the 3000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Classics Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in classics.

Recommendation – 1000-level general education courses

It is strongly recommended that students choose from the following courses to meet the 1000-level general education requirement:

- AP/SOSC 1140 9.00 or AP/SOSC 1440 9.00 and
- SC/NATS 1690 6.00 or SC/NATS 1675 6.00 or SC/NATS 1710 6.00 or SC/NATS 1730 6.00 and
- AP/HUMA 2915 9.00.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 54 credits, as follows:

- AP/LING 1000 6.00;
- HH/PSYC 1010 6.00;
- AP/COGS 3750 3.00 (cross-listed to: AP/PHIL 3750 3.00);
- AP/COGS 4750 6.00 (cross-listed to: AP/PHIL 4750 6.00) or AP/COGS 4900 6.00;
- AP/PHIL 3260 3.00;
- AP/PHIL 3265 3.00;
- HH/PSYC 3260 3.00;

Six credits chosen from the following:

- SC/CSE 1020 3.00;
- SC/CSE 1030 3.00;
- SC/CSE 2001 3.00;
- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/LING 2120 3.00;
- AP/LING 2140 3.00;
- AP/PHIL 2100 3.00;
- HH/PSYC 2020 6.00 or HH/PSYC 2021 3.00 or HH/PSYC 2030 3.00;

Nine credits chosen from the following, and including at least two different disciplines (departments):

- SC/CSE 2011 3.00;
- SC/CSE 3401 3.00;
- SC/CSE 3402 3.00;
- AP/ITEC 3230 3.00;
- AP/LING 3120 3.00;
- AP/LING 3140 3.00;
- AP/LING 3210 3.00;
- AP/LING 3220 3.00;
- HH/PSYC 2110 3.00;
- HH/PSYC 2120 3.00;
- HH/PSYC 2220 3.00;
- HH/PSYC 2240 3.00;
- HH/PSYC 3250 3.00;
- HH/PSYC 3265 3.00;
- HH/PSYC 3280 3.00 or HH/PSYC 3290 3.00;

Three credits chosen from the following:

- AP/PHIL 2160 3.00;
- AP/PHIL 2240 3.00 or AP/PHIL 3260 3.00;

Six credits chosen from the following, and including at least two different disciplines (departments):

- SC/CSE 4401 3.00;
- SC/CSE 4421 3.00;
- SC/CSE 4422 3.00;
- SC/CSE 4441 3.00;
- AP/LING 4120 3.00;

- AP/PHIL 3200 3.00;
- AP/PHIL 3635 3.00;
- AP/PHIL 4080 3.00;
- AP/PHIL 4082 3.00;
- AP/PHIL 4083 3.00;
- AP/PHIL 4084 3.00;
- AP/PHIL 4086 3.00;
- HH/PSYC 4010 6.00;
- HH/PSYC 4020 3.00;
- HH/PSYC 4020 6.00;
- HH/PSYC 4080 6.00;
- HH/PSYC 4180 3.00;
- HH/PSYC 4230 3.00;
- HH/PSYC 4260 3.00;
- HH/PSYC 4270 3.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The program described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Courses taken to meet cognitive science requirements cannot also be used to meet the requirements of the interdisciplinary program.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in cognitive science and at least 36 credits in the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Communication Arts – Joint Program With Colleges of Applied Arts and Technology

Students in the Faculty of Liberal Arts and Professional Studies may study concurrently towards an Honours BA or BA degree at York and a diploma or certificate in one of four areas of study in communication arts at Centennial or Seneca College. The following areas are available through the Community Colleges:

- book and magazine publishing (Centennial - certificate)
- corporate communications and public relations (Centennial - certificate)

- creative advertising (Seneca - diploma)
- radio and television broadcasting (Seneca - diploma)

Faculty of Liberal Arts and Professional Studies students in an Honours BA program are eligible for entry to the joint program after the successful completion of a minimum of 90 credits at York, and students in a BA program are eligible for entry after the successful completion of 60 credits at York. All students must complete the requirements for an Honours BA or BA degree in the Faculty of Liberal Arts and Professional Studies. The joint program normally takes one year longer to complete because some advanced standing credit is given by York and the college, if conditions of eligibility for advanced standing are met. For further information, contact the Office for Continuing Students, 150 Atkinson Building, 416-736-5222 or at japs@yorku.ca.

Communication Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Specialized Honours BA: 120 Credits

The Communication Studies program offers a limited enrolment Specialized Honours BA program. Admission to the program requires that students achieve a 6.00 (B) average in AP/COMN 1310 9.00 and at least six other communication studies credits, and a cumulative grade point average of at least 5.00 (C+). Continuation in, and graduation from, the program requires that students maintain a cumulative grade point average of 5.00 (C+) as well as at least a 6.00 (B) average on all 60 communication studies credits.

Because of limited space, admission is not guaranteed for all students who meet the minimum requirements. For more information regarding application information, please contact the Department of Communication Studies.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students majoring in the program must complete at least 60 credits in communication studies, as outlined below:

- AP/COMN 1310 9.00;
- 12 credits chosen from: AP/COMN 2311 6.00, AP/COMN 2312 6.00, AP/COMN 2312 9.00, AP/COMN 2313 6.00, AP/COMN 2314 6.00, AP/COMN 2314 9.00 or AP/COMN 2319 9.00;
- AP/SOSC 3320 6.00;
- AP/SOSC 3991 6.00;
- six additional credits at the 3000 level from category B;
- AP/COMN 4810 6.00;
- six additional credits at the 4000 level from category C;
- 12 additional credits from category D.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students majoring in the program must complete at least 48 credits in communication studies, as outlined below:

- AP/COMN 1310 9.00;
- 12 credits chosen from: AP/COMN 2311 6.00, AP/COMN 2312 6.00, AP/COMN 2312 9.00, AP/COMN 2313 6.00, AP/COMN 2314 6.00, AP/COMN 2314 9.00 or AP/COMN 2319 9.00;
- six additional credits at the 3000 level from category B;
- 12 additional credits at the 4000 level from category C;
- 12 additional credits from category D.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students majoring in the program must complete at least 48 credits in communication studies, as outlined below:

- AP/COMN 1310 9.00;
- 12 credits chosen from: AP/COMN 2311 6.00, AP/COMN 2312 6.00, AP/COMN 2312 9.00, AP/COMN 2313 6.00, AP/COMN 2314 6.00, AP/COMN 2314 9.00 or AP/COMN 2319 9.00;
- six additional credits at the 3000 level from category B;
- 12 additional credits at the 4000 level from category C;
- 12 additional credits from category D.

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement.*)

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any Honours Double Major BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Communication Studies Courses

Courses in the Communication Studies program are organized into four categories as described below. Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in communication studies.

Category A (Core Courses)

AP/COMN 1310 9.00 (cross-listed to: AP/SOSC 1310 9.00)
 AP/COMN 2311 6.00
 AP/COMN 2312 6.00
 AP/COMN 2312 9.00 (cross-listed to: AP/SOSC 2312 9.00)
 AP/COMN 2313 6.00
 AP/COMN 2314 6.00
 AP/COMN 2314 9.00 (cross-listed to: AP/SOSC 2314 9.00)
 AP/COMN 2319 9.00 (cross-listed to: AP/SOSC 2319 9.00)

Category B

AP/ANTH 3350 6.00
 AP/COMN 3310 6.00
 AP/COMN 3311 6.00
 AP/COMN 3313 3.00

Creative Writing

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

The Creative Writing program is an Honours program. Students who wish to apply for admission to the Creative Writing program are strongly advised to take one of the following courses among their first 30 University credits:

- AP/EN 2000 6.00;
- AP/EN 1700 9.00 (cross-listed to: AP/HUMA 1980 9.00);
- AP/HUMA 1100 9.00;
- AP/HUMA 1105 9.00.

Note: a maximum of six credits from the courses listed above will count for creative writing major or minor credit.

Students must successfully complete AP/EN 2600 6.00 or its equivalent before applying for admission to the Creative Writing program as a major or minor. Students taking AP/EN 2600 6.00 who wish to obtain full admission to the program as a major or minor should submit a 15-20 page portfolio of poetry and prose fiction following completion of AP/EN 2600 6.00. Students may also apply for full admission after their first 48 credits and before completion of their first 78 credits by presenting a portfolio containing work in both poetry and prose fiction as evidence of writing experience equivalent to that provided by AP/EN 2600 6.00. In either case, applicants must also fill out a Creative Writing program application form. Acceptance of the portfolio by the Creative Writing Committee constitutes full admission to the Honours Major or Honours Minor program.

It is strongly recommended that students in the Honours BA program combine creative writing with another major (excluding professional writing) or minor. Students admitted to the Honours Major or Honours Minor program should attend the advising session provided by the Creative Writing program, which is normally held in the spring. Please consult the program office for more information.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits in creative writing, including:

- AP/EN 2600 6.00;
- 18 workshop credits chosen from AP/EN 3610 6.00, AP/EN 3620 6.00, AP/EN 4610 6.00, AP/EN 4620 6.00, FA/FILM 2120 6.00, FA/FILM 3120 6.00, FA/FILM 4120 6.00, FA/THEA 3290 6.00 or FA/THEA 4290 6.00, including at least six credits at the 4000 level;
- 24 additional credits chosen from the creative writing list of courses, including at least 18 credits at the 3000 or 4000 level and a maximum of six creative writing workshop credits.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Note: AP/EN 3600 6.00 and AP/EN 4600 6.00 will not fulfill the Honours Major workshop requirements and will not count for major credit in creative writing.

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program in Creative Writing may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 48 credits in creative writing and at least 36 credits in the interdisciplinary program. Courses taken to meet creative writing requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in creative writing and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

The 48 credits in creative writing must include:

- AP/EN 2600 6.00;
- 18 workshop credits chosen from AP/EN 3610 6.00, AP/EN 3620 6.00, AP/EN 4610 6.00, AP/EN 4620 6.00, FA/FILM 2120 6.00, FA/FILM 3120 6.00, FA/FILM 4120 6.00, FA/THEA 3290 6.00 or FA/THEA 4290 6.00, including at least six credits at the 4000 level;
- 24 additional credits chosen from the creative writing list of courses, including at least 18 credits at the 3000 or 4000 level and a maximum of six creative writing workshop credits.

Notes:

1. *At least 12 credits in the major must be at the 4000 level.*
2. *AP/EN 3600 6.00 and AP/EN 4600 6.00 will not fulfill the Honours Major workshop requirements and will not count for major credit in creative writing.*

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students must take at least 30 credits in creative writing, including:

- AP/EN 2600 6.00;
- AP/EN 3600 6.00;
- AP/EN 4600 6.00;
- 12 non-workshop credits chosen from the creative writing list of courses, including at least six credits at the 3000 or 4000 level.

Notes:

1. At least six credits in the minor must be at the 4000 level.
2. With permission of the program director, students in the Honours Minor program may complete an Honours Major workshop course in place of AP/EN 3600 6.00 and AP/EN 4600 6.00. Enrolment in Honours Major workshop courses is conditional upon acceptance of a 15-20 portfolio of work in the appropriate genre; acceptance of this portfolio does not guarantee admission to the course as priority is given to creative writing majors.

Creative Writing Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in creative writing.

Workshop Course

Criminology

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students must achieve **at least a grade of B (6.00) in AP/CRIM 1650 9.00** in order to be permitted to continue as a major in criminology, or to pursue additional criminology courses at the 2000, 3000 and 4000 levels. Under exceptional circumstances, non-majors who have not obtained at least a grade of B (6.00) in AP/CRIM 1650 9.00 may apply for special consideration to enrol in a criminology course for which AP/CRIM 1650 9.00 is a prerequisite. This application should be made to the coordinator of the Criminology program.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 54 credits in criminology, including:

- AP/CRIM 1650 9.00 (with a minimum grade of B);
- AP/SOCI 2030 6.00;
- AP/CRIM 2650 6.00;
- AP/CRIM 2652 6.00 (cross-listed to: AP/SOSC 2652 6.00);
- AP/CRIM 3654 6.00 (cross-listed to: AP/SOSC 3654 6.00);
- AP/CRIM 3655 3.00 (cross-listed to: AP/SOSC 3655 3.00);
- AP/CRIM 3656 3.00 (cross-listed to: AP/SOSC 3656 3.00);
- AP/CRIM 4650 6.00;
- 12 additional credits chosen from the list of criminology courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Courses taken to meet the criminology requirements cannot also be used to meet the requirements of the other Honours bachelor's degree program.

Major credits: students must complete at least 48 credits in criminology, including:

- AP/CRIM 1650 9.00 (with a minimum grade of B);
- AP/SOCI 2030 6.00;
- AP/CRIM 2650 6.00;
- AP/CRIM 2652 6.00 (cross-listed to: AP/SOSC 2652 6.00);
- AP/CRIM 3654 6.00 (cross-listed to: AP/SOSC 3654 6.00);
- AP/CRIM 3655 3.00 (cross-listed to: AP/SOSC 3655 3.00);
- AP/CRIM 3656 3.00 (cross-listed to: AP/SOSC 3656 3.00);
- AP/CRIM 4650 6.00;
- six additional credits at the 4000 level chosen from the list of criminology courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who are completing a double major are deemed to have fulfilled this requirement.

Honours Double Major Interdisciplinary (Linked) BA

Criminology may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in criminology and at least 36 credits in the interdisciplinary program. Courses taken to meet the criminology requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in criminology and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 42 credits in criminology must include the following:

- AP/CRIM 1650 9.00 (with a minimum grade of B);
- AP/SOCI 2030 6.00;
- AP/CRIM 2650 6.00;
- AP/CRIM 2652 6.00 (cross-listed to: AP/SOSC 2652 6.00);
- AP/CRIM 3654 6.00 (cross-listed to: AP/SOSC 3654 6.00);
- AP/CRIM 3655 3.00 (cross-listed to: AP/SOSC 3655 3.00);
- AP/CRIM 3656 3.00 (cross-listed to: AP/SOSC 3656 3.00);
- AP/CRIM 4650 6.00.

Honours Major/Minor BA

The Honours BA program may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Major credits: students must complete at least 48 credits in criminology, including:

- AP/CRIM 1650 9.00 (with a minimum grade of B);
- AP/SOCI 2030 6.00;
- AP/CRIM 2650 6.00;
- AP/CRIM 2652 6.00 (cross-listed to: AP/SOSC 2652 6.00);
- AP/CRIM 3654 6.00 (cross-listed to: AP/SOSC 3654 6.00);
- AP/CRIM 3655 3.00 (cross-listed to: AP/SOSC 3655 3.00);
- AP/CRIM 3656 3.00 (cross-listed to: AP/SOSC 3656 3.00);
- AP/CRIM 4650 6.00;
- six additional credits at the 4000 level chosen from the list of criminology courses.

Notes:

1. At least 12 credits in the major must be at the 4000 level.
2. AP/SOCI 3810 6.00 will not count for criminology major credit.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting criminology program requirements:

Program Course	Course Substitutes
AP/CRIM 2651 3.00 (cross-listed to: AP/SOSC 2651 3.00)	AP/CRIM 3655 3.00 (cross-listed to: AP/SOSC 3655 3.00)
AP/CRIM 3652 3.00 (cross-listed to: AP/SOCI 3652 3.00)	AP/CRIM 3656 3.00 (cross-listed to: AP/SOSC 3656 3.00)

Criminology Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in criminology.

Culture and Expression

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits including:

- 12 core credits including AP/CLTR 2100 6.00 and AP/CLTR 3100 6.00;
- students are expected to complete at least six credits from each of the four groups. The remaining credits may be taken from the list of program courses or from Faculty of Fine Arts course offerings by permission of the program coordinator.

Note: at least 12 credits must be at the 4000 level within the major.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- 12 core credits including AP/CLTR 2100 6.00 and AP/CLTR 3100 6.00;
- students are expected to complete six credits from Group A and six credits from two of the remaining three groups. The remaining credits may be taken from the list of program courses or from Faculty of Fine Arts course offerings by permission of the program coordinator.

Note: at least 12 credits must be at the 4000 level within the major.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and

Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: a minimum of 30 credits including:

- 12 core credits including AP/CLTR 2100 6.00 (cross-listed to: AP/HUMA 2002 6.00) and AP/CLTR 3100 6.00 (cross-listed to: AP/HUMA 3201 6.00);
- the remaining 18 credits will be chosen from a list of program courses including at least six credits at the 4000 level. Students are expected to complete six credits from Group A and six credits from two of the remaining three groups.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 30 credits including:

- 12 core credits: AP/CLTR 2100 6.00 (cross-listed to: AP/HUMA 2002 6.00) and AP/CLTR 3100 6.00 (cross-listed to: AP/HUMA 3201 6.00);
- the remaining 18 credits will be chosen from a list of program courses including at least 12 credits in the major at a 3000 level or above. Students are expected to complete six credits from Group A and six credits from two of the remaining three groups.

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: the 90 credits above must include at least 18 credits at the 3000 level or above.

Credits outside the major: at least 18 credits.

List of Program Courses

Not all of the courses listed below will necessarily be offered in any given year.

Group A: Culture

AP/CLTR 2210 6.00 (cross-listed to: AP/HUMA 2210 6.00)

East Asian Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

The East Asian Studies program offers a number of undergraduate degree programs, the requirements for which are described in detail in the following sections. These degree programs have certain characteristics in common:

1. The focus of the degree programs is on the modern period. However, it is emphasized that students should also learn to appreciate the cultural traditions behind developments during the 19th and 20th centuries.
2. East Asian studies is an interdisciplinary program. Students are trained to use the concepts, skills and information of at least two academic disciplines.
3. Competence in an East Asian language (usually Chinese or Japanese or Korean) is a feature of all the degree programs except the Honours Minor.

Within the general guidelines and requirements, a student could choose from a rich array of course offerings every year to create a combination which best serves their academic interests and career aspirations. Students should consult the coordinator when designing their programs of study.

Program Distribution Requirements

1. A student must complete courses in East Asian studies from at least two departments or divisions.

2. A student must complete at least one course which is concerned mainly with pre-modern East Asia.
3. Students concentrate in either Chinese or Japanese or Korean studies, but must also study other East Asian cultures outside their area of concentration:
 - a) a student who concentrates in Chinese studies must complete at least 12 credits in non-Chinese subjects within East Asian studies;
 - b) a student who concentrates in Japanese studies must complete at least 12 credits in non-Japanese subjects within East Asian studies;
 - c) a student who concentrates in Korean studies must complete at least 12 credits in non-Korean subjects within East Asian studies;
 - d) language/translation courses will not meet program distribution requirements.
4. All students must complete at least one of the following core courses: AP/HUMA 1400 9.00 or AP/HIST 2710 6.00. Also, students must complete AP/CH 2000 3.00, AP/JP 2000 3.00 or AP/KOR 2000 3.00 (this requirement may also be met by passing a competency test, or by successful completion of another course recognized for the purpose).

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in from the East Asian studies list of courses, including:

- at least one core course (AP/HUMA 1400 9.00 or AP/HIST 2710 6.00);
- at least 12 credits (other than language/translation courses) at the 4000 level. Demonstrated competence in an East Asian language (usually Chinese, Japanese or Korean) at the advanced level is required. This requirement would normally be met by successful completion of AP/CH 3000 6.00 or AP/JP 3000 6.00 or AP/KOR 3000 6.00. It may also be met by passing a competency test or by successful completion of another course recognized for the purpose.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits from the East Asian studies list of courses, including:

- at least one core course (AP/HUMA 1400 9.00 or AP/HIST 2710 6.00);

- at least 12 credits (other than language/translation courses) at the 4000 level. Demonstrated competence in an East Asian language (usually Chinese, Japanese or Korean) at the intermediate level is required. This requirement will normally be met by successful completion of AP/CH 2000 6.00 or AP/JP 2000 6.00 or AP/KOR 2000 6.00. It may also be met by passing a competency test or by successful completion of another course recognized for the purpose.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

East Asian studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Major credits: students must take at least 36 credits from the East Asian studies list of courses and at least 36 credits in the interdisciplinary program. Courses taken to meet East Asian studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits from the East Asian studies list of courses and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in East Asian studies comprises at least 30 credits from the East Asian studies list of courses (other than language/translation courses), including:

- at least one core course (AP/HUMA 1400 9.00 or AP/HIST 2710 6.00);
- six credits at the 4000 level;
- 18 of the 30 credits must be above the 2000 level.

Note: at least six credits in the minor must be at the 4000 level.

East Asian Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in East Asian studies.

Economics

Prior to entering the Economics program, students are required to have completed Grade 12U Advanced Functions or an equivalent course.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 60 credits in economics including:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00;
- AP/ECON 3500 3.00;
- AP/ECON 3530 3.00;
- AP/ECON 4010 3.00;
- AP/ECON 4020 3.00;
- AP/ECON 4210 3.00;
- 15 additional credits, including at least three credits at the 4000 level and at least six credits in writing courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits in economics including:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- 18 additional credits, including at least 12 credits at the 4000 level and six credits in writing courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with any other Honours bachelor's degree program in the Faculties of Environmental Studies or Fine Arts, or with approved major degree programs in the Faculties of Health or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Economics may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Courses taken to meet economics requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in economics and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 42 credits in economics including:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- 12 additional credits, including at least six credits at the 4000 level.

Note: at least 12 credits in the major must be at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies or Fine Arts, or with approved minor degree programs in the Faculties of Health or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor must be pursued jointly with an Honours Major/Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Minor credits: students must complete at least 39 credits in economics including:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- nine additional credits, including six credits at the 4000 level.

Note: at least six credits in the minor at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 39 credits in economics including:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- nine additional credits at the 3000 or 4000 level.

Note: at least 12 credits in the major at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting the economics program requirements.

Program Course	Course Substitutes
AP/ECON 1000 3.00	GL/ECON 2500 3.00
AP/ECON 1010 3.00	GL/ECON 2510 3.00
AP/ECON 1530 3.00	SC/MATH 1530 3.00, SC/MATH 1300 3.00, SC/MATH 1550 6.00, GL/MATH 1930 3.00 (cross-listed to: GL/MODR 1930 3.00)
AP/ECON 1540 3.00	SC/MATH 1540 3.00, SC/MATH 1550 6.00

Professional Certificate in Emergency Management

School of Administrative Studies

Contact: N. Nirupama

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 24 credits including:

a) Core requirements: 15 credits

- AP/ADMS 3700 3.00;
- AP/ADMS 3701 3.00;

- AP/ADMS 3702 3.00;
- AP/ADMS 3703 3.00;
- AP/ADMS 3704 3.00.

b) Credits outside the major: nine credits chosen from:

- AP/ADMS 3353 3.00;
- AP/ADMS 3705 3.00;
- AP/ADMS 4709 3.00;
- SC/EATS 1410 6.00;
- ES/ENVS 3450 3.00;
- ES/ENVS 4440 3.00;
- AP/POLS 3195 3.00 (cross-listed to: AP/HREQ 3140 3.00).

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

English

All students majoring or minoring in English must take both AP/EN 1001 3.00 and AP/EN 1002 3.00 and achieve a minimum grade of C in each course before they will be permitted to continue in English. Furthermore, students must successfully complete AP/EN 1001 3.00—that is, with a minimum grade of C—before they may take AP/EN 1002 3.00. Students may only count six credits from a 1000-level English course towards their major or minor program. Students may not count credits from the 2300 series of AP/EN courses (the Popular Genres series) for major or minor credit in English.

For a complete list of courses and detailed reading lists, refer to the department's supplemental calendar.

Students intending to proceed to graduate school should take a broad range of courses, should avoid concentration in a particular period or genre, and, in consultation with a member of the English Department, should plan a degree program with the understanding that certain traditional subjects may be regarded as essential by some graduate schools.

Students intending to teach in Ontario schools must meet the varied requirements of various Faculties of Education and are advised to construct a balanced degree program by doing at least some work in each major period in literary history; such students should consult specific Faculties of Education about their regulations.

Students are responsible for planning their course of study and for ensuring that all degree and major requirements are met. Members of the department will be available during the summer months, as well as during the term, to advise those students who have questions about their program or about English studies in general. Enquiries may be made through the Undergraduate Office, 208 Stong College, 416-736-5166.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 60 credits in English, including:

- AP/EN 1001 3.00 and AP/EN 1002 3.00;
- 18 credits from 2000-level courses, including six credits in each of categories A, B and C;
- 12 credits from 3000-level courses;
- 12 credits from 4000-level courses;
- 12 additional credits: six from 2000- or 3000-level courses and six from 3000- or 4000-level courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 48 credits in English, including:

- AP/EN 1001 3.00 and AP/EN 1002 3.00;
- 18 credits from 2000-level courses, including six credits in each of categories A, B and C;
- 12 credits from 3000-level courses;
- 12 credits from 4000-level courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with any other Honours bachelor's degree program in the Faculties of Environmental Studies, Fine Arts, Liberal Arts and Professional Studies or with approved major degree programs in the Faculties of Health or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

English may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in English and at least 36 credits in the interdisciplinary program. Courses taken to meet English requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level including at least 12 credits in English and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 42 credits in English must include:

- AP/EN 1001 3.00 and AP/EN 1002 3.00;
- 12 credits from 2000-level courses, including six credits from Category C and six credits from Category A and/or B;
- 12 credits from 3000-level courses;
- 12 credits from 4000-level courses;
- at least 12 credits in the major at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies, Fine Arts, Liberal Arts and Professional Studies or with approved minor degree programs in the Faculties of Health or Science

and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Students must complete at least 48 credits in the major in conformity with the requirements of the program major, including at least 12 credits at the 4000 level and at least 30 credits in the minor in conformity with the requirements of the program minor, including at least six credits at the 4000 level.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Minor credits: Students must take at least 30 credits in English, including:

- AP/EN 1001 3.00 and AP/EN 1002 3.00;
- 12 credits from 2000-level courses, including six credits from Category C and six credits from Category A and/or B;
- six credits from 3000-level courses;
- six credits from 4000-level courses;
- at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must take at least 30 credits in English, including:

- AP/EN 1001 3.00 and AP/EN 1002 3.00;
- 12 credits from 2000-level courses, including six credits from Category C and six credits from Category A and/or B;
- 12 credits from 3000-level courses;
- at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Categories

All English courses (above the 1000 level) are placed in various categories depending on year level. The categories are listed below. Not all courses are offered every year and additional courses may be added.

2000 Level

Category A: Approaches, Theories and Methods

AP/EN 2000 6.00
AP/EN 2001 3.00
AP/EN 2002 3.00
AP/EN 2010 6.00
AP/EN 2011 3.00
AP/EN 2012 3.00
AP/EN 2020 3.00

Category B: Genres and Modes

English and Professional Writing

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Students may complete a maximum of six credits from the 2300-series of AP/EN courses (the Popular Genres series) for major credit in English and professional writing.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 78 credits in English and professional writing, including:

Program Core Courses

- AP/EN 1001 3.00;
- AP/EN 1002 3.00;
- AP/EN 1007 3.00;
- AP/EN 1700 9.00 (cross-listed to: AP/HUMA 1980 9.00, AP/WRIT 1980 9.00);
- AP/EN 2710 3.00;
- AP/EN 2720 6.00;
- AP/PRWR 2300 3.00 (cross-listed to: AP/WRIT 2300 3.00);
- six additional credits in 2000-level English courses;
- six credits in 3000-level English courses;
- 12 credits in 4000-level English courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

English Course Requirements

Students must conform to the English Department guidelines for choosing courses at each year level. Please refer to the English Department guidelines for this information.

Please also note that students must achieve a mark of 60 per cent (C) or better in both AP/EN 1001 3.00 and AP/EN 1002 3.00 to continue in the program. This is a programmatic requirement for all English degrees.

Stream Requirements

Students must choose one of the following professional writing streams in consultation with the program coordinator.

Book Stream

- AP/EN 3720 6.00
- AP/EN 3730 3.00
- AP/EN 4720 6.00
- AP/EN 4721 6.00
- AP/PRWR 3720 3.00
- AP/PRWR 3910 3.00

Institutional Communications Stream

- AP/EN 3710 6.00
- AP/EN 4710 3.00
- AP/EN 4711 3.00
- AP/PRWR 3720 3.00
- AP/PRWR 3810 3.00
- AP/PRWR 3820 3.00
- AP/PRWR 4800 3.00
- AP/PRWR 4801 3.00

Periodical Stream

- AP/EN 3700 6.00 or AP/EN 3180 6.00
- AP/EN 3730 3.00
- AP/EN 4700 6.00
- AP/EN 4701 3.00 and AP/EN 4750 3.00 or AP/EN 4752 3.00
- AP/PRWR 3710 3.00
- AP/PRWR 3720 3.00

Out-of-Faculty Courses

Subject to course exclusions, program requirements/restrictions and residency requirements, out-of-Faculty courses may normally count for program credit toward a Faculty of Liberal Arts and Professional Studies degree.

The following out-of-Faculty courses will not count for program credit toward a Faculty of Liberal Arts and Professional Studies degree in English and professional writing:

- GL/EN 2585 3.00
- GL/EN 2605 6.00
- GL/EN 3240 6.00
- GL/EN 3606 3.00
- GL/EN 3608 6.00
- GL/EN 3609 3.00

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting English and Professional Writing program requirements:

Program Course	Course Substitutes
AP/EN 3700 6.00	AP/EN 3180 6.00
AP/PRWR 2300 3.00 (cross-listed to: AP/WRIT 2300 3.00)	AP/WRIT 3988 3.00

English as a Second Language

The Department of Languages, Literatures and Linguistics offers courses in English as a Second Language. Refer to English as a Second Language in the Courses of Instruction section. The Department of Languages, Literatures and Linguistics also offers a certificate in teaching English to speakers of other languages. Refer to the Certificate in Teaching English to Speakers of Other Languages (TESOL) section.

European Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours Double Major Interdisciplinary (Linked) BA

The European Studies program is an Honours Double Major Interdisciplinary BA program. European studies majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health. Students must take at least 36 credits in the European Studies program and at least 36 credits in the co-major according to the requirements and regulations specified by each department/discipline for an Honours Double Major Interdisciplinary BA program. Courses taken to meet European studies requirements cannot also be used to meet the requirements of the departmental/divisional major. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in European studies and six credits in the departmental/divisional major. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 36 credits from the European studies list, all distinct from the courses in their other major. The European studies courses must include the following:

- AP/HUMA 2195 9.00;
- 30 credits, including six credits at the 4000 level, to be chosen from the list of European studies courses selected in consultation with the program coordinator.

Students must also satisfy a language requirement. They may do so by completing six credits in a European language (other than English) or by passing an approved competency test in a European language (other than English).

Notes:

1. *At least six credits in the major at the 4000 level.*
2. *A maximum of 12 credits in language courses will be counted towards the European studies major.*

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties. Courses taken to meet European studies requirements cannot also be used to meet the requirements of the major program.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in European studies comprises at least 30 credits including the following:

- AP/HUMA 2195 9.00;
- 24 credits, including six credits at the 4000 level, to be chosen from the list of European Studies program courses selected in consultation with the program coordinator.

Students must also satisfy a language requirement. They may do so by completing six credits in a European language (other than English) or by passing an approved competency test in a European language (other than English).

Notes:

1. *At least six credits in the minor must be at the 4000 level.*
2. *A maximum of 12 credits in language courses will be counted towards the European studies minor.*

Honours Double Major Interdisciplinary (Linked) iBA

The European Studies program is an Honours Double Major Interdisciplinary BA program. European studies majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies or with kinesiology and health science or psychology in the Faculty of Health.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 36 credits in European studies. 18 credits must be at the 3000 or 4000 level, including six credits at the 4000 level to be chosen from the list of European studies courses selected in consultation with the program coordinator.

In addition to the courses required for their major, students in the Honours Double Major iBA program must successfully complete the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who are completing a double major are deemed to have fulfilled this requirement.

For more detailed information regarding the Honours Double Major iBA program requirements, please consult the Faculty of Liberal Arts and Professional Studies, Degree Requirements section of the Undergraduate Calendar.

Streams

In areas where curricular resources suffice, such as France, Germany, Greece, Italy, Portugal, Spain or Russia, students in European studies may focus on a national or regional stream. Subject to the approval of the program coordinator, students who successfully complete at least 18 credits within such a stream will qualify to have this curricular focus noted on their transcript. Thus, a student might graduate within political science and European studies (focus: Greece) or Italian studies and European studies (focus: Italy), or history and European studies (focus: Spain).

Students who choose not to focus on a particular stream would graduate with a degree in the relevant major and a major or a minor in European studies.

Study Abroad

Students in European studies are strongly encouraged, although not required, to spend at least one academic term studying at a European university. The level of language facility generally required is equivalent to completion of at least the intermediate level and students are encouraged to achieve such a level. Subject to the coordinator's approval, as well as letter of permission, study abroad, transfer credit and residency requirements, courses successfully completed on such exchanges will be accepted for credit towards the major/minor and, if applicable, towards the stream in European studies.

European Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in European studies.

All courses offered in the Department of French Studies (AP/FR) may count for major or minor credit in European studies.

All courses offered in the Department of Languages, Literatures and Linguistics from the following sections may count for major or minor credit in European studies: German (AP/GER), Modern Greek (AP/GKM), Italian (AP/IT), Portuguese (AP/POR), Russian (AP/RU) and Spanish (AP/SP).

Note: for courses offered in the Department of French Studies and the Department of Languages, Literatures and Linguistics, please consult the European studies supplemental calendar (or Web site) to determine which courses count as language courses. For courses offered by Glendon College that may be appropriate for this program, consult with a program adviser or the coordinator.

Financial and Business Economics

The Financial and Business Economics program combines a rigorous quantitative and analytical approach with practical application designed for students who are particularly interested in pursuing careers in the financial sector and/or graduate education in financial economics. The program is highly structured and provides a broad understanding of the economic framework upon which financial theory is based. Through a blend of economic theory and applied tools of modern finance, you will develop a solid knowledge of the microeconomic principles underlying financial markets and instruments, the macroeconomic role of finance, and the quantitative tools commonly used for analyzing financial markets. You will be able to pursue a degree in financial and business economics at the Specialized Honours BA level.

Prior to entering the Financial and Business Economics program, students are required to have completed Grade 12U Advanced Functions or an equivalent course.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 78 credits including the following 60 credits:

- AP/ITEC 1010 3.00;
- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/ECON 1530 3.00;
- AP/ECON 1540 3.00;
- AP/ECON 2300 3.00;
- AP/ECON 2350 3.00;
- AP/ECON 2400 3.00;
- AP/ECON 2450 3.00;
- AP/ECON 2500 3.00;
- AP/ECON 3210 3.00 or AP/ECON 3480 3.00;
- AP/ECON 3430 3.00;
- AP/ECON 3440 3.00;
- AP/ECON 3580 3.00;
- AP/ECON 4140 3.00;
- AP/ECON 4400 3.00;
- AP/ECON 4410 3.00;
- SC/MATH 1581 3.00;

18 credits to be selected from the list below including:

- at least nine credits at the 4000 level;
- at least nine credits from economics;
- at least three of the economics credits at the 4000 level.

 AP/ECON 4750 3.00

Note: many of the ADMS courses listed above have prerequisites and students are advised to consult the Undergraduate Calendar and/or unit in planning their course selections.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

French Studies

The Department of French Studies offers courses in three curricular areas: language, linguistics and literature.

The language sequence is a required series of language-skills courses which prepare the student for further study in the areas of linguistics and literature. AP/FR 1080 6.00 is a prerequisite to all other 2000-level courses in the department. Students who have successfully completed AP/FR 1030 6.00 or its equivalent will be eligible to take AP/FR 1080 6.00. Students enrolling in a Faculty of Liberal Arts and Professional Studies French course for the first time must complete a French language questionnaire prior to enrolment. Failure to do so will result in denial of access to the course and/or de-enrolment from the course.

In order to proceed to any French studies course offered at a higher level, students must obtain a minimum grade of C in each course taken within the language sequence. Students majoring or minoring in French studies must take all levels of the language sequence courses unless they are exempted from one or more levels on the recommendation of the department.

To this core of language-skills courses, majors will add further courses in French linguistics and in French literature. Students are advised that their choice of courses is also governed by departmental regulations specifying the numbers and levels of courses taken to satisfy the various program requirements. Students are encouraged to meet with the undergraduate program director.

The Department of French Studies offers the following French language courses for non-majors/minors: AP/FR 1020 6.00, AP/FR 1030 6.00, AP/FR 1060 6.00, AP/FR 2060 3.00, AP/FR 2061 3.00 and AP/FR 3060 3.00.

Students may take one academic session (which cannot be their graduating year) at a francophone university. In the case of students entering this program after the completion of 24 credits, a grade of B+ in AP/FR 1080 6.00 is the minimum requirement. For students entering the program after the successful completion of 48 credits, a grade of B+ in AP/FR 2081 3.00 or AP/FR 2082 3.00 is the minimum requirement. A minimum grade of B in either AP/FR 2100 6.00 or AP/FR 2200 6.00 is also required. In all cases, the student must have a sessional average of 6.00 (B) or above. Detailed information concerning this extra-mural year is available from the Department of French Studies or York International.

For graduate programs in French Literature, several periods of French literature may be required. For graduate programs in French Linguistics, for certain French teaching programs (BEEd, MEd, M.A.T.), or for schools of translation and interpretation, an undergraduate concentration in French linguistics may be favoured. Degree students may take more than the minimum number of required courses at any level.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 60 credits in French studies, including:

- AP/FR 1080 6.00;
- at least nine credits chosen from: AP/FR 2081 3.00, AP/FR 2082 3.00, AP/FR 3080 6.00, AP/FR 3081 3.00 or AP/FR 3082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- 33 additional credits, including at least six credits at the 3000 level and at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take a minimum of 48 credits in French studies including:

- AP/FR 1080 6.00;
- at least nine credits chosen from: AP/FR 2081 3.00, AP/FR 2082 3.00, AP/FR 3080 6.00, AP/FR 3081 3.00 or AP/FR 3082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- 21 additional credits, including at least six credits at the 3000 level and at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Students will take a minimum of 45 credits in French studies, including:

- AP/FR 1080 6.00;
- at least nine credits chosen from: AP/FR 2081 3.00, AP/FR 2082 3.00, AP/FR 3080 6.00, AP/FR 3081 3.00 or AP/FR 3082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;

- 18 additional credits, including at least six credits at the 3000 level and at least 12 credits at the 4000 level.

Honours Double Major Interdisciplinary (Linked) BA

French studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 45 credits in French studies and at least 36 credits in the interdisciplinary program. Courses taken to meet French studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in French studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 45 credits in French studies must include the following:

- AP/FR 1080 6.00;
- at least nine credits chosen from: AP/FR 2081 3.00, AP/FR 2082 3.00, AP/FR 3080 6.00, AP/FR 3081 3.00 or AP/FR 3082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- 18 additional credits, including at least six credits at the 3000 level and at least 12 credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in French studies comprises at least 36 credits in French studies, including:

- AP/FR 1080 6.00;
- AP/FR 2081 3.00 or AP/FR 2082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- 15 additional credits, including at least six credits at the 3000 level and at least six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 36 credits in French studies, including:

- AP/FR 1080 6.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- at least nine credits chosen from: AP/FR 2081 3.00, AP/FR 2082 3.00, AP/FR 3080 6.00, AP/FR 3081 3.00 or AP/FR 3082 3.00;
- nine additional credits at the 3000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will complete one of the following program options in consultation with the program coordinator.

Option A

Students will take a minimum of 45 credits in French studies including:

- AP/FR 1080 6.00;
- AP/FR 2081 3.00;
- AP/FR 2082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- AP/FR 3080 6.00 or AP/FR 3081 3.00 and AP/FR 3082 3.00;
- 15 additional credits, including at least three credits at the 3000 level and at least 12 credits at the 4000 level.

Option B

Students will take a minimum of 45 credits in French studies including:

- AP/FR 2081 3.00;
- AP/FR 2082 3.00;
- AP/FR 2100 6.00;
- AP/FR 2200 6.00;
- AP/FR 3080 6.00 or AP/FR 3081 3.00 and AP/FR 3082 3.00;
- AP/FR 4090 6.00;
- 15 additional credits, including at least three credits at the 3000 level and at least 12 credits at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a double major or major/minor are deemed to have fulfilled this requirement.)

Honours Major/Minor iBA

The Honours iBA program in French Studies described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting French Studies program requirements:

Program Course	Course Substitute(s)
AP/FR 1020 6.00	GL/FRLS 0400 6.00
AP/FR 1030 6.00	GL/FRLS 1500 6.00

Certificate of Basic French Language Proficiency for Business

York University students may earn a Certificate of Basic French Language Proficiency for Business concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 1030 6.00, with a minimum grade of B;
- AP/FR 1060 6.00, with a minimum grade of B.

Certificate of Intermediate French Language Proficiency for Business

York University students may earn a Certificate of Intermediate French Language Proficiency for Business concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 1060 6.00, with a minimum grade of B;
- Six credits chosen from:
- AP/FR 2060 3.00;
 - AP/FR 2061 3.00;
 - AP/FR 3060 3.00, with a minimum grade of B in each course.

Certificate of Advanced French Language Proficiency for Business

York University students may earn a Certificate of Advanced French Language Proficiency for Business concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 2060 3.00;
- AP/FR 2061 3.00;
- AP/FR 3060 3.00, with a minimum grade of B in each course;

and

- three credits in **any subject**, in French, taken while on exchange with a grade of pass or
- a 3000-level language course taken within the Department of French Studies with a minimum grade of B.

Certificate of Basic French Language Proficiency

York University students may earn a Certificate of Basic French Language Proficiency concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 1030 6.00, with a minimum grade of B;
- AP/FR 1080 6.00, with a minimum grade of B.

Certificate of Intermediate French Language Proficiency

York University students may earn a Certificate of Intermediate French Language Proficiency concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 1080 6.00, with a minimum grade of B;

Six credits chosen from:

- AP/FR 2081 3.00;
- AP/FR 2082 3.00;
- AP/FR 3081 3.00;
- AP/FR 3082 3.00, with a minimum grade of B in each course.

Certificate of Advanced French Language Proficiency

York University students may earn a Certificate of Advanced French Language Proficiency concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in French studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To apply for the certificate, students must have successfully completed 12 credits in French studies as follows:

- AP/FR 2081 3.00 and AP/FR 2082 3.00, with a minimum grade of B;
- AP/FR 3080 6.00 or AP/FR 3081 3.00 and AP/FR 3082 3.00, with a minimum grade of B.

Note: students exempted from AP/FR 2081 3.00 and/or AP/FR 2082 3.00 must replace these credits with AP/FR 4090 6.00.

Geography

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 60 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- three credits chosen from: AP/GEOG 2350 3.00, AP/GEOG 3180 3.00, AP/GEOG 3440 3.00 or AP/GEOG 3740 3.00;
- AP/GEOG 4540 3.00 or AP/GEOG 4520 3.00;
- at least 12 additional credits at the 4000 level;
- at least 27 additional credits in geography.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 48 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- three credits chosen from: AP/GEOG 2350 3.00, AP/GEOG 3180 3.00, AP/GEOG 3440 3.00 or AP/GEOG 3740 3.00;
- AP/GEOG 4540 3.00 or AP/GEOG 4520 3.00;
- at least 12 additional credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Geography may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in geography and at least 36 credits in the interdisciplinary program. Courses taken to meet geography requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in geography and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students will take at least 36 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- AP/GEOG 4520 3.00;
- and at least 12 credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in geography comprises at least 30 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- and six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in geography, chosen with the permission of the department, including:

- two of AP/GEOG 1000 6.00, AP/GEOG 1400 6.00 or AP/GEOG 1410 6.00.
- 12 of the remaining 18 credits must be above the 2000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Specialized Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 60 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- three credits chosen from: AP/GEOG 2350 3.00, AP/GEOG 3180 3.00, AP/GEOG 3440 3.00 or AP/GEOG 3740 3.00;
- AP/GEOG 4540 3.00 or AP/GEOG 4520 3.00;
- at least 12 additional credits at the 4000 level;
- at least 27 additional credits in geography.

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Specialized Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 48 credits in geography, including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- three credits chosen from: AP/GEOG 2350 3.00, AP/GEOG 3180 3.00, AP/GEOG 3440 3.00 or AP/GEOG 3740 3.00;
- AP/GEOG 4540 3.00 or AP/GEOG 4520 3.00;
- at least 12 additional credits at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Certificate in Geographic Information Systems and Remote Sensing

York University students may earn a Certificate in Geographic Information Systems and Remote Sensing concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Students must successfully complete the following 24 credits:

- AP/GEOG 1000 6.00 or AP/SC/GEOG 1400 6.00 or AP/GEOG 1410 6.00;
- AP/SC/GEOG 2420 3.00;
- AP/SC/GEOG 3180 3.00;
- AP/GEOG 3440 3.00;
- AP/SC/GEOG 4340 3.00;
- AP/GEOG 4440 3.00;
- three credits chosen from the following list: AP/SC/GEOG 2130 3.00, AP/SC/GEOG 2350 3.00, AP/GEOG 3140 3.00, AP/GEOG 4240 3.00, SC/EATS 4220 3.00 or SC/EATS 4230 3.00.

In order to be awarded the Certificate in Geographic Information Systems and Remote Sensing, students must achieve and maintain a cumulative grade point average of 6.00 (B) on the York University courses required for the GIS Certificate, and achieve an overall cumulative grade point average of 5.00 (C+) in all courses.

Note: students who have been exempted from the 1000-level requirement may substitute six additional credits which must be approved by the Department of Geography and which must be chosen from the following list: AP/SC/GEOG 2130 3.00, AP/GEOG 3140 3.00, AP/GEOG 4240 3.00, SC/EATS 4220 3.00 or SC/EATS 4230 3.00.

Geography and Urban Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 72 credits in geography and urban studies including:

- AP/GEOG 1400 6.00;
- AP/GEOG 1000 6.00 or AP/GEOG 1410 6.00;
- AP/GEOG 2420 3.00;
- AP/SOSC 2710 9.00;
- AP/GEOG 2220 6.00;
- AP/GEOG 4520 3.00;
- AP/SOSC 3700 6.00;
- AP/SOSC 4700 6.00;
- 12 additional geography (GEOG) credits, including at least six credits chosen from: AP/GEOG 4000 6.00, AP/GEOG 4040 6.00, AP/GEOG 4090 3.00, AP/GEOG 4170 3.00, AP/GEOG 4220 3.00, AP/GEOG 4240 3.00, AP/GEOG 4260 3.00, AP/GEOG 4380 3.00;
- 18 additional credits chosen from the urban studies list of courses, including at least 12 credits at the 3000 or 4000 level, and including no more than six geography (GEOG) credits.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Please refer to the Urban Studies section for the urban studies list of courses.

German Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students who are exempted from German language courses based on their knowledge of German must still successfully complete the total number of credits required for their chosen stream.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete the stream requirements of the chosen stream:

German Language, Literature and Culture Stream

Students will take at least 42 credits, including the following:

- AP/GER 2000 6.00;

- AP/GER 2200 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- AP/GER 3000 6.00 or AP/GER 3001 3.00 and AP/GER 3002 3.00;
- AP/GER 4000 6.00 or AP/GER 4001 3.00 and AP/GER 4002 3.00;
- 12 additional credits at the 3000 or 4000 level in courses with a AP/GER prefix (taught in German), including at least six credits at the 4000 level.

German Culture and Society Stream

Students will take at least 42 credits, including the following, and including at least 12 credits at the 4000 level:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00 or AP/GER 2201 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- three additional credits in courses with a AP/GER prefix (taught either in English or German);
- six credits chosen from: AP/HIST 3320 6.00, AP/HIST 4330 6.00, AP/POLS 3520 3.00, AP/POLS 4205 3.00, AP/POLS 4515 3.00;
- 15 additional credits chosen from the list of German studies courses.

Note: a maximum of 12 credits in German language courses may be taken for credit towards the German culture and society stream.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Either stream in German Studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in a German studies stream and at least 36 credits in the interdisciplinary program. Courses taken to meet German studies stream requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in a German studies stream and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

German Language, Literature and Culture Stream

Students will take at least 36 credits, including the following:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- AP/GER 3000 6.00 or AP/GER 3001 3.00 and AP/GER 3002 3.00;
- AP/GER 4001 3.00 and AP/GER 4002 3.00;
- six additional credits at the 3000 or 4000 level in courses with a AP/GER prefix (taught in German).

German Culture and Society Stream

Students will take at least 36 credits, including the following, and including at least six credits at the 4000 level:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00 or AP/GER 2201 6.00;

- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- three additional credits in courses with a AP/GER prefix (taught either in English or German);
- six credits chosen from: AP/HIST 3320 6.00, AP/HIST 4330 6.00, AP/POLS 3520 3.00, AP/POLS 4205 3.00, AP/POLS 4515 3.00;
- nine additional credits chosen from the list of German studies courses.

Note: at least six credits in the major at the 4000 level. A maximum of 12 credits in German language courses may be taken for credit towards the German culture and society stream.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits:

German Language, Literature and Culture Stream

Students will take at least 30 credits, including the following:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- AP/GER 3000 6.00 or AP/GER 3001 3.00 and AP/GER 3002 3.00;
- six additional credits in courses with a AP/GER prefix (taught in German) at the 4000 level.

German Culture and Society Stream

Students will take at least 30 credits, including the following, and including at least six credits at the 4000 level:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00 or AP/GER 2201 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- six credits chosen from: AP/HIST 3320 6.00, AP/HIST 4330 6.00, AP/POLS 3520 3.00, AP/POLS 4205 3.00, AP/POLS 4515 3.00;
- six additional credits chosen from the list of German studies courses.

Note: at least six credits in the minor must be at the 4000 level. A maximum of 12 credits in German language courses may be taken for credit towards the German culture and society stream.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete the stream requirements of the chosen stream:

German Language, Literature and Culture Stream

Students will take at least 30 credits, including the following:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- AP/GER 3000 6.00 or AP/GER 3001 3.00 and AP/GER 3002 3.00;
- six additional credits in courses with a AP/GER prefix (taught in German) at the 3000 or 4000 level.

German Culture and Society Stream

Students will take at least 30 credits, including the following:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00 or AP/GER 2201 6.00;
- AP/GER 2790 9.00 (cross-listed to: AP/HUMA 2190 9.00);
- six credits chosen from: AP/HIST 3320 6.00, AP/HIST 4330 6.00, AP/POLS 3520 3.00, AP/POLS 4205 3.00, AP/POLS 4515 3.00;
- six additional credits at the 3000 or 4000 level chosen from the list of German studies courses.

Note: a maximum of 12 credits in German language courses may be taken for credit towards the German culture and society stream. At least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in German studies including:

- AP/GER 2000 6.00;
- AP/GER 2200 6.00;
- AP/GER 2790 9.00;
- AP/GER 3001 3.00;
- AP/GER 3002 3.00;
- AP/GER 4001 3.00;
- AP/GER 4002 3.00;
- 12 additional AP/GER credits at the 3000 and 4000 level (a minimum of six of these credits must be taken at the 4000 level).

In addition to the courses required for their major, students in the Honours iBA program must fulfill the following requirements:

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

For more detailed information regarding the Honours iBA program requirements, please consult the Faculty of Liberal Arts and Professional Studies, Degree Requirements section of the Undergraduate Calendar.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major iBA

The Honours iBA program described above may be pursued jointly with any Honours Double Major BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting German Studies program requirements:

Program Course	Course Substitute(s)
AP/GER 3000 6.00	AP/GER 3001 3.00 and AP/GER 3002 3.00

German Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in German studies.

AP/HIST 2220 6.00
 AP/HIST 2300 6.00
 AP/HIST 3320 6.00
 AP/HIST 3365 3.00
 AP/HIST 4330 6.00
 AP/HIST 4350 6.00
 AP/HUMA 2160 9.00
 AP/HUMA 2190 9.00 (cross-listed to: AP/GER 2790 9.00)
 AP/HUMA 3600 3.00 (cross-listed to: AP/GER 3600 3.00)

Certificate of Proficiency in German Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have

successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively.

York University students may earn a Certificate of Proficiency in German Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is open to students pursuing a degree in German studies: culture and society stream. This certificate is not, however, open to students who are pursuing or who already hold a degree in German studies (German Language, Literature and Culture).

To apply for the certificate, students must have successfully completed at least 12 credits in German language in the Department of Languages, Literatures and Linguistics as follows:

- AP/GER 2000 6.00;
- and AP/GER 3000 6.00, with a minimum grade of B;
- and a written examination and an oral interview.

Note: students who are exempted from an intermediate level language course must take another course taught in German.

Course Substitutes

Subject to course exclusions, certificate requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting the Certificate of Proficiency in German Language requirements:

Program Course	Course Substitute(s)
AP/GER 3000 6.00	AP/GER 3001 3.00 and AP/GER 3002 3.00

Global Political Studies

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 60 credits including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- AP/POLS 2940 6.00;
- AP/POLS 2950 6.00;
- 15 credits chosen from the AP/POLS 3200 series or AP/POLS 4200 series of courses, including at least six credits from the AP/POLS 4200 series;
- three credits chosen from the AP/POLS 3400 series of courses, which may also include AP/POLS 3900 3.00;
- three credits chosen from the AP/POLS 3500 series of courses;
- six credits chosen from the AP/POLS 4400 or AP/POLS 4500 series of courses;
- three additional credits chosen from the AP/POLS 3400, AP/POLS 3500, AP/POLS 4400 or AP/POLS 4500 series of courses, which may also include AP/POLS 3900 3.00;
- AP/POLS 4985 6.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Recommended Courses

It is strongly recommended that students take AP/ECON 1000 3.00 and AP/ECON 1010 3.00.

Optional Speciality

Students may wish to specialize in areas such as development studies, post-communist studies, area studies, peace and security, or international political economy for the purposes of preparing for graduate school or for a particular employment goal. These students should consult the program coordinator to seek advice about appropriate course selection.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting global political studies program requirements:

Program Course	Course Substitutes
AP/POLS 1000 6.00	GL/POLS 1400 6.00
AP/POLS 2910 6.00	GL/CDNS 2600 6.00/GL/POLS 2600 6.00
AP/POLS 2940 6.00	GL/ILST 2300 3.00
AP/POLS 2950 6.00	GL/ILST 2300 3.00

Greek – Classical

Refer to Classical Studies and/or Classics.

Greek – Modern

The Department of Languages, Literatures and Linguistics does not offer a degree program but does offer a certificate of language proficiency and language courses in Modern Greek. Refer to Greek in the Courses of Instruction section.

Certificate of Proficiency in Modern Greek Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Modern Greek Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Hellenic studies or Modern Greek.

To apply for the certificate, students must have successfully completed at least 12 credits in Modern Greek language in the Department of Languages, Literatures and Linguistics as follows:

- AP/GKM 2000 6.00;

- and AP/GKM 3600 6.00, with a minimum grade of B or AP/GKM 4600 6.00, with a minimum grade of B;
- and a written examination and an oral interview.

Note: students who are exempted from an intermediate level language course must take another course taught in Modern Greek.

Health and Society

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in health and society including the following:

- AP/SOSC 2110 6.00;
- AP/SOSC 2150 9.00;
- AP/SOSC 3993 3.00;
- 15 additional credits at the 3000 level chosen from the list of health and society courses, including at least six credits from the Department of Social Science;
- AP/SOSC 4140 6.00;
- six additional social science credits at the 4000 level chosen from the list of health and society courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in health and society and at least 36 credits in the interdisciplinary program. Courses taken to meet health and society requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level including at least 12 credits in health and society and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in health and society comprises at least 30 credits including the following:

- AP/SOSC 2110 6.00;
- AP/SOSC 2150 9.00;
- AP/SOSC 3993 3.00;
- nine additional credits at the 3000 level chosen from the health and society list of program courses, including at least six credits from the Department of Social Science;
- six social science credits at the 4000 level chosen from the list of health and society courses.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in health and society including the following:

- AP/SOSC 2110 6.00;
- AP/SOSC 2150 9.00;
- AP/SOSC 3993 3.00;
- 15 additional credits at the 3000 level chosen from the list of health and society courses, including at least six credits from the Department of Social Science.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting health and society program requirements:

Program Course	Course Substitutes
AP/SOSC 4140 6.00	AP/SOSC 4141 6.00

Health and Society Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in health and society.

Hebrew

The Department of Languages, Literatures and Linguistics does not offer a degree program but there is an Advanced Certificate in Hebrew and Jewish Studies and courses in Hebrew. Entry to Hebrew courses: students will be placed in classes at a level that suits their previous experience. Refer to Hebrew in the Courses of Instruction section.

Advanced Certificate in Hebrew and Jewish Studies

York University students may earn an Advanced Certificate in Hebrew and Jewish Studies concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Hebrew and Jewish studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are

simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the Advanced Certificate in Hebrew and Jewish Studies, students must complete 36 credits from the list of approved courses including:

- 12 credits in Hebrew language or literature offered in the Department of Languages, Literatures and Linguistics;
- and 24 additional credits in the areas of Hebrew language and literature and/or Jewish studies.

The cumulative grade point average in all 36 credits must be at least 5.00 (C+).

No more than 18 of these credits may be taken at another university. At least 18 credits must be completed at the 3000 or 4000 level.

Detailed information, including the list of approved courses, is available in the Office of the Centre for Jewish Studies, 260 Vanier College, 416-736-5823 or the Department of Languages, Literatures and Linguistics, South 561 Ross, 416-736-5016.

Hellenic Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits selected from the Hellenic studies list of courses, including:

- at least 12 credits at the 4000 level;
- and at least six credits in Ancient Greek language and literature (AP/GK);
- and six credits in Modern Greek language and literature (AP/GKM).

Students must include in their selection at least 12 credits covering Ancient Greece and 12 credits covering Modern Greece.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program in Hellenic Studies described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at

least 36 credits in Hellenic studies and at least 36 credits in the interdisciplinary program. Courses taken to meet Hellenic studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in Hellenic studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits selected from the Hellenic studies list of courses must include:

- at least six credits in Ancient Greek language and literature (AP/GK);
- and six credits in Modern Greek language and literature (AP/GKM).

Students must include in their selection at least 12 credits covering Ancient Greece and 12 credits covering Modern Greece.

Note: at least 12 credits in Hellenic Studies at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits selected from the Hellenic studies list of courses, including:

- at least six credits at the 4000 level;
- and at least six credits in Ancient Greek language and literature (AP/GK) or Modern Greek language and literature (AP/GKM).

Students must include in their selection at least six credits covering Ancient Greece and six credits covering Modern Greece.

Upper-level credits: At least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits selected from the Hellenic studies list of courses, including:

- at least 12 credits at the 3000 level;
- and at least six credits in Ancient Greek language and literature (AP/GK) or Modern Greek language and literature (AP/GKM).

Students must include in their selection at least six credits covering Ancient Greece and six credits covering Modern Greece.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Hellenic Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in Hellenic studies.

Hindi-Urdu

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer language courses in Hindi-Urdu as well as courses on South Asian literature and culture. Refer to Hindi-Urdu in the Courses of Instruction section.

History

Notes:

1. Students are required to complete six credits in history at the 1000 level. 1000-level courses at Glendon College or other universities do not satisfy this requirement. Exemptions may only be granted, at the discretion of the director of undergraduate studies, to students who have taken a minimum of 18 credits in history and have earned a minimum B+ history grade point average. Students granted an exemption must take a substitute six-credit course in history. No more than six credits in history at the 1000 level may count towards the major.
2. The department offers two types of 4000-level courses: seminars and colloquia. Seminars normally enrol about 18 students and have a substantial research component. Colloquia normally enrol 30 students. Honours degree students must take at least one 4000-level seminar (six credits). Specialized Honours degree students must take two 4000-level seminars (12 credits).
3. AP/HIST 4000 6.00 and AP/HIST 4991 3.00/AP/HIST 4991 6.00 count as seminars. AP/HIST 4990 3.00/AP/HIST 4990 6.00 counts as a colloquium.
4. 4000-level history courses taken at Glendon College will count as seminars if they have planned enrolments of fewer than 20 students.
5. One 4000-level course may come after the completion of 48 credits; the second (or both) will follow the completion of 84 credits.
6. Admission to all 4000-level courses is by application; there is not formal prerequisites, but students will be asked to show some previous coursework that prepares them in the field of study.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits including:

- six credits in history at the 1000 level (refer to Note 1 at the beginning of this section);
- at least 48 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least 18 credits in history at the 4000 level with at least 12 credits in seminars (refer to Note 2 at the beginning of this section);
 - one 4000 level course must deal with history outside USA and Canada; this presumes suitable preparation.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- six credits in history at the 1000 level (refer to Note 1 at the beginning of this section);
- at least 36 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least 24 credits in history must be at the 3000 and 4000 levels;
 - at least six credits in history above the 1000 level that deals with history outside USA and Canada.
- at least 12 credits in history must be at the 4000 level (refer to Note 2 at the beginning of this section).

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

History may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in history and at least 36 credits in the interdisciplinary program. Courses taken to meet history requirements cannot also be used to meet the requirements of the interdisciplinary

program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in history and six credits in the interdisciplinary program.

Note: in a double major program, a course may count only once toward major credit.

Major credits: 36 credits including:

- six credits in history at the 1000 level (refer to Note 1 at the beginning of this section);
- at least 30 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least 18 credits in history must be at the 3000 and 4000 levels;
 - at least six credits in history above the 1000 level that deals with history outside USA and Canada.
- at least 12 credits in history must be at the 4000 level (refer to Note 2 at the beginning of this section).

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: 30 credits including:

- six credits in history at the 1000 level (refer to Note 1 at the beginning of this section);
- at least 24 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least six credits in history above the 1000 level that deals with history outside USA and Canada;
 - at least six credits in history at the 4000 level seminar after completion of at least 48 total credits for the degree (refer to Note 2 at the beginning of this section).

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 30 credits including:

- six credits in history at the 1000 level (refer to Note 1);
- at least 24 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least six credits in history above the 1000 level that deals with history outside USA and Canada;
 - at least 12 credits in history must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- six credits in history at the 1000 level (refer to Note 1);
- at least 36 additional credits in history:
 - no more than 12 credits in history at the 2000 level will count towards the major;
 - at least 24 credits in history must be at the 3000 and 4000 levels;
 - at least six credits in history above the 1000 level that deals with history outside USA and Canada.
- at least 12 credits in history must be at the 4000 level (refer to Note 2).

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program in History may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Humanities

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students may count a maximum of six humanities credits at the 1000 level for credit towards the major/minor in humanities.

Enrolment in 3000-level humanities courses requires the fulfillment of one of the following requirements: a previous humanities course or permission of the instructor. 3000-level humanities courses with these prerequisite requirements will be clearly identified in the Humanities Supplemental Calendar. Failure to satisfy the listed prerequisite requirement will result in being denied access to the course and/or de-enrolment from the course.

Students wishing to major or minor in humanities must contact the director of undergraduate studies, 203 Vanier College, in order to discuss their proposed program of study and arrange for a program adviser with congruent academic interests.

The following interdisciplinary Honours programs are associated with the Department of Humanities: children's studies, classical studies, classics, creative writing, East Asian studies, European studies, Hellenic studies, Latin American and Caribbean studies, religious studies, and science and technology studies. Each of these programs are designed to permit students to follow a flexible curriculum of studies with various departments and other area studies programs, along with interdisciplinary courses in the division. For more information, please consult the listings for specific interdisciplinary programs.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in humanities of which at least 36 credits must be above the 3000 level, including 12 credits in 4000-level seminars.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in humanities of which at least 24 credits must be above the 2000 level, including 12 credits in 4000-level seminars.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Humanities may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in humanities and at least 36 credits in the interdisciplinary program.

Courses taken to meet humanities requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in humanities and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor BA program in Humanities comprises at least 30 credits in humanities including at least 12 credits at the 3000 level and six credits at the 4000 level.

Upper-level credits: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in humanities of which at least 18 credits must be at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in humanities of which at least 24 credits must be above the 2000 level, including 12 credits in 4000-level seminars.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program in Humanities described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Bachelor of Human Resources Management Degree (BHRM)

School of Human Resources Management

Contact: M. Belcourt

Notes:

1. The Human Resources Professionals Association of Ontario (HRPAO) requires AP/ADMS 1500 3.00 or both AP/ADMS 2500 3.00 and AP/ADMS 2510 3.00 in order to be approved as having met the academic requirements for the Certified Human Resources Professional (CHRP).
2. Under the certification process, HRPAO requires an average of 70 per cent with the lowest acceptable grade in any required course of 65 per cent.
3. For students who have a prior degree in a business-related program, AP/ADMS 1000 3.00 is waived for the program and as a prerequisite. Students must in its place complete an additional 3.00 credits from the list of additional courses within the major in (iii).

Honours BHRM: 120 Credits

Students prior to entering the bachelor of human resources are required to have completed one grade 12U mathematics course or the equivalent.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50.

General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. Modes of reasoning is recommended for BHRM.

Major credits: 81 credits in total including:

(i) 42 credits (program core) as follows:

- AP/ADMS 1000 3.00;
- AP/ADMS 1500 3.00;
- AP/ADMS 2400 3.00 or HH/PSYC 3570 3.00;
- AP/ECON 3240 3.00*;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
- AP/HRM 3400 3.00 (cross-listed to: AP/ADMS 3400 3.00; HH/HLST 3240 3.00);

- AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
- AP/HRM 3420 3.00 (cross-listed to: AP/ADMS 3420 3.00);
- AP/HRM 3422 3.00 (cross-listed to: AP/ADMS 3422 3.00);
- AP/HRM 3430 3.00 (cross-listed to: AP/ADMS 3430 3.00);
- AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
- AP/HRM 3450 3.00 (cross-listed to: AP/ADMS 3450 3.00);
- AP/HRM 3470 3.00 (cross-listed to: AP/ADMS 3470 3.00);
- AP/HRM 3490 3.00 (cross-listed to: AP/ADMS 3490 3.00).

*Prerequisite waived for BHRM students.

(ii) plus the following 27 credits:

- AP/ADMS 2320 3.00;
- AP/ADMS 3330 3.00;
- AP/HRM 4410 3.00 (cross-listed to: AP/ADMS 4410 3.00);
- AP/HRM 4420 3.00 (cross-listed to: AP/ADMS 4420 3.00);
- AP/HRM 4430 3.00 (cross-listed to: AP/ADMS 4430 3.00);
- AP/HRM 4440 3.00 (cross-listed to: AP/ADMS 4440 3.00);
- AP/HRM 4460 3.00 (cross-listed to: AP/ADMS 4460 3.00);
- AP/HRM 4470 3.00 (cross-listed to: AP/ADMS 4470 3.00);
- AP/HRM 4490 3.00 (cross-listed to: AP/ADMS 4490 3.00).

(iii) 12 additional credits chosen from the following list of course options below:

- AP/ADMS 2200 3.00;
- AP/ADMS 3120 3.00;
- AP/ADMS 3660 3.00;
- AP/ADMS 3930 3.00;
- AP/ADMS 4010 3.00;
- AP/HRM 4050 3.00 (cross-listed to: AP/ADMS 4050 3.00);
- AP/HRM 4480 3.00 (cross-listed to: AP/ADMS 4480 3.00);
- AP/HRM 4481 3.00 (cross-listed to: AP/ADMS 4481 3.00);
- AP/HRM 4485 3.00 (cross-listed to: AP/ADMS 4485 3.00);
- AP/HRM 4495 3.00 (cross-listed to: AP/ADMS 4495 3.00);
- HH/PSYC 3140 3.00;
- HH/PSYC 3410 3.00;
- HH/PSYC 3430 3.00;
- AP/REI 3580 6.00;
- AP/SOCI 3615 3.00;
- AP/SOCI 3680 6.00 (cross-listed to: AP/REI 3680 6.00);
- AP/SOCI 3860 6.00 (cross-listed to: AP/HREQ 3860 6.00).

Note: at least 18 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major and ADMS: at least 18 credits including HH/PSYC 1010 6.00; AP/SOCI 1010 6.00.

BHRM: 90 Credits

Students prior to entering the bachelor of human resources are required to have completed one grade 12U mathematics course or the equivalent.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits which meet the Faculty's degree and program requirements with a cumulative and major grade point average of at least 5.00.

General education: 18 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of three areas: humanities, modes of reasoning, natural science and social science. Modes of reasoning is recommended for BHRM.

Major credits: 54 credits including the following:

(i) 42 credits (program core) as follows:

- AP/ADMS 1000 3.00;
- AP/ADMS 1500 3.00;
- AP/ADMS 2400 3.00 or HH/PSYC 3570 3.00;
- AP/ECON 3240 3.00*;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);

- AP/HRM 3400 3.00 (cross-listed to: AP/ADMS 3400 3.00; HH/HLST 3240 3.00);
- AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
- AP/HRM 3420 3.00 (cross-listed to: AP/ADMS 3420 3.00);
- AP/HRM 3422 3.00 (cross-listed to: AP/ADMS 3422 3.00);
- AP/HRM 3430 3.00 (cross-listed to: AP/ADMS 3430 3.00);
- AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
- AP/HRM 3450 3.00 (cross-listed to: AP/ADMS 3450 3.00);
- AP/HRM 3470 3.00 (cross-listed to: AP/ADMS 3470 3.00);
- AP/HRM 3490 3.00 (cross-listed to: AP/ADMS 3490 3.00).

*Prerequisite waived for BHRM students.

(ii) 12 additional credits chosen from the following list of course options:

- AP/ADMS 2200 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 3120 3.00;
- AP/ADMS 3330 3.00;
- AP/ADMS 3660 3.00;
- AP/ADMS 3930 3.00;
- HH/PSYC 3140 3.00;
- HH/PSYC 3410 3.00;
- HH/PSYC 3430 3.00;
- AP/REI 3580 6.00;
- AP/SOCI 3615 3.00;
- AP/SOCI 3680 6.00 (cross-listed to: AP/REI 3680 6.00);
- AP/SOCI 3860 6.00 (cross-listed to: AP/HREQ 3860 6.00).

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major and ADMS: at least 18 credits including HH/PSYC 1010 6.00; AP/SOCI 1010 6.00.

Professional Certificate in Human Resources Management

School of Human Resources Management/School of Administrative Studies

Contact: S. McKenna

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

a) Prerequisites for core requirements:

- AP/ADMS 1000 3.00;
- for students with a prior business related degree, AP/ADMS 1000 3.00 is waived for program requirements and as a prerequisite for administrative studies courses.

Requirements: 27 credits including:

b) Core requirements:

- AP/ADMS 1500 3.00;
- AP/ADMS 2400 3.00;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
- AP/HRM 3400 3.00 (cross-listed to: AP/ADMS 3400 3.00);
- AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
- AP/HRM 3422 3.00 (cross-listed to: AP/ADMS 3422 3.00);
- AP/HRM 3430 3.00 (cross-listed to: AP/ADMS 3430 3.00);
- AP/HRM 3470 3.00 (cross-listed to: AP/ADMS 3470 3.00);
- AP/HRM 3490 3.00 (cross-listed to: AP/ADMS 3490 3.00).

Notes:

1. *The Human Resources Professionals Association (HRPAO) requires AP/ADMS 1500 3.00 or both AP/ADMS 2500 3.00 and AP/ADMS 2510 3.00 in order to be approved as having met the academic requirements for the HRPAO.*
2. *Under the certification process, HRPAO requires an average of 70 per cent with the lowest acceptable grade in any required course of 65 per cent.*

Daytime offering: the certificate may be taken during the day over the course of three terms. Students who have completed 84 credits at York or who hold a university degree, by June 1 of the year in which they hope to enter the certificate, may apply to enrol in this intensive day-time version. Applicants must have a minimum overall grade point average of 5.00 with a major grade point average of 5.50. Successful admission will be based on the applicant's overall grade point average and relevant work experience. Decisions on admissions will be made by the designate of the dean of the Faculty of Liberal Arts and Professional Studies (normally the coordinator of the certificate). The application deadline for admissions will normally be May 31.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Human Rights and Equity Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 60 credits including:

(i) 21 credits core courses:

- AP/HREQ 2010 6.00;
- AP/HREQ 3010 6.00 (cross-listed to: AP/POLS 3255 6.00, AP/SOCI 3010 6.00);
- AP/POLS 3136 3.00 (cross-listed to: AP/PPAS 3136 3.00, GL/POLS 3136 3.00);
- AP/SOCI 4600 6.00 (cross-listed to: AP/HREQ 4600 6.00, AP/REI 4600 6.00).

(ii) six credits chosen from:

- AP/SOCI 2030 6.00;
- GL/SOCI 3680 3.00 (cross-listed to: GL/CDNS 3680 3.00, GL/POLS 3680 3.00);
- GL/SOCI 3690 3.00 (cross-listed to: GL/CDNS 3690 3.00, GL/POLS 3690 3.00).

(iii) 15 credits chosen from:

- AP/ANTH 4410 3.00 (cross-listed to: AP/HREQ 4410 3.00);
- AP/CLTR 3510 3.00 (cross-listed to: AP/HREQ 3510 3.00, AP/HUMA 3907 3.00);
- AP/HREQ 3800 3.00 (cross-listed to: AP/POLS 3045 3.00);
- AP/HREQ 3891 3.00 (cross-listed to: AP/SOCI 3890 3.00, AP/GL/WMST 3890 3.00);

- AP/HREQ 3892 3.00;
- AP/HREQ 3961 3.00;
- AP/HREQ 3962 3.00;
- AP/HREQ 3963 3.00;
- AP/HREQ 3964 3.00;
- AP/HREQ 4650 3.00 (cross-listed to: AP/SOCI 4650 3.00);
- AP/HREQ 4651 3.00 (cross-listed to: AP/PHIL 4651 3.00);
- AP/HREQ 4652 3.00 (cross-listed to: AP/SOCI 4652 3.00);
- AP/PHIL 3180 3.00 (cross-listed to: AP/HREQ 3180 3.00);
- AP/PHIL 3595 3.00 (cross-listed to: AP/HREQ 3595 3.00);
- AP/PHIL 4185 3.00 (cross-listed to: AP/HREQ 4185 3.00);
- AP/POLS 3170 3.00 (cross-listed to: AP/HREQ 3761 3.00);
- AP/PPAS 3160 3.00 (cross-listed to: AP/HREQ 3160 3.00);
- AP/SOWK 3580 3.00 (cross-listed to: AP/HREQ 3580 3.00);
- HH/HLST 4510 3.00 (cross-listed to: AP/HREQ 4510 3.00).

(iv) 18 additional credits from the list of program courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: not required for multidisciplinary programs.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

(i) 15 credits core courses:

- AP/HREQ 2010 6.00;
- AP/HREQ 3010 6.00 (cross-listed to: AP/POLS 3255 6.00, AP/SOCI 3010 6.00);
- AP/POLS 3136 3.00 (cross-listed to: AP/PPAS 3136 3.00, GL/POLS 3136 3.00).

(ii) six credits chosen from:

- AP/SOCI 2030 6.00;
- GL/SOCI 3680 3.00 (cross-listed to: GL/CDNS 3680 3.00, GL/POLS 3680 3.00);
- GL/SOCI 3690 3.00 (cross-listed to: GL/CDNS 3690 3.00, GL/POLS 3690 3.00).

(iii) nine credits chosen from:

- AP/ANTH 4410 3.00 (cross-listed to: AP/HREQ 4410 3.00);
- AP/CLTR 3510 3.00 (cross-listed to: AP/HREQ 3510 3.00, AP/HUMA 3907 3.00);
- AP/HREQ 3800 3.00 (cross-listed to: AP/POLS 3045 3.00);
- AP/HREQ 3891 3.00 (cross-listed to: AP/SOCI 3890 3.00, AP/GL/WMST 3890 3.00);
- AP/HREQ 3892 3.00;
- AP/HREQ 3961 3.00;
- AP/HREQ 3962 3.00;
- AP/HREQ 3963 3.00;
- AP/HREQ 3964 3.00;
- AP/HREQ 4650 3.00 (cross-listed to: AP/SOCI 4650 3.00);
- AP/HREQ 4651 3.00 (cross-listed to: AP/PHIL 4651 3.00);
- AP/HREQ 4652 3.00 (cross-listed to: AP/SOCI 4652 3.00);
- AP/PHIL 3180 3.00 (cross-listed to: AP/HREQ 3180 3.00);
- AP/PHIL 3595 3.00 (cross-listed to: AP/HREQ 3595 3.00);
- AP/PHIL 4185 3.00 (cross-listed to: AP/HREQ 4185 3.00);
- AP/POLS 3170 3.00 (cross-listed to: AP/HREQ 3761 3.00);
- AP/PPAS 3160 3.00 (cross-listed to: AP/HREQ 3160 3.00);
- AP/SOWK 3580 3.00 (cross-listed to: AP/HREQ 3580 3.00);
- HH/HLST 4510 3.00 (cross-listed to: AP/HREQ 4510 3.00).

(iv) 12 additional credits from the list of program courses.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: not required for multidisciplinary programs.

Honours Double Major BA

The Honours program BA described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours program BA described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor: 30 credits including:

(i) 15 credits core courses:

- AP/HREQ 2010 6.00;
- AP/HREQ 3010 6.00 (cross-listed to: AP/POLS 3255 6.00, AP/SOCI 3010 6.00);
- AP/POLS 3136 3.00 (cross-listed to: AP/PPAS 3136 3.00, GL/POLS 3136 3.00).

(ii) six credits chosen from:

- AP/SOCI 2030 6.00;
- GL/SOCI 3680 3.00 (cross-listed to: GL/CDNS 3680 3.00, GL/POLS 3680 3.00);
- GL/SOCI 3690 3.00 (cross-listed to: GL/CDNS 3690 3.00, GL/POLS 3690 3.00).

(iii) nine credits chosen from:

- AP/ANTH 4410 3.00 (cross-listed to: AP/HREQ 4410 3.00);
- AP/CLTR 3510 3.00 (cross-listed to: AP/HREQ 3510 3.00, AP/HUMA 3907 3.00);
- AP/HREQ 3800 3.00 (cross-listed to: AP/POLS 3045 3.00);
- AP/HREQ 3891 3.00 (cross-listed to: AP/SOCI 3890 3.00, AP/GL/WMST 3890 3.00);
- AP/HREQ 3892 3.00;
- AP/HREQ 3961 3.00;
- AP/HREQ 3962 3.00;
- AP/HREQ 3963 3.00;
- AP/HREQ 3964 3.00;
- AP/HREQ 4650 3.00 (cross-listed to: AP/SOCI 4650 3.00);
- AP/HREQ 4651 3.00 (cross-listed to: AP/PHIL 4651 3.00);
- AP/HREQ 4652 3.00 (cross-listed to: AP/SOCI 4652 3.00);
- AP/PHIL 3180 3.00 (cross-listed to: AP/HREQ 3180 3.00);
- AP/PHIL 3595 3.00 (cross-listed to: AP/HREQ 3595 3.00);
- AP/PHIL 4185 3.00 (cross-listed to: AP/HREQ 4185 3.00);
- AP/POLS 3170 3.00 (cross-listed to: AP/HREQ 3761 3.00);

- AP/PPAS 3160 3.00 (cross-listed to: AP/HREQ 3160 3.00);
- AP/SOWK 3580 3.00 (cross-listed to: AP/HREQ 3580 3.00);
- HH/HLST 4510 3.00 (cross-listed to: AP/HREQ 4510 3.00).

Note: at least six credits in the minor at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 36 credits including:

(i) 15 credits core courses:

- AP/HREQ 2010 6.00;
- AP/HREQ 3010 6.00 (cross-listed to: AP/POLS 3255 6.00, AP/SOCI 3010 6.00);
- AP/POLS 3136 3.00 (cross-listed to: AP/PPAS 3136 3.00, GL/POLS 3136 3.00).

(ii) six credits chosen from:

- AP/SOCI 2030 6.00;
- GL/SOCI 3680 3.00 (cross-listed to: GL/CDNS 3680 3.00, GL/POLS 3680 3.00);
- GL/SOCI 3690 3.00 (cross-listed to: GL/CDNS 3690 3.00, GL/POLS 3690 3.00).

(iii) nine credits chosen from:

- AP/ANTH 4410 3.00 (cross-listed to: AP/HREQ 4410 3.00);
- AP/CLTR 3510 3.00 (cross-listed to: AP/HREQ 3510 3.00, AP/HUMA 3907 3.00);
- AP/HREQ 3800 3.00 (cross-listed to: AP/POLS 3045 3.00);
- AP/HREQ 3891 3.00 (cross-listed to: AP/SOCI 3890 3.00, AP/GL/WMST 3890 3.00);
- AP/HREQ 3892 3.00;
- AP/HREQ 3961 3.00;
- AP/HREQ 3962 3.00;
- AP/HREQ 3963 3.00;
- AP/HREQ 3964 3.00;
- AP/HREQ 4650 3.00 (cross-listed to: AP/SOCI 4650 3.00);
- AP/HREQ 4651 3.00 (cross-listed to: AP/PHIL 4651 3.00);
- AP/HREQ 4652 3.00 (cross-listed to: AP/SOCI 4652 3.00);
- AP/PHIL 3180 3.00 (cross-listed to: AP/HREQ 3180 3.00);
- AP/PHIL 3595 3.00 (cross-listed to: AP/HREQ 3595 3.00);
- AP/PHIL 4185 3.00 (cross-listed to: AP/HREQ 4185 3.00);
- AP/POLS 3170 3.00 (cross-listed to: AP/HREQ 3761 3.00);
- AP/PPAS 3160 3.00 (cross-listed to: AP/HREQ 3160 3.00);
- AP/SOWK 3580 3.00 (cross-listed to: AP/HREQ 3580 3.00);
- HH/HLST 4510 3.00 (cross-listed to: AP/HREQ 4510 3.00).

(iv) six additional credits from the list of program courses.

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: not required for multidisciplinary programs.

Program Courses

AP/ANTH 3050 3.00

Cross-Disciplinary Certificate in Indigenous Studies

Department of Equity Studies

York University students may earn a Cross-Disciplinary Certificate in Indigenous Studies in addition to fulfilling the requirements for an undergraduate degree. This certificate is open to students in all undergraduate Faculties.

To qualify for the Cross-Disciplinary Certificate in Indigenous Studies, students must complete 24 credits from a list of approved courses, with a cumulative grade point average in these 24 credits of at least 5.00.

Students are expected to register their entry to the certificate program with the unit administering the program, normally prior to completion of 36 credits of their undergraduate degree program. This procedure is intended to help keep students abreast of program related events and to ensure that students complete the program requirements in a timely fashion. Students are also expected to submit an application to graduate from the program. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Course requirements, and application and admission requirements for the Cross-Disciplinary Certificate in Indigenous Studies, are as follows:

- AP/SOSC 1030 9.00 or AP/REI 2050 6.00;
- AP/SOSC 4030 6.00;
- at least 12 credits chosen from:
 - AP/ANTH 3510 3.00
 - AP/ANTH 3420 3.00
 - AP/REI 3535 3.00
 - AP/REI 3536 3.00
 - AP/REI 3538 6.00
 - AP/HUMA 3537 3.00
 - FA/FACS 3900M 3.00
 - FA/FILM 4710 3.00
 - AP/GEOG 4095 3.00
 - AP/HIST 4508 6.00
 - AP/POLS 4102 3.00
 - AP/REI 4750 6.00
 - AP/REI 4780 6.00
 - AP/SOSC 4351 6.00
 - GL/CDNS 2630 6.00
 - AP/SOWK 4270 3.00
 - FA/VISA 3350C 3.00
 - FA/VISA 3350D 3.00

Further information about the Cross-Disciplinary Certificate in Indigenous Studies is available from the coordinator of the certificate in the Department of Equity Studies.

Individualized Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Specialized Honours BA: 120 Credits

The Specialized Honours program in Individualized Studies is designed for students who wish to pursue a topic or line of enquiry that requires drawing together courses from several of the University's disciplines or fields of study.

Students interested in pursuing an individualized studies degree will be asked by the coordinator to prepare a statement describing the particular subject they wish to pursue. They will also be asked to identify a set of courses, from the Faculty of Liberal Arts and Professional Studies and elsewhere, which are relevant to this theme. If the coordinator is satisfied that the proposed subject cannot be adequately pursued under an established program or departmental major and that sufficient courses and faculty expertise exist to support individualized study in the area in question, the student will be permitted to enter the Individualized Studies

program. Normally, students are eligible to join the program if they have completed at least 24 credits and no more than 66 credits by the start of the academic year.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students in individualized studies must successfully complete and follow all the regulations for a degree in Specialized Honours in the Faculty of Liberal Arts and Professional Studies. In addition, they must take, as part of the 54 credits relevant to their theme, the Individualized Studies Thesis Course, AP/INDV 4000 6.00. This course is to be taken during the student's final year of study.

Note: at least 12 credit in the major at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Information Technology (BA)

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students prior to entering ITEC are required to have completed one 12U mathematics course or the equivalent with in the last five years.

General prerequisites for all 3000 level (except for AP/ITEC 3010 3.00) or above courses: students must have successfully completed all 1000 and 2000 level required courses in information technology and mathematics required for their program option and AP/ITEC 3010 3.00 before taking courses in information technology at the 3000 or 4000 level including earning a minimum grade of C in either AP/ITEC 2610 3.00 or AP/ITEC 3010 3.00.

Program note: students combining a Honours ITEC major with a second major or minor are not required to complete a stream.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 72 credits including the following 60 credits:

(i) Core:

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 2620 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3020 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00;
- AP/ITEC 3230 3.00;

- AP/ITEC 4010 3.00;
- AP/ITEC 4020 3.00;
- AP/ITEC 4030 3.00;
- AP/ITEC 4040 3.00;
- AP/ITEC 4220 3.00;
- and 12 additional credits from AP/ADMS 3521 3.00, AP/ITEC 3325 3.00, AP/ITEC 3500 3.00, AP/ITEC 3505 3.00, AP/ITEC 4000 3.00, AP/ITEC 4100 3.00, AP/ITEC 4101 3.00, AP/ITEC 4305 3.00, AP/ITEC 4315 3.00.

(ii) 12 additional credits as specified in the requirements for one of the six streams described below.

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: 18 credits including SC/MATH 1190 3.00, SC/MATH 2320 3.00, SC/MATH 2565 3.00.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 57 credits including the following 45 credits:

(i) Core:

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 2620 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3020 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 4010 3.00;
- AP/ITEC 4020 3.00;
- and six additional credits from AP/ADMS 3521 3.00, AP/ITEC 3325 3.00, AP/ITEC 3500 3.00, AP/ITEC 3505 3.00, AP/ITEC 4000 3.00, AP/ITEC 4030 3.00, AP/ITEC 4040 3.00, AP/ITEC 4100 3.00, AP/ITEC 4101 3.00, AP/ITEC 4220 3.00, AP/ITEC 4305 3.00; AP/ITEC 4315 3.00.

(ii) 12 additional credits as specified in the requirements for one of the six streams described below.

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: 18 credits including SC/MATH 1190 3.00, SC/MATH 2320 3.00, SC/MATH 2565 3.00. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering, except for computer science. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties. Students

wishing to combine a major in ITEC with a major in another discipline or field of study must follow the requirements below. This Honours option does not include a stream.

Note: in a double major program, a course may count only once toward major credit.

Major information technology: 45 credits including:

(i) Core (45 credits):

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 2620 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3020 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 4010 3.00;
- AP/ITEC 4020 3.00;
- and six additional credits from AP/ADMS 3521 3.00, AP/ITEC 3325 3.00, AP/ITEC 3500 3.00, AP/ITEC 3505 3.00, AP/ITEC 4000 3.00, AP/ITEC 4030 3.00, AP/ITEC 4040 3.00, AP/ITEC 4100 3.00, AP/ITEC 4220 3.00, AP/ITEC 4305 3.00; AP/ITEC 4315 3.00.

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: SC/MATH 1190 3.00, SC/MATH 2320 3.00, SC/MATH 2565 3.00.

Honours Major/Minor BA

The Honours program BA described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering, except computer science. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties. Students wishing to combine a major in ITEC with a minor in another discipline or field of study must follow the requirements below. This Honours option does not include a stream.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Major information technology: 45 credits including:

(i) Core (45 credits):

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 4010 3.00;
- and fifteen additional credits from AP/ADMS 3521 3.00, AP/ITEC 3325 3.00, AP/ITEC 3500 3.00, AP/ITEC 3505 3.00, AP/ITEC 4000 3.00, AP/ITEC 4030 3.00, AP/ITEC 4040 3.00, AP/ITEC 4100 3.00, AP/ITEC 4220 3.00, AP/ITEC 4305 3.00; AP/ITEC 4315 3.00.

Note: at least 12 credits in the major must be completed at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: SC/MATH 1190 3.00, SC/MATH 2320 3.00, SC/MATH 2565 3.00.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties. Refer to Programs of Study.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: 33 credits including:

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00.

And 12 additional credits from the followings including at least six credits at 4000 level:

- AP/ITEC 2610 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 3500 3.00;
- AP/ITEC 3505 3.00;
- AP/ITEC 4010 3.00;
- AP/ITEC 4030 3.00;
- AP/ITEC 4040 3.00;
- AP/ITEC 4100 3.00;
- AP/ITEC 4101 3.00;
- AP/ITEC 4220 3.00;
- AP/ADMS 3521 3.00.

Or any course from any of the existing BA ITEC streams.

Credits outside the minor: SC/MATH 2565 3.00 or equivalent.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major information technology: 45 credits including:

(i) Core (33 credits):

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00;
- AP/ADMS 2511 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 2620 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00;
- AP/ITEC 3230 3.00;
- and three additional credits from AP/ADMS 3521 3.00, AP/ITEC 3020 3.00, AP/ITEC 3325 3.00, AP/ITEC 3500 3.00, AP/ITEC 3505 3.00, AP/ITEC 4010 3.00, AP/ITEC 4030 3.00, AP/ITEC 4040 3.00, AP/ITEC 4100 3.00, AP/ITEC 4220 3.00.

(ii) 12 additional credits as specified in the requirements for one of the six streams described below.

Note: at least 12 credits in the major must be completed at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Required credits outside the major: 18 credits including SC/MATH 1190 3.00, SC/MATH 2320 3.00, SC/MATH 2565 3.00.

Note: the following ITEC streams listed below are not open to students completing a double major or major/minor.

Communications Studies Stream

- (i) Information technology core.
- (ii) 12 additional credits chosen from:
 - AP/CLTR 2210 6.00 (cross-listed to: AP/HUMA 2210 6.00);
 - AP/SOSC 3490 6.00;
 - AP/SOSC 3575 6.00 (cross-listed to: AP/REI 3575 6.00);
 - AP/SOSC 2311 6.00;
 - AP/SOSC 2312 6.00;
 - AP/SOSC 2312 9.00;
 - AP/SOSC 2313 6.00;
 - AP/SOSC 2314 6.00;
 - AP/SOSC 2314 9.00.

Health Industry Stream

- (i) Information technology core.
- (ii) 12 additional credits chosen from:
 - HH/HLST 2040 3.00;
 - HH/HLST 3320 3.00;
 - HH/HLST 3341 3.00;
 - HH/HLST 4320 3.00;
 - HH/HLST 4330 3.00;
 - HH/NURS 3200 3.00;
 - HH/NURS 3210 3.00;
 - HH/NURS 3220 3.00;
 - HH/NURS 3230 3.00.

Management Stream

- (i) Information technology core.
- (ii) 12 additional credits as follows:
 - AP/ADMS 1000 3.00;
 - AP/ADMS 1010 3.00;
 - AP/ADMS 2400 3.00;
 - AP/ADMS 3930 3.00.

Marketing Stream

- (i) Information technology core.
- (ii) 12 additional credits as follows:
 - a) the following nine credits:
 - AP/ADMS 2200 3.00;
 - AP/ADMS 3220 3.00;
 - AP/ADMS 4220 3.00;
 - b) and three credits chosen from:
 - AP/ADMS 4235 3.00;
 - AP/ADMS 4240 3.00;
 - AP/ADMS 4255 3.00;
 - AP/ADMS 4260 3.00.

Note: AP/ADMS 2200 3.00 is the prerequisite course for the balance of courses required in the stream. In addition, 1) students who are in the BA program must complete AP/ADMS 2200 3.00 with a grade of C+ prior to taking the 4000-level courses for the stream; 2) students who are in an Honours program must complete 78 credits prior to taking the 4000-level courses for the stream.

Technical and Professional Writing Stream

- (i) Information technology core.
- (ii) 12 additional credits as follows:
 - GL/TRAN 3310 3.00(EN);
 - GL/TRAN 4310 3.00(EN);
 - GL/TRAN 4320 3.00(EN);
 - GL/TRAN 4330 3.00(EN).

Note: students choosing this option for whom English is a second language are advised that they must have equivalent to native ability in English. To remain in the technical and professional writing option, a student must achieve a minimum grade of C+ in each course. Upon completing the option, students may take a final comprehensive examination for the Certificate in Technical and Professional Writing.

Technology and Society Stream

- (i) Information technology core.
- (ii) 12 additional credits chosen from:
 - AP/PHIL 3776 3.00;
 - AP/HUMA 2920 9.00;
 - AP/HUMA 3923 6.00;
 - AP/HUMA 3925 6.00 (cross-listed to: SC/STS 3925 6.00);
 - AP/HUMA 4230 6.00;
 - AP/SOCI 4930 6.00;

Information Technology (BAS)

School of Information Technology/School of Administrative Studies

Contact: I. Spletstoesser-Hogeterp and Y. Benslimane

Note: students should refer to the Courses of Instruction section of information technology course prerequisites. Students prior to entering the BAS ITEC are required to have completed one 12U high school mathematics course or the equivalent within the last five years.

General prerequisites for all 3000 level (except for AP/ITEC 3010 3.00) or above courses: students must have successfully completed all 1000 and 2000 level required courses in information technology and mathematics required for their program option and AP/ITEC 3010 3.00 before taking courses in information technology at the 3000 or 4000 level including earning a minimum grade of C in either AP/ITEC 2610 3.00 or AP/ITEC 3010 3.00.

Specialized Honours BAS: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a major grade point average of at least 5.50.

General education: 18 credits of general education from humanities, modes of reasoning, natural science and social science. Minimum six credits in each of three areas: humanities, modes of reasoning, natural science and social science. Modes of reasoning is recommended. Faculty of Liberal Arts and Professional Studies general education rules apply.

Major credits: 75 credits including:

- (i) Core: 60 credits including:
 - 45 credits as follows:
 - AP/ADMS 1000 3.00;
 - AP/ADMS 2500 3.00;
 - AP/ADMS 2510 3.00;
 - AP/ADMS 2511 3.00;
 - AP/ITEC 1000 3.00;
 - AP/ITEC 1010 3.00;
 - AP/ITEC 1620 3.00 or SC/CSE 1020 3.00;
 - AP/ITEC 2610 3.00;
 - AP/ITEC 3010 3.00;
 - AP/ITEC 3210 3.00;

- AP/ITEC 3220 3.00 or SC/CSE 3421 3.00;
- AP/ITEC 4010 3.00;
- AP/ITEC 4030 3.00;
- AP/ITEC 4040 3.00;
- SC/MATH 1190 3.00.

Six credits as follows:

- AP/ADMS 2320 3.00 and AP/ADMS 3330 3.00; or SC/MATH 2320 3.00 and SC/MATH 2565 3.00; or AP/ECON 2510 3.00 and AP/ECON 3480 3.00;

Nine additional credits in ITEC or ADMS from:

- AP/ADMS 2200 3.00;
- AP/ADMS 2400 3.00;
- AP/ADMS 2600 3.00;
- AP/ITEC 2620 3.00;
- AP/ITEC 3020 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 3500 3.00;
- AP/ITEC 3505 3.00;
- AP/ITEC 4000 3.00;
- AP/ITEC 4100 3.00;
- AP/ITEC 4101 3.00.

Notes:

1. *ITEC 3500 is a mandatory course in the information technology auditing and assurance stream, ITEC 3020 and ITEC 3230 are mandatory courses in the e-commerce development stream and ITEC 4101 is a mandatory course in the business systems analysis stream.*
 2. *At least 18 credits in the major must be at the 4000 level.*
- (ii) Stream: an additional 15 credits from one of the following streams:

Information Technology Auditing and Assurance Stream

- AP/ADMS 3521 3.00;
- AP/ADMS 4515 3.00;
- AP/ADMS 4517 3.00;
- AP/ADMS 4518 3.00;
- AP/ITEC 3500 3.00.

E-Commerce Development Stream

- AP/ITEC 3020 3.00;
- AP/ITEC 3230 3.00;
- AP/ITEC 4020 3.00;
- AP/ITEC 4220 3.00;
- AP/ITEC 4305 3.00.

Business Systems Analysis Stream

- AP/ADMS 3502 3.00;
- AP/ADMS 3521 3.00;
- AP/ADMS 4511 3.00;
- AP/ADMS 4900 3.00;
- AP/ITEC 4101 3.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major (ADMS and ITEC): at least 18 credits including AP/ECON 1000 3.00 and AP/ECON 1010 3.00 and AP/WRIT 3988 3.00.

Course Substitutes

Subject to course exclusions, program requirements/restrictions, and residency requirements, the following courses are acceptable substitutes for the purpose of meeting BAS program requirements.

Program Course	Course Substitutes
AP/ADMS 1010 3.00	AP/ADMS 2420 3.00, AP/ADMS 2410 3.00
AP/ADMS 2600 3.00	AP/ADMS 3480 3.00
AP/ADMS 3530 3.00	AP/ECON 4400 3.00
AP/ADMS 4540 3.00	AP/ECON 4410 3.00

Program notes for BAS ITEC courses: the following chart refers only to courses completed prior to entry to the BAS program.

BAS ITEC Program Course	BAS ITEC program course substitutes if completed prior to entering the program
AP/ITEC 1620 3.00	SC/CSE 1020 3.00
AP/ITEC 2620 3.00	SC/CSE 1030 3.00
AP/ITEC 3220 3.00	SC/CSE 3421 3.00
AP/ITEC 3230 3.00	SC/CSE 3461 3.00
AP/ITEC 1000 3.00	Students who have successfully completed CSE courses prior to entering the program may replace ITEC 1000 3.00 with any CSE course that has already been used towards the fulfillment of another requirement. Should no course remain, students may replace ITEC 1000 3.00 with any ITEC course not specifically required for completion of the major core.
SC/MATH 2320 3.00 and SC/MATH 2565 3.00	SC/MATH 1550 6.00 completed prior to entering the program.
SC/MATH 2565 3.00	SC/MATH 2560 3.00, SC/MATH 2570 3.00, SC/MATH 1131 3.00 completed prior to entering the program.

Program notes for BAS: the following chart refers only to courses completed prior to entry to the BAS program.

BAS Program course	BAS course substitutes for Schulich courses complete prior to entering the program

Professional Certificate in Information Technology Auditing and Assurance

School of Information Technology/School of Administrative Studies
Contact: I. Spletstoesser-Hogeterp

Graduating with a certificate: Except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

a) Prerequisites for certificate:

- AP/ADMS 1000 3.00; AP/ECON 1000 3.00; AP/ADMS 2500 3.00; SC/MATH 1190 3.00.
and six credits as follows:
- AP/ADMS 2320 3.00 and AP/ADMS 3330 3.00 or
- SC/MATH 2320 3.00 and SC/MATH 2565 3.00 or
- AP/ECON 2500 3.00 and AP/ECON 3480 3.00.

b) Requirements: 42 credits including:

- AP/ADMS 2510 3.00;
- AP/ADMS 2511 3.00;
- AP/ADMS 4515 3.00;
- AP/ADMS 4517 3.00;
- AP/ADMS 4518 3.00;

- AP/ITEC 1000 3.00;
- AP/ITEC 1010 3.00;
- AP/ITEC 1620 3.00 or SC/CSE 1020 3.00;
- AP/ITEC 2610 3.00;
- AP/ITEC 3010 3.00;
- AP/ITEC 3210 3.00;
- AP/ITEC 3220 3.00 or SC/CSE 3421 3.00;
- AP/ITEC 3500 3.00;
- AP/ITEC 4030 3.00.

Note: to obtain a professional certificate offered by the School of Information Technology, at least 21 credits of the course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least half of the credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) Information Technology section.

International Development Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students in all international development studies degree options will complete a specified number of required core courses at the 1000, 2000, 3000 and 4000 levels. Some of the degree options require the completion of at least one introductory area studies course, intended to familiarize students with the social, political, economic and cultural dynamics of one region in the developing world. Students will also be required to complete a specified number of additional optional courses offered in various academic units at the 3000 and 4000 levels, chosen from at least two of the following areas of concentration:

- culture
- diasporas and migration
- environment
- gender
- political economy
- politics, governance and policy

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 60 credits including the following:

- AP/SOSC 1430 9.00;
- AP/SOSC 2800 6.00;
- six credits chosen from the following: AP/HUMA 1400 9.00, AP/HUMA 2310 9.00, AP/SOSC 2480 9.00, AP/SOSC 2460 9.00 or AP/SOSC 2435 6.00;
- AP/SOSC 3800 6.00;
- 18 credits, including at least six credits in each of three areas of concentration;
- AP/SOSC 4600 6.00;
- 12 credits at the 4000 level in two of the three areas of concentration.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 48 credits including the following:

- AP/SOSC 1430 9.00;
- AP/SOSC 2800 6.00;
- six credits chosen from the following: AP/HUMA 1400 9.00, AP/HUMA 2310 9.00, AP/SOSC 2480 9.00, AP/SOSC 2460 9.00 or AP/SOSC 2435 6.00;
- AP/SOSC 3800 6.00;
- 12 credits, including at least six credits in each of two areas of concentration;
- AP/SOSC 4600 6.00;
- six credits at the 4000 level in one of the two areas of concentration.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

International development studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in international development studies and at least 36 credits in the interdisciplinary program. Courses taken to meet international development studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in international development studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits in international development studies must include the following:

- AP/SOSC 1430 9.00;
- AP/SOSC 2800 6.00;
- AP/SOSC 3800 6.00;
- 12 credits, including at least six credits in each of two areas of concentration;
- AP/SOSC 4600 6.00.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional

Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in international development studies comprises at least 30 credits including the following:

- AP/SOSC 1430 9.00;
- AP/SOSC 2800 6.00;
- AP/SOSC 3800 6.00;
- 12 credits, including at least six credits in each of two areas of concentration, and including at least six credits at the 3000 or 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits including the following:

- AP/SOSC 1430 9.00;
- AP/SOSC 2800 6.00;
- AP/SOSC 3800 6.00;
- 12 credits, including at least six credits in each of two areas of concentration and including at least six credits at the 3000 or 4000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting international development studies program requirements:

Program Course	Course Substitutes
AP/SOSC 4600 6.00	AP/SOSC 4602 6.00

Areas of Concentration

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in international development studies.

Italian Culture

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in Italian culture including:

- 18 credits in mandatory core courses:
 - AP/IT 2751 9.00;
 - AP/IT 4750 6.00;
 - AP/IT 4775 6.00.
- 24 additional credits chosen from the Italian culture courses list.

Note: at least 12 credits in the major at the 4000 level.

Students must also satisfy a 6.00 credit Italian language requirement. This may be satisfied by either completing AP/IT 1000 6.00 (or AP/IT 1001 3.00 and AP/IT 1002 3.00) or demonstrating equivalent proficiency.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in Italian Culture including:

- 18 credits in mandatory core courses:
 - AP/IT 2751 9.00;
 - AP/IT 3775 6.00;
 - AP/IT 4750 6.00.
- 12 additional credits chosen from the Italian culture courses list.

Note: at least 12 credits in the major at the 3000 level or above.

Students must also satisfy a 6.00 credit Italian language requirement. This may be satisfied by either completing AP/IT 1000 6.00 (or AP/IT 1001 3.00 and AP/IT 1002 3.00) or demonstrating equivalent proficiency.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits in Italian Culture including:

- 18 credits in mandatory core courses:
 - AP/IT 2751 9.00;
 - AP/IT 3775 6.00;
 - AP/IT 4750 6.00.
- 12 additional credits chosen from the Italian culture courses list.

Note: at least six credit in the minor at the 4000 level.

Students must also satisfy a 6.00 credit Italian language requirement. This may be satisfied by either completing AP/IT 1000 6.00 (or AP/IT 1001 3.00 and AP/IT 1002 3.00) or demonstrating equivalent proficiency.

Upper-level credits: at least six credits in the minor must be at the 4000 level.

Italian Culture Courses

Not all of the courses listed below will necessarily be offered in any given year. For more information, please consult the relevant supplemental calendar.

Courses Taught in English

AP/IT 2761 9.00 (cross-listed to: AP/HUMA 2761 9.00)
 AP/IT 3201 6.00
 AP/HIST 3250 6.00
 AP/HIST 3350 6.00
 AP/HIST 3365 3.00
 AP/HIST 3391 6.00
 AP/HIST 4250 6.00
 AP/HUMA 2195 9.00
 AP/GL/WMST 3515 6.00
 FA/FACS 3450 3.00
 FA/VISA 2560 6.00 (cross-listed to: AP/HUMA 2140 6.00)
 AP/IT 3761 3.00 (offered only in the summer session)
 AP/IT 3771 3.00 (offered only in the summer session)

Language Courses

AP/IT 1000 6.00 (or AP/IT 1001 3.00 and AP/IT 1002 3.00)
 AP/IT 2000 6.00
 AP/IT 3000 6.00
 AP/IT 4000 6.00
 AP/IT 4190 3.00

With the approval of the program coordinator, students may complete other courses for credit in Italian culture. Subject to course exclusion and residency requirements, students may complete courses offered outside of the Faculty of Liberal Arts and Professional Studies for credit in choice of courses. Students who meet language and other prerequisites may take courses with an IT prefix that are taught in Italian studies.

Italian Studies

Literature courses counting toward a degree in Italian studies are divided into two groups:

Group A: Pre-19th Century Literature

- AP/IT 3200 6.00;
- AP/IT 3340 3.00;
- AP/IT 3350 6.00;
- AP/IT 3360 6.00;
- AP/IT 3370 6.00;
- AP/IT 3760 3.00;
- AP/IT 4210 3.00;
- AP/IT 4330 3.00;
- AP/IT 4350 3.00;
- AP/IT 4400 3.00;
- AP/IT 4550 3.00;
- AP/IT 4651 3.00;
- AP/IT 4652 3.00.

Group B: Literature of the 19th and 20th Centuries

- AP/IT 3750 6.00;
- AP/IT 3550 6.00;
- AP/IT 3770 3.00;
- AP/IT 3790 6.00;
- AP/IT 4200 6.00;
- AP/IT 4620 6.00;
- AP/IT 4651 3.00;
- AP/IT 4562 3.00.

Italian Linguistics

Courses in Italian linguistics are:

- AP/IT 3130 3.00;
- AP/IT 3150 3.00;
- AP/IT 4140 3.00;

- AP/IT 4150 3.00;
- AP/IT 4180 3.00;
- AP/IT 4190 3.00.

Note: courses offered under "Individualized Reading" will be considered as part of the relevant linguistics or literature category. With the exception of real beginners, prospective students of Italian must complete a language placement questionnaire prior to enrolment in any Italian language course.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in Italian studies, including the following:

(i) Core language requirement:

- 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.

(ii) Core literature requirement:

- six core literature credits as follows:
 - AP/IT 2200 6.00.

(iii) Core linguistics requirement:

- six core linguistics credits as follows:
 - AP/IT 2100 6.00.

(iv) Other courses:

- 30 credits (of which 12 credits must be at the 4000 level), as follows:
 - six credits in Italian linguistics;
 - 18 credits in literature (other than AP/IT 2200 6.00), of which at least six credits must be from of Group A and at least six credits must be from Group B;
 - any six additional credits at the 3000 or 4000 level.

Note: at least 12 credits in the major at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in Italian studies, including the following:

(i) Core language requirement:

- 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.

(ii) Core literature requirement:

- six core literature credits as follows:
 - AP/IT 2200 6.00.

(iii) Core linguistics requirement:

- six core linguistics credits as follows:
 - AP/IT 2100 6.00.

(iv) Other courses:

- 18 credits (of which 12 credits must be at the 4000 level), as follows:
 - six credits in Italian linguistics;
 - 12 credits in literature (other than AP/IT 2200 6.00), of which and at least six credits must be from of Group A and at least six credits must be from Group B.

Note: at least 12 credits in the major at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours Double Major Interdisciplinary BA Program described above may be pursued jointly with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in Italian and at least 36 credits in the interdisciplinary program. Courses taken to meet Italian requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in Italian and six credits the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students will take at least 36 credits in Italian, including the following:

(i) Core language requirement:

- 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.

(ii) Core literature requirement:

- six core literature credits as follows:
 - AP/IT 2200 6.00.

(iii) Core linguistics requirement:

- six core linguistics credits as follows:
 - AP/IT 2100 6.00.

(iv) Other courses:

- 12 credits (of which six credits must be at the 4000 level), as follows:
 - three credits in Italian linguistics;
 - six credits in literature (other than AP/IT 2200 6.00);
 - any three additional credits at the 3000 or 4000 level.

Note: at least 12 credits in the major at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional

Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits in Italian studies, including the following:

(i) Core language requirement:

- 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.

(ii) Core literature requirement:

- six core literature credits as follows:
 - AP/IT 2200 6.00.

(iii) Core linguistics requirement:

- six core linguistics credits as follows:
 - AP/IT 2100 6.00.

(iv) Other courses:

- six credits as follows:
 - six credits in Italian literature at the 4000 level from either Group A or Group B.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in Italian studies, including the following:

(i) Core language requirement:

- 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.

(ii) Core literature requirement:

- six core literature credits as follows:
 - AP/IT 2200 6.00.

(iii) Core linguistics requirement:

- six core linguistics credits as follows:
 - AP/IT 2100 6.00.

(iv) Other courses:

- six credits as follows:
 - six credits in Italian literature at the 4000 level from either Group A or Group B.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in Italian studies, including the following:

- (i) Core language requirement:
 - 12 core language credits as follows:
 - AP/IT 2000 6.00 or AP/IT 2030 6.00;
 - AP/IT 3000 6.00 or AP/IT 3030 6.00 or AP/IT 3050 6.00.
- (ii) Core literature requirement:
 - six core literature credits as follows:
 - AP/IT 2200 6.00.
- (iii) Core linguistics requirement:
 - six core linguistics credits as follows:
 - AP/IT 2100 6.00.
- (iv) Other courses:
 - 18 credits (of which 12 credits must be at the 4000 level), as follows:
 - six credits in Italian linguistics;
 - 12 credits in literature (other than AP/IT 2200 6.00), of which six credits must be from Group A and of which six credits must be from Group B.

Note: at least 12 credits in the major at the 4000 level.

In addition to the courses required for their major, students in the Honours iBA Program must fulfill the following requirements:

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners in Italy.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program in Italian studies described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Certificate of Proficiency in Italian Language Level One (Beginner Range)

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have

successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Italian Language Level One (Beginner Range) concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is open to students pursuing an Honours Minor degree in Italian culture. This certificate is not, however, open to students who are pursuing or who already hold a degree in Italian studies or Italian culture.

To apply for the certificate, students must have successfully completed at least nine credits in Italian language courses in the Department of Languages, Literatures and Linguistics as follows:

- AP/IT 1001 3.00;
- AP/IT 1002 3.00 and
- AP/IT 1003 3.00 with a minimum grade of B.

Course Equivalencies for Level One Certificate	
AP/IT 1000 6.00	AP/IT 1001 3.00 and AP/IT 1002 3.00

Note: students who are exempted from an intermediate level language course must take another upper-level course in Italian.

Certificate of Proficiency in Italian Language Level Two (Intermediate Range)

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Italian Language Level Two (Intermediate Range) concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is open to students pursuing an Honours Minor degree in Italian culture. This certificate is not, however, open to students who are pursuing or who already hold a degree in Italian studies or Italian culture.

To apply for the certificate, students must have successfully completed at least 12 credits in Italian language courses in the Department of Languages, Literatures and Linguistics as follows:

- AP/IT 1000 6.00 and
- AP/IT 2000 6.00 with a minimum grade of B.

Course Equivalencies for Level Two Certificate	
AP/IT 1000 6.00	AP/IT 1001 3.00 and AP/IT 1002 3.00
AP/IT 2000 6.00	AP/IT 2030 6.00 ^a

- a. Students who take AP/IT 2030 6.00 may not take AP/IT 3030 6.00.

Note: students who are exempted from an intermediate level language course must take another upper level course in Italian.

Certificate of Proficiency in Italian Language Level Three (Advanced Range)

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Italian Language Level Three (Advanced Range) concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is open to students pursuing an Honours Minor degree in Italian culture. This certificate is not, however, open to students who are pursuing or who already hold a degree in Italian studies or Italian culture.

To apply for the certificate, students must have successfully completed at least 18 credits in Italian language courses in the Department of Languages, Literatures and Linguistics as follows:

- AP/IT 1000 6.00;
- AP/IT 2000 6.00 and
- AP/IT 3000 6.00 with a minimum grade of B.

Course Equivalencies for Level Three Certificate	
AP/IT 1000 6.00	AP/IT 1001 3.00 and AP/IT 1002 3.00
AP/IT 2000 6.00	AP/IT 2030 6.00 ^a
AP/IT 3000 6.00	AP/IT 3030 6.00

a. Students who take AP/IT 2030 6.00 may not take AP/IT 3030 6.00.

Note: students who are exempted from an intermediate level language course must take another upper level course in Italian.

Japanese

The Department of Languages, Literatures and Linguistics does not offer a degree program but does offer a certificate of language proficiency and courses in Japanese. Refer to Japanese in the Courses of Instruction section.

Certificate of Proficiency in Japanese Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Japanese Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible

according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Japanese.

To apply for the certificate, students must have completed at least 12 credits in Japanese language in the Department of Languages, Literature and Linguistics as follows:

- AP/JP 2000 6.00;
- AP/JP 3000 6.00 with a minimum grade of B+.

Note: students who are exempted from the intermediate level language course must take another course taught in Japanese.

Jamaican Creole

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in Jamaican Creole. Refer to Jamaican Creole in the Courses of Instruction section.

Jewish Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

For a complete list of courses and detailed reading lists, refer to the program's supplemental calendar.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 57 credits in Jewish studies including:

- AP/HUMA 2850 9.00;
- AP/HUMA 3831 3.00;
- a minimum of 18 credits in Hebrew (*Note: students with proven proficiency in Hebrew will complete 18 credits from the list of courses where the language of instruction and/or texts are in Hebrew or in another Jewish language, for example, Yiddish.*);
- a minimum of 18 credits at the 4000 level.

Students must take six credits from each of the five categories listed below:

- Antiquity to the Middle Ages
- Early Modern to Contemporary Studies
- Literature, Culture and the Arts
- History and Social Sciences
- Classical Jewish Texts

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Note: Jewish studies courses that are listed under more than one of the categories noted above may satisfy more than one of the requirements noted above. (Example: AP/HIST 4100 6.00 may count towards the required 18 credits at the 4000 level as well as the required six credits in both the Antiquity to the Middle Ages category and the History and Social Sciences category.)

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take will take at least 42 credits in Jewish studies including:

- AP/HUMA 2850 9.00;
- AP/HUMA 3831 3.00;
- a minimum of 12 credits in Hebrew (*Note: students with proven proficiency in Hebrew will complete 12 credits from the list of courses where the language of instruction and/or texts are in Hebrew or in another Jewish language, for example, Yiddish.*);
- a minimum of 12 credits at the 4000 level.

Students must take six credits from each of the five categories listed below:

- Antiquity to the Middle Ages
- Early Modern to Contemporary Studies
- Literature, Culture and the Arts
- History and Social Sciences
- Classical Jewish Texts

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Note: Jewish studies courses that are listed under more than one of the categories noted above may satisfy more than one of the requirements noted above. (Example: AP/HIST 4100 6.00 may count towards the required 12 credits at the 4000 level as well as the required six credits in both the Antiquity to the Middle Ages category and the History and Social Sciences category.)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary BA

Note: students may complete a maximum of 12 credits at the 1000 level and 2000 level in Jewish studies courses for major credit in Jewish studies.

Jewish studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in Jewish studies and at least 36 credits in the interdisciplinary program. Courses taken to meet Jewish studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level including at least 12 credits in Jewish studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students will take will take at least 42 credits in Jewish studies including:

- AP/HUMA 2850 9.00;
- AP/HUMA 3831 3.00;
- a minimum of 12 credits in Hebrew (*Note: students with proven proficiency in Hebrew will complete 12 credits from the list of courses where the language of instruction and/or texts are in Hebrew or in another Jewish language, for example, Yiddish.*);
- a minimum of 12 credits at the 4000 level.

Students must take six credits from each of the five categories listed below:

- Antiquity to the Middle Ages
- Early Modern to Contemporary Studies
- Literature, Culture and the Arts
- History and Social Sciences
- Classical Jewish Texts

Note: Jewish studies courses that are listed under more than one of the categories noted above may satisfy more than one of the requirements noted above. (Example: AP/HIST 4100 6.00 may count towards the required 12 credits at the 4000 level as well as the required six credits in both the Antiquity to the Middle Ages category and the History and Social Sciences category.)

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 33 credits in Jewish studies, including:

- AP/HUMA 2850 9.00;
- AP/HUMA 3831 3.00;
- 24 additional credits in Jewish studies.

Note: at least six credits in the minor at the 4000 level.

Korean

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate of language proficiency but does offer language courses in Korean and courses on Korean culture and literature. Refer to Korean in the Courses of Instruction section.

Labour Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

To count for labour studies major or minor credit, AP/SOSC 1510 9.00 must be completed within a student's first 36 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in labour studies including the following:

- AP/SOSC 2210 9.00;

- 18 credits chosen from the following: AP/SOSC 1510 9.00, AP/SOSC 3130 6.00, AP/SOSC 3210 6.00, AP/SOSC 3240 3.00, AP/SOSC 3241 3.00, AP/SOSC 3380 6.00, AP/SOSC 3815 3.00, AP/SOSC 3980 3.00, AP/SOSC 3981 3.00 or AP/SOSC 3993 3.00;
- six additional credits at the 3000 or 4000 level chosen from the labour studies list of courses;
- AP/SOSC 4210 6.00;
- AP/SOSC 4240 6.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Labour studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in labour studies and at least 36 credits in the interdisciplinary program. Courses taken to meet labour studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in labour studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits in labour studies must include:

- AP/SOSC 2210 9.00;
- 24 additional credits from the labour studies list of courses, including at least 12 credits chosen from the following: AP/SOSC 1510 9.00, AP/SOSC 3130 6.00, AP/SOSC 3210 6.00, AP/SOSC 3240 3.00, AP/SOSC 3241 3.00, AP/SOSC 3380 6.00, AP/SOSC 3815 3.00, AP/SOSC 3980 3.00, AP/SOSC 3981 3.00 or AP/SOSC 3993 3.00;
- AP/SOSC 4210 6.00.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in labour studies comprises at least 30 credits including the following:

- AP/SOSC 2210 9.00;
- 12 credits chosen from the following: AP/SOSC 1510 9.00, AP/SOSC 3130 6.00, AP/SOSC 3210 6.00, AP/SOSC 3240 3.00, AP/SOSC 3241 3.00, AP/SOSC 3380 6.00, AP/SOSC 3815 3.00, AP/SOSC 3980 3.00, AP/SOSC 3981 3.00 or AP/SOSC 3993 3.00;
- six additional credits at the 3000 or 4000 level chosen from the labour studies list of courses;
- AP/SOSC 4210 6.00 or AP/SOSC 4240 6.00.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits:

- AP/SOSC 2210 9.00;
- 18 credits chosen from the following: AP/SOSC 1510 9.00, AP/SOSC 3130 6.00, AP/SOSC 3210 6.00, AP/SOSC 3240 3.00, AP/SOSC 3241 3.00, AP/SOSC 3380 6.00, AP/SOSC 3815 3.00, AP/SOSC 3980 3.00, AP/SOSC 3981 3.00 or AP/SOSC 3993 3.00;
- six additional credits at the 3000 or 4000 level chosen from the labour studies list of courses.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Labour Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in labour studies.

Note: all non-history majors must apply to enrol in 4000-level history courses through the Department of History.

Languages, Literatures and Linguistics

The Department of Languages, Literatures and Linguistics offers language, linguistics, culture and literature courses in the following:

- Arabic
- Chinese
- German
- Classical Greek
- Modern Greek
- Hebrew
- Hindi-Urdu
- Italian
- Japanese
- Jamaican Creole
- Korean
- Latin
- Portuguese
- Russian
- Spanish
- Swahili
- Tamil
- Yiddish

In addition the department offers beginning courses in American Sign Language, Classical Greek, English as a second language, Latin and linguistics.

The following degree programs are associated with the Department of Languages, Literatures and Linguistics:

- German Studies
- Italian Studies
- Italian Culture
- Linguistics
- Portuguese Studies
- Russian
- Russian Studies
- Spanish

East Asian studies offers a degree program with a concentration in Chinese, Japanese or Korean, while the degree program in Hellenic studies includes courses in Classical and Modern Greek.

The Department of Languages, Literatures and Linguistics also offers the following certificate programs:

- Advanced Certificate in Hebrew and Jewish Studies
- Certificate of Proficiency in Chinese Language
- Certificate of Proficiency in German Language

- Certificate of Proficiency in Italian Language Level One (Beginner Range)
- Certificate of Proficiency in Italian Language Level Two (Intermediate Range)
- Certificate of Proficiency in Italian Language Level Three (Advanced Range)
- Certificate of Proficiency in Japanese Language
- Certificate of Proficiency in Modern Greek Language
- Certificate of Proficiency in Portuguese Language
- Certificate of Proficiency in Russian Language
- Certificate of Proficiency in Spanish Language
- Certificate in Teaching English to Speakers of Other Languages (TESOL)

For more information, please consult the listings for specific programs and certificates.

Notes:

1. *Students who are exempted from one or more of the courses required for the degree must still complete the total number of credits required for the program. Please consult the department's annual supplemental calendar for more detailed information regarding degree requirements.*
2. *Students who wish to take their 54th through 84th credits abroad should consult the appropriate section coordinator and International@York prior to December 15 of the previous academic session.*

Language and Learning

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does a course in Language and Learning. Refer to Language and Learning in the Courses of Instruction section.

Latin

The Department of Languages, Literature and Linguistics offer first-year Latin. Upper-level courses in Latin and courses in literature, history and culture are offered by the program in Classical Studies.

Note: refer to Classical Studies and/or Classics.

Latin American and Caribbean Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours Double Major Interdisciplinary (Linked) BA

The Latin American and Caribbean Studies program is an Honours Double Major Interdisciplinary BA program. Latin American and Caribbean studies majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health. Students must take at least 36 credits in the Latin American and Caribbean Studies program and at least 36 credits in the co-major according to the requirements and regulations specified by each department/discipline for an Honours Double Major Interdisciplinary BA program. Courses taken to meet Latin American and Caribbean studies requirements cannot also be used to meet the requirements of the departmental major. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in Latin American and Caribbean studies and six credits in the departmental major. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: the 36 credits in Latin American and Caribbean studies must include the following:

- AP/HUMA 2310 9.00 or AP/SOSC 2460 9.00;
- 24 credits chosen from the list of Latin American and Caribbean studies courses;
- six credits in Latin American and Caribbean studies at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in Latin American and Caribbean studies comprises at least 30 credits including the following:

- AP/HUMA 2310 9.00 or AP/SOSC 2460 9.00;
- 18 credits chosen from the list of Latin American and Caribbean studies courses;
- six credits at the 4000 level chosen from the list of Latin American and Caribbean studies courses.

All Latin American and Caribbean studies majors/minors should arrange their program of study in consultation with the program coordinator and their co-major.

In addition to their course work, students registered in Latin American and Caribbean studies must satisfy a language requirement by demonstrating a working knowledge of either Spanish, Portuguese, French or another language (other than English) spoken in Latin America and the Caribbean which is relevant to the student's program of study. Students may satisfy this requirement by translating into English a text of no more than two pages in length. Alternatively, they may complete a university-level language course (at a level determined by a departmental placement test) with a final grade of C+ or higher. Language courses do not count toward the 36 credits required of Latin American and Caribbean studies majors.

Note: at least six credits in the minor must be at the 4000 level.

Latin American and Caribbean Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in Latin American and Caribbean studies.

Law and Society

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Students may count a maximum of six credits of either AP/SOSC 1210 9.00 or AP/SOSC 1350 9.00 for major credit in law and society.

Students must achieve a minimum grade of C+ (5.00) in AP/SOSC 2350 6.00 Law and Society in order to continue in, and graduate from, the program.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits in law and society, including:

- AP/SOSC 1375 3.00;
- AP/SOSC 2350 6.00;
- 12 credits chosen from: AP/SOSC 1210 9.00, AP/SOSC 1350 9.00, AP/SOSC 3360 6.00, AP/SOSC 3362 6.00, AP/SOSC 3370 6.00, AP/SOSC 3380 6.00, AP/SOSC 2652 6.00, AP/SOSC 3391 6.00, AP/SOSC 3392 6.00, AP/SOSC 3653 3.00, AP/SOSC 3992 6.00, AP/SOSC 3993 3.00;
- AP/SOSC 3375 3.00;
- at least one six credit capstone course chosen from the AP/SOSC 4350 6.00 to AP/SOSC 4362 6.00 series of courses;
- 12 additional credits chosen from either the core or extended list of law and society list of courses, including at least six credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must complete at least 42 credits in law and society, including:

- AP/SOSC 1375 3.00;
- AP/SOSC 2350 6.00;
- 12 credits chosen from: AP/SOSC 1210 9.00, AP/SOSC 1350 9.00, AP/SOSC 3360 6.00, AP/SOSC 3362 6.00, AP/SOSC 3370 6.00, AP/SOSC 3380 6.00, AP/SOSC 2652 6.00, AP/SOSC 3391 6.00, AP/SOSC 3392 6.00, AP/SOSC 3992 6.00, AP/SOSC 3993 3.00;
- AP/SOSC 3375 3.00;
- at least one six credit capstone course chosen from the AP/SOSC 4350 6.00 to AP/SOSC 4362 6.00 series of courses;
- 18 additional credits chosen from either the core or extended list of law and society list of courses, including at least six credits at the 4000 level.

Honours Double Major Interdisciplinary (Linked) BA

Law and society may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in law and society and at least 36 credits in the interdisciplinary program. Courses taken to meet the law and society requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in law and society and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours (Double Major) Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 42 credits in law and society must include the following:

- AP/SOSC 1375 3.00;
- AP/SOSC 2350 6.00;
- 12 credits chosen from: AP/SOSC 1210 9.00, AP/SOSC 1350 9.00, AP/SOSC 3360 6.00, AP/SOSC 3362 6.00, AP/SOSC 3370 6.00, AP/SOSC 3380 6.00, AP/SOSC 2652 6.00, AP/SOSC 3391 6.00, AP/SOSC 3392 6.00, AP/SOSC 3653 3.00, AP/SOSC 3992 6.00, AP/SOSC 3993 3.00;
- AP/SOSC 3375 3.00;
- at least one six credit capstone course chosen from the AP/SOSC 4350 6.00 to AP/SOSC 4362 6.00 series of courses;
- 12 additional credits chosen from either the core or extended list of law and society list of courses, including at least six credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Major credits: students must complete at least 42 credits in law and society, including:

- AP/SOSC 1375 3.00;
- AP/SOSC 2350 6.00;
- 12 credits chosen from: AP/SOSC 1210 9.00, AP/SOSC 1350 9.00, AP/SOSC 3360 6.00, AP/SOSC 3362 6.00, AP/SOSC 3370 6.00, AP/SOSC 3380 6.00, AP/SOSC 2652 6.00, AP/SOSC 3391 6.00, AP/SOSC 3392 6.00, AP/SOSC 3653 3.00, AP/SOSC 3992 6.00, AP/SOSC 3993 3.00;
- AP/SOSC 3375 3.00;
- at least one six credit capstone course chosen from the AP/SOSC 4350 6.00 to AP/SOSC 4362 6.00 series of courses;
- 12 additional credits chosen from either the core or extended list of law and society list of courses, including at least six credits at the 4000 level.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Students who complete any one of the Honours BA programs in law and society may apply to enter the Court and Tribunal Administration program or the Legal Assistant program offered by Seneca College of Applied Arts and Technology. York students are required to complete specific courses within the law and society program in order to be eligible for admission consideration to the abbreviated one year diploma program at Seneca College. For more information about specific law and society course requirements, consult the law and society supplemental calendar or contact the law and society program coordinator. For more information about the Seneca College program, contact the director, Court and Tribunal Administration Program, Seneca College.

Students applying for admission to York University on the basis of their Seneca College Diploma in Court and Tribunal Administration are expected to satisfy the admission requirements of the session to which they are applying.

Law and Society Courses (Extended List)

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in law and society. This includes law and society core courses taken beyond the 12 required core credits.

General Certificate in Law and Society

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a General Certificate in Law and Society concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is not, however, open to students who are pursuing or who already hold a degree in law and society.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the General Certificate in Law and Society, students must complete 24 credits from a list of approved law and society courses, and the cumulative grade point average in these 24 credits must be 5.00 (C+) or higher.

Course requirements for the general certificate are as follows: AP/SOSC 2350 6.00 and 18 additional credits from among the courses recognized as satisfying the degree requirements in the Law and Society program. At least six credits must be taken at the 4000 level. A maximum of 12 credits may be offered by the Department of Political Science. Courses taken may not be used to fulfill both the public policy and administration degree and the General Certificate in Law and Society. For a current list of approved courses, refer to the law and society section. Further information about the General Certificate in Law and Society is available from the coordinator of the Law and Society program.

Linguistics

In any of the programs described below, a student taking both AP/LING 1000 6.00 and AP/LING 2060 6.00 will be required to complete an additional three credits in linguistics to satisfy the linguistics component of the degree.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in linguistics, including:

- AP/LING 1000 6.00;
- AP/LING 2110 3.00;
- AP/LING 2120 3.00;
- AP/LING 2130 3.00;
- AP/LING 2140 3.00;
- AP/LING 3120 3.00;
- AP/LING 3140 3.00;
- 30 additional credits in linguistics (LING), including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in linguistics, including:

- AP/LING 1000 6.00;
- AP/LING 2110 3.00;
- AP/LING 2120 3.00;
- AP/LING 2130 3.00;
- AP/LING 2140 3.00;
- AP/LING 3120 3.00;
- AP/LING 3140 3.00;
- 18 additional credits in linguistics (LING), including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Linguistics may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in linguistics and at least 36 credits in the interdisciplinary program. Courses taken to meet linguistics requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in linguistics and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students will take at least 36 credits in linguistics, including:

- AP/LING 1000 6.00;

- AP/LING 2110 3.00;
- AP/LING 2120 3.00;
- AP/LING 2130 3.00;
- AP/LING 2140 3.00;
- AP/LING 3120 3.00;
- AP/LING 3140 3.00;
- 12 additional credits in linguistics (LING), including at least six credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Minor credits: the Honours Minor in linguistics comprises at least 30 credits in linguistics, including:

- AP/LING 1000 6.00;
- AP/LING 2110 3.00;
- AP/LING 2120 3.00;
- AP/LING 2130 3.00;
- AP/LING 2140 3.00;
- AP/LING 3120 3.00 or AP/LING 3140 3.00;
- nine additional credits in linguistics (LING), including at least six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in linguistics, including:

- AP/LING 1000 6.00;
- AP/LING 2110 3.00;
- AP/LING 2120 3.00;
- AP/LING 2130 3.00;
- AP/LING 2140 3.00;
- AP/LING 3120 3.00 or AP/LING 3140 3.00;
- nine additional credits in linguistics (LING) at the 3000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting linguistics program requirements:

Program Course	Course Substitutes
AP/LING 1000 6.00	GL/EN 2605 6.00 (cross-listed to: GL/LIN 2605 6.00)

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other GL/LIN courses for program credit in linguistics in the Faculty of Liberal Arts and Professional Studies.

Professional Certificate in Logistics

School of Administrative Studies

Contacts: M. Karakul and H. Quadrat-Ullah

Logistics industry has seen a tremendous growth: in 1995, the supply chain activities contributed to 35 per cent of GDP of Canada. Organizations are compelled to seek individuals with sound knowledge of logistics functions and decision making capabilities to manage the flow of materials and information across the supply chain. The Logistics Certificate helps you prepare for the challenges of integrated logistics management by providing theoretical and practical approaches to operations management, purchasing, distribution, decision analysis, systems thinking, and supply chain management.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Note: students beginning this certificate must have successfully completed any 12U math, or the equivalent, within the last five years prior to starting the core requirements.

Requirements: 39 credits including:

a) Prerequisites for core requirements:

- AP/ADMS 1000 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 2500 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00.

b) Core requirements:

- AP/ADMS 1010 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 3300 3.00*;
- AP/ADMS 3331 3.00;
- AP/ADMS 3360 3.00;
- AP/ADMS 4333 3.00;
- AP/ADMS 4360 3.00;
- AP/ADMS 3345 3.00 or AP/ADMS 4345 3.00.

*Students who are required to complete AP/ADMS 3300 3.00 as part of the requirements of their degree program should take AP/ADMS 3351 3.00 in order to fulfill the requirement that 18 of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy the requirements of a degree.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Professional Certificate in Management

School of Administrative Studies

Contact: R. Hoffman

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 42 credits including:

a) Prerequisites for core requirements:

- AP/ADMS 1000 3.00.

b) Core requirements: - 18 credits including:

- AP/ADMS 2400 3.00;
- AP/ADMS 2500 3.00 or AP/ADMS 1500 3.00;
- AP/ECON 1000 3.00;
- AP/ADMS 3900 3.00 or AP/ADMS 3920 3.00;
- AP/ADMS 3930 3.00;
- AP/ADMS 4010 3.00.

21 credits chosen from the following:

- AP/ADMS 1010 3.00;
- AP/ADMS 2200 3.00;
- AP/ADMS 2320 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 2511 3.00;
- AP/ADMS 2600 3.00 (cross-listed to: AP/HRM 2600 3.00);
- AP/ADMS 2610 3.00;
- AP/ADMS 3300 3.00;
- AP/ADMS 3330 3.00;
- AP/ADMS 3440 3.00 (cross-listed to: AP/HRM 3440 3.00);
- AP/ADMS 3450 3.00 (cross-listed to: AP/HRM 3450 3.00);
- AP/ADMS 3530 3.00;
- AP/ECON 1010 3.00.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Professional Certificate in Marketing

School of Administrative Studies

Contact: M. Maute

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are

simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 30 credits including:

a) Core requirements:

- AP/ADMS 2200 3.00*;
- AP/ADMS 3220 3.00;
- AP/ADMS 4220 3.00;
- AP/ADMS 4250 3.00;
- AP/ADMS 4260 3.00.

15 credits chosen from the following:

- AP/ADMS 3000 3.00;
- AP/ADMS 3280 3.00;
- AP/ADMS 4000 3.00;
- AP/ADMS 4210 3.00;
- AP/ADMS 4211 3.00;
- AP/ADMS 4215 3.00;
- AP/ADMS 4220 3.00;
- AP/ADMS 4225 3.00;
- AP/ADMS 4230 3.00;
- AP/ADMS 4235 3.00;
- AP/ADMS 4240 3.00;
- AP/ADMS 4245 3.00;
- AP/ADMS 4255 3.00;
- AP/ADMS 4265 3.00;
- AP/ADMS 4275 3.00;
- AP/ADMS 4280 3.00;
- AP/ADMS 4285 3.00;
- AP/ADMS 4286 3.00;
- AP/ADMS 4290 3.00;
- AP/ADMS 4295 6.00.

*This course must be passed at a minimum grade of C+ to continue in the certificate.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Modes of Reasoning

The Faculty of Liberal Arts and Professional Studies does not offer a degree or certificate in modes of reasoning, but offers courses.

Note: AP/MODR 1000-level courses are part of the general education requirement.

The overall purpose of all modes of reasoning courses is to enable students to develop critical skills applicable to the analysis of texts, to arguments encountered in every day situations, and to concrete problems. The first half of every course will be devoted to learning analytical techniques. Use and misuse of language will be examined. Conceptual, factual and evaluative issues will be distinguished. The basic forms of reasoning, their uses and limits will be analyzed. Fallacies which are frequently found in ordinary discussion, academic texts, mass media, advertising etc. will be carefully studied. The avoidance of these fallacies and learning techniques of conceptual analysis will be a major concern of this half. The aim is to help students to reason correctly and to express themselves clearly and precisely in verbal and written form. The second half of each course will be concerned with putting into practice the techniques learned from the first half. Students will be given ample opportunity to apply their critical skills on concrete materials and practical issues. For this purpose different modes courses use examples drawn from different areas. The following courses reflect the difference in focus in the second half.

Note: students are advised before registering in a course to consult the detailed course outlines on the Internet. This is particularly important whenever two or more sections of a course are being offered in any particular session as important differences of emphasis may exist relating both to content and methodology.

Certificate in Non-Profit Management

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a Certificate in Non-Profit Management concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is open to students in all undergraduate Faculties except for students enrolled in the Schulich School of Business Bachelor of Business Administration program or the Bachelor of Administrative Studies (BAS) program. Students may not earn both a Certificate in Business Fundamentals and a Certificate in Non-Profit Management.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the Certificate in Non-Profit Management, students must complete 24 credits from a list of approved courses, with a cumulative grade point average in these 24 credits of at least 5.00 (C+).

Application to the Certificate in Non-Profit Management may be made only after successfully completing at least 54 credits, and the successful completion of the following course requirements with a minimum overall grade point average of 5.00 (C+).

Course requirements, and application and admission requirements for the Certificate in Non-Profit Management, are as follows:

- at least three credits in economics chosen from: AP/ECON 1000 3.00, AP/ECON 1010 3.00 or AP/ECON 1900 3.00;
- at least three credits in statistics or research methods chosen from: AP/ECON 2500 3.00, AP/MATH 2560 3.00, AP/POLS 3300 6.00, HH/PSYC 2020 6.00, HH/PSYC 2021 3.00, AP/SOCI 3030 6.00, AP/SOSC 3800 6.00, AP/SOSC 3991 6.00 or AP/SOSC 3993 3.00;
- at least six credits chosen from: AP/ANTH 1110 6.00, AP/POLS 1000 6.00 (cross-listed to: AP/PPAS 1000 6.00), AP/POLS 3190 6.00 (cross-listed to: AP/PPAS 3190 6.00), AP/SOSC 1185 9.00, AP/SOSC 1310 9.00, AP/SOSC 1430 9.00, AP/SOSC 2110 6.00, AP/SOSC 2210 9.00, AP/SOSC 2340 9.00, AP/SOSC 2435 6.00, AP/SOSC 2460 9.00, AP/SOSC 2470 6.00, AP/SOSC 2480 9.00, AP/SOSC 2710 9.00 or AP/SOCI 1010 6.00.

Note: students may take courses through Glendon College, subject to course credit exclusion(s) and residency requirements.

Students in an undergraduate program who have successfully completed at least 54 credits with an overall grade point average of 5.00 (C+), and who will also have successfully completed the requirements listed above by June 1, may apply to the Certificate in Non-Profit Management by May 31 of the year these requirements will be completed.

The minimum acceptable overall grade point average for application and possible admission is 5.00 (C+). Since there are a limited number of spaces available, successful admission will be based primarily on the applicant's overall grade point average.

If admitted, students must successfully complete the following courses offered by the Schulich School of Business in the following sequence and over two academic sessions:

- SB/NPMG 3000 3.00;
- SB/NPMG 3200 3.00;

- SB/NPMG 4100 3.00;
- SB/NPMG 4300 3.00.

In order to graduate with the Certificate in Non-Profit Management, students must maintain an overall grade point average of 5.00 (C+) in certificate courses.

Philosophy

While there are no particular courses required for the philosophy degree, it is strongly recommended that honours majors take the following courses: AP/PHIL 2010 3.00, AP/PHIL 2015 3.00, AP/PHIL 2020 3.00, AP/PHIL 2025 3.00 and AP/PHIL 2100 3.00. All majors should also consult the undergraduate program director concerning course selection and design of individual programs.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: with the advice of the department, students will take at least 54 credits in philosophy, including at least 30 credits at the 3000 or 4000 level, including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in philosophy, including at least 18 credits at the 3000 or 4000 level, including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Philosophy may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must take at least 36 credits in philosophy and at least 36 credits in the interdisciplinary program. Courses taken to meet philosophy requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in philosophy and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Minor credits: the Honours Minor in philosophy comprises at least 30 credits in philosophy, including at least six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must take at least 30 credits in philosophy including at least 12 credits at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Political Science

The Department of Political Science also offers a Specialized Honours degree in global political studies. For details refer to the section on Global Political Studies.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 54 credits in political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 18 credits at the 3000 level;
- 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 12 credits at the 3000 level;
- 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must complete at least 48 credits in political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 12 credits at the 3000 level;
- 12 credits at the 4000 level.

Honours Double Major Interdisciplinary (Linked) BA

Political science may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 48 credits in political science and at

least 36 credits in the interdisciplinary program. Courses taken to meet political science requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in political science and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 48 credits in political science must include:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 12 credits at the 3000 level;
- 12 credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in political science comprises at least 30 credits, including:

- AP/POLS 1000 6.00;
- 12 credits chosen from the following: AP/POLS 2900 6.00, AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- six political science credits at the 3000 level;
- six political science credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 30 credits in political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- six credits chosen from the following: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 12 credits at the 3000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Specialized Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 54 credits in political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 18 credits at the 3000 level;
- 12 credits at the 4000 level.

In addition, students in the Specialized Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Specialized Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement.*)

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits in political science, including:

- AP/POLS 1000 6.00;
- AP/POLS 2900 6.00;
- 12 credits chosen from: AP/POLS 2910 6.00, AP/POLS 2940 6.00 or AP/POLS 2950 6.00;
- 12 credits at the 3000 level;
- 12 credits at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting political science program requirements:

Program Course	Course Substitutes
AP/POLS 1000 6.00	GL/POLS 1400 6.00
AP/POLS 2910 6.00	GL/CDNS 2600 6.00/GL/POLS 2600 6.00
AP/POLS 2940 6.00	GL/ILST 2300 3.00
AP/POLS 2950 6.00	GL/ILST 2300 3.00

Portuguese

The Department of Languages, Literatures and Linguistics offers courses leading to a BA degree program in Portuguese Studies. The department also offers a Certificate of Language Proficiency in Portuguese Language.

Portuguese Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Students who are exempted from Portuguese language courses based on their knowledge of Portuguese must still successfully complete the total number of credits required for the major or minor in Portuguese studies.

Students without prior knowledge of Portuguese must complete AP/POR 1000 6.00, Elementary Portuguese. This course will count for degree credit but not for Portuguese studies major credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits in Portuguese studies including the following:

- AP/POR 2000 6.00;
- AP/POR 3000 6.00;
- AP/POR 2600 6.00;
- 12 additional credits chosen from the list of Portuguese studies courses, of which at least six credits with a POR designation must be at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level. Students may take a maximum of six credits from the list of additional courses with a Lusophone emphasis.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in Portuguese studies including the following:

- AP/POR 2000 6.00;
- AP/POR 3000 6.00;
- AP/POR 2600 6.00;
- 12 additional credits chosen from the list of Portuguese studies courses including at least six credits with the POR designation at the 3000 level or 4000 level.

Note: at least 12 credits in the major at the 3000 level or above,

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Note: students may take a maximum of six credits from the list of additional courses with a Lusophone emphasis.

Certificate of Proficiency in Portuguese Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the

requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Portuguese Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Portuguese.

To apply for the certificate, students must have successfully completed at least 12 credits in Portuguese language in the Department of Languages, Literatures and Linguistics as follows:

- AP/POR 2000 6.00 with a minimum grade of B;
- and AP/POR 3000 6.00 with a minimum grade of B;
- and a written examination and an oral interview.

Note: students who are exempted from an intermediate level language course must take another course taught in Portuguese.

General Certificate in Practical Ethics

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a General Certificate in Practical Ethics concurrent with fulfillment of the requirements for a bachelor's degree. Practical ethics is an exciting new area of multidisciplinary study and research which provides the opportunity to apply ethical concepts and principles to contemporary social issues. The courses offered as part of the General Certificate in Practical Ethics enable students to address questions of applied ethics and public policy in the fields of anthropology, economics, environmental studies, humanities, philosophy, political science, social science and sociology.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the General Certificate in Practical Ethics, students must complete 24 credits and the **cumulative grade point average on these 24 credits must be at least 5.00 (C+)**. Course requirements for the General Certificate in Practical Ethics are as follows:

- AP/PHIL 2070 3.00 and AP/PHIL 2075 3.00;
- and 18 additional credits from the Practical Ethics Certificate list of courses, of which, at least six credits must be taken at the 3000 or 4000 level. These 18 credits must be chosen so as to ensure a focus.

A maximum of six credits may be taken at the 1000 level. Twelve of the 24 credits must be taken outside the Department of Philosophy.

Students must register for the certificate, and written approval of a member of the advisory group for the certificate must be obtained. Such approval is conditional on the student submitting an acceptable written justification of their intended course selection. Equivalent courses must be approved by the coordinator. Students must indicate their intention to pursue the certificate by completing an enrolment form available from the Department of Philosophy.

Practical Ethics Certificate Courses

Not all of the courses listed below will necessarily be offered in any given year.

Certificate in Professional Ethics

Department of Philosophy

Contact: J. Keeping

Ethical issues are becoming increasingly central to almost all areas of professional and public life. As work becomes faster, more technologically and bureaucratically complex and ever more economically productive, ethical issues increase in difficulty and seriousness. As a result, the demand for people with qualifications in professional ethics is growing in all sectors. The department's especially large range of courses in the area of professional ethics concentrates on real situations and case studies. By taking a number of these courses, students encounter many different concrete ethical issues and learn a variety of perspectives and methodologies for dealing with them. The department's style of professional ethics recognizes the diversity of values, traditions and points of view that are brought to bear today on actual current ethical problems. Nonetheless, these courses constantly attempt to integrate this situational approach by means of a search for generally applicable methodologies and ways of theorizing such issues. The certificate therefore gives students a wide range of experience and methodologies for understanding institutional practices that deal with ethical issues in the public and private sectors. They develop capacities to flexibly adapt this knowledge to different institutions and unforeseen ethical problems in such areas as education, business, health, media, government, law, social work, politics and personal life. Because the resolution of concrete ethical issues needs a creative response to the particularities of unforeseen situations, practice on cases in a number of different institutions and professions helps one to prepare for dealing with problems in one's own.

The Certificate in Professional Ethics is based in the Department of Philosophy. It is a direct entry program that is available to any students admitted to the Faculty of Liberal Arts and Professional Studies or the University.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Students wishing to enrol or make inquiries should contact the Department of Philosophy, S428 Ross Building, Tel.: 416-736-5113, Fax: 416-736-5114.

Requirements: 24 credits including:

a) Core requirements:

- AP/PHIL 2070 3.00; AP/PHIL 2075 3.00*.

b) Elective requirements:

- 18 credits chosen from either List A or List B, but with no more than three credits from List B. 12 of these 18 credits must be at the 3000 level or above.

List A:

- AP/PHIL 1002 6.00*
- AP/PHIL 2077 3.00
- AP/PHIL 3050 3.00
- AP/PHIL 3570 3.00*
- AP/PHIL 3576 3.00
- AP/PHIL 3595 3.00 (cross-listed to: AP/HREQ 3595 3.00)
- AP/PHIL 3776 3.00
- AP/PHIL 4150 3.00

List B:

- AP/PHIL 2050 3.00
- AP/PHIL 2060 3.00
- AP/PHIL 2250 3.00
- AP/PHIL 3110 3.00

*Available as Internet courses.

Note: students who wish to complete both the Certificate in Professional Ethics and the Certificate in Practical Ethics may not count the same courses for both certificates. If the Certificate in Practical Ethics is completed first, then any additional courses must be chosen from List A of the Certificate in Professional Ethics. If the Certificate in Professional Ethics is finished first, then additional courses will be chosen for the Certificate in Practical Ethics in consultation with the student's certificate adviser.

Professional Writing

For purposes of meeting program requirements, all general education (foundations) courses will count as six credits towards the major.

Honours BA

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete 51 credits, including the following:

(i) Program core courses:

- AP/EN 1700 9.00 (cross-listed to: AP/HUMA 1980 9.00);
- AP/EN 1007 3.00;
- AP/EN 1006 3.00 (cross-listed to: AP/PRWR 1006 3.00) or AP/PRWR 1300 3.00 (cross-listed to: AP/WRIT 1300 3.00) or AP/WRIT 1500 3.00;
- AP/EN 2710 3.00;
- AP/PRWR 2300 3.00 (cross-listed to: AP/WRIT 2300 3.00);
- AP/EN 2720 6.00.

(ii) Stream requirements:

Students must choose one of the following streams in consultation with the program coordinator.

Book Stream

- AP/EN 3720 6.00;
- AP/EN 3730 3.00;
- AP/EN 4720 6.00;
- AP/EN 4721 6.00;
- AP/PRWR 3720 3.00;
- AP/PRWR 3910 3.00.

Periodical Stream

- AP/EN 3730 3.00;
- AP/EN 3700 6.00 or AP/EN 3180 6.00;
- AP/EN 4700 6.00;
- AP/EN 4701 3.00 and AP/EN 4750 3.00 or AP/EN 4752 3.00;
- AP/PRWR 3710 3.00;
- AP/PRWR 3720 3.00.

Institutional Communications Stream

- AP/EN 3710 6.00;
- AP/EN 4710 3.00;
- AP/EN 4711 3.00;
- AP/PRWR 3720 3.00;
- AP/PRWR 3810 3.00;
- AP/PRWR 3820 3.00;
- AP/PRWR 4800 3.00;
- AP/PRWR 4801 3.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

The Honours BA program described above may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Major credits: students must fulfill the professional writing program requirements and take at least 36 credits in the interdisciplinary program. Courses taken to meet professional writing requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in professional writing and

six credits in the interdisciplinary program. For further details of requirements, see the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting professional writing program requirements:

Program Course	Course Substitutes
AP/EN 3700 6.00	AP/EN 3180 6.00

Public Administration and Justice Studies

Student prior to entering the Public Administration and Justice Studies program must have completed one 12U mathematics course or equivalent.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 78 credits including:

- 66 credits as follows:
 - AP/ADMS 1000 3.00;
 - AP/ADMS 1500 3.00;
 - AP/ADMS 2400 3.00;
 - AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
 - AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
 - AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
 - AP/ADMS 3900 3.00;
 - AP/HRM 4440 3.00 (cross-listed to: AP/ADMS 4440 3.00);
 - AP/PPAS 2200 3.00 (cross-listed to: AP/POLS 2200 3.00);
 - AP/PPAS 2420 3.00;
 - AP/PPAS 3136 3.00 (cross-listed to: AP/GL/POLS 3136 3.00);
 - AP/PPAS 3140 3.00 (cross-listed to: AP/HREQ 3140 3.00, AP/POLS 3195 3.00);
 - AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00);
 - AP/SOCI 3810 6.00 (cross-listed to: AP/HREQ 3810 6.00);
 - AP/PPAS 4070 6.00;
 - AP/PPAS 4130 6.00 (cross-listed to: AP/POLS 4130 6.00);
 - AP/HREQ 3890 6.00.
- 12 credits selected from the following:
 - AP/EN 3251 3.00;

- AP/HUMA 3660 3.00 (cross-listed to: AP/CDNS 3660 3.00; AP/REI 3660 3.00);
- AP/HIST 3581 6.00;
- HH/HLST 4130 3.00;
- AP/HUMA 3480 6.00;
- AP/HUMA 3482 6.00 (cross-listed to: AP/REI 3482 6.00);
- AP/POLS 3125 6.00 (cross-listed to: AP/HREQ 3125 6.00);
- AP/REI 3580 6.00;

- AP/SOCI 3850 6.00 (cross-listed to: AP/HREQ 3850 6.00);
- AP/REI 2050 6.00;
- AP/REI 3370 6.00 (cross-listed to: AP/GL/WMST 3801 6.00);
- AP/GL/WMST 3536 3.00.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits including:

- 48 credits as follows:
 - AP/ADMS 1000 3.00;
 - AP/ADMS 1500 3.00;
 - AP/ADMS 2400 3.00;
 - AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
 - AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
 - AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
 - AP/PPAS 2200 3.00 (cross-listed to: AP/POLS 2200 3.00);
 - AP/PPAS 2420 3.00;
 - AP/PPAS 3136 3.00 (cross-listed to: AP/GL/POLS 3136 3.00);
 - AP/PPAS 3140 3.00 (cross-listed to: AP/HREQ 3140 3.00, AP/POLS 3195 3.00);
 - AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00);
 - AP/SOCI 3810 6.00 (cross-listed to: AP/HREQ 3810 6.00);
 - AP/HREQ 3890 6.00.
- six credits selected from the following:
 - AP/EN 3251 3.00;
 - AP/HUMA 3660 3.00 (cross-listed to: AP/CDNS 3660 3.00, AP/REI 3660 3.00);
 - AP/HIST 3581 6.00;
 - HH/HLST 4130 3.00;
 - AP/HUMA 3480 6.00;
 - AP/HUMA 3482 6.00 (cross-listed to: AP/REI 3482 6.00);
 - AP/POLS 3125 6.00 (cross-listed to: AP/HREQ 3125 6.00);
 - AP/REI 3580 6.00;
 - AP/SOCI 3680 6.00 (cross-listed to: AP/HREQ 3860 6.00);
 - AP/SOCI 3850 6.00 (cross-listed to: AP/HREQ 3850 6.00);
 - AP/REI 2050 6.00;
 - AP/REI 3370 6.00 (cross-listed to: AP/GL/WMST 3801 6.00);
 - AP/GL/WMST 3536 3.00.

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitutes
AP/PPAS 3190 6.00	GL/POLS 3240 6.00, AP/PPAS 3410 6.00, AP/POLS 3410 6.00
AP/PPAS 4130 6.00	AP/POLS 4401 3.00

Public Policy and Administration

Students prior to entering the Public Policy and Administration program must have completed one 11U or M mathematics course or equivalent.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 66 credits as follows:

- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00;
- AP/PPAS 1000 6.00 (cross-listed to: AP/POLS 1000 6.00);
- AP/PPAS 2900 6.00 (cross-listed to: AP/POLS 2900 6.00);
- AP/PPAS 2300 6.00 (cross-listed to: AP/POLS 2300 6.00);
- AP/PPAS 2910 6.00 (cross-listed to: AP/POLS 2910 6.00);
- AP/PPAS 3135 3.00 (cross-listed to: AP/GL/POLS 3135 3.00);
- AP/PPAS 3136 3.00 (cross-listed to: AP/GL/POLS 3136 3.00);
- AP/PPAS 3300 6.00 (cross-listed to: AP/POLS 3300 6.00, AP/SOCI 3030 6.00);
- AP/PPAS 4300 6.00 (cross-listed to: AP/GL/POLS 4300 6.00);
- six credits in economics above the 1000 level or AP/PPAS 4115 6.00 (cross-listed to: AP/POLS 4115 6.00);
- six credits chosen from the following: AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00); or AP/SOCI 3490 6.00;
- six additional credits at the 4000 level in public policy and administration (PPAS) or political science (POLS).

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major (PPAS and POLS): at least 18 credits.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitutes
AP/PPAS 3190 6.00	AP/PPAS 3410 6.00, AP/POLS 3410 6.00

Public Policy and Management

Students prior to entering the Public Policy and Management program must have completed one 12U mathematics course or equivalent.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major: 75 credits including:

(i) The following 48 credits:

- AP/ADMS 1000 3.00;
- AP/ADMS 1010 3.00;
- AP/ADMS 2200 3.00;
- AP/ADMS 2400 3.00;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
- AP/ADMS 3353 3.00;
- AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
- AP/PPAS 2910 6.00 (cross-listed to: AP/POLS 2910 6.00);
- AP/PPAS 3135 3.00 (cross-listed to: AP/GL/POLS 3135 3.00);
- AP/PPAS 3136 3.00 (cross-listed to: AP/GL/POLS 3136 3.00);
- AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00);
- AP/PPAS 3524 3.00 (cross-listed to: AP/ADMS 3524 3.00);
- AP/PPAS 4200 6.00 (cross-listed to: AP/POLS 4300 3.00).

(ii) Six credits in public policy and its context:

- AP/PPAS 3140 3.00 (cross-listed to: AP/HREQ 3140 3.00, AP/POLS 3195 3.00);
- AP/PPAS 3761 3.00 (cross-listed to: AP/HREQ 3761 6.00, AP/POLS 3170 3.00);
- AP/PPAS 3762 3.00 (cross-listed to: AP/HREQ 3762 6.00, AP/POLS 3171 3.00);
- AP/SOCI 3563 6.00 (cross-listed to: AP/REI 3624 6.00);
- AP/POLS 3125 6.00 (cross-listed to: AP/HREQ 3125 6.00);
- AP/POLS 3270 6.00;
- AP/POLS 3415 6.00 (cross-listed to: AP/REI 3745 6.00).

(iii) Six additional credits at the 4000 level in PPAS or POLS.

(iv) Six credits focusing on diversity:

- AP/HIST 3581 6.00;
- HH/HLST 4130 3.00;
- AP/SOCI 3624 6.00 (cross-listed to: AP/REI 3624 6.00);
- AP/SOCI 3680 6.00 (cross-listed to: AP/REI 3680 6.00);
- AP/POLS 3450 6.00 and AP/POLS 3455 3.00;
- AP/REI 3580 6.00;
- AP/SOCI 3680 6.00 (cross-listed to: AP/HREQ 3860 6.00);
- AP/SOCI 3850 6.00 (cross-listed to: AP/HREQ 3850 6.00);
- AP/REI 3370 6.00 (cross-listed to: AP/GL/WMST 3801 6.00);
- AP/REI 2050 6.00;
- AP/GL/WMST 3536 3.00.

(v) Students must choose nine additional credits with a focus in either financial management (group A) or human resource management (group B). Courses must be selected from either group A or group B as listed.

Group A (for students focusing on financial management):

- AP/ADMS 2500 3.00;
- AP/ADMS 2510 3.00;
- AP/ADMS 3530 3.00 or AP/ADMS 4515 3.00.

Group B (for students focusing on human resource management):

- AP/ADMS 1500 3.00 or AP/ADMS 2500 3.00.

And six additional credits chosen from:

- AP/HRM 3400 3.00 (cross-listed to: AP/ADMS 3400 3.00);

- AP/HRM 3410 3.00 (cross-listed to: AP/ADMS 3410 3.00);
- AP/HRM 3420 3.00 (cross-listed to: AP/ADMS 3420 3.00);
- AP/HRM 3422 3.00 (cross-listed to: AP/ADMS 3422 3.00);
- AP/HRM 3430 3.00 (cross-listed to: AP/ADMS 3430 3.00);
- AP/HRM 3450 3.00 (cross-listed to: AP/ADMS 3450 3.00);
- AP/HRM 3470 3.00 (cross-listed to: AP/ADMS 3470 3.00);
- AP/HRM 3490 3.00 (cross-listed to: AP/ADMS 3490 3.00).

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits including AP/ECON 1000 3.00 and AP/ECON 1010 3.00.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- AP/ADMS 1000 3.00;
- AP/ADMS 1500 3.00 or AP/ADMS 2500 3.00*;
- AP/ADMS 2400 3.00;
- AP/HRM 2600 3.00 (cross-listed to: AP/ADMS 2600 3.00);
- AP/ADMS 3353 3.00;
- AP/HRM 3440 3.00 (cross-listed to: AP/ADMS 3440 3.00);
- AP/PPAS 3524 3.00 (cross-listed to: AP/ADMS 3524 3.00);
- AP/PPAS 2910 6.00 (cross-listed to: AP/POLS 2910 6.00);
- AP/PPAS 3135 3.00 (cross-listed to: AP/GL/POLS 3135 3.00);
- AP/PPAS 3136 3.00 (cross-listed to: AP/GL/POLS 3136 3.00);
- AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00);
- AP/PPAS 3761 3.00 (cross-listed to: AP/HREQ 3761 3.00, AP/POLS 3170 3.00) or AP/PPAS 3762 3.00 (cross-listed to: AP/HREQ 3762 3.00, AP/POLS 3171).

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: At least 18 credits including AP/ECON 1000 3.00 and AP/ECON 1010 3.00.

Note: students who plan to take the Specialized Honours program option with a focus on Financial Management are advised to take AP/ADMS 2500 3.00.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitutes
AP/ECON 1000 3.00	GL/ECON 2500 3.00
AP/ECON 1010 3.00	GL/ECON 2510 3.00
AP/POLS 2910 6.00 (cross-listed to: AP/PPAS 2910 6.00)	GL/POLS 2600 6.00
AP/PPAS 3190 6.00	AP/PPAS 3410 6.00,

Professional Certificate in Public Sector Management

School of Public Policy and Administration

Contact: TBA

Requirements: 42 credits including:

- 21 credits from administrative studies:
 - AP/ADMS 1000 3.00, AP/ADMS 2200 3.00, AP/ADMS 2400 3.00, AP/ADMS 2500 3.00, AP/ADMS 2510 3.00, AP/HRM 2600 3.00 (cross-listed with AP/ADMS 2600 3.00);
- and three credits chosen from the following:
 - AP/HRM 3410 3.00 (cross-listed with AP/ADMS 3410 3.00), AP/HRM 3470 3.00 (cross-listed with AP/ADMS 3470 3.00), AP/HRM 3490 3.00 (cross-listed with AP/ADMS 3490 3.00);
- 21 credits from political science including:
 - AP/PPAS 2910 6.00 (cross-listed to: AP/POLS 2910 6.00), AP/PPAS 3190 6.00 (cross-listed to: AP/POLS 3190 6.00), and three credits chosen from AP/PPAS 3761 3.00 (cross-listed to: AP/HREQ 3761 3.00, AP/POLS 3170 3.00) or AP/PPAS 3762 3.00 (cross-listed to: AP/HREQ 3762 3.00, AP/POLS 3171 3.00).

Note: to obtain a professional certificate offered by the School of Public Policy and Administration at least 18 credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Course Substitutes

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting program requirements.

Program Course	Course Substitutes
AP/PPAS 3190 6.00	AP/PPAS 3410 6.00

Race, Ethnicity and Indigeneity

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Note: students are strongly encouraged to take AP/HUMA 1770 6.00 as their HUMA general education requirement.

Major credits: 60 credits including:

- 24 credits core courses:
 - AP/REI 2100 6.00;
 - AP/REI 4700 6.00;
 - AP/REI 4705 6.00;
 - AP/SOCI 4600 6.00 (cross-listed to: AP/HREQ 4600 6.00, AP/REI 4600 6.00).
- Six credits chosen from the following courses:
 - AP/REI 2050 6.00;
 - AP/REI 3580 6.00;
 - AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00).

(iii) 30 additional credits chosen from one of three fields or a minimum of six credits from each field.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Note: students are strongly encouraged to take AP/HUMA 1770 6.00 as their HUMA general education requirement.

Major credits: 42 credits including:

(i) 18 credits core courses:

- AP/REI 2100 6.00;
- AP/REI 4700 6.00;
- AP/REI 4705 6.00.

(ii) Six credits chosen from the following courses:

- AP/REI 2050 6.00;
- AP/REI 3580 6.00;
- AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00).

(iii) 18 additional credits chosen from one of three fields or at least six credits from each field.

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and

Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor Credits: 30 credits including:

(i) 12 credits core courses:

- AP/REI 2100 6.00;
- AP/REI 4705 6.00.

(ii) Six credits chosen from the following courses:

- AP/REI 2050 6.00;
- AP/REI 3580 6.00;
- AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00).

(iii) 12 additional credits from any of the courses listed below.

Note: at least six credits in the minor at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Note: students are strongly encouraged to take AP/HUMA 1770 6.00 as their HUMA general education requirement.

Major credits: 30 credits including:

(i) Six credits core courses:

- AP/REI 2100 6.00.

(ii) Six credits chosen from the following courses:

- AP/REI 2050 6.00;
- AP/REI 3580 6.00;
- AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00).

(iii) 18 additional credits chosen from any of the courses listed below.

Note: at least 12 credits in the major must be at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Professional Certificate in Real Estate

School of Administrative Studies

Contact: H. Bartel

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the

requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 30 credits including:

a) Prerequisite for core requirements:

- AP/ADMS 1000 3.00.

b) Core requirements:

- AP/ADMS 3810 3.00;
- AP/ADMS 3820 3.00;
- AP/ADMS 3840 3.00;
- AP/ECON 1000 3.00;
- AP/ECON 1010 3.00.

12 credits chosen from the following:

- AP/ADMS 1010 3.00;
- AP/ADMS 2500 3.00 or AP/ADMS 1500 3.00;
- AP/ADMS 2610 3.00;
- AP/ADMS 3830 3.00;
- AP/ADMS 3845 3.00;
- AP/ADMS 3850 3.00;
- AP/ADMS 3860 3.00;
- AP/ADMS 3870 3.00;
- AP/ADMS 3880 3.00;
- AP/ADMS 3890 3.00;
- AP/PHIL 3570 3.00;
- AP/ADMS 3815 3.00;
- AP/ADMS 3825 3.00.

Note: to obtain a professional certificate offered by the School of Administrative Studies, at least 18 credits of the ADMS course credits that satisfy certificate requirements must be in addition to those used to satisfy a degree. Students may acquire more than one certificate provided that at least 18 credits in each certificate are unique to the specific certificate.

Course substitutes and program notes: please refer to the Bachelor of Administrative Studies (BAS) section.

Certificate in Refugee and Migration Studies

The Centre for Refugee Studies

Contact: M. Malliard

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

The General Certificate in Refugee and Migration Studies offered through the Faculty of Liberal Arts and Professional Studies must be completed either as a direct entry certificate or concurrently with fulfillment of the requirements for a bachelor's degree.

Students must choose one of the following certificate options below. Students are not permitted to combine the requirements of each option.

Note: to further enhance their educational experiences, students registered in this certificate are required to be involved in scholarly activities of the Centre for Refugee Studies. Further information may be obtained from the Centre for Refugee Studies. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Option 1: Direct Entry or Concurrent

Requirements: 30 credits including:

(i) Prerequisites for core requirements:

- a 1000-level six-credit social science course.

(ii) Core requirements:

- AP/REI 2000 6.00 (cross-listed to: AP/GEOG 2310 6.00) (in the event that AP/REI 2000 6.00 is not offered, please contact the undergraduate program director of the Department of Equity Studies for a substitute course);

- and 18 credits from the following list: AP/HIST 3581 6.00; AP/HIST 4053 6.00; AP/REI 3620 6.00 (cross-listed to: AP/SOCI 3620 6.00); AP/REI 3580 6.00; AP/REI 3370 6.00; AP/GL/WMST 3801 6.00); AP/GL/WMST 3502 6.00.

Option 2: Concurrent Only

Requirements: 24 credits including:

- AP/SOSC 1130 9.00;
- and 18 credits in core courses chosen from the following: AP/ANTH 3410 6.00, AP/GEOG 4370 3.00, AP/HIST 4505 6.00, AP/POLS 3065 3.00, AP/POLS 4541 6.00, AP/SOCI 3430 6.00, AP/SOCI 4350 3.00, AP/SOCI 4430 3.00, AP/SOSC 3480 6.00 or AP/GL/WMST 4802 3.00.

The cumulative grade point average in these courses must be 5.00 (C+) or higher and other relevant requirements governing the award of a general certificate will apply.

Religious Studies

For purposes of meeting program requirements, all general education (foundations) courses will count as six credits towards the major.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: at least 54 credits from the religious studies list of courses, including:

- AP/HUMA 2800 9.00 (cross-listed to: AP/SOSC 2600 9.00);
- 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: at least 42 credits from the religious studies list of courses, including:

- AP/HUMA 2800 9.00 (cross-listed to: AP/SOSC 2600 9.00);
- 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Liberal Arts and Professional Studies, Environmental Studies, Fine Arts, Faculty of Health or Faculty of Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Religious studies may be linked with any Honours Double Major Interdisciplinary BA program in the new Faculty. Students must take at least 36 credits in religious studies and at least 36 credits in the interdisciplinary program. Courses taken to meet religious studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in religious studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: at least 36 credits from the religious studies list of courses, including:

- AP/HUMA 2800 9.00 (cross-listed to: AP/SOSC 2600 9.00);
- 12 credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Minor credits: at least 30 credits from the religious studies list of courses, including:

- AP/HUMA 2800 9.00 (cross-listed to: AP/SOSC 2600 9.00);
- six credits at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: at least 30 credits from the religious studies list of courses, including:

- AP/HUMA 2800 9.00 (cross-listed to: AP/SOSC 2600 9.00);
- 12 credits above the 2000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Russian

Note: students who are exempted from Russian language courses based on their knowledge of Russian must still successfully complete the total number of credits required for their major or minor. AP/RU 1000 6.00 will not count for major or minor credit in the Russian program.

Russian literature and culture courses which count for major or minor credit in Russian are divided into two groups:

Group A: 19th-Century Literature and Culture

- AP/RU 2750 6.00;
- AP/RU 3720 3.00;
- AP/RU 3730 3.00;
- AP/RU 3760 3.00 or AP/RU 4760 3.00;
- AP/RU 3761 3.00 or AP/RU 4761 3.00;
- AP/RU 4550 3.00;
- AP/RU 4560 3.00.

Group B: 20th-Century Literature and Culture

- AP/RU 3740 3.00 or AP/RU 4740 3.00;
- AP/RU 3750 3.00 or AP/RU 4750 3.00;
- AP/RU 3770 3.00 or AP/RU 4770 3.00;
- AP/RU 3771 3.00 or AP/RU 4771 3.00;
- AP/RU 3790 6.00;
- AP/RU 4650 3.00;
- AP/RU 4660 3.00.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits at the 2000 level or above, including the following:

- AP/RU 2000 6.00;
- AP/RU 3000 6.00;
- 30 additional credits in courses with an AP/RU course prefix, including at least six credits from each of Group A and Group B and including at least 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Russian may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in Russian and at least 36 credits in the interdisciplinary program. Courses taken to meet Russian requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in Russian and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students will take at least 36 credits at the 2000 level or above, including the following:

- AP/RU 2000 6.00;
- AP/RU 3000 6.00;
- 24 additional credits in courses with an AP/RU course prefix, including at least six credits from each of Group A and Group B and including at least six credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits at the 2000 level or above, including the following:

- AP/RU 2000 6.00;
- 24 additional credits in courses with an AP/RU course prefix, including at least six credits from each of Group A and Group B and including at least six credits at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits at the 2000 level or above, including the following:

- AP/RU 2000 6.00;
- AP/RU 3000 6.00;
- 18 additional credits in courses with an AP/RU course prefix, including at least six credits from each of Group A and Group B and including at least six credits at the 3000 or 4000 level.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Russian Studies

Note: students who are exempted from Russian language courses based on their knowledge of Russian must still successfully complete the total number of credits required for their major or minor.

Russian literature and culture courses which count for major or minor credit in Russian studies are divided into two groups:

Group A: 19th-Century Literature and Culture

- AP/RU 2750 6.00;

- AP/RU 3720 3.00;
- AP/RU 3730 3.00;
- AP/RU 3760 3.00 or AP/RU 4760 3.00;
- AP/RU 3761 3.00 or AP/RU 4761 3.00;
- AP/RU 4550 3.00;
- AP/RU 4560 3.00.

Group B: 20th-Century Literature and Culture

- AP/RU 3740 3.00 or AP/RU 4740 3.00;
- AP/RU 3750 3.00 or AP/RU 4750 3.00;
- AP/RU 3770 3.00 or AP/RU 4770 3.00;
- AP/RU 3771 3.00 or AP/RU 4771 3.00;
- AP/RU 3790 6.00;
- AP/RU 4650 3.00;
- AP/RU 4660 3.00.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits, including the following:

- AP/RU 1000 6.00;
- AP/RU 2000 6.00;
- 24 additional credits in courses with an AP/RU course prefix (refer to Group A and Group B above);
- at least six credits chosen from: AP/HIST 3310 3.00, AP/HIST 3311 3.00, AP/HIST 3380 3.00, AP/HIST 3381 3.00, AP/HIST 4380 6.00, AP/POLS 3401 3.00, AP/POLS 3500 3.00 or AP/POLS 4280 6.00.

Note: at least 12 credits in the major at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary BA

Russian studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies.

Major credits: students must take at least 36 credits in Russian studies and at least 36 credits in the interdisciplinary program. Courses taken to meet Russian studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in Russian studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Students will take at least 36 credits, including the following:

- AP/RU 1000 6.00;
- AP/RU 2000 6.00;
- 18 additional credits in courses with an AP/RU course prefix (refer to Group A and Group B above);
- at least six credits chosen from: AP/HIST 3310 3.00, AP/HIST 3311 3.00, AP/HIST 3380 3.00, AP/HIST 3381 3.00, AP/HIST 4380 6.00, AP/POLS 3401 3.00, AP/POLS 3500 3.00 or AP/POLS 4280 6.00.

Note: at least six credits in the major at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits, including the following:

- AP/RU 1000 6.00;
- AP/RU 2000 6.00;
- 12 additional credits in courses with an AP/RU course prefix (refer to Group A and Group B above);
- at least six credits chosen from: AP/HIST 3310 3.00, AP/HIST 3311 3.00, AP/HIST 3380 3.00, AP/HIST 3381 3.00, AP/HIST 4380 6.00, AP/POLS 3401 3.00, AP/POLS 3500 3.00 or AP/POLS 4280 6.00.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits, including the following:

- AP/RU 1000 6.00;
- AP/RU 2000 6.00;
- 12 additional credits in courses with an AP/RU course prefix (refer to Group A and Group B above);
- at least six credits chosen from: AP/HIST 3310 3.00, AP/HIST 3311 3.00, AP/HIST 3380 3.00, AP/HIST 3381 3.00, AP/HIST 4380 6.00, AP/POLS 3401 3.00, AP/POLS 3500 3.00 or AP/POLS 4280 6.00.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Certificate of Proficiency in Russian Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Russian Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is open to students pursuing a degree in Russian studies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Russian.

To apply for the certificate, students must have completed AP/RU 2000 6.00 and AP/RU 3000 6.00 with a minimum grade of B.

Note: students who are exempted from the intermediate level language course must take another course taught in Russian.

Science and Technology Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 48 credits in science and technology studies, including:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 36 additional credits chosen from the science and technology studies list of courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Major credits: students must complete at least 42 credits in science and technology studies, including:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 30 additional credits chosen from the science and technology studies list of courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major at the 4000 level.

Honours Double Major Interdisciplinary (Linked) BA

Science and technology studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in science and technology studies and at least 36 credits in the interdisciplinary program. Courses taken to meet the science and technology studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits science and technology studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits in science and technology studies must include the following:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 24 additional credits chosen from the science and technology studies list of courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Major credits: students must complete at least 42 credits in science and technology studies, including:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 30 additional credits chosen from the science and technology studies list of courses, including at least six credits at the 4000 level.

Note: at least 12 credits in the major must be at the 4000 level.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students must complete at least 30 credits in science and technology studies, including:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 18 additional credits chosen from the science and technology studies list of courses.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in science and technology studies, including:

- SC/STS 2411 6.00 (cross-listed to: AP/HUMA 2411 6.00, AP/SOSC 2411 6.00);
- SC/STS 4501 6.00 (cross-listed to: AP/HUMA 4501 6.00, AP/SOSC 4501 6.00);
- 18 additional credits chosen from the science and technology studies list of courses.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Science and Technology Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in science and technology studies.

Sexuality Studies

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Normally students will not enrol in AP/SXST 2600 6.00 and AP/SXST 4600 6.00 in the same academic session.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 54 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 42 credits in SXST primary or secondary courses (listed below).

Of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned in primary courses, and of the 42 credits earned in primary/secondary courses, a minimum of 30 must be earned at the 3000 or 4000 level, and a minimum of 12 must be earned at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in sexuality studies comprises at least 30 credits, as follows:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 18 credits in SXST primary or secondary courses (listed below).

Of the 18 credits earned in primary/secondary courses, a minimum of 12 must be earned in primary courses, and a minimum of six (primary or secondary) must be earned at the 3000 or 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 30 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 18 credits in SXST primary or secondary courses (listed below).

Of the 18 credits earned in primary/secondary courses, a minimum of 12 must be earned in primary courses, and of the 18 credits earned in primary/secondary courses, a minimum of six must be earned at the 3000 or 4000 level.

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must complete at least 42 credits in sexuality studies, including:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 30 credits in SXST primary or secondary courses (listed below).

Of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned in primary courses, and of the 30 credits earned in primary/secondary courses, a minimum of 18 must be earned at the 3000 or 4000 level, and a minimum of six must be earned at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Sexuality Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in sexuality studies.

Cross-Disciplinary Certificate in Sexuality Studies

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards

Faculty of Liberal Arts and Professional Studies students may earn a Cross-Disciplinary Certificate in Sexuality Studies concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is not, however, open to students who are pursuing or who already hold a degree in sexuality studies.

To qualify for the Cross-Disciplinary Certificate in Sexuality Studies, students must complete 24 credits and the cumulative grade point average in these 24 credits must be 4.00 (C) or higher. Course requirements for the certificate are as follows:

- AP/GL/SXST 2600 6.00 (cross-listed to: AP/GL/WMST 2600 6.00);
- AP/GL/SXST 4600 6.00 (cross-listed to: AP/GL/WMST 4600 6.00);
- a minimum of 12 credits in SXST primary or secondary courses.

Of the 12 credits earned in primary/secondary courses, a minimum of six must be earned in primary courses and a minimum of six (primary or secondary) must be earned at the 3000 or 4000 level.

Social and Political Thought

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours Double Major Interdisciplinary (Linked) BA

The Social and Political Thought program is an Honours Double Major Interdisciplinary BA program. The program is housed in the Department of Social Science. Social and political thought majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health. Students must take at least 36 credits in the Social and Political Thought program and at least 36 credits in the co-major according to the requirements and regulations specified by each department/discipline for an Honours Double Major Interdisciplinary BA program. Courses taken to meet social and political thought requirements cannot also be used to meet the requirements of the departmental major. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in social and political thought and six credits in the departmental major. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: the 36 credits in social and political thought must include the following:

- AP/SOSC 2550 6.00 or AP/SOSC 2570 9.00;
- 24 credits chosen from the list of social and political thought courses;
- AP/SOSC 4511 6.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in social and political thought comprises at least 30 credits including the following:

- six credits chosen from: AP/SOSC 2550 6.00 or AP/SOSC 2570 9.00;
- 18 credits at the 3000 level chosen from the Social and Political Thought program list of courses;
- six credits at the 4000 level chosen from the list of social and political thought courses.

Note: at least six credits in the minor must be at the 4000 level.

Social and Political Thought Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in social and political thought.

Social Science

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Honours BA: 120 Credits

There are at present five streams in the 120-credit Honours program. The requirements appear below.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- AP/SOSC 1000 9.00 or AP/HREQ 2400 6.00;
- six credits chosen from AP/HREQ 3890 6.00, AP/HREQ 4500 6.00, or AP/SOSC 3560 6.00;
- 18 credits chosen from one of five curriculum streams below (at least 12 credits will be at the 3000 level or above, at least six of which must be at 4000 level);
- 12 additional credits from any SOSC, HREQ or REI course including at least six credits outside of the student's chosen stream (some individual courses may be subject to availability or reserved for majors in other programs).

Note: at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Note: students pursuing a double major are restricted from combining a major in the following programs and streams:

- Social and Political Thought with Social Theory;

- Human Rights and Equity Studies with Equity and Social Policy;
- Race, Ethnicity and Indigeneity with Equity and Culture;
- Labour Studies with Health, Work and Society: Canadian and Global Perspectives;
- Health and Society with Health, Work and Society: Canadian and Global Perspectives.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Note: students pursuing a major/minor are restricted from combining a minor in the following programs and streams: Social and Political Thought with Social Theory; Human Rights and Equity Studies with Equity and Social Policy; Race, Ethnicity and Indigeneity with Equity and Culture; Labour Studies with Health, Work, and Society: Canadian and Global Perspectives; Health and Society with Health, Work, and Society: Canadian and Global Perspectives.

BA: 90 Credits

Note: the 90 credit BA program does not include a stream option.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 30 credits including:

- AP/SOSC 1000 9.00 or AP/HREQ 2400 6.00;
- six credits from each of two of the five streams (12 credits total);
- 12 additional credits from any SOSC, HREQ or REI course (some individual courses may be subject to availability or reserved for majors in other programs).

Note: at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Streams

Social Theory

The courses in this stream explore the fundamental themes of classical and contemporary critical social theory. Among the areas covered are state-society relations, justice, community, democracy, culture and community. The courses also provide an analysis of modern forms of social, economic and political power.

 AP/SOSC 3511 6.00
 AP/SOSC 3512 6.00
 AP/SOSC 3560 6.00
 AP/SOSC 4511 6.00
 AP/SOCI 4615 6.00

Note: social and political thought double majors are excluded from this stream.

Economy and Society

This stream focuses on the intersection of economic analysis with social theory and philosophy. Of central importance are the issues related to the moral foundations and ethical critique of modern economic relations in capitalist societies. We also look at the limits of – and alternatives to – key economic institutions like the modern business firm.

 AP/SOSC 3916 6.00
 AP/SOSC 4044 6.00

Equity and Social Policy

In this stream, students are engaged in the study of equity, human rights, and social justice issues. It includes discussion of policy, programs, and practices in such areas as government and the economy. These issues are examined historically in Canadian and international contexts.

Note: race, ethnicity and indigeneity double majors are excluded from this stream.

Health, Work and Society: Canadian and Global Perspectives

In this stream, students have the opportunity to study the social determinants of work and health as well as the social impact of policies and institutions related to work and health. We look at how problems in both of

these areas have shaped many of the social challenges and policies of the Canadian state. The interrelationships between social change, increased globalization as well as the emergence of human rights and social equity concerns in relation to health and work are also a major focus.

Bachelor of Social Work Degree (BSW)

School of Social Work

Contact: TBA

There are two points of admission to the bachelor of social work (BSW) degree: 1) direct entry and 2) post degree. The Bachelor of Social Work program prepares students for professional social work. Successful practice experience is an essential requirement in the social work degree program. The 700-hour practica, AP/SOWK 4000 6.00 and AP/SOWK 4001 6.00 consists of a field work component in an approved social work setting arranged by the school. Successful completion of the practica includes the integrative seminar component. These courses are graded as: "credit/no credit."

Note: AP/SOWK 4000 6.00 and AP/SOWK 4001 6.00 are exempt from the Senate Policy on Repeating Courses for Academic Credit. Students may only repeat AP/SOWK 4000 6.00 and AP/SOWK 4001 6.00 with permission of the school. Please refer to Senate policy for repeating of passed and failed courses at <http://www.yorku.ca/univsec/policies/>.

York University BSW Student Professional Behaviour Policy

The bachelor of social work (BSW) degree is an important determinant of eligibility for registration with the Ontario College of Social Workers and Social Service Workers. Given the professional trajectory of the BSW degree, a professional standard of behaviour is expected from social work students. At issue in this policy is the protection of the public and the University's role in graduating competent professionals.

Progression through the BSW program at the School of Social Work at York University is contingent on students' behaviour meeting the ethical and behavioural standards set forth in the Canadian Association of Social Workers Code of Ethics (CASW), the Ontario College of Social Workers and Social Service Workers Standards of Practice; the York University Student Code of Conduct, and other relevant York University policies including but not limited to the Sexual Harassment Policy and the Policy Concerning Racism.

This policy recognizes the general responsibility of the faculty members of the School of Social Work to foster acceptable standards of professional behaviour and of the student to be mindful of and abide by such standards.

Behaviour that may Result in Withdrawal from the BSW Program

A student may be withdrawn from the BSW program if the student:

1. Commits any breach of the CASW Code of Ethics, the Ontario College of Social Workers and Social Service Workers Standards of Practice, and/or any York University Policy that relates to student behaviour, such as the York University Student Code of Conduct or the Senate Policy on Academic Honesty that would engage the behavioural and ethical standards of the profession;
2. Engages in any proscribed behaviour in a practicum agency as detailed in the School of Social Work's Practicum Manual;
3. Acquires a criminal conviction after being admitted to the program (or which was acquired prior to admission but became known only after having been admitted to the program) which jeopardizes the student's ability to gain registration as a social worker; or
4. Engages in behaviour that impairs the performance of professional responsibilities.

Jurisdiction

Allegations of a breach of professional behavioural or ethical standards by a student enrolled in the BSW degree program offered by the School of Social Work, York University shall be dealt with by the School of Social Work, York University in accordance with approved procedures.

Note: behavioural policy procedure information is available on the Senate Web site under archived Senate agendas-June 26, 2008, Curriculum and Academic Standards Committee report 6.2.2 at <http://www.yorku.ca/secretariat/senate/>.

School of Social Work Regulation on Involuntary Withdrawal

A student may be required to withdraw from a course if:

1. The student fails to meet the requirements of the course, either through unsatisfactory seminar and/or practicum attendance/participation, or through unprofessional behaviour in fulfilling course requirements; or
2. The student's performance is judged to disrupt the functioning of the practicum site and/or jeopardize the well-being of clients of the practicum site, and/or demonstrates unprofessional behaviour at the practicum site.

The decision to require the student to withdraw will be taken by the Director of the School of Social Work on the recommendation of the course director and/or the practicum coordinator, following a meeting with the student.

Students will have access to the usual appeal procedures in such instances.

BSW Honours (Direct Entry): 120 Credits

Students who wish to complete their degree (Direct Entry) in four years must complete 30 credits per year.

Notes:

1. Students are required to attain a minimum grade of C in all courses used in the major. Students who fail to meet this standard must repeat the course(s) in the next available session and are strongly advised to make an advising appointment with the School of Social Work.
2. Of the 120 credits required for the degree at least 60 credits must be outside social work including the 24 general education credits and an additional 36 credits required outside the major.
3. Students contemplating future graduate level studies should consider taking the majority of the courses required outside social work at the 3000 and 4000 level.
4. For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the minor.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a minimum grade of 4.00 in all major credits.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 60 credits in social work including:

- AP/SOWK 1010 6.00;
- AP/SOWK 2030 6.00;
- AP/SOWK 2050 6.00;
- AP/SOWK 3041 3.00;
- AP/SOWK 3060 6.00;
- AP/SOWK 3070 3.00;
- AP/SOWK 3110 3.00;
- 12 credits chosen from AP/SOWK non-core courses at the 2000 level or above including three credits at the 4000 level;
- AP/SOWK 4020 3.00;
- AP/SOWK 4000 6.00 (practicum course);
- AP/SOWK 4001 6.00 (practicum course).

At least 18 credits in the major must be at the 4000 level.

Credits outside the major: at least 36 credits.

Practica: successful completion of AP/SOWK 4000 6.00 and AP/SOWK 4001 6.00 including the integrative seminar component is a requirement in the BSW program.

BSW Honours Major/Minor (Direct Entry)

The Direct Entry Honours program in Social Work (BSW) may be pursued jointly with any Honours minor bachelor program within the Faculty of Liberal Arts and Professional Studies that offers a major/minor option. Refer to programs of study.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Student must complete at least 60 credits in the social work major and at least 30 credits in the minor in conformity with the requirements of the program minor. At least 12 credits in the major and at least six credits in the minor must be at the 4000 level. Refer to the BSW Honours (Direct Entry) program for social work major requirements.

Students are reminded that, in conformity with the requirements for the BSW Direct Entry degree program, they must complete a total of at least 36 credits outside the major. These credits include the requirements of the minor.

BSW Honours (Post-Degree): 120 Credits

Students admitted to the Honours BSW (Post-Degree) are granted 66 transfer credits.

Note: students who have completed the Certificate in Anti-Racist Research and Practice in the Faculty of Liberal Arts and Professional Studies and who are subsequently accepted into the Social Work program will be eligible to count up to two of the following courses (12 credits) towards the social work major: AP/SOCI 3620 6.00 (cross-listed to: AP/REI 3620 6.00), AP/SOCI 3645 6.00 (cross-listed to: AP/REI 3645 6.00), AP/REI 3604 6.00, AP/REI 3562 6.00, AP/REI 3605 6.00, AP/SOCI 3680 6.00 (cross-listed to: AP/REI 3680 6.00). These courses must be passed at minimum grades of B.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00 and a minimum grade of 4.00 in all major credits.

General education: students who enter this program are deemed to have fulfilled this requirement.

Major credits: 54 credits

- AP/SOWK 2030 6.00;
- AP/SOWK 2050 6.00;
- AP/SOWK 3041 3.00;
- AP/SOWK 3060 6.00;
- AP/SOWK 3070 3.00;
- AP/SOWK 3110 3.00;
- AP/SOWK 4020 3.00;
- AP/SOWK 4000 6.00;
- AP/SOWK 4001 6.00;
- 12 credits at the 2000 level or above including three credits at the 4000 level chosen from social work non-core courses.

At least 18 credits in the major must be at the 4000 level.

Practica: successful completion of AP/SOWK 4000 6.00 and AP/SOWK 4001 6.00 including the integrative seminar component is a requirement in the BSW program.

Credits outside the major: students who enter this program are deemed to have fulfilled this requirement.

Sociology

Department of Sociology

Contacts: M. Jacobs and L. Lam

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits in sociology including:

- AP/SOCI 1010 6.00;
- AP/SOCI 2030 6.00;
- AP/SOCI 2040 6.00;
- one of AP/SOCI 2050 6.00, AP/SOCI 2060 6.00 or AP/SOCI 2070 6.00;
- 12 credits at the 3000 level;
- AP/SOCI 4000 6.00;
- 12 additional credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits in sociology including:

- AP/SOCI 1010 6.00;
- AP/SOCI 2030 6.00;
- AP/SOCI 2040 6.00;
- one of AP/SOCI 2050 6.00, AP/SOCI 2060 6.00 or AP/SOCI 2070 6.00;

- six credits at the 3000 level;
- 12 credits at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Sociology may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in sociology and at least 36 credits in the interdisciplinary program. Courses taken to meet sociology requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in sociology and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits in sociology including:

- AP/SOCI 1010 6.00;
- AP/SOCI 2030 6.00;
- AP/SOCI 2040 6.00;
- one of AP/SOCI 2050 6.00, AP/SOCI 2060 6.00 or AP/SOCI 2070 6.00;
- six credits at the 3000 level;
- six credits at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: 36 credits in sociology including:

- AP/SOCI 1010 6.00;
- AP/SOCI 2030 6.00;
- AP/SOCI 2040 6.00;
- one of AP/SOCI 2050 6.00, AP/SOCI 2060 6.00 or AP/SOCI 2070 6.00;

- six credits at the 3000 level;
- six credits at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 36 credits in sociology including:

- AP/SOCI 1010 6.00;
- AP/SOCI 2030 6.00;
- AP/SOCI 2040 6.00;
- one of AP/SOCI 2050 6.00, AP/SOCI 2060 6.00 or AP/SOCI 2070 6.00;
- 12 credits at the 3000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Course Substitutions

Subject to course exclusions, program requirements/restrictions and residency requirements, the following courses are acceptable substitutes for the purpose of meeting Sociology program requirements.

Program Course	Course Substitutes
AP/SOCI 1010 6.00	GL/SOCI 2510 6.00
AP/SOCI 2030 6.00	GL/SOCI 3680 3.00 (cross-listed to: GL/CDNS 3680 3.00, GL/POLS 3680 3.00) and GL/SOCI 3690 3.00 (cross-listed to: GL/CDNS 3690 3.00, GL/POLS 3690 3.00)
AP/SOCI 2040 6.00	GL/SOCI 3240 6.00

South Asian Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

Honours Double Major Interdisciplinary (Linked) BA

The South Asian Studies program is housed in the Department of Social Science and is an Honours Double Major leading to a BA in the Faculty of Liberal Arts and Professional Studies. South Asian studies majors must co-major in another department/discipline in the Faculty of Liberal Arts and Professional Studies, or with kinesiology and health science or psychology in the Faculty of Health.

Students enrolled in this program are required to take 36 credits in their co-major according to the requirements and regulations specified by each department or school for students in Honours Double Major interdisciplinary programs. Courses taken to meet South Asian Studies program requirements cannot also be used to meet the requirements of the departmental major. Students are similarly required to meet general education, distribution, and other degree requirements prescribed for Honours BA students by the Faculty of Liberal Arts and Professional Studies.

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students must also take 36 credits in the South Asian Studies program as follows:

- six credits chosen from: AP/HIST 1065 6.00, AP/HIST 2790 6.00, AP/HIST 3791 6.00 or AP/HIST 3795 6.00;
- AP/SOSC 2435 6.00;
- 12 credits chosen from:
 - AP/EN 3430 6.00;
 - AP/EN 3240 6.00;
 - AP/EN 3031 6.00;
 - AP/HND 1000 6.00;
 - AP/HND 2000 6.00;
 - AP/HND 2700 6.00;
 - AP/HUMA 2440 9.00;
 - AP/HUMA 3801 6.00;
 - AP/HUMA 3802 3.00;
 - AP/LING 2460 3.00;
 - AP/POLS 3065 3.00;
 - AP/POLS 4590 3.00;
 - AP/SOSC 1430 9.00;
 - AP/SOSC 3970 6.00;
 - AP/SOSC 4170 6.00;
 - AP/SOCI 4450 6.00 or
 - FA/FACS 4920K 3.00;
- six additional credits from the list of South Asian studies courses;
- AP/SOSC 4435 6.00.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: students who graduate in this program are deemed to have fulfilled this requirement.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students must take 30 credits in the South Asian Studies program as follows:

- six credits chosen from: AP/HIST 1065 6.00, AP/HIST 2790 6.00, AP/HIST 3791 6.00 or AP/HIST 3795 6.00;
- AP/SOSC 2435 6.00;
- 12 credits chosen from: AP/EN 3430 6.00, AP/EN 3240 6.00, AP/EN 3031 6.00, AP/HND 1000 6.00, AP/HND 2000 6.00, AP/HND 2700 6.00, AP/HUMA 2440 9.00, AP/HUMA 3801 6.00, AP/HUMA 3802 3.00, AP/LING 2460 3.00, AP/POLS 3065 3.00, AP/POLS 4590 3.00, AP/SOSC 1430 9.00, AP/SOSC 3970 6.00, AP/SOSC 4170 6.00, AP/SOCI 4450 6.00 or FA/FACS 4920K 3.00;
- AP/SOSC 4435 6.00.

Note: at least six credits in the minor must be at the 4000 level.

South Asian Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in South Asian studies.

Cross-Disciplinary Certificate in South Asian Studies

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a Cross-Disciplinary Certificate in South Asian Studies concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is not, however, open to students who are pursuing, or who already hold, a degree in South Asian studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the Cross-Disciplinary Certificate in South Asian Studies students must complete 24 credits from a list of approved South Asian courses and the cumulative grade point average in these 24 credits must be 5.00 (C+) or higher.

Course requirements for the certificate are as follows:

- AP/SOSC 2435 6.00;
- AP/SOSC 4435 6.00;
- 12 additional credits from among the courses recognized as satisfying the degree requirements in South Asian studies.

For a current list of approved courses, refer to the South Asian studies or Department of Social Science supplemental calendar. Further information about the Cross-Disciplinary Certificate in South Asian Studies is available from the coordinator of the South Asian Studies program, or the undergraduate director of the Department of Social Science.

Spanish

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in Spanish, including the following:

- AP/SP 2000 6.00 or AP/SP 2010 6.00;
- AP/SP 2200 6.00;
- AP/SP 3000 6.00 or AP/SP 3050 6.00;
- 12 credits at the 4000 level;
- 24 additional credits at the 3000 or 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in Spanish, including the following:

- AP/SP 2000 6.00 or AP/SP 2010 6.00;
- AP/SP 2200 6.00;
- AP/SP 3000 6.00 or AP/SP 3050 6.00;
- 24 additional credits at the 3000 or 4000 level, of which at least 12 credits must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Liberal Arts and Professional Studies, Environmental Studies, Fine Arts, Faculty of Health or Faculty of Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Spanish may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in Spanish and at least 36 credits in the interdisciplinary program. Courses taken to meet Spanish requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in Spanish and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: the 36 credits in Spanish must include the following:

- AP/SP 2000 6.00 or AP/SP 2010 6.00;
- AP/SP 2200 6.00;
- AP/SP 3000 6.00 or AP/SP 3050 6.00;
- 18 additional credits at the 3000 or 4000 level, of which at least 12 credits must be at the 4000 level.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: students will take at least 30 credits in Spanish, including the following:

- AP/SP 2000 6.00 or AP/SP 2010 6.00;
- AP/SP 2200 6.00;
- AP/SP 3000 6.00 or AP/SP 3050 6.00;
- at least 12 further credits at the 3000 or 4000 level, of which at least six credits must be at the 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits in Spanish, including the following:

- AP/SP 2000 6.00 or AP/SP 2010 6.00;
- AP/SP 2200 6.00;
- AP/SP 3000 6.00 or AP/SP 3050 6.00;
- at least 12 further credits at the 3000 or 4000 level.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Certificate of Proficiency in Spanish Language

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

York University students may earn a Certificate of Proficiency in Spanish Language concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is also open to students who already hold a bachelor's degree from an accredited institution, and who are admissible according to Faculty and University policies. This certificate is not, however, open to students who are pursuing or who already hold a degree in Spanish within the Department of Languages, Literatures and Linguistics in the Faculty of Liberal Arts and Professional Studies or within the Department of Hispanic Studies/Études Hispaniques at Glendon College.

To apply for the certificate, students must have successfully completed at least 12 credits in Spanish language in the Department of Languages, Literatures and Linguistics as follows:

- AP/SP 2000 6.00 or AP/SP 2010 6.00; and
- AP/SP 3000 6.00 or AP/SP 3050 6.00, with a minimum grade of B; and
- a written examination and an oral interview.

Note: students who are exempted from an intermediate level language course must take another course taught in Spanish.

Swahili

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in Swahili. Refer to Swahili in the Courses of Instruction section.

Tamil

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in Tamil. Refer to Tamil in the Courses of Instruction section.

Certificate in Teaching English to Speakers of Other Languages (TESOL)

York University students may earn a Certificate in Teaching English to Speakers of Other Languages (TESOL) concurrent with fulfillment of the requirements for a bachelor's degree. To qualify for admission to the Certificate in TESOL, students must have successfully completed at least 24 credits with a minimum grade point average of 4.00 (C). The certificate is also open to students who have been granted a bachelor's degree with a minimum grade point average of 4.00 (C) or equivalent. All applicants will be required to submit a supplementary application, which will include a statement of purpose.

Students may begin the program in either May or September. The application deadline for May entry is March 31, and the application deadline for September entry is June 30. Late applications for either entry will be considered, but space may be limited. Those entering in May can complete certificate requirements in one calendar year. Those entering in September normally require two years to complete certificate requirements.

Continuing students may pick up an application form from the Department of Languages, Literatures and Linguistics, and students who hold a bachelor's degree should contact the Office of Admissions for an application form.

As there are a limited number of spaces available in the certificate in TESOL, meeting the minimum requirements for application will not guarantee admission to the certificate program.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards

The certificate requires the successful completion of 30 credits as follows:

- AP/LING 1000 6.00 or AP/LING 2060 6.00;
- AP/LING 3240 3.00;
- AP/LING 3600 3.00;
- AP/LING 3160 3.00;
- three credits chosen from the following: AP/LING 2110 3.00, AP/LING 2400 3.00, AP/LING 2430 3.00 or AP/LING 2450 3.00;
- ED/TESL 3200 6.00;
- ED/TESL 3300 6.00.

Continuing students must successfully complete a bachelor's degree (90 credits) or an Honours bachelor's degree (120 credits) in order to be awarded the certificate. 18 of the 30 credits required for the certificate in TESOL will be counted towards the bachelor's degree and the 12 credits taken in the Faculty of Education will be in addition to the total number of credits required for the bachelor's degree or the Honours bachelor's degree.

Students who already hold a bachelor's degree may be exempted from a maximum of 12 of the required 30 credits, if equivalent courses have been successfully completed. Exemptions will not be given for the following required courses: AP/LING 3600 3.00, ED/TESL 3200 6.00 and ED/TESL 3300 6.00.

Further information about the Certificate in TESOL is available from the coordinator of the TESOL program or from the Department of Languages, Literatures and Linguistics.

Urban Studies

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major or minor.

The Department of Geography and the Urban Studies program also offer a Specialized Honours degree in geography and urban studies; for details refer to the Geography and Urban Studies section.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 54 credits in urban studies including the following:

- AP/SOSC 2710 9.00;
- AP/SOSC 2730 6.00;
- AP/SOSC 3700 6.00;
- 18 credits chosen from the urban studies list of courses, including at least 12 credits at the 3000 or 4000 level;
- AP/SOSC 4700 6.00, and at least 12 further credits at the 4000 level chosen from the list of urban studies courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in urban studies including the following:

- AP/SOSC 2710 9.00;
- AP/SOSC 2730 6.00;
- AP/SOSC 3700 6.00, and at least 12 further credits chosen from the urban studies list of courses, including at least six credits at the 3000 or 4000 level;
- AP/SOSC 4700 6.00, and at least six further credits at the 4000 level chosen from the list of urban studies courses.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Urban studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in urban studies and at least 36 credits in the interdisciplinary program. Courses taken to meet urban studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least six credits in urban studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: The 36 credits in urban studies must include:

- AP/SOSC 2710 9.00 or AP/SOSC 2730 6.00;
- AP/SOSC 3700 6.00;
- AP/SOSC 4700 6.00;
- at least 18 further credits from the list of urban studies courses.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: the Honours Minor in urban studies comprises at least 30 credits including the following:

- AP/SOSC 2710 9.00 or AP/SOSC 2730 6.00;
- AP/SOSC 3700 6.00;
- AP/SOSC 4700 6.00;
- 12 additional credits chosen from the list of urban studies courses, including at least six credits at the 3000 or 4000 level.

Note: at least six credits in the minor must be at the 4000 level.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 30 credits including the following:

- AP/SOSC 2710 9.00 or AP/SOSC 2730 6.00;

- 12 credits chosen from: AP/SOSC 3700 6.00, AP/SOSC 3710 6.00, AP/SOSC 3730 6.00, AP/SOSC 3745 3.00, AP/SOSC 3746 3.00, AP/SOSC 3760 6.00, AP/SOSC 3770 3.00 or AP/SOSC 3791 3.00;
- 12 additional credits chosen from the urban studies list of courses.

Note: at least 12 credits in the major at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

Honours iBA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: students will take at least 42 credits in urban studies including the following:

- AP/SOSC 2710 9.00;
- AP/SOSC 2730 6.00;
- AP/SOSC 3700 6.00, and at least 12 further credits chosen from the urban studies list of courses, including at least six credits at the 3000 or 4000 level;
- AP/SOSC 4700 6.00, and at least six further credits at the 4000 level chosen from the list of urban studies courses.

Note: at least 12 credits in the major at the 4000 level.

In addition, students in the Honours iBA program must fulfill the following requirements:

Language study credits: at least 18 credits in a modern language offered by York University, including the Advanced I university-level course in the chosen language.

Internationally-oriented credits: at least 12 credits of internationally-oriented courses chosen outside the major.

International exchange: at least one full term abroad as a full-time student at one of York University's exchange partners.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: for the Honours iBA, courses taken outside the major to satisfy the language study requirement and/or the internationally-oriented courses requirement can also be used to satisfy the outside the major requirement. Students who are completing a major/minor are deemed to have fulfilled this requirement.*)

Honours Major/Minor iBA

The Honours iBA program described above may be pursued jointly with any Honours Minor BA program in the Faculty of Liberal Arts and Professional Studies.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Urban Studies Courses

Not all of the courses listed below will necessarily be offered in any given year.

With the approval of the program coordinator, and subject to course exclusion and residency requirements, students may complete other courses for program credit in urban studies.

General Certificate in Urban Studies

For purposes of meeting certificate requirements, all nine-credit general education (foundation) courses will count as six credits.

York University students may earn a General Certificate in Urban Studies concurrent with fulfillment of the requirements for a bachelor's degree. This certificate is not, however, open to students who are pursuing or who already hold a degree in urban studies.

Graduating with a certificate: except where otherwise stated, a minimum cumulative grade point average of 4.00 is required to satisfy certificate requirements. Students must also submit application to graduate from a certificate program. Applications should be obtained from and filed with the unit administering the certificate program. Transcript notation that the requirements for a certificate have been completed will be made once the Registrar's Office has received notice from the unit administering the program. Certificates will not be conferred until candidates have successfully completed an undergraduate degree program if they are simultaneously enrolled in a degree and a certificate program. The Faculty does not award certificates retroactively. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

To qualify for the General Certificate in Urban Studies, students must complete 24 credits from a list of approved urban studies courses, and the cumulative grade point average in these 24 credits must be 5.00 (C+) or higher.

Course requirements for the general certificate are as follows:

- AP/SOSC 2710 9.00 or AP/SOSC 2730 6.00;
- 18 additional credits from among the courses recognized as satisfying the degree requirements in urban studies, including at least six credits at the 4000 level;
- an advising appointment with a faculty member teaching in one of the core courses in the Urban Studies program.

Courses taken to fulfill the requirements for the General Certificate in Urban Studies may not also be used to fulfill requirements for the degree in public policy and administration. For a current list of approved courses, refer to the urban studies section. Further information about the General Certificate in Urban Studies is available from the coordinator of the Urban Studies program or the coordinator of the Public Policy and Administration program.

Women's Studies

School of Women's Studies

Coordinator: J. Kainer

For purposes of meeting program requirements, all nine-credit general education (foundation) courses will count as six credits towards the major.

Women's studies is both a complement and a corrective to established fields at York and a new academic discipline of its own. Until recently, both the humanities and the social sciences reflected predominantly male perspectives. Women have been largely invisible in literature, art, history, philosophy, politics, social sciences and law. Through cross-cultural and disciplinary assessment, women's studies exposes misconceptions about women expressed through myth, ideologies, teachings and writings. It replaces negative cultural images of women with visions that reaffirm women's strength, capability and intelligence.

The School of Women's Studies unites academic resources at York University in Women's Studies, bringing together the undergraduate and graduate programs, the non-credit Bridging Program and the Centre for Feminist Research.

A feature which distinguishes the Women's Studies program offered at Glendon College from the programs offered in the Faculty of Liberal Arts and Professional Studies is its bilingual focus. Non-parallel courses are offered in both English and French. As a result, a genuine dialogue develops between the approaches of anglophones and francophones to theory, philosophy, literature, legal structures and language.

Please consult the School of Women's Studies supplemental calendar for further information, available at the School's main office, 206 Founders College, 416-650-8144 (press 1).

The undergraduate women's studies curriculum is built around four different kinds of courses.

Required Courses

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00: required for all women's studies majors;
- AP/GL/WMST 4500 6.00: required for all women's studies majors in an Honours BA program.

Core Courses

The core courses are offered by the School of Women's Studies and, like the required courses, have the second digit five (5) in the course number, e.g. WMST 2500 6.00. Students are required to select between 12 and 24 credits of core courses depending on their degree program. Core courses cover themes deemed essential to women's studies and will explicitly aim to develop critical reading, writing and oral presentation skills, research skills and more advanced research and theoretical skills as appropriate to the course and year level. The required and core courses will:

- focus primarily on women;
- be taught from feminist perspectives;
- be interdisciplinary;
- address the intersections of race, ethnicity, disability, sexual identity and gender;
- acknowledge the different perspectives on women in a global context;
- explicitly identify the critical skills to be developed in the course.

Courses Offered by Other Units

Courses offered by other teaching units may be accepted for program credit or cross-listed with the School of Women's Studies. These courses will count towards the major requirements in women's studies. Please consult the School of Women's Studies supplemental calendar, available in the School's main office, 206 Founders College, 416-650-8144 (press 1).

All courses mounted by the School of Women's Studies with a five (5) as the second digit (e.g. AP/GL/WMST 2500 6.00) are considered core courses.

Specialized Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 54 credits including:

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00 and AP/GL/WMST 4500 6.00; and at least 24 additional credits from the core women's studies course offerings;
- at least 12 credits in women's studies at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits.

Honours BA: 120 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 120 credits which meet the Faculty's degree and program requirements with a cumulative grade point average of at least 5.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 42 credits including:

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00 and AP/GL/WMST 4500 6.00; and at least 24 additional credits from the core women's studies course offerings;
- at least 12 credits in the major must be at the 4000 level.

Upper-level credits: at least 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level.

Credits outside the major: at least 18 credits. (*Note: students who are completing a double major or major/minor are deemed to have fulfilled this requirement.*)

Honours Double Major BA

The Honours BA program described above may be pursued jointly with approved Honours Double Major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a double major program, a course may count only once toward major credit.

Honours Double Major Interdisciplinary (Linked) BA

Women's studies may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 36 credits in women's studies and at least 36 credits in the interdisciplinary program. Courses taken to meet women's studies requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in women's studies and six credits in the interdisciplinary program. For further details of requirements, refer to the listings for specific Honours Double Major Interdisciplinary BA programs.

Note: in a double major program, a course may count only once toward major credit.

Major credits: 36 credits in women's studies including:

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00;
- AP/GL/WMST 4500 6.00;
- an additional six credits at the 4000 level;
- at least 18 additional credits from the core course offerings.

Honours Major/Minor BA

The Honours BA program described above may be pursued jointly with approved Honours Minor degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Honours Minor BA

The Honours Minor BA program described may be combined with any approved Honours BA program that offers a major/minor option in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Note: in a major/minor program, a course may count only once toward major credit or minor credit.

Minor credits: 30 credits including:

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00 and at least 12 additional credits from the core course offerings;
- at least 12 credits in the minor must be at the 3000 level or above including at least six credits at the 4000 level.

Please refer to the Certificate Requirements section for information concerning the Certificate in Sexuality Studies, Certificate in Women's Studies and Certificate in Women's Studies: Theory and Practice.

BA: 90 Credits

Residency requirement: a minimum of 30 course credits and at least half (50 per cent) of the course credits required in each undergraduate degree program major/minor must be taken at York University.

Graduation requirement: students must successfully complete (pass) at least 90 credits that meet the Faculty's degree and program requirements with a cumulative grade point average of at least 4.00.

General education: 24 credits of general education chosen from humanities, modes of reasoning, natural science and social science, including a minimum of six credits in each of humanities, natural science and social science.

Major credits: 30 credits including:

- AP/GL/WMST 2500 6.00 or AP/GL/WMST 2510 9.00 and AP/GL/WMST 4500 6.00, and at least 12 additional credits from the core course offerings;
- at least 12 credits in the major must be at the 3000 level or above.

Upper-level credits: at least 18 credits at the 3000 or 4000 level.

Credits outside the major: at least 18 credits.

General Certificate in Women's Studies

School of Women's Studies

Coordinator: J. Kainer

Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 30 credits including:

- AP/HUMA 1950 6.00; AP/SOSC 1700 6.00 or AP/SOSC 1920 6.00; AP/GL/WMST 2500 6.00;
- 12 credits in AP/GL/WMST at the 3000 level.

General Certificate in Women's Studies: Theory and Practice

School of Women's Studies

Coordinator: J. Kainer

Students beginning this certificate must have completed 60 credits or the equivalent of university education. Refer to the Academic Standards section for details of the undergraduate certificate minimum standards.

Requirements: 30 credits including:

a) Prerequisites for theory courses:

- AP/GL/WMST 2500 6.00 and 72 credits. Students in this certificate will be permitted to do AP/GL/WMST 2500 6.00 and AP/GL/WMST 4500 6.00 as corequisites.

b) Core requirements:

- AP/GL/WMST 2500 6.00; AP/GL/WMST 4500 6.00;
- 18 credits of any School of Women's Studies course (core or non-core), six credits of which may be chosen from the list of other courses that are counted for women's studies credit.

Writing Department

The Writing Department assists students to become effective independent writers, both in their academic life and beyond. In addition to the degree credit courses listed below, the Writing Department offers a program of individualized writing instruction through its Writing Centre. The Writing Centre also regularly offers non-credit courses and workshops on various issues related to writing effectively in university.

Yiddish

The Department of Languages, Literatures and Linguistics does not offer a degree program or certificate but does offer courses in Yiddish. Refer to Yiddish in the Courses of Instruction section.

Division of Continuing Education (DCE)

107 Atkinson Building, Tel.: 416-736-5616, Fax: 416-650-8042.

Non-Credit, Non-Degree Programs 2009-2010

The Division of Continuing Education continually introduces new courses and certificates. To receive further information on new offerings and continuing programs please contact our office (107 Atkinson Building), e-mail: DCE@yorku.ca or visit <http://www.yorku.ca/laps/coned>.

Certificate Programs (Non-Degree Credit)

Certificate in Dispute Resolution

Co-sponsored with the School of Social Work, Faculty of Liberal Arts and Professional Studies and La Marsh Research Centre on Violence and Conflict Resolution, York University.

This 132-hour certificate program is designed to provide educational and practical skills training to those interested in acquiring knowledge in the growing field of dispute resolution. The program provides core competencies in dispute resolution for those wishing to bring new skills to their existing jobs and is the first step leading to professional accreditation as a mediator. The program integrates dispute resolution theory and practical skill development opportunities. Successful completion of the certificate program will satisfy the education component of the membership requirements of the ADR Institute of Ontario and the ADR Institute of Canada.

Advanced Certificate in Dispute Resolution

Co-sponsored with the School of Social Work, Faculty of Liberal Arts and Professional Studies and La Marsh Research Centre on Violence and Conflict Resolution, York University.

The non-degree credit Advanced Certificate in Dispute Resolution consists of 85 hours of classroom instruction, dispute resolution observation and supervised mediation practice. The program will present participants with a structured and supervised opportunity to apply the theories of dispute resolution "in-the-field". The program explores theoretical constructs of conflict, conflict escalation and modes of dispute resolution; exposure to and critical analysis of best practices in dispute resolution; skill development opportunities; and development of a model for continued self-education in professional practice in dispute resolution. The program is designed for graduates of the division's Certificate in Dispute Resolution Program and other eligible practitioners who are interested in pursuing advanced-level education and training in the field of dispute resolution practice, so that they can confidently and skillfully offer mediation services to the public, in a variety of settings. The program provides students with a direct link to accreditation and the acquisition of professional designation and membership in dispute resolution associations. Successful completion of the Advanced Certificate in Dispute Resolution will give graduates the educational component needed to apply for the Chartered Mediator

(C.Med) designation granted by the ADR Institute of Canada. For more information please check the ADR Institute of Ontario Web site at <http://www.adrontario.ca>.

Certificate in Dispute Resolution Internship

These optional, 100-hour internships are available to graduates of the Certificate in Dispute Resolution Program or those that have completed at least 132 hours of dispute resolution training at another institution who are interested in practicing their newly-acquired skills under the supervision of experienced dispute resolution professionals. Internships are available in four areas of dispute resolution practice: community mediation, family mediation, organizational dispute resolution and bilingual mediation. Interns develop individualized learning plans, in collaboration with the internship provider, which determine the range of activities and specific outcomes for their internship.

Certificate in Infant Mental Health

Co-sponsored with the Infant Mental Health Promotion

This 120-hour non-credit certificate program is designed to provide front-line service providers with essential knowledge and practical skills to encourage positive parent-infant interactions and promote optimal developmental progress in infants. The program is directed to those interested in working effectively in the field of infant development, prevention and/or early intervention including work with infants with special needs, and infants living in high-risk environments.

Advanced Certificate in Infant Mental Health

Co-sponsored with the Infant Mental Health Promotion

This 98-hour non-credit skills-based program will provide participants with a structured and supervised opportunity to apply theoretical principles in a practical and realistic environment, featuring role-plays, video and written case studies, and peer consultation. Upon completion of the program, participants will have demonstrated their practical understanding of theoretical principles underlying a variety of assessment and intervention strategies, reflected upon the application of a code of ethical conduct to their work with infants, toddlers and their parents, and enhanced their facility in self-care within a difficult area of human service practice.

Certificate in Organizational Learning and Quality Improvement for the Developmental and Human Services Sectors

The main objective of the Certificate in Organizational Learning and Quality Improvement Program is to facilitate the development of knowledge and skills to assist organizations in the developmental services and human services sectors to create cultures of continuous quality improvement and to meet accreditation standards for service delivery.

A non-credit Certificate in Organizational Learning and Quality Improvement would be awarded to program participants upon the successful completion of 96 hours of classroom-based and online work. This blended delivery format provides opportunities for face-to-face learning and online mentoring and 'virtual' small group discussion.

Certificate in Transformational Leadership for Women

This program provides unique learning opportunities for women interested in refining their existing skills in order to pursue careers in senior management and/or leadership positions. This program focuses on a combination of theoretical and practitioner-related themes, building a dynamic curriculum in which students examine their experiences in their current professional positions and then use those experiences as a foundation for further professional development. This program also examines potential key connectivity between professional and personal themes as a means of achieving senior management and leadership positions. Personal and professional transformation permeates all dimensions of the program.

Certificate in Marketing for Professionals

This non-degree certificate program will consist of nine 36-hour courses, each including classroom instruction, small group and personal exercises and discussions, over two levels. Course #1, Marketing Essentials, is a prerequisite to all other courses. Other than Marketing 101, the courses may be taken in any order but it is recommended that the student complete the courses in level 1 before taking the courses in level 2. Once the courses in each level are completed the student can apply to receive a certificate indicating successful completion of that level. Upon completion of all the courses in both levels the student can apply to receive a certificate indicating successful completion of the program.

Certificate in Refugee and Forced Migration Issues

This non-degree certificate program will consist of one introductory workshop and three 36-hour course for a total of 114 hours. The pedagogy consists of classroom sessions, small group and personal exercises and discussions. The overall goal of the program is to improve the settlement experiences of refugees by strengthening the programs and services that assist them. Participants will build on their own professional experiences. They will better understand: national and international legal and immigration policies and their rationale, the experiences of refugees from diverse backgrounds, and be able to recognize and address the psychosocial needs of their clients.

Certificate in Harm Reduction

The Certificate in Harm Reduction consists of 117-hours of instruction designed to introduce service providers, administrators and policy makers to the principles, concepts and practices of harm reduction, to provide an opportunity to critically examine examples of harm reduction work and to become familiar with strategies for mobilizing support for and developing harm reduction programs in communities, families and institutions.

Professional Development Courses

Building a Successful Mediation Practice

Explore the requirements for building a successful professional practice in dispute resolution, helping individuals or organizations manage conflict through mediation. This course details the major milestones in building a practice. Participants receive a skills/capacity tool with which they can plan their ongoing professional skills development.

Introduction to Dispute Resolution in the Workplace

Explore conflict within workplace settings, including both its positive role in the change process and ways to prevent its more unnecessary and destructive forms. You will be presented with practical and proven approaches for resolving workplace disputes including interest-based negotiation, third-party mediation and dialogue processes.

Labour Relations: Options for Dispute Resolution

Take a comprehensive look at grievance arbitration: its process and its alternatives. This complex topic is thoroughly explored, providing students with relevant tools. For greatest impact and relevance, fact situations used in the course will be based on the participants' actual workplaces.

Managing Harassment in the Workplace

Acquire the necessary information to help organizations understand the different forms of harassment and discrimination; guidelines to developing internal processes address harassment and discrimination complaints. Students will explore and use a framework to effectively investigate complaints.

Examining Racism in Canada: Fostering a Response for Action

Examine racism and white privilege in a historical and contemporary Canadian context. Explore how these and other barriers can reduce life chances and opportunities for people of colour in our communities. Through a number of exercises and activities, participants will engage in an open, in-depth dialogue on matters of race. Students will develop individual responses for addressing racism and other racial barriers.

Restorative and Circle Processes for Social Workers, Theories and Practices

A comprehensive professional development course for social workers in all areas of practice wanting to add the circle process to their skills set. An overview of past and present practices in Restorative Justice and Circle Processes. This course is based on the restorative model developed by PACT (Participation, Acknowledgment, Commitment, Transformation), used successfully in thousands of restorative circles.

Foundation for Emerging Leaders: Career Self-Management

Explore a new career and its link with career competencies – knowing how, knowing who and knowing why – as the foundation for upward and lateral career mobility. Self-knowledge is the primary step towards developing clear and achievable long-term goals.

Transformational Leadership Fundamentals

Determine your own individual, program-specific learning objectives and priorities and complete a self-administered skills assessment to identify strengths and areas for further skill development. Transformational Leadership gives you the tools to taking responsibility in your work life.

Leading Groups in Organizations

Acquire an understanding of key group processes to lead effectively. The course addresses group formation and roles, group decision making, conflict and cooperation in groups, giving and receiving feedback in groups, and group leadership styles.

Grant-Winning Proposal Writing

This course includes a practical exercise in articulating goals and objectives, and developing a work plan. Of interest to executive directors, board members, staff and volunteers of non-profit organizations and community agencies who participate in fundraising activities.

Diversity and Cross-Cultural Learning in Mediation

This course includes a practical exercise in articulating goals and objectives, and developing a work plan. Presenting a dynamic and informative skills-building training course for the experienced mediation practitioner. Through this interactive course, you will confront your own identification with culture, power, discrimination and stereotypes. You will also be challenged to reflect upon and be mindful of the impact—whether intentional or not, of how each of us can and do influence others. Upon completion of the course, you will have the knowledge and understanding of applying more inclusive approaches to working with diverse community members who are often overlooked or marginalized as integral members in the field of mediation.

Disaster and Emergency Management

This course presents the theories, principles and approaches to disaster and emergency management. Organized based on the concept and practice of comprehensive emergency management, it will explain concepts, methods and issues of mitigation, preparedness, response and recover phases of emergency management, as well as hazard, risk and vulnerability analysis. This course is supported by disaster and emergency

research and practice using a combination of disaster and emergency related research findings, professional practice and various past disaster and emergency cases selected from Canada and the rest of the world.

Writing Reports that Work (Business Writing Skills)

Why report writing? Most of us have to write reports to communicate information within and outside our organizations and time is always an issue. A badly written report risks remaining unread and its objectives not being reached. Effective report writing is one of the best ways of influencing and persuading the right people and leaves a permanent record of your credibility and thought processes. This is a blended-delivery course, specifically designed to enable you to write easy-to-read, organized documents that will achieve your desired results and create maximum impact on your audience. Upon completion of the three sections of this course you will produce more professional and effective reports.

Family Mediation

In this five-day, 40-hour course, the participants will learn the nature of conflict, the ADR spectrum, interest-based negotiation and the mediation process. They will practice the skills required to inform prospective clients about mediation, to understand the importance of screening for domestic violence and power imbalance, to prepare a Family Mediation Agreement, to open a mediation, to model and apply client-centred communication, to facilitate the sharing of party perspectives, agenda formation, and problem-solving, and to draft a Memorandum of Understanding. The trainer will demonstrate mediator interventions and the participants will apply their learning in role-play simulations. The training manual contains a concise summary of the content of the course with a glossary of terms, a bibliography, precedents for practice, journal articles and codes of ethics. This course is designed to meet the membership criteria of the ADR Institute of Ontario, Family Mediation Canada, and the Ontario Association for Family Mediation and contribute to the training requirements for certification as a family mediator by those organizations.

Family Arbitration

In this five-day, 40-hour course, the participants will learn the nature of conflict, the ADR spectrum and the arbitration process. They will practice the skills required to inform prospective clients about arbitration, to understand the importance of screening for domestic violence and power imbalance, to prepare a Family Arbitration Agreement, to conduct a pre-hearing meeting, to commence and conduct an arbitration hearing and to draft an award. The *Arbitration Act* and the *Family Law Act*, as amended by the *Family Statute Law Amendment Act*, and the Family Arbitration regulations will be reviewed in detail. The trainer will demonstrate arbitrator practices and the participants will apply their learning in role-play simulations. The training manual contains a concise summary of the content of the course with a glossary of terms, a bibliography, precedents for practice, the legislation and regulations, and court decisions. This course is designed to meet for membership criteria of the ADR Institute of Ontario and contribute toward the training requirements for certification as a family arbitrator by that organization.

Screening for Domestic Violence and Power Imbalance

This 21-hour course will be of interest to dispute resolution professionals and other practitioners who work with families. It is fashioned from the standards set by Ontario Association for Family Mediators (OAFM) whose definition addresses psychological, emotional and economic abuse and power imbalance. Also included is the requirement for a safe, voluntary, fair and competent process with the caveat for termination if there is an element of risk. The course fits the criteria set by Family Mediation Canada (FMC) and the ADR Institute of Toronto. Dispute resolution has demonstrated its usefulness in domestic violence cases with separating and divorcing families. The court system is not equipped to adequately deal with these power differentials. Working through the lens of a feminist and intersectional theoretical framework, this course will look at the historical, societal and political perspectives of the issue. It will seek to raise the level of awareness of family professionals in the effective use of critical interventions and effective screening apparatus in cases where there is domestic violence and power imbalance. The application of an

analytical approach to determine capacity, readiness and appropriateness will be applied. In viewing the various typologies trainers will use videos, mini lectures and demonstrations to assist participants in the understanding of and to increase the level of sensitivity of the issues. The training manual will include journal articles, a bibliography and other related materials.

Collaborative Practice

In this five-day, 40-hour course, the participants will learn the underlying principles of collaborative practice, including the history, evolution and applications of the process. The course will provide the learner with an understanding of the role of the legal, family and financial professionals and the role of the clients in the process, as well as how to assess clients for enrolment. Participants will become familiar with client coaching and education and the role of interest based negotiations in the collaborative process. The course focuses on approaches to understanding and managing conflict and provides opportunities for demonstrations, role plays and interactive learning of skills and techniques that assist the clients through the process. The trainers will provide both an in-depth guide to all aspects of a collaborative case as well as time for the participants to experience the various approaches from the perspective of all of the professional team members (financial, family and legal). The training faculty will demonstrate how the professionals work together to bring skill and efficiency to the clients' needs and objectives. Trainers will demonstrate how to model and apply client-centred communication, to facilitate the sharing of party perspectives, agenda formation, and problem-solving, and how to draft a Separation Agreement in a cooperative manner. The training manual contains a concise summary of the content of the course with a glossary of terms, a bibliography, precedents for practice, journal articles, and protocols. This course is designed to meet the membership criteria of Collaborative Practice Toronto, and many other practice groups around the GTA and the province.

Family Law

In this four-day, 30-hour course, the participants will learn the fundamentals of our law-making traditions, the administration of the Ontario family justice system and the principal family law legislation. The participants will acquire an understanding of the family law pertaining to the custody of and access to children, child support, spousal support, the equalization and division of property, and domestic contracts. The *Divorce Act*, the *Children's Law Reform Act*, the *Family Law Act* and the *Succession Law Reform Act* will be reviewed in detail. The trainer will demonstrate the application of the DIVORCEmate software to determine child support pursuant to the Child Support Guidelines and spousal support pursuant to the Spousal Support Advisory Guidelines. The training manual contains a concise summary of the content of the course with excerpts from the legislation and court decisions and a precedent Separation Agreement. This course is designed to meet the criteria of the Attorney General of Ontario for professionals, other than lawyers, who are family arbitrators.

Admission Credential

Pre-University Humanities: Aspects of Canadian Culture

Pre-University Social Science: Canadian Social Issues

These non-credit admission credential courses are offered over 14 evenings and are designed for people who intend to apply as mature students to York University for degree-credit study in the Faculties Environmental Studies, Fine Arts, Glendon or Liberal Arts and Professional Studies. Students who earn a minimum grade of B or better in the pre-University course, will be considered for admission to York University.

To be considered as a mature student, student should be 21 years or older as of the first day of classes of the session for which student has applied; have been out of full-time high-school studies for at least two years (if the

student returned to upgrade after a two-year absence, the student is still eligible to apply as a mature student); do not have a recent unfavourable academic record and have demonstrated potential for success through academic, professional or volunteer activities and other accomplishments. For greater detail please refer to the York University Office of Admissions at 416-736-5000.

Academic Preparation

Elementary Mathematics

This non-credit course is offered over 26 evenings and is designed to upgrade students' skills in elementary mathematics. It is useful for students who have been away from mathematics for some time and are in need of a refresher course. Topics to be covered include beginning skills in algebra, analytic geometry, Euclidean geometry and equation solving, as well as an introduction to trigonometry.

Students already admitted to the Faculty of Liberal Arts and Professional Studies who earn a grade of B or better in this course will gain automatic entrance to MATH 1710 6.00 and will be exempt from taking the preliminary test.

Mathematics for Admissions Waiver

Designed by the School of Administrative Studies with mathematics entrance requirements in mind, this 60-hour non-credit course examines critical mathematical techniques, emphasizes problem solving, and fundamental concepts and how they relate to each other. Topics include numbers and logics, tools for data management, combinations, sequences and series, and functions and linear equations. This course is for students who require the equivalent of Grade 12U Advanced Functions mathematics for program admission, such as, administrative studies and economics. This course will provide an acceptable alternative to meet the entry requirements of some programs.

Disaster and Emergency Management Prerequisite Course for the Masters Program in Emergency Management

This course presents the theories, principles and approaches to disaster and emergency management. Organized based on the concept and practice of comprehensive emergency management, it will explain concepts, methods and issues of mitigation, preparedness, response and recover phases of emergency management, as well as hazard, risk and vulnerability analysis. This course is supported by disaster and emergency research and practice using a combination of disaster and emergency related research findings, professional practice and various past disaster and emergency cases selected from Canada and the rest of the world. This is a prerequisite course for students interested in enrolling in the masters program in Emergency Management.

Preparatory Programs for Professional Association Examinations

Aviation Program

Flight Dispatcher Program

A flight dispatcher plays a pivotal role in the aviation industry in Canada. As an employee of an airline, the flight dispatcher has overall responsibility for flight planning and air safety. With few and very limited exceptions, aircraft belonging to an airline, carrying passengers and operating from a Canadian airport may not depart without the consent of the flight dispatcher. All flight dispatchers must have passed the generic Transport Canada Flight Dispatcher Examination before being permitted to work in

flight dispatch. This intensive, non-degree credit course was designed to assist flight dispatch candidates to prepare for the Transport Canada Certificate Examination.

Undergraduate Degree and Certificate Programs

Undergraduate Degree Programs

Honours Bachelor of Applied Science (Honours BASc) program, which requires at least four years of full-time study and at least 120 credits, and involves study in one of four engineering streams: computer engineering, engineering physics, geomatics engineering or space engineering.

Honours Bachelor of Arts (Honours BA) program which requires at least four years of full-time study and at least 120 credits:

- Specialized Honours with one declared major in applied mathematics, computer science, computer security, digital media, mathematics, mathematics for education and statistics.
- Honours Major with one declared major in applied mathematics, computer science, mathematics, mathematics for commerce, mathematics for education and statistics.
- Honours Double Major (intra-Faculty) with a declared major in applied mathematics, mathematics, mathematics for education and statistics and a second major in applied mathematics, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies and statistics.

Note: computer science can combine with any of applied mathematics, mathematics, mathematics for education or statistics.

- Honours Double Major (Science/Environmental Studies inter-Faculty) with a declared major in applied mathematics, computer science, mathematics and statistics and a second major in environmental studies.
- Honours Double Major (Science/Fine Arts inter-Faculty) with a declared major in applied mathematics, computer science, mathematics and statistics and a second major in one of dance, film, music, theatre, visual arts.
- Honours Double Major (Science/Health inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a second major in one of health studies, kinesiology and health science or psychology.
- Honours Double Major (Science/Liberal Arts and Professional Studies inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a second major in one of African studies (mathematics or statistics only), anthropology, Canadian studies, children's studies, classical studies, classics, cognitive science, communication studies, creative writing, criminology, culture and expression, East Asian studies, economics, English, European studies (mathematics or statistics only), French studies, geography, German studies, health and society, Hellenic studies, history, humanities, human rights and equity studies, international development studies, Italian studies, Jewish studies, labour studies, Latin American and Caribbean Studies (mathematics or statistics only), law and society, linguistics, philosophy, political science, professional writing, race, ethnicity and indigeneity, religious studies, Russian, Russian studies, science and technology studies, sexuality studies, social and political thought (mathematics and statistics only), social science, sociology, South Asian studies (mathematics and statistics only), Spanish, urban studies, women's studies.

Note: in addition, students in applied mathematics, mathematics, mathematics for education or statistics may combine their major with a second major in information technology.

- Honours Major/Minor (intra-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education, and statistics and a minor in applied mathematics, biology, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for commerce, mathematics for education, physics and astronomy, science and technology studies or statistics.
- Honours Major/Minor (Science/Environmental Studies inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a minor in environmental studies.
- Honours Major/Minor (Science/Fine Arts inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a minor in one of dance, film, music, theatre, visual arts.
- Honours Major/Minor (Science/Health inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a minor in one of health informatics, health management, health policy, kinesiology and health science or psychology.
- Honours Major/Minor (Science/Liberal Arts and Professional Studies inter-Faculty) with a declared major in applied mathematics, computer science, mathematics, mathematics for education and statistics and a minor in one of African studies, anthropology, business, Canadian studies, children's studies, classical studies, classics, creative writing, culture and expression, East Asian studies, economics, English, European studies, French studies, geography, German studies, health and society, Hellenic studies, history, humanities, human rights and equity studies, international development studies, Italian culture, Italian studies, Jewish studies, labour studies, Latin American and Caribbean studies, linguistics, philosophy, political science, Portuguese studies, race, ethnicity and indigeneity, religious studies, Russian, Russian studies, science and technology studies, sexuality studies, social and political thought, sociology, South Asian studies, Spanish, urban studies, women's studies.

Note: in addition, students in applied mathematics, mathematics, mathematics for education or statistics may combine their major with a minor in information technology.

International Bachelor of Arts (iBA) program, which requires at least four years of full-time study, at least 120 credits, and one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement:

- Honours with one declared major in computer science.
- Honours Major/Minor with a declared major in computer science, and a minor in applied mathematics, biology, chemistry, earth and atmospheric science, mathematics, mathematics for commerce, mathematics for education, physics and astronomy, science and technology studies or statistics. In addition, the declared major in computer science may be taken with an inter-faculty minor from the Faculties of Environmental Studies, Fine Arts, Health or Liberal Arts and Professional Studies.

Bachelor of Arts (BA) programs, which are usually completed in three years of full-time study, require at least 90 credits and usually involve limited concentration in only one declared subject area:

- Bachelor with one declared major in applied mathematics, computer science, mathematics, mathematics for commerce, statistics.

Honours Bachelor of Science (Honours BSc) programs, which are usually completed in four years of full-time study, require at least 120 credits and may involve varying degrees of concentration in one or two declared subject areas:

- Specialized Honours with one declared major in applied mathematics, biochemistry, biology, biophysics, chemistry, computational mathematics, computer science, computer security, earth and atmospheric science, environmental science, geography,

international dual degree – mathematics and statistics, mathematics, mathematics for education, physics and astronomy, science and technology studies or statistics.

- Honours Major with one declared major in applied mathematics, biology, chemistry, computer science, mathematics, mathematics for education, physics and astronomy or statistics.
- Honours Double Major (intra-Faculty) with declared science majors in two of applied mathematics, biology, chemistry, computer science, earth and atmospheric science, geography (in combination with earth and atmospheric science only), mathematics, mathematics for education, physics and astronomy, science and technology studies, statistics.

Note: some combinations may require more than 120 credits.

- Honours Double Major (Science/Health inter-Faculty) with a declared science major in applied mathematics, biology, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies, or statistics and a declared health major in health studies, kinesiology and health science or psychology.
- Honours Double Major (Science/Liberal Arts and Professional Studies inter-Faculty) with a declared science major in applied mathematics, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies or statistics and a declared liberal arts and professional studies major in one of anthropology, Canadian studies, children's studies, classical studies, classics, communication studies, cognitive science, creative writing, criminology, culture and expression, East Asian studies, economics, English, French studies, German studies, health and society, Hellenic studies, history, humanities, human rights and equity studies, international development studies, Italian studies, Jewish studies, labour studies, law and society, linguistics, philosophy, political science, professional writing, race, ethnicity, and indigeneity, religious studies, Russian, Russian studies, sexuality studies, social science, sociology, Spanish, urban studies, women's studies.

Note: choice of majors is subject to timetabling constraints. Some combinations may require more than 120 credits. In addition, students in applied mathematics, mathematics, mathematics for education or statistics may combine their major with a second major in information technology.

- Honours Major/Minor (intra-Faculty) with a declared science major in one of applied mathematics, biology (including the biomedical science stream), chemistry, computer science, earth and atmospheric science, geography, mathematics, mathematics for education, physics and astronomy, science and technology studies, statistics and a declared science minor in one of applied mathematics, biology, chemistry, computer science, earth and atmospheric science, geography, mathematics, mathematics for commerce, mathematics for education, physics and astronomy, science and technology studies, statistics.

Note: major/minor combinations with the major and minor in the same subject area are not permitted.

- Honours Major/Minor (Science/Environmental Studies inter-Faculty) with a declared science major in one of applied mathematics, biology, chemistry, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies, statistics and a declared minor in environmental studies.
- Honours Major/Minor (Science/Fine Arts inter-Faculty) with a declared science major in one of applied mathematics, biology, chemistry, computer science, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies, statistics and a declared fine arts minor in one of dance, film, music, theatre, visual arts.

Note: choice of major and minor is subject to timetabling constraints.

- Honours Major/Minor (Science/Health inter-Faculty) with a declared science major in one of applied mathematics, biology, chemistry, computer science, earth and atmospheric science, geography, mathematics, mathematics for education, physics and astronomy,

science and technology studies, or statistics and a declared health minor in health informatics, health management, health policy, kinesiology and health science or psychology.

- Honours Major/Minor (Science/Liberal Arts and Professional Studies inter-Faculty) with a declared science major in one of applied mathematics, biology, chemistry, earth and atmospheric science, mathematics, mathematics for education, physics and astronomy, science and technology studies, statistics and a declared liberal arts and professional studies minor in one of African studies, anthropology, business, Canadian studies, children's studies, classical studies, classics, creative writing, culture and expression, East Asian studies, economics, English, European studies, French studies, German studies, health and society, Hellenic studies, history, humanities, human rights and equity studies, international development studies, Italian culture, Italian studies, Jewish studies, labour studies, Latin American and Caribbean studies, linguistics, philosophy, political science, Portuguese studies, race, ethnicity, and indigeneity, religious studies, Russian, Russian studies, sexuality studies, social and political thought, sociology, South Asian studies, Spanish, urban studies, women's studies.

Note: in addition, students in applied mathematics, mathematics, mathematics for education or statistics may combine their major with a minor in information technology.

- Honours Science with no declared major, for the student who wishes to enrol in a broader range of courses at the 3000 and 4000 levels than can normally be undertaken in Specialized Honours, Honours Double Major or Honours Major/Minor programs.

International Bachelor of Science (iBSc) programs, which require at least four years of full-time study, at least 120 credits, and one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement:

- Specialized Honours, with one declared major in biology.
- Honours Major with one declared major in computer science.

Bachelor of Science (BSc) programs, which are usually completed in three years of full-time study, require at least 90 credits and usually involve limited concentration in only one declared subject area:

- Bachelor with one declared major in applied mathematics, biology, chemistry, computer science, earth and atmospheric science, geography, international dual degree – mathematics and statistics, mathematics, physics and astronomy, science and technology studies or statistics.
- Bachelor with no declared major for the student who wishes to enrol in a broader range of courses at the 3000 and 4000 levels than can normally be undertaken in BSc programs.
- Students may choose to major in a specific subject when they enter the University or they may wait until they have completed up to 24 credits. At this point, students must choose a major, but subsequent changes are possible. In selecting courses, students who are undecided should try to take introductory courses in a number of potential major subjects. This will allow them to proceed in their subject of choice without the possibility of a delay. Some departments will not permit undecided majors to enrol in their courses.

Bachelor of Science in Technology (BSc (Tech)). Bachelor in applied biotechnology, offered jointly with Seneca College.

Joint Study Programs

Inter-Faculty Double Major and Major/Minor Programs

The Faculty of Science and Engineering jointly offers Honours Double Major programs with the following Faculties: Environmental Studies (with BA options only), Fine Arts (with BA options only), Health and Liberal Arts and Professional Studies. The Faculty of Science and Engineering also jointly offers Honours Major/Minor programs with the Faculties of Environmental Studies, Fine Arts, Health and Liberal Arts and Professional Studies.

A student in the Faculty of Science and Engineering who has completed 24 credits in an Honours program and satisfies the Faculty of Science and Engineering academic standards to proceed in Honours may combine the

study of a major in the Faculty of Science and Engineering, and a major or minor in the other Faculty. All Honours programs require a minimum of 120 credits which can normally be completed in four years of full-time study.

Corresponding programs involving a first major in the other Faculty and a major or minor in the Faculty of Science and Engineering lead to Honours BA, BES or BFA degrees in the other Faculty.

For a list of possible subject combinations, refer to Undergraduate Degree Programs above. For details of the major or minor requirements in the Faculty of Science and Engineering, refer to the Faculty of Science and Engineering Programs of Study section. For details of the major or minor requirements in the other Faculty, refer to the Programs of Study section of the appropriate Faculty.

Science and Education

A student wishing to obtain the professional certification required to teach in Ontario schools may take both teacher training and an undergraduate academic program concurrently. This does not shorten the time required to gain the qualification but provides a better chance for the student to relate theory and practice and to have more opportunity to gain practical experience than is possible in a one-year program.

A student in the Faculty of Science and Engineering who is presently enrolled in first year (at least 24 credits) or has a minimum of 36 credits remaining in the BSc, Honours BSc, BA or Honours BA with an overall standing of at least 5.00 (C+) may apply to coregister in the Faculty of Education. A coregistered student normally takes one and a half or two full courses in the Faculty of Education in an academic year concurrent with courses for the BSc, Honours BSc, BA or Honours BA. The specific study program of each student is subject to the approval of both Faculties.

Upon successful completion of the course requirements for the degree in the Faculty of Science and Engineering, and of the required education courses, a coregistered student is awarded a BSc, Honours BSc, BA or Honours BA and a BEd.

Certificate Programs

York University undergraduate certificate programs are open to all undergraduate students, subject to student eligibility and course availability. The following certificates are offered by departments affiliated with the Faculty of Science and Engineering and can be taken concurrently with an Honours BSc degree program. Several of the certificates can also be taken concurrently with a BSc degree program. Some are open to visiting students. Refer to the information below.

Certificate in Geographic Information Systems (GIS) and Remote Sensing

Registered Honours BSc and BSc candidates, and visiting students, may work towards a Certificate in Geographic Information Systems (GIS) and Remote Sensing, offered jointly by the Department of Earth and Space Science and Engineering of the Faculty of Science and Engineering, the Department of Geography of the Faculty of Liberal Arts and Professional Studies and the Faculty of Environmental Studies. The certificate program includes three streams, one offered through each of the three units above. Honours BSc or BSc candidates majoring in earth and atmospheric science, environmental science or geography can work concurrently towards the certificate and an Honours BSc or BSc degree.

The certificate requirements for BSc and Honours BSc candidates are as follows.

Earth and Atmospheric Science Stream

- SC/EATS 1010 3.00;
- SC/EATS 1011 3.00;
- SC/GEOG 2420 3.00;
- SC/EATS 3300 3.00;
- SC/GEOG 3440 3.00;
- SC/EATS 4220 3.00;
- SC/EATS 4400 3.00;
- three credits (approved by the Department of Earth and Space Science and Engineering) chosen from the following courses:
 - SC/EATS 4230 3.00;
 - ES/ENVS 3011 3.00;

- SC/GEOG 2130 3.00;
- SC/GEOG 3421 3.00;
- AP/GEOG 4240 3.00.

Geography Stream

- SC/GEOG 1400 6.00 or AP/GEOG 1410 6.00 or AP/GEOG 1000 6.00;
- SC/GEOG 2420 3.00;
- SC/GEOG 3180 3.00;
- SC/GEOG 3440 3.00;
- SC/GEOG 4340 3.00;
- SC/GEOG 4440 3.00;
- three credits (approved by the Department of Geography) chosen from the following courses:
 - SC/EATS 4220 3.00;
 - SC/EATS 4230 3.00;
 - SC/GEOG 2130 3.00;
 - SC/GEOG 2350 3.00;
 - AP/GEOG 3140 3.00;
 - AP/GEOG 4240 3.00.

For the requirements for the environmental studies stream, refer to the environmental studies section of the York Undergraduate Programs Calendar.

To be eligible to receive the certificate, students must achieve a minimum credit-weighted grade point average of 6.00 (B) over the 24 York University credits required for the certificate in one of the three streams. Degree candidates must also achieve and maintain Honours standing in their academic degree program.

Note: students who have been exempted from the 1000-level requirement in the geography stream may substitute six additional credits which must be approved by the Department of Geography and which must be chosen from the following list: SC/GEOG 2130 3.00, AP/GEOG 3140 3.00, AP/GEOG 4240 3.00, SC/EATS 4220 3.00 or SC/EATS 4230 3.00.

For additional information, consult on the three units mentioned above.

Certificate in Meteorology

Registered Honours BSc candidates and visiting students, who are interested in atmospheric science (meteorology) and who satisfy the certificate program admission requirements may work towards a Certificate in Meteorology offered by the Department of Earth and Space Science and Engineering. Normally, a student registered in the atmospheric science stream of the department works concurrently towards a certificate and an Honours BSc degree. However, the program is open to any student who satisfies the program admission requirements. Entrance to the program requires the candidate to have successfully completed at least 54 approved credits (nine approved full courses) in the areas of physical science and mathematics.

The certificate requirements are as follows:

- SC/EATS 3030 3.00;
- SC/EATS 3040 3.00;
- SC/EATS 4050 3.00;
- SC/EATS 4051 3.00;
- SC/EATS 4120 3.00;
- SC/EATS 4140 3.00;
- 12 credits chosen from the following courses:
 - SC/EATS 3130 3.00;
 - SC/EATS 3280 3.00;
 - SC/EATS 4020 3.00;
 - SC/EATS 4130 3.00;
 - SC/EATS 4150 3.00;
 - SC/EATS 4160 3.00;
 - SC/EATS 4220 3.00;
 - SC/EATS 4230 3.00;
 - SC/EATS 4240 3.00;
 - SC/GEOG 4205 3.00;
 - SC/GEOG 4210 3.00;
 - SC/GEOG 4310 3.00;
 - SC/MATH 4141 3.00;
 - SC/MATH 4142 3.00;
 - SC/PHYS 4120 3.00.

In order to receive the certificate, the student must achieve a minimum credit-weighted grade point average of 4.00 (C) or better over the 30 credits required for the certificate.

For additional information, consult the Department of Earth and Space Science and Engineering.

Advising, Enrolment, Registration, Graduation and Other Administrative Procedures

Student Responsibility

Every effort is made in the Faculty of Science and Engineering to ensure that each student receives academic advice and sufficient information to guide in course selection and program choice. Within this context, the student is solely responsible for the following:

- ensuring that the courses chosen in consultation with an adviser meet all program (refer to the Faculty of Science and Engineering Programs of Study section) and degree (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) requirements for graduation;
- ensure the courses they choose meet prerequisites and are not exclusions or equivalents of other courses already taken;
- verifying the accuracy of registration records, including all course changes;
- fulfilling the requirements and being aware of academic progress in all registered courses;
- noting and abiding by the sessional deadline dates published on the Current Students Web page each year, especially course change deadline dates.

Advising

Before each academic session begins, every student can meet with an adviser to discuss program and degree requirements. However, it is the responsibility of all students to familiarize themselves with both the requirements of their individual programs of study (refer to the Faculty of Science and Engineering Programs of Study section) and the regulations governing their degree requirements (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

In preparation for enrolment, and at the advising appointment, the following should be considered:

Choice of subject area(s). Every student must choose one or two subject area(s) according to personal interests and career goals.

Choice of program. All students who have completed 24 or more credits must choose a program (bachelor, Specialized Honours, Honours Major, Honours Double Major or Honours Major/Minor) in accordance with general regulation 3 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section. Minimum grade point average requirements for Honours programs are detailed under Academic Standards for Bachelor and Honours Degree Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section and in the program of study requirements in the Faculty of Science and Engineering Programs of Study section. See also Designation of Honours or Bachelor Program in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section.

Faculty of Science and Engineering degree requirements and regulations. Refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section.

Course selection at the 1000 level. For first-year students, the 1000-level (entry-level) programs are multidisciplinary. Students take introductory courses, consistent with their levels of background preparation, which are planned to prepare them well for more advanced study in the subject areas of their choice. Most introductory courses carry prerequisites, normally at the 12U level.

The course requirements at the 1000 level, except for the BA programs, are governed by Faculty general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and are outlined in items i) and ii) under the program of study requirements for each subject area in the Faculty of Science and Engineering Programs of Study section. These Faculty regulations ensure that students' choices from the roster of introductory offerings provide an adequate and appropriate breadth in science, help students to develop basic computational, mathematical and laboratory skills, and also an appreciation of the humanities and social sciences.

Unless stated otherwise in the program of study requirements in the Faculty of Science and Engineering Programs of Study section, Honours Double Major candidates are expected to complete all 1000-level requirements for both majors, excepting course credit exclusions.

Unless stated otherwise in the program of study requirements in the Faculty of Science and Engineering Programs of Study section, the 1000-level requirements for Honours Major/Minor programs are those of the major subject, plus or including any required 1000-level courses in the minor subject and any 1000-level courses which are required as prerequisites or corequisites for required courses in the minor, excepting course credit exclusions.

Since the normal yearly full-time credit load is 30 credits (somewhat higher for BAsc Honours candidates), it will not be possible for the student to complete all the 1000-level requirements for any degree program in year one. Certain specific courses should be taken in year one as prerequisites for required 2000-level courses or as an introduction to the major or minor subject area. It is advisable to complete as many of the other required 1000-level courses as possible in year one to avoid timetable conflicts in later years.

In some circumstances, equivalent courses approved in writing by the major program(s) may be substituted for the courses listed.

Course selection above the 1000 level. Complete details of the course requirements for all subject areas and programs are found in the Faculty of Science and Engineering Programs of Study section. Degree checklists for all programs/subject areas are available from the Office of Science Academic Services.

Prerequisites/corequisites. Most courses in the Faculty of Science and Engineering have prerequisite and/or corequisite requirements. These may be specific courses (indicating specific required background knowledge) or they may be general prerequisites (indicating a required level of maturity in university studies in the subject area or overall).

As indicated in general regulation 2 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section, it is the student's responsibility to enrol in only those courses for which the student has successfully completed all designated prerequisites and to take concurrently all specified corequisites not already completed successfully. Students who lack the stated prerequisites but have reason to believe that they can succeed in a course must obtain written permission of the department concerned (consult the departmental undergraduate office regarding the procedure to be followed) before enrolling.

Course credit exclusions. Students should avoid enrolling in any two courses which are designated as course credit exclusions of one another, since credit will be given for only one. For more information regarding course credit exclusions, refer to Course Credit Exclusions in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section.

Scheduling. All information regarding courses to be offered in each session, times, places etc. is found on the Current Students Web site (<http://www.yorku.ca/yorkweb/cs.htm>).

Enrolment

Students enrol in courses offered by the Faculty of Science and Engineering through the Web enrolment system. Information on how to use the system is provided on the Current Students Web site (<http://www.yorku.ca/yorkweb/cs.htm>). Access to the system is granted to newly admitted students only after the advising document has been signed.

A maximum of 15 credits in total may be taken during a summer session at York University and/or at another institution, a maximum of 33 credits during a fall/winter session (36 credits for the BASc degree).

Transfer Credit/Letters of Permission

Transfer credit towards a York University degree may be granted for courses taken at other accredited postsecondary institutions prior to registration at York University.

Transfer credit assessments for the Faculty of Science and Engineering are specific to the program and subject area(s) in which the student plans to enrol at York University. If the student does not enrol in the program(s) and subject area(s) specified on the admission application or, subsequent to first registration, changes subject area(s) and/or program(s), the transfer credit must be reassessed.

A student wishing to take a course at an external accredited institution at any time for credit towards a degree program in the Faculty of Science and Engineering is required to obtain a letter of permission from York University prior to taking the course.

Request forms for letters of permission are available from Student Client Services or on the Current Students Web site at <http://www.yorku.ca/yorkweb/cs.htm>. The letter of permission request form, with course description(s), must be submitted to the appropriate departmental office to have the course(s) assessed for equivalents/exclusions. The completed form must then be returned to Student Client Services.

At the conclusion of the session for which a letter of permission was granted, the student must arrange for the host institution to submit either an official transcript for consideration for transfer credit or official notice of withdrawal/non-enrolment to the Registrar's Office.

The student must obtain a grade of C or higher in the course for which a letter of permission has been granted in order to receive credit for the course in the Faculty of Science and Engineering. Such courses completed on letters of permission are included in the student's cumulative record, although grades from such courses are not listed on York University transcripts and are not included in the calculation of York grade point averages.

Should a student leave York University to pursue study at another postsecondary institution without a letter of permission, upon return to York, a new application to York is required and all previous transfer credit will be reassessed.

Changes in Program/Subject Area(s)

Candidates may change their degree programs and/or subject area(s) from the time of their advising sessions in the spring until the tenth class day of the fall term, provided their standing, prescription of studies and timetable arrangements permit the proposed changes, and provided they are supported in writing by the academic advisers concerned. All program and subject area changes must be effected through the Registrar's Office by completion of the relevant form (available on the Current Students Web site at <http://www.yorku.ca/yorkweb/cs.htm>), signed by the new department(s). Transfer credit assessments must be reviewed after any change in program/subject area.

Course Changes

Course changes are permitted, but only for limited periods of time, and in accordance with the sessional dates in the enrolment guides. Written permission of the course instructor(s) may be required. Students should consult their advisers regarding the effect course changes may have on the fulfillment of program and degree requirements, but it is the responsibility of the student alone to recognize the consequences of course changes on academic progress. Students are responsible for verifying their enrolment during each academic session.

Reactivation

A student who has been absent from the University for one or more session(s) must apply to the Registrar's Office (form available on the Current Students Web site at <http://www.yorku.ca/yorkweb/cs.htm>) to be reactivated.

Note: this does not apply to students who have failed to gain standing or have been debarred from York University or to students who have taken postsecondary courses at another institution during their absence from York University; all such students must apply, through the Admissions Office, to be re-admitted to York University.

Graduation

Students should apply to graduate in the calendar year in which they expect to qualify for the degree, irrespective of whether or not they plan to attend the graduation ceremony. The application to graduate form can be found on the Current Students Web site at <http://www.yorku.ca/yorkweb/cs.htm>.

The deadline dates for spring and fall graduation ensure that all potential graduates' records are assessed with care. No late applications are accepted for any reason.

A student registered in an Honours program may apply to graduate with a bachelor degree, provided bachelor program requirements are met.

Degree Reclassification

A student who has completed a York University bachelor degree in the Faculty of Science and Engineering may continue, after graduation, in a Specialized Honours program in the same subject area or in an Honours Double Major or Honours Major/Minor program including the same subject area, provided the grade point average is that required for the Honours program.

A student who wishes to pursue a second degree in a different field of study must apply to the Admissions Office for admission as a second degree candidate. The deadline to apply for fall admission is May 1.

Regulations Governing Examinations and Academic Standards

Grading System

Refer to Grades and Grading Schemes within the Academic Information section of this publication.

Pass/Fail Grading Option

A pass/fail grading option is available to Faculty of Science and Engineering students under the following guidelines.

Academic standing. This option is available only to students who are in good standing (i.e. not under academic or debarment warning).

Minimum number of courses completed. Students must have successfully completed at least 24 credits before they may apply to take a course under this option.

Elective courses only. The following types of courses may not be taken on a pass/fail basis: courses in the major and minor subject area(s), general education courses, 1000-level science courses required to satisfy the Faculty of Science and Engineering general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section), non-major courses required to satisfy program requirements.

Maximum number of pass/fail credits.

- Honours program: a maximum of 12 (passed) credits from pass/fail graded courses may be counted towards an honours program.
- Bachelor program: a maximum of six (passed) credits from pass/fail graded courses may be counted towards a bachelor program.

Grade point average calculations. The grade obtained (passed or failed) in a pass/fail graded course is not included in grade point average calculations in the Faculty of Science and Engineering.

Deadline to select pass/fail option. Eligible students may exercise the option within the first two weeks (10 class days) of the term in which the course begins. They must obtain the signature of the course director on a

form to be made available from (available on the Current Students Web site at <http://www.yorku.ca/yorkweb/cs.htm>), and returned to, Student Client Services.

Deadline to change from pass/fail back to the letter-grade system. At the student's request, the student may change the designation of a course from pass/fail back to the letter-grade system until the last day for withdrawal without academic penalty from the term in which the course is offered. Formal notification, with the student's and course director's signatures, must be received by the Registrar's Office by this deadline.

Repeated Courses

Students are allowed to repeat a passed or a failed course once for academic degree or certificate credit. Students should note that course availability and space considerations may preclude the possibility of repeating a course in the session they choose.

When a student is allowed to repeat a course for academic degree or certificate credit, the second grade will be the grade of record and the only grade calculated in the student's grade point average. Regardless of whether or not the student repeats a course a third time, the second grade remains the grade of record. Students are required to petition in order to gain permission to repeat a passed course more than once for academic credit towards a degree or certificate program. The record of both the first and second time the course was taken will appear on the student's transcript, with the first course designated as NCR (No Credit Retained).

Students assigned as a penalty for academic honesty an F or lowered grade as the permanent grade of record will not be allowed the benefit of excluding the impact of this 'penalty' grade from their academic average after repeating the course. Both the second grade and the original grade will contribute to the cumulative grade point average.

A student must be declared eligible to proceed in a degree or certificate program in order to be eligible to repeat a course. That is to say, when a student fails to achieve sufficient standing to proceed in a degree or certificate program, or when they are required to withdraw, they would not be eligible to repeat a course or courses.

Academic Standards for Bachelor and Honours Programs

Bachelor Programs

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate in an undergraduate bachelor program.

Students in a bachelor program who have passed 90 credits in accordance with Faculty and program requirements, but whose cumulative overall grade point average is below 4.00 (C), may attempt to raise their average by taking up to 12 additional credits, to a maximum of 102 credits. These courses must be above the 1000 level and must be taken at York University. Regulations on equivalent and excluded courses apply.

Honours Programs

Honours students are eligible to enrol in a year according to the number of credits they have obtained (see below):

Year	Credits
1	Fewer than 24
2	Fewer than 54
3	Fewer than 84
4	At least 84

Subject to the selection criteria of the major departments, students will be registered in the Honours program who, upon completion of each academic session, have a cumulative average as follows:

Year	Cumulative Overall Average
1	4.00
2	4.25
3	4.80
4	5.00

Students who have taken 84 credits, and who wish to proceed in an Honours program must have a cumulative grade point average of 5.00 overall.

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: some programs may require a higher standard - consult the program of study requirements in the Faculty of Science and Engineering Programs of Study section.

Academic Standing Requirements for Visiting Students

Individuals who wish to enrol in undergraduate credit courses, but who do not intend to complete a degree or a certificate may be admitted to York as a visiting student (refer to the Admissions section for more information). There are three categories of visiting students:

- those who hold an undergraduate degree (three-year bachelor's degree minimum) from an accredited university/university-level institution;
- those who **do not hold an undergraduate degree** but wish to enrol in York courses to fulfill the academic, upgrading or professional development requirements of a professional designation;
- those who are currently attending another recognized university and wish to take York courses on a letter of permission issued by their home institution.

Grade Point Average (GPA) Requirement

Students in categories a) and b) whose overall cumulative grade point average (OCGPA) falls below 4.00 on at least 24 credits attempted will not be allowed to enrol in any subsequent session as visiting students. Students who are not permitted to re-enrol must apply for re-admission through the Admissions Office.

Note: repeated course legislation does not apply to visiting students but only to academic degrees and certificates. Therefore, all courses attempted or taken will count in the OCGPA.

Credit Limits

Students in category b) who have maintained an OCGPA of 4.00 throughout their studies and who have completed 30 credits will not be allowed to enrol in subsequent sessions and must either reactivate to proceed as visiting students or may choose to apply for admission to a degree or certificate program.

Designation of Honours or Bachelor Program

Automatic Honours designation. Students are automatically considered to be in an Honours program provided they achieve and maintain the minimum grade requirements for Honours described under the Academic Standards for Bachelor and Honours Programs section above.

Automatic bachelor designation. Students are automatically considered to be in a bachelor program if they fail to achieve or maintain the minimum grade requirements for Honours described under the Academic Standards for Bachelor and Honours Programs section above.

Option to graduate with a bachelor program. Students registered for an Honours degree may opt to graduate with a bachelor degree if they fulfill bachelor program requirements. Refer to Graduation in the Faculty of Science and Engineering Advising, Enrolment, Registration, Graduation and Other Administrative Procedures section for details.

Examinations

Most courses in the Faculty of Science and Engineering schedule three-hour final examinations. Examinations are scheduled during day and evening hours.

Students are admitted to the examination hall five minutes before the scheduled start time and are required to present their YU-card with a photo or their YU-card without a photo plus a photo-bearing form of identification such as a driver's licence or passport, when writing final examinations. Unauthorized aids may not be taken into the examination halls. No student may leave the examination hall within 15 minutes of the end of the scheduled examination period. All students must remain seated at the conclusion of the examination period until all examination answer sheets/booklets have been collected by the invigilators. Examination booklets, used and unused, must be submitted intact, with no insertions and no pages removed.

A student observed deriving assistance from any unauthorized source is subject to the procedures and penalties defined under the Senate regulations regarding academic honesty (refer to the University Policies and Regulations section).

Students must maintain a standard of work in their courses of instruction satisfactory to the departments or divisions concerned, and must attend the required examinations, unless prevented by illness or by some other special circumstance.

A student who writes a final examination under duress, or who is prevented from attending an examination by illness or by some other special circumstance, must file a request for a deferred examination within the stated time limits and provide appropriate written evidence for consideration (refer to Deferred Examinations below).

Final examination answer sheets/booklets become the property of the teaching unit. Students have the right to review their graded tests and examinations once the grades have been published by the Registrar's Office. Students may request a copy at cost from the teaching unit.

Deferred Examinations / Aegrotat Standing

A student may request aegrotat standing, permission to write deferred examinations (in respect of final examinations only) or permission to submit a final assignment after the Faculty's deadline for submission of term work, on the grounds of sickness or misfortune.

It is the responsibility of the student to ensure that full documentation (medical or other) is provided in support of requests for deferred standing or aegrotat standing. A request submitted on the grounds of illness must include the attending physician's statement form completed by the petitioner's physician. Appropriate forms and guidelines are available from Student Client Services or the Current Students Web site (<http://www.yorku.ca/yorkweb/cs.htm>).

Deferred standing agreement. In the Faculty of Science and Engineering, deferred standing may be arranged with the course director by means of a form called a deferred standing agreement (DSA). The DSA form and supporting documentation must normally be submitted within one week following a missed examination or the last day to submit coursework.

Deferred standing petition. A petition for deferred standing may be submitted if the course director indicates on the DSA form a refusal to approve deferred standing. The petition application, together with other written evidence to be taken into consideration, must normally be submitted to the Registrar's Office within one week following a missed examination or the last day to submit coursework.

Aegrotat standing petition. In exceptional circumstances, a petition for aegrotat standing may be submitted in cases where a student cannot be expected to complete coursework. If granted, the phrase AEG "aegrotat standing" (from the Latin for "she/he is ill") is substituted for the grade on the transcript. Aegrotat standing is seldom granted in respect of final examinations; instead, the student may be granted permission to write deferred examination(s).

Term Work

All final grades, including those assigned after deferred examinations, are calculated in a way which assigns a specific weighting to the term work done in addition to the final (or deferred) examination. The weighting is set by the course director and must be announced and available in writing within the first two weeks of classes. If possible, information about assignments and grades for all courses should be made known to students at or before the first class meeting. A previously announced marking scheme for a course may be changed by the course director with the consent of students enrolled in the course; the new marking scheme must also be distributed in written form.

Prior to the final date to withdraw from a course without receiving a grade, some graded feedback worth at least 15 per cent of the final grade for fall, winter or summer term and 30 per cent for 'full year' courses offered in the fall/winter session is received by students in all courses (excepting the following: those senior undergraduate courses, such as honours theses, where course work consists of a single piece of work, practicum courses, ungraded courses, courses in Faculties where the drop date occurs within the first three weeks of classes, courses which run on a compressed schedule). Students who, in the absence of recognized extenuating circumstances, fail to complete such course work cannot use the lack of feedback as grounds for withdrawal.

The total value of any in-class test(s) or in-class examination(s) given in the last two weeks of classes in a term cannot be greater than 20 per cent of the final mark for the course.

All tests in a given section of a course must be given during the class or tutorial times listed in the lecture schedule for that section of the course. The only exception is the scheduling of common tests administered to multiple-section courses; in such cases students with a conflict must be given reasonable accommodation.

Term work in any course may not be submitted later than the first day of the final examination period for the course. Earlier final dates for the submission of term work may be set at the discretion of the department/division concerned.

The student is responsible for ensuring that all written term work is received by the instructor concerned.

Reappraisal of Final Grades

Students may, with sufficient academic grounds, request that a final grade in a course be reappraised. Students are normally expected to first contact the course director to discuss the grade received and to request that their tangible work be reviewed. Further information may be obtained from the department/division offering the course. Students applying to have a grade reappraised in a Faculty of Science and Engineering course should note the following:

- requests for reappraisal must be filed with the unit offering the course within 21 calendar days of the release of the final grade in the course;
- students may request the review of specific pieces of work, or the overall course grade. Normally, however, only written work can be reassessed;
- when a student asks for reappraisal, an original grade may be raised, lowered or confirmed;
- students wishing to request the reappraisal of a final grade should fill out the appropriate form available from the department/division offering the course and submit it to the same office;
- the decision of the department/division may be appealed to the Faculty of Science and Engineering Executive and Planning Committee only on grounds of procedural irregularity or new evidence.

Recognition of Excellence

Dean's Honour Roll

The annual Dean's Honour Roll recognizes academic excellence by assigning the notation "Member of Dean's Honour Roll" to the grade report and transcript of a student who achieves a sessional credit-weighted grade point average of 7.50 or higher on a minimum of 24 credits, or, in the final year of study, a minimum of 18 credits.

Students coregistered in the Faculty of Education, who are registered in a minimum of 24 credits overall (of which at least 18 credits are for the bachelor or Honours degree in the Faculty of Science and Engineering) and who achieve a sessional credit-weighted grade point average of 7.50 or higher on their credits for the bachelor or Honours in the Faculty of Science and Engineering, are also eligible to be on the Faculty of Science and Engineering Dean's Honour Roll.

First-Class Degrees

The Faculty of Science and Engineering rewards exceptional students by designating their degrees "first class" or "first class with distinction".

First-class standing is normally awarded to students whose cumulative overall credit-weighted grade point average is 7.50 or higher.

With distinction is normally added to the first class degree of students whose cumulative overall credit-weighted grade point average is 8.00 (A) or higher.

Warnings and Sanctions

Note: the following applies to students admitted to York University for Fall 2001 and subsequent sessions. Students admitted before Fall 2001 should consult the York Undergraduate Programs Calendar of the year in which they were admitted for information regarding warnings and sanctions which apply to them.

Academic Warning

Students whose cumulative overall grade point average falls below 4.00 (C) at the end of any session or who enter the Faculty with a grade point average equivalent to less than 4.00 (C) receive an academic warning. Students on academic warning must achieve a cumulative overall grade point average of at least 3.50 by the end of the next 30 credits in order to continue; otherwise they will have failed to gain standing.

Failure to Gain Standing

Students are said to have failed to gain standing if their cumulative overall grade point average falls below 2.50 at any time after completion of 24 credits or if they were on academic warning and did not achieve the cumulative overall grade point average of at least 3.50 by the end of the next 30 credits. Students who have failed to gain standing may not register for any courses unless they are re-admitted to the University. Applications for re-admission, not normally considered within one year from the date of failure to gain standing, should be made to the director of admissions.

Debarment Warning

Students who have failed to gain standing in the Faculty of Science and Engineering, or the equivalent in another Faculty at York University or elsewhere, receive a debarment warning upon continuing their studies in the Faculty. Students on debarment warning must achieve a cumulative overall grade point average of at least 3.50 within the next 24 credits taken in order to continue. Students who do not fulfill these conditions will be debarred from the University.

Debarment

Students who have been debarred may be re-admitted in some subsequent session only if they give convincing evidence that they can profit from university work. Applications for re-admission are not normally entertained in less than two years from the date of debarment.

Academic Honesty

Refer to the York University Senate regulations regarding academic honesty in the University Policies and Regulations section. For further information contact the Office of Science Academic Services.

Note: students cannot drop any courses in which they have been penalized for a breach of academic honesty.

Petitions

Students may petition on reasonable grounds, in writing, any Faculty of Science and Engineering regulation. In some instances, circumstances affecting a student's performance in initial University course work will be accepted as grounds for petition. All enquiries about regulations and petition procedures should be addressed to the Registrar's Office. For information regarding petitions for deferred examinations, refer to Deferred Examinations in this section of the calendar. Petition forms must be submitted to Student Client Services.

Normally petitions for late withdrawal from a course will only be considered if they are submitted within three weeks of the release of final grades. Such petitions may be considered for a period of up to one year if they are based on special circumstances.

Appeals Procedures

Appeals by students and/or faculty members against rulings of the Petitions Committee and/or the Committee on Examinations and Academic Standards of the Faculty of Science and Engineering (with the exception of appeals on academic honesty rulings - see below) must be filed in writing with the secretary of the appeals panel of the Executive and Planning Committee, 349 Lumbers Building, within 15 calendar days of the date of notification of the decision.

Appeals against rulings of the petitions committee and/or the committee on examinations and academic standing will be heard by a panel of two faculty members of the executive and planning committee and one student member selected from student members of the Faculty council. In the rare event that a decision of a panel of the executive and planning committee, or of the Senate Appeals Committee, requires a completely new (*de novo*) hearing, the matter will be heard by a panel of three faculty members of the executive and planning committee and one student member selected from student members of the Faculty council. These panels will be constituted, as required, from available members, by the secretary of the appeals panel.

Members shall disqualify themselves if they are involved as a party or witness in the case, or believe that they could not be impartial. Where members disqualify themselves, alternate members will replace them.

Appeals are heard only on the following grounds:

- new evidence; i.e. evidence that, through no fault of the appellant, could not reasonably have been presented at an earlier level (as a guide, events or performance subsequent to the decisions of the petitions committee and/or the committee on examinations and academic standing are not to be construed as new evidence);
- evidence of procedural irregularity in the previous consideration of the case by the petitions committee and/or the committee on examinations and academic standing. This may be understood to include actions taken by the Faculty of Science and Engineering, its officers, committees or members with respect to the case which would violate or nullify any of the following:
 - normal and written procedures of the Faculty;
 - recognized custom of the Faculty;
 - the principles of natural justice and fairness.

Students and faculty members have the right to represent themselves at appeal hearings to hear and answer allegations and to present their arguments. Appeal hearings are not open to anyone not directly involved in the case being considered. The committee's decision is taken in camera.

All appeal decisions are reported in writing to the students and the faculty members concerned, the Office of Science Academic Services, the home Faculty and the Registrar's Office.

Further appeals may be made to the Senate Appeals Committee. Enquiries about these appeals, and the grounds upon which they may be filed, should be directed to the Senate Office, N926 Ross Building.

Appeals on academic honesty rulings are also made directly to the Senate Appeals Committee. Appeals are heard only on the same grounds as cited above.

Regulations Governing Undergraduate Degree Requirements

The Credit System

The Faculty of Science and Engineering operates under a credit system in which a prescribed number of credits, intended to reflect total workload, is associated with each course offered by the University. One lecture hour per week per term is defined as one academic credit as is one laboratory session per week per term. For York University courses (excepting some courses offered by the Faculty of Education), the number of credits in each course is indicated by the number which follows the four-digit course number.

Year of Study Equivalents

When it is necessary to equate credits earned with year level, the following guidelines are used:

- fewer than 24 credits earned - study level one;
- more than or equal to 24 and fewer than 54 credits earned - study level two;
- more than or equal to 54 and fewer than 84 credits earned - study level three;
- more than or equal to 84 credits earned - study level four (with the exception that bachelor programs never go beyond study level three, regardless of the number of credits earned).

Residence Requirement

In order to qualify for a York University degree in any bachelor or Honours program, a student must have successfully completed a minimum of 30 credits at York University and at least half (50 per cent) of the requirements in each major/minor.

Time Limit

There is no time limit for completion of degree requirements in the Faculty of Science and Engineering. Students taking a normal full-time load of approximately 30 credits per fall/winter session can expect to complete a bachelor degree in three fall/winter sessions or an Honours degree in four fall/winter sessions. A limited number of courses are also available during the summer session; a maximum of 15 credits can be taken in that session.

Although there is no minimum number of credits in which a student must enrol in any session, students who do not enrol in any courses in a fall/winter session must formally apply to have their files reactivated before resuming their studies in a subsequent session (refer to Reactivation in the Faculty of Science and Engineering Advising, Enrolment, Registration, Graduation and Other Administrative Procedures section).

Since the curriculum is constantly evolving through the introduction of new course requirements and/or prerequisites, students are strongly advised to complete their degree requirements in a reasonable time period.

Course Credit Exclusions

The University offers some courses in which at least part of the content is similar to that presented in other courses. To ensure that credit is not granted more than once for similar content, the Faculty of Science and Engineering designates such courses as course credit exclusions. The exclusion(s) for a particular course are listed in the course description.

If a student in the Faculty of Science and Engineering enrolls in and successfully completes two courses which are designated as exclusions of each other, credit is given for only one. Both courses appear on the student's official York University transcript.

A course (or combination of courses) designated as an exclusion for another course may be substituted for the latter (for the purposes of satisfying prerequisite and/or degree requirements) only with Faculty/department/division/program approval. Information regarding approved substitute courses may be found in the program of study requirements in

the Faculty of Science and Engineering Programs of Study section, in the prerequisite requirements listed for courses in this publication or in the departmental supplementary calendars.

General Education Requirements

General education courses are required within all degree programs in the Faculty of Science and Engineering. These courses provide a broad perspective on current scholarship and the diversity of human experience. The courses are also expected to enhance students' critical skills in reading, writing and thinking, and contribute to their preparation for post-university life.

Requirements for BA, Honours BA and Honours iBA Candidates

Students in the BA, Honours BA and Honours iBA programs must take a total of 24 credits from the following areas: humanities, modes of reasoning, natural science, social science. Of these 24 credits, students must complete the following minimum requirements: at least six credits from humanities, natural science and social science (with no more than nine credits in each counting towards the general education requirement).

Note: students may complete a maximum of three nine-credit foundations courses for degree credit. Students who need to complete more than three foundations courses in order to fulfill program (major or minor) course requirements may do so with permission of the relevant program coordinator or undergraduate director.

BASc Requirements

Students in BASc programs must complete a minimum of 12 credits from two different areas of study, subject to the restrictions noted below. At least three credits must be taken in humanities and social sciences, as defined by the following areas: anthropology, humanities, English, history, linguistics and languages, modes of reasoning, philosophy, social science and women's studies. The remaining general education credits may be taken from the list included in the following set of requirements.

Notes:

1. *The following course contains a substantial overlap in content with engineering core material and hence may not be taken for degree credit by BASc degree candidates: AP/PHIL 2100 3.00 Introduction to Logic.*
2. *ES/ENVS 2150 3.00 is a core requirement for students in the BASc program and therefore, cannot be used to fulfill the general education requirement.*

Requirements for BSc, Honours BSc, BSc (Tech), iBSc Candidates

All degree candidates in the above programs must complete a minimum of 12 credits from two different areas of study, including at least three credits from each area, subject to the restrictions noted below.

For the purposes of this regulation "different area" means offered by different academic units such as divisions, departments or Faculties. Subject to the restrictions listed below, courses in the following areas may be taken in the Faculties of Glendon or Liberal Arts and Professional Studies:

- anthropology
- classical studies*
- economics
- English
- French studies*
- geography**
- history
- humanities (courses not cross-listed with STS)
- languages, literature and linguistics*
- philosophy
- political science
- social science (courses not cross-listed with STS)
- sociology
- women's studies***

The following courses offered by the Faculty of Environmental Studies may be taken to satisfy Faculty of Science and Engineering general education requirements:

- ES/ENVS 1000 6.00;
- ES/ENVS 2150 3.00.

The following courses offered by the Faculty of Fine Arts may be taken to satisfy Faculty of Science and Engineering general education requirements:

- FA/DANC 1340 3.00;
- FA/DANC 2340 3.00;
- FA/FACS 1900 6.00;
- FA/FILM 1401 6.00;
- FA/FILM 1410 6.00;
- FA/FILM 1701 3.00;
- FA/FILM 2401 6.00;
- FA/MUSI 1500 6.00;
- FA/MUSI 1510 6.00;
- FA/MUSI 1520 6.00;
- FA/MUSI 1530 6.00;
- FA/MUSI 1540 6.00;
- FA/MUSI 1550 6.00;
- FA/THEA 1500 6.00;
- FA/VISA 1110 6.00;
- FA/VISA 2110 6.00;
- FA/VISA 2540 6.00;
- FA/VISA 2550 6.00;
- FA/VISA 2620 6.00.

Restrictions (for BA_{Sc}, BSc, Honours BSc, BSc (Tech), iBSc Candidates)

1. Courses which are cross-listed as SC courses or which are eligible for SC credit cannot count as general education courses.
2. Courses whose major focus is increased facility in the use of a language cannot count as general education courses. Such courses are offered in the departments marked with an * above.
3. Quantitative courses focusing on techniques of mathematics or statistics cannot count as general education courses. For example, this applies to some economics courses.
4. **Geography courses cannot be used to satisfy general education requirements for students majoring in geography.
5. ***Excluding women's studies courses which are cross-listed with natural science courses.
6. Humanities and social science courses cross-listed with science and technology studies (STS) courses cannot count as general education courses.

Notes:

1. General education courses may not be taken on a pass/fail basis (refer to Pass/Fail Grading Option in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section).
2. Students may not take for credit any more than three humanities/social science foundations courses (27 credits).
3. General education courses are normally taken at the 1000 or 2000 level, but higher-level courses are acceptable, subject only to prerequisites and course access specifications for enrolment.
4. Permission may be granted by the Office of Science Academic Services, on an individual basis, for a student to take a course outside the areas and Faculties listed above for general education credit, subject to the course fulfilling the Faculty of Science and Engineering breadth and critical skills requirements for general education courses, the student having the appropriate prerequisites and the course access specifications permitting enrolment. A student who is in doubt regarding whether or not any specific course will fulfill the Faculty of Science and Engineering general education requirements should consult the Office of Science Academic Services.

General Regulations

1. All students are required to observe the regulations of the University. Unless otherwise stated, any changes in regulations become effective as announced. This policy is not meant to disadvantage students as they proceed through their studies, including those who have completed a number of courses. It is intended to ensure that their preparation for courses is appropriate and current. Students should consult closely with departments and the Faculty through the advising process.
2. It is the student's responsibility to enrol in only those courses for which the student has successfully completed all designated prerequisites and to take concurrently all specified corequisites not already completed successfully. See also prerequisites/corequisites under Advising in the Faculty of Science and Engineering Advising, Enrolment, Registration, Graduation and Other Administrative Procedures section.
3. All degree candidates are required to indicate a choice of degree program (bachelor, Specialized Honours, Honours Major, Honours Double Major or Honours Major/Minor) upon successful completion of 24 credits. Check the minimum cumulative credit-weighted grade point average required for Honours programs (refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section). See also Designation of Honours or Bachelor Program in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section. Refer to the Faculty of Science and Engineering Advising, Enrolment, Registration, Graduation and Other Administrative Procedures section for information about changing degree programs.
4. All degree candidates for the BSc, Honours BSc and iBSc programs must successfully complete the following minimum requirements, normally at the 1000 level:
 - at least 24 science credits, excluding SC/CHEM 1500 4.00, SC/MATH 1510 6.00, SC/MATH 1515 3.00, SC/MATH 1520 3.00, SC/PHYS 1510 4.00 and all natural science courses, and including at least two credits in introductory computer science, six credits in approved mathematics courses and 12 credits in courses with laboratories;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

Note: students in the joint Seneca/York bachelor of science in technology (BSc (Tech)) program in Applied Biotechnology are required to take at York University at least 24 science credits, excluding SC/CHEM 1500 4.00, SC/MATH 1510 6.00, SC/MATH 1515 3.00, SC/MATH 1520 3.00 and SC/PHYS 1510 4.00 and all natural science courses. These 24 credits include six credits in an approved mathematics course, three credits in an approved computer science course and 12 credits in courses with laboratories (SC/BIOL 2010 4.00, SC/BIOL 2030 4.00 and SC/BIOL 2040 4.00). Students in this program must also take two general education courses at Seneca College and six specific general education credits at York University, AP/ECON 1900 3.00 and AP/PHIL 2070 3.00 or AP/PHIL 2075 3.00.

5. Bachelor Programs

Bachelor of Arts (BA):

In order to graduate with a bachelor of arts, a student must complete the following:

- a) satisfy regulations 2 and 3 and the general education requirement (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section);
- b) present a total of at least 90 passed credits of which:
 - a minimum of 30 must be earned in one major subject area,
 - a minimum of 12 credits in the major must be at the 3000 or higher level,
 - a minimum of 18 are elective credits,

- a minimum of 18 credits overall must be at the 3000 or higher level;
- c) satisfy the Senate academic standards for bachelor programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section for the bachelor program declared.

Bachelor of Science (BSc):

In order to graduate with a bachelor of science, a student must complete the following:

- a) satisfy regulations 2, 3 and 4;
- b) present a total of at least 90 passed credits of which:
 - a minimum of 66 must be earned in science courses,
 - a minimum of 24 must be earned in one major science subject area,
 - a minimum of 18 must be earned in courses at the 3000 or higher level;
- c) satisfy the Senate academic standards for bachelor programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section for the bachelor program declared.

6. Honours Programs

Bachelor of Arts Honours (Honours BA):

In order to graduate with the bachelor of arts Honours, a student must complete the following:

- a) satisfy regulations 2, 3 and the general education requirement (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section);
- b) present a total of at least 120 passed credits of which:
 - a minimum of 54 credits must be earned in the major subject area (Specialized Honours programs); a minimum of 42 credits in (each of) the major subject area(s) (Honours Major, Honours Double Major and Honours Major/Minor programs), of which a minimum of 12 credits are the 4000 level; a minimum of 30 credits must be earned in a minor subject area, at least six credits of which must normally be at the 4000 level,
 - a minimum of 36 credits must be at the 3000 or 4000 level, at least 18 credits of which must be at the 4000 level,
 - students in the Specialized Honours BA or Honours BA must complete 18 elective credits;
- c) satisfy the Faculty and Senate academic standards for Honours programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section for the declared Honours program and major and minor subject area(s).

Bachelor of Science Honours (Honours BSc):

In order to graduate with the bachelor of science Honours, a student must complete the following:

- a) satisfy regulations 2, 3 and 4;
- b) present a total of at least 120 passed credits of which:
 - a minimum of 90 must be earned in science courses (or a minimum of 66 for Honours Double Major BSc and Honours Major/Minor BSc programs where the second major or the minor is taken in a non-science subject area),
 - a minimum of 54 must be earned in the major science subject area (Specialized Honours BSc programs); a minimum of 36 in (each of) the major subject area(s) (Honours Major BSc, Honours

Double Major BSc and Honours Major/Minor BSc programs); a minimum of 30 in the minor subject area (Honours Major/Minor BSc programs),

- a minimum of 42 must be earned in courses at the 3000 or higher level.
- c) satisfy the Faculty and Senate academic standards for Honours programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section for the declared Honours program and major and minor subject area(s).

7. International Bachelor Degree

International Bachelor of Arts Honours (Honours iBA):

In order to graduate with the international bachelor of arts Honours, a student must complete the following:

- a) satisfy regulations 2 and 3;
- b) present a total of at least 120 passed credits of which:
 - a minimum of 42 credits in the major subject area (Honours iBA major program), of which a minimum of 12 credits are at the 4000 level,
 - a minimum of 36 credits must be at the 3000 or 4000 level, at least 18 credits of which must be at the 4000 level,
 - 30 required credits outside the major, consisting of:
 - 18 credits of language study in one of the modern languages offered at York University, including the Advanced I university-level course in the chosen language,
 - 12 credits of international content courses (refer to the program requirements in the Faculty of Science and Engineering Programs of Study section);
- c) satisfy the Faculty and Senate academic standards for Honours programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section;
- e) have one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement.

International Bachelor of Science Honours (Honours iBSc):

In order to graduate with the international bachelor of science Honours, a student must complete the following:

- a) satisfy regulations 2, 3 and 4;
- b) present a total of at least 120 passed credits of which:
 - a minimum of 90 must be earned in science courses,
 - a minimum of 54 must be earned in the major science subject area (Specialized Honours iBSc program); a minimum of 36 in the major subject area (Honours Major iBSc program),
 - a minimum of 42 must be earned in courses at the 3000 or higher level,
 - 30 required credits outside the science major, consisting of:
 - 12 credits of language study in one of the languages offered at York University,
 - 18 credits of non-science international content courses (refer to the program requirements in the Faculty of Science and Engineering Programs of Study section). These courses may be used toward the requirements of regulation 4, general education requirement;
- c) satisfy the Faculty and Senate academic standards for Honours programs – refer to Academic Standards for Bachelor and Honours Programs in the Faculty of Science and Engineering Regulations Governing Examinations and Academic Standards section;
- d) satisfy the program of study requirements specified in the Faculty of Science and Engineering Programs of Study section;
- e) have one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement.

Table of Contents - Science and Engineering (Programs of Study)

Faculty of Science and Engineering – Programs of Study 541

Applied Biotechnology	541
Applied Mathematics	541
Biochemistry	541
• Specialized Honours Program	541

Faculty of Science and Engineering – Programs of Study

Applied Biotechnology

The Department of Biology at York University and the School of Biological Sciences and Applied Chemistry at Seneca College offer a joint BSc (Tech) degree program in Applied Biotechnology. Students will enter the four year program by beginning their studies at Seneca College's School of Biological Sciences and Applied Chemistry. Following the successful completion of the first two and a half years of the curricula at the Biotechnology Technologist (Research) program at Seneca, students will transfer to the Department of Biology, Faculty of Science and Engineering where they will complete the last year and a half of the program at York. Upon completion of this program, students will receive a York University BSc (Tech) degree in applied biotechnology. This program will prepare students to enter the workforce in the biotechnology industry, government laboratories and university research laboratories.

For Seneca College course requirements, consult the Biotechnology Technologist (Research) program in the Seneca College Calendar.

The York University course requirements are as follows:

BSc (Tech): 90 credits including:

- i) 45 transfer credits for successful completion of the first two and a half years of the program at the approved joint program partner Seneca College.
- ii) All students must complete the following core:
 - AP/ECON 1900 3.00;
 - AP/PHIL 2070 3.00 or AP/PHIL 2075 3.00;
 - SC/MATH 1505 6.00;
 - SC/CSE 1520 3.00;
 - SC/BIOL 2010 4.00;
 - SC/BIOL 2030 4.00;
 - SC/BIOL 2040 4.00;
 - SC/BIOL 3010 3.00;
 - SC/BIOL 3110 3.00;
 - SC/BIOL 3130 3.00.
- iii) All students must complete a minimum of nine credits from the following list of courses:
 - SC/BIOL 3160 4.00;
 - SC/BIOL 4010 3.00;
 - SC/BIOL 4020 3.00; SC/BIOL 4040 3.00; SC/BIOL 4050 3.00; SC/BIOL 4061 3.00;
 - SC/BIOL 4150 3.00;
 - SC/BIOL 4151 3.00;
 - SC/BIOL 4160 3.00;
 - SC/BIOL 4220 4.00;
 - SC/BIOL 4270 3.00;
 - SC/BIOL 4285 3.00;
 - SC/BIOL 4320 3.00;
 - SC/BIOL 4330 3.00;
 - SC/BIOL 4350 4.00;
 - SC/BIOL 4370 3.00;
 - SC/BIOL 4450 4.00;
 - SC/BIOL 4510 3.00;
 - SC/CHEM 3051 3.00;
 - SC/CHEM 3070 3.00;
 - SC/CHEM 3071 3.00;
 - SC/CHEM 4050 3.00.
- iv) Based on the requirements noted in ii) and iii) above, students must take a minimum of 45 credits of which 30 credits must be taken at York as a minimum residency requirement.

To graduate in this program, students must have a minimum overall York grade point average of 4.00 (C).

Applied Mathematics

Refer to the Mathematics and Statistics section.

Biochemistry

The Department of Biology and the Department of Chemistry offer jointly a Specialized Honours program in Biochemistry.

Specialized Honours Program

- i) All Honours BSc degree candidates must complete the program core:
 - SC/BIOL 1010 6.00;
 - SC/CHEM 1000 3.00;
 - SC/CHEM 1001 3.00;
 - SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - SC/BCHM 2020 4.00;
 - SC/BCHM 2021 4.00;
 - SC/BIOL 2040 4.00;
 - SC/CHEM 2011 3.00;
 - SC/CHEM 2020 6.00;
 - SC/CHEM 2030 3.00.
- ii) All Honours BSc biochemistry degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing:
 - SC/MATH 1013 3.00 and SC/MATH 1014 3.00;
 - SC/CSE 1520 3.00, SC/CSE 1530 3.00 or SC/CSE 1540 3.00.
- iii) 12 general education credits.
- iv) All Honours BSc degree candidates must comply with general regulation 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Honours Programs

To declare Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science courses completed, and a minimum cumulative credit-weighted grade point average of 4.25 over all courses completed.

To proceed in each year of the Honours program requires a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science courses completed, and a minimum cumulative credit-weighted overall grade point average as specified in the Academic Standards section of the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section.

To graduate in Specialized Honours biochemistry requires successful completion of all Faculty requirements and all required program courses, a minimum cumulative credit-weighted grade point average of 5.50 (B) over all science (SC) courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Specialized Honours Biochemistry Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level requirements, as specified in ii) above;
- SC/BCHM 3010 3.00, SC/BCHM 3110 3.00, SC/BCHM 3130 3.00, SC/BCHM 3140 4.00, SC/BCHM 3051 3.00, SC/CHEM 3020 3.00, SC/BCHM 4290 4.00, SC/BCHM 4000 8.00, SC/BCHM 4050 3.00, nine credits from any other 3000- or 4000-level biochemistry, biology or chemistry courses;
- additional elective credits, as required for an overall total of at least 120 credits.

Biology

- i) All BSc and Honours BSc degree candidates (except those in Honours Double Major programs) must complete the program core: SC/BIOL 1010 6.00; and any five of SC/BIOL 2010 4.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00, SC/BIOL 2030 4.00, SC/BIOL 2040 4.00, SC/BIOL 2050 4.00, SC/BIOL 2060 3.00, SC/CHEM 2020 6.00.
- ii) All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to SC/BIOL 1010 6.00 from the program core):
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;

Note: students intending to combine biology with applied mathematics, chemistry, computer science, earth and atmospheric science, mathematics, physics and astronomy or statistics should not take SC/MATH 1505 6.00.

 - six credits from SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 4.00 and SC/CHEM 2020 6.00), SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - a minimum of three additional credits from SC/BC 1800 3.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00, SC/EATS 1010 3.00, SC/EATS 1011 3.00, SC/MATH 1025 3.00, SC/MATH 1190 3.00, SC/PHYS 1070 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;

Note: HH/PSYC 1010 6.00 may be included in this section for Honours Double Major and Honours Major/Minor combinations of biology and psychology, or of biology and kinesiology.

 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- additional credits from biology courses, as required for an overall total of at least 46 credits from biology courses;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses and at least 18 credits at the 3000 or higher level.

Honours Programs

To declare Honours requires successful completion of at least 24 credits, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 4.25 over all courses completed, subject to the exception in the note below.

To proceed in each year of an Honours program requires a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed, and a minimum cumulative credit-weighted overall grade point average as specified in the Academic Standards section of the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section, subject to the exception in the note below.

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: the minimum 6.00 (B) biology grade point average is not required where biology is the minor in an Honours Major/Minor program. Only the minimum 5.00 (C+) overall grade point average is required in that case.

Specialized Honours Program

Students may follow a stream in biology, biomedical science, biotechnology or conservation ecology.

Biology Stream

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/BIOL 3100 2.00; SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;
- additional credits from biology courses, as required for an overall total of at least 68 credits from biology courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Biomedical Science Stream

- The program core, as specified in i) above, including SC/BIOL 1010 6.00; SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00 and SC/CHEM 2020 6.00; a minimum of one of SC/BIOL 2030 4.00 or SC/BIOL 2060 3.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above, including the following:
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - SC/CHEM 1000 3.00; SC/CHEM 1001 3.00;
 - SC/PHYS 1410 6.00 or HH/PSYC 1010 6.00;
- a minimum of nine credits chosen from the following courses: SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3110 3.00; SC/BIOL 3130 3.00; SC/BIOL 3150 3.00/SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00;
- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;
- additional biology credits from the following courses: SC/BIOL 2030 4.00; SC/BIOL 2060 3.00; SC/BIOL 3010 3.00; SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3071 3.00; SC/BIOL 3100 2.00; SC/BIOL 3110 3.00; SC/BIOL 3120 3.00; SC/BIOL 3130 3.00; SC/BIOL 3140 4.00; SC/BIOL 3150 3.00/SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00; SC/BIOL 4061 3.00; SC/BIOL 4110 4.00; SC/BIOL 4141 3.00; SC/BIOL 4150 3.00; SC/BIOL 4151 3.00; SC/BIOL 4200 3.00; SC/BIOL 4220 4.00; SC/BIOL 4270 3.00; SC/BIOL 4285 3.00; SC/BIOL 4290 4.00; SC/BIOL 4320 3.00; SC/BIOL 4350 4.00; SC/BIOL 4360 4.00; SC/BIOL 4370 3.00; SC/BIOL 4450 4.00; SC/BIOL 4510 3.00;
- a minimum of seven credits from 3000 or higher level biology courses with an associated laboratory component;
- additional credits from biology courses, as required for an overall total of at least 68 credits from biology courses;
- additional elective credits as required for an overall total of at least 120 credits, including at least 90 credits from science courses, and at least 42 credits from courses at the 3000 or higher level.

Biotechnology Stream

- The program core, as specified in i) above, including SC/BIOL 1010 6.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00, SC/BIOL 2040 4.00, SC/BIOL 2060 3.00 and SC/CHEM 2020 6.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above, including the following:

- 12 general education credits, including AP/ECON 1000 3.00, AP/ECON 1010 3.00 and one of the following: AP/PHIL 2070 3.00, or AP/PHIL 2075 3.00;
- SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
- SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
- SC/CHEM 1000 3.00; SC/CHEM 1001 3.00; SC/PHYS 1410 6.00;
- SC/CHEM 2080 4.00; SC/CHEM 3070 3.00 or SC/CHEM 3071 3.00; SC/CHEM 3080 4.00;
- SB/BFND 3100 3.00; SB/BFND 3200 3.00;
- SC/BIOL 3110 3.00; SC/BIOL 3130 3.00; SC/BIOL 3140 4.00; SC/BIOL 3150 3.00;
- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00; SC/BIOL 4290 4.00;
- a minimum of 12 credits chosen from the following courses in lists A and B, with a minimum of six credits chosen from list A. List A: SC/BIOL 3010 3.00, SC/BIOL 3120 3.00, SC/BIOL 3155 3.00, SC/BIOL 4020 3.00, SC/BIOL 4061 3.00, SC/BIOL 4110 4.00, SC/BIOL 4285 3.00; List B: SC/BIOL 3160 4.00 (SC/BIOL 2010 4.00 is a prerequisite), SC/BIOL 4010 3.00, SC/BIOL 4040 3.00, SC/BIOL 4150 3.00, SC/BIOL 4151 3.00, SC/BIOL 4160 3.00, SC/BIOL 4270 3.00, SC/BIOL 4370 3.00, SC/BIOL 4510 3.00;
- additional elective credits as required for an overall total of at least 120 credits.

Conservation Ecology Stream

- The program core, as specified in i) above, including SC/BIOL 1010 6.00, SC/BIOL 2010 4.00, SC/BIOL 2030 4.00, SC/BIOL 2040 4.00, SC/BIOL 2050 4.00 and SC/BIOL 2060 3.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above, including the following:
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section); (AP/PHIL 2075 3.00 and ES/ENVS 1000 6.00 are recommended.)
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/CHEM 1000 3.00, SC/CHEM 1001 3.00;
 - SC/MATH 1505 6.00, or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - SC/EATS 1010 3.00, SC/EATS 1011 3.00;
- SC/BIOL 3001 2.00 or SC/BIOL 3001 3.00; SC/BIOL 3170 3.00; SC/BIOL 3200 3.00;
- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00; SC/BIOL 4095 3.00; SC/BIOL 4245 3.00; SC/BIOL 4255 3.00; SC/BIOL 4265 3.00; at least seven additional credits from biology courses at the 4000 level, chosen in consultation with the department;
- additional credits from biology courses, as required for an overall total of at least 68 credits from biology courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits from courses at the 3000 or higher level.

International Bachelor of Science

Specialized Honours in Biology (Honours iBSc)

Students may follow a stream in biology or conservation ecology.

- i) All Honours iBSc degree candidates must complete the program core:
 - SC/BIOL 1010 6.00;
 - any five of SC/BIOL 2010 4.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00, SC/BIOL 2040 4.00, SC/BIOL 2050 4.00, SC/BIOL 2060 3.00, SC/CHEM 2020 6.00;
 - SC/BIOL 3100 3.00;
 - SC/BIOL 4000 3.00 or SC/BIOL 4000 8.00.

Biology Stream

- ii) All Honours iBSc degree candidates must comply with the Faculty of Science and Engineering general education and 1000-level science requirements by completing the following (in addition to SC/BIOL 1010 6.00 from the program core):
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - six credits from SC/CHEM 1000 3.00 AND SC/CHEM 1001 3.00 (prerequisites for SC/BIOL 2020 4.00 AND SC/CHEM 2020 6.00), SC EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - a minimum of three additional credits from SC/BC 1800 3.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00, SC/EATS 1010 3.00, SC/EATS 1011 3.00,
 - SC/MATH 1025 3.00, SC/MATH 1190 3.00, SC/PHYS 1070 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - 12 general education credits (refer to General Education Requirements in the Regulations Governing Undergraduate Degree Requirements section, and item iii) below.
- iii) International component:
 - 12 credits of language study in one of the languages offered at York University;
 - 18 credits of non-science courses with an international component (refer to sample list of courses in the section on International degrees), which will also serve to meet the general education requirement;
 - one to two exchange terms abroad as a full-time student at an institution with which York University has a formal exchange agreement.
- iv) All Honours iBSc degree candidates must comply with general regulation 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below:
 - students must complete additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science (SC) courses, at least 42 credits at the 3000 or higher level, and at least 54 credits in biology.

Conservation Ecology Stream

- i) The program core, as specified in i) above, including SC/BIOL 1010 6.00, SC/BIOL 2010 4.00, SC/BIOL 2030 4.00, SC/BIOL 2040 4.00, SC/BIOL 2050 4.00 and SC/BIOL 2060 3.00.
- ii) The Faculty of Science and Engineering general education and 1000-level science requirements by completing the following:
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - SC/CHEM 1000 3.00; SC/CHEM 1001 3.00;
 - SC/EATS 1010 3.00; SC/EATS 1011 3.00;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section and item iii).
- iii) International component:
 - 12 credits of language study in one of the languages offered at York University;
 - 18 credits of non-science courses with an international component (refer to sample list of courses in the section on international degrees), which will also serve to meet the general education requirement.
- iv) The following:
 - SC/BIOL 3001 2.00 or SC/BIOL 3001 3.00; SC/BIOL 3170 3.00; SC/BIOL 3200 3.00;

- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00; SC/BIOL 4095 3.00; SC/BIOL 4245 3.00; SC/BIOL 4255 3.00; SC/BIOL 4265 3.00; at least seven credits from biology courses at the 4000 level, chosen in consultation with the department;
 - additional credits from biology courses as required for an overall total of at least 68 credits from biology courses;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section and item iii) above);
 - international component (refer to item iii) above).
- v) All Honours iBSc degree candidates must comply with general regulation 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below:
- students must complete additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science (SC) courses, at least 42 credits at the 3000 or higher level, and at least 68 credits in biology.

For further information about the international bachelor of science, refer to the International Bachelor of Arts and Bachelor of Science in the Faculty of Science and Engineering Programs of Study section.

Honours Major Program (BSc)

- the program core, as specified in i) above;
- additional credits from biology courses, as required, for an overall total of at least 51 credits from biology courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Note: both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 are required as prerequisites for SC/BIOL 2020 4.00 and SC/CHEM 2020 6.00 in the program core.

Students may follow a stream within the Honours Major program in Biomedical Science.

Biomedical Science Stream

- The program core, as specified in i) above, including SC/BIOL 1010 6.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00, SC/BIOL 2040 4.00, and SC/CHEM 2020 6.00; a minimum of one of SC/BIOL 2030 4.00 or SC/BIOL 2060 3.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above, including the following:
 - SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - SC/MATH 1505 6.00 or six credits from SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - SC/CHEM 1000 3.00; SC/CHEM 1001 3.00;
 - SC/PHYS 1410 6.00 or HH/PSYC 1010 6.00;
- a minimum of nine credits chosen from the following courses: SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3100 2.00; SC/BIOL 3110 3.00; SC/BIOL 3130 3.00; SC/BIOL 3150 3.00/SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00;
- SC/BIOL 4000 8.00 or SC/BIOL 4000 3.00;
- additional biology credits chosen from the following courses for a minimum of 51 biology credits: SC/BIOL 2030 4.00; SC/BIOL 2060 3.00; SC/BIOL 3010 3.00; SC/BIOL 3060 4.00; SC/BIOL 3070 4.00; SC/BIOL 3071 3.00; SC/BIOL 3100 2.00; SC/BIOL 3110 3.00; SC/BIOL 3120 3.00; SC/BIOL 3130 3.00; SC/BIOL 3140 4.00; SC/BIOL 3150 3.00/SC/BIOL 3150 4.00; SC/BIOL 3155 3.00; SC/BIOL 4010 3.00; SC/BIOL 4061 3.00; SC/BIOL 4110 4.00; SC/BIOL 4141 3.00; SC/BIOL 4150 3.00; SC/BIOL 4151 3.00; SC/BIOL 4200 3.00; SC/BIOL 4220 4.00; SC/BIOL 4270 3.00; SC/BIOL 4285 3.00; SC/BIOL 4290 4.00; SC/BIOL 4320 3.00; SC/BIOL 4350 4.00; SC/BIOL 4360 4.00; SC/BIOL 4370 3.00; SC/BIOL 4450 4.00; SC/BIOL 4510 3.00;
- a minimum of seven credits from 3000 or higher level biology courses with an associated laboratory component;
- additional elective credits as required for an overall total of at least 120 credits including at least 90 credits from science (SC) courses and at least 42 credits from courses at the 3000 or higher level.

Honours Double Major Program

All Honours BSc degree candidates should consult departmental advisers as early as possible concerning course requirements for particular Honours Double Major programs. Possible subject combinations for Honours Double Major BSc degree programs are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- SC/BIOL 1010 6.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major;
- at least 12 credits from 2000-level biology courses in the program core (refer to i) above);
- at least 12 credits from biology courses at the 3000 or higher level;
- additional credits from biology courses, as required for an overall total of at least 36 credits from biology courses;
- the course requirements for the second major;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major/Minor Program

An Honours Major in biology may be combined with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the minor;
- the biology Honours Major requirements above;
- the course requirements for the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Students may follow a stream within the Honours Major/Minor program in Biomedical Science (stream requirements are listed under the Biology Honours Major program). This stream may be combined with other approved science minors.

Honours Minor

- SC/BIOL 1010 6.00;
- at least 12 credits from biology courses at the 2000 level;
- at least nine credits from biology courses at the 3000 or higher level;
- additional credits from biology courses at the 2000 or higher level, as required for an overall total of at least 30 credits from biology courses.

Note: it is recommended that students interested in cell biology, genetics, molecular biology and biochemistry take the following courses: SC/BIOL 1010 6.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00, SC/BIOL 2040 4.00 and SC/CHEM 2020 6.00, plus a minimum of nine additional credits from biology courses at the 3000 or higher level. For other areas of interest, students are advised to choose their 2000-level biology courses wisely, based on the prerequisites for the courses they wish to take at the 3000 or higher level. Check the course outlines in this publication for course prerequisites.

Biophysics

This is an interdisciplinary Specialized Honours program requiring coursework and practical experience in physics, biology, chemistry, mathematics and computer science. The focus of the program is on applying laws and methods of physics to understand biological processes.

- i) All Honours BSc degree candidates must complete the program core:
- SC/BIOL 1010 6.00; SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00;

- SC/BPHS 2090 3.00; SC/BPHS 3090 3.00; SC/BPHS 4090 4.00;
 - SC/CHEM 1000 3.00; SC/CHEM 1001 3.00;
 - SC/MATH 2015 3.00; SC/MATH 2271 3.00;
 - SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00; SC/PHYS 2010 3.00; SC/PHYS 2020 3.00; SC/PHYS 2060 3.00; SC/PHYS 2213 3.00; SC/PHYS 3030 3.00; SC/PHYS 3040 6.00; SC/PHYS 4061 3.00.
- ii) All Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following, in addition to the courses from the program core:
- SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00;
 - SC/CSE 1520 3.00 or SC/CSE 1540 3.00;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and in so doing must satisfy the course, credit and standing requirements. To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Specialized Honours Biophysics Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level requirements, as specified in ii) above;
- six credits from: SC/BIOL 3051 3.00, SC/CHEM 2020 6.00, SC/PHYS 3020 3.00, SC/PHYS 3050 3.00, SC/PHYS 3090 3.00, SC/PHYS 3320 3.00;
- six credits from: SC/PHYS 3150 3.00, SC/PHYS 3220 3.00, SC/PHYS 4010 3.00, SC/PHYS 4011 3.00, SC/PHYS 4040 3.00, SC/PHYS 4050 3.00, SC/PHYS 4120 3.00;
- at least 12 credits from: SC/BIOL 3010 3.00, SC/BIOL 3110 3.00, SC/BIOL 3130 3.00, SC/BIOL 3150 3.00/SC/BIOL 3150 4.00, SC/BIOL 4061 3.00, SC/BIOL 4141 3.00, SC/BIOL 4150 3.00, SC/BIOL 4151 3.00, SC/BIOL 4160 3.00, SC/CHEM 4093 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, and at least 42 credits at the 3000 or higher level.

Chemistry

- i) All BSc and Honours BSc degree candidates (exception noted below) must complete the program core (normally before proceeding to 3000- or higher-level courses): SC/CHEM 1000 3.00; SC/CHEM 1001 3.00; SC/CHEM 2011 3.00; SC/CHEM 2020 6.00; SC/CHEM 2030 3.00.
- ii) All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 from the program core):
- SC/CSE 1540 3.00 or SC/CSE 1020 3.00 or SC/CSE 1520 3.00 or SC/CSE 1530 3.00;
 - SC/MATH 1013 3.00; SC/MATH 1014 3.00;
 - SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00 (not necessarily in year one);
 - for Specialized Honours stream in pharmaceutical and biological chemistry: SC/BIOL 1010 6.00; or for Honours Double Major and Honours Major/Minor programs: at least three credits from SC/BIOL 1010 6.00 (strongly recommended for students lacking OAC or 12U biology), SC/EATS 1010 3.00, SC/EATS 1011 3.00, SC/MATH 1025 3.00, or from other 1000-level science courses required for the second major or the minor;

- additional 1000-level science credits (excluding SC/CHEM 1500 4.00, SC/MATH 1510 6.00, SC/MATH 1515 3.00, SC/PHYS 1510 4.00 and all natural science courses), if required, for an overall total of at least 24 credits from 1000-level science courses; (SC/BIOL 1010 6.00 is strongly recommended for students lacking OAC or 12U biology.)
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CHEM 2080 4.00 (*Note: SC/CHEM 2050 4.00 or equivalent is also strongly advised.*);
- at least 21 credits from chemistry courses at the 3000 level, for an overall total of at least 43 credits from chemistry courses (*Note: SC/CHEM 3080 4.00 is strongly advised.*);
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.50 (B) over all courses completed for the Specialized Honours programs, or 5.00 (C+) over all courses completed for all other Honours programs, subject to the exception in the note below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 (B) biology grade point average is not required where biology is the minor.)

Specialized Honours Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00; SC/CHEM 2080 4.00;
- SC/CHEM 3000 3.00; SC/CHEM 3001 3.00; SC/CHEM 3010 3.00; SC/CHEM 3020 3.00; SC/CHEM 3030 3.00; SC/CHEM 3080 4.00;
- SC/CHEM 4000 8.00;
- a minimum of 18 additional credits from chemistry courses at the 3000 or 4000 level, of which at least nine must be at the 4000 level, for an overall total of at least 67 credits from chemistry courses;
- additional science credits, as required for an overall total of at least 90 credits from science courses;
- additional elective credits, as required for an overall total of at least 120 credits.

In the applied chemistry area, the Department of Chemistry offers a Specialized Honours program stream in pharmaceutical and biological chemistry.

In addition, students may develop a concentration in analytical chemistry, or materials chemistry, for which they should consult the Department of Chemistry on course selection.

Specialized Honours Program Stream in Pharmaceutical and Biological Chemistry

A degree program stream of interest as an entry into the field of pharmaceutical (medicinal) chemistry or for those wishing to explore biologically relevant topics and issues from a chemical perspective. It is suitable for employment in the pharmaceutical and related industries, and in government laboratories, as well as for graduate work in areas of biological chemistry, including medicinal chemistry and structural biology.

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above (SC/MATH 1013 3.00 and SC/MATH 1014 3.00 may be replaced by SC/MATH 1505 6.00 with a minimum grade of B);
- SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00; SC/CHEM 2080 4.00;
- SC/CHEM 3000 3.00; SC/CHEM 3001 3.00; SC/CHEM 3011 3.00; SC/CHEM 3020 3.00; SC/CHEM 3030 3.00; SC/CHEM 3050 3.00; SC/CHEM 3051 3.00; SC/CHEM 3071 3.00; SC/CHEM 3080 4.00;
- SC/CHEM 4000 8.00; SC/CHEM 4050 3.00; SC/CHEM 4051 3.00 or SC/CHEM 4021 3.00;
- at least three additional credits chosen from SC/CHEM 3021 3.00, SC/CHEM 4051 3.00, SC/BIOL 3110 3.00, SC/BIOL 4151 3.00;
- additional elective credits, as required, for an overall total of at least 120 credits including at least 90 credits from science courses.

Honours Major Program

- The program core as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00; SC/CHEM 2080 4.00;
- SC/CHEM 3000 3.00; SC/CHEM 3001 3.00;
- a minimum of 15 credits from chemistry courses at the 3000 or 4000 level, to include:
 - SC/CHEM 3030 3.00 or SC/CHEM 3050 3.00 or SC/CHEM 3080 4.00 (SC/CHEM 3080 4.00 is recommended to facilitate employment in industry;
 - at least six credits at the 4000 level, exclusive of SC/CHEM 4000 4.00 or SC/CHEM 4000 8.00 (being mindful of 3000-level prerequisites for 4000-level courses; some 4000-level courses can be taken in Year 3);
- additional elective credits, as required, for an overall total of at least 120 credits, including at least 90 credits in science courses and at least 42 credits at the 3000 or 4000 levels.

Honours Double Major Program

Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Students should consult the departmental undergraduate handbook or a departmental adviser to plan their studies in order to meet the requirements for both majors and their prerequisites. The following are minimum chemistry requirements:

- SC/CHEM 1000 3.00, SC/CHEM 1001 3.00;
- SC/CHEM 2011 3.00, SC/CHEM 2020 6.00, SC/CHEM 2030 3.00 and SC/CHEM 2080 4.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CHEM 3000 3.00;
- 15 chemistry credits at the 3000 and 4000 levels, including at least six credits at the 4000 level;
- SC/CHEM 4000 4.00 or SC/CHEM 4000 8.00 or an equivalent research project course in second major;
- the course requirements for the second major;
- additional elective credits, as required, for an overall total of at least 120 credits, including at least 90 credits in science courses and at least 42 science credits at the 3000 or 4000 levels.

Honours Double Major programs are necessarily highly demanding and should not be considered by any student without an average academic performance of B grade or better.

Honours Major/Minor Program

An Honours Major in chemistry may be combined with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The program core as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the minor;
- SC/CHEM 2080 4.00;
- SC/CHEM 3000 3.00; SC/CHEM 3001 3.00;
- a minimum of 15 credits from chemistry courses at the 3000 or 4000 level; SC/CHEM 3080 4.00 is highly recommended;
- a minimum of nine additional credits from chemistry courses at the 4000 level, for an overall total of at least 52 credits from chemistry courses;
- the course requirements for the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Note: the following courses are required as prerequisites or corequisites for the chemistry courses above: SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00.

Honours Minor

- SC/CHEM 1000 3.00; SC/CHEM 1001 3.00;
- at least 24 additional credits from chemistry courses at the 2000 or higher level, for an overall total of at least 30 credits from chemistry courses.

Note: some 2000-level chemistry courses require mathematics and physics courses as prerequisites or corequisites. Careful planning is required to ensure that prerequisites for the 2000- and higher-level chemistry courses in which the student is interested are completed.

Computer Science

The Computer Science and Engineering Department offers courses leading to a bachelor of arts (BA), a bachelor of science (BSc) and an international bachelor of arts and bachelor of science (iBA and iBSc). For the BSc and iBSc, students must take courses in laboratory sciences.

General Prerequisites

All 2000-level computer science courses require the following general prerequisite, in addition to or including other course specific prerequisites: SC/CSE 1030 3.00 with a grade of at least C+.

Most 3000- and 4000-level computer science courses require the following general prerequisites, in addition to or including other course specific prerequisites: SC/CSE 2011 3.00; a cumulative grade point average of 4.50 or better over all completed major computer science courses including SC/CSE 1019 3.00 (cross-listed to: SC/MATH 1019 3.00).

- All degree candidates in computer science (except those taking a minor) must complete the program core: SC/CSE 1019 3.00; SC/CSE 1020 3.00; SC/CSE 1030 3.00; SC/CSE 2001 3.00; SC/CSE 2011 3.00; SC/CSE 2021 4.00; SC/CSE 2031 3.00; SC/CSE 3101 3.00; SC/CSE 3221 3.00; SC/CSE 3311 3.00; SC/MATH 1090 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00.

Note: to satisfy computer science degree requirements, SC/MATH 1013 3.00 may be taken in lieu of SC/MATH 1300 3.00; SC/MATH 1014 3.00 may be taken in lieu of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2221 3.00 may be taken in lieu of SC/MATH 1025 3.00.

BA Programs

- ii) All BA, Honours BA and Honours iBA degree candidates must comply with the general education requirement: 24 credits from humanities, modes of reasoning, natural science and social science (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section). In addition, all computer science Honours BA degree programs, except the Honours Minor BA program, require the successful completion of at least 30 credits which are neither computer science nor mathematics courses.
- iii) All BA, Honours BA and Honours iBA degree candidates, in accordance with their declared programs, must comply with general regulation 5, 6 or 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor Program (BA)

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BA degree (bachelor program).

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- at least nine additional credits from computer science courses at the 3000 level, including at least three credits from courses with second digit 4 (i.e. applications area), for an overall total of at least 40 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 90 credits, of which at least 18 credits are at the 3000 level or higher, including at least 12 credits in the major.

Honours Programs (Honours BA)

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Specialized Honours BA Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00; at least three additional credits from computer science courses at the 3000 level;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00;
- at least six additional credits from computer science courses at the 3000 or 4000 level, for an overall total of at least 58 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BA Program (Communication Networks Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3213 3.00 or SC/CSE 3214 3.00; SC/CSE 3401 3.00; SC/CSE 3451 4.00;
- at least 16 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4084 6.00; SC/CSE 4214 4.00; SC/CSE 4215 3.00 for an overall total of at least 60 credits from computer science courses;

- additional elective credits, as required from an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BA Program (Intelligent Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00; SC/CSE 3402 3.00;
- at least 15 credits from computer science courses at the 4000 level, including SC/CSE 4081 6.00; SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4401 3.00 or SC/CSE 4402 3.00; SC/CSE 4421 3.00 or SC/CSE 4422 3.00;
- at least three additional credits from computer science courses at the 3000 or 4000 level, for an overall total of at least 58 credits from computer science courses;
- additional elective courses, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Note: SC/CSE 3215 3.00 and SC/CSE 3451 4.00 are also recommended as complementing the stream.

Specialized Honours BA Program (Interactive Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3431 3.00; SC/CSE 3461 3.00;
- at least 15 credits from computer science courses at the 4000 level, including SC/CSE 4082 6.00; SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; six credits from: SC/CSE 4431 3.00; SC/CSE 4441 3.00; SC/CSE 4461 3.00; SC/CSE 4471 3.00; for an overall total of at least 58 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BA Program (Software Development Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3341 3.00; SC/CSE 3401 3.00; SC/CSE 3421 3.00; SC/CSE 3461 3.00;
- SC/CSE 4090 6.00; one of SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4312 3.00; SC/CSE 4313 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Honours Major, Honours Double Major and Honours Major/Minor Programs

An Honours Major in computer science may be taken standalone in an Honours Major BA degree program or combined with an Honours Major in another subject area in a Honours Double Major BA degree program, or with an Honours Minor in another subject area in a Honours Major/Minor BA degree program. The Honours Double Major BA programs described below, including any one of the three streams, may be pursued jointly with any other Honours bachelor degree program in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional

Studies or in the following programs in the Faculty of Science and Engineering: applied mathematics, mathematics, mathematics for education, statistics. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

The Honours BA programs described below, including any one of the three streams, may be pursued jointly with any Honours Minor bachelor degree program in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering.

The following are the minimum requirements:

- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- the computer science Honours Major requirements below;
- the course requirements for the possible second major or the minor;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

It is recommended that students in the Honours Major, Honours Double Major or Honours Major/Minor programs, where computer science is the major, take a linear algebra course such as SC/MATH 1025 3.00 among their electives.

Honours Major Program (Honours BA)

- The program core, as specified in i) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00;
- at least 12 credits from computer science courses at the 4000 level, for an overall total of at least 49 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Honours Major BA Program (Communication Networks Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3213 3.00 or SC/CSE 3214 3.00; SC/CSE 3401 3.00; SC/CSE 3451 4.00;
- at least 13 credits from computer science courses at the 4000 level, including SC/CSE 4084 6.00; SC/CSE 4214 4.00; SC/CSE 4215 3.00 for an overall total of at least 57 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Honours Major BA Program (Intelligent Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3402 3.00;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4081 6.00; SC/CSE 4401 3.00 or SC/CSE 4402 3.00; SC/CSE 4421 3.00 or SC/CSE 4422 3.00, for an overall total of at least 52 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Honours Major BA Program (Interactive Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3431 3.00; SC/CSE 3461 3.00;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4082 6.00; two of SC/CSE 4431 3.00; SC/CSE 4441 3.00; SC/CSE 4461 3.00; SC/CSE 4471 3.00, for an overall total of at least 55 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level and at least 30 credits which are neither computer science nor mathematics.

Honours Minor BA Program

- SC/CSE 1019 3.00; SC/CSE 1710 3.00; SC/CSE 1720 3.00; SC/CSE 1030 3.00;
- SC/CSE 2011 3.00;
- at least 15 additional credits in computer science with second digit not 5, nine of which must be at the 3000 or 4000 level.

Notes:

1. SC/CSE 1020 3.00 can be substituted for the pair SC/CSE 1710 3.00 and SC/CSE 1720 3.00 toward satisfying the minor requirements, as long as the credit count for the minor remains 30 minimum.
2. In order to obtain an Honours BA (120 credits) students must take a total of at least 18 credits at the 4000 level, including at least 12 credits at the 4000 level in each Honours Major or Specialized Honours major.

International Bachelor of Arts (Honours iBA)

Honours Major (Honours iBA)

Degree candidates must comply with general regulation 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the computer science and mathematics courses from the program core):

- a total of 120 credits;
- the Faculty of Science and Engineering BA general education requirements, as specified in ii) above;
- 30 required credits outside the major, consisting of:
 - 18 credits of language study in one of the modern languages offered at York University, including the Advanced I university-level course in the chosen language;
 - at least 12 credits of internationally-oriented courses chosen outside the major;
 - at least one full term abroad as a full-time student at one of York University's exchange partners.

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00;
- at least 12 credits from computer science courses at the 4000 level, for an overall total of 49 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits must be at the 4000 level.

The Honours Major described above may also be pursued as the major in a Major/Minor program.

For further details on the international bachelor of arts, refer to the International Bachelor of Arts and Bachelor of Science in the Programs of Study section.

BSc Programs

- i) All degree candidates in computer science (except those taking a minor) must complete the program core: SC/CSE 1019 3.00; SC/CSE 1020 3.00; SC/CSE 1030 3.00; SC/CSE 2001 3.00; SC/CSE 2011 3.00; SC/CSE 2021 4.00; SC/CSE 2031 3.00; SC/CSE 3101 3.00; SC/CSE 3221 3.00; SC/CSE 3311 3.00; SC/MATH 1090 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;

Note: to satisfy computer science degree requirements, SC/MATH 1013 3.00 may be taken in lieu of SC/MATH 1300 3.00; SC/MATH 1014 3.00 may be taken in lieu of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2221 3.00 may be taken in lieu of SC/MATH 1025 3.00.

- ii) All BSc, Honours BSc and Honours iBSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the computer science and mathematics courses from the program core):
- six credits from SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00 or SC/PHYS 1010 6.00; (*Note: In this context, SC/CSE 1020 3.00 and SC/CSE 1030 3.00 satisfy the other half of the 1000-level science requirement for courses with laboratories.*)
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All BSc, Honours BSc and Honours iBSc degree candidates, in accordance with their declared programs, must comply with general regulation 5, 6 or 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.
- iv) All Honours BSc degree candidates with a major in computer science must complete at least 30 credits which are neither computer science nor mathematics.

Bachelor Program (BSc)

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- at least nine additional credits from computer science courses at the 3000 level, including at least three credits from courses with second digit 4 (i.e. applications area), for an overall total of at least 40 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses.

Honours Programs (Honours BSc)

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 (B) biology grade point average is not required where biology is the minor.)

Specialized Honours BSc Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00; at least three additional credits from computer science courses at the 3000 level;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00;
- at least six additional credits from computer science courses at the 3000 or 4000 level, for an overall total of at least 58 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BSc Program (Communication Networks Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00; SC/CSE 3213 3.00 or SC/CSE 3214 3.00; SC/CSE 3451 4.00;
- at least 16 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4084 6.00; SC/CSE 4214 4.00; SC/CSE 4215 3.00 for an overall total of at least 60 credits from computer science courses;
- additional elective credits, as required from an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BSc Program (Intelligent Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00; SC/CSE 3402 3.00;
- at least 15 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4081 6.00; SC/CSE 4401 3.00 or SC/CSE 4402 3.00; SC/CSE 4421 3.00 or SC/CSE 4422 3.00;
- at least three additional credits from computer science courses at the 3000 or 4000 level, for an overall total of at least 58 credits from computer science courses;
- additional elective courses, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Note: SC/CSE 3215 3.00 and SC/CSE 3451 4.00 are also recommended as complementing the stream.

Specialized Honours BSc Program (Interactive Systems Stream)

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3431 3.00; SC/CSE 3461 3.00;
- at least 15 credits from computer science courses at the 4000 level, including SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4082 6.00; six credits from: SC/CSE 4431 3.00; SC/CSE 4441 3.00; SC/CSE 4461 3.00; SC/CSE 4471 3.00; for an overall total of at least 58 credits from computer science courses;

- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Specialized Honours BSc Program (Software Development Stream)

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3341 3.00; SC/CSE 3401 3.00; SC/CSE 3421 3.00; SC/CSE 3461 3.00;
- one of SC/CSE 4101 3.00 or SC/CSE 4111 3.00 or SC/CSE 4115 3.00; SC/CSE 4090 6.00; SC/CSE 4312 3.00; SC/CSE 4313 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Honours Major, Honours Double Major and Honours Major/Minor Programs

An Honours Major in computer science may be taken standalone in an Honours Major BSc degree program or combined with an Honours Major in another subject area in an Honours Double Major BSc degree program, or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including choices appropriate for the possible second major or the minor;
- the computer science Honours Major requirements below;
- the course requirements for the possible second major or the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90⁴ credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

It is recommended that students in the Honours Major, Honours Double Major or Honours Major/Minor programs, where computer science is the major, take a linear algebra course such as SC/MATH 1025 3.00 among their electives.

Honours Major BSc Program

- The program core, as specified in i) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00, SC/CSE 3401 3.00;
- at least 12 credits from computer science courses at the 4000 level, for an overall total of at least 49 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90¹ credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Honours Major BSc Program (Communication Networks Stream)

- The program core, as specified in i) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3213 3.00 or SC/CSE 3214 3.00; SC/CSE 3451 4.00;

-
4. Or at least 66 credits from science courses if the minor is in a fine arts subject area.

- at least 13 credits from computer science courses at the 4000 level, including SC/CSE 4084 6.00; SC/CSE 4214 4.00; SC/CSE 4215 3.00 for an overall total of at least 57 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90¹ credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Honours Major BSc Program (Intelligent Systems Stream)

- The program core, as specified in i) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3402 3.00;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4081 6.00; SC/CSE 4401 3.00 or SC/CSE 4402 3.00; SC/CSE 4421 3.00 or SC/CSE 4422 3.00; for an overall total of at least 52 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90¹ credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Honours Major BSc Program (Interactive Systems Stream)

- The program core, as specified in i) above;
- SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00; SC/CSE 3431 3.00; SC/CSE 3461 3.00;
- at least 12 credits from computer science courses at the 4000 level, including SC/CSE 4082 6.00; two of SC/CSE 4431 3.00; SC/CSE 4441 3.00; SC/CSE 4461 3.00; SC/CSE 4471 3.00; for an overall total of at least 55 credits from computer science courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90¹ credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are neither computer science nor mathematics.

Honours Minor

- SC/CSE 1019 3.00; SC/CSE 1710 3.00; SC/CSE 1720 3.00; SC/CSE 1030 3.00; SC/CSE 2011 3.00;
- at least 15 additional credits in computer science with second digit not 5, nine of which must be at the 3000 or 4000 level.

Note: SC/CSE 1020 3.00 can be substituted for the pair SC/CSE 1710 3.00 and SC/CSE 1720 3.00 toward satisfying the minor requirements as long as the credit count for the minor remains 30 minimum.

International Bachelor of Science Program (Honours iBSc)

Honours Major (Honours iBSc)

- All iBSc degree candidates must complete the program core as specified in i) above;
- All iBSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Requirements Governing Undergraduate Degree Requirements section) by completing the following (in addition to the computer science and mathematics courses from the program core):
 - six credits from SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00 or SC/PHYS 1010 6.00;

Note: in this context SC/CSE 1020 3.00 and SC/CSE 1030 3.00 satisfy the other half of the 1000-level science requirement for courses with laboratories.

 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section and item iii) below);

- iii) International component:
- 12 credits of language study in one of the languages offered at York University;
 - 18 credits of non-science courses with an international component (refer to sample list of courses in International Bachelor of Arts or Bachelor of Science in the Programs section); this may also serve to meet the general education requirement;
 - one to two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement.
- iv) All iBSc degree candidates must comply with general regulation 7 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below.

Note: to satisfy computer science degree requirements, SC/MATH 1013 3.00 may be taken in lieu of SC/MATH 1300 3.00; SC/MATH 1014 3.00 may be taken in lieu of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2221 3.00 may be taken in lieu of SC/MATH 1025 3.00.

Honours iBSc Program

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

- The program core, as specified in i) above;
- SC/MATH 1025 3.00; SC/MATH 2030 3.00;
- SC/CSE 3000 3.00; SC/CSE 3401 3.00;
- at least 12 credits from computer science courses at the 4000 level, for an overall total of at least 49 credits from computer science courses;
- international component (refer to item iii) above);
- additional elective credits, as required, for an overall total of at least 120 credits, including at least 90 credits from science (SC) courses, at least 42 credits at the 3000 or higher level, at least 18 credits in courses designated to have an international content.

For further details of the international bachelor of science, refer to the International Bachelor of Arts and Bachelor of Science in the Programs of Study section.

Computer Security

This is a Specialized Honours program that focuses on understanding threats to computer security and the techniques for combating those threats. The program requires in-depth study of computer networks, operating systems, cryptography, database systems and software engineering techniques, as well as specialized courses in computer security. In addition, practical ethics and the study of law as it relates to privacy, intellectual property and theft in our digital world are important complementary topics.

The program may be taken as a bachelor of arts (Honours BA) or a bachelor of science (Honours BSc) degree. For the BSc degree, students must take courses in laboratory science.

- i) All degree candidates must complete the program core:
- SC/CSE 1019 3.00; SC/CSE 1020 3.00; SC/CSE 1030 3.00; SC/CSE 2001 3.00; SC/CSE 2011 3.00; SC/CSE 2021 4.00; SC/CSE 2031 3.00; SC/CSE 3000 3.00; SC/CSE 3101 3.00; SC/CSE 3221 3.00; SC/CSE 3213 3.00; SC/CSE 3214 3.00; SC/CSE 3311 3.00; SC/CSE 3421 3.00 (BA candidates may substitute AP/ITEC 3220 3.00); SC/CSE 3481 3.00; SC/CSE 4161 3.00; SC/CSE 4413 3.00; SC/CSE 4481 4.00; SC/CSE 4482 3.00; SC/MATH 1025 3.00; SC/MATH 1090 3.00; SC/MATH 1131 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00; SC/MATH 2030 3.00;
 - AP/PHIL 2075 3.00 or SC/STS 3500 3.00.

Notes:

1. SC/MATH 1190 3.00 must be taken if the student has not passed 12U Geometry and Discrete Math.

2. Students in the BA program must choose to take either the pair SC/CSE 1020 3.00 and SC/CSE 1030 3.00, or AP/ITEC 1620 3.00 and AP/ITEC 1630 3.00 and AP/ITEC 2620 3.00; either combination of courses meets prerequisites for 2000-level computer science courses, with a grade of C+ in either SC/CSE 1030 3.00 or AP/ITEC 2620 3.00. Wherever specified AP/ITEC courses are used to satisfy degree requirements in this program, they will also be used in the general prerequisite GPA calculation.
3. AP/SOSC 2312 9.00 or AP/SOSC 2340 9.00 are highly recommended as fulfilling, in part, the general education requirements.
4. To satisfy computer science degree requirements, SC/MATH 1013 3.00 may be taken in lieu of SC/MATH 1300 3.00; SC/MATH 1014 3.00 may be taken in lieu of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2221 3.00 may be taken in lieu of SC/MATH 1025 3.00.

All BA degree candidates must comply with the BA General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section; 24 credits chosen from humanities, modes of reasoning, natural science, and social science (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

All Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the computer science and mathematics courses from the program core):

- six credits from: SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00;
- Note: in this context, SC/CSE 1020 3.00 and SC/CSE 1030 3.00 satisfy the other half of the 1000-level science requirement for courses with laboratories.*
- 12 general education credits (refer to BSc General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

Note: AP/PHIL 2075 3.00 would count towards this requirement.

iv) All degree candidates, in accordance with their declared programs, must comply with general regulation 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the following course, credit and standing requirements.

- for Honours BA candidates - additional elective credits, as required for an overall total of at least 120 credits, at least 36 credits at the 3000 or higher level, of which at least 18 credits are at the 4000 level, and at least 30 credits which are not in computer science or mathematics or information technology.
- for Honours BSc candidates - additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, at least 42 credits at the 3000 or higher level, and at least 30 credits which are not in computer science or mathematics or information technology.

To graduate in Specialized Honours computer security requires successful completion of all Faculty requirements and all required program courses, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Digital Media

Specialized Honours BA Program

All Honours BA degree candidates must complete the following:

- SC/CSE 1019 3.00; SC/CSE 1710 3.00; SC/CSE 1720 3.00; SC/CSE 1030 3.00; FA/FACS 1900 6.00; SC/MATH 1025 3.00; AP/SOSC 1310 9.00 or AP/SOSC 1731 9.00;
- SC/CSE 2011 3.00; SC/CSE 2031 3.00; FA/FACS 2930 6.00; FA/FACS 2935 3.00; FA/FACS 2936 3.00; SC/MATH 2565 3.00 or SC/MATH 1131 3.00;

- FA/FACS 3930 3.00; FA/FACS 3931 3.00 or FA/VISA 2057 3.00; FA/FACS 3935 3.00; FA/FACS 3936 3.00;
- nine credits chosen from: SC/CSE 3213 3.00, SC/CSE 3421 3.00, SC/CSE 3431 3.00, SC/CSE 3461 3.00;
- SC/CSE 4700 6.00;
- six credits chosen from: FA/FACS 4930 3.00, FA/FACS 4931 3.00, FA/FACS 4932 3.00 or FA/FACS 4935 3.00;
- six credits chosen from: SC/CSE 4413 3.00, SC/CSE 4431 3.00, SC/CSE 4441 3.00, SC/CSE 4461 3.00, SC/CSE 4471 3.00 or SC/CSE 4491 3.00;
- six credits chosen from: AP/SOSC 4300 6.00, AP/SOSC 4301 6.00, AP/SOSC 4302 6.00, AP/SOSC 4305 6.00, AP/SOSC 4314 6.00, AP/SOSC 4319 6.00, AP/SOSC 4320 6.00, AP/SOSC 4330 6.00 or AP/SOSC 4801 6.00;
- six additional credits chosen from the FA/FACS or SC/CSE courses listed above;
- a 2000 level nine credit humanities course and a six credit natural science course to satisfy the General Education requirement;
- additional elective credits, as required for an overall total of at least 120 credits.

Note: SC/MATH 1190 3.00 must be taken if the student has not passed 12U Geometry and Discrete Math.

Honours Programs

To graduate in an Honours program requires successful completion of all degree requirements and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed. Students must obtain a minimum of 36 credits at the 3000 or 4000 level, including at least 18 credits at the 4000 level. Of these, 12 credits at the 4000 level must be in the major.

Earth and Atmospheric Science

Note: the following BSc and Honours BSc degree requirements do not apply to students in the space science stream of Specialized Honours in earth and atmospheric science (refer to Space Science in the Faculty of Science and Engineering Programs of Study section).

- With the exceptions noted above, all BSc and Honours BSc degree candidates must complete the EATS program core: SC/CSE 1540 3.00; SC/EATS 2030 3.00; SC/EATS 2470 3.00; SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00; SC/PHYS 1010 6.00; SC/PHYS 2020 3.00; SC/PHYS 2211 1.00.
- All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the EATS program core):
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- The EATS program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;

- SC/EATS 1010 3.00, SC/EATS 1011 3.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00; SC/EATS 2010 3.00 (for those wishing to emphasize Atmospheric Science) or SC/EATS 2050 4.00 (for those wishing to emphasize Earth Science); SC/MATH 2560 3.00 or SC/GEOG 2420 3.00, SC/EATS 3300 3.00;
- nine credits from SC/EATS 3010 2.00 and SC/EATS 3011 1.00, SC/EATS 3020 3.00, SC/EATS 3030 3.00, SC/EATS 3040 3.00, SC/EATS 3180 3.00, SC/MATH 3241 3.00, SC/PHYS 3050 3.00;
- nine additional credits from earth and atmospheric science courses at the 3000 or higher level;
- additional elective credits, approved by the Department of Earth and Space Science and Engineering, as required for an overall total of at least 90 credits, including at least 66 credits from science courses.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 (B) biology grade point average is not required where biology is the minor.)

Honours Cores

The atmospheric science Honours core requires the following in addition to the EATS program core: SC/EATS 1011 3.00; SC/EATS 2010 3.00; SC/EATS 3030 3.00; SC/EATS 3040 3.00; SC/EATS 4050 3.00; SC/EATS 4051 3.00; SC/EATS 4120 3.00; SC/EATS 4130 3.00; SC/EATS 4140 3.00; SC/EATS 4230 3.00; SC/MATH 3241 3.00.

The earth science Honours core requires the following in addition to the EATS program core: SC/EATS 1010 3.00; SC/EATS 3020 3.00; SC/EATS 3300 3.00; SC/EATS 4020 3.00; SC/EATS 4220 3.00; SC/MATH 2560 3.00 or SC/GEOG 2420 3.00. Plus either: a) SC/EATS 2050 4.00; SC/EATS 3010 2.00; SC/EATS 3011 1.00; SC/EATS 3180 3.00; SC/EATS 4010 6.00 (for applied geophysics emphasis) or b) SC/EATS 3610 4.00; SC/EATS 3620 4.00; SC/EATS 3650 4.00; SC/EATS 4610 3.00 (for geomatics emphasis).

Specialized Honours Program

- The EATS program core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- all obligatory courses in one of the following streams:

Atmospheric Science Stream

- The atmospheric science Honours core;
- SC/EATS 1010 3.00; SC/EATS 3020 3.00; SC/EATS 3280 3.00; SC/EATS 3300 3.00; SC/EATS 4160 3.00; SC/MATH 2560 3.00 or SC/GEOG 2420 3.00; SC/CHEM 1000 3.00 or SC/CHEM 1001 3.00;
- at least three science credits chosen from SC/CHEM 2011 3.00, SC/CHEM 2030 3.00, SC/MATH 2222 3.00;
- 15 credits (to include at least three credits from earth and atmospheric science courses), chosen from the following: SC/EATS 3130 3.00, SC/EATS 4000 3.00, SC/EATS 4000 6.00, SC/EATS 4020 3.00, SC/EATS 4220 3.00, SC/EATS 4240 3.00, SC/GEOG 2400 6.00, SC/GEOG 4210 3.00, SC/GEOG 4310 3.00, SC/MATH 3242 3.00, SC/MATH 3271.30, SC/MATH 4141 3.00, SC/MATH 4142 3.00, SC/PHYS 2060 3.00, SC/PHYS 3050 3.00;
- additional elective credits, approved by the department, as required for an overall total of at least 120 credits.

Earth Science Stream

- The earth science Honours core;
- SC/EATS 1011 3.00; SC/EATS 2010 3.00;
- SC/CHEM 1000 3.00; SC/CHEM 1001 3.00; SC/EATS 2610 2.00;

- SC/EATS 3280 3.00; SC/MATH 3241 3.00;
- SC/EATS 4230 3.00; SC/EATS 4400 3.00;
- either SC/EATS 2060 3.00 and SC/EATS 3140 4.00 (for applied geophysics emphasis) or SC/EATS 2620 4.00 and SC/EATS 2630 3.00 (for geomatics emphasis);
- at least seven credits from SC/EATS 2620 4.00, SC/EATS 2630 3.00, SC/EATS 3610 4.00, SC/EATS 3620 4.00, SC/EATS 3630 4.00, SC/EATS 3640 4.00, SC/EATS 3650 4.00, SC/EATS 3660 3.00, SC/EATS 4000 3.00, SC/EATS 4000 6.00, SC/EATS 4610 3.00, SC/EATS 4620 3.00, SC/EATS 4630 3.00, SC/EATS 4640 3.00, SC/EATS 4650 3.00, SC/EATS 4660 3.00, SC/MATH 3242 3.00, SC/MATH 3271 3.00, SC/MATH 3410 3.00; SC/PHYS 3020 3.00; SC/PHYS 3050 3.00; SC/PHYS 3150 3.00, for an overall total of at least 42 credits from earth and atmospheric science courses;
- additional elective credits, approved by the department, as required for an overall total of at least 120 credits.

Note: entry by current earth science students into any courses in the applied geophysics emphasis is restricted, requiring written permission of the Chair of the Department of Earth and Space Science and Engineering.

The Department of Earth and Space Science and Engineering also offers a Specialized Honours BSc degree stream in space science whose degree requirements are specified in a separate entry in the Faculty of Science and Engineering Programs of Study section.

Honours Double Major Program and Honours Major/Minor Programs

An Honours Major in earth and atmospheric science may be combined with an Honours Major in another subject area in an Honours Double Major BSc degree program, or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section. Further information on course selection for various Honours Double Major programs is detailed in the departmental handbook.

All degree candidates should contact departmental advisers as early as possible regarding course requirements for particular Honours Double Major and Honours Major/Minor programs. Early planning of courses is strongly advised so that the necessary prerequisites for courses in both departments are met.

- The Faculty of Science and Engineering general education requirement, as specified in ii) above;
- the earth and atmospheric science Honours Major requirements below;
- the course requirements for the second major or the minor;
- additional elective credits, approved by the department, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Honours Major

An Honours Major in earth and atmospheric science may be taken in either the atmospheric science stream or the earth science stream.

Atmospheric Science Stream

- the atmospheric science Honours core, including the EATS program core, as specified above;

Earth Science Stream

- the earth science Honours core, including the EATS program core, as specified above.

Honours Minor

- SC/EATS 1010 3.00; SC/EATS 1011 3.00;
- SC/EATS 2010 3.00; SC/EATS 2030 3.00; SC/EATS 2050 4.00;

- at least 14 credits from the following courses: SC/EATS 2470 3.00, SC/EATS 3010 2.00, SC/EATS 3011 1.00, SC/EATS 3020 3.00, SC/EATS 3030 3.00, SC/EATS 3040 3.00, SC/EATS 3140 3.00, SC/EATS 3180 3.00, SC/EATS 3300 3.00.

Note: the following courses are required as prerequisites or corequisites for the courses listed above: SC/CSE 1540 3.00; SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/MATH 2270 3.00; SC/MATH 2560 3.00 or SC/GEOG 2420 3.00; SC/PHYS 1010 6.00; SC/PHYS 2010 3.00; SC/PHYS 2020 3.00.

Concurrent Certificate in Geographic Information Systems (GIS) and Remote Sensing

Refer to Certificate Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Concurrent Certificate in Meteorology

Refer to Certificate Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Engineering

The School of Engineering within the Faculty of Science and Engineering offers an Honours bachelor of applied science (BASc Honours) degree in engineering. After completion of a common first-year program, students will choose one of three available programs: computer engineering, geomatics engineering or space engineering.

- All BASc Honours degree candidates must complete the engineering program core: SC/CHEM 1000 3.00; SC/CSE 1020 3.00; SC/CSE 1030 3.00; SC/EATS 1010 3.00; SC/ENG 1000 6.00; SC/ENG 2001 3.00; SC/ENG 2002 3.00; SC/ENG 3000 3.00; SC/ENG 4000 6.00; ES/ENVS 2150 3.00; SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1019 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/PHYS 1010 6.00; SC/PHYS 2020 3.00; SC/PHYS 3050 3.00.
- All BASc Honours degree candidates must complete 12 non-science general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- All BASc Honours degree candidates, in accordance with their declared stream, must satisfy the academic standing and course requirements below.

To graduate in the BASc Honours program requires successful completion of all Faculty requirements and program and stream required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Computer Engineering Stream

- The engineering program core;
- SC/CSE 2001 3.00; SC/CSE 2011 3.00; SC/CSE 2021 4.00; SC/CSE 2031 3.00;
- SC/MATH 1090 3.00; SC/MATH 2030 3.00;
- at least six additional credits from SC/BIOL 1010 6.00, SC/CHEM 1001 3.00, SC/CHEM 2011 3.00, SC/EATS 1011 3.00, SC/PHYS 1070 3.00, SC/PHYS 2010 3.00, SC/PHYS 2040 3.00, SC/PHYS 2060 3.00;
- SC/CSE 3101 3.00; SC/CSE 3201 4.00; SC/CSE 3213 3.00; SC/CSE 3215 4.00; SC/CSE 3221 3.00; SC/CSE 3311 3.00; SC/CSE 3451 4.00;
- three additional credits from computer science courses at the 3000 or 4000 level;
- SC/PHYS 2211 1.00; SC/PHYS 3150 3.00;
- SC/CSE 4201 3.00; SC/CSE 4214 4.00; SC/CSE 4312 3.00;

- 12 credits from: SC/CSE 3214 3.00, SC/CSE 3431 3.00, SC/CSE 4210 3.00⁵, SC/CSE 4211 3.00, SC/CSE 4215 3.00², SC/CSE 4313 3.00, SC/CSE 4352 3.00², SC/CSE 4421 3.00², SC/CSE 4422 3.00², SC/CSE 4431 3.00², SC/CSE 4441 3.00, SC/CSE 4452 3.00², SC/CSE 4471 3.00², SC/ENG 3320 3.00, SC/ENG 4550 3.00.

A non-credit, four to 16 month internship program (registered as SC/ENG 3900 0.00) is highly recommended for all engineering students, but is not a degree requirement.

Engineering Physics Stream

- The engineering program core;
- SC/CSE 2011 3.00; SC/CSE 2021 4.00;
- SC/CHEM 2011 3.00 SC/EATS 2470 3.00; SC/PHYS 2040 3.00; SC/PHYS 2211 1.00;
- SC/MATH 2271 3.00; SC/MATH 3271 3.00;
- SC/PHYS 3010 3.00; SC/PHYS 3020 3.00; SC/PHYS 3030 3.00; SC/PHYS 3040 6.00; SC/PHYS 3150 3.00; SC/PHYS 3210 6.00;
- SC/PHYS 4010 3.00; SC/PHYS 4020 3.00; SC/PHYS 4050 3.00; SC/PHYS 4060 3.00; SC/PHYS 4211 3.00;
- six additional credits from courses in engineering design; six additional credits from engineering courses.

Note: the Faculty of Science and Engineering will not be accepting applicants for the engineering physics stream in 2009-2010.

Space Engineering Stream

- The engineering program core;
- SC/CSE 2011 3.00; SC/CSE 2031 3.00; SC/CSE 2501 1.00;
- SC/MATH 2271 3.00;
- SC/EATS 2030 3.00; SC/EATS 2470 3.00; SC/ENG 2110 2.00; SC/ENG 2120 4.00;
- SC/PHYS 2030 3.00;
- SC/PHYS 3150 3.00; SC/PHYS 3250 3.00; SC/PHYS 3280 3.00; SC/ENG 3310 3.00; SC/ENG 3320 3.00; SC/ENG 3330 3.00;
- SC/EATS 3020 3.00; SC/ENG 3110 4.00;
- SC/EATS 3340 3.00; SC/ENG 3350 3.00;
- SC/ENG 4350 6.00; SC/ENG 4360 3.00; SC/PHYS 4110 3.00;
- three of SC/CSE 4421 3.00; SC/EATS 4020 3.00; SC/EATS 4220 3.00, SC/EATS 4230 3.00, SC/ENG 4110 3.00, SC/ENG 4330 3.00, SC/ENG 4550 3.00, SC/PHYS 3070 3.00.

A non-credit, four to 16 month internship program (registered as SC/ENG 3900 0.00) is highly recommended for all engineering students, but is not a degree requirement.

Geomatics Engineering Stream

- The engineering program core;
- SC/CSE 2011 3.00; SC/CSE 2031 3.00; SC/CSE 2501 1.00;
- SC/EATS 2030 3.00; SC/EATS 2470 3.00; SC/ENG 2110 2.00; SC/ENG 2120 4.00; SC/ENG 2130 3.00; SC/MATH 2565 3.00;
- SC/MATH 2271 3.00;
- SC/EATS 3020 3.00; SC/EATS 3300 3.00; SC/ENG 3110 4.00; SC/ENG 3120 4.00; SC/ENG 3130 4.00; SC/ENG 3140 4.00; SC/ENG 3150 4.00; SC/ENG 3160 3.00;
- SC/EATS 4020 3.00; SC/EATS 4220 3.00; SC/EATS 4400 3.00; SC/ENG 4110 3.00; SC/ENG 4120 3.00; SC/ENG 4130 3.00; SC/ENG 4140 3.00; SC/ENG 4160 3.00 or SC/ENG 4180 3.00;
- one of SC/ENG 4150 3.00, SC/ENG 4170 3.00, SC/ENG 4190 3.00.

A non-credit, four to 16 month internship program (registered as SC/ENG 3900 0.00) is highly recommended for all engineering students, but is not a degree requirement.

5. These 12 credits must include at least two courses with significant laboratory experience.

Environmental Science

Specialized Honours Program

- All Honours BSc degree candidates must complete the program core: SC/GEOG 1400 6.00; SC/GEOG 2400 6.00; SC/GEOG 2500 3.00 or SC/GEOG 2600 3.00; six credits from SC/GEOG 2610 3.00; SC/GEOG 3200 3.00, SC/GEOG 3500 3.00, SC/GEOG 4180 4.00, SC/GEOG 4200 3.00, SC/GEOG 4500 3.00; six credits from SC/GEOG 4205 3.00, SC/GEOG 4210 3.00, SC/GEOG 4310 3.00, SC/GEOG 4400 3.00, SC/GEOG 4600 3.00; 12 additional credits from science geography courses (including three credits in statistics for students in the physical sciences stream).
- All Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to SC/GEOG 1400 6.00 from the program core):
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

Life Sciences Stream

- SC/CSE 1520 3.00 or SC/CSE 1540 3.00;
- SC/MATH 1505 6.00, or both SC/MATH 1013 3.00 and SC/MATH 1014 3.00;
- SC/BIOL 1010 6.00; SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, or SC/EATS 1010 3.00 and SC/EATS 1011 3.00;

Physical Sciences Stream

- SC/CSE 1540 3.00;
 - SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00;
 - SC/CHEM 1000 3.00; SC/CHEM 1001 3.00; SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00.
- All Honours BSc degree candidates, in accordance with their declared program, must comply with general regulation 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below.

To graduate in an Honours program requires successful completion of all Faculty requirements and program required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Additional Course Requirements

All obligatory courses in one of the following streams:

Life Sciences Stream

- SC/BIOL 2010 4.00; SC/BIOL 2030 4.00; SC/BIOL 2050 4.00; SC/BIOL 2060 3.00;
- one ecology field course (SC/BIOL 3001 3.00 or SC/BIOL 3001 2.00);
- 15 additional credits chosen from the following: a second ecology field course (SC/BIOL 3002 3.00 or SC/BIOL 3002 2.00), SC/BIOL 3170 3.00, SC/BIOL 4000 8.00, SC/BIOL 4020 3.00, SC/BIOL 4070 3.00, SC/BIOL 4080 3.00, SC/BIOL 4090 4.00, SC/BIOL 4095 3.00, SC/BIOL 4100 3.00, SC/BIOL 4120 3.00, SC/BIOL 4130 3.00, SC/BIOL 4230 4.00, SC/BIOL 4240 4.00, SC/BIOL 4245 3.00, SC/BIOL 4250 3.00, SC/BIOL 4255 3.00, SC/BIOL 4260 3.00, SC/BIOL 4265 3.00, SC/BIOL 4340 3.00, SC/BIOL 4400 3.00, SC/BIOL 4420 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Physical Sciences Stream

- SC/EATS 2010 3.00; SC/EATS 2470 3.00;
- SC/CHEM 2030 3.00; SC/PHYS 2020 3.00;
- SC/MATH 2015 3.00; SC/MATH 2270 3.00;
- SC/EATS 3030 3.00; SC/EATS 3130 3.00; SC/EATS 4220 3.00;

- six additional credits chosen from SC/EATS 3040 3.00, SC/EATS 4050 3.00, SC/EATS 4051 3.00, SC/EATS 4120 3.00, SC/EATS 4130 3.00, SC/EATS 4140 3.00, SC/EATS 4150 3.00, SC/EATS 4160 3.00, SC/EATS 4230 3.00, SC/EATS 4240 3.00, SC/EATS 4300 3.00 (atmospheric science topics), SC/MATH 3241 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Concurrent Certificate in Geographic Information Systems (GIS) and Remote Sensing

Refer to Certificate Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Environmental Science Courses

The following list includes required and elective courses in the Specialized Honours BSc program in Environmental Science.

Geography

SC/GEOG 2400 6.00
 SC/GEOG 2500 3.00
 SC/GEOG 2600 3.00
 SC/GEOG 2610 3.00
 SC/GEOG 3200 3.00
 SC/GEOG 3500 3.00 (cross-listed to: SC/BIOL 3500 3.00)
 SC/GEOG 4180 4.00
 SC/GEOG 4200 3.00
 SC/GEOG 4205 3.00
 SC/GEOG 4210 3.00
 SC/GEOG 4310 3.00
 SC/GEOG 4400 3.00
 SC/GEOG 4500 3.00
 SC/GEOG 4600 3.00

Biology

SC/BIOL 2010 4.00
 SC/BIOL 2030 4.00
 SC/BIOL 2050 4.00
 SC/BIOL 2060 3.00
 SC/BIOL 3001 3.00 (ecology sections)
 SC/BIOL 3001 2.00 (ecology sections)
 SC/BIOL 3002 3.00 (ecology sections)
 SC/BIOL 3002 2.00 (ecology sections)
 SC/BIOL 3170 3.00
 SC/BIOL 4000 8.00
 SC/BIOL 4070 3.00
 SC/BIOL 4080 3.00
 SC/BIOL 4090 4.00
 SC/BIOL 4095 3.00
 SC/BIOL 4100 3.00
 SC/BIOL 4130 3.00
 SC/BIOL 4230 4.00
 SC/BIOL 4240 4.00
 SC/BIOL 4245 3.00 (cross-listed to: ES/ENVS 4110 3.00)
 SC/BIOL 4250 3.00
 SC/BIOL 4255 3.00 (cross-listed to: ES/ENVS 4111 3.00)
 SC/BIOL 4260 3.00
 SC/BIOL 4265 3.00
 SC/BIOL 4340 3.00
 SC/BIOL 4400 3.00
 SC/BIOL 4420 3.00

Earth and Atmospheric Science

SC/EATS 2010 3.00
 SC/EATS 2470 3.00
 SC/EATS 3030 3.00 (cross-listed to: SC/PHYS 3080 3.00)
 SC/EATS 3040 3.00
 SC/EATS 3130 3.00 (cross-listed to: SC/CHEM 3060 3.00)
 SC/EATS 4050 3.00
 SC/EATS 4051 3.00

SC/EATS 4120 3.00
 SC/EATS 4130 3.00
 SC/EATS 4140 3.00
 SC/EATS 4160 3.00
 SC/EATS 4220 3.00
 SC/EATS 4230 3.00
 SC/EATS 4240 3.00

Geography

- i) All BSc and Honours BSc degree candidates must complete the program core: SC/GEOG 1400 6.00; AP/GEOG 1410 6.00 or AP/GEOG 1000 6.00; SC/GEOG 2400 6.00; SC/GEOG 2420 3.00; SC/GEOG 2500 3.00 or SC/GEOG 2600 3.00 or both SC/GEOG 4205 3.00 and SC/GEOG 4210 3.00.

Note: both SC/GEOG 2600 3.00 and SC/GEOG 2610 3.00 are required for Honours Double Major in geography and earth science; SC/GEOG 4205 3.00 and SC/GEOG 4210 3.00 are required for Honours Double Major in geography and atmospheric science.

- ii) All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to SC/GEOG 1400 6.00 from the program core):
- SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00;
 - six credits from SC/MATH 1505 6.00, SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1025 3.00;
 - 12 credits from SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- at least six credits from science geography courses at the 3000 or 4000 level, for an overall total of at least 30 credits from geography courses;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses and at least 18 credits at the 3000 or higher level.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Specialized Honours Program

- The program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/GEOG 4540 3.00;

- at least 33 additional credits from science geography courses at the 3000 or 4000 level, for an overall total of at least 54 credits from science geography courses (at least 60 from geography courses);
- at least six credits from non-geography science courses at the 2000 or higher level;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Double Major Programs

Honours Double Major BSc programs are offered in Geography and Earth and Atmospheric Science (in either the atmospheric science stream or the earth science stream).

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major;
- for the geography and atmospheric science stream: at least 36 credits from geography courses, including the program core (refer to i) above), SC/GEOG 4540 3.00, and at least three credits from the following courses: SC/GEOG 4000 6.00, SC/GEOG 4310 3.00;

Note: if only three credits are chosen from the list above, three additional credits from geography courses at the 3000 or 4000 level are required.

or

for the geography and earth science stream: at least 36 credits from geography courses, including the program core (refer to i) above), SC/GEOG 4540 3.00, and at least nine credits selected from the following courses: SC/GEOG 4000 6.00, SC/GEOG 4180 4.00, SC/GEOG 4200 3.00, SC/GEOG 4205 3.00, SC/GEOG 4210 3.00, SC/GEOG 4310 3.00, SC/GEOG 4400 3.00, SC/GEOG 4600 3.00;

- the course requirements for the second major;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major/Minor Program

An Honours Major in geography may be combined with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the minor;
- the geography Honours Major requirements below;
- the course requirements for the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Honours Major (for Honours Major/Minor Programs)

- The program core, as specified in i) above;
- SC/GEOG 4540 3.00;
- at least 15 additional credits in science geography courses at the 3000 or 4000 level, for an overall total of at least 42 credits in geography courses.

Honours Minor

- SC/GEOG 1400 6.00;
- AP/GEOG 1410 6.00;
- six credits in science geography courses at the 4000 level;
- at least 12 credits from science geography courses for an overall total of at least 30 credits from geography courses.

Concurrent Certificate in Geographic Information Systems (GIS) and Remote Sensing

Refer to Certificate Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

International Bachelor of Arts (iBA) and Bachelor of Science (iBSc)

The degree builds on the established strengths of the Honours programs, and combines them with general education requirements and other required courses outside the major, most of which will be taken in the Faculty of Liberal Arts and Professional Studies, and a mandatory period of study abroad. The program requires students to acquire an international language and to gain international experience on exchange at one of York University's partner institutions abroad.

The principal components will be the following:

International Bachelor of Arts (Honours)

- a total of 120 credits;
- 30 required credits outside the major, consisting of:
 - 18 credits of language study in one of the modern languages offered at York University, including the Advanced I university-level course in the chosen language;
 - 12 credits of non-science international content courses;
- one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement.

International Bachelor of Science (Honours)

- a total of 120 credits;
- 90 credits in science courses
- 30 required credits outside the major, consisting of:
 - 12 credits of language study in one of the languages offered at York University;
 - 18 credits of non-science international content courses;
- one or two exchange terms abroad as a full-time student at an institution with which York has a formal exchange agreement.

Language Study

Each student will choose a modern language of study as an integral part of the program. The languages are those offered at York University. No prior knowledge of the language is necessary. All entering students will be given a placement test by the Department of Languages, Literature and Linguistics to determine their appropriate course entry level. All students must successfully complete at least the second university-level course in their chosen language. If entering students are placed in a course above the 1000 level, they must successfully complete 12 credits (iBSc) or 18 credits (iBA) in that language; if students have a very high level of competence in the language, so that there are not 12 or 18 credits which they can do, i.e. the students are placed in the 4000 level, they must successfully complete the six credits in that language and the remaining credits of another language. If entering students already have a second-language competency in one of the designated program languages, they must select an additional language.

Students intending to study abroad in a language other than English should also get an assessment of their language ability from a member of the Department of Languages, Literature and Linguistics. Students whose language ability is deemed insufficient for exchange may do their exchange in an English-speaking country or take courses taught in English at a university where English is not the principal language of instruction.

International Exchange (Mandatory)

Every student is required to spend at least one full term abroad at one of York University's exchange partners. While on exchange, students must carry a full-time course load. The exchange should take place during the student's second or third year, depending on the requirements of the specific program, and/or the student's language capacity.

 AP/SOSC 3730 6.00

Notes:

1. *This list indicates types of courses that will fulfill the requirement for courses that focus on a particular country or region or a particular theme. Other relevant courses, including those offered at the Faculties of Environmental Studies, Fine Arts and Glendon, will also be acceptable.*
2. *In order to also meet the general education requirement in the iBSc, courses must be chosen from two different disciplines, i.e. for a focus on Latin America, take at least one history course and at least one political science course.*

The following programs are available:

International Bachelor of Arts (iBA)

Computer science – Honours Major and the Honours Major in the Major/Minor program – refer to Computer Science and Engineering in the Programs of Study section.

International Bachelor of Science (iBSc)

Biology – Specialized Honours (biology stream and conservation ecology stream) – refer to Biology in the Programs of Study section.

Computer science – Honours Major – refer to Computer Science and Engineering in the Programs of Study section.

Mathematics and Statistics

The Department of Mathematics and Statistics offers BA, Honours BA, BSc and Honours BSc degree programs in seven subject areas. Students in the BSc and Honours BSc programs must take courses in laboratory sciences.

- applied mathematics
- computational mathematics (Honours BSc only)
- mathematics
- mathematics for commerce (BA and Honours BA only)
- mathematics for education
- statistics
- international dual degree program (mathematics and statistics) (BSc and Honours BSc only)

The degree programs in each subject area are listed separately below. A student should choose one of these subject areas based on interest and employment goals, but it is possible to change subject areas provided the requirements of the desired subject area can be met.

All Honours degree candidates must complete the mathematics/statistics core: SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00; SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2310 3.00 (refer to program specifications below).

Bachelor of Arts

All BA and Honours BA degree candidates must comply with the general education requirement: 24 credits from humanities, modes of reasoning, natural science and social science (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

All BA and Honours BA degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor of Arts Program (BA)

To graduate in a bachelor program. A minimum cumulative overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BA degree (bachelor program).

Bachelor of Arts Honours Programs (Honours BA)

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Applied Mathematics BA Programs

Bachelor Program (BA)

- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2041 3.00; SC/MATH 2270 3.00; SC/MATH 2310 3.00;
- SC/MATH 3241 3.00; SC/MATH 3260 3.00 or SC/MATH 3170 6.00;
- additional elective credits, as required for an overall total of at least 90 credits, of which at least 18 credits are at the 3000 level or higher, including at least 12 credits in the major.

Specialized Honours BA Program

- The mathematics/statistics core;
- SC/CSE 1560 3.00;
- SC/MATH 2001 3.00; SC/MATH 2041 3.00; SC/MATH 2270 3.00;
- SC/MATH 3001 3.00; SC/MATH 3241 3.00; SC/MATH 3242 3.00; SC/MATH 3410 3.00;
- SC/MATH 3260 3.00 or SC/MATH 3170 6.00;

- at least 12 additional credits selected from mathematics courses without second digit 5 at the 4000 level, for an overall total of at least 60 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours Major, Honours Double Major and Honours Major/Minor BA Program

The Honours Major in applied mathematics may be taken standalone or combined with an Honours Major in another subject area in an Honours Double Major BA or with an Honours Minor in another subject area in an Honours Major/Minor BA program. The double major or major/minor BA may be taken with approved major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The applied mathematics Honours Major requirements below;
- the course requirements for the second major or the minor;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours Major BA Program

- The mathematics/statistics core;
- SC/CSE 1560 3.00;
- SC/MATH 2041 3.00; SC/MATH 2270 3.00;
- SC/MATH 3241 3.00; one of SC/MATH 3242 3.00 or SC/MATH 3260 3.00 or SC/MATH 3170 6.00;
- 12 credits at the 4000 level, selected from mathematics courses without second digit 5, for an overall total of at least 48 credits from major mathematics courses.

Honours Minor BA Program

The Honours Minor in applied mathematics consists of:

- SCCSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2310 3.00;
- six credits chosen from the following: SC/MATH 2041 3.00, SC/MATH 2270 3.00, either SC/MATH 2022 3.00 or SC/MATH 2222 3.00;
- at least 12 additional credits from mathematics courses without second digit 5 at the 3000 level or higher, including at least one of SC/MATH 3170 6.00 or SC/MATH 3241 3.00 or SC/MATH 3260 3.00.

Mathematics BA Programs

Bachelor Program (BA)

- SC/CSE 1560 3.00;
- SC/MATH 1300 3.00 or equivalent; SC/MATH 1310 3.00 or equivalent; SC/MATH 1021 3.00 or equivalent;
- three credits chosen from: SC/CSE/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00, SC/MATH 1200 3.00, SC/MATH 2030 3.00 or SC/MATH 2320 3.00;
- SC/MATH 2022 3.00 or equivalent; SC/MATH 2310 3.00;
- 12 additional credits in mathematics courses without second digit 5 at the 3000 level or higher, for an overall total of at least 30 credits in major mathematics courses;
- additional elective credits, as required for an overall total of at least 90 credits, of which at least 18 credits are at the 3000 level or higher, including at least 12 credits in the major.

Note: students who have taken SC/MATH 1530 3.00 and SC/MATH 1540 3.00 or SC/MATH 1550 6.00 may not take SC/MATH 1300 3.00, but will be considered to have credit for SC/MATH 1300 3.00 and may take SC/MATH 1310 3.00.

Specialized Honours BA Program

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00;
- SC/MATH 3001 3.00; SC/MATH 3010 3.00; either SC/MATH 3020 6.00 or both SC/MATH 3131 3.00 and SC/MATH 3132 3.00;
- six credits chosen from the following: SC/MATH 4000 3.00, SC/MATH 4000 6.00 (projects in pure mathematics), SC/MATH 4001 6.00, SC/MATH 4020 6.00, SC/MATH 4030 3.00, SC/MATH 4080 6.00, SC/MATH 4110 3.00, SC/MATH 4120 3.00, SC/MATH 4130 3.00, SC/MATH 4140 3.00, SC/MATH 4150 3.00, SC/MATH 4160 3.00, SC/MATH 4170 6.00, SC/MATH 4210 3.00, SC/MATH 4230 3.00, SC/MATH 4250 6.00, SC/MATH 4280 3.00, SC/MATH 4290 3.00, SC/MATH 4300 3.00, SC/MATH 4300 6.00, SC/MATH 4430 3.00, SC/MATH 4431 3.00, SC/MATH 4630 3.00, SC/MATH 4730 3.00;
- at least six additional credits in mathematics courses without second digit 5 at the 4000 level (these must include either SC/MATH 4001 6.00 or SC/MATH 4020 6.00 if neither was taken above);
- and 15 additional credits in mathematics courses without second digit 5 for a total of at least 66 credits from major mathematics;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours Major, Honours Double Major and Honours Major/Minor BA Program

The Honours Major in mathematics may be taken standalone or combined with an Honours Major in another subject area in a Honours Double Major BA or with an Honours Minor in another subject area in a Honours Major/Minor BA program. The double major or major/minor may be taken with approved major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

The Honours BA program in Mathematics may be linked with any Honours Double Major Interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. These are: African studies, European studies, Latin American and Caribbean studies, social and political thought, South Asian studies. Students must take at least 42 credits in mathematics and at least 36 credits in the interdisciplinary program. Courses taken to meet mathematics requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in mathematics and six credits in the interdisciplinary program.

Honours BA Program

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00;
- SC/MATH 3001 3.00; SC/MATH 3010 3.00; SC/MATH 3020 6.00 or both SC/MATH 3131 3.00 and SC/MATH 3132 3.00;
- six credits chosen from the following: SC/MATH 4000 3.00, SC/MATH 4000 6.00 (projects in pure mathematics), SC/MATH 4001 6.00, SC/MATH 4020 6.00, SC/MATH 4030 3.00, SC/MATH 4080 6.00, SC/MATH 4110 3.00, SC/MATH 4120 3.00, SC/MATH 4130 3.00, SC/MATH 4140 3.00, SC/MATH 4150 3.00, SC/MATH 4160 3.00, SC/MATH 4170 6.00, SC/MATH 4210 3.00, SC/MATH 4230 3.00, SC/MATH 4250 6.00, SC/MATH 4280 3.00, SC/MATH 4290 3.00, SC/MATH 4300 3.00, SC/MATH 4300 6.00, SC/MATH 4430 3.00, SC/MATH 4431 3.00, SC/MATH 4630 3.00, SC/MATH 4730 3.00;
- six additional credits in mathematics courses without second digit 5 at the 4000 level for a total of 51 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours Minor BA Program

The Honours Minor in mathematics requires:

- SC/MATH 1021 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- three credits chosen from: SC/CSE/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00, SC/MATH 1200 3.00, SC/MATH 2030 3.00 or SC/MATH 2320 3.00;
- SC/MATH 2022 3.00; SC/MATH 2310 3.00;
- 12 additional credits in mathematics courses without second digit 5 at the 3000 level or higher for a total at least 30 credits in mathematics courses.

Notes:

1. In all Honours Mathematics programs, SC/MATH 1021 3.00 and/or SC/MATH 2022 3.00 may be replaced by other linear algebra courses, but if the grade obtained in any such replacement course is below A then one of the following courses must be taken in addition to the Honours requirements noted in each program above: SC/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00 or SC/MATH 2320 3.00.
2. In order to obtain an Honours BA (120 credits), students must take a total of at least 18 credits at the 4000 level, including at least 12 credits at the 4000 level in each Honours Major or Specialized Honours major.

Mathematics for Commerce Programs

Bachelor Program (BA)

Students must complete the following courses or approved substitutes:

- SC/CSE 1520 3.00; SC/CSE 1530 3.00;
- SC/MATH 1550 6.00 or SC/MATH 1530 3.00 and SC/MATH 1540 3.00;
- SC/MATH 2221 3.00; SC/MATH 2222 3.00; SC/MATH 2560 3.00; SC/MATH 2570 3.00; SC/MATH 2580 6.00;
- SC/MATH 3034 3.00 or SC/MATH 3430 3.00; SC/MATH 3170 6.00; SC/MATH 3330 3.00;
- additional elective credits, as required for an overall total of at least 90 credits, of which at least 18 credits are at the 3000 level or higher, including at least 12 credits in the major.

Note: SC/MATH 3033 3.00 may be taken instead of SC/MATH 3330 3.00.

Honours BA Program

The Honours BA program in Mathematics for Commerce has two streams, and students must complete the requirements of one of the streams. The Operations Research Stream (industrial optimization) and the Actuarial Stream (insurance) require more intensive calculus courses than the BA program in Mathematics for Commerce, starting in first year.

Operations Research Stream

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2131 3.00;
- SC/MATH 3034 3.00 or SC/MATH 3430 3.00; SC/MATH 3330 3.00; SC/MATH 3170 6.00;
- SC/MATH 4170 6.00;
- six additional credits in mathematics courses at the 4000 level.

Actuarial Stream

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2131 3.00; SC/MATH 2280 3.00;
- SC/MATH 3131 3.00; SC/MATH 3280 6.00;
- SC/MATH 3330 3.00;
- SC/MATH 4280 3.00; SC/MATH 4430 3.00 or SC/MATH 4431 3.00;
- six additional credits in mathematics courses at the 4000 level.

Honours Minor BA Program

Students must complete the following courses or approved substitutes:

- SC/CSE 1520 3.00;
- SC/MATH 1550 6.00 or SC/MATH 1530 3.00 and SC/MATH 1540 3.00; SC/MATH 1581 3.00; SC/MATH 1021 3.00;
- SC/MATH 2560 3.00; SC/MATH 2570 3.00;
- SC/MATH 3170 6.00; SC/MATH 3330 3.00; SC/MATH 3430 3.00 or SC/MATH 3034 3.00.

Note: in order to obtain an Honours BA (120 credits), students must take a total of at least 18 credits at the 4000 level, including at least 12 credits at the 4000 level in each Honours Major or Specialized Honours major.

Mathematics for Education BA Programs

This is a mathematics program focusing on the needs of students interested in concurrent education or consecutive education with mathematics as a teachable subject.

All Honours BA degree candidates (except Honours Minor) must complete the mathematics/statistics core and SC/CSE 1560 3.00, SC/MATH 4100 3.00.

Specialized Honours BA Program

- one of SC/MATH 2001 3.00, SC/MATH 2131 3.00, SC/MATH 2270 3.00, SC/MATH 2280 3.00;
- SC/MATH 3090 3.00, SC/MATH 3050 6.00;
- SC/MATH 4400 6.00;
- nine additional mathematics credits without second digit 5, at the 3000 level or above, including at least three credits at the 4000 level, for a total of 63 credits in mathematics, of which at least 12 are at the 4000 level;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours Major, Honours Double Major or Honours Major in a Major/Minor BA Program

The Honours Major in mathematics for education may be taken standalone or combined with an Honours Major in another subject area in an Honours Double Major BA or with an Honours Minor in another subject area in an Honours Major/Minor BA program. The double major may be taken with approved major degree programs in the Faculties of Health, Liberal Arts and Professional Studies or Science and Engineering. The major/minor may be taken with approved major degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The mathematics/statistics core;
- SC/CSE 1560 3.00;
- SC/MATH 4100 3.00;
- at least 18 additional mathematics credits without second digit 5, at the 3000 or 4000 level. SC/MATH 3050 6.00, SC/MATH 4400 6.00 and one of SC/MATH 3090 3.00 or SC/MATH 4090 3.00 are recommended. At least nine of these additional mathematics credits must be at the 4000 level;
- a total of 45 credits in mathematics is required, of which at least 12 will be at the 4000 level;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or above, at least 18 of which must be at the 4000 level.

Note: at least three credits within the choices above must be from the list: SC/MATH 2001 3.00, SC/MATH 3050 6.00, SC/MATH 3020 6.00, SC/MATH 3140 6.00, SC/MATH 3260 3.00 or SC/MATH 4160 3.00.

Honours Minor BA Program

- Three credits of computer science, SC/CSE 1560 3.00 is recommended;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;

- SC/MATH 2022 3.00; SC/MATH 2030 3.00;
- at least nine credits of mathematics without second digit 5 at the 3000 or 4000 level, including at least six credits at the 4000 level, to include:
- SC/MATH 4100 3.00 or SC/MATH 4400 6.00
- at least three credits above should be chosen from proof-based courses approved by the director, such as SC/MATH 2001 3.00, SC/MATH 3050 6.00, SC/MATH 3020 6.00, SC/MATH 3140 6.00, SC/MATH 3260 3.00, SC/MATH 4160 3.00.
- a total of 33 credits in mathematics without second digit 5 is required, of which at least six will be at the 4000 level.

Statistics BA Programs

Bachelor Program (BA)

- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2131 3.00; SC/MATH 2310 3.00;
- SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3131 3.00;
- at least three additional credits in mathematics courses at the 3000 or 4000 level with third digit 3, and three additional credits at the 3000 level in mathematics without second digit 5, for a total of at least 39 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 90 credits, of which at least 18 credits are at the 3000 level or higher, including at least 12 credits in the major.

Notes:

1. In the BA program, SC/MATH 2222 3.00 will be accepted as a replacement for SC/MATH 2022 3.00, but it is not recommended.
2. Students who have taken SC/MATH 1530 3.00 and SC/MATH 1540 3.00 or SC/MATH 1550 6.00 may not take SC/MATH 1300 3.00, but will be considered to have credit for SC/MATH 1300 3.00 and may take SC/MATH 1310 3.00.

Specialized Honours BA Program

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00; SC/MATH 2131 3.00;
- SC/MATH 3001 3.00; SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3034 3.00; SC/MATH 3131 3.00; SC/MATH 3132 3.00; SC/MATH 3430 3.00;
- 12 credits in mathematics courses at the 4000 level with third digit 3;
- six additional credits in mathematics courses without second digit 5, for an overall total of at least 66 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, of which at least 36 credits are at the 3000 level or higher, at least 18 of which must be at the 4000 level.

Honours BA Program

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2131 3.00;
- SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3131 3.00; SC/MATH 3132 3.00;
- three credits chosen from: SC/MATH 3034 3.00 or SC/MATH 3430 3.00;
- 12 credits in mathematics courses at the 4000 level with third digit 3.

Note: in the Honours BA program, SC/MATH 2222 3.00 will be accepted as a replacement for SC/MATH 2022 3.00, but is not recommended.

Honours Double Major BA Program

The Honours BA program described above may be pursued jointly with any other Honours bachelor's degree programs in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional

Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

The Honours BA program in Statistics may be linked with any Honours Double Major interdisciplinary BA program in the Faculty of Liberal Arts and Professional Studies. Students must take at least 42 credits in mathematics and at least 36 credits in the interdisciplinary program. Courses taken to meet mathematics requirements cannot also be used to meet the requirements of the interdisciplinary program. Students in these interdisciplinary programs must take a total of at least 18 credits at the 4000 level, including at least 12 credits in mathematics and six credits in the interdisciplinary program.

Honours Major/Minor BA Program

The Honours BA program described above may be pursued jointly with any Honours Minor bachelor's degree program in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. For further details on requirements, refer to the listings for specific Honours programs that may be pursued jointly with other Faculties.

Honours Minor BA Program

The Honours Minor in statistics requires:

- first-year calculus (six credits at the 1000 level without second digit 5);
- SC/MATH 1021 3.00; SC/MATH 1131 3.00;
- SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2131 3.00;
- nine credits in mathematics courses at the 2000 level or higher with third digit 3, for an overall total of at least 30 credits in major mathematics courses.

Notes:

1. Students who have taken SC/MATH 1530 3.00 and SC/MATH 1540 3.00 or SC/MATH 1550 6.00 may not take SC/MATH 1300 3.00, but will be considered to have credit for SC/MATH 1300 3.00 and may take SC/MATH 1310 3.00.
2. SC/MATH 2221 3.00 and SC/MATH 2222 3.00 are not recommended, but will be accepted as course exclusions for SC/MATH 1021 3.00 and SC/MATH 2022 3.00.
3. In order to obtain an Honours BA (120 credits), students must take a total of at least 18 credits at the 4000 level, including at least 12 credits at the 4000 level in each Honours Major or Specialized Honours major.

Bachelor of Science Programs

- ii) All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the 1000-level CSE and MATH requirements specified for their program):
 - 12 credits from SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/MATH 2041 3.00 and SC/MATH 2042 3.00, SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00;
 - additional 1000-level science credits (excluding SC/CHEM 1500 4.00, SC/MATH 1510 6.00, SC/MATH 1515 3.00, SC/MATH 1520 3.00, SC/PHYS 1510 4.00 and all natural science courses) - as required for a total of at least 24 1000-level science credits;
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).

Note: special regulations apply for the international dual degree program in Mathematics and Statistics.

- iii) All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must satisfy the course, credit and standing requirements specified below.

Bachelor Programs

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 (B) biology grade point average is not required where biology is the minor.)

Applied Mathematics BSc Programs

Bachelor Program (BSc)

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2041 3.00; SC/MATH 2270 3.00; SC/MATH 2310 3.00;
- SC/MATH 3241 3.00; SC/MATH 3260 3.00 or SC/MATH 3170 6.00;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses and at least 18 credits at the 3000 or higher level.

Specialized Honours BSc Program

- The mathematics/statistics core;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- SC/MATH 2001 3.00; SC/MATH 2041 3.00; SC/MATH 2270 3.00;
- SC/MATH 3001 3.00; SC/MATH 3241 3.00; SC/MATH 3242 3.00; SC/MATH 3260 3.00 or SC/MATH 3170 6.00; SC/MATH 3410 3.00;
- at least 12 additional credits selected from mathematics courses without second digit 5 at the 4000 level, for an overall total of at least 60 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major, Honours Double Major and Honours Major/Minor BSc Programs

An Honours Major in applied mathematics may be taken standalone or combined with an Honours Major in another subject area in an Honours Double Major BSc degree program or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major or the minor;
- the applied mathematics Honours Major requirements below;
- the course requirements for the second major or the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours BSc Major

- The mathematics/statistics core;
- SC/CSE 1560 3.00;
- SC/MATH 2041 3.00; SC/MATH 2270 3.00;
- SC/MATH 3241 3.00; one of SC/MATH 3242 3.00, SC/MATH 3260 3.00 or SC/MATH 3170 6.00;
- 12 credits at the 4000 level, selected from mathematics courses without second digit 5, for an overall total of at least 48 credits from major mathematics courses.

Honours Minor

- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2310 3.00; two of SC/MATH 2041 3.00, SC/MATH 2022 3.00 (or SC/MATH 2222 3.00), SC/MATH 2270 3.00 (six credits);
- at least 12 more credits, including at least one of SC/MATH 3170 6.00 or SC/MATH 3241 3.00 or SC/MATH 3260 3.00, and the remaining credits from mathematics courses without second digit 5 at the 3000 level or higher, for an overall total of at least 30 credits from major mathematics courses.

Computational Mathematics BSc Program

Specialized Honours BSc Program

- SC/CSE 1020 3.00; SC/CSE 1030 3.00; SC/CSE 2031 3.00; SC/MATH 2041 3.00;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- the mathematics/statistics core;
- SC/MATH 3090 3.00; SC/MATH 4090 3.00;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

In addition, students must choose from one of three areas of concentration, and in each case complete the courses listed:

Applied and Industrial Mathematics

- SC/MATH 2042 3.00; SC/MATH 2270 3.00; SC/MATH 3241 3.00; SC/MATH 3242 3.00; SC/MATH 4141 3.00;
- additional credits, selected from mathematics courses without second digit 5, for an overall total of at least 54 credits from major mathematics courses.

Financial Mathematics

- SC/MATH 2280 3.00; SC/MATH 3170 6.00;
- AP/ECON 1000 3.00; AP/ECON 1010 3.00;
- SC/MATH 4143 3.00;
- additional credits, selected from mathematics courses without second digit 5, for an overall total of at least 54 credits from major mathematics courses.

Actuarial Mathematics

- SC/MATH 2280 3.00; SC/MATH 3280 6.00; SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 4280 3.00; SC/MATH 4430 3.00 or SC/MATH 4431 3.00; SC/MATH 4143 3.00;
- additional credits, selected from mathematics courses without second digit 5, for an overall total of at least 54 credits from major mathematics courses.

Mathematics BSc Programs

Bachelor Program (BSc)

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00 or equivalent; SC/MATH 1300 3.00 and SC/MATH 1310 3.00 or equivalents;

- one of SC/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00, SC/MATH 1200 3.00, SC/MATH 2030 3.00 or SC/MATH 2320 3.00;
- SC/MATH 2022 3.00 or equivalent; SC/MATH 2310 3.00;
- at least 12 credits from major (i.e. without second digit 5) mathematics courses, at the 3000 level or higher, for a total of at least 30 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses and at least 18 credits at the 3000 or higher level.

Honours Programs

Specialized Honours BSc Program

- The mathematics/statistics core;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- SC/MATH 2001 3.00;
- SC/MATH 3001 3.00; SC/MATH 3010 3.00; either SC/MATH 3020 6.00 or both SC/MATH 3131 3.00 and SC/MATH 3132 3.00;
- six credits from: SC/MATH 4000 3.00/SC/MATH 4000 6.00 (projects in pure mathematics), SC/MATH 4001 6.00, SC/MATH 4020 6.00, SC/MATH 4030 3.00, SC/MATH 4080 6.00, SC/MATH 4110 3.00, SC/MATH 4120 3.00, SC/MATH 4130 3.00, SC/MATH 4140 3.00, SC/MATH 4150 3.00, SC/MATH 4160 3.00, SC/MATH 4170 6.00, SC/MATH 4210 3.00, SC/MATH4230 3.00, SC/MATH 4250 6.00, SC/MATH 4280 3.00, SC/MATH 4290 3.00, SC/MATH 4300 3.00, SC/MATH 4300 6.00, SC/MATH 4430 3.00, SC/MATH 4431 3.00, SC/MATH 4630 3.00, SC/MATH 4730 3.00;
- at least six additional credits from major mathematics courses at the 4000 level (these must include either SC/MATH 4001 6.00 or SC/MATH 4020 6.00 if neither was taken above);
- at least 15 additional credits from major (i.e. without second digit 5) mathematics courses, or approved or equivalent courses, for a total of at least 66 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major, Honours Double Major and Honours Major/Minor BSc Programs

An Honours Major in mathematics may be taken stand-alone or combined with an Honours Major in another subject area in an Honours Double Major BSc degree program or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major or the minor;
- the mathematics Honours Major requirements below;
- the course requirements for the second major or the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90⁶ credits from science courses and at least 42 credits at the 3000 or higher level.

Honours BSc Major

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00;
- SC/MATH 3001 3.00; SC/MATH 3010 3.00; either SC/MATH 3020 6.00 or both SC/MATH 3131 3.00 and SC/MATH 3132 3.00;

6. Or at least 66 credits from science courses if the minor is in a fine arts subject area.

- six credits from: SC/MATH 4000 3.00/SC/MATH 4000 6.00 (projects in pure mathematics), SC/MATH 4001 6.00, SC/MATH 4020 6.00, SC/MATH 4030 3.00, SC/MATH 4080 6.00, SC/MATH 4110 3.00, SC/MATH 4120 3.00, SC/MATH 4130 3.00, SC/MATH 4140 3.00, SC/MATH 4150 3.00, SC/MATH 4160 3.00, SC/MATH 4170 6.00, SC/MATH 4210 3.00, SC/MATH4230 3.00, SC/MATH 4250 6.00, SC/MATH 4280 3.00, SC/MATH 4290 3.00, SC/MATH 4300 3.00, SC/MATH 4300 6.00, SC/MATH 4430 3.00, SC/MATH 4431 3.00, SC/MATH 4630 3.00, SC/MATH 4730 3.00;
- at least six additional major (i.e. without second digit 5) mathematics credits at the 4000 level, for a total of at least 51 credits from major mathematics courses.

Honours Minor

- SC/MATH 1021 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- one of SC/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00, SC/MATH 1200 3.00, SC/MATH 2030 3.00 or SC/MATH 2320 3.00;
- SC/MATH 2022 3.00; SC/MATH 2310 3.00;
- at least 12 credits from major (i.e. without second digit 5) mathematics courses, or approved or equivalent courses, at the 3000 or higher level, for an overall total of at least 30 mathematics credits.

Note: in all Mathematics Honours programs, SC/MATH 1021 3.00 and/or SC/MATH 2022 3.00 may be replaced by other linear algebra courses, but if the grade obtained in any such replacement course is below A then one of the following courses must be taken above and beyond the normal Honours requirements: SC/MATH 1019 3.00, SC/MATH 1090 3.00, SC/MATH 1190 3.00, SC/MATH 2320 3.00.

Mathematics for Education BSc Programs

This is a mathematics program focusing on the needs of students interested in concurrent education or consecutive education with mathematics as a teachable subject.

All Honours BSc degree candidates (except Honours Minor) must complete the mathematics/statistics core and SC/CSE 1560 3.00, SC/MATH 4100 3.00.

Specialized Honours BSc Program

- One of SC/MATH 2001 3.00, SC/MATH 2131 3.00, SC/MATH 2280 3.00, or SC/MATH 2270 3.00;
- SC/MATH 3050 6.00; SC/MATH 3090 3.00;
- SC/MATH 4400 6.00;
- nine additional credits from mathematics courses (i.e. without second digit 5) at the 3000 or higher level.

Honours Major, Honours Double Major and Honours Major/Minor BSc Programs

An Honours Major in mathematics for education may be taken stand-alone or combined with an Honours Major in another subject area in an Honours Double Major BSc degree program or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Honours BSc Major

- 18 additional credits selected from SC/MATH courses (without second digit 5) at the 3000 level or higher (SC/MATH 4400 6.00, SC/MATH 3050 6.00 and one of SC/MATH 3090 3.00 or SC/MATH 4090 3.00 recommended);
- proof-based course requirement: at least three credits, which may be within the choices above, selected from the list: SC/MATH 2001 3.00, SC/MATH 3001 3.00, SC/MATH 3020 6.00, SC/MATH 3050 6.00, SC/MATH 3140 6.00, SC/MATH 3260 3.00, SC/MATH 4160 3.00.

Honours Minor

- three credits of computer science (SC/CSE 1560 3.00 recommended);
- SC/MATH 1021 3.00, SC/MATH 1131 3.00, SC/MATH 1200 3.00, SC/MATH 1300 3.00, SC/MATH 1310 3.00;
- SC/MATH 2022 3.00, SC/MATH 2030 3.00;
- at least nine credits from major (i.e. without second digit 5) mathematics courses at the 3000 or higher level including SC/MATH 4100 3.00 or SC/MATH 4400 6.00;
- three credits, which may be among the choices above, selected from proof-based courses approved by the director (such as SC/MATH 3020 6.00, SC/MATH 3050 6.00, SC/MATH 3140 6.00, SC/MATH 3260 3.00, SC/MATH 4160 3.00).

Statistics BSc Programs

Bachelor Program (BSc)

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2022 3.00*; SC/MATH 2030 3.00; SC/MATH 2131 3.00; SC/MATH 2310 3.00;
- SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3131 3.00;
- at least three additional credits from 3000- or 4000-level mathematics courses with third digit 3 for a total of at least 36 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 90 credits, including at least 66 credits from science courses and at least 18 credits at the 3000 or higher level.

**Note: SC/MATH 2222 3.00 will be accepted in lieu of SC/MATH 2022 3.00 in this program, but is not recommended.*

Specialized Honours BSc Program

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00; SC/MATH 2131 3.00;
- SC/MATH 3001 3.00; SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3034 3.00; SC/MATH 3131 3.00; SC/MATH 3132 3.00; SC/MATH 3430 3.00;
- 12 credits from 4000-level mathematics courses with third digit 3;
- six additional credits from major (second digit not 5) mathematics courses, for a total of at least 66 credits from major mathematics courses;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Double Major BSc Program

An Honours Major in statistics may be combined with an Honours Major in another subject area in an Honours Double Major BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major;
- the statistics Honours Major requirements (for Honours Double Major BSc programs) below;
- the course requirements for the second major;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major (Honours Double Major BSc Programs)

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2131 3.00;
- SC/MATH 3033 3.00 or SC/MATH 3330 3.00; SC/MATH 3131 3.00; SC/MATH 3132 3.00;
- six additional credits from 3000- or 4000-level mathematics courses with third digit 3 for an overall total of at least 42 credits from major mathematics courses.

Honours Major and Honours Major/Minor BSc Programs

An Honours Major in statistics may be taken standalone or combined with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the minor;
- the statistics Honours Major requirements (for Honours Major/Minor BSc programs) below;
- the course requirements for the minor;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses and at least 42 credits at the 3000 or higher level.

Honours Major (for Honours Major BSc and Major/Minor BSc Programs)

- SC/CSE 1560 3.00;
- the mathematics/statistics core;
- SC/MATH 2131 3.00;
- SC/MATH 3033 3.00 or SC/MATH 3330 3.00; one of SC/MATH 3034 3.00 or SC/MATH 3430 3.00;
- SC/MATH 3131 3.00; SC/MATH 3132 3.00;
- 12 credits from 4000-level mathematics courses with third digit 3, for an overall total of at least 51 credits from major mathematics courses.

Honours Minor

- First-year calculus (six credits at the 1000 level without second digit 5);
- SC/MATH 1021 3.00*; SC/MATH 1131 3.00;
- SC/MATH 2022 3.00*; SC/MATH 2030 3.00; SC/MATH 2131 3.00;
- nine additional credits from 2000- or higher-level mathematics courses with third digit 3, for an overall total of at least 30 mathematics credits.

**Note: SC/MATH 1025 3.00, SC/MATH 2221 3.00 and SC/MATH 2222 3.00 will be accepted in this program, but are not recommended.*

International Dual Degree in Mathematics and Statistics (BSc and Honours BSc)

In collaboration with the Dipartimento di Matematica Pura ed Applicata at the University of L'Aquila (Italy), the Department of Mathematics and Statistics offers an International Dual Degree program Mathematics and Statistics (BSc and Specialized Honours BSc only). This program is particularly demanding and will be of interest to students with academic performances of B average and better. Students in the program, after two years of study at York, but before the completion of the York degree requirements, will be eligible to study as York international exchange students for up to one year at the University of L'Aquila, earn York credits for specified courses taken at L'Aquila towards their York degree program, and at the same time fulfill the degree requirements for the Laurea di primo livello at L'Aquila, the Italian equivalent of a 90-credit BSc. All exchanges under this program are administered by York International in collaboration with the Ufficio Internazionale at the University of L'Aquila.

Upon completion of the York degree requirements, students of the University of L'Aquila studying as exchange students at York are eligible to earn a York degree in this program.

All BSc and Honours BSc degree candidates must satisfy a specified general education requirement in lieu of the general education requirements of the Faculty of Science and Engineering, as follows. For students whose home university is York, the specified general education requirement consists of: AP/IT 1000 6.00 or equivalent; the course *Lingua e Cultura Italiana* offered by the University of L'Aquila (three York credits) or equivalent; three more credits, in accordance with the general education requirements of the Faculty of Science and Engineering. (Note in particular that for York students in the program, AP/IT 1000 6.00 is exempted from Restriction 2 in the general education requirements of the Faculty of Science and Engineering). For students whose home university is the University of L'Aquila, the specified general education requirement consists of: *Lingua Inglese 1, 2* offered by the University of L'Aquila (six York credits) or equivalent; AP/HUMA 1220 9.00 or equivalent.

Bachelor Program (BSc)

- The specified general education requirement;
- SC/CSE 1530 3.00; SC/CSE 1560 3.00;
- SC/PHYS 1410 6.00;
- SC/MATH 1021 3.00; SC/MATH 1131 3.00; SC/MATH 1200 3.00; SC/MATH 1300 3.00; SC/MATH 1310 3.00;
- SC/MATH 2001 3.00; SC/MATH 2022 3.00; SC/MATH 2030 3.00; SC/MATH 2270 3.00; SC/MATH 2310 3.00; SC/MATH 2320 3.00;
- SC/MATH 3020 6.00; SC/MATH 3170 6.00; SC/MATH 3241 3.00; SC/MATH 3271 3.00; SC/MATH 3410 3.00;
- additional elective credits for an overall total of at least 90 credits.

Specialized Honours BSc Program

- The specified general education requirement;
- SC/CSE 1530 3.00; SC/CSE 1560 3.00;
- SC/PHYS 1410 6.00;
- the mathematics/statistics core;
- SC/MATH 2001 3.00; SC/MATH 2270 3.00; SC/MATH 2320 3.00;
- SC/MATH 3020 6.00; SC/MATH 3170 6.00; SC/MATH 3241 3.00; SC/MATH 3271 3.00; SC/MATH 3410 3.00;
- at least nine additional credits from SC/MATH courses at the 4000 level;
- additional elective credits, as required for an overall total of at least 120 credits, including at least 90 credits from science courses, and at least 42 credits at the 3000 or higher level.

Note: for an up-to-date list of equivalent courses offered at the University of L'Aquila, contact the Department of Mathematics and Statistics.

Physics and Astronomy

Note: the following BSc and Honours BSc degree requirements do not apply to students in the space science stream of Specialized Honours physics and astronomy - for requirements for that stream, refer to Space Science in the Faculty of Science and Engineering Programs of Study section.

- With the exception noted above, all BSc and Honours BSc degree candidates must complete the program core: SC/PHYS 1010 6.00; SC/PHYS 2010 3.00; SC/PHYS 2020 3.00; SC/PHYS 2040 3.00; SC/PHYS 2060 3.00; SC/PHYS 3040 6.00. (*Note: all program core courses require mathematics prerequisites or corequisites.*)
- All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to SC/PHYS 1010 6.00 from the program core):
 - SC/CSE 1540 3.00 or SC/CSE 1020 3.00;
 - SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00;
 - SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 (or six credits from course(s) with laboratories required for the second major or the minor in Honours Double Major BSc or Honours Major/Minor BSc programs - refer to departmental mini-calendars or Faculty checklists);

- 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- All BSc and Honours BSc degree candidates, in accordance with their declared programs, must comply with general regulation 5 or 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

Students may follow a stream emphasizing physics or astronomy.

Students in both streams must take the following courses:

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/MATH 2015 3.00; SC/MATH 2271 3.00.

In addition, there are the following stream-dependent course requirements:

Physics Stream

- SC/PHYS 2213 3.00; SC/PHYS 3090 3.00, SC/PHYS 3220 3.00; SC/PHYS 4061 3.00;
- SC/PHYS 2030 3.00;
- six credits from: SC/PHYS 3010 3.00, SC/PHYS 3020 3.00, SC/PHYS 3030 3.00;
- additional elective credits, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 90 credits.

Astronomy Stream

- SC/PHYS 1070 3.00; SC/PHYS 2070 3.00; SC/PHYS 2213 3.00, SC/PHYS 4270 4.00;
- SC/PHYS 3220 3.00;
- Six credits from: SC/PHYS 3010 3.00, SC/PHYS 3020 3.00, SC/PHYS 3030 3.00, SC/PHYS 3090 3.00;
- additional elective credits, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 90 credits.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed, subject to the exception in the note below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 (B) over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 (B) biology grade point average is not required where biology is the minor.)

Specialized Honours Program

Students may follow a stream emphasizing physics, applied physics or astronomy.

Students in all three streams must take the following courses:

- the program core, as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above;
- SC/PHYS 2030 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00; SC/PHYS 2213 3.00;
- SC/PHYS 3010 3.00; SC/PHYS 3020 3.00; SC/PHYS 3030 3.00; SC/PHYS 3090 3.00, SC/PHYS 3220 3.00; SC/PHYS 4010 3.00; SC/PHYS 4020 3.00; SC/PHYS 4061 3.00.

In addition, there are the following stream-dependent course requirements:

Physics Stream

- two of SC/PHYS 4011 3.00, SC/PHYS 4040 3.00, SC/PHYS 4050 3.00;
- either SC/PHYS 4210 3.00 or SC/PHYS 4062 3.00; and SC/PHYS 4211 3.00;
- three additional credits in PHYS courses at the 3000 level or higher;
- additional elective credits, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 120 credits.

Applied Physics Stream

- SC/PHYS 3050 3.00; SC/PHYS 3150 3.00; SC/PHYS 4050 3.00; either SC/PHYS 4210 3.00 or SC/PHYS 4062 3.00; SC/PHYS 4211 3.00; SC/PHYS 4310 3.00;
- six credits from SC/MATH 3241 3.00, SC/PHYS 3250 3.00, SC/PHYS 3280 3.00, SC/PHYS 4120 3.00, SC/PHYS 4250 3.00;
- additional credits from 3000- and 4000-level science courses, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 120 credits.

Astronomy Stream

- SC/PHYS 1070 3.00; SC/PHYS 2070 3.00; SC/PHYS 3070 3.00; SC/PHYS 4070 3.00; SC/PHYS 4270 4.00;
- SC/PHYS 4210 3.00 or SC/PHYS 4211 3.00; one of SC/PHYS 4011 3.00, SC/PHYS 4040 3.00, SC/PHYS 4050 3.00 or SC/PHYS 4120 3.00;
- one of SC/PHYS 3280 3.00, SC/PHYS 4060 3.00, SC/PHYS 4110 3.00, SC/PHYS 4330 3.00 or SC/EATS 4630 3.00;
- three additional credits from PHYS, EATS or MATH courses at the 3000 level or higher;
- additional elective credits, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 120 credits.

The Department of Physics and Astronomy also offers a Specialized Honours BSc degree stream in space science whose degree requirements are specified in a separate entry in the Faculty of Science and Engineering Programs of Study section.

Honours Major, Honours Double Major and Honours Major/Minor Programs

An Honours Major in physics and astronomy may be taken stand-alone or combined with an Honours Major in another subject area in an Honours Double Major BSc degree program, or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Early planning of courses in all combined programs is strongly advised so that the necessary prerequisites for courses in both departments are met.

- The Faculty of Science and Engineering general education and 1000-level science requirements, as specified in ii) above and including courses appropriate for the second major or the minor;
- the physics and astronomy Honours Major requirements below;
- the course requirements for the second major or the minor;
- additional elective credits, chosen in consultation with the Department of Physics and Astronomy, as required for an overall total of at least 120 credits, including at least 42 credits at the 3000 or higher level.

Honours Major

Students may follow a stream emphasizing physics or astronomy.

Students in both streams must take the following courses:

- the program core, as specified in i) above;
- six credits from SC/PHYS 3010 3.00, SC/PHYS 3020 3.00, SC/PHYS 3030 3.00, SC/PHYS 3090 3.00.

Note: the following courses are required as prerequisites or corequisites for the courses above: SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00.

In addition, there are the following stream-dependent course requirements:

Physics Stream

- SC/PHYS 2213 3.00; SC/PHYS 3220 3.00; SC/PHYS 4061 3.00;
- at least six credits from PHYS courses at the 4000 level, for an overall total of at least 45 credits from PHYS courses;

Astronomy Stream

- SC/PHYS 1070 3.00; SC/PHYS 2070 3.00; SC/PHYS 2213 3.00; SC/PHYS 3220 3.00; SC/PHYS 4270 4.00; for an overall total of at least 46 credits from PHYS courses.

Honours Minor

Students may follow a stream in physics or a stream in astronomy in the minor subject area.

Students in both streams must take the following courses:

- the program core, as specified in i) above;
- three credits from SC/PHYS 3010 3.00, SC/PHYS 3020 3.00, SC/PHYS 3030 3.00, SC/PHYS 3090 3.00.

Note: the following courses are required as prerequisites or corequisites for the courses above: SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00.

In addition, there are the following stream-dependent course requirements:

Physics Stream

- SC/PHYS 2213 3.00; SC/PHYS 3220 3.00; for an overall total of 33 credits from PHYS courses;

Astronomy Stream

- SC/PHYS 1070 3.00; SC/PHYS 2070 3.00; SC/PHYS 2213 3.00; SC/PHYS 3070 3.00 or SC/PHYS 4270 4.00; for an overall total of at least 39 credits from PHYS courses.

Honours BSc Science and BSc Science

The Honours BSc Science and the BSc Science programs have no declared major. These programs are appropriate for a student who wishes to enrol in a broader range of courses at the 3000 and 4000 levels than can normally be undertaken in Honours or BSc programs.

To declare Honours science or BSc science requires successful completion of at least 24 credits and permission of the Faculty honours and BSc science adviser. The candidate is expected to provide a rationale for this choice of program and a study plan. The study plan must conform to Faculty of Science and Engineering general regulations.

To graduate in the Honours Science program requires successful completion of the Faculty 1000-level requirements (refer to general regulation 4 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and the Faculty Honours requirements (refer to general regulation 6 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) excluding the major requirement, and a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed. Further, a minimum of 42 credits must be earned in science courses at the 3000 or higher level.

To graduate in the BSc Science program requires successful completion of the Faculty 1000-level requirements (refer to general regulation 4 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and the Faculty bachelor program requirements (refer to general regulation 5 in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) excluding the major requirement, and a minimum

cumulative credit-weighted grade point average of 4.00 (C) over all courses completed. Further, a minimum of 18 credits must be earned in science courses at the 3000 or higher level.

Science and Technology Studies

- i) All BSc and Honours BSc degree candidates must complete the program core:
 - 12 credits: SC/STS 2411 6.00, SC/STS 4501 6.00.
- ii) All BSc and Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following:
 - three credits from: SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00 or SC/CSE 1020 3.00;
 - six credits from: SC/MATH 1505 6.00, SC/MATH 1013 3.00, SC/MATH 1014 3.00, SC/MATH 1300 3.00, SC/MATH 1310 3.00, SC/MATH 1021 3.00, SC/MATH 1025 3.00; (note that MATH 1013 3.00 and 1300 3.00 are course credit exclusions, as are MATH 1014 3.00 and 1310 3.00)
 - 12 credits from: SC/BIOL 1010 6.00, SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/EATS 1010 3.00 and SC/EATS 1011 3.00, SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00;
 - three credits from: SC/BC 1800 3.00, SC/BIOL 1010 6.00, SC/CHEM 1000 3.00, SC/CHEM 1001 3.00, SC/CSE 1030 3.00 (if SC/CSE 1020 3.00 is completed above), SC/EATS 1010 3.00, SC/EATS 1011 3.00, SC/PHYS 1010 6.00, SC/PHYS 1410 6.00, HH/PSYC 1010 6.00.
- iii) 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iv) All degree candidates must comply with general regulation 5 or 6 (Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and in so doing, must also satisfy the course, credit and standing requirements specified below.
- v) All BSc and Honours BSc degree candidates must complete at least 18 science credits at the 2000 level or higher non-science and technology studies major courses.

Bachelor Program

To graduate in a bachelor program. A minimum overall grade point average of 4.00 (C) is required in order to be eligible to graduate with a BSc degree (bachelor program).

- The program core as specified in i) above;
- the Faculty of Science and Engineering general education and 1000 level science requirements as in ii) and iii) above;
- an additional 18 science and technology studies credits from the STS curriculum courses for a total of a minimum of 30 credits from science and technology studies major courses;
- at least 18 science credits at the 2000 level or higher non-science and technology studies major courses as in v) above;
- additional elective credits as required for a total of at least 90 credits, including at least 66 credits from science courses and of these, at least 18 credits at the 3000 level or higher.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses and a minimum cumulative credit-weighted grade point average of 5.00 over all courses completed, subject to the exceptions in the notes below.

Note: in addition, a minimum cumulative credit-weighted grade point average of 6.00 over all biology courses completed is required to declare, proceed and graduate in (i) the Honours Double Major program where biology is the other major, and (ii) the Honours Major/Minor program where biology is the major. (The minimum 6.00 biology grade point average is not required where biology is the minor.)

Specialized Honours Program

- The program core as specified in i) above;
- the Faculty of Science and Engineering general education and 1000-level science requirements as in ii) and iii) above;
- an additional 42 credits from the approved science and technology studies major courses (for a total of 54 science and technology studies credits);
- at least 18 science credits at the 2000 level or higher non-science and technology studies courses as in v) above;
- additional elective credits as required for a total of at least 120 credits, including at least 90 credits from science courses and of these, at least 42 credits at the 3000 level or higher.

Honours Double Major and Honours Major/Minor Programs

An Honours Major in science and technology studies may be combined with an Honours Major in another subject area in a BSc Double Major degree program, or with an Honours Minor in another subject area in an Honours Major/Minor BSc degree program. Possible subject combinations are listed under Undergraduate Degree Programs in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Students should consult a program adviser to plan their studies in order to meet the program requirements of both subjects and their prerequisites. Such programs are highly demanding and should be carefully considered by any student wishing to undertake this course of study.

- The program core as specified in i) above;
- the Faculty of Science and Engineering general education and 1000 level science requirements as in ii) and iii) above;
- an additional 30 credits from the approved science and technology studies major courses (for a total of 42 science and technology studies credits);
- at least 18 science credits at the 2000 level or higher level non-science and technology studies courses as in v) above;
- the course requirements for the second major or the minor;
- additional elective credits as required for a total of at least 120 credits, including at least 90 credits from science courses* and of these, at least 42 credits at the 3000 level or higher.

**Note: at least 66 credits in science courses if the second major is in liberal arts and professional studies.*

Honours Minor

- The program core as specified in i) above;
- an additional 18 credits from the approved science and technology studies major courses (for a total of 30 science and technology studies credits).

List of Science and Technology Studies Courses

The following courses are cross-listed between the Faculty of Science and Engineering and the Faculty of Liberal Arts and Professional Studies to form the core courses selections for the Science and Technology Studies BSc degree options.

Mandatory for all science and technology studies majors:

SC/STS 2411 6.00
SC/STS 4501 6.00

Options for all science and technology studies majors (number of credits varies for degree type):

SC/STS 2010 6.00
SC/STS 2110 3.00
SC/STS 3500 3.00
SC/STS 3550 6.00
SC/STS 3561 3.00
SC/STS 3600 6.00
SC/STS 3700 6.00
SC/STS 3725 6.00
SC/STS 3726 3.00
SC/STS 3730 6.00

SC/STS 3740 3.00
 SC/STS 3750 6.00
 SC/STS 3755 3.00
 SC/STS 3760 6.00
 SC/STS 3765 3.00
 SC/STS 3770 6.00
 SC/STS 3775 3.00
 SC/STS 3780 6.00
 SC/STS 3790 6.00
 SC/STS 3925 6.00
 SC/STS 3970 6.00
 SC/STS 3975 3.00
 SC/STS 4700 3.00
 SC/STS 4700 6.00
 SC/STS 4710 6.00

Space Science

The Department of Earth and Space Science and Engineering offers a Specialized Honours degree stream in space science. After completing a two-year foundational curriculum, space science students may choose one of two options: the first, which focuses upon the observation of the earth and atmosphere from space, is provided by the Department of Earth and Space Science and Engineering, through the Earth and Atmospheric Science program; the second, which focuses upon space astronomy and space exploration, is provided by the Department of Physics and Astronomy, through the Physics and Astronomy program. Students in the second option would transfer to physics and astronomy. Courses for the third and fourth years for each option are noted below.

- i) All Honours BSc degree candidates must complete the space science foundational core at 1000 and 2000 levels:
 - SC/CHEM 1000 3.00 or SC/CHEM 1001 3.00; SC/CSE 1020 3.00; SC/EATS 1010 3.00; SC/EATS 1011 3.00; SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/PHYS 1010 6.00; SC/PHYS 1070 3.00;
 - Note: alternatively the first year engineering core would be an acceptable substitute.*
 - SC/CSE 2501 1.00; SC/EATS 2030 3.00; SC/EATS 2470 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00; SC/PHYS 2010 3.00; SC/PHYS 2020 3.00; SC/PHYS 2030 3.00; SC/PHYS 2040 3.00; SC/PHYS 2060 3.00; SC/PHYS 2213 3.00.
- ii) All Honours BSc degree candidates must comply with general regulation 4 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) by completing the following (in addition to the 1000-level courses specified in the program core):
 - 12 general education credits (refer to General Education Requirements in the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section).
- iii) All Honours BSc degree candidates, in accordance with their declared program, must comply with general regulation 6 (refer to the Faculty of Science and Engineering Regulations Governing Undergraduate Degree Requirements section) and, in so doing, must also satisfy the course, credit and standing requirements specified below.
- iv) All Honours BSc degree candidates are encouraged to complete a non-credit industrial internship (normally salaried). This provides experience in a four-month to 12-month placement, normally after the third year of study.

Honours Programs

To graduate in an Honours program requires successful completion of all Faculty requirements and departmental required courses, a minimum cumulative credit-weighted grade point average of 5.00 (C+) over all courses completed.

Specialized Honours in Earth and Atmospheric Science

- The space science foundational core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/EATS 3030 3.00 (cross-listed to: SC/PHYS 3080 3.00); SC/EATS 3040 3.00 SC/EATS 3280 3.00 (cross-listed to: SC/PHYS 3280 3.00); SC/EATS 3300 3.00; SC/EATS 3610 4.00 (cross-listed to: SC/ENG 3110 4.00); SC/MATH 3241 3.00; SC/MATH 3271 3.00; SC/PHYS 3310 3.00;
- SC/EATS 4020 3.00 (cross-listed to: SC/PHYS 4060 3.00) or SC/PHYS 4250 3.00; SC/EATS 4220 3.00; SC/EATS 4230 3.00; SC/EATS 4630 3.00; (cross-listed to: SC/ENG 4130 3.00);
- at least 12 credits from: SC/EATS 4000 3.00, SC/EATS 4130 3.00, SC/EATS 4140 3.00, SC/EATS 4160 3.00, SC/EATS 4610 3.00 (cross-listed to: SC/ENG 4110 3.00), SC/PHYS 4110 3.00, SC/PHYS 4330 3.00, SC/PHYS 4360 3.00 (cross-listed to: SC/ENG 4360 3.00);
- additional elective credits, approved by the Department of Earth and Space Science and Engineering, as required for an overall total of at least 120 credits.

Specialized Honours in Physics and Astronomy

- The space science foundational core, as specified in i) above;
- the Faculty of Science and Engineering general education requirements, as specified in ii) above;
- SC/PHYS 3020 3.00; SC/PHYS 3040 6.00; SC/PHYS 3070 3.00; SC/PHYS 3250 3.00; SC/PHYS 3280 3.00 (cross-listed to: SC/EATS 3280 3.00);
- at least three credits from: SC/PHYS 3050 3.00, SC/PHYS 3220 3.00
- three credits from: SC/PHYS 3010 3.00, SC/PHYS 3030 3.00, SC/PHYS 3050 3.00, SC/PHYS 3080 3.00 (cross-listed to: SC/EATS 3030 3.00), SC/PHYS 3090 3.00, SC/PHYS 3150 3.00, SC/PHYS 3220 3.00, SC/PHYS 3310 3.00 (cross-listed to: SC/ENG 3310 3.00), other courses approved by the Department of Physics and Astronomy;
- SC/PHYS 4110 3.00; SC/PHYS 4330 3.00 (cross-listed to: SC/ENG 4330 3.00); SC/PHYS 4350 6.00 (cross-listed to: SC/ENG 4350 6.00);
- at least 11 credits from: SC/EATS 4610 3.00 (cross-listed to: SC/ENG 4110 3.00), SC/PHYS 4010 3.00, SC/PHYS 4020 3.00, SC/PHYS 4040 3.00, SC/PHYS 4050 3.00, SC/PHYS 4070 3.00, SC/PHYS 4120 3.00, SC/PHYS 4270 4.00, SC/PHYS 4310 3.00, SC/PHYS 4360 3.00 (cross-listed to: SC/ENG 4360 3.00), SC/PHYS 4410 3.00.

Osgoode Hall Law School

About Osgoode

Osgoode Hall Law School of York University is committed to setting the standard for excellence in legal education and legal scholarship. We take pride in our internationally renowned faculty, outstanding students, dedicated staff and dynamic alumni. Our innovative teaching program fosters a strong foundation in legal reasoning, diverse perspectives on law, and an understanding of law's transformative role in promoting a just society. Osgoode produces original and significant legal scholarship, and prepares its graduates for leadership and service within the profession and beyond.

Per legem ad justitiam: Through law to justice.

The Faculty

Osgoode students have the opportunity to work with some of Canada's brightest and most distinguished legal minds. Many of Osgoode's full-time faculty members have achieved national and international distinction. Renowned as productive and innovative scholars, they are also frequently called upon for public service, as members of public commissions and tribunals, and as advisers on vital and challenging issues. Members of faculty are committed teachers and have developed innovative teaching programs, providing students with a wide range of challenging learning experiences. The teaching program is enriched by the participation of more than 40 part-time faculty, drawn from other disciplines and from the Bench and Bar, who contribute their specialized expertise and applied lawyering skills.

The Student Body

The law school attracts a large, diverse and exceptionally talented student body, not only from Ontario, but from all regions of Canada and beyond. Through its regular admissions program, the law school accepts students with excellent academic records, many of whom have graduate degrees in other disciplines. In recent years, this group of students has become increasingly diverse, reflecting the changing demographic makeup of Canadian society. In addition, the law school offers special admission programs, providing a more comprehensive assessment of an applicant's capability to benefit from a legal education. The law school's admissions programs, supported by substantial entrance scholarships and bursaries, ensure excellence and rich diversity among our student body and among our graduates, who bring their varied backgrounds and experience to diverse careers in the legal profession, government, business and academe.

The Curriculum

The law school's size enables it to offer an exceptionally rich and varied curriculum with opportunities to explore theoretical and policy perspectives integrated with substantive law, legal analysis and lawyering skills in a wide range of subject areas. With approximately one hundred and sixty courses, seminars and special programs available, students can select an academic program substantially tailored to their own academic interests and career aspirations. The law school offers a number of special academic programs. The Intensive Program in Poverty Law at Parkdale Community Legal Services enables students to spend a term studying and working under the supervision of a team of academics, practising lawyers and community workers within a community clinic oriented to law reform. The law school also offers advanced intensive programs with clinical placements in criminal law, in immigration and refugee law, and in lands, resources and First Nations governments. As well, the school offers the Advanced Business Law Workshop and clinical programs in Trial Advocacy, Appellate Mooting, Legal Drafting and Negotiation. Other clinical opportunities include the Small Business Law Clinic (providing advice and assistance to referred individuals who are establishing small businesses), the Innocence Project (providing assistance to the wrongfully convicted) and the Mediation Project (training students who provide mediation services at the Small Claims Court). Students who seek to study

the law in action, to develop lawyering skills, to engage in law reform and to understand the law from a theoretical and policy perspective, will find unique learning opportunities at Osgoode Hall Law School.

Joint Programs and Exchanges

Osgoode offers joint degree programs with other Faculties at York University: the JD/MBA with the Schulich School of Business and the JD/MES with the Faculty of Environmental Studies. As of September 2006, Osgoode also offers a four year joint degree program with the New York University School of Law, leading to the Canadian Osgoode JD and American NYU JD. In 2007, the law school introduced a further program with NYU, allowing students to obtain the degrees of JD (at Osgoode) and LLM (at NYU). In addition, an exchange program with the Faculté de droit, Université de Montréal enables Osgoode students to study at Montréal for one semester, which is credited to the student's program at Osgoode, or for one year, following graduation, to qualify for a civil law degree. Various international exchange programs, including with law schools in Australia, China, France, Japan, England, Ireland, Germany, Copenhagen and Italy, enable Osgoode faculty and students to study or visit abroad.

Research

Members of the Osgoode faculty are among the most productive and distinguished legal scholars in Canada, pursuing ambitious and diverse research programs. Students are instructed in the special techniques of legal research and writing which are essential to the educated lawyer. There are opportunities to undertake research in satisfaction of some course requirements as well as opportunities for qualified students to engage in intensive supervised research programs. Students also participate in the editing of the Osgoode Hall Law Journal and act as research assistants to members of faculty. The research enterprise of faculty and students is supported by the largest law library in the Commonwealth, equipped with two computer laboratories and drawing increasingly on new technology. A number of research centres and research initiatives at the law school provide a focus for collaborative research: the Institute for Feminist Legal Studies, the Jack and Mae Nathanson Centre on Transnational Human Rights, Crime and Security, <http://www.TheCourt.ca> (an online resource for debate and data about the Supreme Court of Canada), the Cities Research Laboratory for Multimedia Research on World Class Cities and Globalization, the Comparative Research in Law & Political Economy Network, NIHERNET (York-Nigerian Human Rights Education and Research Network) and the Law Commission of Ontario.

Technology

Osgoode Hall Law School is at the leading edge in the development and use of technology in teaching, learning and researching the law. Osgoode has five large electronic classrooms, complete with video and audio conferencing capabilities. All students receive a personalized Osgoode e-mail address, which remains with them even after graduation. As well, students have access to the My Osgoode portal, <http://osgoode.yorku.ca/myosgood2.nsf/defaultViewTemp?OpenForm>, which connects them to course Web sites, and makes course outlines, schedules and materials available electronically together with chat rooms and workspace. A number of the law school's administrative services, including Career Services, are available via the Web through the portal. The entire law school features wireless Internet connectivity for students with laptop computers. Two computer labs, with a total of 80 computer stations, are available to students in the library. Students now have the option to participate in a comprehensive E-exam program, in which students could elect to either handwrite or type their exams on their personal laptop computers or using one of the computers in Osgoode's computer labs. Technology is changing the way lawyers work. An Osgoode legal education prepares students to learn and work effectively in the information age.

Extracurricular Programs

Much of the life of the law school is focused on extracurricular programs. Osgoode is fortunate each year to attract visitors distinguished in public, professional and academic life who address the law school community in endowed lectureships and in programs organized by student groups. There is substantial representation of students in the decision making processes of the law school through the Student Caucus, and an active student government known as the Legal and Literary Society. One third of the student body lives on campus, providing a strong base for participation in a broad range of extracurricular programs. More than 300 students contribute as volunteers in CLASP, the student-run legal aid clinic, operating at the school. Others speak to community groups and high school students on legal issues. The student newspaper, *Obiter Dicta*, is published weekly. Talented students write, perform and produce an annual musical review, the Mock Trial. Students assist in editing the Osgoode Hall Law Journal, a distinguished academic journal. Through competition, students are selected to represent Osgoode in interschool mooted competitions in which Osgoode students excel. Osgoode also offers undergraduate students the opportunity to participate in a mooted competition every March, through its Osgoode Cup National Undergraduate Mooted Competition. York students have done very well over the five years of the competition, earning first place in 2005 and 2007 and second place in 2009!

There is a full range of athletic teams and activities including the Touch Football League which attracts broad participation. As well, there is a variety of organizations such as the Black Law Students Association, the Business Law Society, the Health Law Society, the Environmental Law Society, the First Nations Law Students Association, the Law Union, the International Law Society, Women's Caucus and a variety of political and other clubs. These varied activities enrich students' experience by providing opportunities for personal growth, community outreach and collegial activity. Osgoode Hall Law School thus provides a multifaceted educational environment in which students with an aptitude for the study of law may test and develop their intellectual powers, their understanding and their skills to prepare for a broad range of stimulating careers, whether in private practice, policy development, public administration, business, government, politics, social activism, the judiciary or the university.

Schulich School of Business - Keele Campus

**Bachelor of Business Administration (BBA)/
International Bachelor of Business Administration (iBBA)**

Schulich School of Business

Bachelor of Business Administration (BBA) / International Bachelor of Business Administration (iBBA)

Schulich's two undergraduate programs offer students a challenging and rewarding full-time course of study. Schulich's students develop critical and analytical skills and acquire a solid foundation in business concepts. Admission to the BBA and iBBA programs requires both high academic achievement and demonstrated leadership in extra-curricular activities.

BBA: A Business Degree with the Option to Specialize

At Schulich, the four-year Honours BBA degree involves an essential base of management studies that encompasses more than the traditional focus on commerce and economics. Students study business from day one with first-year courses in business ethics, business history, organizational behaviour, accounting, economics. By carefully selecting management elective courses, you can specialize in one or more areas of business.

iBBA: A Business Degree with a Global Perspective

The iBBA lets you immerse yourself in international business studies and language skills. In addition to studying a broad base of business courses, iBBA students include three years of language study, globally-focused study courses, and an exchange term to their academic experience.

The Learning Environment

Schulich's programs are limited in size so that you will receive the attention necessary to fully realize your potential. Schulich uses a variety of teaching methods including case studies, small group discussions and lectures.

Study Abroad

In the BBA program you will have the option of studying on an international exchange for one or two semesters during your third or fourth year. For iBBA students, an international exchange is a required part of the program. All exchanges are at one of our 49 partner institutions.

The Schulich Career Development Centre

The centre provides career days, workshops, and company information sessions. It also posts openings for part-time, summer and full-time employment on its Web site.

Careers

Schulich's Career Development Centre will assist you with career management training. Its industry-specific counsellors offer you services ranging from one-on-one advising to recorded mock interview sessions. You will increase your self-awareness in terms of your business interests, strengths and weaknesses. At the same time, you will learn how to research thoroughly your industry and companies of choice.

Supplementary Admission Information Form

All applicants must complete a supplementary admission information form, which is used to assist us in assessing your potential to benefit from and contribute to Schulich's programs. It is strongly encouraged that applicants visit the Schulich Web site at <http://www.schulich.yorku.ca/newbbaibba> to download the supplementary form.

For More Information

Contact the Undergraduate Programs Unit at 416-736-5081, undergrad@schulich.yorku.ca or visit their Web site at <http://www.schulich.yorku.ca>.

A. Asgary, K. Bewley, Y. Chuang, A. Dasci, S. Deutsch-Salamon, B.G. Gaber, K. Ho, R. Hoffman, L. Karakowsky, M. Karakul, S. Kwon, L. Li, W.W. Lim, K.G. Macdonald, J.E. Magee, M.F. Maute, K.J. McBey, N. Nirupama, H. Qudrat-Ullah, J. Richardson, M.L. Ripley, C. Robinson, M. Schwartz, K. Snow, G. Spraakman, A. Strebinger, S. Yildirim

Assistant Professors:

A. Alwathainani, P.F. Carbonell, S. Ding, D. Etkin, K. P. Evans, P. Gelinias, F. Gzara, R. Huang, T. Hwong, J. Jones, L. Lai, R. Leblanc, K. Lehrer, X. Li, R. Ophir, S. Peng, M. Porporato, A. Rusetski, C. Sanchez-Rodriguez, E. Schraa, J. Shen, A. Solis, I. Spletstoesser-Hogeterp, I. Suk, N. Tahani, K. Thomson, F. Toyasaki, P. Tsisis, N. Waweru, P. Wayne

Lecturers:

D. Doorey, E. LaRegina, K. Ogata

Sessional Lecturers:

J. Fleming, S. Iacobelli, L. King, S. Scott

Full Professor Emeriti:

V. MacKinnon

Associate Professor Emeriti:

W.F. Cavanagh, C. Gary, J.C.C. Macintosh

Assistant Professor Emerita:

J.E. Nicholson

Courses in Administrative Studies

AP/ADMS 1000 3.00 Introduction to Administrative Studies. This course provides an overview of the context within which modern organizations operate. The course will examine the development of organizational and managerial theories. A number of contemporary issues and the organizational responses will be discussed. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 1000 3.00, AK/ADMS 2000 3.00 (prior to Summer 1997), AK/ADMS 2000 6.00 (prior to Fall/Winter 1997-1998), AK/ADMS 2010 3.00 (prior to Summer 1994).

AP/ADMS 1010 3.00 Business in the Canadian Context. An examination of the interaction between business and government. The impact of key public sector institutions and policies on business practices and strategic decision making and current political, economic and legal issues in the Canadian context are addressed. Prerequisite: AP/ADMS 1000 3.00. Course credit exclusions: None. PRIOR TO FALL 2009:

Prerequisite: AK/ADMS 1000 3.00. Course credit exclusions: AK/ADMS 1010 3.00, AK/ADMS 2410 3.00 (prior to Summer 1999), AK/ADMS 2420 3.00 (prior to Summer 1997), AK/ADMS 2430 3.00 (prior to Summer 2005).

AP/ADMS 1500 3.00 An Introduction to Accounting: The Analysis and Use of Financial Information. An introduction to accounting covering basic concepts in financial accounting, managerial accounting and finance and their interrelationships. This course satisfies a curriculum requirement of the Human Resources Professional Association of Ontario. Note: This course does not qualify towards the BAS degree. Course credit exclusions: AP/ADMS 2500 3.00, AP/ADMS 2510 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 1500 3.00, AK/ADMS 2500 3.00, AK/ADMS 2510 3.00.

AP/ADMS 2200 3.00 Introductory Marketing. Covers the fundamentals of marketing theory, concepts and management as applied to marketing's strategic role in meeting customer needs, including product (goods and services), price, promotion, distribution, consumer, segmentation, positioning, ethics, research. Includes the creation of an actual marketing plan. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 2200 3.00, AK/ADMS 3200 3.00 (prior to Summer 2005).

AP/ADMS 2300 6.00 Research Methods in Health Studies. This is an introductory course in health care research from an epidemiological perspective. The purpose of this course is to focus on research design; methodological problems and issues; and specific statistical approaches used to analyze this type of research. Prerequisite: SC/MATH 1710 6.00 or SC/MATH 1720 6.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/MATH 1710 6.00 or AK/MATH 1720 6.00. Course credit exclusions: AK/ADMS 2300 6.00, AK/NURS 2700 6.00 (prior to Summer 1997).

AP/ADMS 2320 3.00 Quantitative Methods I. An integrated approach to analyzing business problems from various functional areas. Practical business problems are analyzed using quantitative techniques including probability, statistical inference, estimation and regression as well as non-parametric approaches. Prerequisites: AP/ADMS 1000 3.00; one 12U mathematics course or equivalent. Course credit exclusion: AP/ECON 2500 3.00. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00; one 12U mathematics course or equivalent. Course credit exclusions: AK/ADMS 2320 3.00, AK/ADMS 3320 3.00 (prior to Summer 2005), AK/ECON 3470 3.00.

AP/ADMS 2400 3.00 Introduction to Organizational Behaviour. Introduces concepts of individual and group behaviour as they affect performance in organizations. Topics covered include motivation, communication, decision-making, leadership and structural issues. Lectures and case discussions are employed to develop theoretical models and illustrate their use. Prerequisite: AP/ADMS 1000 3.00. Note: AP/ADMS 1000 3.00 cannot be taken concurrently with AP/ADMS 2400 3.00. Course credit exclusion: HH/PSYC 3570 3.00. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00. Course credit exclusion: AK/ADMS 2400 3.00, AK/AS/HH/SC PSYC 3570 3.00 (previously AK/PSYC 3230 3.00).

AP/ADMS 2500 3.00 Introduction to Financial Accounting. An overview of the accounting discipline, useful to both majors and non-majors. Includes accounting history, the uses of accounting information in personal and business contexts and the rudiments of financial reporting. Note: AP/ADMS 1000 3.00 is not a prerequisite for AP/ADMS 2500 3.00, but is strongly recommended. Course credit exclusions: AP/ADMS 1500 3.00, AP/ECON 3580 3.00, GL/ECON 2710 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 1500 3.00, AK/ADMS 2500 3.00, AS/ECON 3580 3.00, GL/ECON 2710 3.00.

AP/ADMS 2510 3.00 Introduction to Management Accounting. Managers require relevant information for planning, controlling and decision-making purposes. This course examines the accounting techniques available to satisfy those needs. Prerequisites: One 12U mathematics course or equivalent, AP/ECON 1000 3.00; AP/ADMS 2500 3.00. Course credit exclusions: AP/ADMS 1500 3.00, GL/ECON 2720 3.00. PRIOR TO FALL 2009: Prerequisites: AK/MATH 1710 6.00; AK/

ECON 1000 3.00; AK/ADMS 2500 3.00. Course credit exclusions: AK/ADMS 1500 3.00, AK/ADMS 2510 3.00, AK/ADMS 2520 3.00 (prior to Summer 1997), AS/ECON 3590 3.00, GL/ECON 2720 3.00.

AP/ADMS 2511 3.00 Management Information Systems. Overview of information systems and technology: how information systems are selected, designed and managed to provide information needed to run organizations successfully. Topics include the strategic role of information systems; ethical considerations; technology; information systems risks; and security control considerations. Prerequisite: AP/ADMS 1000 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00. Course credit exclusions: AK/ADMS 2511 3.00, AK/ADMS 3511 3.00 (prior to Summer 2005).

AP/ADMS 2600 3.00 Human Resources Management. This course examines a number of issues in Canadian human resources management including: human resources planning, recruitment, selection, performance appraisal, industrial relations, and training and development. Prerequisite: AP/ADMS 1000 3.00 (students in the BAS/BHRM programs may take AP/ADMS 1000 3.00 concurrently with AP/ADMS/HRM 2600 3.00). Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00 (students in the BAS/BHRM programs may take AK/ADMS 1000 3.00 concurrently with AK/ADMS 2600 3.00). Course credit exclusions: AK/ADMS 2600 3.00, AK/ADMS 3480 3.00 (prior to Summer 2001).

Cross-listed to: AP/ADMS 2600 3.00, AP/HRM 2600 3.00

AP/ADMS 2610 3.00 Elements of Law: Part One. Seeks to give insight into the role of the lawyer in relation to that of the judge, legislator and administrator in molding the law. Against this general background various legal principles and theories are examined so as to equip the student to analyze and define legal issues. Prerequisite: AP/ADMS 1000 3.00. Course credit exclusion: AP/POLS 3165 6.00. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00. Course credit exclusions: AK/ADMS 2610 3.00, AK/ADMS 3610 3.00 (prior to Summer 2005), AS/ECON 4500 3.00.

AP/ADMS 3000 3.00 Directed Reading. A reading and research course suited to students with special interests. Students will select areas of study in consultation with an appropriate faculty member. Prerequisites: 78 credits including AP/ADMS 1000 3.00, AP/ECON 1000 3.00, AP/ECON 1010 3.00, and six credits in management science, or, for students with equivalent preparation, permission of the Director of the School of Administrative Studies. Note: Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 1000 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00, and six credits in management science, or, for students with equivalent preparation, permission of the Director of the School of Administrative Studies. Course credit exclusion: AK/ADMS 3000 3.00.

AP/ADMS 3000 6.00 Directed Reading. A reading and research course suited to students with special interests. Students will select areas of study in consultation with an appropriate faculty member. Prerequisites: 78 credits including AP/ADMS 1000 3.00, AP/ECON 1000 3.00, AP/ECON 1010 3.00, and six credits in management science, or, for students with equivalent preparation, permission of the Director of the School of Administrative Studies. Note: Students must be accepted by a faculty supervisor before they can register in this course. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 1000 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00, and six credits in management science, or, for students with equivalent preparation, permission of the Director of the School of Administrative Studies. Course credit exclusion: AK/ADMS 3000 6.00.

AP/ADMS 3010 0.00 Marketing Internship. Provides qualified students with the opportunity to work full-time in the marketing field as part of their degree program. The Atkinson Experiential Education Office will coordinate a specific internship placement for students. Prerequisites: 1) Completion of at least 12.00 marketing credits including AP/ADMS 2200 3.00 and AP/ADMS 3220 3.00 and a grade point average of B+ (7.00) in the marketing courses completed. 2) Open only to students in BAS Marketing Honours stream. Note 1: The Experiential Education Office will select from those with the prerequisites who apply. Note 2: The Experiential Education Office will provide selected applicants with instructions as to how and when to enrol in the course. Note 3: Successful applicants will have 15 credits remaining to complete their Honours degree upon enrolment to the internship program. Note 4: A student's grade in AP/ADMS 3010 0.00 will be recorded as a pass or fail on his/her transcript. Note 5: Students are required to register in this course every term for his/her internship. A maximum of four terms is permitted. Note 6: The Experiential Education Office will ensure that students are aware of the work-term report requirements and due dates. Note 7: Every student registered in the course will be assigned a faculty supervisor who will select a T.A. to assess the work-term reports. The marketing area has committed a budget of up to one hour of T.A. time for each enrolled student to enable marking of the reports. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) Completion of at least 12.00 marketing credits including AK/ADMS 2200 3.00 and AK/ADMS 3220 3.00 and a grade point average of B+ (7.00) in the marketing courses completed. 2) Open only to students in BAS Marketing Honours stream. Course credit exclusion: AK/ADMS 3010 0.00.

AP/ADMS 3120 3.00 Gender Issues in Management. Uses feminist principles and pedagogy to examine gender issues relevant to managing career and life, including for example pay equity, harassment, stereotyping, power and assertiveness, diversity, mentoring, self-care and balance, with the goal of understanding issues and effecting change. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 3120 3.00, AK/ADMS 3130G 3.00 (prior to Summer 1993).

AP/ADMS 3220 3.00 Applied Marketing Management. This course explains how to develop a marketing plan. Case studies are used to give practice in analyzing opportunities and implementing marketing plans. A major field project is a critical part of this course. Prerequisite: AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 3220 3.00.

AP/ADMS 3280 3.00 Contemporary Issues in Marketing. Students consider everyday practical issues as exemplified in readings from business newspapers and relate them to classic marketing theory articles. Includes issues such as the environment, ethics and gender. May involve group and individual discussion and participation. Prerequisite: AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 3280 3.00.

AP/ADMS 3300 3.00 Decision Analysis. This course provides an introduction to decision analysis under conditions of certainty, uncertainty, risk and competition. Both single person and group decision making are covered. Problems from many areas of managerial decision making are considered. Prerequisites: AP/ADMS 2400 3.00; AP/ECON 1000 3.00, AP/ECON 1010 3.00; and AP/ADMS 2320 3.00 or AP/ECON 2500 3.00 and AP/ECON 3480 3.00. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2400 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00, and AK/ADMS 2320 3.00, AK/ADMS 3320 3.00 (prior to Summer 2005) or (AK/ECON 3470 3.00 and AK/ECON 3480 3.00). Course credit exclusion: AK/ADMS 3300 3.00

AP/ADMS 3330 3.00 Quantitative Methods II. This course continues with a case-oriented approach to quantitative business analysis and research methodologies. Statistical techniques, operations research techniques such as linear programming and modeling, metric and non-metric data analysis are amongst the techniques used. Prerequisite: AK/

ADMS 2320 3.00 PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 3330 3.00.

AP/ADMS 3331 3.00 Introduction to Operations Research. Operations research techniques such as linear programming, non-linear programming, integer programming and network modeling have found widespread use in business administration. This course provides not only an introductory mathematical treatment of these tools but also their applications to business problems. Prerequisites: AK/ADMS 1000 3.00; one 12 U Mathematics among MHF4U - Advanced Functions or MCV4U - Calculus and Vectors, or equivalent; or permission of the instructor. Course credit exclusion: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00; one 12 U Mathematics among MHF4U - Advanced Functions or MCV4U - Calculus and Vectors, or equivalent; or permission of the instructor. Course credit exclusions: AK/ADMS 3331 3.00; AK/ADMS 3351 3.00 (prior to Fall 2005), AK/AS/SC/MATH 3170 6.00.

AP/ADMS 3345 3.00 Systems Thinking and Modeling for Management. Introduces system dynamics, a dynamic modeling and simulation based study of managerial problems. Focuses on the construction and application of qualitative causal loop diagrams and quantitative simulation models of dynamic decision making to better manage the business enterprises. Prerequisites: AP/ADMS 2320 3.00 or (AP/ECON 2500 3.00 and AP/ECON 3480 3.00). PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005) or (AK/ECON 3470 3.00 and AK/ECON 3480 3.00). Course credit exclusion: AK/ADMS 3345 3.00

AP/ADMS 3350 3.00 Bayesian Inference and Decision Making. This course takes a quantitative approach to decision making, including coverage of Bayesian inference, decision theory, prior, posterior and preposterior analysis using discrete and continuous distributions. Emphasis is given to understanding concepts and the use and application to administration. Prerequisite: AP/ADMS 2320 3.00 PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusions: AK/ADMS 3350 3.00; AK/ECON 3110 3.00 (prior to Summer 2004); AK/MATH 2750 3.00 (prior to Summer 2004).

AP/ADMS 3351 3.00 Operations Management. Management of operations in today's business environment usually involves mathematical and statistical modeling. This course provides a working understanding of the operations management models and techniques such as process analysis, quality management, aggregate planning, inventory control, and material requirements planning. Prerequisite: AP/ADMS 2320 3.00. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2320 3.00, AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusions: AK/ADMS 3351 3.00.

Cross-listed to: AP/ADMS 3351 3.00, AP/ECON 3120 3.00

AP/ADMS 3352 3.00 Sampling Techniques and Survey Design. This course deals with different sampling techniques and their applications to management problems. Survey design, pilot surveys, use of focus groups, in-person interviews, mail surveys and polling, will also be dealt with. Prerequisite: AP/ECON 2500 3.00 or AP/ADMS 2320 3.00, or, for students with equivalent preparation, permission of the coordinator. Note: This course counts as an elective in an economics major. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ECON 3470 3.00 or AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005), or, for students with equivalent preparation, permission of the coordinator. Course credit exclusion: AK/ADMS 3352 3.00.

Cross-listed to: AP/ADMS 3352 3.00, AP/ECON 3130 3.00

AP/ADMS 3353 3.00 Project Management. Introduces students to the theory and practice of project management. Applicable to all sectors, this course takes a problem-solving approach to planning, budgeting, implementing and completing small and large-scale projects. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3353 3.00.

AP/ADMS 3360 3.00 Integrated Logistics Management I. The purpose of this course is to describe the role of physical distribution and transportation in business and the impact that these factors can have on

market share and profitability in a competitive marketplace. Prerequisites: AP/ADMS 1010 3.00; AP/ADMS 2510 3.00; AP/ECON 1000 3.00; AP/ECON 1010 3.00; and completion of the departmental management science requirement. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1010 3.00 or AK/ADMS 2430 3.00 (prior to Summer 2005), AK/ADMS 2510 3.00; AK/ECON 1000 3.00; AK/ECON 1010 3.00; and completion of the departmental management science requirement. Course credit exclusion: AK/ADMS 3360 3.00.

AP/ADMS 3380 3.00 Integrated Logistics Management III. This course deals with advanced logistics management in both the private and the service sectors. It provides an integrated logistics approach to all phases of materials management and materials handling for manufacturing and non-manufacturing organizations. Prerequisites: AP/ADMS 1010 3.00, AP/ADMS 2510 3.00; AP/ECON 1000 3.00, AP/ECON 1010 3.00 and completion of the departmental management science requirement. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1010 3.00 or AK/ADMS 2430 3.00 (prior to Summer 2005), AK/ADMS 2510 3.00; AK/ECON 1000 3.00, AK/ECON 1010 3.00 and completion of the departmental management science requirement. Course credit exclusions: AK/ADMS 3130D 3.00 (prior to Summer 1989), AK/ADMS 3380 3.00.

AP/ADMS 3390 3.00 Integrated Logistics Management IV. Order processing, warehousing, transportation, management methods and tools used to deal with key issues in logistics operations and their impact on customer service, costs, and corporate profits. Course is taught with theory, case histories, and presentations by guest speakers. Prerequisite: AK/ECON 1000 3.00; AK/ECON 1010 3.00; AK/ADMS 2510 3.00; and completion of the departmental management science requirement. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ECON 1000 3.00; AK/ECON 1010 3.00; AK/ADMS 2510 3.00; and completion of the departmental management science requirement. Course credit exclusion: AK/ADMS 3460 3.00 (prior to Fall/Winter 1988-1989), AK/ADMS 3390 3.00.

AP/ADMS 3400 3.00 Occupational Health and Safety. Covers federal and provincial occupational health and safety legislation, hazard identification and control, physical agents, chemical agents, socio-psychological aspects of health and the management of safety programs. Prerequisite: AP/ADMS 1000 3.00, for all BAS and BAS Honours students. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00, for all BAS and BAS Honours students. Course credit exclusions: AK/ADMS 3400 3.00, AK/HLST 3240 3.00 prior to F/W 2008.

Cross-listed to: AP/ADMS 3400 3.00, AP/HRM 3400 3.00, HH/HLST 3240 3.00

AP/ADMS 3410 3.00 Training and Development. Covers the corporate training process of needs analysis, objective setting, programme design, adult education, equity in training, methods and evaluation, as well as alternatives to training and the role of stakeholder. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00, and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00, AK/ADMS 2400 3.00, AK/ADMS 2600 3.00. Course credit exclusions: AK/ADMS 3410 3.00, AK/ADMS 3410 6.00 (prior to Fall/Winter 1995-1996), AK/SOCI 3930 6.00 (prior to Summer 1995).

Cross-listed to: AP/ADMS 3410 3.00, AP/HRM 3410 3.00

AP/ADMS 3420 3.00 Employment Law. Provides a basic understanding of the law and issues governing the employer-employee relationship. The rights and obligations of employers and employees are examined, as well as labour relations in unionized settings. Prerequisite: AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3420 3.00.

Cross-listed to: AP/ADMS 3420 3.00, AP/HRM 3420 3.00

AP/ADMS 3422 3.00 Industrial Relations. This course examines the history of unions, the nature of the industrial relations systems including the legal framework, the social psychological climate, contract negotiation and administration. Ideologies and trends are discussed. Prerequisite: AP/

ADMS 2400 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 2400 3.00. Course credit exclusions: AK/ADMS 3310 3.00 (prior to Fall/Winter 1993-1994), AK/ADMS 3422 3.00.

Cross-listed to: AP/ADMS 3422 3.00, AP/HRM 3422 3.00

AP/ADMS 3430 3.00 Human Resources Planning. This course provides students with an understanding of the personnel planning process, the qualitative and quantitative techniques used in forecasting personnel requirements, and feasible solutions to shortages or surpluses. Prerequisite: AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3430 3.00.

Cross-listed to: AP/ADMS 3430 3.00, AP/HRM 3430 3.00

AP/ADMS 3440 3.00 Leadership and Management Skills. This course focuses on imparting to students key skills associated with managerial success in organizations. Leadership is a key theme throughout the course, which also addresses decision-making, conflict resolution, time management, team-building, negotiating, and other critical management skills. AP/ADMS/HRM 3440 3.00 was formerly entitled Managerial and Interpersonal Skills. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00, and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00, AK/ADMS 2400 3.00, and AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3440 3.00.

Cross-listed to: AP/ADMS 3440 3.00, AP/HRM 3440 3.00

AP/ADMS 3450 3.00 Employment Equity and Diversity. Examines employer's role in the equitable management of a diverse workforce. Policies and practices which facilitate the accommodation and benefits of a diverse workforce, are discussed. Prerequisite: AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3450 3.00.

Cross-listed to: AP/ADMS 3450 3.00, AP/HRM 3450 3.00

AP/ADMS 3470 3.00 Recruitment, Selection and Performance Appraisal of Personnel. This course enables the student to identify the appropriate recruiting methods for locating and attracting different types of candidates, explains the key steps in the selection process, evaluates the validity of various selection techniques and describes various performance appraisal methods. Prerequisite: AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3470 3.00.

Cross-listed to: AP/ADMS 3470 3.00, AP/HRM 3470 3.00

AP/ADMS 3490 3.00 Compensation. This course provides the student with an understanding of the objectives of a compensation program; the process and techniques of wage and salary determination; issues and problems in incentive systems, benefits and services and the management of these programs. Prerequisite: AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 3490 3.00.

Cross-listed to: AP/ADMS 3490 3.00, AP/HRM 3490 3.00

AP/ADMS 3495 0.00 Human Resource Management Internship. Provides qualified students with the opportunity to work full-time or part-time in the HR field as part of their degree program. The Atkinson Experiential Education Office will coordinate a specific internship placement for students. Prerequisites: 1) Successful completion of AP/ADMS 2600 3.00 (AK/ADMS 2600 3.00 prior to Fall 2009) and at least 6.00 Human Resource Management credits at the 3000 level and a cumulative average of B+ (7.00) in Human Resource Management courses completed. 2) Open to students enrolled in the BHRM Honours Stream who have 15 credits remaining to complete their honours degree upon enrolment in the program. Note 1: The Experiential Education Office will select from those with the prerequisites who apply. Note 2: The Experiential Education Office will provide selected applicants with instructions as to how and when to enrol in the course. Note 3: A student's grade in AP/ADMS 3495 0.00 will be recorded as a pass or fail on his/her

transcript. Note 4: Students are required to register in this course in every term of their internship. A maximum of four terms is permitted. Note 5: The Experiential Education Office will ensure that students are aware of work term report requirements and due dates. Note 6: Every student registered in the course will be assigned a faculty supervisor who will select a T.A. to assess the work term reports. The Human Resource Management area has committed a budget of up to one hour of T.A. time for each enrolled student to enable marking of the reports. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3495 3.00.

AP/ADMS 3500 0.00 Accounting Internship. Provides qualified students with the opportunity to work full-time or part-time in the accounting field as part of their degree program. The Atkinson Experiential Education Office will coordinate a specific internship placement for students. Prerequisites: 1) Completion of all accounting honours stream ADMS 1000, 2000 and 3000 level requirements including a grade of at least B in AP/ADMS 3595 3.00 (AK/ADMS 3595 3.00 prior to Fall 2009) and a grade point average in the major of at least 6.00 (preference will be given to those with higher grades in AK/AP/ADMS 3595 3.00 and higher grade point averages in the major). 2) Open only to students in Honours programs. Note 1: The Experiential Education Office will select students who meet the prerequisite requirements. Note 2: The Experiential Education Office will provide selected applicants with instructions as to how and when to enrol in the course. Note 3: A student's grade in AP/ADMS 3500 0.00 will be recorded as a pass or fail on his/her transcript. Note 4: Students are required to register in this course every term for his/her internship. A maximum of four terms is permitted. Note 5: The Experiential Education Office will ensure that students are aware of work term report requirements and due dates. Note 6: Every student registered in the course will be assigned a faculty supervisor who will select a T.A. to assess the work term reports. The accounting area has committed a budget of up to one hour of T.A. time for each enrolled student to enable marking of the reports. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3500 3.00.

AP/ADMS 3502 3.00 Enterprise Resource Planning Systems. Explains and demonstrates how Enterprise Resource Planning Systems (ERP), a group of integrated software modules, run virtually all business processes in an organization. ERP Systems include modules such as management accounting, sales, logistics, production/materials management, procurement, and human resources. Prerequisites: AP/ADMS 2510 3.00, AP/ADMS 2511 3.00 or AP/ITEC 1010 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2510 3.00, AK/ADMS 2511 3.00 or AK/ITEC 1010 3.00. Course credit exclusion: AK/ADMS 3502 3.00.

AP/ADMS 3510 3.00 Managerial Cost Accounting and Analysis. A course in theories and techniques of cost accounting and management accounting. Emphasis is placed on cost accumulation for purposes of (a) asset valuation and income measurement, and (b) planning and control. Prerequisites: AP/ADMS 2320 3.00, AP/ADMS 2500 3.00, AP/ADMS 2510 3.00; AP/ECON 1000 3.00, AP/ECON 1010 3.00. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005), AK/ADMS 2500 3.00, AK/ADMS 2510 3.00; AK/ECON 1000 3.00, AK/ECON 1010 3.00. Course credit exclusion: AK/ADMS 3510 3.00.

AP/ADMS 3520 3.00 An Overview of Canadian Income Taxation. An overview of the taxation of personal and corporate incomes of Canadian taxpayers, related tax planning and GST implications. NCR Note: Students who have received credit for AP/ADMS 4561 3.00 or AP/ADMS 4562 3.00 may not subsequently take ADMS 3520 3.00 for degree credit. Course credit exclusions: None. PRIOR TO FALL 2009: NCR Note: Students who have received credit for AK/ADMS 4561 3.00 or AK/ADMS 4562 3.00 may not subsequently take ADMS 3520 3.00 for degree credit. Course credit exclusions: AK/ADMS 3520 3.00, AK/ADMS 3560 6.00 (prior to Summer 1988), AK/ADMS 3560 3.00 (prior to Summer 1990).

AP/ADMS 3521 3.00 Management of Electronic Commerce Systems. Provides students with a solid foundation about the realities and potential involved in applying electronic commerce. Particularly, we examine successful and unsuccessful strategic information systems in e-commerce, and look at how such systems are developed, managed,

controlled and implemented. Prerequisites: AP/ADMS 2511 3.00 or AP/ITEC 1010 3.00; AP/ECON 1000 3.00; AP/ECON 1010 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2511 3.00 or AK/ITEC 1010 3.00; AK/ECON 1000 3.00; AK/ECON 1010 3.00. Course credit exclusion(s): AK/ADMS 3521 3.00.

AP/ADMS 3524 3.00 Public Sector Budget Process. Examines the key issues and context of the budget process and the increasing importance of oversight, transparency and accountability in the public sector in Canada. Assesses current approaches to budget policy, fiscal management and accountability frameworks. Prerequisites: AP/ECON 1000 3.00, AP/ECON 1010 3.00, AP/ADMS 1500 3.00 or AP/ADMS 2500 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ECON 1000 3.00, AK/ECON 1010 3.00, AK/ADMS 1500 3.00 or AK/ADMS 2500 3.00. Course credit exclusion(s): AK/ADMS 3524 3.00.

Cross-listed to: AP/ADMS 3524 3.00, AP/PPAS 3524 3.00

AP/ADMS 3530 3.00 Finance. The role of financial managers in accomplishing organizational objectives, uses of financial statements, present value theory, risk/return analysis, leverage, cost of capital, resource allocation models. Prerequisites: AP/ECON 1000 3.00; AP/ECON 1010 3.00; AP/ADMS 2500 3.00. Corequisite: AP/ADMS 2320 3.00. Course credit exclusions: AP/ECON 4082 3.00. PRIOR TO FALL 2009; prerequisites: AK/ECON 1000 3.00; AK/ECON 1010 3.00; AK/ADMS 2500 3.00. Corequisite: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusion: AS/ECON 4400 3.00, AK/ECON 4082 3.00, AK/ADMS 3530 3.00.

AP/ADMS 3531 3.00 Personal Investment Management. Familiarizes students with the investment process, emphasizing the management of individual investor portfolios. Topics include security markets, trade-offs between risk and return, security analysis, and the concept of an "almost efficient" market. Current financial events are discussed. Prerequisite: AP/ADMS 3530 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3530 3.00. Course credit exclusion: AK/ADMS 4500 3.00 (prior to Summer 2006), AK/ADMS 3531 3.00.

AP/ADMS 3541 3.00 Personal Financial Planning. Introduces financial planning techniques used in professional practice and follows through the steps and methods involved in developing personal financial plans. Topics include taxation, investment alternatives, targeting savings levels, insurance, retirement planning and relevant legislation. Prerequisites: AP/ADMS 3530 3.00, AP/ECON 1000 3.00, AP/ECON 1010 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 3530 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00. Course credit exclusions: AK/ADMS 3130B 3.00 (prior to Fall/Winter 1997-1998), AK/ADMS 3541 3.00.

AP/ADMS 3570 3.00 Corporate Reporting Issues. Focuses on selected accounting topics and develops an in-depth knowledge of the generally accepted accounting principles and financial statement reporting practices for those topics in Canada. The principles will be applied to a number of cases and problem situations. Prerequisite: AP/ADMS 2500 3.00. Note: This course is an alternative to AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00 for students who do not wish to take further courses in financial accounting. NCR Note: No credit will be retained for this course for students who have successfully completed or who are currently enrolled in AP/ADMS 3585 3.00 or AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2500 3.00. Note: This course is an alternative to AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00 for students who do not wish to take further courses in financial accounting. NCR Note: No credit will be retained for this course for students who have successfully completed or who are currently enrolled in AK/ADMS 3585 3.00 or AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 3570 3.00.

AP/ADMS 3585 3.00 Intermediate Financial Accounting I. This course, in conjunction with AP/ADMS 3595 3.00, develops thorough knowledge and understanding of generally accepted accounting principles and financial statement analytical skills by examining various technical

areas of financial accounting. Prerequisite: AP/ADMS 2500 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2500 3.00. Course credit exclusion: AK/ADMS 3585 3.00.

AP/ADMS 3590 3.00 Applied Management Accounting: Field Project. Provides an overview of management accounting systems (MAS) used by companies; improves students' understanding of management behaviour related to MAS; presents examples of successful and unsuccessful MAS; and provides students with opportunities for practical application of MAS across a wide range of industries, companies and situations. Prerequisites: AP/ADMS 3510 3.00 (AK/ADMS 3510 3.00 prior to Fall 2009) completed with a grade of B+ or higher. Open only to students enrolled in a degree program or the Professional Certificate in Accounting. Note 1: This course will provide qualified students with the opportunity to work in the accounting field. The Atkinson EE Office will help coordinate specific field projects for the students. Note 2: The course instructor, together with the EE Office, will select from those with the prerequisites who apply. Note 3: Students are required to attend an orientation session with duration of two hours prior to the commencement of the course or in the first day of classes. Note 4: The field project component of this course will require an approximate commitment of 5 hours per week over 10 weeks (total hours would be 50). In addition to those 50 hours, students will be required to attend weekly classes with the course instructor and work on additional assignments. Note 5: The course should have a maximum of 30 students, who should be organized in 6 groups by the second week of classes. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3590 3.00.

AP/ADMS 3595 3.00 Intermediate Financial Accounting II. This course is a continuation of AP/ADMS 3585 3.00. It develops a thorough knowledge and understanding of generally accepted accounting principles and financial statement reporting practices in Canada. Prerequisite: AP/ADMS 3585 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3585 3.00. Course credit exclusion: AK/ADMS 3595 3.00.

AP/ADMS 3620 3.00 Elements of Law: Part Two. An examination of more advanced topics of private law with emphasis being laid on areas related to the organization and management of business relations. Prerequisite: AP/ADMS 2610 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2610 3.00 or AK/ADMS 3610 3.00 (prior to Summer 2005). Course credit exclusions: AS/ECON 4510 3.00, AK/ADMS 3620 3.00.

AP/ADMS 3630 3.00 Corporation Law. This course provides students who have a particular interest in the management of limited companies with an understanding of the legal requirements of these entities through an examination of the history of their development, the laws under which limited companies exist, and the methods of management. Prerequisite: AP/ADMS 2610 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2610 3.00 or AK/ADMS 3610 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 3630 3.00.

AP/ADMS 3640 3.00 Constitutional Law. An examination of the legal aspects of the distribution of legislative power in Canada with particular reference to its impact on the constitutional powers relating to business activity, taxation, criminal law and the administrative law process. Prerequisite: AP/ADMS 2610 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2610 3.00 or AK/ADMS 3610 3.00 (prior to Summer 2005). Course credit exclusions: AK/ADMS 4620 6.00 (prior to Summer 1990), AK/ADMS 3640 3.00.

AP/ADMS 3650 3.00 Introduction to Municipal Law. Course credit exclusion: AK/ADMS 3130N 3.00 (prior to Summer 1998).

AP/ADMS 3660 3.00 Business Ethics and Corporate Social Responsibility. Introduces students to the relevance and importance of business ethics and corporate social responsibility. The course applies moral theory to the treatment by business of various stakeholder groups including: shareholders; employees; consumers; governments; communities; and the natural environment. Prerequisites: AP/ADMS 1000 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00. Course credit exclusion: AK/ADMS 3660 3.00.

AP/ADMS 3700 3.00 Fundamentals of Emergency Management.

Organized around the four pillars of mitigation, preparedness, response and recovery, this course provides students with the key concepts and basic knowledge required to operate effectively in an emergency management context including the legislative context, risk identification, assessment and communications. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3700 3.00.

AP/ADMS 3701 3.00 Disaster Risk Management. Practical analysis of the risk management process and the specific tools and methods used to address the risks facing organizations, institutions, and communities. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3701 3.00.

AP/ADMS 3702 3.00 Comprehensive Emergency Management: Integrating Critical Knowledge with Practice. Provides an in-depth theoretical examination and practical analysis of a number of themes within the four pillars of emergency management: mitigation, preparedness, response and recovery, within a comprehensive emergency management framework. Prerequisite: AP/ADMS 3700 3.00. Corequisite: AP/ADMS 3701 3.00 or permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3700 3.00. Corequisite: AK/ADMS 3701 3.00 or permission of the course director. Course credit exclusion: AK/ADMS 3702 3.00.

AP/ADMS 3703 3.00 Business Continuity. Provides an introduction to the field of business continuity. Continuity management is a holistic management process that identifies potential impacts threatening an organization and provides a framework for building resilience with the capability for an effective response. Prerequisites: AP/ADMS 3700 3.00 or AP/ADMS 2400 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 3700 3.00 or AK/ADMS 2400 3.00. Course credit exclusion: AK/ADMS 3703 3.00.

AP/ADMS 3704 3.00 Emergency Management Communications. Introduces students to the essentials of all stages of emergency management communications. Relying heavily on case studies, this course teaches the theory of effective communications, particularly in a crisis context. Students will also develop their own presentation/media skills. Prerequisites: None. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3704 3.00.

AP/ADMS 3705 3.00 Emergency Management: Field Experience. Placements in the field provide students with the opportunity to apply theories of emergency management in a variety of organizations within the private, public and NGO sectors. Six seminars foster critical reflection on the integration of theory and experience. Field experience: 12 hours per week for 11 weeks (132 hours). Seminars: Twice per month for two hours (12 hours). Students are required to attend an orientation session for two hours prior to the course. Prerequisites: AP/ADMS 3700 3.00 and AP/ADMS 3701 3.00. Open only to those students enrolled in the Emergency Management Certificate. Notes: Students are required to attend an orientation session with a duration of two hours prior to the commencement of the course. The field experience component of this course will require a commitment of 12 hours per week over 11 weeks (132 hours). In addition to the orientation session and field placement requirements, students will be required to attend a seminar which will meet twice per month for two hours each meeting (12 hours). Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 3700 3.00 and AK/ADMS 3701 3.00. Open only to those students enrolled in the Emergency Management Certificate. Notes: Students are required to attend an orientation session with a duration of two hours prior to the commencement of the course. The field experience component of this course will require a commitment of 12 hours per week over 11 weeks (132 hours). In addition to the orientation session and field placement requirements, students will be required to attend a seminar which will meet twice per month for two hours each meeting (12 hours). Course credit exclusion: AK/ADMS 3705 3.00.

AP/ADMS 3710 3.00 Comparative Health Administration. A study of the health administrative systems in a variety of countries. Emphasis will be placed upon the issues and problems of health systems in both developed and developing countries, the strategies that have been developed to deliver health care, and the role of the formal and informal

sectors in the health care field. Course credit exclusions: none. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 3420 6.00 (prior to Fall/Winter 1993-1994), AK/ADMS 3710 3.00.

AP/ADMS 3720 3.00 Program Evaluation in Health Care Part I. A blend of theory and practice that provides students with an understanding of the concepts and implementation of program evaluation in health care. Students develop the ability to critique program evaluation reports and develop a proposal to evaluate a program. Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00. All other students AP/ADMS 2300 6.00 or, for students with equivalent preparation, permission of the undergraduate director. Course credit exclusions: AK/ADMS 3130Q 3.00 (prior to Summer 2001), HH/NURS 4500 3.00, AK/NURS 4500 3.00 (prior to Fall/Winter 2007/2008).

Cross-listed to: AP/ADMS 3720 3.00, HH/NURS 3500 3.00

AP/ADMS 3740 3.00 Health and Aging. A review of the epidemiology of acute and chronic disease as it informs the problem of providing health care and health services for an aging population. Special attention is given to societal implications of health problems characteristic of elderly populations. Course credit exclusions: none. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 3130S 3.00 (prior to Summer 1995), AK/ADMS 3740 3.00.

AP/ADMS 3750 3.00 Behavioural and Social Aspects of Health. This course explores the role of behavioural and social factors in determining health status and the effectiveness of health care. It addresses such topics as health beliefs, attitude and prejudice, communication processes, culture, environment, stress and life transitions and crises. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3750 3.00.

AP/ADMS 3760 3.00 Financial Management in Health Care Institutions. This course introduces students to the financial management techniques that are practiced, or could be implemented, to improve the operations of various organizations in the Canadian health care delivery system. It examines the financial problems and issues that exist within the system. Prerequisite: AP/ADMS 2510 3.00. Course credit exclusion: AP/ADMS 4760 3.00. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2510 3.00. Course credit exclusions: AK/ADMS 4760 3.00, AK/ADMS 3760 3.00.

AP/ADMS 3810 3.00 Introduction to Real Estate. This course provides an overview of the various aspects of real estate administration for non-specialists as well as those students intending to take other real estate courses. Prerequisite: AP/ADMS 1000 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00. Course credit exclusion: AK/ADMS 3810 3.00.

AP/ADMS 3820 3.00 Real Estate Law I. A discussion of the development of the law of real property in the context of the common law and current legislation. Emphasis will be placed on practical considerations in the methods of the lawyer and the businessman in arriving at their conclusions. Prerequisite: AP/ADMS 3810 3.00. Note: Students are strongly recommended to complete AP/ADMS 2610 3.00 before taking this course. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3810 3.00. Note: Students are strongly recommended to complete AK/ADMS 2610 3.00 or AK/ADMS 3610 3.00 (prior to Summer 2005) before taking this course. Course credit exclusion: AK/ADMS 3820 3.00.

AP/ADMS 3840 3.00 Introduction to Real Estate Valuation, Part I. This course examines the concepts, principles, and process of real property appraisal and introduces the more common legal interests in land; land registration; land use control; the mathematics of finance; and mortgage lending. Prerequisite: AP/ADMS 3810 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 2800 3.00.

AP/ADMS 3845 3.00 Introduction to Real Estate Valuation, Part II. This course outlines the basic methods for the determination of real property values-including cost, income, sales comparison and reconciliation approaches. Changes in value, for example through obsolescence, rehabilitation or redevelopment are examined.

Prerequisite: AP/ADMS 3840 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2800 3.00. Course credit exclusions: AK/ADMS 2810 3.00, AK/URST 2450 3.00 (prior to Fall/Winter 1995-1996).

AP/ADMS 3890 3.00 Commercial Leasing. This course provides a foundation for directing acquisitions of commercial accommodation through the medium of a lease. It introduces the student to commercial real estate leasing transactions, which are likely to be among the largest commitments confronted in a business career. Prerequisite: AP/ADMS 3810 3.00. Course credit exclusions: none. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3810 3.00. Course credit exclusions: AK/ADMS 3130A 3.00 (prior to Summer 1989), AK/ADMS 3890 3.00.

AP/ADMS 3900 3.00 The Practice of General Management. Instructs participants in the strategic analysis and planning process for medium-sized and large businesses. Models explaining the integration of the functional areas are combined with strategic process models. Modes of instruction include lectures and simulations. Prerequisites: 27 credits, or equivalent, within the administrative studies major. Note 1: Use of an IBM-compatible computer required. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 3900 3.00.

AP/ADMS 3920 3.00 New Venture and Small Business Management. An understanding of the entrepreneurial process, from idea generation to new enterprise creation, is developed through lectures, case studies and simulations. The functional topic areas of business are developed as they relate specifically to planning for new ventures (including intrapreneurship) and small business management. Prerequisites: AP/ADMS 1000 3.00; AP/ADMS 2500 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00; AK/ADMS 2500 3.00. Course credit exclusion: AK/ADMS 3920 3.00.

AP/ADMS 3930 3.00 Management. Develops the required organizational skills and practices of managers to meet their objectives in small and large organizations. Theoretical instruction is combined with cases and experiential exercises to help students develop a comprehensive understanding of the subject. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00, AK/ADMS 2400 3.00. Course credit exclusion: AK/ADMS 3930 3.00.

AP/ADMS 3960 3.00 International Business. Issues and problems facing the manager in the international environment. Areas of study include multinational corporation, factors leading to successful performance, analysis of basic managerial functions in different countries, assessment of the nature and scope of international business and global business strategy. Prerequisite: AP/ADMS 1000 3.00. Course credit exclusions: none. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 1000 3.00. Course credit exclusions: AK/ADMS 3130H 3.00 (prior to Summer 1994), AK/ADMS 3960 3.00.

AP/ADMS 4000 3.00 Directed Reading. A reading and research course suited to students with special interests. Students will select areas of study in consultation with an appropriate faculty member. Prerequisites: 78 credits including AP/ADMS 1000 3.00, AP/ECON 1000 3.00, AP/ECON 1010 3.00, and six credits in management science. Open only to students in Honours programs. Note: Students must be accepted by a faculty supervisor before they can register in 4000-level directed reading courses. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 1000 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00, and six credits in management science. Open only to students in Honours programs. Note: Students must be accepted by a faculty supervisor before they can register in 4000-level directed reading courses. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusion: AK/ADMS 4000 3.00.

AP/ADMS 4000 6.00 Directed Reading. A reading and research course suited to students with special interests. Students will select areas of study in consultation with an appropriate faculty member. Prerequisites: 78 credits including AP/ADMS 1000 3.00, AP/ECON 1000 3.00, AP/ECON 1010 3.00, and six credits in quantitative methods. Open only to students in Honours programs. Note: Students must be accepted by a faculty supervisor before they can register in 4000-level directed reading courses. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 1000 3.00, AK/ECON 1000 3.00, AK/ECON 1010 3.00, and six credits in quantitative methods. Open only to students in Honours programs. Note: Students must be accepted by a faculty supervisor before they can register in 4000-level directed reading courses. The course transaction form for such courses must be submitted with a note from the supervisor stating his/her willingness to perform this task. Permission of the Director of the School of Administrative Studies is also required. Course credit exclusion: AK/ADMS 4000 6.00.

AP/ADMS 4010 3.00 Organization and Administrative Theory. Examines in depth the development of administrative thought and organizational theories. Current organizational theories will be related to contemporary administrative society. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 2400 3.00, or 2) for other students, a grade of C+ or better in AP/ADMS 2400 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 2400 3.00, or 2) for other students, a grade of C+ or better in AK/ADMS 2400 3.00. Course credit exclusion: AK/ADMS 4010 3.00.

AP/ADMS 4050 3.00 Advanced Industrial Relations. Collective employer-employee relations: the structure, function and government of the modern trade union movement. Labour legislation, collective bargaining process and procedures and public policy towards industrial relations. Prerequisites: For students in the Honours program, 78 credits including AP/HRM 3422 3.00, or for other students, a grade of C+ or better in AP/HRM 3422 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: For students in the Honours program, 78 credits including AK/ADMS 3422 3.00, or for other students, a grade of C+ or better in AK/ADMS 3422 3.00. Course credit exclusion: AK/ADMS 4050 3.00.

Cross-listed to: AP/ADMS 4050 3.00, AP/HRM 4050 3.00

AP/ADMS 4130 3.00 Green Business: Facing the Environmental Challenge. An introduction to environmental issues as they relate to marketing, finance, organizational behaviour, operations, etc. The course also provides the analytical tools needed to integrate "greening" into the fabric of business decision making. Prerequisite: 1) For students in an Honours program, 78 credits including AP/ADMS 2410 3.00, or, 2) for students with equivalent preparation, permission of the Director of Administrative Studies. Open only to students in Honours programs. Course credit exclusion: AP/ADMS 4280 3.00. PRIOR TO FALL 2009: Prerequisite: 1) For students in an Honours program, 78 credits including AK/ADMS 2410 3.00; AK/ECON 2410 3.00; AK/ECON 2420 3.00, or, 2) for students with equivalent preparation, permission of the Director of Administrative Studies. Open only to students in Honours programs. Course credit exclusions: AK/ADMS 4130K 3.00 (prior to Summer 1995), AK/ADMS 4130G 3.00 (prior to Fall/Winter 1998-1999), AK/ADMS 4280 3.00, AK/ADMS 4130 3.00.

AP/ADMS 4205 3.00 Analysis, Reporting, and Presentation of Marketing Data. Students will develop skills in the analysis of marketing data and in communicating analyses' results effectively. Focus on basic analytical tools, software skills with data analysis packages, and class presentations based upon the analysis of case materials. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, AP/ADMS 2320 3.00, and AP/ADMS 4260 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00, AP/ADMS 2320 3.00, and AP/ADMS 4260 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer

2005), AK/ADMS 2320 3.00, and AK/ADMS 4260 3.00, or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), AK/ADMS 2320 3.00, and AK/ADMS 4260 3.00. Course credit exclusion: AK/ADMS 4205 3.00.

AP/ADMS 4210 3.00 International Marketing. A study of the management of international marketing activities. Emphasis is placed upon policy and strategy formulation and the environmental constraints within which these activities take place. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4210 3.00.

AP/ADMS 4211 3.00 Live-Client Learning Marketing. Provides students with the opportunity to apply their theoretical knowledge in marketing to the diagnosis and solving of complex marketing problems in live situations or projects. Six seminars across the semester foster critical reflection on the integration of theory and experience. Seminars: Six seminars of 3 hours each, which include an introductory session prior to the commencement of the client-based work. Client-based project: 85-100 hours. Prerequisites: AP/ADMS 2200 3.00 and AP/ADMS 3220 3.00 and have completed two 42xx level courses. Course credit exclusions: None.

AP/ADMS 4215 3.00 Business to Business Marketing. Focuses on problems and concepts particular to business-to-business marketing. The basic marketing concepts introduced in AK/ADMS 3200 3.00 along with a conceptual framework of organization buyer behaviour are utilized to illustrate the unique nature and challenges of this market. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4215 3.00.

AP/ADMS 4220 3.00 Consumer Behaviour. Introduces students to the general perspectives currently taken in the study of consumer behaviour. Emphasis is on consumer decision processes and the influence of social, cultural and psychological factors on how consumer behaves. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4220 3.00.

AP/ADMS 4225 3.00 Retailing Management. Develops a framework for identifying, appraising and formulating retail marketing strategies; stresses the interrelationships among manufacturers, distributors and final consumers. Areas studied include trade area analysis, design and layout, merchandising and inventory control, retail math, trends and technology in retailing. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4225 3.00.

AP/ADMS 4230 3.00 Marketing Channels. Integrates theory and practice of Marketing Distribution Channels - the "place" of Marketing, focusing on issues of power and conflict and how they are resolved in ways that promote strategic relationships and integrate with strategic planning. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009:

Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4230 3.00.

AP/ADMS 4235 3.00 Product Management. Examines marketing decisions involved in product management, giving students experience in tackling typical problems facing a brand or product manager. Strong managerial and case study emphasis, centering on consumer products with some discussion of business-to-business marketing. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusions: AK/ADMS 3270 3.00 (prior to Summer 1996), AK/ADMS 4235 3.00.

AP/ADMS 4240 3.00 Advertising and Communications. Examines the field of advertising with specific focus on its role in communication of organizational goals and strategy. Emphasis is on theory and practice of advertising as a communication process, including its role as the best-known part of Marketing. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4240 3.00.

AP/ADMS 4245 3.00 E-Marketing. Addresses how electronic marketing is changing the dynamics of commerce, including how firms determine where and how to use the Internet for such things as customer relations management, retailing, branding, and business-to-business commerce. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4245 3.00.

AP/ADMS 4250 3.00 Marketing Strategy. Provides integration of knowledge and practical experience in strategic decision making in marketing, pulling together all the diverse areas of marketing. Is best taken as a capstone course in the area but may be taken earlier in the program. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4250 3.00.

AP/ADMS 4255 3.00 Customer Relationship Management. An examination of principles, methods, and strategies for building collaborative buyer-seller relationships that create competitive advantage for the firm by identifying, differentiating, and interacting with profitable customers and customizing product/service offerings for them. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) for other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) for other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4255 3.00.

AP/ADMS 4260 3.00 Marketing Research I. Students learn to specify, gather, analyze, interpret, and report research information used to make marketing decisions. The focus is on developing the competence to conceive and execute a marketing research study and translate research results into strategic marketing recommendations. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4260 3.00.

AP/ADMS 4265 3.00 Marketing Research II. Discussion of four key stages of the research process: research design, data collection, sampling, and data analysis. Qualitative and quantitative research designs are examined and skills to analyze data and test for relationships using statistical analysis software are developed. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 2200 3.00, AP/ADMS 2320 3.00, AP/ADMS 4260 3.00 or 2) other students, AP/ADMS 2320 3.00, AP/ADMS 4260 3.00 and a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), AK/ADMS 2320 3.00, AK/ADMS 4260 3.00 or 2) other students, AK/ADMS 2320 3.00, AK/ADMS 4260 3.00 and a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4265 3.00.

AP/ADMS 4275 3.00 Services Marketing. Examines strategies for the marketing of services with an emphasis on how services differ from other products, and on service quality. Covers many service environments from large to small and from financial to retail. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4275 3.00.

AP/ADMS 4280 3.00 Social Marketing. Examines issues of social responsibility in business and how marketing theory and techniques may be used to promote more environmentally and socially conscious business practices. Prerequisites: 1) For students in an Honours program, 72 credits, including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits, including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4280 3.00.

AP/ADMS 4285 3.00 Brand Management I. Presents students with an overview of the targets and the process of brand management. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00 and AP/ADMS 3220 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00 and AP/ADMS 3220 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005) and AK/ADMS 3220 3.00, or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005) and AK/ADMS 3220 3.00. Course credit exclusion: AK/ADMS 4285 3.00.

AP/ADMS 4286 3.00 Brand Management II: Brand Architecture and Brand Portfolio Management for Multiple Stakeholder Groups in Multiple Countries. In this course, students learn to deal with common challenges of brand management in large multi-national corporations, involving multiple product categories and brands, multiple internal and external stakeholder groups, multiple countries, and maybe the cooperation of multiple companies in brand alliances. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200

3.00, AP/ADMS 3220 3.00, and AP/ADMS 4285 3.00 2) For other students, a grade of C+ or better in AP/ADMS 2200 3.00, AP/ADMS 3220 3.00, and AP/ADMS 4285 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), AK/ADMS 3220 3.00, and AK/ADMS 4285 3.00 2) For other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), AK/ADMS 3220 3.00, and AK/ADMS 4285 3.00. Course credit exclusion: AK/ADMS 4286 3.00.

AP/ADMS 4290 3.00 Marketing For Competitive Advantage. Examines shifts in perceptual focus necessary to create competitive advantage by meeting not only the needs of the organization's customers but also the needs of various publics including customers, employees, suppliers, shareholders, and the community; utilizing concepts of internal marketing and relationship marketing. Prerequisites: 1) For students in an Honours program, 72 credits including AP/ADMS 2200 3.00, or 2) other students, a grade of C+ or better in AP/ADMS 2200 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 72 credits including AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005), or 2) other students, a grade of C+ or better in AK/ADMS 2200 3.00 or AK/ADMS 3200 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4290 3.00.

AP/ADMS 4295 6.00 Philosophical and Ethical Issues in the Mass Media. Examines different modes of argumentation in editorial content, news coverage and advertising, particularly ethical issues involved in the relation between arguments based in logic and those based in emotion. Other topics include rhetoric, persuasion, ideology and propaganda. Prerequisites: For all students: 78 credits, or, for students with equivalent preparation, permission of the course directors. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: For all students: 78 credits, or, for students with equivalent preparation, permission of the course directors. Course credit exclusions: AK/ADMS 4295 6.00, AK/PHIL 4030K 6.00 (prior to Fall/Winter 2006-2007), AK/PHIL 4295 6.00, AS/PHIL 4220 6.00 (prior to Fall/Winter 2006-2007).

AP/ADMS 4300 3.00 Decision Making. Many complex decision problems are not amenable to treatment by conventional mathematical modeling techniques. This course explores new methods of dealing with such problems and includes treatment of a variety of decision problems arising in modern society. Prerequisites: 78 credits including AP/ADMS 3300 3.00, AP/ECON 1000 3.00 and six credits in management science. Open only to students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 3300 3.00, AK/ECON 1000 3.00 and six credits in management science. Open only to students in Honours programs. Course credit exclusion: AK/ADMS 4300 6.00.

AP/ADMS 4320 3.00 Strategic and Implementation Planning. Strategic planning is described as the choice of future directions and activities for an organization. The first half of the course treats the formulation of a strategic plan. The second half deals with the derivation of operational plans from the strategic plan. The role of negotiation in the implementation of strategic plans is also considered. Prerequisite: 78 credits including AP/ADMS 3300 3.00; AP/ADMS 4300 3.00; AP/ADMS 4900 3.00 and six credits in management science. Open only to: Students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 78 credits including AK/ADMS 3300 3.00; AK/ADMS 4300 3.00; AK/ADMS 4900 3.00 and six credits in management science. Open only to: Students in Honours programs. Course credit exclusion: AK/ADMS 4320 3.00.

AP/ADMS 4331 3.00 Advanced Modeling in Operations Research. Covers advanced modeling applications and techniques for the solution and analysis of large scale problems in business, operations, and logistics management. The emphasis will be on modeling complex systems and solving them by use of specialized software. Prerequisite: AP/ADMS 3331 3.00 or AP/ADMS 3330 3.00. Course credit exclusions: none PRIOR TO FALL 2000: Prerequisite: AK/ADMS 3331 3.00 or AK/ADMS 3330 3.00. Course credit exclusion: AK/ADMS 4331 3.00.

AP/ADMS 4333 3.00 Supply Chain Management. Supply chain management is about planning, implementing, and controlling the efficient flow of material and information in multi-stage production-distribution networks. This course provides the knowledge and the tools necessary to develop, implement, and sustain strategies for managing supply chains to increase responsiveness and profitability. Prerequisite: AP/ADMS 3330 3.00 or AP/ADMS 3331 3.00; or AP/ECON 2500 3.00 and AP/ECON 3480 3.00. Course credit exclusions: none. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3330 3.00 or AK/ADMS 3331 3.00; or (AK/ECON 3470 3.00 and AK/ECON 3480 3.00). Course credit exclusions: AK/ADMS 3333 3.00 (prior to Fall 2008). AK/ADMS 4333 3.00.

AP/ADMS 4340 3.00 Electronic Operations. Focuses on managerial issues of operations management for e-commerce businesses. Helps students interested in the managerial aspects of running e-businesses to know what is important in their operations, including personnel, technology, and systems. Prerequisite: AP/ADMS 3521 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3521 3.00. Course credit exclusion: AK/ADMS 4340 3.00.

AP/ADMS 4345 3.00 Modeling and Simulation for Management. Introduces continuous simulation methodology. Focuses on the construction, validation, and application of original continuous simulation models aimed at improving decision making in complex business systems. Prerequisite: AP/ADMS 3345 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3345 3.00. Course credit exclusion: AK/ADMS 4345 3.00.

AP/ADMS 4353 3.00 Analytical Methods for Project Management. Covers applications of management science modeling and analysis techniques in project management. It takes a problem-solving approach to project planning and scheduling under uncertainty, budgeting, portfolio optimization and project selection, risk management, and resource planning. Prerequisite: AP/ADMS 3330 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3330 3.00. Course credit exclusion: AK/ADMS 4353 3.00.

AP/ADMS 4360 3.00 Integrated Logistics Management II. This course deals with management of the purchasing function, materials management and inventory management in modern organization. The course is taught by a combination of explanation of theory and study of case histories. Prerequisites: AP/ADMS 1010 3.00, AP/ADMS 2510 3.00; AP/ECON 1000 3.00; AP/ECON 1010 3.00 and completion of the departmental management science requirement. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 1010 3.00 or AK/ADMS 2430 3.00 (prior to Summer 2005), AK/ADMS 2510 3.00; AK/ECON 1000 3.00; AK/ECON 1010 3.00 and completion of the departmental management science requirement. Course credit exclusions: AK/ADMS 3370 3.00 (prior to Fall 2008), AK/ADMS 4360 3.00.

AP/ADMS 4370 3.00 Data Analysis Systems. Introduces Windows-based data processing software and provides overview of computing concepts and data processing using SAS, SPSS and STATA. Covers such statistics techniques as data visualization and summary, analysis of contingency tables, linear and logistic regressions, and nonparametric methods. Elective course for: BAS ITEC and BAS HURE. Prerequisite: AP/ADMS 2320 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusion: AK/ADMS 4370 3.00.

AP/ADMS 4410 3.00 Strategic Human Resources Management. Examines the evolution of the HR role, the trends that impact on HRM, the threats and opportunities affecting the HR function. Discusses strategy, action plans, priority management, measurement of results and competencies. Prerequisites: AP/HRM 2600 3.00, AP/HRM 3400 3.00, AP/HRM 3410 3.00, AP/HRM 3422 3.00, AP/HRM 3430 3.00, AP/HRM 3470 3.00, and AP/HRM 3490 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2600 3.00, AK/ADMS 3400 3.00, AK ADMS 3410 3.00, AK/ADMS 3422 3.00, AK/ADMS 3430 3.00, AK/ADMS 3470 3.00, and AK/ADMS 3490 3.00. Course credit exclusion: AK/ADMS 4410 3.00.

Cross-listed to: AP/ADMS 4410 3.00, AP/HRM 4410 3.00

AP/ADMS 4420 3.00 Human Resources Research Methods. This course examines the research function in HRM. Topics include measurement and evaluation, as well as experimental, survey and qualitative research methods. Emphasis is placed on how to design research to measure and evaluate HRM programs. Prerequisites: 1) For students in the Honours program, 78 credits including AP/HRM 2600 3.00, or 2) for other students, a grade of C+ or better in AP/HRM 2600 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in the Honours program, 78 credits including AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001), or 2) for other students, a grade of C+ or better in AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 4420 3.00.

Cross-listed to: AP/ADMS 4420 3.00, AP/HRM 4420 3.00

AP/ADMS 4430 3.00 Career Management. Provides students with the theory and skills to enable them to manage their own careers, the careers of employees and the career process within organizations. Prerequisites: AP/HRM 2600 3.00 and AP/HRM 3410 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001) and AK/ADMS 3410 3.00. Course credit exclusion: AK/ADMS 4430 3.00.

Cross-listed to: AP/ADMS 4430 3.00, AP/HRM 4430 3.00

AP/ADMS 4440 3.00 Issues in Human Resource Management. This course examines current issues in HRM including downsizing, contingency workers, training transfer, stress related diseases, ethics, outsourcing. Students are active participants in the identification and delineation of trends. Prerequisites: For students in the Honours program, 78 credits including AP/HRM 2600 3.00, or for other students, a grade of C+ or better in AP/HRM 2600 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: For students in the Honours program, 78 credits including AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001), or for other students, a grade of C+ or better in AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 4440 3.00.

Cross-listed to: AP/ADMS 4440 3.00, AP/HRM 4440 3.00

AP/ADMS 4444 3.00 Identity and Inclusivity in Organizations. Develops awareness and understanding of workplace diversity from various stakeholders' perspectives. Explores issues of individual identity, including, but not limited to, gender, race and ethnicity, sexual orientation, gender identity and expression, ability, religion and social status. Examines the value of inclusive diversity practices in organizations and their managerial implications. Prerequisites: 1) For students in a BAS/BHRM Honours program, 78 credits including AP/ADMS 1000 3.00, AP/ADMS 2400 3.00, and AP/ADMS 2600 3.00, or 2) for other students, a grade of B or better in AP/ADMS 2400 3.00 or HH/PSYC 3570, or 3) with instructor's permission. Course credit exclusions: None.

Cross-listed to: AP/ADMS 4444 3.00, AP/HRM 4444 3.00

AP/ADMS 4460 3.00 Organizational Development. Examines the design and implementation of programs for employee development at various organizational levels. Emphasis is placed on the integration of theoretical and experiential knowledge and the development of intervention skills as aids to understanding and responding to change in organizations. Prerequisites: For students in an Honours program, 78 credits including AP/ADMS 2400 3.00 and AP/HRM 2600 3.00 or for other students, a grade of C+ or better in AP/ADMS 2400 3.00 and AP/HRM 2600 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: For students in an Honours program, 78 credits including AK/ADMS 2400 3.00 and AK/ADMS 2600 3.00 or for other students, a grade of C+ or better in AK/ADMS 2400 3.00 and AK/ADMS 2600 3.00. Course credit exclusions: AK/ADMS 3450 3.00 (prior to Summer 1994), AK/ADMS 4460 3.00.

Cross-listed to: AP/ADMS 4460 3.00, AP/HRM 4460 3.00

AP/ADMS 4470 3.00 International Human Resources Management. Outlines the differences between domestic and international human resources management with specific emphasis on staffing, training, management development, compensation and benefits, union and employee relations. HRM practices in other countries are identified.

Prerequisites: AP/HRM 2600 3.00, AP/HRM 3410 3.00, AP/HRM 3430 3.00, AP/HRM 3470 3.00 and AP/HRM 3490 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001), AK/ADMS 3410 3.00, AK/ADMS 3430 3.00, AK/ADMS 3470 3.00, and AK/ADMS 3490 3.00. Course credit exclusion: AK/ADMS 4470 3.00.

Cross-listed to: AP/ADMS 4470 3.00, AP/HRM 4470 3.00

AP/ADMS 4480 3.00 Cross Cultural Management. Introduces students to essential theories, frameworks and concepts in Cross Cultural Management. Adopting an experiential learning approach it develops an understanding of how to manage and be managed in diverse cultural contexts. Prerequisites: For students in an Honours program, 78 credits including AP/ADMS 2400 3.00 and AP/HRM 2600 3.00, or for other students, a grade of C+ or better in AP/ADMS 2400 3.00 and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: For students in an Honours program, 78 credits including AK/ADMS 2400 3.00 and AK/ADMS 2600 3.00 or for other students, a grade of C+ or better in AK/ADMS 2400 3.00 and AK/ADMS 2600 3.00. Course credit exclusion: AK/ADMS 4480 3.00.

Cross-listed to: AP/ADMS 4480 3.00, AP/HRM 4480 3.00

AP/ADMS 4481 3.00 Organizational Communication. Presents basic theoretical and practical tools of organizational communication and introduces students to the principles and value of communicating effectively in any work setting and to different type of audience. The focus is on interpersonal communication and basic processes of informative and persuasive communication. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00 and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00, AK/ADMS 2400 3.00 and AK/ADMS 2600 3.00. Course credit exclusion: AK/ADMS 4481 3.00.

Cross-listed to: AP/ADMS 4481 3.00, AP/HRM 4481 3.00

AP/ADMS 4485 3.00 Executive Coaching. Provides an overview of the theoretical bases, underlying principles and practical guidelines of executive coaching. The objective is to understand the executive coaching process, its unique challenges and goals, and its role in the HR function. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 1000 3.00 and AP/HRM 2600 3.00, or 2) for other students, a grade of C+ or better in AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 1000 3.00; AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001), or 2) for other students, a grade of C+ or better in AK/ADMS 2600 3.00 or AK/ADMS 3480 3.00 (prior to Summer 2001). Course credit exclusion: AK/ADMS 4485 3.00.

Cross-listed to: AP/ADMS 4485 3.00, AP/HRM 4485 3.00

AP/ADMS 4490 3.00 Negotiations for Human Resource Management. Experiential exercises and case studies are used to gain critical skills for negotiating in a human resource management context. The objective is to learn how to analyze the key factors in a negotiation and plan a course of action. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00 and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00, AK/ADMS 2400 3.00, and AK/ADMS 2600 3.00. Course credit exclusion: AK/ADMS 4490 3.00.

Cross-listed to: AP/ADMS 4490 3.00, AP/HRM 4490 3.00

AP/ADMS 4495 3.00 Managing Effective Groups and Teams. Experiential exercises and group projects are used to help students gain insights into managing groups. The students will leave the course with knowledge on how to select, appraise, motivate, and provide feedback to teams in organizational settings. Prerequisites: AP/ADMS 1000 3.00, AP/ADMS 2400 3.00, and AP/HRM 2600 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 1000 3.00 and AK/ADMS 2600 3.00. Course credit exclusion: AK/ADMS 4495 3.00.

Cross-listed to: AP/ADMS 4495 3.00, AP/HRM 4495 3.00

AP/ADMS 4500 6.00 Seminar in Advanced Topics in Finance. Practical applications of advanced theories and techniques of finance. Content of the course will depend to some extent on the interests of the students. Prerequisite: 78 credits including AP/ADMS 4540 3.00 and six

credits in quantitative methods. Open only to: students in Honours programs. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: 78 credits including AK/ADMS 4540 3.00 and six credits in quantitative methods. Open only to: students in Honours programs. Course credit exclusion: AK/ADMS 4500 6.00.

AP/ADMS 4501 3.00 Advanced Portfolio Management. This course undertakes a rigorous study of the theory and empirical evidence relevant to professional portfolio management. Students learn tools which enable them to manage risks, allocate among asset classes, detect mispriced securities, and measure the performance of portfolio managers. Prerequisites: AP/ADMS 3330 3.00; AP/ADMS 3531 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 3330 3.00; AK/ADMS 3531 3.00. Course credit exclusions: AK/ADMS 4500 3.00 (prior to Summer 2006), AK/ADMS 4501 3.00.

AP/ADMS 4502 3.00 Ethics for Investment Managers. Students learn a basic ethical framework and the ethical standards expected of professional investment managers, including the CFA Code of Ethics and the Canadian regulatory environment. Students debate and challenge complex and multi-faceted ethics problems and case studies. Prerequisites: AP/ADMS 3531 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 4501 3.00. Course credit exclusion: AK/ADMS 4502 3.00.

AP/ADMS 4503 3.00 Derivative Securities. Explores pricing and use of derivative securities - futures and forward contracts, swaps and options -- traded on stocks, bonds, commodities, interest rates and currencies. Students learn how they work, how to hedge or speculate with them and how they are priced. Prerequisites: AP/ADMS 3530 3.00, AP/ADMS 3531 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 3530 3.00, AK/ADMS 3531 3.00. Course credit exclusion: AK/ADMS 4503 3.00.

AP/ADMS 4504 3.00 Fixed Income Securities and Risk Management. The objectives of this course are to describe important fixed income securities and markets and to explore key issues in risk management. It develops tools for valuing and modeling the risk exposures of fixed income securities and their derivatives, with the ultimate goal of deploying these instruments in a corporate or financial risk management setting. Prerequisite: AP/ADMS 3530 3.00. Corequisite: AP/ADMS 4503 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 3530 3.00. Corequisite: AK/ADMS 4503 3.00. Course credit exclusion: AK/ADMS 4504 3.00.

AP/ADMS 4505 3.00 Advanced Personal Finance. Builds on the basic financial planning taught in AK/ADMS 3541 3.00 to develop more planning skills in the areas of pre- and post-retirement planning, estate planning, insurance and probabilistic financial planning. Students will work with complex integrated case studies. Prerequisites: AP/ADMS 3520 3.00; AP/ADMS 3541 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: AK/ADMS 3520 3.00; AK/ADMS 3541 3.00. Course credit exclusion: AK/ADMS 4505 3.00.

AP/ADMS 4506 3.00 Professional Financial Planning. Students learn how to plan professionally. Topics include the client-professional relationship, information gathering, use of financial planning software, professional ethics and the Certified Financial Planner Code of Ethics. The student goes through the planning process with a family. If required, the course director will assist the student in finding a suitable family. Prerequisite: AP/ADMS 4505 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AK/ADMS 4505 3.00. Course credit exclusion: AK/ADMS 4506 3.00.

AP/ADMS 4510 3.00 Accounting Theory and Contemporary Issues. This course examines the nature of accounting, accounting theory and the extent to which it applies to current accounting practice as well as certain contemporary issues in accounting. The preparation of a major paper is also required. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3595 3.00, AP/ECON 1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. Prior TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3595 3.00, AK/ECON

1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4510 3.00.

AP/ADMS 4511 3.00 Managing and Implementing Strategic Information Systems. Takes the strategic perspective of the general manager and study how leading firms manage their IT investments. The course focuses on the business value that can be achieved rather than the details of the technology. Issues around strategic alignment and IT governance will pervade the course. Prerequisites: 78 credits including AP/ADMS 2511 3.00. Open only to: students in Honours programs. Not open to: students who have taken AK/ADMS 4300 6.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 2511 3.00 or AK/ADMS 3511 3.00 (prior to Summer 2005). Open only to: students in Honours programs. Not open to: students who have taken AK/ADMS 4300 6.00. Course credit exclusion: AK/ADMS 4511 3.00.

AP/ADMS 4515 3.00 Internal Audit. Introduces students to the objectives, concepts, principles and techniques of internal and management auditing, as applied to profit-pursuing, non-profit and government organizations. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 2500 3.00; AP/ADMS 2510 3.00, or 2) or other students an average grade of C+ or better in AP/ADMS 2500 3.00 and AP/ADMS 2510 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 2500 3.00; AK/ADMS 2510 3.00, or 2) or other students an average grade of C+ or better in AK/ADMS 2500 3.00 and AK/ADMS 2510 3.00. Course credit exclusions: AK/ADMS 3515 3.00 (prior to Summer 1996), AK/ADMS 4515 3.00.

AP/ADMS 4516 3.00 Audit, Assurance and Tax Risk Analysis and Operations. Uses an integrated case to apply theoretical and practical knowledge in the planning and execution of an assurance engagement with current software tools. It is a vital link between theory and the conduct of field work. Prerequisites: Completion of all accounting honours stream ADMS 1000, 2000 and 3000 level requirements including a grade of at least B in AK/AP/ADMS 4515 3.00 (or AK/AP/ADMS 4551 3.00) and AK/AP/ADMS 4562 3.00 and a grade point average in the major of at least 6.00 (preference will be given to those with higher grades in AK/AP/ADMS 4515 3.00 (or AK/AP/ADMS 4551 3.00) and AK/AP/ADMS 4562 3.00 and higher grade point averages in the major). Open to students enrolled in the BAS who have 15 credits or less remaining to complete their honours degree upon enrolment in the course. Note 1: This course brings current standards into the classroom by requiring students to deal with an integrated business case that uses information systems technology. Note 2: Students will be asked to work with skills applicable to research and field work, as they will be working with tools that assist them in the research and resolution of tax and assurance issues, as well as the completion of the evaluation of phases of the case. Note 3: Students are required to complete this course prior to their enrolment in the audit, assurance and tax internship course AP/ADMS 4519 0.00 (AK/ADMS 4519 0.00 prior to Fall 2009). Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 4516 3.00.

AP/ADMS 4517 3.00 Management, Planning and Organization of a Risk-Based IS (Information Systems) Audit. Covers the management, planning and organization of risk-based information systems auditing. Information systems auditing components of financial statement audits, internal and governmental auditing discussed in the context of the current regulatory and business environment. Prerequisites: AP/ADMS 2500 3.00, AP/ADMS 2510 3.00 and AP/ITEC 4030 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 2500 3.00, AK/ADMS 2510 3.00 and AK/ITEC 4030 3.00. Course credit exclusion: AK/ADMS 4517 3.00.

AP/ADMS 4518 3.00 Conducting and Documenting a Risk-Based IS (Information Systems) Audit. This course covers the conduct and documentation of information systems audits. Techniques such as testing of information systems controls and computer assisted audit tests of details are included. In addition to financial statement audits, internal and governmental auditing are discussed. Prerequisites: AP/ADMS 4515 3.00,

AP/ADMS 4517 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 4515 3.00, AK/ADMS 4517 3.00. Course credit exclusion: AK/ADMS 4518 3.00.

AP/ADMS 4519 0.00 Audit, Assurance or Tax Internship. The Audit, Assurance or Tax internship provides students with the opportunity to work full-time or part-time in the audit and assurance field as part of their degree program. The Experiential Education office will coordinate placement of students. Prerequisites: Completion of all accounting honours stream ADMS 1000, 2000 and 3000 level requirements including a grade of at least B in AK/AP/ADMS 4515 3.00 (or AK/AP/ADMS 4551 3.00), AK/AP/ADMS 4516 3.00 and AK/AP/ADMS 4562 3.00 and a grade point average in the major of at least 6.00 (preference will be given to those with higher grades in AK/AP/ADMS 4515 3.00 (or AK/AP/ADMS 4551 3.00) and AK/AP/ADMS 4562 3.00 and higher grade point averages in the major). This course is open to students enrolled in the BAS who have 15 credits or less remaining to complete their honours degree upon enrolment in the program. Note 1: The Experiential Education office, in consultation with the Audit and Tax area coordinators will select from those with the prerequisites who apply. Note 2: The Experiential Education office will provide selected applicants with instructions as to how and when to enrol in the course. Note 3: A student's grade in AP/ADMS 4519 0.00 will be recorded as a pass or fail on his or her transcript. Note 4: Students are required to register in this course in every term of their internship. A maximum of four terms is permitted. Note 5: The Experiential Education office will ensure that students are aware of work term report requirements and due date. Note 6: Every student registered in the course will be assigned a faculty supervisor who will assess the work term reports. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ADMS 4519 0.00.

AP/ADMS 4520 3.00 Advanced Financial Accounting I. This course covers the accounting for business combinations, long-term investments and affiliated companies. It also covers certain areas of accounting, like interim and segment reporting, which are specific to financial reporting by companies whose securities are publicly traded. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3595 3.00, AP/ECON 1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3595 3.00, AK/ECON 1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4520 3.00.

AP/ADMS 4530 3.00 Advanced Financial Accounting II. Covers certain advanced accounting topics, like accounting for the non-profit sector and accounting for the effects of changes in exchange rates, not covered in the intermediate financial accounting courses. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3595 3.00, or 2) for other students, an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3595 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4530 3.00.

AP/ADMS 4535 3.00 Financial Statement Analysis. Students learn comprehensive financial statement analysis: consideration of strategy and other qualitative elements; fundamental analytical techniques; how to assess accounting quality and restate financial statements; how to extract business insights from financial statement analysis; and how to write a comprehensive report on a company's financial performance. Prerequisites: AP/ADMS 3530 3.00; AP/ADMS 3585 3.00. Pre/Corequisite: AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 3585 3.00; AK/ADMS 3595 3.00. Course credit exclusions: AK/ADMS 3535 3.00 (prior to Summer 2006), AK/ADMS 4535 3.00.

AP/ADMS 4536 3.00 Security Valuation. Students will learn the theories, models and practice of valuing investments, primarily equity securities, with some attention paid to alternative investments. Prerequisite: AP/ADMS 4501 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 4501 3.00. Course credit exclusion: AK/ADMS 4536 3.00.

AP/ADMS 4540 3.00 Financial Management. Building upon introductory knowledge from ADMS 3530, the course covers bond duration and refunding, risk and return, capital budgeting under uncertainty, capital structure, dividend policy and risk management. Empirical evidence on corporate finance theories will also be analyzed. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3530 3.00 and six credits in management science, or 2) for other students, these above-listed courses and a grade of C+ or better in AP/ADMS 3530 3.00. Course credit exclusion: AP/ECON 4410 3.00. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3530 3.00 and six credits in management science, or 2) for other students, these above-listed courses and a grade of C+ or better in AK/ADMS 3530 3.00. Course credit exclusion: AK/ADMS 4540 3.00.

AP/ADMS 4541 3.00 Applied Corporate Finance. Explores corporate financial decision making through analytical and case study methods. Topics include working capital management, credit and product pricing, integration of credit policy with long-term strategic and operational decisions, venture financing, small business finances and risk management. Prerequisite: AP/ADMS 3530 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 4540 3.00. Course credit exclusion: AK/ADMS 4541 3.00.

AP/ADMS 4542 3.00 International Financial Management. Provides students with a framework for making corporate financial decisions in a global context. Topics include international monetary system, foreign exchange management and hedging techniques for different types of exposures, international parity relationships, and worldwide money, debt and equity markets. Prerequisite: AP/ADMS 3530 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3530 3.00. Course credit exclusion: AK/ADMS 4542 3.00.

AP/ADMS 4551 3.00 Auditing and Other Assurance Services. This course examines audit concepts and techniques. Coverage will include audit theory, the timing, nature and extent of audit testing, audit procedures and the application and interpretation of statistics in an audit context. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3585 3.00, AP/ECON 1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595. AP/ADMS 4535 3.00 is not required, but strongly recommended. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3585 3.00, AK/ECON 1000 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00. Course credit exclusion: AK/ADMS 4551 3.00.

AP/ADMS 4552 3.00 Information Systems Audits. Covers the audit of computer-based information systems. Topics include business/accounting information system applications, information systems risks, management controls, control evaluation, audit strategies and computer assisted audit techniques. Prerequisites: 1) For students in the Honours program, 78 credits including AP/ADMS 3595 3.00; AP/ADMS 4551 3.00; and AP/ADMS 2511 3.00 or 2) other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in the Honours program, 78 credits including AK/ADMS 3595 3.00; AK/ADMS 4551 3.00; and AK/ADMS 2511 3.00 or AK/ADMS 3511 3.00 (prior to Summer 2005) or 2) other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4552 3.00.

AP/ADMS 4553 3.00 Auditing: Advanced Topics. Examines current and/or advanced issues affecting the audit profession. Coverage includes the public's expectation of audits and various types of engagements

including: special reports, non-audits, prospectuses, future oriented financial statements and comprehensive audits. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3595 3.00, AP/ADMS 4551 3.00, or 2) or other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3595 3.00, AK/ADMS 4551 3.00, or 2) or other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4553 3.00.

AP/ADMS 4560 3.00 Income Taxation in Canada-Advanced Seminar. Builds on technical knowledge in other tax courses and applies it to practical problems and cases. Topics include recent Supreme Court decisions, planning for executive compensation, retirement, immigration, emigration, start-up and purchase and sale of a business, corporate reorganizations, wills, estates and trusts and investing offshore. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 4561 3.00, AP/ADMS 4562 3.00, or 2) for other students, an average grade of C+ or better in AP/ADMS 4561 3.00 and AP/ADMS 4562 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 4561 3.00, AK/ADMS 4562 3.00, or 2) for other students, an average grade of C+ or better in AK/ADMS 4561 3.00 and AK/ADMS 4562 3.00. Course credit exclusion: AK/ADMS 4560 3.00.

AP/ADMS 4561 3.00 Taxation Of Personal Income in Canada. Together with AP/ADMS 4562 3.00, introduces students to the principles and practice of Canadian taxation and related tax planning. Enables students to achieve a basic understanding of the Canadian Income Tax Act and its GST implications in relation to the individual. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3520 3.00; 2) or for other students, a grade of C+ or better in the above-listed course. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3520 3.00; 2) or for other students, a grade of C+ or better in the above-listed course. Course credit exclusion: AK/ADMS 4561 3.00.

AP/ADMS 4562 3.00 Corporate Taxation in Canada. Together with AP/ADMS 4561 3.00, introduces students to the principles and practice of Canadian taxation and related tax planning. Enables students to achieve a basic understanding of the Canadian Income Tax Act and its GST implications in relation to corporations, partnerships and trusts. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3520 3.00; 2) or for other students, a grade of C+ or better in the above-listed course. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3520 3.00; 2) or for other students, a grade of C+ or better in the above-listed course. Course credit exclusions: AK/ADMS 4562 3.00.

AP/ADMS 4563 3.00 Introduction to US Federal Income Taxation. An introduction to the taxation of individuals and corporations in the United States of America. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 2500 3.00 or AP/ADMS 3520 3.00, or (2) for other students, a grade of C+ or better in the one of the above-listed courses. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 2500 3.00 or AK/ADMS 3520 3.00, or 2) for other students, a grade of C+ or better in the one of the above-listed courses. Course credit exclusion: AK/ADMS 4563 3.00.

AP/ADMS 4564 3.00 Tax Law as an Instrument of Social and Economic Policy. Develops students' critical thinking, research, writing and communication skills on public policy issues through analysis of the Canadian government's pursuit of social and economic policy objectives through the tax system. Prerequisite: AP/ADMS 3520 3.00 or permission of instructor. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3520 3.00 or permission of instructor. Course credit exclusion: AK/ADMS 4564 3.00.

Cross-listed to: AP/ADMS 4564 3.00, AP/PPAS 4564 3.00

AP/ADMS 4570 3.00 Management Planning and Control Systems. A study of the process by which managers ensure that resources are obtained and used efficiently and effectively in accomplishing organizational objectives. Readings in cost accounting, finance, business policy and social psychology are applied to analyze case studies of actual situations. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3510 3.00 and six credits in management science, or 2) for other students, these above-listed courses and a grade of C+ or better in AP/ADMS 3510 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3510 3.00 and six credits in management science, or 2) for other students, these above-listed courses and a grade of C+ or better in AK/ADMS 3510 3.00. Course credit exclusion: AK/ADMS 4570 3.00.

AP/ADMS 4580 3.00 Applied Studies in Finance. The purpose of this course is to apply the material learned in other finance courses. This will be accomplished through case analyses and a major study of financing practices in a major sector of Canadian industry. Emphasis will also be placed on integrating financial decision-making within a general management framework. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3530 3.00, or 2) for other students, a grade of C+ or better in AP/ADMS 3530 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3530 3.00, or 2) for other students, a grade of C+ or better in AK/ADMS 3530 3.00. Course credit exclusion: AK/ADMS 4580 3.00.

AP/ADMS 4590 3.00 Comprehensive and Multi-subject Accounting Problems. This course enables students to apply their technical knowledge to complex accounting problems. Students will be required to interrelate the knowledge obtained from individual subject areas in order to identify problems, analyze data and formulate recommendations for action. Prerequisites: 1) For students in an Honours program, 78 credits including AP/ADMS 3510 3.00, AP/ADMS 3530 3.00, AP/ADMS 4510 3.00 (or AP/ADMS 4511 3.00; or AP/ADMS 4520 3.00 and AP/ADMS 4530 3.00), AP/ADMS 4551 3.00, AP/ADMS 4561 3.00 (or AP/ADMS 3520 3.00) and AP/ADMS 4562 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AP/ADMS 3585 3.00 and AP/ADMS 3595 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 1) For students in an Honours program, 78 credits including AK/ADMS 3510 3.00, AK/ADMS 3530 3.00, AK/ADMS 4510 3.00 (or AK/ADMS 4511 3.00; or AK/ADMS 4520 3.00 and AK/ADMS 4530 3.00), AK/ADMS 4551 3.00, AK/ADMS 4561 3.00 (or AK/ADMS 3520 3.00) and AK/ADMS 4562 3.00, or 2) for other students, these above-listed courses and an average grade of C+ or better in AK/ADMS 3585 3.00 and AK/ADMS 3595 3.00. Course credit exclusion: AK/ADMS 4590 3.00.

AP/ADMS 4650 3.00 International Institutions and International Law. An examination of the principles and rules of conduct which states observe in their relationships with one another, and with institutions, and of the legal organization of modern international society. Prerequisites: For students in an Honours program, 78 credits including AP/ADMS 1010 3.00. Open only to: students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: For students in an Honours program, 78 credits including AK/ADMS 1010 3.00 or AK/ADMS 2430 3.00 (prior to Summer 2005). Open only to: students in Honours programs. Course credit exclusion: AK/ADMS 4650 3.00.

AP/ADMS 4700 3.00 Sociology of Health Care. This course treats the sociological aspects of health. The ways in which people's social behaviour influences their chances of staying well, becoming ill or responding to health care are examined. Prerequisite: 1) For students in an Honours program, 72 credits including AP/ADMS 1000 3.00 and AP/ADMS 2300 6.00 or six credits in management science; or 2) other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 1) For students in an Honours program, 72 credits including AK/ADMS 1000 3.00 and AK/ADMS 2300 6.00 or six credits in management science; or 2) other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusion: AK/ADMS 4700 3.00.

AP/ADMS 4709 3.00 Terrorism: The New Threat. Focuses on various components of terrorism. Facilitates a closer examination of both conventional and changing nature of terrorism. Security practices that continue to be applied to the present-day threat will be discussed. New and unconventional anti-terror processes will be explored that are expected to curtail the rise of terrorism. Prerequisite/Corequisite: None. Opened to students in Emergency Mgmt program, or 60 credits completed, or permission of the course director. Course credit exclusions: None.

AP/ADMS 4710 3.00 The Canadian Health Care System. The components of the Canadian health care system; roles played by governments, professional organizations; contemporary issues of cost control; organization and delivery of health services. Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00; for students in other programs AP/ADMS 2300 6.00 or equivalent or permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: For BScN students HH/NURS 3300 3.00 or HH/NURS 2700 6.00; for students in other programs AK/ADMS 2300 6.00 or equivalent or permission of the course director. Course credit exclusions: AK/NURS 4710 3.00 (prior to F/W 2008), AK/ADMS 4710 3.00.

Cross-listed to: AP/ADMS 4710 3.00, HH/NURS 4710 3.00

AP/ADMS 4720 3.00 Management of Health Facilities. Examination of current trends and future directions in health facility management with emphasis on the evolving role of the executive officers. Areas covered include multi-hospital organizations, consolidations and mergers, relationships with external organizations, political and public influence on policy formulation. Prerequisite: 1) For students in an Honours program, 72 credits including AP/ADMS 1000 3.00 and AP/ADMS 2300 6.00 or six credits in management science, or 2) for other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 1) For students in an Honours program, 72 credits including AK/ADMS 1000 3.00 and AK/ADMS 2300 6.00 or six credits in management science, or 2) for other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusion: AK/ADMS 4720 3.00.

AP/ADMS 4730 3.00 Health Care Planning. This course addresses strategic planning for Health Care organizations from issue identification and prioritization to implementation and evaluation. The course integrates prior knowledge and skills enabling students to systematically analyze institutional Health Care issues. Prerequisite: 1) For students in an Honours program, 72 credits including AP/ADMS 1000 3.00 and AP/ADMS 2300 6.00 or six credits in management science; or 2) for other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 1) For students in an Honours program, 72 credits including AK/ADMS 1000 3.00 and AK/ADMS 2300 6.00 or six credits in management science; or 2) for other students, 72 credits, and an overall average grade of C+ or better. Course credit exclusion: AK/ADMS 4730 3.00.

AP/ADMS 4750 3.00 Current Issues for Health Care Professionals. This course examines the concept of professionalism, the role of professional associations in the health care field, ethical and legal issues facing health care professionals, and current legislation governing health care professionals. Prerequisites: 60 credits. Note: Not open to students in the collaborative BScN program. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 60 credits. Note: Not open to students in the collaborative BScN program. Course credit exclusion: AK/ADMS 4750 3.00.

Cross-listed to: AP/ADMS 4750 3.00, HH/NURS 4750 3.00

AP/ADMS 4760 3.00 Managerial and Leadership Competencies. This course is specifically designed to give students a "hands-on" application of key managerial/leadership competencies. It allows students to assess and understand their own managerial strengths and weaknesses and to develop a more well rounded repertoire of skills. Prerequisite: HH/NURS 3770 3.00 or AP/ADMS 3440 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/HH/NURS 3770 3.00 or AK/ADMS 3440 3.00 or equivalents. Course credit exclusions: AK/ADMS 4130L 3.00 (prior to Summer 1996), AK/ADMS 4760 3.00.

AP/ADMS 4780 3.00 Program Evaluation in Health Care Part II. An opportunity for students to further their knowledge of the methodology of program evaluation through practical experience in completing a program evaluation and assessing a program evaluation done by another student. Prerequisite: AP/ADMS 3720 3.00 or AP/ADMS 4770 3.00 or HH/NURS 3500 3.00 or HH/NURS 4500 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 3720 3.00 or AK/ADMS 4770 3.00 or AK/HH/NURS 3500 3.00 or AK/HH/NURS 4500 3.00. Course credit exclusion: AK/ADMS 4780 3.00.

Cross-listed to: AP/ADMS 4780 3.00, HH/NURS 4510 3.00

AP/ADMS 4810 3.00 Property Ownership and Government Housing Policy. The nature of private and public property ownership will be examined in the light of conservative, liberal and socialist theory. Housing policy as it has evolved in Canada will then be discussed and compared to housing policy in the US, the UK and other selected European countries. Prerequisites: 78 credits including AP/ADMS 1010 3.00, AP/ADMS 3810 3.00; AP/ECON 1000 3.00, AP/ECON 1010 3.00. Open only to: students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 1010 3.00 or AK/ADMS 2430 3.00 (prior to Summer 2005), AK/ADMS 3810 3.00; AK/ECON 1000 3.00, AK/ECON 1010 3.00. Open only to: students in Honours programs. Course credit exclusion: AK/ADMS 4810 3.00.

AP/ADMS 4900 3.00 Management Policy Part I. Strategy and policy identification, formulation, and evaluation are developed through lectures and case discussions. Emphasis is on integration of administrative studies subject areas with which the student has previously become familiar, to provide a framework for the analysis of strategic problems of general management. Prerequisites: 78 credits including AP/ECON 1000 3.00; AP/ECON 1010 3.00 and AP/ADMS 2320 3.00 (or equivalent). Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ECON 1000 3.00; AK/ECON 1010 3.00 and six credits in management science. Course credit exclusion: AK/ADMS 4900 3.00.

AP/ADMS 4910 3.00 Management Policy Part II. This course continues the study of strategy and policy begun in Part I. Emphasis is placed upon strategy and policy implementation, planning and other related issues. Decision-making processes which facilitate these activities are dealt with in lectures and utilized in practical exercises. Prerequisites: 78 credits including AP/ADMS 4900 3.00 and six credits in management science. Open only to students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits including AK/ADMS 4900 3.00 and six credits in management science. Open only to students in Honours programs. Course credit exclusion: AK/ADMS 4910 3.00.

AP/ADMS 4930 3.00 Organizational Simulation Studies. Applies computer-based simulation techniques to a real organization. Data gathering, model building and testing for optimization of parameters are done as a group project. Students act as members of consulting team and present report to management. Prerequisite: 78 credits including AP/ADMS 1000 3.00; AP/ECON 1000 3.00; AP/ECON 1010 3.00, and six credits in management science. Open only to students in Honours programs. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 78 credits including AK/ADMS 1000 3.00; AK/ECON 1000 3.00; AK/ECON 1010 3.00, and six credits in management science. Open only to students in Honours programs. Course credit exclusion: AK/ADMS 4930 3.00.

AP/ADMS 4940 3.00 Technology Management. Technology plays an important role in the competitive landscape. The challenge of managing technologies is immense. This course examines the challenges and the opportunities that technological change presents to companies and managers. Prerequisite: AP/ADMS 3930 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AK/ADMS 3900 3.00, AK/ADMS 3930 3.00. Course credit exclusion: AK/ADMS 4940 3.00.

AP/ADMS 4950 3.00 Principles of Consulting. Provides students with an introduction to consulting and the consulting industry. Students will learn the project/process management and analytical skills necessary for successful consulting engagements. These skills will also benefit those in support, advisory and management positions. Prerequisites/Corequisite:

AP/ADMS 4900 3.00. Note: AP/ADMS 4900 3.00 has several prerequisites which are not elaborated here but still apply. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites/Corequisite: AK/ADMS 4900 3.00. Note: AK/ADMS 4900 3.00 has several prerequisites which are not elaborated here but still apply. Course credit exclusion: AK/ADMS 4950 3.00.

AP/ADMS 4960 3.00 Principles of Consulting: Field Project. Provides students with an experiential learning opportunity, working in teams on a real-life consulting project. Students will learn to apply the theories and process management skills critical to successful consulting engagements. Prerequisites/Corequisites: AP/ADMS 4900 3.00, AP/ADMS 4950 3.00 (grade of B+ or better). Note 1: Students will be required to apply for this course and will be selected based upon their prior demonstrated knowledge and competence (to be determined in consultation with faculty in the relevant program areas), and the availability of suitable projects. A maximum of six projects per section is proposed to maximize the quality of student experiences. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites/Corequisites: AK/ADMS 4900 3.00, AK/ADMS 4950 3.00 (grade of B+ or better). Course credit exclusion: AK/ADMS 4960 3.00.

African Studies – Liberal Arts and Professional Studies

Location:

Okafor, Osgoode; M. Olaogun, English; J. Saul, Political Science; R. Saunders, Political Science; R. Simms, Music (Fine Arts); R.B. Witmer, Music (Fine Arts)

The interdisciplinary program in African Studies provides students with the opportunity to pursue their interest in Africa in conjunction with another discipline. Students can double major or minor in African studies and an Honours BA program in the Faculty of Liberal Arts and Professional Studies, or they can take a series of courses that complement their specialization in another subject area.

Students in the program usually take an interest not only in the broad range of thematic academic issues of the program, but also in the wider issues which have an impact upon Africa and its peoples. This interest is represented through a newsletter, events mounted by the program in conjunction with students, faculty and often the community and outside institutions. Because African studies has a commitment to both the intrinsic benefits of academic inquiry and to the well being of the peoples of Africa, the program can therefore equip students seeking to do graduate work, work with African communities within Canada and work abroad.

The African Studies program is designed to give graduates a broad theoretical framework and a set of highly-developed analytical skills. The career and employment opportunities for our graduates are potentially excellent, in view of society's growing awareness of the importance of international, gender and equity issues. Prospective employers welcome employees who are sensitive to international issues and comfortable with the emerging diversity of Canadian society. Alumni from our program have found work in a wide range of fields, including government, education, law, social work, public service, business and media. A degree in African studies will offer you the challenge of personal and political insight, and it will encourage you to grow intellectually beyond the confines of traditional academic learning.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

American Sign Language – Department of Languages, Literatures and Linguistics, Liberal Arts and Professional Studies

Note: for general regulations and enrolment information please see Languages, Literatures and Linguistics within this section.

Courses in American Sign Language

AP/ASL 1000 6.00 American Sign Language, Level I: Introduction to Sign Language Studies. American Sign Language (ASL) is a language with its own linguistic attributes and roots in the deaf community. Activities focus on using hands, face and other body parts to represent lexical and grammatical aspects of ASL, and on comprehension skills in elementary ASL-based conversation. Note: This course is offered in cooperation with the Deaf Education Program in the Faculty of Education. Course credit exclusion: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ASL 1800A 6.00.

AP/ASL 2000 6.00 American Sign Language, Level II. Activities include lessons on ASL II vocabulary, advanced sentence structures, manual and non-manual grammar, conversation strategies, development of viewing and signing skills and familiarization with genres of ASL literature. By year end, students will be able to discuss basic information in ASL. Note: This course is offered in cooperation with the Deaf Education Program in the Faculty of Education. Prerequisite: AP/ASL 1000 6.00 or equivalent, or permission of the course director. Course credit exclusion: None. Prior TO FALL 2009: Prerequisite: AS/ASL 1000 6.00 or equivalent, AP/ASL 1000 6.00, or permission of the course director. Course credit exclusions: AS/ASL 2800A 6.00 and AS/ASL 2000 6.00.

AP/ASL 3000 6.00 American Sign Language, Level III. This course is based on the Signing Naturally Level III curriculum of the Vista American Sign Language Series. Students apply advanced grammatical features and rehearse new vocabulary through classroom exercises and homework assignments. Note: This course is offered in cooperation with the Deaf Education Program in the Faculty of Education. Prerequisites: AP/ASL 2000 6.00, a rating of 2.0 or better on the ASL Proficiency Interview (ASLPI), or permission of the instructor. Course credit exclusion: None. PRIOR TO FALL 2009: Prerequisites: AP/ASL 2000 6.00, AS/ASL 2000 6.00, a rating of 2.0 or better on the ASL Proficiency Interview (ASLPI), or permission of the instructor. Course credit exclusion: AS/ASL 3000 6.00.

Professors Emeriti:

P. Harries-Jones, F. Henry, E. Kallen, J. Nagata, S. Romalis, G. Thaiss, J. Van Esterik

The Department of Anthropology concentrates on change in the contemporary world, especially in relation to new and emerging social challenges. As anthropologists, we are interested in exploring how people are subjected to, participate in and contest the processes of living in a world that is now interconnected by new and powerful economic, cultural and technological forces. Consideration is given to how class, race, gender and ethnic identity politics are produced and expressed in shifting local and global contexts of power. These themes are explored in a wide variety of courses that engage such topics as: development and the environment; media and popular culture; health, illness and disability; gender and sexualities; tourism, religion and science; diasporic communities and displaced peoples; violence and conflict; and the colonial process. Other courses focus on processes of change in the prehistoric and historic past. Our overall goal is to prepare students to ask critical questions about contemporary, past and future social life, and to provide students with the vital analytic tools required to understand our place in the social and cultural diversity of the world, past and present.

For specific program requirements, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Courses in Anthropology

AP/ANTH 1110 6.00 Introduction to Social Anthropology. An introduction to anthropology from the perspectives acquired through comparative study of primitive and complex societies. The course illustrates both the diversity and the recurring principles of social behaviour. Topics include economic organization, kinship patterns, political and legal systems, and ritual and religion. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 1110 6.00.

AP/ANTH 2100 6.00 One World, Many Peoples. A fundamental change in recent history has been the formation of an increasingly interdependent world amidst widespread diversity of societies and cultures. This course surveys the possibilities and problems of implementing programs of social, economic and cultural development within this context. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 2100 6.00.

AP/ANTH 2120 6.00 Visualizing Ourselves, Visualizing Others: Media, Representation and Culture. This course interrogates the relationship between media and culture. It focuses on media representations in different cultural contexts in order to develop critical analytical skills for understanding the processes through which identities and social inequalities are produced, contested and transformed. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 2120 6.00.

AP/ANTH 2140 6.00 Introduction to Archaeology and Palaeoanthropology: Humanity's Journeys. This course explores the biological evolution of human beings and historical development of human societies; the methods that palaeoanthropologists and archaeologists use to study the past; and the social context of such endeavours to know the past. Course credit exclusions: None. PRIOR TO FALL 2009: AS/ANTH 2140 6.00.

AP/ANTH 2150 6.00 Early Civilizations: Complex Societies of the New and Old Worlds. This course introduces students to anthropological archaeology's view of ancient civilizations and illuminates the web of connections that links them to 21st century global civilization. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 2150 6.00.

AP/ANTH 2170 6.00 Sex, Love and Marriage: Cross-Cultural Approaches to the Body, Gender, Sexuality and Kinship. This course critically examines popular explanations of what is considered natural (and what is not) about sex, gender, emotions and the family. Through a cross-cultural approach, biological models of natural gender

roles, as well as sexual and familial relations, are explored and questioned. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 2170 6.00.

AP/ANTH 2180 3.00 Social Anthropology of the Middle East. Despite the many sociocultural differences in the Middle East, there is, nevertheless, a sense of unity in diversity. Using anthropological concepts, such similarities and differences in religion, politics, the family, urban, rural and tribal life and modernization are explored. Course credit exclusions: None. PRIOR TO FALL 2009: AS/ANTH 2180 3.00.

AP/ANTH 2190 3.00 Perspectives in Feminist Anthropology. This course examines gender as a category of anthropological analysis. As well as exploring the relationship between feminism and anthropology, topics such as gender and violence, transnational feminisms, globalization and resistance are considered through ethnographic examples and a variety of theoretical approaches. Course credit exclusion: AP/ANTH 2190 6.00. PRIOR TO FALL 2009: AS/ANTH 2190 6.00.

AP/ANTH 2190 6.00 Perspectives in Feminist Anthropology. This course examines gender as a category of anthropological analysis. As well as exploring the relationship between feminism and anthropology, topics such as gender and violence, transnational feminisms, globalization and resistance are considered through ethnographic examples and a variety of theoretical approaches. Course credit exclusion: AP/ANTH 2190 3.00. PRIOR TO FALL 2009: AS/ANTH 2190 6.00.

AP/ANTH 2210 6.00 Public Anthropology. This course engages directly with contemporary events and issues, bringing anthropology into the public sphere. Combining academic and applied anthropology in a larger context, public anthropology illuminates and addresses contemporary problems, including inequality, cultural appropriation, land claims and human suffering. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 2110 6.00 (prior to Fall/Winter 2004-2005) and AS/ANTH 2210 6.00.

AP/ANTH 3020 6.00 Race, Racism and Popular Culture. This course concentrates on race and racism as a major source of conflict, particularly in Canadian, British and American societies. The theoretical literature on racism as well as applied models developed to reduce racial conflict will be studied in depth. Course credit exclusions: None. PRIOR TO FALL 2009: AS/ANTH 3020 6.00.

AP/ANTH 3030 3.00 Discourses Of Colonialism. This course explores the cultural and political significance of colonial discourse in the past and in the present, including an examination of the construction of Euro-American forms of knowledge about other peoples and how these understandings continue to shape global relations of power. Course credit exclusions: AP/ANTH 3030 6.00 PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3030 3.00 and AS/ANTH 3030 6.00 (prior to Fall/Winter 2004-2005).

AP/ANTH 3030 6.00 Discourses of Colonialism. This course explores the cultural and political significance of colonial discourse in the past and in the present, including an examination of the construction of Euro-American forms of knowledge about other peoples and how these understandings continue to shape global relations of power. Course credit exclusions: AP/ANTH 3030 3.00 PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3030 3.00 and AS/ANTH 3030 6.00 (prior to Fall/Winter 2004-2005).

AP/ANTH 3050 3.00 Disabling Lives: Anthropological Interpretations of Disability through Autobiography. After considering approaches that are distinctive to the interpretation of disability, this course considers autobiographical interpretations from social science perspectives. The above perspectives will then be combined by asking students to consider disability biographies. Course credit exclusions: AP/ANTH 3080 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3000G 3.00 (prior to Fall/Winter 2003-2004), AS/ANTH 3080 6.00 and AS/ANTH 3050 3.00.

AP/ANTH 3070 3.00 Psychics, Skeptics and Pseudoscience: A Cultural Critique of New Age. This course views the cacophony of ideas surrounding New Age and the attempt to justify various beliefs by pseudoscience/science. A cultural critique of New Age includes an analysis of technology, science and skepticism in various social and political contexts. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3000A 3.00 (prior to Fall/Winter 2002-2003) and AS/ANTH 3070 3.00.

AP/ANTH 3080 6.00 Modes of Enablement: A Cultural Perspective on Physical Disability. A comparative look at visible and non-visible disabilities, the relationship between the disabled and others. Topics include the symbolic and behavioural correlates of physical disability, relationships between the disabled, their support persons and the health professionals. Course credit exclusions: AP/ANTH 3050 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3000G 3.00 (prior to Fall/Winter 2003-2004), AS/ANTH 3050 3.00 and AS/ANTH 3080 6.00.

AP/ANTH 3090 6.00 Gender, Science and Society. This course focuses on a critical study of the biomedical sciences, especially the role of women in science, interpretations of their social and reproductive roles and an assessment of major concepts in the representation of gender and visible minorities in medicine. Course credit exclusions: None. PRIOR TO FALL 2009: AS/ANTH 3090 6.00.

AP/ANTH 3110 6.00 Acquiring Research Skills. This introduction to the experience and practice of research in anthropology focuses on learning qualitative research skills within the context of a project design and implementation. Fieldwork methods, project design, ethics and analysis, as the tools of anthropological research, are explored in this course. Prerequisite: AP/ANTH 1110 6.00 and a minimum of one 2000 level anthropology course. Course Credit Exclusion: None. PRIOR TO FALL 2009: Prerequisite: AS/ANTH 1110 6.00 and a minimum of one 2000 level anthropology course. Course Credit Exclusion: AS/ANTH 3110 6.00.

AP/ANTH 3120 6.00 The Anthropology of Tourism. This course explores the sites/sights of tourist practice. Beginning with an historical analysis of tourism in relationship to European colonial expansion, we then consider the cultural significance of contemporary tourism both at home and abroad. Course credit exclusions: AP/ANTH 3010B 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3010B 6.00 and AS/ANTH 3120 6.00.

AP/ANTH 3130 3.00 Archaeology and Society: Local Pasts in a Global Present. Archaeology and society are intertwined, locally and globally. This course interrogates those connections, examining the role of archaeological heritage and investigation within contemporary society, as well as the influence of social and political forces on archaeological interpretation, governance and practice. Course credit exclusions: AP/ANTH 3000N 3.00. Recommended prerequisites: AP/ANTH 2140 6.00; AP/ANTH 2150 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3000N 3.00 and AS/ANTH 3130 3.00. Recommended prerequisites: AS/ANTH 2140 6.00; AS/ANTH 2150 6.00.

AP/ANTH 3140 6.00 Archaeological Research Techniques: York University – MTRCA Summer Archaeological Field School. The course introduces students to basic methods of archaeological field work and laboratory analysis through the excavation of a late Iroquoian site in Ontario. Students will integrate the data derived from their investigations with what is known about the culture and history of the people under study. Prerequisite: Any one of AP/ANTH 2140 6.00, AP/ANTH 2150 6.00, or AP/ANTH 2160 6.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: Any one of AS/ANTH 2140 6.00, AS/ANTH 2150 6.00, or AS/ANTH 2160 6.00. Course credit exclusions: AS/ANTH 3140 6.00.

AP/ANTH 3150 6.00 Culture, Evolution and Ecology. The course begins with a discussion of Darwinian evolution and moves on to consider how global ecology alters these conventional views. Ideas about the interlinkage between evolution and ecology, and aspects of the new naturalistic approach are considered. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3150 6.00.

AP/ANTH 3160 6.00 Family and Kinship in Comparative Perspective.

This course seeks to develop cross-cultural perspectives on such topics as marriage and mating, the formation of domestic groups, extended kinship ties and social networks, the kindred and various forms of descent groups, the family as a pathway to madness and many other topics. The stress will be on the importance of kinship as an ideology and set of symbols for ordering human relationships. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3160 6.00.

AP/ANTH 3170 6.00 Historical Anthropology and the Politics of History.

This course examines (a) how and why anthropologists have incorporated history into their ethnographic work and (b) the ways in which the past is perceived and used, both by anthropologists and the people amongst whom they study. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3170 6.00.

AP/ANTH 3180 6.00 Human Evolution and Physical Anthropology.

An introduction to physical anthropology within the perspective of evolutionary theory. Topics include: the modern evolutionary synthesis; the primate fossil record; human physical evolution: ethnology and the evolution of behaviour; human biology in respect to adaptation and natural selection. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3180 6.00.

AP/ANTH 3190 3.00 Nutritional Anthropology: Food and Eating in Cross-Cultural Perspective.

This course examines nutritional anthropology from a biocultural perspective, stressing the social and cultural determinants of food use in industrial and developing societies. It examines the linkages between food, health and ethnic identity in the context of globalization. Course credit exclusions: AP/ANTH 3190 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3190 3.00 and AS/ANTH 3190 6.00.

AP/ANTH 3190 6.00 Nutritional Anthropology: Food and Eating in Cross-Cultural Perspective.

This course examines nutritional anthropology from a biocultural perspective, stressing the social and cultural determinants of food use in industrial and developing societies. It examines the linkages between food, health and ethnic identity in the context of globalization. Course credit exclusions: AP/ANTH 3190 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3190 3.00 and AS/ANTH 3190 6.00.

AP/ANTH 3200 3.00 The Anthropology of International Health.

Emphasizing the interplay of culture, history and political economy, this course explores health problems in the developing world. Topics include analyses of international health development ideology and practice, and case studies in infectious diseases, maternal mortality, child survival, hunger and malnutrition. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3200 3.00.

AP/ANTH 3220 6.00 Greed, Globalization and the Gift: The Culture of Capitalism.

This course examines capitalist enterprise historically and ethnographically. It focuses upon forms of corporate capitalism; the historic spread of capitalism and the world system; globalization; and the failure of neo-liberal development to deliver economic prosperity. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3220 6.00.

AP/ANTH 3230 6.00 Women, Culture and Society.

This course examines the contribution of anthropology to women's studies, including the relationship between biology and culture, the evolution and learning of sex roles, and the roles and status of women in comparative perspective. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3230 6.00.

AP/ANTH 3240 6.00 Sexing the Subject: Sexuality from a Cross-Cultural Perspective.

This course examines sexuality from a cross-cultural perspective in order to better understand how sexual practices, moralities and identities are constructed, contested and transformed in relation to cultural, political and economic forces. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3000M 3.00 (prior to Fall/Winter 2003-2004) and AS/ANTH 3240 6.00.

AP/ANTH 3280 6.00 Psychiatric Anthropology and Social Stress.

This course is concerned with furthering the mutual relevance of social anthropology and psychiatry, and with developing a true anthropology of suffering. It integrates theories and findings from the fields of medical anthropology, transcultural psychiatry, psychosomatic medicine, in its focus on psychosocial stress research. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3280 6.00.

AP/ANTH 3320 3.00 Religious Ritual and Symbolism.

This course explores anthropological approaches to the study of religion, including symbolic theory, ethnographic examples and materials on ritual events. Topics may include shamans, sorcery and witchcraft, and specific examples of Asian and European religions and New Age religious movements. Course credit exclusions: AP/ANTH 3320 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3320 3.00 and AS/ANTH 3320 6.00.

AP/ANTH 3320 6.00 Religious Ritual and Symbolism.

This course explores anthropological approaches to the study of religion, including symbolic theory, ethnographic examples and materials on ritual events. Topics may include shamans, sorcery and witchcraft, and specific examples of Asian and European religions and New Age religious movements. Course credit exclusions: AP/ANTH 3320 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3320 3.00 and AS/ANTH 3320 6.00.

AP/ANTH 3330 6.00 Health and Illness in Cross-Cultural Perspective.

Comparative perspectives on health, illness and medical systems are studied from the viewpoint of anthropology and related disciplines. Emphasis is placed on understanding the roles of the practitioner and patient in their social and cultural contexts and the importance of applied medical anthropology to the wider community. Course credit exclusions: AP/ANTH 4330 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3330 6.00 and AS/ANTH 4330 6.00.

AP/ANTH 3350 6.00 Culture as Performance: The Anthropology of the Arts.

This course covers expressive aspects of culture: ritual, drama, the visual arts, dance and oral literature, in the framework of contemporary anthropological theories. Course credit exclusions: AP/ANTH 3350 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3350 3.00 and AS/ANTH 3350 6.00.

AP/ANTH 3360 6.00 The Politics of Power: Sexuality, Violence and Property in Everyday Life.

This course focuses on the interconnections among three key sites of the everyday politics of power - sexuality (the body), violence and property - in a wide variety of different societies and cultures. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3360 6.00.

AP/ANTH 3370 6.00 Power and Violence: The Making of "Modernity".

This course examines the creation and perpetuation of the so called modern world modernity as a dominant socio-cultural system through its increasing proliferation and use of extreme forms of organized violence. It also examines the existence and possibilities of non-violent alternatives. Course credit exclusions: AP/ANTH 3370 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3370 3.00 and AS/ANTH 3370 6.00.

AP/ANTH 3400 6.00 Altering States: Citizenship and Civil Society in a Globalizing World.

The idea of civil society has stirred social imaginations and political aspirations across the globe in recent years. This course analyzes those contexts where debates over civil society, citizenship, power and the state are located and contested. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3400 6.00.

AP/ANTH 3410 6.00 Ethnicity and Nationalism.

This course examines the significance and perception of ethnicity and of class, both as concepts and as modes of establishing or of manipulating identity and of organizing social life in non-Western societies. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3410 6.00.

AP/ANTH 3420 3.00 Indigenous Minorities and Human Rights. This course focuses on how nation states define majorities and minorities, and how such definitions are contested by populations striving for cultural, political and human rights. Questions include: How do people get classified as indigenous or aboriginal? How has globalization enhanced awareness of human rights? Course credit exclusions: AP/ANTH 3420 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3420 3.00 and AS/ANTH 3420 6.00.

AP/ANTH 3420 6.00 Indigenous Minorities and Human Rights. This course focuses on how nation states define majorities and minorities, and how such definitions are contested by populations striving for cultural, political and human rights. Questions include: How do people get classified as indigenous or aboriginal? How has globalization enhanced awareness of human rights? Course credit exclusions: AP/ANTH 3420 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3420 3.00 and AS/ANTH 3420 6.00.

AP/ANTH 3510 3.00 Indigenous Peoples and Archaeology: From Conflict to Coalition. This course examines the changing relationship of Indigenous peoples and archaeology. Previously marked by conflict, but now by cooperation, this relationship is improving as artifacts and ancestors are repatriated, and as archaeologists focus on the lived experiences of past people. Recommended: AP/ANTH 2140 6.00; AP/ANTH 2150 6.00. Course credit exclusions: None. PRIOR TO FALL 2009: Recommended: AS/ANTH 2140 6.00; AS/ANTH 2150 6.00. Course credit exclusions: AS/ANTH 3510 3.00.

AP/ANTH 3520 3.00 The Social Lives of Places and Things: Material Culture and the Archaeology of the Contemporary Past. This course addresses the 'stuff of life' - the material things and constructed places around us. As the physical manifestations of culture, things and places both reflect and affect social relationships. Full of meaning, they can be 'read' with archaeological techniques. Recommended prerequisites: AP/ANTH 2140 6.00 or AP/ANTH 2150 6.00 or AP/ANTH 3130 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Recommended prerequisites: AS/ANTH 2140 6.00 or AS/ANTH 2150 6.00, or AS/ANTH 3130 3.00. Course credit exclusions: AS/ANTH 3520 3.00.

AP/ANTH 3550 6.00 Science as Practice and Culture: Introduction to the Anthropology of Science and Technology. This course is an introduction to the anthropology of science and technology. In this course we read ethnographies of laboratories to explore how scientific facts are made, and how institutions and instruments are deployed to reproduce scientific cultures and knowledge. Course credit exclusion: SC/STS 3550 6.00. PRIOR TO FALL 2009: Course credit exclusion: AS/ANTH 3550 6.00 and SC/STS 3550 6.00.

Cross-listed to: AP/ANTH 3550 6.00, SC/STS 3550 6.00

AP/ANTH 4010 3.00 Directed Reading. A student may take an independent, individually supervised directed reading course, provided that the student and the course meet the requirements as set out by the Faculty of Liberal Arts and Professional Studies and those established by the department. Note: Directed reading courses require a signed agreement between the student and faculty member, as well as the approval of the undergraduate director. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4010 3.00.

AP/ANTH 4010 6.00 Directed Reading. A student may take an independent, individually supervised directed reading course, provided that the student and the course meet the requirements as set out by the Faculty of Liberal Arts and Professional Studies and those established by the department. Note: Directed reading courses require a signed agreement between the student and faculty member, as well as the approval of the undergraduate director. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4010 6.00.

AP/ANTH 4030 6.00 Intercultural Training Skills. The purpose of this course is to offer students a body of theoretical knowledge and a repertoire of tools and skills that can be applied to training in intercultural communication, anti-racism, educational and employment equity and

organizational development. Course credit exclusions: AP/ANTH 4200A 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4200A 6.00 and AS/ANTH 4030 6.00.

AP/ANTH 4110 6.00 Development of Theory in Social Anthropology. Starting from the major scholars of the last century, the course of anthropology is critically traced through the present century, with the ultimate aim of assessing the contemporary condition of social anthropology. Prerequisites: AP/ANTH 1110 6.00, AP/ANTH 3110 6.00 and a minimum of one 2000 level anthropology course. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AS/ANTH 1110 6.00, AS/ANTH 3110 6.00 and a minimum of one 2000 level anthropology course. Course credit exclusions: AS/ANTH 4110 6.00.

AP/ANTH 4120 3.00 Re-conceiving Kinship: Advanced Perspectives on Relatedness. This course explores contemporary debates in anthropology on the nature of kinship and relatedness. Beginning with a cultural critique of traditional perspectives, we consider how feminist theory, gender studies, and new reproductive technologies have reshaped the anthropological study of kinship. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4120 3.00.

AP/ANTH 4170 3.00 Advanced Historical Anthropology and the Politics of History. This course examines (a) how and why anthropologists have incorporated history into their ethnographic work and (b) the ways in which the past is perceived and used, both by anthropologists and the people amongst whom they study. Course credit exclusions: AP/ANTH 3170 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3170 6.00 and AS/ANTH 4170 3.00.

AP/ANTH 4180 6.00 Anthropology, Islam and Muslim Societies. This course examines debates amongst anthropologists about the study of Islam and Muslim societies, and Muslim expressions of Islam according to anthropological themes including the body, space, ritual, knowledge, agency and representation. Students design and undertake a field-based research project. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4180 6.00.

AP/ANTH 4200 3.00 Practicing Ethnography: Advanced Approaches to Ethnographic Methods. This course provides students with the opportunity to engage critically with and apply qualitative research methods toward the production, individually and collectively, of ethnographic analyses. Course credit exclusions: None. Note: AP/ANTH 3110 6.00 recommended. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4200 3.00. Note: AS/ANTH 3110 6.00 recommended.

AP/ANTH 4220 6.00 The Cultures of the Web. This course applies anthropological concepts of community and culture to the Internet. Beginning with the cultural context of virtual communication, students experience fieldwork within a virtual culture and relate this experience to current research. Course credit exclusions: AP/ANTH 4200H 6.00 and AP/ANTH 4210H 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4200H 6.00, AS/ANTH 4210H 3.00 and AS/ANTH 4220 6.00.

AP/ANTH 4230 3.00 Anthropology of Space and Place. This course articulates anthropological and interdisciplinary ways of studying place and space that interrogate modernist separations. It explores contemporary and historical placemaking and spatial fragmentation. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4230 3.00.

AP/ANTH 4240 3.00 Global Environments, Livelihoods, and Social Justice. This course provides an anthropological perspective on the cultural politics of environment and development. Drawing on ethnographic case studies from diverse geographical contexts, the course examines the cultural practices, ideologies and discourses that inform environmental struggles and affect the livelihoods of marginal peoples across the globe. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4240 3.00.

AP/ANTH 4250 6.00 Religious Movements in Global Perspective. Within a framework of the politics of identity, this course explore the tension between religious and national identities, the character and scope of transnational religious communities, and takes up fundamentalism as one response to developments in cosmopolitan modern societies. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4200J 6.00 (prior to Fall/Winter 2003-2004) and AS/ANTH 4250 6.00.

AP/ANTH 4260 6.00 Social and Cultural Change. Critical considerations of the theoretical dimensions in this field of anthropology (concepts, models, methodologies, explanations) leads to study of the causes, processes and effects of social change in a range of developed and Third World societies. Particular and contrasting case studies are examined in detail. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4260 6.00.

AP/ANTH 4270 3.00 Imagined Societies: An Anthropology of Nations Without Boundaries. Utilizing a selected world wide set of examples, this course explores how minority communities within national boundaries attempt to construct their own national identities. These illustrations underwrite a full discussion of the possibility or impossibility of such minority national identities. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4210D 3.00 (prior to Fall/Winter 1999-2000) and AS/ANTH 4270 3.00.

AP/ANTH 4330 6.00 Advanced Health and Illness in Cross-Cultural Perspective. Comparative perspectives on health, illness and medical systems are studied from the viewpoint of anthropology and related disciplines. Emphasis is placed on understanding the roles of the practitioner and patient in their social and cultural contexts and the importance of applied medical anthropology to the wider community. Course credit exclusions: AP/ANTH 3330 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 3330 6.00 and AS/ANTH 4330 6.00.

AP/ANTH 4340 6.00 Advocacy and Social Movements. This course examines how modern forms of communication have totally transformed the nature of advocacy and the social construction of knowledge in modern society. Specifically, it examines ways in which cultural norms are modified by the activities of social movements. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4340 6.00.

AP/ANTH 4350 3.00 Perspectives in Visual Anthropology. This course examines how humans produce, receive and use visual media (i.e., photographs, film, etc.) in different societies and cultures, how the visual is differentiated from other forms of expression, and the social and cultural apparatus that support such processes. Course Credit Exclusion:None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/ANTH 4350 3.00.

AP/ANTH 4410 3.00 The Anthropology of Human Rights. This course surveys anthropology's attempts to confront, analyze, and reframe claims about the nature of human beings implicit in the discourse of human rights. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ANTH 4410 3.00.

Cross-listed to: AP/ANTH 4410 3.00, AP/HREQ 4410 3.00

AP/ANTH 4420 3.00 The Anthropology of Gender and War. This course explores how gender relations have been deployed in sites of militarized conflict to incite, exacerbate and fuel violence; the reasons for and the ways in which war is increasingly waged on the bodies of unarmed civilians; the massive scale of displacement and the gendered experience of both conflict and asylum, among other topics. Note: All spaces are reserved for 3rd and 4th year majors. Course credit exclusions: None.

AP/ANTH 4440 3.00 Toward an Anthropology of Masculinities. Taking its lead from feminist anthropology, an anthropology of masculinities is dedicated to analyzing formations of and relationships between gender, power, and culture. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/ANTH 4440 3.00.

Certificate in Anti-Racist Research and Practice (CARRP) – Liberal Arts and Professional Studies

Location:

Department of Equity Studies, 302 Atkinson Building, Tel.: 416-736-5235, Fax: 416-650-3876, E-mail: deqs@yorku.ca

Coordinator:

M. Jacobs

Affiliated Faculty:

T. Das Gupta, L. Foster, M. Goodman, M. Jacobs, H. Moghissi

The interdisciplinary certificate in Anti-Racist Research and Practice (CARRP), addresses racism and racial issues in the workplace, schools, healthcare, immigration, law enforcement, media and the expressive arts. Students who complete the certificate and are accepted into the Social Work program will be eligible to count up to 12 certificate credits towards the social work degree provided these courses are passed at a minimum grade of B.

Applied Mathematics – Science and Engineering

Refer to Mathematics and Statistics.

Arabic – Department of Languages, Literatures and Linguistics, Liberal Arts and Professional Studies

Note: for general regulations and enrolment information please see Languages, Literatures and Linguistics within this section.

Courses in Arabic

AP/ARB 1000 6.00 Introduction to Modern Standard Arabic. This course is an introduction to standard written and formal spoken Arabic for true beginners. Course credit exclusions: AS/ARB 1000 6.0 (Prior to Fall 2009).

Language of Instruction: Arabic/English

AP/ARB 2000 6.00 Intermediate Arabic. This course focuses on the acquisition of more complex grammatical structures, expanding vocabulary and discourse skills, and on developing competence in a wide range of communicative situations in Arabic. Prerequisite: AP/ARB 1000 6.00; AS/ARB 1000 6.00 (Prior to Fall 2009) or permission of the department. Course credit exclusions: AS/ARB 2000 6.00 (Prior to Fall 2009).

Language of Instruction: Arabic

AP/ARB 2700 6.00 Introduction to Arab Culture. This course presents textual sources in Arabic literature, philosophy and scripture, and is designed to introduce students to major aspects of Arabic and Islamic culture from the classical to the modern period. Course credit exclusions: AS/ARB 2700 6.00 (Prior to Fall 2009). Note: Knowledge of Arabic is desirable, but not required.

AP/ARB 3000 6.00 Advanced Standard Arabic. This course builds on the listening, speaking, reading and writing skills developed in AP/ARB 2000 6.00; AS/ARB 2000 6.00 (Prior to Fall 2009). Students study passages from different disciplines, present short dialogues, and lead prepared discussions on different topics. This course also helps students develop translation skills. Prerequisite: AP/ARB 2000 6.00; AS/ARB 2000 6.00 (Prior to Fall 2009) or permission of the department. Course credit exclusions: AS/ARB 3000 6.00 (Prior to Fall 2009).

Language of Instruction: Arabic/English

Norman Bethune College – Science and Engineering

Location:

205 Norman Bethune College, Tel.: 416-736-5164, ext. 22035

J. Elwick

Science Courses

SC/BC 1800 3.00 First-Year University Seminar in Science. Each seminar course is a small-group (25-student) in-depth exploration of a topic of current scientific interest, led by a faculty member actively interested in the area. The aim is to introduce students to university scholarship in science. Three credits. Note: Open only to students in their first year of university studies in Science or by permission of the instructor.

SC/BC 3030 3.00 Technical and Professional Writing. This writing-intensive course is for upper-year science students and others in related fields. Students develop confidence and competence in professional and technical writing. Focus is on communication of complex information in a clear, sensible style. Three hours per week. One term. Three credits. Prerequisite: At least six non-science general education credits. Corequisite: Concurrent enrolment in at least one 3000- or 4000-level Science course (or course which is cross-listed with a Science course), or permission of the instructor.

Biochemistry – Science and Engineering

Biochemistry, the chemistry of life, underpins much of biological, biotechnological and biomedical research today. As a biochemistry major, you will explore the structure and function of molecules in organisms, genomic research with cutting-edge DNA technology, and investigate the cell's proteomes. Biochemists are employed in the rapidly expanding biotechnology and pharmaceutical industries, in academic or hospital research centres, as well as in teaching at schools, colleges and universities. A biochemistry degree is also an entry into professional schools in medicine and other health professions, business and law.

Courses in Biochemistry

SC/BCHM 2020 4.00 Cell Biology and Biochemistry I. A study of the cell biology and biochemistry of biomolecules. Topics include intermediary metabolism related to bioenergetics, including the biology of mitochondria and chloroplasts, protein structure and function, nucleic acid replication, gene expression, chromosome organization and recombinant DNA technology. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 1010 6.00; both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, or SC/CHEM 1000 6.00. Course credit exclusion: SC/CHEM 2050 4.00

Cross-listed to: SC/BCHM 2020 4.00, SC/BIOL 2020 4.00

SC/BCHM 2021 4.00 Cell Biology and Biochemistry II. A study of those aspects of cell biology and biochemistry not included in SC/BIOL 2020 4.00. Topics include membranes, the endomembrane system, the cytoskeleton, cellular motility, the extracellular matrix, intercellular communication and intracellular regulation. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00, or both SC/BIOL 1010 6.00 and SC/CHEM 2050 4.00.

Cross-listed to: SC/BCHM 2021 4.00, SC/BIOL 2021 4.00

SC/BCHM 3010 3.00 Advanced Biochemistry. A detailed discussion of enzyme structure and function. The chemistry and metabolism of biological molecules. Metabolic regulation at the level of enzyme activity. Knowledge of general concepts of metabolism and of basic aspects of

enzyme structure and function is assumed. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3010 3.00, SC/BIOL 3010 3.00, SC/CHEM 3050 3.00

SC/BCHM 3051 3.00 Macromolecules of Biochemical Interest. A discussion of the structures and functions of naturally occurring macromolecules, including nucleic acids, proteins, polysaccharides and related macromolecular conjugates. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 2020 6.00 and either SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00.

Cross-listed to: SC/BCHM 3051 3.00, SC/BIOL 3051 3.00, SC/CHEM 3051 3.00

SC/BCHM 3071 3.00 Pharmaceutical Discovery. A practical look into the pharmaceutical industry, providing an overview of the drug discovery process. Topics include choosing disease states to study, pharmacological assays, rational drug design, synthetic and analytical chemistry, toxicology, drug metabolism and clinical trials. Three hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3071 3.00, SC/BIOL 3071 3.00, SC/CHEM 3071 3.00

SC/BCHM 3110 3.00 Molecular Biology I: Nucleic Acid Metabolism. Discussion of the metabolism of DNA and RNA, including the physical-chemical properties of nucleic acids; DNA-protein interactions; chromosome structure; nucleic acid replication, repair and recombination; recombinant DNA technology. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00; SC/BIOL 2021 4.00 or SC/BCHM 2021 4.00; SC/BIOL 2040 4.00.

Cross-listed to: SC/BCHM 3110 3.00, SC/BIOL 3110 3.00

SC/BCHM 3130 3.00 Molecular Biology II: Regulation of Gene Expression. Gene structure and function. Mechanisms of gene expression in prokaryotes and eukaryotes. Storage and retrieval of genetic information; transcription, translation and their control. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00.

Cross-listed to: SC/BCHM 3130 3.00, SC/BIOL 3130 3.00

SC/BCHM 3140 4.00 Advanced Biochemistry and Molecular Genetics Laboratory. Research techniques used in biochemistry and molecular biology, including recombinant DNA technology, are illustrated. Purification of a restriction endonuclease; isolation and mapping of bacterial plasmids, bacteriophage and recombinant molecules; polymerase chain reaction (PCR); nucleic acid hybridization. Enrolment restricted. One lecture hour, six laboratory hours two days per week, plus additional laboratory hours throughout the week. One term. Four credits. Prerequisite or corequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00. SC/BIOL 3130 3.00 or SC/BCHM 3130 3.00 strongly recommended as a prerequisite or corequisite.

Cross-listed to: SC/BCHM 3140 4.00, SC/BIOL 3140 4.00

SC/BCHM 4000 8.00 Biochemistry Research Project. An independent research project, supervised by a faculty member specializing in Biochemistry. Evaluation is based on practical performance, an oral presentation and a written thesis. May be carried out in one term or two consecutive terms. At least 288 hours of work on the project are required. Detailed guidelines are provided in the Biochemistry Handbook. Eight credits. Only open to Honours Biochemistry students in the final year of study, or by permission of the program. Course credit exclusion: SC/CHEM 4000 8.00.

SC/BCHM 4050 3.00 Bioanalytical Chemistry. This course describes modern methods of bioanalytical chemistry in their application to the analysis of biological polymers: proteins, nucleic acids, carbohydrates and lipids. Analytical aspects of genomics and proteomics are considered. Three lecture hours per week. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/BIOL 2021 4.00 or SC/BCHM 2021 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 4050 3.00, SC/BIOL 4051 3.00, SC/CHEM 4050 3.00

SC/BCHM 4051 3.00 Biological Chemistry. Bio-organic and bio-inorganic topics: active sites in enzymes and metalloproteins, coenzymes; abiotic models; aromatic natural products, terpenoids and some alkaloid classes. Three lecture hours. One term. Three credits. Prerequisites: SC/CHEM 2020 6.00 and either SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00; SC/CHEM 2030 4.00 or SC/CHEM 2030 3.00 is strongly recommended.

Cross-listed to: SC/BCHM 4051 3.00, SC/CHEM 4051 3.00

SC/BCHM 4061 3.00 Cell and Molecular Biology of Development. This course presents a genetic and molecular biological approach to the field of developmental biology. Topics range from unicellular systems, both prokaryotic and eukaryotic, to more complex, multicellular systems. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

Cross-listed to: SC/BCHM 4061 3.00, SC/BIOL 4061 3.00

SC/BCHM 4150 3.00 Cellular Regulation. A detailed examination of molecular, cellular and physiological processes associated with the action of peptide hormones, neuro-transmitters and growth factors. Emphasis is on cell receptors and signal transduction mechanisms involving cyclic nucleotides and calcium. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 3010 3.00 and SC/BIOL 3110 3.00 strongly recommended as prerequisites or corequisites.

Cross-listed to: SC/BCHM 4150 3.00, SC/BIOL 4150 3.00

SC/BCHM 4151 3.00 Membrane Transport. The fundamental properties of solute transport are presented by discussing active ion pumps, passive transporters and ion channels of bacteria, plants and animals. The role of transport in regulating the intracellular environment in animals and plants is emphasized. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 3010 3.00 and SC/BIOL 3110 3.00 strongly recommended as prerequisites or corequisites.

Cross-listed to: SC/BCHM 4151 3.00, SC/BIOL 4151 3.00

SC/BCHM 4160 3.00 Photosynthesis. A study of the process of photosynthesis at the biochemical, organelle and whole-organism levels, including structure of the photosynthetic apparatus, primary light-harvesting processes, electron transport, photophosphorylation, mechanism of carbon dioxide fixation in higher plants and algae, photorespiration. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisite: SC/BCHM 2021 4.00.

Cross-listed to: SC/BCHM 4160 3.00, SC/BIOL 4160 3.00

SC/BCHM 4290 4.00 Biotechnology. This laboratory course covers some of the methods currently in use in biotechnology research in industry and academia. Emphasis is placed on methods for transforming eukaryotes with marker genes. Advanced methods used in molecular biology are also covered. Two lecture hours, six laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00.

Cross-listed to: SC/BCHM 4290 4.00, SC/BIOL 4290 4.00

Biology – Science and Engineering

Location:

247 Farquharson Building, Tel.: 416-736-5243

Undergraduate Office:

108 Farquharson Building, Tel.: 416-736-5311

Chair:

I. Coe

Undergraduate Program Director:

T. Noel

University Professor Emeritus:

R.E. Pearlman

Professors:

S. Benchimol, A.J. Hilliker, R.R. Lew, L.E. Licht, J.C. McDermott, L.D.M. Packer, C. Peng, J. Sapp, J.S. Shore, C.G.H. Steel, B.J. Stutchbury, R.A. Webb, K.A. White, H. Wilson, N. Yan

Professors Emeriti:

B. Colman, A. Forer, B.G. Loughton

Associate Professors:

D.R. Bazely, I. Coe, M.M. Crerar, L. Donaldson, K. Hudak, S. Kelly, P. Lakin-Thomas, R. Quinlan, M. Scheid, G. Sweeney, R. Tsushima

Assistant Professors:

M. Bayfield, A. Donini, T. Kubiseski, C. Lortie, V. Saradakis, Y. Sheng, S. Unniappan, A. Zayed

Associate Lecturers:

T. Noel, P.J. Wilson

Assistant Lecturers:

J. Clark, T. Kelly

Biology is the science of life. It is concerned with structure, function, evolution and distribution of all living organisms. The Department of Biology is sufficiently large and its faculty members sufficiently varied in research interests to offer undergraduate instruction in all the major areas of biology. It specializes, however, in four areas: physiology, cell biology, molecular biology and population biology. Specialized programs in biology (see the Faculty of Science and Engineering Programs of Study section) require completion of a prescribed core of courses which expose the student to general areas of biology, but also give the student wide flexibility in selecting courses.

Courses in Biology

Biology courses whose numbers begin with the digit 4 are normally offered in alternate years—with the exception of SC/BIOL 4000 3.00/SC/BIOL 4000 8.00, SC/BIOL 4040 3.00, SC/BIOL 4200 3.00, SC/BIOL 4290 4.00, SC/BIOL 4245 3.00, SC/BIOL 4255 3.00 and SC/BIOL 4370 3.00, which have been offered annually in recent years.

The contact hour information in the course outlines below specifies the number of hours per week when the course is taught in the daytime in a fall/winter session. If the course is offered in the evening and/or in a summer session, the format and scheduling may be different, though equivalent in credit value.

SC/BIOL 1010 6.00 Biological Science. A course for biology students examining unifying concepts and fundamental principles of biology. The course offers an introduction to cell and molecular biology, genetics, ecology and evolution. The laboratory exercises are an integral component, therefore, students must pass the laboratory section in order to pass the course. Three lecture hours, two lecture hours per week in alternate weeks; one tutorial hour per week; 12 three-hour laboratories. Two terms. Six credits. Prerequisite: OAC chemistry or 12U chemistry or SC/CHEM 1500 4.00. Course credit exclusion: SC/BIOL 1410 6.00.

SC/BIOL 1601 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enrol. Students may enrol in this course during any term, and there is no limit to the number of terms in which they are allowed to enrol. Students will not be allowed to enrol in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.00. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in biology or biochemistry majors.

SC/BIOL 1602 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10

hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 1603 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 2010 4.00 Plant Biology. Current advances in plant biology research, highlighting plant structure, physiology, development and diversity. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 1010 6.00.

SC/BIOL 2020 4.00 Cell Biology and Biochemistry I. A study of the cell biology and biochemistry of biomolecules. Topics include intermediary metabolism related to bioenergetics, including the biology of mitochondria and chloroplasts, protein structure and function, nucleic acid replication, gene expression, chromosome organization and recombinant DNA technology. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 1010 6.00; both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, or SC/CHEM 1000 6.00. Course credit exclusion: SC/CHEM 2050 4.00

Cross-listed to: SC/BCHM 2020 4.00, SC/BIOL 2020 4.00

SC/BIOL 2021 4.00 Cell Biology and Biochemistry II. A study of those aspects of cell biology and biochemistry not included in SC/BIOL 2020 4.00. Topics include membranes, the endomembrane system, the cytoskeleton, cellular motility, the extracellular matrix, intercellular communication and intracellular regulation. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00, or both SC/BIOL 1010 6.00 and SC/CHEM 2050 4.00.

Cross-listed to: SC/BCHM 2021 4.00, SC/BIOL 2021 4.00

SC/BIOL 2030 4.00 Animals. A study of the diversity of animals, their structure, physiology and evolution. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 1010 6.00. Course credit exclusions: SC/BIOL 2030 5.00, SC/BIOL 2031 4.00, SC/BIOL 2031 3.00.

SC/BIOL 2040 4.00 Genetics. A study of the organization and behaviour of genes and chromosomes and their roles in cells, organisms, populations and evolution. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 1010 6.00. Course credit exclusion: SC/BIOL 2040 5.00.

SC/BIOL 2050 4.00 Ecology. A study of the interactions between organisms and their abiotic environments, presented in an evolutionary context. Includes processes of evolution, ecosystems and communities, competition, predation, population ecology and current environmental

problems such as habitat loss and extinction. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 1010 6.00. Prerequisite or corequisite: SC/BIOL 2060 3.00. Course credit exclusion: SC/BIOL 2050 3.00.

SC/BIOL 2060 3.00 Statistics for Biologists. Statistical problem solving for biologists. Basic theory for the analysis of parametric and non-parametric data. A project period is devoted to discussion and solving of statistical problems. Two lecture hours, one project period. One term. Three credits. Prerequisites: SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00; SC/MATH 1014 3.00 or SC/MATH 1505 6.00 or both SC/MATH 1013 3.00 and SC/MATH 1025 3.00 or equivalents. Course credit exclusions: SC/BIOL 3090 3.00, AP/ECON 2500 3.00, AP/ECON 3210 3.00, AP/ECON 3480 3.00, AP/ECON 3500 3.00, ES/ENVS 2010 6.00, AP/SC/GEOG 2420 3.00, HH/KINE 2050 3.00, HH/KINE 3150 3.00, SC/MATH 2560 3.00, SC/MATH 2570 3.00, AP/POLS 3300 6.00, HH/PSYC 2020 6.00, HH/PSYC 2021 3.00, AP/SOCI 3030 6.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 1520 3.00 or AK/AS/SC/CSE 1530 3.00 or AK/AS/SC/CSE 1540 3.00 (formerly COSC); AS/SC/MATH 1014 3.00 or AS/SC/MATH 1505 6.00 or both AS/SC/MATH 1013 3.00 and AS/SC/MATH 1025 3.00 or equivalents. Course credit exclusions: SC/BIOL 3090 3.00, AS/ECON 2500 3.00, AS/ECON 3210 3.00, AK/ECON 3470 3.00, AK/ECON 3480 3.00, AS/ECON 3500 3.00, ES/ENVS 2010 6.00, AS/SC/GEOG 2420 3.00, AS/HH/SC/KINE 2050 3.00, AS/HH/SC/KINE 3150 3.00, AK/AS/SC/MATH 2560 3.00, AK/AS/SC/MATH 2570 3.00, AS/POLS 3300 6.00, AK/AS/HH/SC/PSYC 2020 6.00, AK/AS/HH/SC/PSYC 2021 3.00, AK/PSYC 2510 3.00, AK/PSYC 3110 3.00, AS/SOCI 3030 6.00.

SC/BIOL 2601 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 2602 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 2603 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director

before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 2900 3.00 Clinical Microbiology for Nurses. An introductory course in medical microbiology designed for students entering nursing. Topics include: structure/function relationships of viruses, bacteria and fungi; physical and chemical control of microbial growth; human/microbe interactions; immunology; major diseases of humans; epidemiology and public health. Three lecture hours. One term. Three credits. Note: Not eligible for biology credit towards a Biology/Biochemistry program. Preference in enrolment will be given to students in the Second Entry Nursing Program. Not open to students who have taken SC/BIOL 3150 3.00/3150 4.00. Prerequisite: Six credits in a life sciences course or permission of instructor. Course credit exclusions: SC/BIOL 3150 3.00, SC/BIOL 3150 4.00.

SC/BIOL 3001 2.00 Field Course. A course given at one of several biological stations, the objective of which is to give the student the opportunity to study plants and animals in their natural surroundings. The departmental brochure should be consulted for further details. One-week field course. Two credits. Prerequisites: SC/BIOL 2010 4.00; one of SC/BIOL 2030 4.00 or SC/BIOL 2031 3.00; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3001 3.00 Field Course. A course given at one of several biological stations, the objective of which is to give the student the opportunity to study plants and animals in their natural surroundings. The departmental brochure should be consulted for further details. Two-week field course. Three credits. Prerequisites: SC/BIOL 2010 4.00; one of SC/BIOL 2030 4.00 or SC/BIOL 2031 3.00; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3002 2.00 Field Course. This is a second field course, which may be taken for credit, the contents of which must differ materially from SC/BIOL 3001 2.00/3001 3.00 as determined by the course director. The departmental brochure should be consulted for further details. One-week field course. Two credits. Prerequisite: SC/BIOL 3001 2.00 or SC/BIOL 3001 3.00 or permission of the course director; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3002 3.00 Field Course. This is a second field course, which may be taken for credit, the contents of which must differ materially from SC/BIOL 3001 2.00/3001 3.00 as determined by the course director. The departmental brochure should be consulted for further details. Two-week field course. Three credits. Prerequisite: SC/BIOL 3001 2.00 or SC/BIOL 3001 3.00 or permission of the course director; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3003 2.00 Field Course. This is a third field course, which may be taken for credit, the contents of which must differ materially from SC/BIOL 3001 2.00/3001 3.00 and SC/BIOL 3002 2.00/3002 3.00, as

determined by the course director. The departmental brochure should be consulted for further details. One-week field course. Two credits. Prerequisite: SC/BIOL 3002 2.00 or SC/BIOL 3002 3.00 or permission of the course director; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3003 3.00 Field Course. This is a third field course, which may be taken for credit, the contents of which must differ materially from SC/BIOL 3001 2.00/3001 3.00 and SC/BIOL 3002 2.00/3002 3.00, as determined by the course director. The departmental brochure should be consulted for further details. Two-week field course. Three credits. Prerequisite: SC/BIOL 3002 2.00 or SC/BIOL 3002 3.00 or permission of the course director; plus special prerequisites where specified for some modules. Note: Students must be manually enrolled in this course through the Biology Department early in the January prior to the session in which the course is offered. Enrolment is not possible at any other time of year. In addition to the tuition fee levied by the University, each student must pay for transportation, room and board.

SC/BIOL 3010 3.00 Advanced Biochemistry. A detailed discussion of enzyme structure and function. The chemistry and metabolism of biological molecules. Metabolic regulation at the level of enzyme activity. Knowledge of general concepts of metabolism and of basic aspects of enzyme structure and function is assumed. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3010 3.00, SC/BIOL 3010 3.00, SC/CHEM 3050 3.00

SC/BIOL 3030 4.00 Physiology of the Invertebrates. A treatment of the physiology of major invertebrate phyla with emphasis on interphyletic relationships. Laboratory exercises address the diversity and physiology of invertebrates. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 3051 3.00 Macromolecules of Biochemical Interest. A discussion of the structures and functions of naturally occurring macromolecules, including nucleic acids, proteins, polysaccharides and related macromolecular conjugates. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 2020 6.00 and either SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00.

Cross-listed to: SC/BCHM 3051 3.00, SC/BIOL 3051 3.00, SC/CHEM 3051 3.00

SC/BIOL 3060 4.00 Animal Physiology I. Fundamental concepts in sensory, neural and behavioural physiology. The biochemical mechanisms whereby nerve cells detect and transmit information and the processes whereby information is integrated in the nervous system and gives rise to the outputs of behaviour. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00.

SC/BIOL 3070 4.00 Animal Physiology II. The processes of digestion, osmoregulation and excretion, circulatory systems and gaseous exchange, metabolism, growth and reproduction are considered. The course adopts a comparative approach, first analyzing the basic principles underlying physiological activities, then examining the means whereby different organisms perform them. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00, SC/BIOL 2020 4.00, SC/BIOL 2021 4.00.

SC/BIOL 3071 3.00 Pharmaceutical Discovery. A practical look into the pharmaceutical industry, providing an overview of the drug discovery process. Topics include choosing disease states to study, pharmacological assays, rational drug design, synthetic and analytical chemistry, toxicology, drug metabolism and clinical trials. Three hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3071 3.00, SC/BIOL 3071 3.00, SC/CHEM 3071 3.00

SC/BIOL 3100 2.00 Current Topics in Biological Research. A review of the research in progress by members of the Department of Biology and by faculty from other universities and institutions. This course is designed to prepare Honours students for SC/BIOL 4000 8.00 and SC/BIOL 4000 3.00. Two lecture hours per week in the fall term. Two credits. Note: Open only to students registered in an Honours Program in Biology, normally in the year prior to that in which they will undertake their Honours thesis work.

SC/BIOL 3110 3.00 Molecular Biology I: Nucleic Acid Metabolism. Discussion of the metabolism of DNA and RNA, including the physical-chemical properties of nucleic acids; DNA-protein interactions; chromosome structure; nucleic acid replication, repair and recombination; recombinant DNA technology. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00; SC/BIOL 2021 4.00 or SC/BCHM 2021 4.00; SC/BIOL 2040 4.00.

Cross-listed to: SC/BCHM 3110 3.00, SC/BIOL 3110 3.00

SC/BIOL 3120 3.00 Immunobiology. The biology and chemistry of the immune response. Structure and function of antibodies; antibody diversity; anatomy and development of the immune system; cellular interactions; immunological responses in disease. Production and use of monoclonal and polyclonal antibodies. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

SC/BIOL 3130 3.00 Molecular Biology II: Regulation of Gene Expression. Gene structure and function. Mechanisms of gene expression in prokaryotes and eukaryotes. Storage and retrieval of genetic information; transcription, translation and their control. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00.

Cross-listed to: SC/BCHM 3130 3.00, SC/BIOL 3130 3.00

SC/BIOL 3140 4.00 Advanced Biochemistry and Molecular Genetics Laboratory. Research techniques used in biochemistry and molecular biology, including recombinant DNA technology, are illustrated. Purification of a restriction endonuclease; isolation and mapping of bacterial plasmids, bacteriophage and recombinant molecules; polymerase chain reaction (PCR); nucleic acid hybridization. Enrolment restricted. One lecture hour, six laboratory hours two days per week, plus additional laboratory hours throughout the week. One term. Four credits. Prerequisite or corequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00. SC/BIOL 3130 3.00 or SC/BCHM 3130 3.00 strongly recommended as a prerequisite or corequisite.

Cross-listed to: SC/BCHM 3140 4.00, SC/BIOL 3140 4.00

SC/BIOL 3150 3.00 Microbiology. Fundamentals of microbiology; microbial organisms; microbe-host interactions; microbial genetics and evolution; microorganisms and human disease; environmental and applied microbiology. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00. Course credit exclusion: SC/BIOL 3150 4.00.

SC/BIOL 3150 4.00 Microbiology. Fundamentals of microbiology; microbial organisms; microbe-host interactions; microbial genetics and evolution; microorganisms and human disease; environmental and applied microbiology. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00. Course credit exclusion: SC/BIOL 3150 3.00.

SC/BIOL 3155 3.00 Virology. An in-depth examination of cellular, molecular and structural aspects of virology. Molecular processes and concepts are emphasized using examples from current research literature. Virus-host interactions are investigated in various systems. Three lecture hours per week. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00.

SC/BIOL 3160 4.00 Plant Physiology. Basic physiological processes of plants and plant cells, including photosynthesis, respiration, nitrogen metabolism, water relations, solute uptake and translocation. Three

lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2010 4.00; SC/BIOL 2020 4.00; SC/BIOL 2021 4.00.

SC/BIOL 3170 3.00 Population Ecology. Reviews recent studies in population ecology with special emphasis on processes that lead to population decline and recovery. Lecture topics include population growth models, competition, dispersal, predator/prey interactions, disease and parasites. The laboratories stress field studies and data analysis. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: One of SC/BIOL 2030 4.00 or SC/BIOL 2031 3.00; SC/BIOL 2050 4.00; SC/CSE 1520 3.00 or SC/CSE 1530 3.00 or SC/CSE 1540 3.00. Prior to Fall 2009: Prerequisites: One of SC/BIOL 2030 4.00 or SC/BIOL 2031 3.00; SC/BIOL 2050 4.00; AK/AS/SC/CSE 1520 3.00 (formerly COSC) or AK/AS/SC/CSE 1530 3.00 or AK/AS/SC/CSE 1540 3.00.

SC/BIOL 3200 3.00 Processes of Evolution. The process and principles of evolution, the mechanisms by which genetic change occurs, the patterns of genetic variation and molecular studies that relate the structure of organisms to their evolution are examined. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 2040 4.00.

SC/BIOL 3500 3.00 Biogeography. An analysis of the geography of plants and animals emphasizing processes that operate at the population level, the origin and diversity of plants and animals, geographic patterns of diversity, and dynamics of species populations from local to continental scales. Two lecture hours, two laboratory hours. One term. Prerequisite: AP/SC/GEOG 2500 3.00 or SC/BIOL 2050 4.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/SC/GEOG 2500 3.00 or SC/BIOL 2050 4.00. Course credit exclusion: AS/GEOG 3500 3.00.

Cross-listed to: AP/GEOG 3500 3.00, SC/BIOL 3500 3.00, SC/GEOG 3500 3.00

SC/BIOL 3601 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 3602 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 3603 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in

any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 4000 3.00 Honours Thesis. A substantial review essay based on library investigations under the supervision of a faculty member. Rules governing this course are outlined in the Department of Biology undergraduate handbook. Only open to Honours students majoring in biology and environmental science students (life sciences stream). One term. Three credits. Note: Students who take SC/BIOL 3100 2.00 as a degree requirement will take it as a prerequisite for SC/BIOL 4000 3.00. In exceptional circumstances, SC/BIOL 3100 2.00 may be taken as a corequisite with the permission of the BIOL 4000 course director.

SC/BIOL 4000 8.00 Honours Thesis. A research thesis based on laboratory and/or field investigations under the supervision of a faculty member. Rules governing this course are outlined in the Department of Biology undergraduate handbook. Only open to Honours students majoring in biology and environmental science students (life sciences stream). Two terms. Eight credits. Note: Students who take SC/BIOL 3100 2.00 as a degree requirement will take it as a prerequisite for SC/BIOL 4000 8.00. In exceptional circumstances, SC/BIOL 3100 2.00 may be taken as a corequisite with the permission of the BIOL 4000 course director.

SC/BIOL 4010 3.00 Biology of Cancer. This course will explore the basic molecular and cellular concepts and principles related to the development of cancer, and medical applications to treatment and prevention of the disease. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 3130 3.00 or SC/BCHM 3130 3.00.

SC/BIOL 4020 3.00 Genomics. The study of genome structure, function and evolution, with emphasis on the primary literature. Topics include: gene duplication, evolution of noncoding DNA, population genomics, horizontal gene transfer, transposable element evolution and base composition. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 3110 3.00; SC/BIOL 3200 3.00

SC/BIOL 4040 3.00 Genetic Stability and Change. Organisms have evolved signal-transduction, cell-cycle-checkpoint and repair pathways to respond to DNA damage and maintain genomic stability. DNA damage can lead to elevated mutation rate, cell death and, in humans, cancer. Eukaryotic genetic stability maintenance mechanisms will be examined. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 3130 3.00.

SC/BIOL 4051 3.00 Bioanalytical Chemistry. This course describes modern methods of bioanalytical chemistry in their application to the analysis of biological polymers: proteins, nucleic acids, carbohydrates and lipids. Analytical aspects of genomics and proteomics are considered. Three lecture hours per week. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/BIOL 2021 4.00 or SC/BCHM 2021 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 4050 3.00, SC/BIOL 4051 3.00, SC/CHEM 4050 3.00

SC/BIOL 4061 3.00 Cell and Molecular Biology of Development. This course presents a genetic and molecular biological approach to the field of developmental biology. Topics range from unicellular systems, both prokaryotic and eukaryotic, to more complex, multicellular systems. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

Cross-listed to: SC/BCHM 4061 3.00, SC/BIOL 4061 3.00

SC/BIOL 4070 3.00 Behavioural Ecology. Interactions between the behaviour and ecology of animals are discussed from several points of view, including feeding, use of space, mate selection, mother-young interactions, social behaviour, learning and communication. Laboratories include techniques for studying behaviour and seminars reviewing recent research. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisite: One of SC/BIOL 2030 4.00 or SC/BIOL 2031 3.00.

SC/BIOL 4080 3.00 Freshwater Biology. The study of physical, chemical and biological aspects of freshwater aquatic ecosystems, with a focus on lake systems. Laboratory deals with taxonomy of freshwater organisms, use of limnological equipment, and analysis/interpretation of aquatic data. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00, SC/BIOL 2050 4.00 or permission of the instructor. Note: SC/PHYS 1510 4.00 or similar (OAC Physics, 12U Physics) is strongly recommended.

SC/BIOL 4085 3.00 Quantitative Methods in Biology. Practical applications of advanced statistics used in biological research, including analysis of variance, regression, and multivariate statistics. Three lecture hours, three laboratory hours every other week. One term. Three credits. Prerequisites: SC/BIOL 2060 3.00, or equivalent with permission of the instructor. Course credit exclusion: AP/ADMS 3330 3.00; HH/PSYC 3030 6.00; AP/POL 3300 6.00. NCR Note: Not open to any student who has taken or is taking AK/AS/SC/MATH 2131 3.00 or any other MATH course with a third digit 3 at the 3000 level or higher. Prior to Fall 2009: Prerequisites: SC/BIOL 2060 3.00, or equivalent with permission of the instructor. Course credit exclusion: AK/MATH 2730 3.00; HH/PSYC 3030 6.00; AS/POL 3300 6.00. NCR Note: Not open to any student who has taken or is taking AK/AS/SC/MATH 2131 3.00 or any other MATH course with a third digit 3 at the 3000 level or higher. Not open to any student who has taken or is taking AK/ADMS 3330 3.00.

Cross-listed to: SC/BIOL 4085 3.00, SC/MATH 4585 3.00

SC/BIOL 4090 4.00 Plant Ecology. This course reflects the diversity of topics that make up the field of plant ecology: ecosystems, plant population ecology, physiological and evolutionary ecology, plant-herbivore interactions and applied ecology. Laboratories cover field and laboratory techniques, including sampling methods. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2010 4.00; SC/BIOL 2050 4.00.

SC/BIOL 4095 3.00 Applied Plant Ecology. This course concentrates on how pollution, including acid precipitation and climatic change, and activities such as overgrazing have affected plant growth and productivity. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 2050 4.00 or permission of the instructor; SC/BIOL 4090 4.00 is recommended.

SC/BIOL 4099 3.00 Ethics in Biotechnology. Exploring ethical issues in genetic and genomic technologies in food, agriculture, medical and natural resource sectors. Topics include: engineering microorganisms, plants, and animals for various food and environmental products; cloning of sheep, glofish, embryonic stem cells, and human spare parts. Prerequisite: SC/BIOL 3130 3.00.

SC/BIOL 4100 3.00 Natural History. A study of the life histories of selected flora and fauna in major ecosystems, with special emphasis on local species and interrelationships within ecosystems. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/BIOL 2010 4.00; SC/BIOL 2030 4.00; SC/BIOL 2050 4.00.

SC/BIOL 4110 4.00 Eukaryotic Genetics. The relationship between chromosomal structure and function, with emphasis on eukaryotic, especially human, genetics. The laboratory is designed to teach mammalian cell culture and cytogenetic techniques. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

SC/BIOL 4130 3.00 Plant Evolution. An analysis of patterns of variation among plants, emphasizing the evolutionary processes which brought them about. Topics include biosystematics, speciation, hybridization, isolating mechanisms and mating systems. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/BIOL 2010 4.00; SC/BIOL 2050 4.00.

SC/BIOL 4141 3.00 Current Topics and Methods in Cell Biology. Selected topics in cell biology, such as membrane dynamics, cell cycle control, apoptosis, signal transduction and cellular rhythmicity. Presentation and critical discussion of recent research papers, emphasizing current methods and experimental design. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; or equivalent. Course credit exclusion: SC/BIOL 4140 3.00 from Fall/Winter 2002-2003 only.

SC/BIOL 4150 3.00 Cellular Regulation. A detailed examination of molecular, cellular and physiological processes associated with the action of peptide hormones, neuro-transmitters and growth factors. Emphasis is on cell receptors and signal transduction mechanisms involving cyclic nucleotides and calcium. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 3010 3.00 and SC/BIOL 3110 3.00 strongly recommended as prerequisites or corequisites.

Cross-listed to: SC/BCHM 4150 3.00, SC/BIOL 4150 3.00

SC/BIOL 4151 3.00 Membrane Transport. The fundamental properties of solute transport are presented by discussing active ion pumps, passive transporters and ion channels of bacteria, plants and animals. The role of transport in regulating the intracellular environment in animals and plants is emphasized. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 3010 3.00 and SC/BIOL 3110 3.00 strongly recommended as prerequisites or corequisites.

Cross-listed to: SC/BCHM 4151 3.00, SC/BIOL 4151 3.00

SC/BIOL 4160 3.00 Photosynthesis. A study of the process of photosynthesis at the biochemical, organelle and whole-organism levels, including structure of the photosynthetic apparatus, primary light-harvesting processes, electron transport, photophosphorylation, mechanism of carbon dioxide fixation in higher plants and algae, photorespiration. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisite: SC/BCHM 2021 4.00.

Cross-listed to: SC/BCHM 4160 3.00, SC/BIOL 4160 3.00

SC/BIOL 4200 3.00 Selected Readings in Biology. A reading course offered by special arrangement between an individual student and a faculty supervisor which focuses on a specialized area of biology of mutual interest. The subject matter must be significantly different from that of the student's honours thesis. A student may take this course only once for credit. One term. Three credits. Note: Open only to students with a science grade point average equal to or greater than 6.00.

SC/BIOL 4220 4.00 Histology. Structure and function of tissues in vertebrates, with special emphasis on human histology. The laboratory deals with basic histological and histochemical techniques, such as tissue sectioning and staining, and localization of enzymes. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00.

SC/BIOL 4230 4.00 General Entomology. The distinguishing characteristics, biology and economic importance of the major orders and families of insects. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 4240 3.00 Mammalian Systematics and Ecology (Mammology). The systematics, life history and ecology of mammals. Emphasis is on North American genera and the species of eastern Canada. Field and laboratory techniques are an integral part of the course. Two lecture hours and three laboratory hours per week. One term. Three credits. Prerequisites: SC/BIOL 2030 4.00; SC/BIOL 2050 4.00. Course credit exclusion: SC/BIOL 4240 4.00.

SC/BIOL 4245 3.00 Conservation Biology. This course explores the role of biological science in efforts to conserve natural resources, systems and the organisms therein. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/BIOL 2010 4.00; one of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00; SC/BIOL 2040 4.00; SC/BIOL 2050 4.00; or permission of the instructor.

Cross-listed to: ES/ENVS 4110 3.00, SC/BIOL 4245 3.00

SC/BIOL 4250 3.00 Birds and the Environment. A review of the adaptations of birds to different environments, behaviour and ecology, biodiversity and evolution, and current threats to the world's birds. Laboratories include field trips, a study of bird anatomy and examination of museum specimens. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisite: One of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00.

SC/BIOL 4255 3.00 Biodiversity. We do not know the number of species on Earth, even to the nearest order of magnitude. This course discusses the factors that influence the number of species in an area and the importance of biodiversity to humanity. Two lecture hours, three laboratory hours. One term. Three credits. Note: Completion of 60 credits required, towards a degree in biology or environmental science or environmental studies, or permission of the instructor.

Cross-listed to: ES/ENVS 4111 3.00, SC/BIOL 4255 3.00

SC/BIOL 4260 3.00 Systematic Biology in Theory and Practice. Systematics is the science of describing and categorizing biological diversity at all levels. It is central to most areas of biological inquiry. This course teaches students the history of systematics, its methods and their applications throughout biology. Two lecture hours, one three-hour laboratory/computer session. One term. Three credits. Prerequisites: SC/BIOL 2010 4.00; one of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00.

SC/BIOL 4265 3.00 Biology in Environmental Management. This course summarizes our progress in conceptualizing, understanding and in solving large-scale ecological problems caused by the introduction of pollutants and exotic species to the environment. Three lecture hours. One term. Integrated with: GS/BIOL 5096 3.00. Prerequisites: SC/BIOL 2050 4.00, SC/BIOL 2060 3.00; or permission of the instructor.

SC/BIOL 4270 3.00 Reproduction. Molecular, genetic, cytological and evolutionary aspects of sexual reproduction. Comparison of the regulatory genes and proteins of sexual differentiation in *Saccharomyces*, *Drosophila*, *Caenorhabditis elegans*, mice, human and plants. Evolutionary advantages and disadvantages of sexual reproduction; asexual reproduction through parthenogenic mechanisms. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

SC/BIOL 4285 3.00 Human Molecular Genetics. The course covers the application of genetic and molecular biological techniques to study human diseases and other related areas, and discusses ethical concerns that might arise from this research. Three lecture hours. One term. Three credits. Prerequisite or corequisite: SC/BIOL 3130 3.00.

SC/BIOL 4290 4.00 Biotechnology. This laboratory course covers some of the methods currently in use in biotechnology research in industry and academia. Emphasis is placed on methods for transforming eukaryotes with marker genes. Advanced methods used in molecular biology are also covered. Two lecture hours, six laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 3110 3.00 or SC/BCHM 3110 3.00.

Cross-listed to: SC/BCHM 4290 4.00, SC/BIOL 4290 4.00

SC/BIOL 4300 3.00 Origins and Development of Biological Theories. An analysis of some central ideas in the philosophy of science. The origins and expansion of biological theories, with emphasis on Darwinism, the gene concept, the new synthesis, and the reinterpretation of these theories in molecular biological terms. Three lecture hours. One term. Three credits. Note: Open only to students in the final year of an Honours program in biology, or with permission of the instructor.

SC/BIOL 4305 3.00 Controversies in the Modern Life Sciences. The study of past and contemporary controversies in genetics, evolutionary theory and ecology. The focus is on analyzing the diverse aims, concepts, theories, techniques and institutional strategies which have shaped the development of modern biology. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 2040 4.00.

SC/BIOL 4310 3.00 Biological Timekeeping. An examination of the biological rhythms of cells, tissues and whole animals; the mechanisms of biological timekeeping and how those clocks interact with each other to

coordinate physiological events within an animal and with the environment. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; one of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00.

SC/BIOL 4320 3.00 Vertebrate Endocrinology. Vertebrate endocrine structure and function; synthesis and regulation of hormones; mechanisms of hormone actions; and hormonal integration of physiological processes. Three lecture hours. One term. Three credits. Integrated with: GS/BIOL 5124 3.00. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; one of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00. Course credit exclusion: HH/KINE 4448 3.00. Prior to Fall 2009: Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; one of SC/BIOL 2030 4.00, SC/BIOL 2031 3.00. Course credit exclusion: AS/HH/SC/KINE 4448 3.00.

SC/BIOL 4330 3.00 Invertebrate Endocrinology. An examination of the hormonal control of processes in selected invertebrates, particularly those involved in the control of postembryonic development. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 4340 3.00 Fish Biology. A study of fish biology (ichthyology), including anatomy, systematics, physiology, behaviour and ecology of freshwater and marine fishes. Special emphasis is placed on the unique features of fishes and their functional adaptation to aquatic environments. Three lecture hours. One term. Three credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 4350 4.00 Comparative Chordate Anatomy. A comparative study of the biology of chordate animals in which the evidence of their evolutionary relationships is emphasized. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 4360 4.00 Parasitology. Biology of animal parasites; developmental, structural and functional adaptations to the parasitic environments; immune and other responses of hosts; parasitic diseases. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisite: SC/BIOL 2030 4.00.

SC/BIOL 4370 3.00 Neurobiology. An analysis of recent advances in neurobiology, particularly information processing and storage in nervous systems and the biochemical basis of learning, memory and behaviour. The neurobiology of addiction, diseases of the nervous system and regeneration are also discussed. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 3060 4.00. Course Credit Exclusion: AS/HH/SC/KINE 4512 3.00

SC/BIOL 4400 3.00 Behavioural Genetics. Differences in behaviour are analyzed through evolutionary and mechanistic approaches. Hypotheses, models, experimental and field data are used to address the importance of heredity and environment in the development of individual differences, social systems, communication, habitat and sexual selection. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/BIOL 2040 4.00; SC/BIOL 2050 4.00; SC/BIOL 2060 3.00.

SC/BIOL 4410 3.00 Advanced Drosophila Genetics. A study of recent advances in Drosophila genetics. The course addresses techniques such as chromosomal analysis, lethal tagging, genetic dissection, mosaic analysis, genetic screens, transposon tagging, enhancer trapping, methods for manipulating genes in transgenic flies and genetic ablation. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2040 4.00.

SC/BIOL 4420 3.00 Herpetology. A detailed presentation of the biology of amphibians and reptiles (herpetology) is given. Topics include taxonomy, reproduction, feeding, defence, environmental physiology of living forms. Special emphasis is placed on identification and life history of Canadian herpetofauna. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/BIOL 2030 4.00; SC/BIOL 2050 4.00.

SC/BIOL 4450 4.00 Animal Development. Fertilization, cleavage, differentiation and development in selected animals. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/BIOL 2020 4.00; SC/BIOL 2021 4.00; SC/BIOL 2030 4.00; SC/BIOL 2040 4.00.

SC/BIOL 4510 3.00 Cellular and Molecular Basis of Muscle Physiology. Topics include muscle development, muscle-specific gene expression, molecular basis of muscle contraction, biochemical plasticity of muscle, sarcolemmal and nuclear signal transduction in muscle. Three lecture hours per week. One term. Prerequisite(s): AS/HH/SC/KINE 2011 3.00, or SC/BIOL 3060 4.00 and SC/BIOL 3070 4.00. Course credit exclusions: None.

Cross-listed to: HH/KINE 4510 3.00, SC/BIOL 4510 3.00

SC/BIOL 4601 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 4602 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

SC/BIOL 4603 0.00 Research Practicum. This course offers the student research experience as part of a Biology research team. The student must make arrangements with a faculty member before enrolling in this course. Prerequisites: None. Note: This course does not count for degree credit in any program. Students are expected to commit to approximately 5-10 hours per week (on average) for one term. The student and faculty member must sign a form in which they agree on the type and amount of work to be done, and the form must be approved by the Course Director before the student will be allowed to enroll. Students may enroll in this course during any term, and there is no limit to the number of terms in which they are allowed to enroll. Students will not be allowed to enroll in a biology research practicum course with their Honours Thesis (BIOL 4000) supervisor during the same terms that they are enrolled in BIOL 4000 8.0. The course evaluation will be pass/fail only. Students will be required to obtain safety training, such as WHMIS, if appropriate to the type of research undertaken. The course is intended only for students in Biology or Biochemistry majors.

Biophysics – Science and Engineering

Location:

128 Petrie Science and Engineering Building, Tel.: 416-736-5249

Courses in Biophysics

SC/BPHS 2090 2.00 Current Topics in Biophysics. An introduction to biophysics highlighting major themes in applied and pure biophysical research. The course will present biology and physics students with an overview of the role of physics in biological research. Two lecture hours per week. One term. Two credits. Prerequisites: SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00; SC/BIOL 1010 6.00 or SC/BIOL 1410 6.00.

SC/BPHS 3090 3.00 Biophysics I. This course will explore topics in bioelectricity based on the classical theory of electricity and magnetism and will introduce nuclear physics in biology and medicine. Three lecture hours per week. One term. Three credits. Prerequisites: SC/BPHS 2090 2.00; SC/PHYS 2020 3.00; SC/PHYS 2060 3.00.

SC/BPHS 3903 0.00 Biophysics Internship Work Term. This workplace internship provides students with the opportunity for practical work in biophysics as part of their honours degree program, through the Technology Internship Program. The Career Centre will coordinate recruitment of students with a specific internship position. Assessment will be coordinated by a faculty supervisor. Prerequisites: The student must attend all mandatory preparatory sessions. Normally, first enrolment would occur no sooner than the summer following a student's second year. Before each enrolment in BPHS 3903, the student must have successfully completed at least 5.0 core PHYS or BPHS credits at the 2000 level, and have an overall cumulative grade point average (GPA) of at least 7.0. Normally, subsequent enrolments would occur no sooner than the summer following a student's third year. The maximum number of work terms for any student is five.

SC/BPHS 4090 4.00 Biophysics II. This course will focus on applications of quantum physics in biology and medicine. Three lectures hours per week and three laboratory hours every other week. One term. Three credits. Prerequisites: SC/BPHS 3090 3.00; SC/PHYS 3040 6.00.

Business and Society – Liberal Arts and Professional Studies

Location:

S773 Ross Building, Tel.: 416-736-2100, ext. 77805

Web Site:

<http://www.yorku.ca/laps/sosc/busoc/>

Program Coordinator:

J.J. McMurtry

Affiliated Faculty:

J.J. McMurtry, M. Peacock, D. Reed, R. Wellen

The Business and Society (BUSO) program is a liberal arts degree program that provides students with the tools needed to study and research the relationship between business and society. The Honours BA and BA degree programs in business and society represent innovative multidisciplinary degree programs that provide students with the opportunity to study the relationship between business and society in a variety of new forms. The core courses provide students with basic analytical tools to study business and society. In addition to the core, both Honours BA and BA students will choose courses from two of the following nine streams:

- business ethics and corporate social responsibility
- the environment
- the firm
- the global economy
- labour
- law and governance
- the macro-economy
- the media and communication

- professions, occupations and social change
- the social economy

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Business Economics/Économie et commerce – Glendon, Liberal Arts and Professional Studies

Courses in Business Economics/Cours en économie et commerce

GL/BUEC 1000 3.00 Principles of Business Administration. This course provides an overview of the context within which modern organizations operate. It will examine the development of organizational and managerial theories. A number of contemporary issues and the organizational responses will be discussed.

GL/BUEC 1000 3.00 Principes d'administration des affaires. Ce cours présente un survol du contexte dans lequel les entreprises modernes fonctionnent. Il analyse le développement des théories organisationnelles et de gestion, et présente certains problèmes contemporains ainsi que les réponses organisationnelles apportées.

Language of Instruction: French

GL/BUEC 1010 3.00 Business in the Canadian Context. Business activities are highly influenced by the economic policies set by the Canadian government for local activities and by external governments for their international activities. This course presents various market conditions that set the economic environment and offers potential solutions for business practices and strategic decisions. Prerequisite: GL/BUEC 1000 3.00.

GL/BUEC 1010 3.00 Entreprises dans le contexte canadien. Les activités des entreprises sont fortement influencées par les politiques économiques définies par le gouvernement du Canada pour leurs activités nationales et par les gouvernements étrangers pour leurs activités internationales. Ce cours présente diverses conditions de marché qui définissent l'environnement économique et présente des solutions pour la pratique des affaires et les prises de décisions stratégiques. Condition préalable : GL/BUEC 1000 3.00.

Language of Instruction: French

GL/BUEC 4500 3.00 Internship. For the optional internship, students must spend a minimum of 100 hours working for a company: government agency, non-profit organization, or research institution. Service normally is compensated, but volunteer service (particularly in a non-profit organization) may also be acceptable. The internship experience must provide organizational experience and contribute to the student's knowledge base in Business Economics or Administration. Prerequisites: GL/ECON 3230 6.00, a C+ average in BUEC major and permission of the Department.

GL/BUEC 4500 3.00 Stage professionnel. Pour satisfaire aux exigences de stages, les étudiants doivent travailler pour un minimum de 100 heures pour une entreprise : agence gouvernementale, organisation à but non-lucratif, ou institution de recherche. Le travail est normalement rémunéré, cependant le service de volontariat (particulièrement dans une organisation à but non-lucratif) sera considéré. L'expérience acquise en stage doit fournir une expérience organisationnelle et contribuer aux connaissances de base en économie et commerce ou en administration. Conditions préalables : GL/ECON 3230 6.00, une moyenne de C+ dans la majeure en BUEC et permission du département.

Language of Instruction: French

GL/BUEC 4500 6.00 Stage professionnel. Pour satisfaire aux exigences de stages, les étudiants doivent travailler pour un minimum de 200 heures pour une entreprise : agence gouvernementale, organisation à but non-lucratif, ou institution de recherche. Le travail est normalement rémunéré, cependant le service de volontariat (particulièrement dans une organisation à but non-lucratif) sera considéré. L'expérience acquise en stage doit fournir une expérience organisationnelle et contribuer aux connaissances de base en économie et commerce ou en administration. Conditions préalables : GL/ECON 3230 6.00, une moyenne de C+ dans la majeure en BUEC et permission du département.

Certificate in Business Fundamentals – Liberal Arts and Professional Studies

Location:

S773 Ross Building, Tel.: 416-736-2100, ext. 77805

Web Site:

<http://www.yorku.ca/laps/sosc/bus0>

Certificate Coordinator:

R. Wellen, Social Science

York University students may earn a Certificate in Business Fundamentals concurrent with fulfillment of the requirements for an Honours undergraduate BA degree. This certificate is open to students in all undergraduate Faculties except for students enrolled in the Schulich School of Business bachelor of business administration program or the bachelor of administrative studies program. Students may not earn both a Certificate in Business Fundamentals and a Certificate in Non-profit Management.

For specific certificate requirements and the list of certificate courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Canadian Studies/Études canadiennes – Glendon, Liberal Arts and Professional Studies

Glendon

Program Office/Bureau du programme :

162 York Hall, Tel.: 416-487-6707

Web site/Site Web :

<http://www.glendon.yorku.ca/canadianstudies/>

Program Coordinator/Coordonnateur du programme :

G. Ewen

Associate Professor/Professeur agrégé :

C. Coates

Students may design interdisciplinary programs in Canadian studies in consultation with the coordinator of Canadian studies. Please see Glendon's Programs of Study section for the list of additional courses.

Liberal Arts and Professional Studies

Location:

Department of Humanities, 262 Vanier College, Tel.: 416-736-5158

Web Site:

<http://www.yorku.ca/laps/huma/cdns>

Coordinator:

TBA

University Professor:

L. Sanders

Professors:

J.R. Laxer, V. Lindström, W. Westfall

Professor Emeritus:

F. Beer, B. Callaghan, R. Ellenwood, J.P. Unrau

Associate Professors:

B. Cameron, D. Cooper-Clark, T. Das Gupta, L. Davids, A. Davis, G. Martell, D. McNab, H. Moghissi, E. Reiter, F. Sturino, B. Whittaker

Associate Professors Emeriti:

J.M. Cameron, J.P. Harney, S.O. Kjellberg, C. Romalis, P.D. Such

Assistant Professor:

S. Cain, M.J. Goodman

Prerequisite: A 1000-level course in humanities and a 1000-level course in social science (Canadian perspectives are recommended). The second general education course may be taken concurrently with Introduction to Canadian Studies AP/CDNS 2200 6.00.

Additional Courses

Faculty of Liberal Arts and Professional Studies courses for major credit for all levels in the Canadian Studies program are listed under their own disciplines. Please see Canadian Studies, Program Requirements in the Faculty of Liberal Arts and Professional Studies Programs of Study section for the list.

Courses in Canadian Studies/Cours en études canadiennes

GL/CDNS 1600 6.00 Science of Flight. This course presents basic physical principles by studying various aspects of aircraft and flying. Topics include properties of air as a fluid, aero-engines, basic theory of flight, principles of aircraft instruments and navigation, and processes which influence the weather. Prerequisite: GL/CDNS 1600 3.00(EN), GL/NATS 1600 3.00(EN), and GL/NATS 1740 3.00(EN).

Cross-listed to: GL/CDNS 1600 6.00, GL/NATS 1600 6.00

GL/CDNS 1920 6.00 Introduction aux études canadiennes. Ce cours constitue une introduction aux études canadiennes dans une perspective d'ouverture du Canada vis-à-vis le monde extérieur. Il présente une lecture des phénomènes reliés à la transition entre les sociétés traditionnelles autochtones et immigrantes, et celles connaissant le développement de la Modernité au Canada. Ce cours est ouvert aux étudiant(e)s de 1^e, 2^e et 3^e années. Cours incompatible : AP/CDNS 2200 6.00.

Language of Instruction: French

Cross-listed to: GL/CDNS 1920 6.00, GL/HUMA 1920 6.00, GL/SOSC 1920 6.00

GL/CDNS 1920 6.00 Introduction to Canadian Studies. This course provides basic knowledge of Canadian culture - history, literature and fine arts - from 1759 to the present, as well as an ongoing analysis of Canadian current affairs. This course is open to first- and second-year students. Course credit exclusion: AP/CDNS 2200 6.00.

Les thèmes varient d'année en année./A bilingual interdisciplinary seminar on a selected topic in the study of Canada. Topics will vary from year to year. Course credit exclusion: GL/CDNS 4200 6.00 Prerequisite: Six credits in any discipline on the study of Canada or permission of the Department.

Cross-listed to: GL/CDNS 4622 6.00, GL/SOSC 4622 6.00

GL/CDNS 4625 3.00 Littérature franco-ontarienne. Études d'oeuvres de tous genre (littérature intimiste, essai, roman, théâtre, poésie, conte et nouvelle) qui illustrent les temps forts de la littérature franco-ontarienne : prise de conscience; enracinement (fidélité ou retour au passé); déracinement (séparation, voyage, émigration, évaison).

Language of Instruction: French

Cross-listed to: GL/CDNS 4625 3.00, GL/Fran 4625 3.00

Catalan – Glendon

Courses in Catalan

GL/CAT 1010 3.00 Elementary Catalan I. This course is designed for students who have no previous knowledge of Catalan. It provides students with basic knowledge of the language. Emphasis is placed on basic grammatical structures. Class activities include reading, writing and oral exercises. Audiovisual presentations will be offered occasionally. This course helps to prepare students for the ALTE (Catalan Language Certificate Exam designed by the Council of Europe). Course credit exclusion: GL/SP 1010 3.00.

Language of Instruction: English/Catalan

GL/CAT 1015 3.00 Elementary Catalan II. This course is a continuation of Elementary Catalan I. Emphasis will be placed on more advanced grammatical structures. It continues with reading, writing and oral exercises. This course helps to prepare students for the ALTE (Catalan Language Certificate Exam designed by the Council of Europe). Prerequisite: GL/CAT 1010 3.00 or GL/SP 1010 3.00 or equivalent, or permission from the department. Course credit exclusion: GL/SP 1015 3.00.

Language of Instruction: Catalan

GL/CAT 2670 3.00 Catalan Culture. This course provides an overall view of the development of Catalan culture and civilization from Medieval times to the present, enabling students to acquire an insight into Catalonia and to understand why Catalonia is a nation. General areas: history, literature, visual arts and music. The essay topic must deal with Catalonia's history or literature and it is intended to encourage students to pursue their particular interest in some depth. Classes will include lectures, discussions and audio-visual material. Course credit exclusion: GL/SP 2670 3.00.

Cross-listed to: GL/CAT 2670 3.00, GL/HUMA 2670 3.00

Chemistry – Science and Engineering

Location:

124 Chemistry Building, Tel.: 416-736-5246

Chair:

J. Rudolph

Distinguished Research Professor and Canada Research Chair:

D.K. Bohme

Distinguished Research Professors Emeriti:

A.B.P. Lever, C.C. Leznoff

Professor and Guy Warwick Rogers Chair in Atmospheric Chemistry:

G.W. Harris

Professor and NSERC/MDS SCIEX Chair:

K.W.M. Siu

Professors:

D.R. Hastie, E. Lee-Ruff, M. Mozurkewich, W.J. Pietro, P.G. Potvin, J. Rudolph

Professor and Canada Research Chair:

S.N. Krylov

Associate Professors:

R. Fournier, P. Johnson, R. McLaren, M.G. Organ, D.V. Stynes

Associate Professor and Canada Research Chair:

S. Morin

Assistant Professors:

G. Audette, R. Hudgins, D. Golemi-Kotra, G. Lavoie, A. Orellana, M.M. Pollard, V. Tsoukanova, D.K. Wilson

Associate Lecturer:

M. Hempstead

Sessional Assistant Lecturer:

M. Austen

Chemistry is the study of the structure and properties of matter including the energy changes that accompany chemical reactions. The understanding gained from these studies is applied in the prediction of the behaviour of matter and in the interpretation of a wide variety of phenomena. Chemistry is linked closely with a number of other subjects, ranging from astrophysics and earth science to the biological and medical sciences, which involve matter at various levels of complexity.

The Department of Chemistry offers undergraduate courses in all the major sub-disciplines of the subject, including physical, theoretical, analytical, inorganic, organic and biological chemistry. Specialized programs in Chemistry (see the Faculty of Science and Engineering Programs of Study section) include a required core of courses to ensure that the student acquires a broad knowledge of the subject, but also provide opportunities for the student to concentrate on areas of particular interest. In the applied chemistry area the Department of Chemistry also offers specialization in atmospheric chemistry (see the Faculty of Science and Engineering Programs of Study section).

Courses in Chemistry

The contact-hour information in the course outlines below specifies the number of hours per week when the course is taught in the daytime in a fall/winter session. If the course is offered in the evening and/or in a summer session, the format and scheduling may be different, though equivalent in credit value.

SC/CHEM 1000 3.00 Chemical Structure. Introduction to chemistry with emphasis on physical and electronic structure of matter, including gases, liquids and solids. Topics include behaviour of gases; thermochemistry; atomic structure and periodic table; chemical bonding and architecture; structure of liquids and solids; frontiers of chemistry. Two and one-half lecture hours per week, one tutorial hour per week, six three-hour laboratory sessions. One term. Three credits. Prerequisites: OAC chemistry, 12U chemistry or SC/CHEM 1500 4.00 or equivalent. Course credit exclusions: SC/CHEM 1000 6.00, SC/CHEM 1010 6.00.

SC/CHEM 1001 3.00 Chemical Dynamics. This course complements SC/CHEM 1000 3.00 - with emphasis on chemical change and equilibrium. Topics include chemical kinetics; chemical equilibrium; entropy and free energy as driving forces for chemical change; electrochemistry; frontiers in chemistry. Two and one-half lecture hours per week, one tutorial hour per week, six three-hour laboratory sessions. One term. Three credits.

Prerequisites: OAC chemistry, 12U chemistry or SC/CHEM 1500 4.00 or equivalent. Course credit exclusions: SC/CHEM 1000 6.00, SC/CHEM 1010 6.00.

SC/CHEM 1500 4.00 Introduction to Chemistry. An introductory course in chemistry for students needing an adequate preparation for SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00. Topics include basic atomic theory, stoichiometry, the periodic table, chemical bonding, equilibria, acids and bases, oxidation-reduction and organic chemistry. Each student is counselled by a faculty adviser to enrol either in this course or in SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00 depending on previous chemistry experience. Three lecture hours per week, three laboratory hours and mandatory enrolment in the SC/CHEM 1509 0.00 tutorial. One term. Four credits. Note: May not be taken by any student who has taken or is currently taking another university course in chemistry.

SC/CHEM 1509 0.00 Compulsory Tutorial for SC/CHEM 1500 4.00. Students enrolled in SC/CHEM 1500 4.00 must also enrol in this mandatory tutorial. Not open to other students. Two tutorial hours in alternate weeks.

SC/CHEM 1550 3.00 Introductory Biochemistry for Nurses. An introductory course in chemistry as applied to the nursing profession. Provides an overview of the basic chemical and biochemical concepts relevant to the understanding and promotion of human health and wellness. Note: Only open to students in the Second Entry Nursing Program.

SC/CHEM 2010 3.00 Symmetry, Electronic Structure and Bonding. An introduction to elementary group theory and wavefunctions for atoms and molecules. Topics include descriptions of bonding and the use of symmetry in the construction of molecular orbitals and in the derivation of selection rules for electronic and vibrational spectroscopy. Three lecture hours, one tutorial hour. One term. Three credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; SC/MATH 1013 3.00; SC/MATH 1014 3.00. Prerequisite or corequisite: SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00. Prior to Fall 2009: Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; AS/SC/MATH 1013 3.00; AS/SC/MATH 1014 3.00. Prerequisite or corequisite: SC/PHYS 1410 6.00 or SC/PHYS 1010 6.00.

SC/CHEM 2011 3.00 Introduction to Thermodynamics. This course is an introduction to equilibrium chemical thermodynamics. The three laws of thermodynamics and the thermodynamic state functions are described. Many applications are considered, including the operation of heat engines, phase transformations, thermochemistry and chemical reaction equilibria. Three lecture hours, one tutorial hour. One term. Three credits. Prerequisites: SC/MATH 1013 3.00; SC/MATH 1014 3.00; SC/CHEM 1000 3.00 or SC/CHEM 1001 3.00. Prior to Fall 2009: Prerequisites: AS/SC/MATH 1013 3.00; AS/SC/MATH 1014 3.00; SC/CHEM 1000 3.00 or SC/CHEM 1001 3.00.

SC/CHEM 2020 6.00 Organic Chemistry. Structure including stereochemistry, physical and chemical properties of simple organic compounds; methods in structure determination; introductory concepts of reaction mechanisms and methods for determination of mechanisms. Two and one-half lecture hours per week, three laboratory hours every second week, one tutorial hour every week. Two terms. Six credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00. Course credit exclusion: SC/CHEM 2020 5.00.

SC/CHEM 2030 3.00 Basic Inorganic Chemistry. The descriptive chemistry of the more common elements is discussed within the context of qualitative inorganic analysis. Principles of ionic equilibria in aqueous solution, elementary coordination chemistry and electrochemical potentials are presented. Three lecture hours, one tutorial hour. One term. Three credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00.

SC/CHEM 2050 4.00 Introductory Biochemistry. An introduction to biochemistry for chemistry students. Course material includes cellular functions, biomolecules and metabolism. Three lecture hours and three

laboratory hours per week. One term. Four credits. Prerequisite or corequisite: SC/CHEM 2020 6.00. Course credit exclusion: SC/BIOL 2020 4.00, SC/BCHM 2020 4.00.

SC/CHEM 2080 4.00 Analytical Chemistry. Introduction to quantitative chemical analysis and the analytical method; errors and statistical analysis of data; gravimetric and volumetric methods of analysis including acid-base, precipitation, complexation and redox titrimetry, the effect of equilibria on chemical analysis; introduction to potentiometry and spectrophotometry. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00.

SC/CHEM 2550 3.00 Pharmacology for Health Sciences. An introduction to the general principles of pharmacotherapeutics, pharmacokinetics and pharmacodynamics. Prerequisites: SC/CHEM 1550 3.00 or SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00. Note: Preference in enrolment will be given to students in the Second Entry Nursing Program.

SC/CHEM 3000 3.00 Experimental Chemistry I. A laboratory course in organic, inorganic and physical chemistry, including basic instruction in data handling, use of the literature and formal report writing. Six laboratory hours per week and one lecture hour per week. One term. Three credits. Not open to students entering Chemistry programs before Fall 2009. Prerequisites: SC/CHEM 2020 6.00, SC/CHEM 2030 3.00. Course credit exclusions: SC/CHEM 3011 4.00, SC/CHEM 3020 4.00, SC/CHEM 3030 4.0.

SC/CHEM 3001 3.00 Experimental Chemistry II. A second, advanced laboratory course in organic, inorganic and physical chemistry, building on CHEM 3000 3.00. Six laboratory hours per week. One term. Three credits. Not open to students entering Chemistry programs before Fall 2009. Prerequisite: SC/CHEM 3000 3.00. Course credit exclusions: SC/CHEM 3010 4.00, SC/CHEM 3021 4.00, SC/CHEM 3031 4.00

SC/CHEM 3010 3.00 Physical Chemistry. An introduction to spectroscopy and statistical thermodynamics for atoms and small molecules. Determination and applications of enthalpies of formation, reaction and solution for different systems. Three lecture hours per week. First term. Three credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2011 3.00. Course credit exclusions: SC/CHEM 3010 4.00.

SC/CHEM 3010 4.00 Physical Chemistry. An introduction to spectroscopy and statistical thermodynamics for atoms and small molecules. Determination and applications of enthalpies of formation, reaction and solution for different systems. Three lecture hours per week, five three-hour laboratories. First term. Four credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2011 3.00. Course credit exclusions: SC/CHEM 3010 3.00, SC/CHEM 3001 3.00

SC/CHEM 3011 3.00 Physical Chemistry. This is an introductory course in chemical kinetics as applied primarily to reactions in the gas phase but also in solution and at electrode surfaces. Three lecture hours per week. One term. Three credits. Prerequisite: SC/CHEM 2011 3.00. Course credit exclusions: SC/CHEM 3011 4.00

SC/CHEM 3011 4.00 Physical Chemistry. This is an introductory course in chemical kinetics as applied primarily to reactions in the gas phase but also in solution and at electrode surfaces. Three lecture hours per week, five three-hour laboratories. One term. Four credits. Prerequisite: SC/CHEM 2011 3.00. Course credit exclusions: SC/CHEM 3011 3.00, SC/CHEM 3000 3.00

SC/CHEM 3020 3.00 Organic Chemistry 11. Intermediate topics in NMR spectroscopy and mass spectrometry, carbanion and enol chemistry and introductory heterocyclic chemistry, with biochemical examples. Three lecture hours per week. One term. Three credits. Prerequisites: SC/CHEM 2020 6.00 or SC/CHEM 2020 5.00. Course credit exclusion: SC/CHEM 3020 4.00.

SC/CHEM 3020 4.00 Organic Chemistry II. Intermediate topics in NMR spectroscopy and mass spectrometry, carbanion and enol chemistry and introductory heterocyclic chemistry, with biochemical examples. Three

lecture hours per week, seven three-hour laboratories. One term. Four credits. Prerequisites: SC/CHEM 2020 6.00 or SC/CHEM 2020 5.00. Course credit exclusions: SC/CHEM 3020 3.00, SC/CHEM 3000 3.00.

SC/CHEM 3021 3.00 Organic Chemistry 111. A course building on SC/CHEM 3020 3.00, dealing with a variety of advanced reactions and stereochemistry. Three lecture hours per week. One term. Three credits. Prerequisite: SC/CHEM 3020 3.00 or 4.00. Course credit exclusion: SC/CHEM 3021 4.00

SC/CHEM 3021 4.00 Organic Chemistry III. A course building on SC/CHEM 3020 4.00, dealing with a variety of advanced reactions and stereochemistry. Three lecture hours per week, eight three-hour laboratories. One term. Four credits. Prerequisite: SC/CHEM 3020 4.00. Course credit exclusions: SC/CHEM 3021 3.00, SC/CHEM 3001 3.00.

SC/CHEM 3030 3.00 Transition Metal Chemistry. The chemistry of the transition metals is discussed from an historical perspective and within the context of modern theories of bonding, structure and spectroscopy. Topics include classical coordination compounds, organometallics, metallocenes, metal carbonyls and bioinorganic chemistry. Three lecture hours per week. One term. Three credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2020 6.00; SC/CHEM 2030 4.00 or SC/CHEM 2030 3.00. Course credit exclusion: SC/CHEM 3030 4.00.

SC/CHEM 3030 4.00 Transition Metal Chemistry. The chemistry of the transition metals is discussed from an historical perspective and within the context of modern theories of bonding, structure and spectroscopy. Topics include classical coordination compounds, organometallics, metallocenes, metal carbonyls and bioinorganic chemistry. Three lecture hours per week, seven three-hour laboratories. One term. Four credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2020 6.00; SC/CHEM 2030 4.00 or SC/CHEM 2030 3.00. Course credit exclusions: SC/CHEM 3030 3.00, SC/CHEM 3000 3.00.

SC/CHEM 3031 3.00 Physical Inorganic Chemistry. An introduction to physical and theoretical methods in inorganic chemistry. Topics are selected from the following: atomic structure and spectra, molecular orbital and ligand field theory, bonding, electronic spectroscopy, magnetism of metal complexes, photochemistry, electrochemistry, solid state chemistry, metal-metal bonding. Three lecture hours per week. One term. Three credits. Prerequisite: SC/CHEM 3030 3.00 or 4.00. Course credit exclusions: SC/CHEM 3031 4.00.

SC/CHEM 3031 4.00 Physical Inorganic Chemistry. An introduction to physical and theoretical methods in inorganic chemistry. Topics are selected from the following: atomic structure and spectra, molecular orbital and ligand field theory, bonding, electronic spectroscopy, magnetism of metal complexes, photochemistry, electrochemistry, solid state chemistry, metal-metal bonding. Three lecture hours per week, eight three-hour laboratories. One term. Four credits. Prerequisite: SC/CHEM 3030 4.00. Course credit exclusions: SC/CHEM 3031 3.00, SC/CHEM 3001 3.00.

SC/CHEM 3040 3.00 Computational Chemistry. An introduction to numerical methods for modelling reaction kinetics, thermodynamics and molecular spectra and structure. Operating system commands, symbolic algebra and molecular modelling software are used for computing exercises. Molecular orbitals, the Born-Oppenheimer approximation, and potential energy surfaces are discussed. Two lecture hours, three computer laboratory hours. One term. Three credits. Prerequisites or corequisites: SC/CHEM 2010 3.00; AK/AS/SC/CSE 1540 3.00 or AK/AS/SC/COSC 1540 3.00.

SC/CHEM 3050 3.00 Advanced Biochemistry. A detailed discussion of enzyme structure and function. The chemistry and metabolism of biological molecules. Metabolic regulation at the level of enzyme activity. Knowledge of general concepts of metabolism and of basic aspects of enzyme structure and function is assumed. Three lecture hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3010 3.00, SC/BIOL 3010 3.00, SC/CHEM 3050 3.00

SC/CHEM 3051 3.00 Macromolecules of Biochemical Interest. A discussion of the structures and functions of naturally occurring macromolecules, including nucleic acids, proteins, polysaccharides and related macromolecular conjugates. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 2020 6.00 and either SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00.

Cross-listed to: SC/BCHM 3051 3.00, SC/BIOL 3051 3.00, SC/CHEM 3051 3.00

SC/CHEM 3060 3.00 Introductory Atmospheric Chemistry. An introductory course linking chemistry and atmospheric science. Topics include atmospheric evolution; biogeochemical cycles; sources, transformations and sinks of atmospheric species; human impacts such as acid rain, photochemical smog and depletion of the ozone layer. Three lecture hours. One term. Three credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; one of SC/MATH 1010 3.00, SC/MATH 1014 3.00, SC/MATH 1310 3.00, SC/MATH 1505 6.00. Prior to Fall 2009: Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; one of AS/SC/MATH 1010 3.00, AS/SC/MATH 1014 3.00, AK/AS/SC/MATH 1310 3.00, AS/SC/MATH 1505 6.00.

Cross-listed to: SC/CHEM 3060 3.00, SC/EATS 3130 3.00

SC/CHEM 3070 3.00 Industrial and Green Chemistry. An in-depth look at various topics on the evolution of chemistry in the petrochemical, pharmaceutical, dye, agrichemical, food, personal care, cosmetic and detergent industries, including recent environmentally friendly approaches (green chemistry). Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 2020 6.00.

SC/CHEM 3071 3.00 Pharmaceutical Discovery. A practical look into the pharmaceutical industry, providing an overview of the drug discovery process. Topics include choosing disease states to study, pharmacological assays, rational drug design, synthetic and analytical chemistry, toxicology, drug metabolism and clinical trials. Three hours. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 3071 3.00, SC/BIOL 3071 3.00, SC/CHEM 3071 3.00

SC/CHEM 3080 4.00 Instrumental Methods of Chemical Analysis. The theory and application of a variety of modern instrumental methods. Topics include basic electronics, signal processing, electroanalytical methods, optical spectroscopy, atomic absorption and emission spectroscopy, chromatography and mass spectrometry. This course covers applications relevant to modern chemical analysis. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/CHEM 2080 4.00; SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00.

SC/CHEM 3090 3.00 Introduction to Polymer Chemistry. Classification and structure of polymers: molecular weights, synthesis, kinetics, statistics, characterization techniques and thermodynamics. Polymers in the solid state, crystallinity and advanced materials. Three lecture hours per week. One term. Three credits. Prerequisite: SC/CHEM 2020 6.00.

SC/CHEM 4000 4.00 Research Project. An original laboratory or theoretical project, supported by studies of the relevant scientific literature. Detailed guidelines are given in the departmental handbook. Six tutorial hours. One term or equivalent. Four credits. Note: Only open to Honours students with at least 84 credits, with permission of the department.

SC/CHEM 4000 8.00 Research Project. An original laboratory or theoretical project, supported by studies of the relevant scientific literature. Detailed guidelines are given in the departmental handbook. 12 tutorial hours. Two terms or equivalent. Eight credits. Note: Only open to Honours students with at least 84 credits, with permission of the department. Course Credit Exclusion: SC/BCHM 4000 8.00.

SC/CHEM 4010 3.00 Quantum and Computational Chemistry. Introduction to quantum mechanics; solutions of the Schrodinger equation describing molecular vibrations and rotations; electronic structure; molecular orbitals; computational methods. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 3010 3.00

SC/CHEM 4021 3.00 Synthetic Organic Chemistry. A course concentrating on strategies of synthesizing complex molecules, with emphasis on carbon-carbon bond-forming reactions, blocking groups, regioselectivity and stereochemical methods. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 3021 4.00.

SC/CHEM 4022 3.00 Theoretical Organic Chemistry. Molecular orbital theory, with applications to structure and reactivity of saturated and unsaturated molecules. Woodward-Hoffmann rules of orbital symmetry. Three lecture hours. One term. Three credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2020 6.00. Prerequisite or corequisite: SC/CHEM 3021 4.00.

SC/CHEM 4023 3.00 Physical Organic Chemistry. Advanced topics, including methods for determining mechanisms, the study of reactive intermediates (carbocations, carbanions, carbenes, carbon radicals), acid catalysis and other aspects of mechanistic organic chemistry. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 3021 4.00.

SC/CHEM 4024 3.00 Structure Elucidation of Organic and Organometallic Compounds. Spectroscopic methods for the identification of organic reaction products and other organic and organometallic unknowns, primarily for chemistry students. The main focus is on solving molecular structure using NMR techniques. Three lecture hours per week. One term. Three credits. Prerequisite: SC/CHEM 3020 4.00

SC/CHEM 4025 3.00 Organometallics. Organic synthesis using main group metal-based reagents and transition metal-based catalysts, by surveying recent literature. One term. Three credits. Prerequisites: SC/CHEM 3021 4.00, SC/CHEM 3030 8.00 or SC/CHEM 3031 4.00.

SC/CHEM 4030 3.00 Instrumental Methods in Inorganic Chemistry. Theory and applications of instrumental methods for investigating the structure and properties of inorganic and organometallic compounds. Magnetic resonance techniques (NQR and ESR), ultraviolet-visible, infrared, Raman and resonance Raman spectroscopy are introduced and discussed. Three lecture hours. First term. Three credits. Prerequisite: SC/CHEM 3031 4.00.

SC/CHEM 4031 3.00 Advanced Inorganic Chemistry. Advanced topics in inorganic chemistry, including organometallic, synthesis, reaction types, fluxionality and analysis. Three lecture hours. Three credits. Prerequisite: SC/CHEM 3030 4.00; SC/CHEM 3031 4.00 is recommended.

SC/CHEM 4032 3.00 Chemical Applications of Group Theory. A general introduction to symmetry operations, point groups, character tables, reducible and irreducible representations and direct products. Applications of group theory to problems in chemistry, with special reference to electronic and vibrational spectroscopy, crystal field and molecular orbital theory. Three lecture hours. One term. Three credits. Prerequisites: SC/CHEM 2010 3.00; SC/CHEM 2030 4.00 or SC/CHEM 2030 3.00; a background in inorganic chemistry is desirable.

SC/CHEM 4050 3.00 Bioanalytical Chemistry. This course describes modern methods of bioanalytical chemistry in their application to the analysis of biological polymers: proteins, nucleic acids, carbohydrates and lipids. Analytical aspects of genomics and proteomics are considered. Three lecture hours per week. One term. Three credits. Prerequisites: SC/BIOL 2020 4.00 or SC/BCHM 2020 4.00 or SC/CHEM 2050 4.00; SC/BIOL 2021 4.00 or SC/BCHM 2021 4.00; SC/CHEM 2020 6.00.

Cross-listed to: SC/BCHM 4050 3.00, SC/BIOL 4051 3.00, SC/CHEM 4050 3.00

SC/CHEM 4051 3.00 Biological Chemistry. Bio-organic and bio-inorganic topics: active sites in enzymes and metalloproteins, coenzymes; abiotic models; aromatic natural products, terpenoids and some alkaloid classes. Three lecture hours. One term. Three credits. Prerequisites: SC/CHEM 2020 6.00 and either SC/CHEM 2050 4.00 or SC/BCHM 2020 4.00 or SC/BIOL 2020 4.00; SC/CHEM 2030 4.00 or SC/CHEM 2030 3.00 is strongly recommended.

SC/CHEM 4060 4.00 Chemistry of the Natural and Polluted Atmosphere. A detailed study of the chemistry of atmospheric trace gases, including stratospheric ozone, tropospheric oxidants, photochemical smog and acid deposition. Computer simulation of chemical reaction mechanisms is used throughout the course. Three lecture hours, two computer laboratory hours. One term. Four credits. Prerequisites: SC/CHEM 3011 4.00; SC/CHEM 3060 3.00 or SC/EATS 3130 3.00.

SC/CHEM 4061 4.00 Transport and Chemistry of Atmospheric Trace Gases. A study of the processes that affect the composition of the atmosphere and the methods used to include these in numerical models. Included are sources, transport, deposition, photochemistry, biogeochemical cycles, one-dimensional computer models and analysis of atmospheric data sets. Three lecture hours, two computer laboratory hours. One term. Four credits. Prerequisites: SC/CHEM 3060 3.00 or SC/EATS 3130 3.00; AK/AS/SC/COSC 1540 3.00 or AK/AS/SC/CSE 1540 3.00; AK/AS/SC/MATH 2270 3.00. Course credit exclusion: SC/EATS 4170 4.00.

SC/CHEM 4080 3.00 Advanced Analytical Separation Methods. Advanced theory and practice of high-resolution separation techniques, especially high-resolution chromatography and capillary electrophoresis, with emphasis on the practical application of advanced theories and the problem of optimizing separation procedures. Analytical procedures as integrated methods. Possibilities and limitations of interfacing sample injection, separation method and detection. Three lecture hours. One term. Three credits. Prerequisite: SC/CHEM 3080 4.00.

SC/CHEM 4090 3.00 Topics in Materials Sciences. Exploring the chemistry behind novel materials relevant to electronics, alternative energy sources, life sciences and polymer sciences. One term. Three credits. Prerequisites: SC/CHEM 3010 4.00, SC/CHEM 3030 8.00 or SC/CHEM 3031 4.00.

SC/CHEM 4091 3.00 Frontiers in Electrochemistry. This course will present selected aspects surface electrochemistry, electroncatalysis and electroanalysis. It will introduce new methods and instrumentation employed to understand electrochemical processes at the molecular and atomic levels. This will include scanning probe methods (STM and AFM), IR spectroscopy and x-ray diffraction. Three lecture hours that will include demonstrations when appropriate (no lab required). One term. Three credits. Prerequisites or corequisites: SC/CHEM 3030 4.00; SC/CHEM 3080 4.00 or SC/CHEM 3120/3110 4.00. SC/CHEM 3011 4.00 and SC/CHEM 3031 4.00 are strongly recommended.

SC/CHEM 4092 3.00 X-ray Crystallography. Principles, practical details and computational methods of X-ray crystallographic structure determination. Students carry out an original structure determination from raw reflection data. One term. Three credits. Prerequisites: SC/CHEM 3030 8.00 or SC/CHEM 3031 4.00.

SC/CHEM 4093 3.00 Biomaterials Chemistry. This course serves as an introduction to materials used for biomedical applications for students with background in chemistry, physics and biology. Emphasis is on biological and biomimetic surfaces, interactions at the biomaterial/tissue interfaces, and mechanisms involved with biologically driven materials self-assembly. Three lecture hours. One term. Three credits. Prerequisites: SC/CHEM 3051 3.00 or SC/CHEM 3090 3.00.

SC/CHEM 4300 3.00 Selected Topics in Chemistry. By special arrangement through the Chair of the chemistry department, a student may enrol in a reading course under the direction of a member of the chemistry faculty to study in a special area of chemistry. Regular meetings. One term. Three credits.

SC/CHEM 4300 6.00 Selected Topics in Chemistry. By special arrangement through the Chair of the chemistry department, a student may enrol in a reading course under the direction of a member of the chemistry faculty to study in a special area of chemistry. Regular meetings. Two terms. Six credits.

The Children's Studies program explores the experiences of children and adult constructions of childhood throughout time and across cultures, adopting a "childist" (child-centred) and children's rights approach that recognizes children as subjects in their own culture. The program consists of core courses in humanities and additional child-related courses throughout the University. The program is a 120-credit, direct-entry, interdisciplinary Honours BA degree program, which also includes double major, major/minor and minor degree options.

Chinese – Department of Languages, Literatures and Linguistics, Liberal Arts and Professional Studies

Note: for general regulations and enrolment information please see Languages, Literatures and Linguistics within this section.

Courses in Chinese

AP/CH 1000 6.00 Elementary Modern Standard Chinese. This is an Introductory course for English speakers who have no knowledge of Chinese. Students are expected to learn to carry on simple everyday conversations in the national language and to read and write approximately 500 Chinese characters. Pattern drills are used primarily in addition to grammatical analysis. Note: Students whose native dialect is Cantonese are directed to AP/CH 3010 6.00. Course Credit Exclusions: None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/CH 1000 6.00.

Language of Instruction: Chinese

AP/CH 1010 6.00 Elementary Chinese for Advanced Beginners. This course presents three aspects of Modern Standard Chinese: pronunciation, grammar, and writing system. Lectures, classroom practice, audio tapes, and interactive computer programs. Pinyin (Chinese Romanization) is used in teaching approximately 500 characters by the end of the course. Note: This course prepares for entry into AP/CH 2000 6.00, AP/CH 2030 6.00, or with permission of the department, AP/CH 3000 6.00. Course Credit Exclusion: AP/CH 1000 6.00. PRIOR TO FALL 2009: Course Credit Exclusions: AS/CH 1000 6.00 and AS/CH 2010 6.00.

Language of Instruction: Chinese

AP/CH 2000 6.00 Intermediate Modern Standard Chinese. This course continues the work of AP/CH 1000 6.00 so that students can hold discussions on contemporary China and can read and write approximately 1100 characters. Prerequisite: AP/CH 1000 6.00. Course Credit Exclusion: AP/CH 2030 6.00. PRIOR TO FALL 2009: Course Credit Exclusions: AS/CH 2000 6.00, AS/CH 2010 6.00 and AS/CH 2030 6.00.

AP/CH 2030 6.00 Intermediate Chinese Language and Culture in China: Shanghai as an International and Chinese Centre. This is an intensive intermediate Chinese language and culture course, taught on the York campus and followed by a stay at Fudan University in Shanghai. The course covers language structures and functions, vocabulary and topics on Chinese culture and civilization. Prerequisite: AP/CH 1000 6.00, or permission of the department. Course credit exclusion: AP/CH 2000 6.00. PRIOR TO FALL 2009: Prerequisite: AS/CH 1000 6.00, or permission of the department. Course credit exclusions: AS/CH 2000 6.00 and AS/CH 2030 6.00.

Language of Instruction: Chinese

AP/CH 2200 6.00 Introduction to Chinese Literature. This course surveys the many genres of Chinese literature from its origins to the present to show the evolution of the literary tradition and its interplay with history, philosophy and politics. The focus is on major works and how to discover their meaning. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/CH 2200 6.00 and AS/CH 2700 6.00 (prior to Fall/Winter 2005-2006)

Language of Instruction: Chinese/English

AP/CH 2730 6.00 Modern Chinese Fiction. This course presents a brief survey of popular traditional narrative and an examination of 20th-century stories and novels from the end of the Qing dynasty through the Republican era. This includes the beginning and the end of bourgeois fiction in China as well as the continuation of more popular traditions. Readings, discussions and term work are in English. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/CH 2730 6.00.

AP/CH 3000 6.00 Advanced Modern Standard Chinese. This course entails reading, writing, discussion, use of dictionaries and translation practice. The student should, with the aid of dictionaries, be able to read and translate newspaper articles from the People's Republic, modern fiction and non-specialist articles. Prerequisite: AP/CH 2000 6.00. Course Credit Exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/CH 2000 6.00 or AS/CH 2010 6.00. Course Credit Exclusion: AS/CH 3000 6.00.

Language of Instruction: Chinese

AP/CH 3010 6.00 Modern Standard Chinese for Speakers of Cantonese or Other Dialects. This course provides training in the standard pronunciation, phonetic system and simplified script, and discussions of the debate on language reform and style as embodied in the classics of modern vernacular literature. Prerequisite: Permission of the department; not open to speakers of Mandarin. Course credit exclusions: None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/CH 3010 6.00.

Language of Instruction: Chinese

AP/CH 3400 3.00 Women in Contemporary Chinese Culture. The major developments and changes in the lives of women in contemporary China will be analyzed and discussed, themes such as gender, class, nationalism, and Confucianism as they relate to the lives of Chinese women in contemporary Chinese culture will be examined critically. Various approaches are used to deepen the understanding of women's lives in the contemporary culture in China and to encourage critical thinking within a contemporary context. Prerequisite: AP/CH 3000 6.00, AP/CH 3010 6.00, or permission of the Department. Course Credit Exclusions: None. Language of Instruction: Chinese. PRIOR TO FALL 2009: Prerequisite: AS/CH 3000 6.00, AS/CH 3010 6.00, or permission of the Department. Language of Instruction: Chinese. Course Credit Exclusion: AS/CH 3400 3.00.

Language of Instruction: Chinese

AP/CH 3600 6.00 Lu Xun: Representative Works. This course deals with the creative works of Lu Xun, China's leading 20th-century writer. It focuses on textual analysis of his short stories, prose poems and selected satirical essays. Modern Standard Chinese (Mandarin) is used in class. Prerequisites: AP/CH 3000 6.00 or AP/CH 3010 6.00 plus any of the 2000-level Chinese literature courses. Course credit exclusions: None. PRIOR

TO FALL 2009: Prerequisites: AS/CH 3000 6.00 or AS/CH 3010 6.00 plus any of the 2000-level Chinese literature courses. Course credit exclusion: AS/CH 3600 6.00.

Language of Instruction: Chinese

AP/CH 3710 6.00 Women Writers in Modern China (in translation). A study of the fiction of the major women writers from the literary revolution of the early 1920s to the present, the development of themes, forms and styles seen in the context of modern Chinese literature and against the background of China's patriarchal tradition. Prerequisite: Any 2000-level Chinese literature course, or AP/HUMA 2930 9.00 or AP/SOSC 2180 9.00 or AP/GL/WMST 2510 9.00. Course credit exclusion: None. PRIOR TO FALL 2009: Prerequisite: Any 2000-level Chinese literature course, or AS/HUMA 2930 9.00 or AS/SOSC 2180 9.00 or AK/AS/GL/WMST 2510 9.00. Course credit exclusion: AS/CH 3710 6.00.

Language of Instruction: Chinese/English

AP/CH 3711 3.00 Women Writers in Modern and Contemporary China. This course studies fiction by major women writers from the literary revolution of the 1920s to the present; themes, forms and styles are explored in the context of modern China. Discussions are guided by feminist scholarship on modern Chinese literature. Note: Students who are proficient in Chinese may submit their written work in Chinese. Prerequisites: None. Course credit exclusions: None.

AP/CH 3790 6.00 Contemporary Chinese Culture Through Literary Texts and Film. This course explores the relationship between ideology and art. Focusing on such aspects as narrative technique and allegory and by investigating the film versions of some of the literary texts under discussion, this course offers insights into contemporary China. Course credit exclusion: AP/CH 3791 6.00. PRIOR TO FALL 2009: Course Credit Exclusions: AS/CH 3790 6.00 and AS/CH 3791 6.00.

Language of Instruction: Chinese

AP/CH 3791 6.00 Contemporary Chinese Culture Through Literary Texts and Film (in translation). This course explores the relationship between ideology and art. Focusing on such aspects as narrative technique and allegory and by investigating the film versions of some of the literary texts under discussion, this course offers insights into contemporary China. Course credit exclusion: AP/CH 3790 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/CH 3790 6.00 and AS/CH 3791 6.00.

AP/CH 3800 3.00 Chinese-Canadian Diasporic Literature. This course studies Chinese-Canadian literature from as early as 1890 to contemporary times, focusing mainly on fiction but including also poetry, prose essays, and drama both in English and Chinese. While examining these works' artistic qualities, it explores diasporic topics of social and cultural identity, the interaction between traditional roots and the new environment, and between cultural assimilation and resistance as reflected in these works. Course credit exclusions: None.

AP/CH 3810 3.00 Chinese-American Diasporic Literature. The course studies Chinese-American literature from its origins in the mid-nineteenth century to recent times, focusing on fiction and biography. It examines its literary developments, as well as its representative writers and works. Both literary characteristics and socio-historical values of some representative works will be explored in the course. Course credit exclusions: None.

AP/CH 3900 3.00 Independent Reading and Research. A student may take an independent, individually supervised reading/research course, provided that the student and the course meet the requirements as set out by the Faculty of Liberal Arts and Professional Studies and those established by the department. Note: Independent reading/research courses require a signed agreement between the student and faculty member, as well as the approval of the section coordinator and undergraduate director. Course Credit Exclusions: None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/CH 3900 3.00.

Language of Instruction: Chinese

AP/CH 3900 6.00 Independent Reading and Research. A student may take an independent, individually supervised reading/research course, provided that the student and the course meet the requirements as set out

by the Faculty of Liberal Arts and Professional Studies and those established by the department. Note: Independent reading/research courses require a signed agreement between the student and faculty member, as well as the approval of the section coordinator and undergraduate director. Course Credit Exclusion: None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/CH 3900 6.00.

Language of Instruction: Chinese

AP/CH 4010 6.00 "Translation: English-Chinese, Chinese-English. The course emphasizes the development of written translation skills by considering English and Chinese texts in a range of topics and styles. Training in translation strategies enables the production of a text equivalent to the original meaning and style. Prerequisite: AP/CH 3000 6.00 or AP/CH 3010 6.00. Course Credit Exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/CH 3000 6.00 or AS/CH 3010 6.00. Course Credit Exclusion: AS/CH 4010 6.00.

Language of Instruction: Chinese

AP/CH 4050 6.00 Advanced Chinese for Business. The course deals with the specialized language of business-related subjects, including business etiquette. Materials include a text of formal conversations on typical business transactions, newspaper and journal articles, as well as TV news broadcasts on foreign trade and economic development. Prerequisites: AP/CH 3000 6.00, AP/CH 3010 6.00, or equivalent, or permission of the Department. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AS/CH 3000 6.00, AS/CH 3010 6.00, or equivalent, or permission of the Department. Course credit exclusion: AS/CH 4050 6.00.

Language of Instruction: Chinese

AP/CH 4300 6.00 Classical Chinese Fiction. This course examines major developments in traditional Chinese fiction. Selected works written in classical and vernacular language that represent a variety of narrative forms. The literary approach focuses on plot construction, characterization, narrative stance, techniques of conveying meaning, and historical and cultural connotations. Prerequisites: AP/CH 3000 6.00, AP/CH 3010 6.00, or any 3000 level Chinese literature course or permission of the department. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AS/CH 3000 6.00, AS/CH 3010 6.00, or any 3000 level Chinese literature course or permission of the department. Course credit exclusion: AS/CH 4300 6.00.

Language of Instruction: Chinese

AP/CH 4700 6.00 Tales of the Outside(rs). This course examines the range of imaginative Chinese literature about the outside(rs) - foreign lands and foreign peoples (including the overseas Chinese communities). Course credit exclusions: None. PRIOR TO FALL 2009: Course Credit Exclusion: AS/CH 4700 6.00.

AP/CH 4900 3.00 Independent Reading and Research. A student may take an independent, individually supervised reading/research course, provided that the student and the course meet the requirements as set out by the Faculty of Liberal Arts and Professional Studies and those established by the department. Note: Independent reading/research courses require a signed agreement between the student and faculty member, as well as the approval of the section coordinator and undergraduate director. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/CH 4900 3.00.

Classical Studies – Liberal Arts and Professional Studies

Location:

210 Vanier College, Tel.: 416-736-5910

Web Site:

<http://www.yorku.ca/laps/huma/clas>

Program Coordinator:

M. Clark, Humanities

Affiliated Faculty:

R. Arthur, Humanities; S. Blake, Humanities; T. Chartrand-Burke, Humanities; M. Clark, Humanities; J. Edmondson, History/Humanities; P. Harland, Humanities; B. Kelly, History; A.-M. Lewis, Languages, Literatures and Linguistics; S. Mason, History; G. Naddaf, Philosophy; R. Tordoff, Humanities; J. Trevett, History

The Classical Studies program offers a broad range of exciting courses in Greek and Roman history, Greek and Roman literature and culture, Greek and Roman art and architecture, Greek philosophy, and in Greek and Latin language. Students normally enter the program by taking HUMA 1100 9.00 or HUMA 1105 9.00 and/or HIST 2100 6.00 and/or LA 1000 6.00 or GK 1000 6.00. (For purposes of meeting program requirements, all foundations courses will count as six credits towards the major or minor.) Students in classical studies are strongly advised to make Greek or Latin a component of their degree program, especially if they are even mildly contemplating graduate studies in classics or ancient history.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Shanker, Philosophy; W. Stuerzlinger, Computer Science

Cognitive science is the scientific study of the mind and its processes. What is especially exciting about cognitive science is its emphasis on interdisciplinary cooperation involving psychologists, philosophers, computer scientists, neuroscientists, anthropologists, biologists and linguists. Though researchers from each of these fields have long been studying the nature of thought, emotion, perception, memory, language and other aspects of cognition, cognitive science allows them to take advantage of the strengths and research in other disciplines. Different methodologies, intellectual histories and disciplinary divisions often isolate those with similar goals, and cognitive science aims to bring researchers back together. By approaching questions from a variety of perspectives, the cognitive scientist has a greater chance of finding answers to questions about cognition.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Courses in Cognitive Science

AP/COGS 3750 3.00 Foundations of Artificial Intelligence. An introduction to philosophical issues in Artificial Intelligence (AI). The goal is for students to be able to gain basic understanding of the cognitive architectures used by AI programmers, and reflect critically on research in AI from a philosophical perspective. Prerequisite: At least six credits in philosophy, including one of AP/PHIL 2160 or AP/PHIL 2240. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: At least six credits in philosophy, including one of AK/PHIL 2240 3.00, AS/PHIL 2240 3.00 or AK/AS/PHIL 2160 3.00. Course credit exclusions: AK/PHIL 3001 3.00, AS/PHIL 3750 3.00.

Cross-listed to: AP/COGS 3750 3.00, AP/PHIL 3750 3.00

AP/COGS 4750 6.00 Honours Thesis in Cognitive Science. Students carry out an individual piece of research in cognitive science in consultation with a thesis supervisor and write a thesis. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/PHIL 4750 6.00.

Cross-listed to: AP/COGS 4750 6.00, AP/PHIL 4750 6.00

AP/COGS 4900 6.00 Honours Seminar in Cognitive Science. This course is the capstone for students in the cognitive science honours BA program. Students will obtain a greater understanding of the work that cognitive scientists do, and how the theoretical background can be implemented in solving real-world problems and uncovering additional facts about the world. Students will be expected to produce a major work in cognitive science as well as demonstrate their knowledge of the applications of cognition science to many different areas of academia and industry. Note: Students must be cognitive science majors with at least 84 credits in their major. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/COGS 4900 6.00.

Communication Studies – Liberal Arts and Professional Studies

Location:

3004 Technology Enhanced Learning Building, Tel.: 416-736-5057

Web Site:

<http://www.yorku.ca/laps/comm>

Chair:

D. Skinner

Undergraduate Program Director:

P. Mazepa

Affiliated Faculty:

A. Alhassan, M-L. Craven, B. Crow, K. Dowler, S. Driver, D. Hogarth, L. Lyons, P. Mazepa, W. Rowland, M. Ruggles, D. Skinner, A. Viseu

Emeriti Faculty:

G. Durlak, D. Kehoe, A. Siegel

Communication studies is offered as an Honours Double Major BA program and as a Specialized Honours BA program. As of 1 July 2009, students may also pursue a stand-alone Honours BA, a Honours major/minor program a stand-alone Honours iBA, a Honours double major iBA, a Honours Major/Minor iBA. (Please note that a minor program is not offered.)

The Specialized Honours BA program is a delayed-entry program; admission to the program requires that students achieve a 6.00 (B) average in SOSC 1310 9.00 and at least six other communication studies credits and a cumulative grade point average of at least 5.00 (C+). For details, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

The communication studies curriculum consists of four sub-fields that are considered the main themes of the program: interpersonal and organizational communication; critical technology studies; politics and policy; and media, culture and society. The emphasis of the program is academic rather than technical; the aim of the program is to produce graduates who have acquired skills in communications analysis and a synthesis of knowledge in the increasingly complex field of communications.

Courses in Communication Studies

AP/COMN 1310 9.00 Introduction to Communications. This course provides a critical overview of the main issues in the field of communication and media. It examines how forms and processes of communication are implicated in our understanding of the world at both the personal and social levels. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: AP/SOSC 2410 6.00, AP/SOSC 2410 9.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 1310 9.00, AS/SOSC 2310 9.00 (prior to Fall/Winter 2005-2006), AK/SOSC 2410 6.00 and AK/SOSC 2410 9.00.

Cross-listed to: AP/COMN 1310 9.00, AP/SOSC 1310 9.00

AP/COMN 2311 6.00 Communication in Everyday Life. This course examines the processes of interpersonal communication providing insight into how we create and communicate meaning for each other at all levels of social communication. We analyze everyday communication using a variety of models from the social sciences. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 2311 6.00.

AP/COMN 2312 6.00 Information and Technology. This course focuses on critical stances with which to view our society's preoccupation with information and technology. Different models and theoretical approaches are used to understand how information and technology affect social change. Course credit exclusions: AP/COMN 2312 9.00, AP/COMN 2319 9.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2080 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2089 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2312 6.00, AS/SOSC 2312 9.00 and AS/SOSC 2319 9.00.

AP/COMN 2312 9.00 Information and Technology. This course focuses on critical stances with which to view our society's preoccupation with information and technology. Different models and theoretical approaches are used to understand how information and technology affect social change. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: AP/COMN 2312 6.00, AS/COMN 2319 9.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2080 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2089 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2312 6.00, AS/SOSC 2312 9.00 and AS/SOSC 2319 9.00.

Cross-listed to: AP/COMN 2312 9.00, AP/SOSC 2312 9.00

AP/COMN 2313 6.00 Introduction to Politics, Policy and the Media. This course analyzes the relations between popular media, communication technologies and power. The role of the state, market and civil society in the development of communication systems, and the production and distribution of culture are examined, with special attention paid to Canada. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2313 6.00.

AP/COMN 2314 6.00 Media, Culture and Society. This course explores the individual and collective significance of the role of communications in culture and society. Various historical, theoretical and methodological approaches are introduced as ways to analyze the impact of communications media in everyday life. Course credit exclusion: AP/COMN 2314 9.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2314 6.00, AS/SOSC 2314 9.00.

AP/COMN 2314 9.00 Media, Culture and Society. This course explores the individual and collective significance of the role of communications in culture and society. Various historical, theoretical and methodological approaches are introduced as ways to analyze the impact of communications media in everyday life. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: AP/COMN 2314 6.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2314 6.00, AS/SOSC 2314 9.00.

Cross-listed to: AP/COMN 2314 9.00, AP/SOSC 2314 9.00

AP/COMN 2319 9.00 Information and Technology (ESL). This course focuses on critical stances with which to view our society's preoccupation with information and technology. Different models and theoretical approaches are used to understand how information and technology affect social change. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: AP/COMN 2312 6.00, AP/COMN 2312 9.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 2080 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2089 9.00 (prior to Fall/Winter 2003-2004), AS/SOSC 2312 6.00, AS/SOSC 2312 9.00 and AS/SOSC 2319 9.00.

Cross-listed to: AP/COMN 2319 9.00, AP/SOSC 2319 9.00

AP/COMN 2830 9.00 Music and Society. This course explores the relationship between the production and performance of music and its economic, social and political milieu. The first part of the course centres on the special theoretical perspective of the social sciences and the understanding it gives of the structure and content of music. The second part focuses on music in the modern world. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 2830 9.00.

Cross-listed to: AP/COMN 2830 9.00, AP/SOSC 2830 9.00

AP/COMN 2840 9.00 Film and Society. This course concentrates on the Hollywood cinema from 1939 to 1964, a period that includes World War Two and the Cold War. It investigates fictional narrative film and its relation to entertainment, art, ideology and political discourse. Note: Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 2840 9.00.

Cross-listed to: AP/COMN 2840 9.00, AP/SOSC 2840 9.00

AP/COMN 3310 6.00 Communications for Tomorrow. This course explores the future direction of communications in Canadian society. The technological advances in telecommunications and other information delivery systems (e.g. electronic mail, electronic fund transfer, two-way cable TV, communications satellites) present complex social issues that Canadian communications policy makers must deal with. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3310 6.00.

AP/COMN 3311 6.00 Communication in Organizations. This course examines the nature and variety of human organizations and the processes of human communication that create, sustain and change them. Problems in communication in large organizations are studied with a view to understanding the basis for effective communication and approaches to improving organizational functioning. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3311 6.00.

AP/COMN 3313 3.00 Labour in the Communication and Cultural Industries. This course analyzes labour in the communication and cultural industries (including journalism, broadcasting, creative labour and cyber-work) by the examination of the historical constitution, present institutions, and current practices organizing labour in these industries. Course credit exclusions: None.

AP/COMN 3315 6.00 Advertising and Society. This course reviews the historical development of advertising. Careful attention is placed on the economic shift from production to consumption; the culture of consumption; the cultural triumph of the image; the democratization of luxury; and the aesthetics of mass culture. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3315 6.00.

AP/COMN 3316 6.00 Television as Culture and Communication. This course examines the interaction between television and culture by exploring the local and global impact of television, its narrative structures, the medium and its effects. The ideological role of television in representing and constructing shared beliefs and audience response. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3316 6.00.

AP/COMN 3318 6.00 Augmented Bodies:Inquiries into the Intersection of Bodies and Technologies. This course aims to challenge students to think creatively about the boundaries and intersections of bodies and technology, and the ways in which these are mutually constitutive. Students will critically examine qualitative research methods as a way to conduct such enquiries. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3318 6.00.

AP/COMN 3320 6.00 Communication Theory. This course examines the numerous theories and theoretical approaches being used to study mass communication. Communication theory will be studied in the wider context of the social sciences and in light of differences between North American and European perspectives. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3320 6.00.

AP/COMN 3330 3.00 An Introduction to the Documentary (for non-film majors). This course introduces students to the documentary, a popular video and audio genre which both entertains and educates. Students will learn how to analyse various sub-genres to understand how and why they are produced and interpreted. Course credit exclusions: None.

AP/COMN 3340 3.00 Evaluating Media History. This course introduces major investigations of media history by reviewing the theory and practice of media history and media historiography. The focus will be the examination of media history in a variety of social and cultural contexts taking into account the differing approaches in the disciplines of communication studies and history. Course credit exclusions: None.

AP/COMN 3350 3.00 Broadcasting Policy: A Comparative Introduction. This course introduces students to the politics of broadcast regulation with an emphasis on the Anglo-American democracies. It pays particular attention to the role of regulatory agencies and the struggles that have emerged between the major stakeholders in broadcast regulation. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 3350 3.00.

AP/COMN 3351 3.00 Broadcasting Policy: Current Issues and Case Studies. This course examines current issues in broadcast regulation through the use of case studies. It examines such issues as: broadcasting and national identity; the regulation of advertising and content; the convergence of broadcasting and telecommunications. Prerequisite: AP/

COMN 3350 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/SOSC 3350 3.00. Course credit exclusion: AS/SOSC 3351 3.00.

AP/COMN 3352 3.00 Studies In Communication: Corporations, Media, Me. Examines challenges to ethical behaviour and normative intentions posed by the institutional imperatives of the modern media corporation. Explores the ethical relationships of the media corporation and the people it employs with the communities being served. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3530 3.00.

AP/COMN 3393 6.00 Feminist Perspectives on Media and Technology. This course brings various feminist perspectives to look at the ways in which contemporary technologies including the telephone, television, cinema, print-based media (such as magazines, romantic fiction, etc.), and computers are held within historical relationships of gender. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 3393 6.00, AS/SOSC 3990A 6.00 (prior to Fall/Winter 2002-2003).

AP/COMN 3991 6.00 Research Methods in Mass Communications. This course introduces students to the major research paradigms and attendant methodologies in the field of mass communication. Methods to be reviewed include survey; audience; ethnographic; political economic; feminist; content; discourse and textual analyses. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 3990D 6.00 (prior to Fall/Winter 2003-2004), AS/SOSC 3991 6.00.

AP/COMN 4300 6.00 Popular Culture and Communications. Employing a variety of theoretical and methodological perspectives, this course examines the role of communications media and information and technology in the production and circulation of popular cultural artifacts and practices. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4300 6.00.

AP/COMN 4301 6.00 Theoretical Perspectives on Interactive Media. This course studies interactive media such as hypertext fiction, video games, virtual reality, augmented reality, etc., from a variety of theoretical perspectives. As well, the students' will develop their own taxonomies to evaluate examples of the various media. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4301 6.00.

AP/COMN 4302 6.00 New Directions in Interactive Art and Entertainment. This course studies the design, development and delivery of interactive narratives and their implementation in new media products that take advantage of broadband networks and wireless networks. Examples will be drawn from Canada as well as from across the world. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4302 6.00.

AP/COMN 4303 6.00 Children, Media, Education and Change. Through the study of various media, we examine the role of communication technology in child development and social change related to gender, culture, ethnicity, and families, and explore the meaning of childhood as reflected in media. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4303 6.00.

AP/COMN 4304 6.00 Advanced Problems in Communication Thought. Employing theoretical and/or philosophical modes of examination, this course offers and opportunity to pursue a sustained and rigorous examination of a particular problem or research perspective linked to the analysis of communication phenomena. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4304 6.00.

AP/COMN 4305 6.00 Communication and the Sociotechnical: Perspectives, Debates, Applications. This course investigates some of the texts in the burgeoning study of society and technology that have inspired its major philosophical perspectives and frameworks of research. Six perspectives are surveyed: institutionalism, critical theory, feminism, phenomenology, social constructionism, and actor-network theory. Prerequisites: AP/COMN 2312 6.00, AP/COMN 2312 9.00, or AP/COMN

2319 9.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: AS/SOSC 2312 6.00, AS/SOSC 2312 9.00, or AS/SOSC 2319 9.00. Course credit exclusion: AS/SOSC 4305 6.00.

AP/COMN 4306 3.00 Inside Technology. This course introduces students to recent theoretical developments on the workings of information and communication technologies (ICTs) and their interactions with society and culture, so as to facilitate various ways to think with and about technology. Course credit exclusions: None.

AP/COMN 4310 6.00 Global Communication: Contemporary Issues. This course examines various aspect of communication in the global marketplace. Areas of focus include the increasingly transnational nature of media ownership, production and regulation; the emergence of worldwide audiences; and the globalization (and re-localization) of everyday life. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 4310 3.00 (prior to Fall/Winter 2005-2006), AS/SOSC 4311 3.00 (prior to Fall/Winter 2005-2006) and AS/SOSC 4310 6.00.

AP/COMN 4312 6.00 The Politics of Canadian Broadcasting. This course examines the political, economic and cultural considerations that affect the arrangements made by Canadian society to organize broadcasting. The focus is on current issues of public debate which are explored from a historical perspective. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4312 6.00.

AP/COMN 4314 6.00 Media, Publics and Democracy. The course explores the relationship between contemporary forms of mediated communication and democratic public life. It examines issues such as freedom of expression and the regulation of communication and culture in the context of both dominant and alternative media practices. Prerequisite: AP/COMN 1310 9.00. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/SOSC 1310 9.00. Course credit exclusion: AS/SOSC 4314 6.00.

AP/COMN 4315 6.00 Communication and the Management of Change in Organizations. This course examines the process of managed change in human organizations and the critical role of communication in the change process. We will critically analyze approaches to implementing planned change using a variety of models from the social sciences. Prerequisite: AP/COMN 3311 6.00 or permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/SOSC 3311 6.00 or permission of the course director. Course credit exclusion: AS/SOSC 4315 6.00.

AP/COMN 4316 3.00 Intercultural Communication. This course explores the relationship between communication and culture, the historical and contemporary perspectives on communication across cultures and the dynamics of non-verbal forms of communication in international and intercultural contexts. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4316 3.00.

AP/COMN 4318 6.00 Modes of Communication: From Orality to Literacy to the Electronic Era. This course builds on Ong's ideas about orality, literacy and secondary orality. Looking at various texts (including oral, chirographic and print-based, television and hypermedia texts) throughout these overlapping periods, we examine how they can be organized and interpreted. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4318 6.00.

AP/COMN 4319 6.00 Theory and Practice of Effective Communication. This course explores various models and theories about what constitutes effective communication across a number of media, and involves putting these models and theories into practice through numerous writing and designing tasks. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4319 6.00.

AP/COMN 4320 6.00 Electronic Information Network Marketplace. This course examines the social, economic, political and technological forces in Canada and other nations that are creating an electronic information network marketplace. The main purpose is to identify the opportunities and barriers to a new kind of information-rich civilization, to

test its implications and to suggest strategies for managing it. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4320 6.00.

AP/COMN 4325 6.00 Mediations of Identity. This course examines processes and practices at work in media representations of race, sexuality, gender, class, ethnicity and nation within Western society. Key theoretical approaches to power, knowledge, ideology, subjectivity and signification are applied to current and historical representations of social identities. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4325 6.00.

AP/COMN 4326 6.00 Visual Culture: Histories, Theories and Politics. This course develops critical perspectives on visual culture. We examine major theories in the field, examine the histories of various media, and critically analyze the social, political and cultural implications of visual culture. Course credit exclusions: None.

AP/COMN 4330 6.00 Participative Media. This course examines the social impacts of participative media from a hands-on perspective. Participative media are web services that empower people to contribute to developing, collaborating on and distributing Internet content and customizing Internet applications. In the 1st term students create a game in a new programming language, explore a virtual world, and create a video blog on a new communication technology. In the 2nd term student teams design and create a project using participative media. The result may be a website, extended video podcast, a site on Second Life or a serious game. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4330 6.00.

AP/COMN 4340 6.00 Communications Field Experience: Corporate and Cultural Industries. Students earn course credit by working on a project for an organization involved in communication policy development, information services or administration. Details of each student's responsibilities are worked out in consultation with the supervisor, the course director and the student. Prerequisite: AP/COMN 1310 9.00 or one 3000-level social science course. Course credit exclusion: AP/COMN 4341 6.00. PRIOR TO FALL 2009: Prerequisite: AS/SOSC 1310 9.00 or one 3000-level social science course. Course credit exclusion: AS/SOSC 4340 6.00.

AP/COMN 4341 6.00 Communications Field Experience: Non-Profit Organizations. Students will draw together field placement experience with research in communication theory in order to examine actual media use and communication networks within and between non-profit and non-governmental organizations. Course credit exclusion: COMN 4340 6.00.

AP/COMN 4801 6.00 Resistance and Subversion on the Internet. This course explores the ways in which social justice seeking groups have engaged with the Internet for social change through an examination of the Internet's origin stories, software, hardware, regulation, use and access. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4801 6.00.

AP/COMN 4802 6.00 Issues in the Political Economy of Media. This course examines the ways that information, communication, and media are linked to the production and maintenance of wealth and social power, and the ways in which symbolic resources are allocated within political economic systems and cultural institutions. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4802 6.00.

AP/COMN 4803 6.00 Approaches to Communication and Development. This course interrogates approaches to communication in national and international development, examining the historical construction of development discourse and the mobilization of communication resources in the modernization of developing countries. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/SOSC 4803 6.00.

AP/COMN 4804 6.00 Global Media, Local Communication. This course examines the theories and practices of the global media - telecommunications, news, film, television, and the new media - in the

contexts of local communication and culture. The interactions between the global media and local communication and culture are explored. Course credit exclusions: None.

AP/COMN 4810 6.00 Specialized Honours Research Seminar. Students in this course will be supervised by the various faculty in the program in planning and implementing original, independent research in communication studies, in order to prepare themselves for graduate studies. Course credit exclusions: None.

Computer Science – Science and Engineering

Location:

1003 Computer Science and Engineering Building, Tel.: 416-736-5053

Undergraduate/Graduate Office:

1003 Computer Science and Engineering Building, Tel.: 416-736-5334

Chair:

A. Asif

Professors:

N. Cercone, P.W. Dymond, M.R.M. Jenkin, E. Roventa, G. Tourlakis, J. Tsotsos

Professor Emeritus:

E. Arjomandi, J.W.H. Liu

Associate Professors:

M. Aboelaze, R. Allison, J. Amanatides, A. An, A. Asif, J. Edmonds, J. Elder, P. Godfrey, J. Gryz, R. Horsey, H. Jiang, M. Kant, Y. Lesperance, S. MacKenzie, M. Mandelbaum, A. Mirzaian, U. Nguyen, J. Ostroff, E. Ruppert, M. Spetsakis, Z. Stachniak, W. Stuerzlinger, A. Topsis, V. Tzerpos, F. van Breugel, R.M. Wharton, R.P. Wildes, J. Xu

Associate Professors Emeriti:

J. Mason, J.M. McNamee, P.H. Roosen-Runge

Assistant Professors:

M. Baljko, S. Datta, A. Eckford, G.J. Gotshalks, N. Vlajic

Assistant Professor Emeritus:

A. Wallis

Senior Lecturers:

P.H. Cribb, H. Roumani

Sessional Assistant Professor:

J. Hofbauer

Computer science is the study of processes involving the storage, transmission and transformation of information in the context of modern electronic technology. Both theoretical and applied areas of computer science are represented in the courses offered by the department. The introductory courses (two for majors, three for non-majors) are concerned largely with programming as the primary tool used for understanding and controlling computation. The higher-level courses deal with theoretical concerns, the practical design of hardware and software, and a variety of application areas.

For specific requirements of programs offered by this department, see the Faculty of Science and Engineering Programs of Study section for bachelor and Honours programs.

Courses in Computer Science

A supplemental calendar detailing courses and topics to be offered in the next year is available from the department office in March.

For the purpose of satisfying departmental degree requirements, the number of computer science credits taken outside the Department of Computer Science and Engineering may not exceed six credits in core areas (here defined to be 1000- and 2000-level computer science courses, 3000-level computer science courses satisfying the breadth requirement and, for Specialized Honours students, any required 3000- and 4000-level computer science courses) and 12 credits in total.

Course numbering. Computer science courses with 5 as the second digit of the course number may be used to satisfy Faculty degree requirements but do not count as computer science major credits. 3000- and 4000-level computer science courses are divided by number into four areas as

follows: theory and numerical computation (second digit is 1), systems (second digit is 2), software development (second digit is 3) and applications (second digit is 4).

Courses in computer science have three class hours a week for one term (three credits - course numbers end in 3.00), unless otherwise indicated.

The Department of Computer Science and Engineering will not permit any student to take more than 12 computer science credits per term in the fall and winter terms and six computer science credits in the summer term. Students who work full-time are strongly advised to take no more than six credits in any term.

For prerequisite purposes, SC/MATH 1013 3.00 may be substituted in lieu of SC/MATH 1300 3.00; SC/MATH 1014 3.00 in lieu of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2021 3.00 or SC/MATH 2221 3.00 in lieu of SC/MATH 1025 3.00.

General Prerequisites

All 2000-level computer science courses require the following general prerequisites:

- SC/CSE 1030 3.00 or SC/COSC 1030 3.00 with a grade of at least C+;
- non-majors may apply to the undergraduate director for special consideration.

Most 3000- and 4000-level computer science courses require the following general prerequisites, in addition to or including any specifically stated in the course outlines below:

- SC/CSE 2011 3.00 or SC/COSC 2011 3.00;
- a cumulative grade point average of 4.50 or better over all completed major computer science courses, including SC/CSE 1019 3.00.

Notes:

1. All computer science Honours programs, except the Honours Minor program, require the successful completion of at least 30 credits which are neither computer science nor mathematics courses.
2. To satisfy computer science degree requirements, SC/MATH 1013 3.00 may be taken instead of SC/MATH 1300 3.00; SC/MATH 1014 3.00 may be taken instead of SC/MATH 1310 3.00; SC/MATH 1021 3.00 or SC/MATH 2221 3.00 may be taken instead of SC/MATH 1025 3.00.

SC/CSE 1019 3.00 Discrete Mathematics for Computer Science.

Introduction to abstraction. Use and development of precise formulations of mathematical ideas. Informal introduction to logic; introduction to naïve set theory; induction; relations and functions; big O-notation; recursive definitions, recurrence relations and their solutions; graphs and trees. Three lecture hours per week. Plus drop-in optional problem sessions as well as instructor office hours, as these are announced in each term. Prerequisites: SC/MATH 1190 3.00, or both of 12U Advanced Functions and Introductory Calculus and 12U Geometry and Discrete Mathematics. Course credit exclusion: SC/MATH 2320 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/MATH 1190 3.00, or both of 12U Advanced Functions and Introductory Calculus and 12U Geometry and Discrete Mathematics. Course credit exclusion: AK/AS/SC/MATH 2320 3.00.

Cross-listed to: SC/CSE 1019 3.00, SC/MATH 1019 3.00

SC/CSE 1020 3.00 Introduction to Computer Science I. Conceptual foundations of object-oriented programming, including data types, control structures, class library usage, encapsulation, inheritance and other abstractions; the software development process, specification and implementation, with emphasis on software engineering principles. Three lecture hours and weekly laboratory sessions. Three credits. Prerequisites: One of (1) - (4) below must be met: (1) (New high school curriculum): Two 12U Math courses including advanced functions and introductory calculus with minimum mathematics average of 75% on the two courses, and no mathematics grade below 65%. (2) (Old high school curriculum): OAC calculus and one other OAC in mathematics (normally finite mathematics or algebra and geometry) with an average grade of 75% in all OAC mathematics and no grade less than 65%. (3) Completion of 6.0 credits from York University MATH courses (not including SC/MATH 1710 6.00 - prior to Fall 2009 AK/MATH 1710 6.00 - or courses with second digit 5) with a grade average of 5.00 (C+) or better over these credits; (4) Completion of SC/MATH 1710 6.00 - prior to Fall 2009 AK/MATH 1710

6.00 - or 6.0 credits from York University mathematics courses whose second digit is 5, with an average grade not below 7.00 (B+). Course credit exclusions: AK/AS/SC/COSC 1020 3.00, AP/ITEC 1620 3.00 Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 1020 3.00, AS/AK/ITEC 1620 3.00.

SC/CSE 1030 3.00 Introduction to Computer Science II. This course builds on CSE 1020 3.00 covering class implementation and system design in object-oriented programming, including composition, inheritance, polymorphism, and exception handling. Other topics include recursion, searching and sorting, and introductory data structures. Prerequisite: SC/CSE 1020 3.00. Prior to Fall 2009: Prerequisite: AK/AS/SC/CSE 1020 3.00 or AK/AS/SC/COSC 1020 3.00. Course credit exclusions: AK/AS/SC/COSC 1030 3.00, AP/ITEC 2620 3.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 1030 3.00, AK/AS/ITEC 2620 3.00.

SC/CSE 1520 3.00 Computer Use: Fundamentals. An introduction to the use of computers focusing on concepts of computer technology and organization (hardware and software) and the use of applications such as spreadsheets, database and information retrieval tools for problem solving. The course requires extensive laboratory work. This course is designed for students who are not computer science majors. Students who plan to major in computer science are advised to take SC/CSE 1020 3.00. Course credit exclusions: AK/AS/SC/COSC 1520 3.00. NCR Note: This course is not open to any student who has passed or is taking AK/AS/SC/CSE 1020 3.00, AK/AS/SC/COSC 1020 3.00.

SC/CSE 1530 3.00 Computer Use: Programming. Concepts of computer systems and technology - e.g. software engineering, algorithms, programming languages, theory of computation. Practical work focuses on problem solving using a high-level programming language. The course requires extensive laboratory work. This course is designed for students who are not Computer Science majors, but may be used as preparation by those who wish to major in Computer Science but lack programming background. Students who plan to major in Computer Science must also take CSE 1020 3.00 and CSE 1030 3.00. Course credit exclusions: AK/AS/SC/COSC 1530 3.00, AK/AS/SC/CSE 1540 3.00 or AK/AS/SC/COSC 1540 3.00, SC/CSE 1570 3.0. NCR Note: This course is not open to any student who has passed or is taking SC/CSE 1020 3.00 or AK/AS/SC/COSC 1020 3.00 or AP/ITEC 1620 3.00. Prior to Fall 2009: NCR Note: This course is not open to any student who has passed or is taking AK/AS/SC/CSE 1020 3.00 or AK/AS/SC/COSC 1020 3.00 or AK/AS/ITEC 1620 3.00.

SC/CSE 1540 3.00 Computer Use for the Natural Sciences.

Introduction to problem solving using computers - top down and modular design; implementation in a procedural programming language - control structures, data structures, subprograms; application to simple numerical methods, modelling and simulation in the sciences; use of library subprograms. Course credit exclusions: AK/AS/SC/COSC 1540 3.00, CSE 1530 3.00, AK/AS/SC/COSC 1530 3.00. NCR Note: This course is not open to any student who has passed or is taking SC/CSE 1020 3.00 or AP/ITEC 1620 3.00. Prior to Fall 2009: NCR Note: This course is not open to any student who has passed or is taking CSE 1020 3.00 or AK/AS/SC/COSC 1020 3.00 or AK/AS/ITEC 1620 3.00.

SC/CSE 1550 3.00 Computer Use: Web and Database Systems.

An introduction to elements of requirements analysis, database design, creation, and maintenance for computer users; relational database concepts; and the use of database systems in interactive web applications. Course credit exclusion: SB/OMIS 3730 3.00. NCR Note: No credit will be retained if this course is taken after the successful completion of, or simultaneously with SC/CSE 3421 3.00 or AP/ITEC 3220 3.00. Prior to Fall 2009: NCR Note: No credit will be retained if this course is taken after the successful completion of, or simultaneously with AK/AS/SC/CSE 3421 3.00 or AK/AS/ITEC 3220 3.00. Note: This course does not count for computer science major credit.

SC/CSE 1560 3.00 Introduction to Computing for Mathematics and Statistics.

An introduction to scientific computing using an integrated computing and visualization environment. The course presents computer-based problem-solving techniques through a series of applications rooted in Mathematics and Statistics. Two lecture hours per week and one weekly

three hour laboratory session. Prerequisite: SC/MATH 1300 3.00; Corequisites: SC/MATH 1310 3.00; SC/MATH 1131 3.00. Prior to Fall 2009: Prerequisite: AK/AS/SC/MATH 1300 3.00; Corequisites: AK/AS/SC/MATH 1310 3.00; AK/AS/SC/MATH 1131 3.00. Cross credit exclusion: SC/CSE 1570 3.00. NCR Note: This course is not open to any student who has passed or is taking SC/PHYS 2030 3.00.

SC/CSE 1570 3.00 Introduction to Computing for Psychology. An introduction to computing concepts with applications to problems drawn from psychology, including concepts of computer programming in an integrated computing and visualization environment. Three lecture hours per week. One term. Three credits. Prerequisite: SC/MATH 1505 6.00. Course credit exclusions: SC/CSE 1530 3.00, SC/CSE 1560 3.00.

SC/CSE 1710 3.00 Programming for Digital Media. Introduction to program design and implementation focusing on digital media projects including sound, images, and animation; includes algorithms, simple data structures, control structures, and debugging techniques. Lectures (three hours/week) and lab-based instruction. One term. Three credits. Course credit exclusions: SC/CSE 1530 3.00; AP/ITEC 1620 3.00. NCR Note: Students who completed or are taking SC/CSE 1020 3.00 may not take SC/CSE 1710 3.00 for credit. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/CSE 1530 3.00; AK/AS/ITEC 1620 3.00. NCR Note: Students who completed or are taking AK/AS/SC/CSE 1020 3.00 may not take SC/CSE 1710 3.00 for credit.

SC/CSE 1720 3.00 Building Interactive Systems. A second course teaching more advanced programming concepts within the context of image, sound and interaction using an object-oriented language; introduction to interactive systems, user interfaces, event-driven programming, object design and inheritance; implementation using debuggers, integrated development environments, user interface builders. Lectures (three hours/week) and lab-based instruction. One term. Three credits. Prerequisite: SC/CSE 1710 3.00. Course credit exclusions: SC/CSE 1020 3.0, AP/ITEC 1620 3.0, AP/ITEC 1630 3.0

SC/CSE 2001 3.00 Introduction to the Theory of Computation. Introduction to the theory of computing, including automata theory, formal languages and Turing machines; theoretical models and their applications in various fields of computer science. The emphasis is on practical applications of the theory and concepts rather than formal rigour. Prerequisites: General prerequisites, SC/CSE 1019 3.00 or SC/MATH 1019 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 1019 3.00 or AK/AS/SC/MATH 1019 3.00. Course credit exclusions: AK/AS/SC/COSC 2001 3.00.

SC/CSE 2011 3.00 Fundamentals of Data Structures. A study of fundamental data structures and their use in the efficient implementation of algorithms. Topics include abstract data types, lists, stacks, queues, trees and graphs. Prerequisites: General prerequisites, SC/CSE 1019 3.00 or SC/MATH 1019 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 1019 3.00 or AK/AS/SC/MATH 1019 3.00. Course credit exclusion: AK/AS/SC/COSC 2011 3.00.

SC/CSE 2021 4.00 Computer Organization. Introduction to computer organization and instruction set architecture, covering assembly language, machine language and encoding, addressing modes, single/multicycle datapaths (including functional units and controls), pipelining, memory segments and memory hierarchy. Three lectures hours and three laboratory hours per week. Four credits. Prerequisites: General prerequisites. Course credit exclusions: AK/AS/SC/COSC 2021 4.00, AK/AS/SC/COSC 2021 3.00.

SC/CSE 2031 3.00 Software Tools. Tools commonly used in the software development process: the C language; shell programming; filters and pipes; version control systems and "make"; debugging and testing. Prerequisites: General prerequisites. Course credit exclusion: AK/AS/SC/COSC 2031 3.00.

SC/CSE 2041 3.00 Net-Centric Computing. Net-centric computing encompasses numerous technologies but is based on a three underlying principles: Client-Server Computing, Content Management, and Browser-Based Applications. This course covers these principles in general and examines a representative subset of the prevailing technologies. Topics

include network programming; web applications; database connectivity; content representation and presentation; and client-side programming. Three weekly lecture hours and three lab hours every other week. One term. Three credits. Prerequisites: General prerequisites.

SC/CSE 2501 1.00 Fortran and Scientific Computing. Covers computer-base problem solving in a variety of scientific and engineering settings. Introduces the FORTRAN programming language and its interface with scientific libraries. Applications are drawn mainly from scientific areas such as numerical methods, processing experimental data, simulation and data visualization. Prerequisites: One of SC/CSE 1020 3.00, SC/CSE 1530 3.00 Prior to Fall 2009: Prerequisites: One of AK/AS/SC/CSE 1020 3.00, AK/AS/SC/COSC 1020 3.00, AK/AS/SC/CSE 1530 3.00, AK/AS/SC/COSC 1530 3.00. Course credit exclusion: SC/COSC 2501 1.00.

SC/CSE 2550 1.00 Introduction to C# Programming. Introduction to the C programming language: programming constructs analogous to those taught in CSE 1030 3.00; basic data structures if time permits. One term. One credit. Prerequisites: SC/CSE 1030 3.00 or AP/ITEC 2620 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 1030 3.00 or AK/AS/SC/COSC 1030 3.00, or AK/AS/ITEC 2620 3.00. Note: Does not count for major credit for computer science, or towards engineering requirements. NCR Note: This course is not open for credit to students who passed SC/CSE 3403 3.00.

SC/CSE 2560 1.00 C# Programming Tools for Graphical User Interfaces. Introduction to programming graphical user interfaces (GUI) in the C programming language: building GUIs under the VisualStudio.NET IDE; the major GUI components and event handling mechanism of C. One term. One credit. Prerequisite: SC/CSE 2550 1.00. Prior to Fall 2009: Prerequisite: AK/AS/SC/CSE 2550 1.00. Note: Does not count for major credit for computer science, or towards engineering requirements. NCR Note: This course is not open for credits to students who passed SC/CSE 3403 3.00.

SC/CSE 3000 3.00 Professional Practice in Computing. Professional, legal and ethical issues in the development, deployment and use of computer systems; their impact on society including privacy and security, computer crime, malware, and intellectual property; professional ethics and responsibilities; guest lecturers from industry, government and university. Three lecture hours per week. One term. Three credits. Prerequisites: General prerequisites. Course credit exclusion: SC/ENG 4000 6.00.

SC/CSE 3001 1.00 Organization and Management Seminar in Space and Communication Sciences. A seminar course taught by guest speakers from industry, government and the University. Content changes from year to year, but includes such topics as professional ethics, communications regulations, space law, space science policy, project management, privacy and security issues in computing. One lecture hour in alternate weeks. Two terms. Prerequisite: Eligibility to proceed in the Specialized Honours stream in Space and Communication Sciences beyond the 2000-level requirements, or permission of the course director. Course credit exclusions: SC/CSE 3002 1.00, SC/ENG 3000 3.00 Prior to Fall 2009: Prerequisite: Eligibility to proceed in the Specialized Honours stream in Space and Communication Sciences beyond the 2000-level requirements, or permission of the course director. Course credit exclusions: AS/SC/CSE 3002 1.00, AS/SC/COSC 3002 1.00, SC/ENG 3000 3.00

Cross-listed to: SC/CSE 3001 1.00, SC/EATS 3001 1.00, SC/PHYS 3001 1.00

SC/CSE 3002 1.00 Organization and Management Seminar. A seminar course taught by guest speakers from industry, government and the University. Content changes from year to year, but includes such topics as professional ethics, communications regulations, project management, privacy and security, legal issues in computing. One lecture hour in alternate weeks. Two terms. One credit. Course credit exclusions: SC/COSC 3002 1.00, SC/CSE 3001 1.00 or SC/COSC 3001 1.00, SC/ENG 3000 3.00. NCR Note: This course cannot be taken for credit by students

who have passed or are currently taking SC/CSE 3000 3.00. Prior to Fall 2009: NCR Note: This course cannot be taken for credit by students who have passed or are currently taking AK/AS/SC/CSE 3000 3.00.

SC/CSE 3101 3.00 Design and Analysis of Algorithms. Review of fundamental data structures. Analysis of algorithms: time and space complexity. Algorithm design paradigms: divide-and-conquer, exploring graphs, greedy methods, local search, dynamic programming, probabilistic algorithms, computational geometry. NP-complete problems. Prerequisites: General prerequisites, and SC/MATH 1090 3.00; SC/MATH 1310 3.00; SC/CSE 2001 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, and AK/AS/SC/MATH 1090 3.00; AK/AS/SC/MATH 1310 3.00; AK/AS/SC/CSE 2001 3.00 or AK/AS/SC/COSC 2001 3.00. Course credit exclusion: AK/AS/SC/COSC 3101 3.00.

SC/CSE 3121 3.00 Numerical Methods I. An introductory course in computational linear algebra. Topics include simple error analysis, linear systems of equations, non-linear equations, linear least squares and interpolation. Prerequisites: One of SC/MATH 1010 3.00, SC/MATH 1014 3.00, SC/MATH 1310 3.00; one of SC/MATH 1021 3.00, SC/MATH 1025 3.00, SC/MATH 2221 3.00; one of SC/CSE 1540 3.00, SC/CSE 2031 3.00, or SC/CSE 2501 1.00. Course credit exclusion: SC/COSC 3121 3.00. Prior to Fall 2009: Prerequisites: One of AS/SC/MATH 1010 3.00, AS/SC/MATH 1014 3.00, AK/AS/SC/MATH 1310 3.00; one of AK/AS/SC/MATH 1021 3.00, AS/SC/MATH 1025 3.00, AK/AS/SC/MATH 2221 3.00; one of AK/AS/SC/CSE 1540 3.00, AK/AS/SC/CSE 2031 3.00 (formerly COSC), or SC/CSE 2501 1.00. Course credit exclusion: AK/AS/SC/COSC 3121 3.00. *Cross-listed to: SC/CSE 3121 3.00, SC/MATH 3241 3.00*

SC/CSE 3122 3.00 Numerical Methods II. Algorithms and computer methods for solving problems of differentiation, integration, systems of non-linear equations and matrix eigenvalues. Prerequisite: SC/MATH 3241 3.00 or SC/CSE 3121 3.00. Course credit exclusion: SC/COSC 3122 3.00. Prior to Fall 2009: Prerequisite: AS/SC/MATH 3241 3.00 or AK/AS/SC/CSE 3121 3.00 or AK/AS/SC/COSC 3121 3.00. Course credit exclusion: AK/AS/SC/COSC 3122 3.00. *Cross-listed to: SC/CSE 3122 3.00, SC/MATH 3242 3.00*

SC/CSE 3201 4.00 Digital Logic Design. Theory and design of logic circuits used in digital systems. This is an intermediate level course that uses a Hardware Design Language to illustrate modern design techniques and is supplemented by hardware laboratory exercise (two hours per week). Prerequisites: General prerequisites, including SC/CSE 2021 4.00; SC/PHYS 3150 3.00 is strongly recommended. Prior to Fall 2009: Prerequisites: General prerequisites, including one of AK/AS/SC/COSC 2021 4.00, AK/AS/SC/COSC 2021 3.00, AK/AS/SC/CSE 2021 4.00; SC/PHYS 3150 3.00 is strongly recommended. Course credit exclusion: AK/AS/SC/COSC 3201 4.00.

SC/CSE 3213 3.00 Communication Networks. This course introduces the basics of communications and networking. Topics include transmission media; fundamental limits; protocols and hierarchies; the OSI model; encoding of data as signals; error and flow control; medium access; routing; internetworking; transport services; high-level applications. Prerequisites: General prerequisites and SC/MATH 1310 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AK/AS/SC/MATH 1310 3.00. Course credit exclusions: AK/AS/SC/COSC 3211 3.00, AK/AS/SC/COSC 3213 3.00.

SC/CSE 3214 3.00 Computer Network Protocols and Applications. This course focuses on the higher-level network protocols, security issues, network programming, and applications. Prerequisites: general prerequisites. NCR Note: This course is not open for credit to students who passed SC/CSE 4313 3.00 Prior to Fall 2009: NCR Note: This course is not open for credit to students who passed AK/AS/SC/CSE 4313 3.00

SC/CSE 3215 4.00 Embedded Systems. Introduction to the design of embedded systems using both hardware and software. Topics include microcontrollers; their architecture, and programming; design and implementation of embedded systems using field programmable gate arrays. Lectures (three hours per week), laboratory (two hours per week); four credits. Prerequisites: General prerequisites; SC/CSE 2031 3.00, or SC/CSE 3201 4.00. Prior to Fall 2009: Prerequisites: General

prerequisites; AK/AS/SC/CSE 2031 3.00, AK/AS/SC/COSC 3201 4.00 or AK/AS/SC/CSE 3201 4.00. Course credit exclusion: AK/AS/SC/COSC 3215 4.00.

SC/CSE 3221 3.00 Operating System Fundamentals. Principles of operating systems. Concurrent processes, CPU scheduling, deadlocks, memory management, file systems, protection and security, and case studies. Prerequisites: General prerequisites, including one of SC/CSE 2021 4.00 or AK/AS/SC/CSE 2031 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including one of AK/AS/SC/COSC 2021 3.00, AK/AS/SC/COSC 2021 4.00 or AK/AS/SC/CSE 2021 4.00; AK/AS/SC/COSC 2031 3.00 or AK/AS/SC/CSE 2031 3.00. Course credit exclusions: AK/AS/SC/COSC 3221 3.00, AK/AS/SC/COSC 3321 3.00.

SC/CSE 3301 3.00 Programming Language Fundamentals. Formal syntax: Backus-Naur form and extensions, syntax diagrams, grammars and parsing; elements of formal language theory; type theory and data structures of algorithmic languages; control structures and their composition. Subprograms: argument-parameter binding mechanisms. Prerequisites: General prerequisites, including SC/CSE 2001 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/COSC 2001 3.00 or AK/AS/SC/CSE 2001 3.00. Course credit exclusion: AK/AS/SC/COSC 3301 3.00.

SC/CSE 3311 3.00 Software Design. A study of design methods and their use in the correct implementation, maintenance and evolution of software systems. Topics include design, implementation, testing, documentation needs and standards, support tools. Students design and implement components of a software system. Prerequisites: General prerequisites; including SC/MATH 1090 3.00; SC/CSE 2001 3.00; SC/CSE 2031 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; including AK/AS/SC/MATH 1090 3.00; AK/AS/SC/COSC 2001 3.00 or AK/AS/SC/CSE 2001 3.00; AK/AS/SC/COSC 2031 3.00 or AK/AS/SC/CSE 2031 3.00. Course credit exclusion: AK/AS/SC/COSC 3311 3.00.

SC/CSE 3341 3.00 Introduction to Program Verification. Application of logic to programs; weakest precondition; semantics of a simple programming language; correctness; development of correctness proofs from specifications; application to software design; performance bounds; transformation and synthesis. Prerequisites: General prerequisites, including SC/MATH 1090 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/MATH 1090 3.00. Course credit exclusions: AK/AS/SC/COSC 3341 3.00, AK/AS/SC/COSC 3111 3.00.

SC/CSE 3401 3.00 Functional and Logic Programming. Students, who are familiar with the procedural and object-oriented approaches offered by Java and C, learn about and contrast functional programming (using a language like Standard ML) and logic programming (using the language Prolog). Prerequisites: General prerequisites, and SC/MATH 1090 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, and AK/AS/SC/MATH 1090 3.00. Course credit exclusion: AK/AS/SC/COSC 3401 3.00.

SC/CSE 3402 3.00 Introduction to Concepts of Artificial Intelligence. The concept of artificial intelligence. Interpretation of learning and reasoning as computational processes; simulation using logic and inference rules; analysis of the structure of visual scenes; game playing by computer; natural language analysis and synthesis; domain-independent planning and problem solving. Prerequisites: General prerequisites and SC/CSE 3401 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AK/AS/SC/COSC 3401 3.00 or AK/AS/SC/CSE 3401 3.00. Course credit exclusion: AK/AS/SC/COSC 3402 3.00.

SC/CSE 3403 3.00 Platform Computing. This course discusses computing within a platform and provides comparisons of widely used platforms. Topics include generation and integration of heterogeneous software components, code integration and executable generation, major integrated libraries, distributed application development, database access, major programming languages, security. Prerequisites: general prerequisites.

SC/CSE 3421 3.00 Introduction to Database Systems. Concepts, approaches and techniques in database management systems (DBMS). Logical model of relational databases. An introduction to relational

database design. Other topics such as query languages, crash recovery and concurrency control. Prerequisite: General prerequisites. Course credit exclusions: AK/AS/SC/COSC 3421 3.00, AP/ITEC 3220 3.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 3421 3.00, AK/AS/ITEC 3220 3.00.

SC/CSE 3431 3.00 Introduction to 3D Computer Graphics. This course introduces the fundamental concepts and algorithms of three-dimensional computer graphics, including object modelling, transformations, cameras, visibility and shading. Prerequisites: General prerequisites, SC/CSE 2031 3.00, SC/MATH 1025 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 2031 3.00, AK/AS/SC/MATH 1025 3.00. Course credit exclusion: AK/AS/SC/COSC 4431 3.00, GL/CSLA 3635 3.00.

SC/CSE 3451 4.00 Signals and Systems. An introduction to the mathematical background in signals and systems; signal and image processing: sampling, discrete Fourier transform, filtering; linear system theory; Kalman filtering; feedback. Three lecture hours; three supervised laboratory hours. One term. Four credits. Prerequisites: General prerequisites and SC/MATH 1310 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AK/AS/SC/MATH 1310 3.00. Course credit exclusions: SC/CSE 3451 3.00, SC/EATS 4020 3.00, SC/MATH 4130B 3.00, SC/MATH 4830 3.00, SC/PHYS 4060 3.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 3451 3.00, AK/AS/SC/CSE 3451 3.00, AK/AS/SC/COSC 4451 3.00, AK/AS/SC/COSC 4242 3.00, SC/EATS 4020 3.00, AS/SC/MATH 4130B 3.00, AS/SC/MATH 4830 3.00, SC/PHYS 4060 3.00.

SC/CSE 3461 3.00 User Interfaces. This course introduces user interfaces and the tools and mechanisms to create and prototype them. Students work in small groups and learn how to design user interfaces, how to realize them and how to evaluate the end result. Prerequisite: General prerequisites. Course credit exclusions: AK/AS/SC/COSC 3461 3.00, AP/ITEC 3230 3.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 3461 3.00, AK/AS/ITEC 3230 3.00.

SC/CSE 3481 3.00 Applied Cryptography. An overview of cryptographic algorithms and the main cryptosystems in use today, emphasizing the application of cryptographic algorithms to designing secure protocols. Prerequisites: General prerequisites, SC/CSE 3213 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 3213 3.00.

SC/CSE 3900 0.00 Internship Co-op Term. Provides qualified students with the opportunity to work in the technology field as part of their honours degree program. The Internship Co-op Office will coordinate placement of students with a specific internship position. Prerequisites: Successful completion of at least 9.00 computer science credits at the 3000 level including CSE 3311 3.00 (Software Design) and an overall average of at least 6.00 in mathematics and computer science courses completed. To qualify, in the first instance, the student must be enrolled full-time in the honours program and attend all mandatory preparatory sessions as outlined by the Internship Co-op Office. Note: This course does not count for degree credit in any program. Registration in sections of CSE 3900 0.00 while on an internship placement provides a transcript notation of the student's participation in the internship program. Students are required to register in this course in every term of their work term (internship co-op). Every student registered in the course will be assigned a faculty supervisor who will assess the student's performance during the internship.

SC/CSE 4001 6.00 Space and Communication Sciences Workshop. This course is intended to allow the student to carry out the development of a specific space project, under the supervision of a faculty member, a government scientist or an industrial associate. The equivalent of nine laboratory hours per week for two terms. Prerequisite: Satisfactory completion of the 3000-level courses in the space and communication sciences core. Course credit exclusions: SC/CSE 4080 3.00, SC/CSE 4081 6.00, SC/CSE 4082 6.00, SC/CSE 4084 6.00, SC/ENG 4000 6.00. Prior to Fall 2009: SC/COSC 4001 6.00, AK/AS/SC/COSC 4080 3.00 or AK/AS/SC/CSE 4080 3.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC/CSE 4082 6.00, AK/AS/SC/CSE 4084 6.00.

Cross-listed to: SC/CSE 4001 6.00, SC/EATS 4001 6.00, SC/PHYS 4001 6.00

SC/CSE 4080 3.00 Computer Science Project. A project in computer science chosen in consultation with, and supervised by, a member of the department. Prerequisites: General prerequisites; permission of the course director. Normally restricted to students who have taken 36 credits in computer science. Course credit exclusions: SC/CSE 4001 6.00, SC/CSE 4081 6.00, SC/CSE 4082 6.00, SC/CSE 4084 6.00, SC/ENG 4000 6.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 4080 3.00, AK/AS/SC/COSC 4001 6.00, AK/AS/SC/CSE 4001 6.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC/CSE 4082 6.00, AK/AS/SC/CSE 4084 6.00.

SC/CSE 4081 6.00 Intelligent Systems Project. This course involves the completion of a significant body of work in the area of Intelligent Systems. The project will normally involve the development and analysis of an Intelligent System and will be presented at a public workshop towards the end of the year. Note: Only open to students in the Intelligent Systems Stream who have completed CSE 3401 3.00 and CSE 3402 3.00, with a minimum grade of B; and permission of the instructor. Course credit exclusions: SC/CSE 4001 6.00, SC/CSE 4080 3.00; SC/CSE 4082 6.00; SC/CSE 4084 6.00, SC/EATS 4001 6.00, SC/ENG 4000 6.00, SC/PHYS 4001 6.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 4080 3.00, AK/AS/SC/COSC 4001 6.00, AK/AS/SC/CSE 4001 6.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC/CSE 4082 6.00, AK/AS/SC/CSE 4084 6.00.

SC/CSE 4082 6.00 Interactive Systems Project. This course involves the completion of a significant body of work in the area of Interactive Systems. The project will normally involve the development and analysis of an Interactive System and will be presented at a public workshop towards the end of the year. Note: Only open to students in the Interactive Systems Stream who have completed SC/CSE 3311 3.00 and SC/CSE 3461 3.00. Course credit exclusions: SC/CSE 4001 6.00, SC/CSE 4080 3.00; SC/CSE 4081 6.00; SC/CSE 4084 6.00, SC/EATS 4001 6.00, SC/ENG 4000 6.00 or SC/PHYS 4001 6.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/COSC 4001 6.00 or AK/AS/SC/CSE 4001 6.00, AK/AS/SC/COSC 4080 3.00 or AK/AS/SC/CSE 4080 3.00; AK/AS/SC/CSE 4081 6.00; AK/AS/SC/CSE 4084 6.00, SC/EATS 4001 6.00 or SC/PHYS 4001 6.00.

SC/CSE 4084 6.00 Communication Networks Project. The course involves the completion of a significant body of work in the area of Communication Networks. The project will normally involve the development, analysis, or design of a component of a Communication Network. A presentation at a public workshop will be made towards the end of the year. Note: Only open to students in the Communication Networks Stream who have received a grade of at least B in SC/CSE 3451 3.00 and AK/AS/SC/CSE 3213 3.00, and have prior permission of the instructor. Course credit exclusions: SC/CSE 4001 6.00, SC/CSE 4080 3.00, SC/CSE 4081 6.00, SC/CSE 4082 6.00, SC/EATS 4001 6.00, SC/ENG 4000 6.00 or SC/PHYS 4001 6.00. Prior to Fall 2009: Course credit exclusions: AK/AS/SC/CSE 4001 6.00 or AK/AS/SC/COSC 4001 6.00, AK/AS/SC/CSE 4080 3.00 or AK/AS/SC/COSC 4080 3.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC/CSE 4082 6.00, SC/EATS 4001 6.00 or SC/PHYS 4001 6.00.

SC/CSE 4090 6.00 Software Engineering Project. Large-scale project involving all stages of the software development life cycle: requirements, analysis and design, implementation, testing and delivery. Team work. Open only to students in the Software Development Stream. Prerequisites: SC/CSE 3311 3.00 (with minimum grade of B), SC/CSE 3101 3.00, SC/CSE 3221 3.00, SC/CSE 3401 3.00, and SC/CSE 3341 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 3311 3.00 (with minimum grade of B), AK/AS/SC/CSE 3101 3.00, AK/AS/SC/CSE 3221 3.00, AK/AS/SC/CSE 3401 3.00, and AK/AS/SC/CSE 3341 3.00. Corequisites: SC/CSE 4312 3.00, SC/CSE 4313 3.00. Prior to Fall 2009: Corequisites: AK/AS/SC/CSE 4312 3.00, AK/AS/SC/CSE 4313 3.00.

SC/CSE 4101 3.00 Advanced Data Structures. Amortized and worst-case analysis of data structures. Data structuring paradigms: self-adjustment and persistence. Lists: self-adjustment with the move-to-front heuristic. Search trees: splay trees, finger search trees. Heaps: skew heaps, fibonacci heaps. Union-find trees. Link-and-cut trees.

Multidimensional data structures and dynamization. Integrated with: GS/COSC 5101 3.00. Prerequisites: General prerequisites, including SC/CSE 3101 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/COSC 3101 3.00 or AK/AS/SC/CSE 3101 3.00. Course credit exclusion: AK/AS/SC/COSC 4101 3.00.

SC/CSE 4111 3.00 Automata and Computability. Introduction to more advanced topics in theoretical foundations of computer science, including the study of formal languages and automata, formal models of computation, and computational complexity measures. Integrated with: GS COSC 5111 3.00. Prerequisites: General prerequisites, including SC/CSE 3101 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/COSC 3101 3.00 or AK/AS/SC/CSE 3101 3.00. Course credit exclusion: AK/AS/SC/COSC 4111 3.00.

SC/CSE 4115 3.00 Computational Complexity. Study of time and space and other computational resources required for efficient solution of classes of computational problems, including P and NP, PSPACE. Proof techniques including diagonalization, simulation, reduction and completeness. Models of computation, nondeterminism, randomness. Intractability. Prerequisites: General prerequisites, including: SC/CSE 3101 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including: AK/AS/SC/COSC 3101 3.00 or AK/AS/SC/CSE 3101 3.00. Course credit exclusion: AK/AS/SC/COSC 4115 3.00.

SC/CSE 4161 3.00 Mathematics of Cryptography. Probability, information theory and number theory and applications to cryptography. Classical codes such as Caesar shift, Vigenere, ADFGVX, rectangular substitution, and others. Other topics: comma free codes, perfect secrecy, index of coincidence, public key systems, primality testing and factorization algorithms. Prerequisites: At least 12 credits from 2000-level (or higher) MATH courses (without second digit 5, or second digit 7); or SC/CSE 3101 3.00 or permission of the instructor. Prior to Fall 2007: Prerequisites: At least 12 credits from 2000-level (or higher) MATH courses (without second digit 5, or second digit 7 in the case of Atkinson); or AK/AS/SC/CSE 3101 3.00 or AK/AS/SC/COSC 3101 3.00; or permission of the instructor.

Cross-listed to: SC/CSE 4161 3.00, SC/MATH 4161 3.00

SC/CSE 4201 3.00 Computer Architecture. The internal structure and design ideas embodied in many computers and the techniques for evaluating them. Fast arithmetic algorithms, memory system designs, pipeline techniques, input-output subsystems and parallel computing structures. Future trends in computer architecture. Prerequisites: General prerequisites; including SC/CSE 3201 4.00, and SC/CSE 3221 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; including AK/AS/SC/COSC 3201 4.00 or AK/AS/SC/CSE 3201 4.00, and AK/AS/SC/COSC 3221 3.00 or AK/AS/SC/CSE 3221 3.00. Course credit exclusion: AK/AS/SC/COSC 4201 3.00.

SC/CSE 4210 3.00 Architecture and Hardware for Digital Signal Processing. This course introduces the students to the topics of special purpose architecture for Digital Signal Processing (DSP). It also addresses the methodologies needed to design custom or semi custom Very Large Scale Integration (VLSI) circuits for DSP applications as well as the DSP support in general purpose processors. Twelve supervised lab hours. Prerequisites: General prerequisites; SC/CSE 3201 4.00; SC/CSE 3451 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; AK/AS/SC/CSE 3201 4.00; AK/AS/SC/CSE 3451 3.00.

SC/CSE 4211 3.00 Performance Evaluation of Computer Systems. This course introduces the concept of modelling a computer system, using queuing theory techniques and simulation techniques, then it examines the practical applications of these concepts in some case studies. These case studies are chosen to have a practical impact. Prerequisites: General prerequisites; including SC/MATH 2030 3.00; one of SC/CSE 3211 3.00, SC/CSE 3213 3.00 Prior to Fall 2009: Prerequisites: General prerequisites; including AK/AS/SC/MATH 2030 3.00; one of AK/AS/SC/CSE 3211 3.00, AK/AS/SC/COSC 3211 3.00, AK/AS/SC/CSE 3213 3.00, AK/AS/SC/COSC 3213 3.00. Course credit exclusion: AK/AS/SC/COSC 4211 3.00.

SC/CSE 4214 4.00 Digital Communications. Introduces fundamental principles underlying design and analysis of digital communication systems. Develops mathematical/physical understanding from the information source through the transmitter, channel, receiver, and information sink. Topics include baseband transmission, matched filtering, modulation, channel coding, and spread spectrum. Three lecture hours one tutorial hour, and two lab hours per week. Prerequisites: SC/CSE 3213 3.00; SC/CSE 3451 3.00 or one of SC/EATS 4020 3.00, SC/MATH 4830 3.00, SC/PHYS 4060 3.00, SC/PHYS 4250 3.00; SC/MATH 2030 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 3213 3.00 or AK/AS/SC/COSC 3213 3.00; AK/AS/SC/CSE 3451 3.00 or AK/AS/SC/COSC 3451 3.00 or one of SC/EATS 4020 3.00, AS/SC/MATH 4830 3.00, SC/PHYS 4060 3.00, SC/PHYS 4250 3.00; AK/AS/SC/MATH 2030 3.00. Course credit exclusion: AK/AS/SC/COSC 4214 3.00.

SC/CSE 4215 3.00 Mobile Communications. This course provides an overview of the latest developments and trends in wireless mobile communications, and addresses the impact of wireless transmission and user mobility on the design and management of wireless mobile systems. Three lecture hours. Twelve supervised laboratory hours. Prerequisites: General prerequisites including SC/CSE 3213 3.00. Prior to Fall 2009: Prerequisites: General prerequisites including AK/AS/SC/CSE 3213 3.00.

SC/CSE 4221 3.00 Operating System Design. An operating system has four major components: process management, input/output, memory management, file system. This project-oriented course puts OS principles into action: design and implementation of components of an OS, interaction with existing system software (using C under Unix). Prerequisites: General prerequisites, including SC/CSE 3221 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3221 3.00 or AK/AS/SC/COSC 3221 3.00. Course credit exclusion: AK/AS/SC/COSC 4221 3.00.

SC/CSE 4301 3.00 Programming Language Design. Advanced features of algorithmic languages: modules (packages), exceptions and tasks. A survey of non-algorithmic languages: object-oriented languages, logic programming languages. Introduction to formal semantics. Recent developments in programming language design. Prerequisites: General prerequisites, including SC/CSE 3301 3.00 Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3301 3.00 or AK/AS/SC/COSC 3301 3.00. Course credit exclusion: AK/AS/SC/COSC 4301 3.00.

SC/CSE 4302 3.00 Compilers and Interpreters. Principles and design techniques for compilers and interpreters. Compiler organization, compiler writing tools, scanning, parsing, semantic analysis, run-time storage organization, memory management, code generation and optimization. Students implement a substantial portion of a compiler in a project. Prerequisites: General prerequisites; SC/CSE 3301 3.00 is recommended. Prior to Fall 2009: Prerequisites: General prerequisites; AK/AS/SC/CSE 3301 3.00 or AK/AS/SC/COSC 3301 3.00 is recommended. Course credit exclusion: AK/AS/SC/COSC 4302 3.00.

SC/CSE 4311 3.00 System Development. A study of concurrency and communication in system development. Specification, design and implementation of computer systems which continuously interact with other systems. Topics may include object-oriented modelling, formal specification languages, CASE tools. Prerequisites: General prerequisites, including one of SC/CSE 3221 3.00, SC/CSE 3311 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including one of AK/AS/SC/CSE 3221 3.00, AK/AS/SC/COSC 3221 3.00, AK/AS/SC/CSE 3311 3.00, AK/AS/SC/COSC 3311 3.00. Course credit exclusion: AK/AS/SC/COSC 4311 3.00.

SC/CSE 4312 3.00 Software Engineering Requirements. This course deals with the elicitation, specification and analysis of software requirements and provides a critical description of available methods and tools, and practical exercises on applying these methods and tools to realistic problems. Three lecture hours per week. One term. Three credits. Prerequisites: General prerequisites, including SC/CSE 3311 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3311 3.00 or AK/AS/SC/COSC 3311 3.00. Course credit exclusion: AK/AS/SC/COSC 4312 3.00.

SC/CSE 4313 3.00 Software Engineering Testing. An introduction to systematic methods of testing and verification, covering a range of static and dynamic techniques and their use within the development process; emphasizes the view that design should be carried out with verification in mind to achieve overall project goals. Three lecture hours per week. One term. Three credits. Prerequisites: General prerequisites, including SC/CSE 3311 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3311 3.00 or AK/AS/SC/COSC 3311 3.00. Course credit exclusion: AK/AS/SC/COSC 4313 3.00.

SC/CSE 4351 3.00 Real-Time Systems Theory. Specification and verification techniques for real-time systems with many interacting components. Formal design of real-time systems using (a) programming languages with unambiguous semantics of time-related behaviour and (b) scheduling algorithms. Prerequisites: General prerequisites; including SC/CSE 3221 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; including one of AK/AS/SC/CSE 3221 3.00, AK/AS/SC/COSC 3221 3.00. Course credit exclusion: AK/AS/SC/COSC 4351 3.00.

SC/CSE 4352 3.00 Real-Time Systems Practice. Introduction to the technologies related to the design and implementation of real-time systems. State-of-the-art real-time system technologies and their use in typical real-time applications are studied in detail. Twelve supervised laboratory hours. Prerequisites: General prerequisites; and SC/CSE 3221 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; and one of AK/AS/SC/CSE 3221 3.00, AK/AS/SC/COSC 3221 3.00. Course credit exclusion: AK/AS/SC/COSC 4352 3.00.

SC/CSE 4401 3.00 Artificial Intelligence. Introduction to the main ideas of current machine learning research: induction, abduction, deduction; learning from examples and formal models, Bayes' rule, Solomonoff's idea, Gold paradigm, Valiant model of learning, Rissanen's minimum description length principle; distribution free and unsupervised learning. Prerequisites: General prerequisites, including SC/CSE 3402 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3402 3.00 or AK/AS/SC/COSC 3402 3.00. Course credit exclusion: AK/AS/SC/COSC 4401 3.00.

SC/CSE 4402 3.00 Logic Programming. This course is an introduction to fundamental concepts of logic programming and logic programming languages. In the course, the logic programming language PROLOG is discussed and programming techniques and applications are studied. Prerequisites: General prerequisites; including SC/CSE 3401 3.00 and one of SC/CSE 3101 3.00, SC/CSE 3341 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; including AK/AS/SC/CSE 3401 3.00 or AK/AS/SC/COSC 3401 3.00 and one of AK/AS/SC/CSE 3101 3.00, AK/AS/SC/COSC 3101 3.00, AK/AS/SC/CSE 3341 3.00, AK/AS/SC/COSC 3341 3.00. Course credit exclusion: AK/AS/SC/COSC 4402 3.00.

SC/CSE 4411 3.00 Database Management Systems. A study of principles of database management systems. A thorough analysis of theory of normal, relational algebra and calculus and query languages based on these concepts. Other topics: security and integrity issues, concurrency control, distributed systems, query optimization. Prerequisites: General prerequisites; and SC/CSE 2021 4.00, SC/CSE 2031 3.00; and SC/CSE 3421 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; and AK/AS/SC/CSE 2021 4.00, AK/AS/SC/CSE 2031 3.00; and one of AK/AS/SC/CSE 3421 3.00 or AK/AS/SC/COSC 3421 3.00. Course credit exclusion: AK/AS/SC/COSC 4411 3.00.

SC/CSE 4412 3.00 Data Mining. This course introduces and presents basic concepts of data mining, data mining techniques, models and applications. Topics include association rule mining, classification models, sequential pattern mining and clustering. Prerequisites: SC/CSE 3101 3.00, SC/CSE 3421 3.00 and one of SC MATH 2030 3.00 or SC MATH 1131 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 3101 3.00, AK/AS/SC/CSE 3421 3.00 or AK/AS/SC/COSC 3421 3.00 and one of AK/AS/SC MATH 2030 3.00 or AK/AS/SC MATH 1131 3.00. Course credit exclusion: AK/AS/SC/COSC 4412 3.00

SC/CSE 4413 3.00 Building E-Commerce Systems. Technological infrastructure for electronic commerce on the Internet. Terminology and architectures. Security and cryptography. Content presentation. Web protocols. Adaptive, intelligent agents and data mining. Vertical

applications. Prerequisites: General prerequisites; including SC/CSE 3213 3.00; SC/CSE 3421 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; including AK/AS/SC/CSE 3213 3.00 or AK/AS/SC/COSC 3213 3.00; AK/AS/SC/CSE 3421 3.00 or AK/AS/SC/COSC 3421 3.00. Course credit exclusion: AK/AS/SC/COSC 4413 3.00.

SC/CSE 4421 3.00 Introduction to Robotics. An introduction to robotic manipulators and autonomous vehicles. The course covers the kinematics and dynamics of manipulators and autonomous platforms, robot sensors and navigation. Twelve supervised laboratory hours. Prerequisites: General prerequisites and SC/MATH 1025 3.00; SC/MATH 1310 3.00; SC/CSE 2031 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AS/SC/MATH 1025 3.00; AK/AS/SC/MATH 1310 3.00; AK/AS/SC/CSE 2031 3.00 or AK/AS/SC/COSC 2031 3.00. Course credit exclusion: AK/AS/SC/COSC 4421 3.00.

SC/CSE 4422 3.00 Computer Vision. Fundamental concepts of Computer vision and including aspects of biological vision, image formation process, image processing, feature extraction and matching, 3-D parameter estimation, applications and statistical techniques. Twelve supervised laboratory hours. Prerequisites: General prerequisites and SC/MATH 1025 3.00; SC MATH 1310 3.00; SC/CSE 2031 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AS/SC/MATH 1025 3.00; AK/AS/SC MATH 1310 3.00; AS/AS/SC/CSE 2031 3.00 or AS/AK/SC/COSC 2031 3.00. Course credit exclusion: AK/AS/SC/COSC 4422 3.00.

SC/CSE 4425 3.00 Introductory Computational Bioinformatics. An introduction to basic notions in molecular biology; sequence analysis algorithms; heuristic algorithms for search in biological databases; algorithms for the reconstruction of phylogenetic trees; algorithms for microarray data analysis for gene expression. Prerequisites: general 4000-level prerequisites.

SC/CSE 4431 3.00 Advanced Topics in 3D Computer Graphics. This course introduces advanced 3D computer graphics algorithms. Topics may include direct programming of graphics hardware via pixel and vertex shaders, real-time rendering, global illumination algorithms, advanced texture mapping and anti-aliasing, data visualization. Twelve supervised laboratory hours. Prerequisites: General prerequisites, SC/CSE 2021 4.00, SC/CSE 3431 3.00, SC/MATH 1310 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 2021 4.00, AK/AS/CSE 3431 3.00, AK/AS/SC/MATH 1310 3.00. Course credit exclusion: AK/AS/SC/COSC 4431 3.00.

SC/CSE 4441 3.00 Human-Computer Interaction. This course introduces the concepts and technology necessary to design, manage and implement interactive software. Students work in small groups and learn how to design user interfaces, how to realize them and how to evaluate the end result. Both design and evaluation are emphasized. Prerequisites: General prerequisites; SC/CSE 3461 3.00. Prior to Fall 2009: Prerequisites: General prerequisites; AK/AS/SC/CSE 3461 3.00 or AK/AS/SC/COSC 3461 3.00. Course credit exclusion: AK/AS/SC/COSC 4441 3.00.

SC/CSE 4452 3.00 Digital Signal Processing: Theory and Applications. This course introduces fundamental concepts, principles and algorithms of digital signal processing (DSP), including DFT, FFT, digital filter design and analysis of digital systems. It also covers some selected DSP applications, such as embedded DSP system design, speech and audio processing, image processing, etc. Three lecture hours per week. Twelve supervised laboratory hours. Prerequisites: General prerequisites and SC/CSE 3451 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AK/AS/SC/CSE 3451 3.00.

SC/CSE 4461 3.00 Hypermedia and Multimedia Technology. Design and application of computer systems which provide information resources for learning, online-help, conceptual exploration, visualization and entertainment; e.g. hypertext/hypermedia, networked information-servers, systems for collaborative work, and "virtual reality". One or two topics are discussed in depth using current research literature. Normally offered in alternate years. Prerequisites: General prerequisites, including SC/CSE 3461 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, including AK/AS/SC/CSE 3461 3.00 or AK/AS/SC/COSC 3461 3.00. Course credit exclusion: AK/AS/SC/COSC 4461 3.00.

SC/CSE 4471 3.00 Introduction to Virtual Reality. Introduction to the basic principles of Virtual Reality and its applications. The necessary hardware and software components of interactive 3D systems as well as human factors are discussed. Three lecture hours per week. Twelve supervised laboratory hours (including a project). Prerequisites: General prerequisites and SC/MATH 1025 3.00; SC/MATH 1310 3.00; SC/CSE 2021 4.00; SC/CSE 2031 3.00. SC/CSE 3431 3.00. Course credit exclusion: AK/AS/SC/COSC 4471 3.00. Prior to Fall 2009: Prerequisites: General prerequisites and AK/AS/SC/MATH 1025 3.00; AK/AS/SC/MATH 1310 3.00; AK/AS/SC/CSE 2021 4.00; AK/AS/SC/CSE 2031 3.00. Course credit exclusion: AK/AS/SC/COSC 4471 3.00.

SC/CSE 4481 3.00 Computer Security Laboratory. This course provides a thorough understanding of the technical aspects of computer security. It covers network, operating systems, and application software security. Computer laboratory projects provide exposure to various tools in a hands-on setting. Prerequisites: General prerequisites, SC/CSE 3221 3.00, SC/CSE 3481 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 3221 3.00, AK/AS/SC/CSE 3481 3.00.

SC/CSE 4481 4.00 Computer Security Laboratory. This course provides a thorough understanding of the technical aspects of computer security. It covers network, operating systems, and application software security. Computer laboratory projects provide exposure to various tools in a hands-on setting. Prerequisites: General prerequisites, SC/CSE 3221 3.00, SC/CSE 3481 3.00. Prior to Fall 2009: Prerequisites: General prerequisites, AK/AS/SC/CSE 3221 3.00, AK/AS/SC/CSE 3481 3.00.

SC/CSE 4482 3.00 Computer Security Management: Assessment and Forensics. This course examines the organizational policy and management aspects of computer security. It covers topics such as policies, procedures, and standards related to access and use, compliance and privacy, risk management and incident response. Prerequisites: 12 credits at the 3000-level.

SC/CSE 4700 6.00 Digital Media Project. This course involves the completion of a significant body of work in the area of Digital Media. The project will normally be a team project involving the development and analysis of a digital media work potentially having elements of interactivity, animation, 3-D graphics, and sound for example. The project will be presented at a public workshop towards the end of the year. Prerequisites: Only open to students in the final year of the Digital Media program. Course Credit Exclusions: SC/CSE 4080 3.00, SC/CSE 4081 6.00, SC/CSE 4082 6.00, SC/CSE 4084 6.00. Prior to Fall 2009: Course Credit Exclusions: AK/AS/SC/CSE 4080 3.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC 4082 6.00, AK/AS/SC/CSE 4084 6.00.

Computer Science in Liberal Arts/Informatique – Glendon

Courses in Computer Science and Liberal Arts/Cours en informatique

GL/CSLA 1620 3.00 Object-Based Programming. This is a first course on problem solving and algorithm development using Java. It introduces structured programming techniques using primitive data types and APIs to build and implement objects. This course also introduces the object-oriented design of applications using existing classes. Course equivalency: AP/ITEC 1620 3.00. Course credit exclusions: AP/ITEC 1620 3.00; GL/COSC/MODR/ITEC 2960 3.00.

Cross-listed to: GL/CSLA 1620 3.00, GL/ITEC 1620 3.00

GL/CSLA 1620 3.00 Programmation par objets I. Ce premier cours sur la résolution de problèmes et la réalisation d'algorithmes à l'aide de Java introduit des techniques de programmation structurées à l'aide de types de données primitives et d'IPA pour construire et utiliser des objets. Ce cours introduit aussi la réalisation d'applications par objets à l'aide de classes existantes. Équivalence de cours : AK/AS/ITEC 1620 3.00. Cours incompatibles : AK/AS/ITEC 1620 3.00; GL/COSC/MODR/ITEC 2960 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1620 3.00, GL/ITEC 1620 3.00

GL/CSLA 1630 3.00 Object-Oriented Programming. This course introduces class implementation either from scratch or by extending an existing class. Inheritance and polymorphism are discussed in detail. Focus on user-interface classes. Object-oriented design (with UML) using existing or newly created classes is further discussed. Prerequisite: GL/CSLA 1620 3.00. Course equivalency: AP/ITEC 1630 3.00. Course credit exclusions: AP/ITEC 1630 3.00; GL/COSC/MODR/ITEC 2970 3.00.

Cross-listed to: GL/CSLA 1630 3.00, GL/ITEC 1630 3.00

GL/CSLA 1630 3.00 Programmation par objets II. Ce cours introduit la mise en application de classes, soit en partant des bases, soit en élargissant des classes existantes. Cette mise en application permet une étude approfondie de l'héritage et du polymorphisme et aussi de la réalisation par objets (en UML) à l'aide de classes existantes ou nouvellement créées. Condition préalable : GL/CSLA/ITEC 1620 3.00. Équivalence de cours : AP/ITEC 1630 3.00. Cours incompatibles : AP/ITEC 1630 3.00; GL/COSC/MODR/ITEC 2970 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1630 3.00, GL/ITEC 1630 3.00

GL/CSLA 1650 3.00 Elements of Discrete Mathematics. The logic of propositions; truth tables; valid arguments; logic circuits. Set operations; relations on sets; Boolean functions. Counting principles; permutations; combinations; inclusion-exclusion principle; binomial and multinomial coefficients. Recurrence relations of order one and two; mathematical induction. Prerequisites: At least one OAC mathematics credit or its equivalent, or permission of the instructor. Course credit exclusions: SC/MATH 1190 3.00, GL/MATH 1630 3.00 and GL/MATH 1640 3.00.

Cross-listed to: GL/CSLA 1650 3.00, GL/MATH 1650 3.00, GL/MODR 1650 3.00

GL/CSLA 1925 3.00 The Elements of Logic for Computer Science. This course introduces the fundamental elements of formal logic and its applications in computer science. The subjects covered include: propositional logic, reasoning, automatic deduction, resolution, logic circuits, predicate logic, applications in programming logic. Course credit exclusions: GL/COSC/MODR 2900 6.00.

Cross-listed to: GL/CSLA 1925 3.00, GL/ITEC 1925 3.00, GL/MATH 1925 3.00, GL/MODR 1925 3.00

GL/CSLA 1925 3.00 Éléments de logique pour l'informatique. Ce cours introduit les éléments fondamentaux de la logique formelle et ses applications en informatique. Les sujets abordés incluent: la logique des propositions, raisonnements, déduction automatique, résolution, circuits logiques, la logique des prédicats, applications dans la programmation logique. Cours incompatibles : GL/COSC/MODR 2900 6.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1925 3.00, GL/ITEC 1925 3.00, GL/MATH 1925 3.00, GL/MODR 1925 3.00

GL/CSLA 1927 3.00 Mathematical Structures for Computer Science. This course is designed to introduce and analyze some of the main mathematical topics related to computer science. The subjects covered include sets, relations, mathematical induction, congruences, groups, graphs and trees, Boolean algebra and computer circuits. Prerequisite: GL/MATH 1650 3.00. Course credit exclusions: GL/COSC/MODR 2900 6.00.

Cross-listed to: GL/CSLA 1927 3.00, GL/ITEC 1927 3.00, GL/MODR 1927 3.00

GL/CSLA 1927 3.00 Structures mathématiques pour l'informatique. Ce cours a pour but de présenter et d'analyser les principaux éléments de mathématiques nécessaires en informatique. Les sujets abordés incluent les ensembles, les relations, l'induction mathématique, les congruences, les groupes, les graphes et les arborescences, l'algèbre de Boole et les circuits logiques. Condition préalable : GL/MATH 1650 3.00. Cours incompatibles : GL/COSC/MODR 2900 6.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1927 3.00, GL/ITEC 1927 3.00, GL/MODR 1927 3.00

GL/CSLA 1960 3.00 Introduction to Computer Usage I.

An introduction to computers and their applications for students with no previous background in the subject. Concepts of both hardware and software are discussed, and students are introduced to standard microcomputer-based applications packages. Course credit exclusions: GL/COSC/MODR/SOSC 1960 6.00.

Cross-listed to: GL/CSLA 1960 3.00, GL/MODR 1960 3.00, GL/SOSC 1960 3.00

GL/CSLA 1960 3.00 Introduction à l'application des ordinateurs I.

Ce cours a pour but d'initier les étudiants à l'application des ordinateurs. On y enseignera les unités matérielles et fonctionnelles de l'ordinateur. On apprendra aussi un système d'exploitation et un nombre de logiciels qui sont populaires sur les micro-ordinateurs. Cours incompatibles : GL/COSC/MODR/SOSC 1960 6.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1960 3.00, GL/MODR 1960 3.00, GL/SOSC 1960 3.00

GL/CSLA 1970 3.00 Introduction to Computer Usage II. Topics studied include information systems development and database processing, and a survey of common programming languages, including fourth generation languages and object oriented languages. Students will be introduced to programming in a high level language. The course will conclude with a discussion of some of the economic and social issues surrounding computerization. Prerequisite: GL/COSC 1960 3.00. Course credit exclusions: GL/COSC/MODR/SOSC 1960 6.00.

Cross-listed to: GL/CSLA 1970 3.00, GL/MODR 1970 3.00, GL/SOSC 1970 3.00

GL/CSLA 1970 3.00 Introduction à l'application des ordinateurs II.

Ce cours est une introduction au développement de systèmes d'information et à la gestion de base de données. On apprendra la structure et la conception des algorithmes et la programmation en langage de haut niveau. Le cours présente aussi les répercussions économiques et sociales des microprocesseurs. Condition préalable : GL/CSLA 1960 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 1970 3.00, GL/MODR 1970 3.00, GL/SOSC 1970 3.00

GL/CSLA 2001 3.00 Introduction to Theory of Computation.

Introduction to the theory of computing, including automata theory, formal languages and Turing machines, theoretical models and their applications. Corequisites: GL/CSLA/ITEC 1927 3.00. Course credit exclusion: GL/COSC 3212 3.00.

GL/CSLA 2001 3.00 Introduction à la théorie de la computation.

Introduction à la théorie de la computation, incluant : théorie des automates, langages formels et machines de Turing; modèles théoriques et leurs applications. Conditions concomitantes : GL/CSLA/ITEC 1927 3.00. Cours incompatible: GL/COSC 3212 3.00.

Language of Instruction: French

GL/CSLA 2010 3.00 Analyse et conception des systèmes d'information I.

Le cours présente les concepts et techniques d'analyse et de conception moderne des systèmes informatiques. Les étapes du développement des systèmes et la modélisation des demandes et de la conception des systèmes sont explorées. Les raisons du succès ou de l'échec des systèmes sont discutées. On décrit le rôle de l'analyste de système dans le développement des systèmes, pour définir les demandes de la technologie d'information et pour proposer des recommandations. Condition préalable : GL/ITEC 1010 3.00, GL/ITEC 1011 3.00 et GL/ITEC/CSLA 1620 3.00 ou équivalent. Cours incompatibles : GL/COSC 3500 3.00, AK/ITEC 2010 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 2010 3.00, GL/ITEC 2010 3.00

GL/CSLA 2010 3.00 System Analysis and Design I. This course deals with the concepts and techniques of modern system analysis and design. System development life cycle and modelling of system requirements and design are explored. The reason for success and failure of systems are discussed. The role of the analyst in investigating current systems, defining IT requirements and making recommendations are described. Prerequisite: GL/ITEC 1011 3.00 or GL/ITEC 2925 3.00 and GL/ITEC 1620 3.00 or equivalent. Course credit exclusion: GL/COSC 3500 3.00, AP/ITEC 2010 3.00.

GL/CSLA 2620 3.00 Fundamentals of Data Structures. This course presents elementary abstract data structures: stacks, lists and queues, and associated algorithms. It also introduces the files, data structure for external data storage and different file structures: sequential, index sequential and hashes (direct access files). Course equivalency: AP/ITEC 2620 3.00. Prerequisite: GL/CSLA 1630 3.00. Course credit exclusions: AP/ITEC 2620 3.00; GL/COSC 3400 6.00 and GL/COSC 3400 3.00.

Cross-listed to: GL/CSLA 2620 3.00, GL/ITEC 2620 3.00

GL/CSLA 2620 3.00 Principes fondamentaux des structures de données.

Ce cours présente des structures de données abstraites élémentaires : piles, queues et listes et les algorithmes associés. Il présente aussi une introduction aux fichiers, structures de données pour le stockage externe et leur organisation : séquentiel, séquentiel-indexé et fichiers à accès direct. Condition préalable : GL/CSLA/ITEC 1630 3.00. Équivalence de cours : AP/ITEC 2620 3.00. Cours incompatibles : GL/COSC 3400 6.00 et GL/COSC 3400 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 2620 3.00, GL/ITEC 2620 3.00

GL/CSLA 2915 3.00 Computer Usage and Software Applications I.

The course will present the main computer components (hardware and software); advanced topics for the use, edition and layout of documents alone or as part of a team; the creation and use of dynamic Web pages; advanced INTERNET information search techniques; and the design and implementation of a relational database using a database management system (DBMS) with applications to specific environments. Course credit exclusion: GL/CSLA 1960 3.00, GL/CSLA 1970 3.00, GL/MODR 1960 3.00, GL/MODR 1970 3.00, GL/SOSC 1960 3.00 and GL/SOSC 1970 3.00.

Cross-listed to: GL/CSLA 2915 3.00, GL/ITEC 2915 3.00, GL/MODR 2915 3.00

GL/CSLA 2915 3.00 L'utilisation de l'ordinateur et des logiciels d'application.

Le cours présentera les principales composantes (matériel et logiciel) d'un ordinateur, des méthodes avancées pour l'utilisation et l'édition des documents dans un contexte de travail en équipe ou individuel, comment créer et utiliser des pages Web dynamiques, l'utilisation des techniques avancées pour la recherche des informations sur INTERNET et comment concevoir et réaliser une base de données relationnelle en utilisant un système de gestion de bases de données (SGBD) avec applications dans un environnement spécifique. Cours incompatibles : GL/CSLA 1960 3.00, GL/CSLA 1970 3.00, GL/MODR 1960 3.00, GL/MODR 1970 3.00, GL/SOSC 1960 3.00 et GL/SOSC 1970 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 2915 3.00, GL/ITEC 2915 3.00, GL/MODR 2915 3.00

GL/CSLA 3210 6.00 Data Processing.

GL/CSLA 3215 3.00 Introduction à l'analyse des algorithmes. Dans la première partie du cours on introduit les concepts fondamentaux de l'analyse d'algorithme (les types de problèmes, les modèles d'algorithme et les moyens de définir et d'évaluer la complexité de coûts (moyen, meilleur, pire) ainsi que les techniques d'estimation (bornes supérieures et inférieures) sont présentés. Dans la seconde partie du cours, on applique ces techniques aux trois classes d'algorithmes : recherche, sélection, et sondage. Des algorithmes variés seront analysés et comparés dans différents modèles. Le cours va souligner l'application des concepts étudiés au moyen d'un grand nombre d'exemples et de deux travaux pratiques.

GL/CSLA 3411 3.00 Advanced Data Structures. This course presents advanced abstract structures: trees, search trees, sets, graphs, heaps and their implementation using object oriented programming language. Abstract data structures for external data storage will be correspondingly deepened. Prerequisites: GL/CSLA 1620 3.00, GL/CSLA 1630 3.00, GL/CSLA 2620 3.00. Course credit exclusion: GL/COSC 3410 3.00.

GL/CSLA 3411 3.00 Cours avancé de structures de données. Ce cours présente des structures de données abstraites avancées: arborescences, arborescences de recherche, ensembles, graphes, tas (monceaux), et leur mise en application utilisant un langage orienté objet. Les structures de données abstraites pour le stockage externe seront corrélativement approfondies. Conditions préalables : GL/CSLA 1620 3.00, GL/CSLA 1630 3.00, GL/CSLA 2620 3.00. Cours incompatible : GL/COSC 3410 3.00.

Language of Instruction: French

GL/CSLA 3461 3.00 Human Computer Interaction. This course introduces the concepts and technology necessary to design, manage and implement interactive software. Students will learn how to design user interfaces, how to realize them and how to evaluate the end result. Prerequisite: GL/CSLA/ITEC 2620 3.00.

Cross-listed to: GL/CSLA 3461 3.00, GL/ITEC 3461 3.00

GL/CSLA 3601 3.00 Le génie des logiciels. Ce cours a pour objectif d'étudier le processus de validation des étapes du cycle de vie du logiciel, la gestion de projet, l'estimation des coûts, les stratégies conception de codage, de test et de la maintenance ainsi que les techniques de vérification de programmes. Condition préalable : GL/CSLA 2620 3.00. Cours incompatible: GL/CSLA 3510 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 3601 3.00, GL/ITEC 3601 3.00

GL/CSLA 3610 3.00 Computer Organization. This course reviews the fundamental structures in modern processor design. Topics will include computer organization, instruction set design, memory system design and pipelining. Emphasis will be on a quantitative evaluation of design alternatives and an understanding of timing issues. There will be experimentation with LabVIEW (Laboratory Virtual Instrument Engineering Workbench), a graphical programming language for virtual instrumentation and simulation. Prerequisite: GL/CSLA/ITEC 1630 3.00. Course credit exclusion: GL/COSC 3800 3.00.

Cross-listed to: GL/CSLA 3610 3.00, GL/ITEC 3610 3.00

GL/CSLA 3610 3.00 L'architecture des ordinateurs. Ce cours présente une revue des composantes fondamentales dans la conception des processeurs modernes. Les sujets inclus sont l'organisation de l'ordinateur, la conception des commandes, la conception de la mémoire et pipeline d'exécution, avec insistance sur l'évaluation quantitative de la conception et d'autres alternatives et compréhension des problèmes de synchronisation. Il y aura une expérimentation avec LabVIEW (Laboratory Virtual Instrument Engineering Workbench), un logiciel de développement d'applications d'instrumentation et de simulation. Condition préalable : GL/CSLA/ITEC 1630 3.00. Cours incompatible : GL/COSC 3800 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 3610 3.00, GL/ITEC 3610 3.00

GL/CSLA 3620 3.00 Systèmes de gestion de bases de données. Ce cours présente différents modèles pour les systèmes de gestion de bases de données (SGBD). On étudie la modélisation de la réalité en utilisant le modèle entité - relation, le système de gestion de bases de données relationnelles et sa normalisation. Le cours comprend aussi une introduction au SQL, langage de définition, manipulation et contrôle de données dans une base de données relationnelle. Condition préalable : GL/CSLA/ITEC 2620 3.00. Cours incompatible : GL/COSC 4510 3.00.

Language of Instruction: French

GL/CSLA 3620 3.00 Database Management Systems I. The course presents some models for the Database Management Systems (DBMS). It concerns the study of the representation of the reality using the entity-relation model, and the relational Database Management System and its normalization. The course includes also an introduction to the SQL, a data definition, data manipulation and data control language, currently used in a relational database. Prerequisite: GL/CSLA/ITEC 2620 3.00. Course credit exclusion: GL/COSC 4510 3.00.

Cross-listed to: GL/CSLA 3620 3.00, GL/ITEC 3620 3.00

GL/CSLA 3625 3.00 Data Communications and Networks. This course concerns the theory and applications of data communications; basic principles of telephony and switching; norms and protocols; algorithms used in data communications; LAN (local area network); ISO/OSI norms; SNA; hardware and software for communications. Prerequisite: GL/CSLA/ITEC 2620 3.00. Course credit exclusion: GL/COSC 4500 3.00.

Cross-listed to: GL/CSLA 3625 3.00, GL/ITEC 3625 3.00

GL/CSLA 3625 3.00 Télématique et réseaux. Théorie et applications des communications informatiques; principes de téléphonie et de commutation; normes et protocoles; algorithmes de contrôle de la circulation; réseaux locaux; normes ISO/OSI, SNA, et matériaux, logiciels de communications. Condition préalable : GL/CSLA/ITEC 2620 3.00, Cours incompatibles : GL/COSC 4500 3.00, GL/CSLA 4625 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 3625 3.00, GL/ITEC 3625 3.00

GL/CSLA 3632 3.00 Internet Programming. This course introduces JavaScript to build dynamic interfaces on the Web, PERL language to construct and manipulate persistent objects on the Web, presents the Client-Server model, and teaches the use of middleware to query a database on the Web. Prerequisite: GL/CSLA 1630 3.00. Course credit exclusion: GL/COSC/ITEC 3010 3.00 (Fall 2001), GL/CSLA 4630 3.00(EN & FR).

Cross-listed to: GL/CSLA 3632 3.00, GL/ITEC 3632 3.00

GL/CSLA 3632 3.00 Programmation Internet. Ce cours présente le langage JavaScript pour construire des interfaces dynamiques sur le Web, le langage PERL pour construire et manipuler des objets persistants sur le Web et le modèle client-serveur. On enseigne l'utilisation d'une couche médiatrice pour interroger une base de données sur le Web. Condition préalable : GL/CSLA 1630 3.00. Cours incompatible : GL/COSC/ITEC 3010 3.00 (Automne 2001), GL/CSLA 4630 3.00(FR & EN).

Language of Instruction: French

Cross-listed to: GL/CSLA 3632 3.00, GL/ITEC 3632 3.00

GL/CSLA 3635 3.00 Graphisme par ordinateur. Ce cours introduit de multiples structures de données et algorithmes essentiels à la représentation graphique de données sur ordinateur. L'objectif est de fournir suffisamment de bases pour écrire des logiciels d'applications graphiques. La première moitié du cours couvrira les applications graphiques à deux dimensions, les opérations "raster", les méthodes pour l'imagerie, ainsi que la conception et l'élaboration des interfaces utilisateur. La seconde partie inclura les sujets relatifs aux applications graphiques à trois dimensions, comprenant les techniques de représentation, d'éclairage, de traitement des ombres, de détermination des parties visibles, d'élaboration du rendu final, et d'animation. Condition préalable : GL/CSLA 2620 3.00. Cours incompatibles : AP/SC/CSE 3431 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 3635 3.00, GL/ITEC 3635 3.00

GL/CSLA 3635 3.00 Computer Graphics. This course introduces many important data structures and algorithms to present data visually on a computer in order to provide background to write computer graphics applications. The first half of the course will cover two dimensional computer graphics, raster operations, imaging methods, and user interface design and construction. The second half will include topics related to the three-dimensional computer graphics, such as

representation, illumination, shading, visibility determination, rendering and animation. Prerequisite: GL/CSLA/ITEC 2620 3.00. Course credit exclusion: SC/CSE 3431 3.00.

Cross-listed to: GL/CSLA 3635 3.00, GL/ITEC 3635 3.00

GL/CSLA 3640 3.00 Computer Hardware. This course studies the design, structure and operation of digital computers. Topics include logic circuits and digital electronics, computer arithmetic and machine language programming. Consideration of the design interactions between hardware and software system. Prerequisite: GL/CSLA/ITEC 3610 3.00.

Cross-listed to: GL/CSLA 3640 3.00, GL/ITEC 3640 3.00

GL/CSLA 3640 3.00 Le matériel informatique. Ce cours traite de la conception des composantes et de l'utilisation des ordinateurs numériques. Les sujets sont circuits logiques et électronique digitale, logique de Boole, programmation et interaction entre le matériel et le logiciel. Condition préalable : GL/CSLA 3610 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 3640 3.00, GL/ITEC 3640 3.00

GL/CSLA 3710 3.00 Aspects avancés et pratiques de C/C++ et UNIX/LINUX. L'objectif de ce cours est de familiariser les étudiants avec le système d'exploitation UNIX/LINUX, la programmation en C/C++, ainsi qu'avec les pratiques courantes de conception de logiciel dans l'environnement UNIX/LINUX en utilisant les outils de conception de logiciel disponibles dans ce système. Condition préalable : GL/CSLA/ITEC 1630 3.00. Cours incompatible : GL/COSC 3710 6.00.

Language of Instruction: French

GL/CSLA 3710 3.00 Advanced and Practical Aspects of C/C++ and UNIX/LINUX. The purpose of the course is to present to the students an introduction to UNIX/LINUX operating system, programming in C/C++, and practical software design in the UNIX/LINUX environment using the software tools available under this system. Prerequisite: GL/CSLA/ITEC 1630 3.00. Course credit exclusion: GL/COSC 3710 6.00.

GL/CSLA 3720 3.00 Object Oriented Programming. The course introduces object-oriented program design using, creating and extending hierarchies of program objects. Programming will be done in C++ and/or Objective C. Prerequisite: GL/CSLA 3410 3.00. Course credit exclusion: GL/COSC 3710 6.00.

GL/CSLA 3830 3.00 Operating Systems. A discussion of the principles underlying the design of operating systems. Topics covered include the history of operating systems, user interfaces, memory management, process scheduling, file systems, concurrent processing, multiple processors and networks. Other topics addressed include; measuring system performance and assessing system security. Examples will be drawn from commonly used operating systems such as UNIX, MS-DOS and VMS. Prerequisite: GL/CSLA 3411 3.00 and GL/CSLA 3610 3.00. Course credit exclusion: GL/COSC 4810 6.00(EF.)

GL/CSLA 3830 3.00 Les systèmes d'exploitation. Études des principes qui sous-tendent les systèmes d'exploitation. Histoire des systèmes d'exploitation; les interfaces usager, la gestion de la mémoire, l'ordonnement des processus, les systèmes de fichiers, les processus concurrents, les multi-processeurs, les réseaux. Autres sujets possibles - les mesures de performance du système, l'évaluation de la sécurité des systèmes d'exploitations couramment utilisés tels que UNIX, MS-DOS et VMS. Condition préalable : GL/CSLA 2620 3.00 et GL/CSLA 3610 3.00.

Language of Instruction: French

GL/CSLA 4100 3.00 Directed Readings in Computer Science. Students at the third and fourth year of their studies who are specializing in computer science may do independent study under the direction of a member of the department and with the approval of the Chair of the department. To this end, he/she must submit to the Chair of the department, a detailed description of study and the evaluation criteria which have been previously approved by the faculty member who has agreed to supervise the course work. Prerequisite: GL/CSLA 1630 3.00.

GL/CSLA 4100 6.00 Directed Readings. Students at the third and fourth year of their studies who are specializing in computer science may do independent study under the direction of a member of the department and with the approval of the Chair of the department. To this end, he/she must submit to the Chair of the department, a detailed description of study and the evaluation criteria which have been previously approved by the faculty member who has agreed to supervise the course work. Prerequisite: GL/CSLA 1630 3.00.

GL/CSLA 4200 3.00 La logique floue pour les affaires, la finance et la gestion. Les concepts de base de la logique floue. Décision dans un contexte imprécis. Le contrôle flou pour les affaires, la finance et la gestion. Études de cas pratiques. Condition préalable : GL/CSLA 1927 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 4200 3.00, GL/ITEC 4200 3.00

GL/CSLA 4250 3.00 Selected Topics in Computer Science. This course allows students and faculty to explore various topics in computer science which are not included in other course offerings. GL/CSLA 4250 3.00 may be taken more than once for credit with departmental approval. Prerequisites: GL/CSLA 1630 3.00 and nine additional credits depending on topic to be studied and approval from the Chair of department.

GL/CSLA 4300 3.00 Interactive System Design. A study of what makes an interactive system good or bad. The benefits of add-on user interfaces; the user's perceptual and cognitive requirements; an examination of appropriate hardware and software. Students design and implement components of an interactive system.

GL/CSLA 4520 3.00 Les réseaux informatiques. Le cours met l'accent sur l'étude des réseaux numériques à intégration de services (RNIS-ISDN) et sur les réseaux à communication des cellules (les réseaux ATM). Une autre partie du cours est dédiée à TCP/IP, à l'Internet, au Multimedia, au traitement des différents types de commutation, les passerelles et l'interconnexion des réseaux.

Language of Instruction: French

GL/CSLA 4570 3.00 Introduction to Compiler Design. Functions of compilers, processors, preprocessors and translators. Structure of compilers. Lexical and syntactical analysis. Semantic analysis and translation. Object code generation. Error. Diagnostics. Prerequisites: GL/CSLA 2001 3.00, GL/CSLA 3400 3.00. Course credit exclusion: GL/COSC 3570 3.00.

GL/CSLA 4570 3.00 Introduction à la construction des compilateurs. Les fonctions des compilateurs, processeurs, préprocesseurs et traducteurs. Organisation d'un compilateur. Analyse lexicale et syntaxique, analyse sémantique et traduction. Génération du code objet. Détection d'erreurs. Les étudiants devront mettre en application ces principes dans un projet majeur le développement d'un compilateur pour un langage simple. Conditions préalables : GL/CSLA 2001 3.00, GL/CSLA 3400 3.00. Cours incompatible : GL/COSC 3570 3.00.

Language of Instruction: French

GL/CSLA 4590 3.00 Computer Simulation. This course introduces students to techniques involved in the simulation of both discrete-event and dynamic continuous systems. Major areas covered include: the generation and use of random numbers, a building of a model, special-purpose simulation languages such as GPSS, case studies. Prerequisite: GL/CSLA 2970 3.00.

GL/CSLA 4600 3.00 Informatique et traduction. Ce cours explorera trois domaines distincts: la traduction automatique (historique et fonctionnement), la traduction assistée (traitement de texte, contrôle orthographique, dictionnaires informatisés, réseaux d'information), l'analyse automatique et la génération d'énoncés en langage naturel. Condition préalable : GL/CSLA 1970 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 4600 3.00, GL/TRAN 4600 3.00

GL/CSLA 4605 3.00 Issues in Information Technology. A study of the technical, economic and regulatory issues surrounding emerging information technologies. New developments in miniaturization, signal processing, video compression, digital switching and bandwidth capacity have led to the convergence of voice, video and data along what has come to be termed the information highway. These developments are examined from the perspective of the economic and social costs and benefits of alternative technologies and the effect of deregulation on competition and the delivery of services. Job creation and displacement, accessibility, and pricing are also discussed. Prerequisites: GL/CSLA 1960 3.00, GL/CSLA 1970 3.00, GL/ECON 2500 3.00, GL/ECON 2510 3.00 or equivalents and at least six credits at the third year level from one or more of the social sciences. Course credit exclusions: GL/COSC/SOSC 4610 3.00, GL/ECON 3610 3.00 (1994-1996).

Cross-listed to: GL/CSLA 4605 3.00, GL/ECON 4605 3.00, GL/SOSC 4605 3.00

GL/CSLA 4620 6.00 Internship on Computer Science or Information Technology. A full time internship of three or four months consisting of work with a computer science or a technology information company. The student will be required to write a project in computer science or information technology which links his/her work experience to what he/she has learned on his/her course in computer science or information technology. Prerequisites: GL/CSLA 3830 3.00, GL/CSLA 2010 3.00 and a cumulative average of 7.0 (B+).

GL/CSLA 4620 6.00 Stage en informatique. Un stage à temps plein de 3 ou 4 mois dans une compagnie d'informatique ou de la technologie de l'information. Soumission d'un rapport technique qui lie des aspects de ce travail aux études d'informatique ou de la technologie de l'information que l'étudiant(e) a fait antérieurement. Conditions préalables : GL/CSLA 3830 3.00, GL/CSLA 2010 3.00 et une moyenne cumulative de B+.

Language of Instruction: French

Cross-listed to: GL/CSLA 4620 6.00, GL/ITEC 4620 6.00

GL/CSLA 4640 3.00 Computer Networks. This course studies ISDN (Integrated Service Digital Network); the ATM (Asynchronous Transfer Mode) Protocol Reference Model; Internet and its networking protocol TCP/IP (Transmission Control Protocol/Internet Protocol); transfer of multimedia content; packet and data switching; gateways and network interconnections. Prerequisite: GL/CSLA 4625 3.00. Course credit exclusion: GL/COSC 4520 3.00.

Cross-listed to: GL/CSLA 4640 3.00, GL/ITEC 4640 3.00

GL/CSLA 4645 3.00 Introduction to Bioinformatics A. The course introduces students to elements of Computational Molecular Biology such as nucleotides, amino acids, DNA, proteins, transcription and translation. We will present DNA alignment algorithms such as pair wise alignment, local and global, as well as multiple alignments. The students will use the INTERNET to access biological databases and learn how these can be used for the molecular structure prediction. Prerequisite: GL/CSLA/ITEC 2620 3.00. Course credit exclusions: GL/COSC/ITEC 4010 3.00 (Fall/Winter 2001-2002 and Fall/Winter 2002-2003).

Cross-listed to: GL/CSLA 4645 3.00, GL/ITEC 4645 3.00

GL/CSLA 4647 3.00 Introduction to Bioinformatics B. The course introduces students to the use of Perl language for bioinformatics: to represent and manipulate DNA sequences, to build restriction maps using regular expressions to simulate the DNA mutations, to generate random DNA. We will present the implementation in Perl of data structures and algorithms for text processing that are used in bioinformatics. Prerequisite: GL/CSLA/ITEC 2620 3.00.

Cross-listed to: GL/CSLA 4647 3.00, GL/ITEC 4647 3.00

GL/CSLA 4648 3.00 Programmation logique (PROLOG). Ce cours est une introduction à la programmation logique et à la programmation logique par contraintes. Le langage de programmation PROLOG est présenté (prédicats prédéfinis, retour arrière, "coupure" etc.) et sont discutés divers techniques de programmation, des éléments de méta-interpréteurs en PROLOG et des applications. Condition préalable : GL/CSLA 1630 3.00. Cours incompatible : GL/CSLA 4700 3.00.

Language of Instruction: French

Cross-listed to: GL/CSLA 4648 3.00, GL/ITEC 4648 3.00

GL/CSLA 4649 3.00 Éléments d'intelligence artificielle. Le cours fait un tour d'horizon des principaux problèmes actuels de ce domaine en pleine expansion; les concepts de base et les méthodes de l'intelligence artificielle, représentation des connaissances, inférence, systèmes experts, raisonnements et incertitude, compréhension du langage naturel etc. Condition préalable : GL/CSLA 4700 3.00 ou GL/CSLA/ITEC 4648 3.00. Cours incompatible : GL/CSLA 4710 3.00.

Language of Instruction: French

GL/CSLA 4650 3.00 Management of Uncertainty in Expert System Design. This course is a self-contained presentation of state-of-the-art methodologies and approaches to management of uncertainty in expert systems design. It deals with knowledge representation, search, inference and reasoning under uncertainty issues. Prerequisites: GL/CSLA 2620 3.00. Course credit exclusion: GL/COSC 4710 3.00; GL/CSLA 4715 3.00.

Cross-listed to: GL/CSLA 4650 3.00, GL/ITEC 4650 3.00

Computer Security – Science and Engineering

Location:

Creative Writing – Liberal Arts and Professional Studies

Location:

301 Calumet College, Tel.: 416-736-2100, ext. 33836

Web Site:

<http://www.yorku.ca/laps/en/crwr>

Program Coordinator:

R. Dunlop

Affiliated Faculty:

R. Dunlop, D. Goldstein, M. Helm, P. Keeney, P. Uppal

Creative writing is a delayed-entry Honours BA program, and may be pursued as a single major, double major or minor. Students who wish to apply for admission to the program are strongly advised to take one of the following courses among their first 30 University credits:

- AP/EN 1001 3.00 Introduction to Literary Study
- AP/EN 1002 3.00 Intertextualities
- AP/EN 1006 3.00 Writer's Introduction to Literary Forms
- AP/CLTR 1953 6.00 Canadian Writers in Person

Students must successfully complete AP/EN 2600 6.00 Introduction to Creative Writing before applying for admission to the Creative Writing program as a major or minor. Students taking AP/EN 2600 6.00 Introduction to Creative Writing, who wish to obtain full admission to the program as a major or minor, should submit a 15-20 page portfolio of poetry and prose fiction following completion of AP/EN 2600 3.00 Introduction to Creative Writing.

Students may also apply for full admission after their first 54 credits and before completion of their first 78 credits by presenting a portfolio containing work in both poetry and prose fiction as evidence of writing experience equivalent to that provided by AP/EN 2600 6.00 Introduction to Creative Writing. In either case, applicants must also fill out a Creative Writing program application form. Acceptance of the portfolio by the Creative Writing Committee constitutes full admission to the Honours Major or Honours Minor program.

It is strongly recommended that students in the Honours BA program combine creative writing with a major or minor in English. Students admitted to the Honours Major or Honours Minor program should schedule an advising appointment with the Creative Writing program. Please consult the program office for more information.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Criminology – Liberal Arts and Professional Studies

Location:

S740 Ross Building, Tel.: 416-736-2100, ext. 22760

Web Site:

<http://www.yorku.ca/laps/sosc/crim>

Program Coordinator:

J. Williams, Social Science

Affiliated Faculty:

M. Beare, Sociology; D. Brock, Sociology; C. Colagouri, Social Science; A. Glasbeek, Social Science; A. Pratt, Social Science; J. Sheptycki, Social Science; L. Visano, Social Science; J. Williams, Social Science

The interdisciplinary program in Criminology focuses on the analysis of crime, criminality, social control and regulation and the criminal justice system. As well as providing students with a thorough grounding in the history, debates, issues and critiques of the field, the program curriculum is intended to encourage a critical interdisciplinary analysis of how crime, criminality and the criminal justice system have been constructed, represented and administered legally, politically, economically and culturally.

Students in the program are required to complete a series of core program courses that focus on areas or topics central to criminology, such as criminal law and procedure, criminological theory, the criminal justice system, policing, the court system, penology, corrections and alternative forms of justice. In addition to the program core, criminology majors select courses from a variety of departments and disciplines which address topics, issues and concerns relevant to criminology, and which allow students to explore particular stands of criminology based on their individual interests.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Courses in Criminology

Note: for purposes of meeting program requirements, all foundations courses will count as six credits towards the major.

AP/CRIM 1650 9.00 Introduction to Criminology. This course critically investigates processes that define criminality; the relationship between control and consent; the administration of “justice,” and the social contexts within which legal contests occur. It introduces students to critical and contemporary approaches as well as mainstream/traditional explanations. *Note:* Students must achieve a grade of at least B (6.00) in this course in order to be permitted to continue as a major in criminology, or to pursue additional criminology courses at the 2000, 3000 and 4000 levels. Under exceptional circumstances, non-majors who have not obtained a grade of at least B (6.00) may apply for special consideration to enrol in a criminology course for which AP/CRIM/SOSC 1650 9.00 (AS/CRIM/SOSC 1650 9.00 prior to fall 2009) is a prerequisite. This application should be made to the criminology program coordinator. *Note:* Successful completion of this course fulfills General Education requirements in the Faculty of Liberal Arts & Professional Studies. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOCI 1011 6.00 (prior to Fall/Winter 2003-2004), AS/SOSC 1650 9.00.

Cross-listed to: AP/CRIM 1650 9.00, AP/SOSC 1650 9.00

AP/CRIM 2650 6.00 Theories of Criminology. This course introduces students to competing theories of criminology and the history of criminology as a field of study. Biological, psychological and sociological theories of crime are compared and contrasted, as well as contemporary theories including symbolic interactionism and critical criminology. Prerequisite: AP/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusion: AP/SOSC 3382 6.00 PRIOR TO

FALL 2009: Prerequisite: AS/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusions: AS/SOSC 2650 6.00, AS/SOSC 3382 6.00.

Cross-listed to: AP/CRIM 2650 6.00, AP/SOSC 2650 6.00

AP/CRIM 2651 3.00 Criminal Law and Procedure. This course is an introduction to the fundamental and competing principles of jurisprudence and the Criminal Code of Canada. Consideration is given to the various steps in the judicial system, including investigation, indictment, adjudication, sentencing and corrections. Prerequisite: AP/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusion: AS/SOSC 2651 3.00.

Cross-listed to: AP/CRIM 2651 3.00, AP/SOSC 2651 3.00

AP/CRIM 2652 6.00 Criminal Justice System. This course considers the politics at stake in the crime prevention enterprise. A number of specific crime prevention and security initiatives will be examined with a view to exposing their political foundations, and presenting a variety of more progressive alternatives. Course credit exclusion: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 3381 6.00 and AS/CRIM 2652 6.00.

AP/CRIM 2652 6.00 Criminal Justice Systems. This course considers the politics at stake in the crime prevention enterprise. A number of specific crime prevention and security initiatives will be examined with a view to exposing their political foundations, and presenting a variety of more progressive alternatives. Course credit exclusion: None. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC 3381 6.00 and AS/CRIM 2652 6.00.

Cross-listed to: AP/CRIM 2652 6.00, AP/SOSC 2652 6.00

AP/CRIM 3651 3.00 Policing and the Community. This course moves from the historical roots of Canadian policing into the present. Canada's unique policing structure is discussed and compared with international policing structures. Political and economic forces behind policing and the symbolism of the police are also considered. Prerequisite: AP/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusions: None. Prior TO FALL 2009: Prerequisite: AS/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusion: AS/SOCI 3651 3.00.

Cross-listed to: AP/CRIM 3651 3.00, AP/SOCI 3651 3.00

AP/CRIM 3652 3.00 Corrections and Alternative Forms of Justice. This course explores the historical roots of corrections and alternative forms of justice. Topics include various philosophies of punishment and social control, as well as the influences that have helped to determine penal policies and practices, particularly in Canada. Prerequisite: AP/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusions: AP/CRIM/SOSC 3656.. Prior TO FALL 2009: Prerequisite: AS/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusion: AS/SOCI 3652 3.00, AS/CRIM/SOSC 3656 3.00.

Cross-listed to: AP/CRIM 3652 3.00, AP/SOCI 3652 3.00

AP/CRIM 3654 6.00 Politics of Crime Prevention and Security. This course situates the politics of crime prevention practice and security provision by reference to their underlying philosophies (e.g. rational choice theory, broken windows, etc.) and secondly with regard to specific examples of the practical design and implementation of crime prevention initiatives and security provision. Course credit exclusion: AP/CRIM/SOSC 2651 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/CRIM/SOSC 2651 3.00, AS/SOSC 3654 6.00.

Cross-listed to: AP/CRIM 3654 6.00, AP/SOSC 3654 6.00

AP/CRIM 3655 3.00 Regulation and Punishment I. This course examines theory and research on regulation and policing. Attention is paid to the roles of both state and non-state agencies, institutions, and professions in regulating subjectivities and bodies. Students will engage with criminological debates about the role of policing in contemporary

society and with current controversies in policing strategies. Course credit exclusion: AP/SOSC/CRIM 2651 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/SOSC/CRIM 2651 3.00, AS/SOSC 3655 3.00.

Cross-listed to: AP/CRIM 3655 3.00, AP/SOSC 3655 3.00

AP/CRIM 3656 3.00 Regulation and Punishment II. This course examines theory and research on policing and punishment. Attention is paid to the roles of both state and non-state agencies, institutions, and professions in punishing subjectivities and bodies. The course will reveal, examine and unsettle the prison-punishment nexus through critical engagement with a range of interdisciplinary empirical and theoretical literatures. Course credit exclusion: AP/CRIM/SOCI 3652 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/CRIM/SOCI 3652 3.00, AS/CRIM/SOSC 3656 3.00.

Cross-listed to: AP/CRIM 3656 3.00, AP/SOSC 3656 3.00

AP/CRIM 4650 6.00 Criminology Honours Seminar. This course engages in an in-depth analysis of a particular topic or theme relevant to criminology. The focus of the course will vary from year to year, depending upon student and faculty interest in specific topics. Prerequisite: AP/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AS/CRIM/SOSC 1650 9.00 (or equivalent), with a grade of at least B (6.00). Course credit exclusion: AS/SOSC 4650 6.00.

Cross-listed to: AP/CRIM 4650 6.00, AP/SOSC 4650 6.00

Culture and Expression – Liberal Arts and Professional Studies

Location:

Department of Humanities, 262 Vanier College, Tel.: 416-736-5158

Web Site:

<http://www.yorku.ca/laps/huma/cltr>

Coordinator:

G. Vanstone

Professors:

S.A. Brown, J. Rahn

Associate Professor:

A. Kitmann

Assistant Professors:

G. Vanstone

Culture and expression is a flexible, interdisciplinary degree program designed to explore the plurality of cultural expression. It investigates how societies communicate their values and interests through a wide range of artistic and cultural forms, among them film, music, literature and various electronic and visual media. It opens up a whole new world for understanding the arts in social, artistic and political contexts and encourages students to find their own "place" in this world. Students complete a common core of courses examining how cultural and artistic forms convey social, political and philosophical concerns. Historical, philosophical and aesthetic concerns are explored through cultural theory and methodology, providing students with a coherent theoretical preparation in concepts and areas of concern for more advanced and specific investigations.

Courses in Culture and Expression

AP/CLTR 1953 6.00 Canadian Writers in Person. Explores the works of 12 contemporary Canadian writers who give readings to the class and respond to questions about their work. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/EN 1000A 6.0 (taken between Fall/Winter 1999-2000 and Fall/Winter 2000-2001), AK/EN 1953 6.00.

Cross-listed to: AP/CLTR 1953 6.00, AP/HUMA 1953 6.00

AP/CLTR 2100 6.00 Questioning Culture. Designed to introduce students to the theoretical study of contemporary culture in past and contemporary society, offering tools for questioning and decoding the social and political contexts of cultural production. Areas of focus may

include popular media, consumer culture and technology. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2100 6.00.

Cross-listed to: AP/CLTR 2100 6.00, AP/HUMA 2002 6.00

AP/CLTR 2210 6.00 Media, Culture and Technology. Combining historical and theoretical content, the course surveys the invention and evolution of media technologies from the invention of writing to the Internet. How technologies alter the social and cultural dynamics of a given period and the relationship between meaning and form will be among the key concerns. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2210 6.00.

Cross-listed to: AP/CLTR 2210 6.00, AP/HUMA 2210 6.00

AP/CLTR 2243 6.00 Understanding Movies: Viewing and Critical Reading. Designed for the student who enjoys film but has no background in art or criticism. It will introduce students to a variety of strategies that will help the student articulate how movies use sound and image to represent the world. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2243 6.00.

Cross-listed to: AP/CLTR 2243 6.00, AP/HUMA 2215 6.00

AP/CLTR 2420 3.00 Communication, Presentation Skills and Voice. A practical course for students wanting to develop public speaking and presentation skills. Story-telling exercises, extemporaneous speech making, and text analysis facilitate expertise in public speaking. Video feedback will be used as a developmental tool. Course credit exclusion: none. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 2420 3.00, AK/FA 2220 3.00.

Cross-listed to: AP/CLTR 2420 3.00, AP/HUMA 2220 3.00

AP/CLTR 2510 6.00 Popular Technologies and Cultural Practice. Examines the role of consumer technologies, ranging from the automobile to the iPod in terms of how they affect the cultural landscapes of contemporary culture and society. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2510 6.00.

Cross-listed to: AP/CLTR 2510 6.00, AP/HUMA 2225 6.00

AP/CLTR 2610 6.00 Music in Human Experience. Introduction to emotional, intellectual, spiritual, and symbolic uses of music through case studies of individual cultures, including consideration of social, political, and historical settings. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2610 6.00.

Cross-listed to: AP/CLTR 2610 6.00, AP/HUMA 2230 6.00

AP/CLTR 2850 6.00 Understanding Culture and the Visual Environment in Western Civilization. Investigates visual culture in western civilizations from its origins in the ancient Near East to the present day. Chosen monuments will be discussed in conjunction with appropriate written texts, from the viewpoint of meaning, technology, and aesthetics. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 2850 6.00.

Cross-listed to: AP/CLTR 2850 6.00, AP/HUMA 2675 6.00

AP/CLTR 3100 6.00 Culture, Meaning & Form. Explores cultural expression as a social act. What happens when material culture is caught between opposing forces: corporations and governments? To the individual voices of resisting dissidents arguing for originality, individuality and authenticity? Areas of concentration include: print media, sports, film, television. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3100 6.00.

Cross-listed to: AP/CLTR 3100 6.00, AP/HUMA 3201 6.00

AP/CLTR 3150 3.00 Full Circle: Experiencing the International. Offers students with prior international experience opportunities to theorize about such educational experiences, synthesizing them into the everyday. Course content explores relationships between the personal (local), the national and the international. The course combines theoretical and experiential components. Prerequisites: Students should have international experience, whether as students who have studied abroad or as international students attending York. The former might include

participation in a study abroad in an exchange program and/or participation in an international internship experience. Admission is by permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: Students should have international experience, whether as students who have studied abroad or as international students attending York. The former might include participation in a study abroad in an exchange program and/or participation in an international internship experience. Admission is by permission of the course director. Course credit exclusion: AK/CLTR 3150 3.00.

Cross-listed to: AP/CLTR 3150 3.00, AP/HUMA 3207 3.00

AP/CLTR 3210 6.00 Writing the Self: from diaries to web cams. An examination of "writing the self" in the context of literary, critical, sociological, philosophical and psychological perspectives. This course examines such phenomena as personal diaries, home movies and web cams. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3210 6.00.

Cross-listed to: AP/CLTR 3210 6.00, AP/HUMA 3215 6.00

AP/CLTR 3220 6.00 Memory, Meaning and Community. An experiential learning course on the study of memory from a cultural perspective. Topics include: collective vs. individual memory; memory and trauma; memory and media; historical memory; oral memory and testimony. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3220 6.00.

Cross-listed to: AP/CLTR 3220 6.00, AP/HUMA 3220 6.00

AP/CLTR 3225 3.00 Performance And Resistance. Explores strategies artists and activists use to create performance poetry, art and political theatre by combining discussion, practice and theory to understand how a variety of performance strategies provoke and enliven audiences, and call for political action. Not open to students who have taken AP/CLTR 3225 6.00 (AK/CLTR 3225 6.00 prior to Fall 2009). Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3225 3.00.

Cross-listed to: AP/CLTR 3225 3.00, AP/HUMA 3225 3.00

AP/CLTR 3225 6.00 Performance And Resistance. Explores strategies artists and activists use to create performance poetry, art and political theatre by combining discussion, practice and theory to understand how a variety of performance strategies provoke and enliven audiences, and call for political action. Not open to students who have taken AP/CLTR 3225 3.00 (AK/CLTR 3225 3.00 prior to Fall 2009). Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3225 6.00.

Cross-listed to: AP/CLTR 3225 6.00, AP/HUMA 3225 6.00

AP/CLTR 3230 3.00 Illness in the Popular Eye: Body, Spirit and Transformation. Addresses illness as a narrative device in film and other forms of media and by so doing, raises social and cultural concerns regarding the body, protest, transcendence and healing, as well as gender/sexual politics. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3230 3.00.

Cross-listed to: AP/CLTR 3230 3.00, AP/HUMA 3230 3.00

AP/CLTR 3230 6.00 Illness in the Popular Eye: Body, Spirit and Transformation. Addresses illness as a narrative device in film and other forms of media and by so doing, raises social and cultural concerns regarding the body, protest, transcendence and healing, as well as gender/sexual politics. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3230 6.00.

Cross-listed to: AP/CLTR 3230 6.00, AP/HUMA 3230 6.00

AP/CLTR 3250 3.00 Rethinking Contemporary History Through Film and Popular Culture. Explores how history has been depicted through popular culture in cinema and other electronic media. Focuses on WWII and its aftermath when filmmakers began to rethink the function of cinematic representation and its political and cultural relationship to the contemporary world. Course credit exclusion: AP/CLTR 3250 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3250 3.00, AK/CLTR 3250 6.00.

Cross-listed to: AP/CLTR 3250 3.00, AP/HUMA 3250 3.00

AP/CLTR 3250 6.00 Rethinking Contemporary History Through Film and Popular Culture. Explores how history has been depicted through popular culture in cinema and other electronic media. Focuses on WWII and its aftermath when filmmakers began to rethink the function of cinematic representation and its political and cultural relationship to the contemporary world. Course credit exclusion: AP/CLTR 3250 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3250 3.00, AK/CLTR 3250 6.00.

Cross-listed to: AP/CLTR 3250 6.00, AP/HUMA 3250 6.00

AP/CLTR 3510 3.00 Arts and Rights. Explores how the creative arts, including poetry, fiction, drama, film and the visual arts, take up issues related to human rights. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/HUMA 3510 3.00.

Cross-listed to: AP/CLTR 3510 3.00, AP/HREQ 3510 3.00, AP/HUMA 3907 3.00

AP/CLTR 3542 3.00 Consumer and Popular Culture. Examines individual and collective expression within the context of popular and consumer culture, including such areas as music, activism, the Web, fashion, subcultures, shopping, car culture, fan clubs, zines, TV and film. Course credit exclusion: AP/CLTR 3542 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3542 3.00, AK/CLTR 3542 6.00.

Cross-listed to: AP/CLTR 3542 3.00, AP/HUMA 3901 3.00

AP/CLTR 3542 6.00 Consumer and Popular Culture. Examines individual and collective expression within the context of popular and consumer culture, including such areas as music, activism, the Web, fashion, subcultures, shopping, car culture, fan clubs, zines, TV and film. Course credit exclusion: AP/CLTR 3542 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3542 3.00, AK/CLTR 3542 6.00.

Cross-listed to: AP/CLTR 3542 6.00, AP/HUMA 3901 6.00

AP/CLTR 3570 6.00 Experiencing Canadian Culture. An exploration of how a unique Canadian sensibility manifests itself in contemporary cultural forms. Students are encouraged to attend contemporary plays, movies, readings, art shows and concerts to supplement reading materials. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3570 6.00, AK/HUMA 3640 6.00 (prior to Fall/Winter 1999-2000).

Cross-listed to: AP/CDNS 3904 6.00, AP/CLTR 3570 6.00, AP/HUMA 3904 6.00

AP/CLTR 3590 3.00 Contemporary Popular Culture. Surveys historical and contemporary approaches to the texts and contexts of fiction, film, television, music, folklore and fashion. Themes include the industrialization of culture; changing definitions of the popular; genre and gender; the politics of style; nature and other utopias. Course credit exclusions: AP/CLTR 3590 6.00, AP/HUMA 3902 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3590 3.00, AK/CLTR 3590 6.00, AK/EN 3000K 6.00 (prior to Fall/Winter 1997-1998), AK/EN 3859 3.00, AK/EN 3859 6.00, AK/HUMA 3720 6.00 (prior to Fall/Winter 1996-1997), AK/HUMA 3980 3.00 and AK/HUMA 3980 6.00.

Cross-listed to: AP/CLTR 3590 3.00, AP/HUMA 3902 3.00

AP/CLTR 3590 6.00 Contemporary Popular Culture. Surveys historical and contemporary approaches to the texts and contexts of fiction, film, television, music, folklore and fashion. Themes include the industrialization of culture; changing definitions of the popular; genre and gender; the politics of style; nature and other utopias. Course credit exclusions: AP/CLTR 3590 3.00, AP/HUMA 3902 3.00. Cross-listed to: AP/CLTR 3590 6.00, AP/HUMA 3902 6.00

AP/CLTR 3610 3.00 Popular Expression in North American Music. A survey of North American musical idioms from their Indigenous, European and African antecedents to the present. Selected styles and creators are

situated within their immediate contexts of commerce, identity, and aesthetic norms. Note: AP/CLTR 3610 3.00 (AK/CLTR 3610 3.00 prior to Fall 2009) and first half of AP/CLTR 3610 6.00 (AK/CLTR 3610 6.00 prior to Fall 2009) conclude at 1950. Course credit exclusion: AP/CLTR 3610 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3610 3.00, AK/CLTR 3610 6.00.

Cross-listed to: AP/CLTR 3610 3.00, AP/HUMA 3903 3.00

AP/CLTR 3610 6.00 Popular Expression in North American Music. A survey of North American musical idioms from their Indigenous, European and African antecedents to the present. Selected styles and creators are situated within their immediate contexts of commerce, identity, and aesthetic norms. Note: AP/CLTR 3610 3.00 (AK/CLTR 3610 3.00 prior to Fall 2009) and first half of AP/CLTR 3610 6.00 (AK/CLTR 3610 6.00 prior to Fall 2009) conclude at 1950. Course credit exclusion: AP/CLTR 3610 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3610 3.00, AK/CLTR 3610 6.00.

Cross-listed to: AP/CLTR 3610 6.00, AP/HUMA 3903 6.00

AP/CLTR 3810 6.00 Consuming Life: Design In Contemporary Culture. Explores the complex relationship between cultural forces/practices and contemporary architectural and industrial design through critical, theoretical, philosophical and aesthetic perspectives. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 3810 6.00.

Cross-listed to: AP/CLTR 3810 6.00, AP/HUMA 3905 6.00

AP/CLTR 3825 3.00 Crafting Contemporary Culture. Explores contemporary craft traditions and innovations in their social, political and artistic contexts. Theoretically, the course will draw from such areas as craft theory, cultural studies, popular culture, critical theory, craft culture and the history of technology. Course credit exclusion: AP/CLTR 3825 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3825 3.00, AK/CLTR 3825 6.00.

Cross-listed to: AP/CLTR 3825 3.00, AP/HUMA 3906 3.00

AP/CLTR 3825 6.00 Crafting Contemporary Culture. Explores contemporary craft traditions and innovations in their social, political and artistic contexts. Theoretically, the course will draw from such areas as craft theory, cultural studies, popular culture, critical theory, craft culture and the history of technology. Course credit exclusion: AP/CLTR 3825 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3825 3.00, AK/CLTR 3825 6.00.

Cross-listed to: AP/CLTR 3825 6.00, AP/HUMA 3906 6.00

AP/CLTR 3838 3.00 The Celtic Tradition - Then and Now. Investigates Celtic culture and its artistic expression, which includes both the early medieval amalgamation of the Irish and Anglo-Saxon traditions in the British Isles, and its later manifestation during the Celtic Revival of the late 19th and early 20th centuries. Course credit exclusions: None.

Cross-listed to: AP/CLTR 3838 3.00, AP/HUMA 3438 3.00

AP/CLTR 3841 3.00 Representing Medieval Life & Belief Part 1: 300-1000. Analyzes history, society, and religion in western Europe in the context of early medieval visual expressions as representations of identities and their continuing influences over contemporary cultures. Course credit exclusions: AP/VISA 3400 6.00, AP/VISA 3841 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3841 3.00, AK/VISA 3400 6.00 and AK/VISA 3841 3.00.

Cross-listed to: AP/CLTR 3841 3.00, AP/HUMA 3607 3.00

AP/CLTR 3842 3.00 Representing Medieval Life, and Belief Part 2: 1000-1400. Analyzes history, society, and religion in western Europe in the context of high medieval visual expressions as representations of identities and their continuing influences over contemporary cultures. Course credit exclusions: none. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 3842 3.00, AK/VISA 3400 6.00 and AK/VISA 3842 3.00.

Cross-listed to: AP/CLTR 3842 3.00, AP/HUMA 3608 3.00

AP/CLTR 4000 3.00 Independent Studies in Culture & Expression.

Open to advanced students only, this course offers the highly motivated student an opportunity to pursue intensive study pertaining to a theme emanating from culture and its expression on his or her own under the guidance of an instructor. Prerequisites: 78 credits; prior acceptance by a faculty supervisor; completion of the Independent Studies contract; and approval by the Chair. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits; prior acceptance by a faculty supervisor; completion of the Independent Studies contract; and approval by the Chair. Course credit exclusions: None.

Cross-listed to: AP/CLTR 4000 3.00, AP/HUMA 4002 3.00

AP/CLTR 4000 6.00 Independent Studies in Culture & Expression.

Open to advanced students only, this course offers the highly motivated student an opportunity to pursue intensive study pertaining to a theme emanating from culture and its expression on his or her own under the guidance of an instructor. Prerequisites: 78 credits; prior acceptance by a faculty supervisor; completion of the Independent Studies contract; and approval by the Chair. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits; prior acceptance by a faculty supervisor; completion of the Independent Studies contract; and approval by the Chair. Course credit exclusions: None.

Cross-listed to: AP/CLTR 4000 6.00, AP/HUMA 4002 6.00

AP/CLTR 4110 6.00 Seminar on McLuhan, Technology and Cultural History.

Examines the thought of Marshall McLuhan within the context of the historical development of contemporary culture as impacted by technology and media. Comparisons are drawn between McLuhan and other thinkers of technology such as Harold Innis, Jacques Ellul, Lewis Mumford. Prerequisite: 78 credits and permission of the coordinator of History. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/HIST 4140 6.00.

Cross-listed to: AP/CLTR 4110 6.00, AP/HUMA 4900 6.00

AP/CLTR 4135 3.00 Listening: Issues in Auditory Cognition.

Focuses on perception of sound, including memory for music and speech, auditory illusions, linguistic theory, psychoacoustics and timbre. Musical knowledge not required. Classes involve lectures, demonstrations and discussions. Prerequisites: HH/PSYC 1010 6.00 or AK/PSYC 2410 6.00 (prior to Summer 2002), with a minimum grade of C; HH/PSYC 2030 3.00 or AK/PSYC 2530 3.00 (prior to Summer 2002); one of HH/PSYC 2021 3.00, HH/PSYC 2020 6.00, AK/PSYC 2510 3.00 (prior to Fall/Winter 2001/2002). Course credit exclusion: AK/PSYC 4135 3.00 (prior to Summer 2000).

Cross-listed to: AP/CLTR 4135 3.00, AP/HUMA 4901 3.00, HH/PSYC 4160 3.00

AP/CLTR 4210 6.00 Spirituality and Technology.

An examination of how the development of science and technology relates to religious and spiritual concepts and practices. The course traces the presence of the spiritual in past and contemporary manifestation of technology. Prerequisites: 78 credits and permission of the coordinator of Culture and Expression. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits and permission of the coordinator of Culture and Expression. Course credit exclusion: AK/CLTR 4210 6.00.

Cross-listed to: AP/CLTR 4210 6.00, AP/HUMA 4902 6.00

AP/CLTR 4520 3.00 Social Movements and the Expressive Arts.

Examines the specific role that art and artists have played in selected social movements. Prerequisite: 78 credits or permission of instructor. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: 78 credits or permission of instructor. Course credit exclusion: AK/HUMA 4520 3.00.

Cross-listed to: AP/CLTR 4520 3.00, AP/HUMA 4520 3.00

AP/CLTR 4535 3.00 Religious Reformation and its Cultural Expression.

This is a research seminar focused on the cultural expressions of the Protestant and Catholic Reformations of the 16th century. Students will study a selection of relevant doctrinal points, relating them to their expression in the broader cultural context. Prerequisites: 78

credits and permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: 78 credits and permission of the course director. Course credit exclusion: AK/HUMA 4535 3.00.

Cross-listed to: AP/CLTR 4535 3.00, AP/HUMA 4535 3.00

AP/CLTR 4810 6.00 Architecture and Social Change. Probes the complex relationship between architecture and social/cultural change in the 20th and 21st centuries with an emphasis on specific architectural "visions" and their intended/unintended consequences. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/CLTR 4810 6.00.

Cross-listed to: AP/CLTR 4810 6.00, AP/HUMA 4903 6.00

AP/CLTR 4820 3.00 Fetish Appeal: Desire and Consumption. Probes the role of pleasure, desire and power in contemporary consumer culture, especially around objects of consumption, such as so-called designer goods or iconic products such as the Kitchenaid mixer or the Ipod. Course credit exclusion: AP/CLTR 4820 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 4820 3.00, AK/CLTR 4820 6.00.

Cross-listed to: AP/CLTR 4820 3.00, AP/HUMA 4904 3.00

AP/CLTR 4820 6.00 Fetish Appeal: Desire and Consumption. Probes the role of pleasure, desire and power in contemporary consumer culture, especially around objects of consumption, such as so-called designer goods or iconic products such as the Kitchenaid mixer or the Ipod. Course credit exclusion: AP/CLTR 4820 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/CLTR 4820 3.00, AK/CLTR 4820 6.00.

Cross-listed to: AP/CLTR 4820 6.00, AP/HUMA 4904 6.00

AP/CLTR 4840 3.00 Faith and Form: Aspects of Religious Visual Expression. Discusses the uses, purposes, and appropriations of visual culture in the service of religion in the European tradition, both historical and contemporary. Objective, critical views will be encouraged. Prerequisites: At least six credits in visual arts studies or cultural studies, or permission of the course director. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisites: At least six credits in visual arts studies or cultural studies, or permission of the course director. Course credit exclusion: AK/CLTR 4840 3.00.

Cross-listed to: AP/CLTR 4840 3.00, AP/HUMA 4905 3.00

AP/CLTR 4850 3.00 Propaganda and Culture. Investigates the employment of the created environment and other expressions of culture for propagandistic purposes, meant to advance privileged ideologies in politics, religion, and social interchange. Discusses examples chosen from different eras and communities, including modern and contemporary applications. Prerequisites: 78 credits and permission of the coordinator of Culture and Expression. Course credit exclusion: AP/CLTR 4850 6.00. PRIOR TO FALL 2009: Prerequisites: 78 credits and permission of the coordinator of Culture and Expression. Course credit exclusions: AK/CLTR 4850 3.00, AK/CLTR 4850 6.00.

Cross-listed to: AP/CLTR 4850 3.00, AP/HUMA 4906 3.00

AP/CLTR 4850 6.00 Propaganda and Culture. Investigates the employment of the created environment and other expressions of culture for propagandistic purposes, meant to advance privileged ideologies in politics, religion, and social interchange. Discusses examples chosen from different eras and communities, including modern and contemporary applications. Prerequisites: 78 credits and permission of the coordinator of Culture and Expression. Course credit exclusions: AK/CLTR 4850 3.00, AK/CLTR 4850 6.00.

Cross-listed to: AP/CLTR 4850 6.00, AP/HUMA 4906 6.00

Dance – Fine Arts

Location:

301 Accolade East, Tel.: 416-736-5137

Chair:

M.J. Warner

Professors:

P. Reed Doob, D. Krasnow, H. Small, M.J. Warner

Associate Professors:

C. Anderson, A.R. Blewchamp, K. Bowes-Sewell, D. Callison, N.S. Fisher-Stitt, M.E. Manley, C. Wootten

Assistant Professors:

P. Alcedo, S. Cash, W. Mackwood, D. Robinson

Adjunct Professors:

D. Grossman, G. Lum, M. Thakkar

Graduate Program Director MFA:

D. Callison

Graduate Program Director MA/PhD:

TBA

Programs of Study

The Department of Dance offers a comprehensive education in dance as a performing art leading to a BA (90 credits), Honours BFA (120 credits) or Honours BA (120 credits) degree. Throughout the program BFA students participate intensively in studio courses involving ballet and modern technique, conditioning for dancers, improvisation, music, composition/choreography, repertory, dance production, pedagogy and somatic education. Special performance opportunities are available through the York Dance Ensemble. Critical, analytical and writing skills are fully developed in the areas of dance studies and dance history, movement analysis, kinesiology and injury prevention, dance writing, dance ethnology and anthropology. Honours BA majors focus on dance studies, examining the role of dance in human societies, and in their final year undertake a capstone project. The Honours BA is particularly appropriate for those who wish to undertake a double major combining dance with another field. The program is enriched by distinguished guest lecturers, master teachers and choreographers, performances, films, workshops and the integration of new technologies. The emphasis in the department is to prepare people for careers and graduate work in dance and other fields.

A placement evaluation is required of all entering BFA students. Applicants for that degree must have had some training in either ballet or modern dance. See details in section on Faculty of Fine Arts evaluations. Advancement to second, third and fourth level dance technique courses is by juried audition only.

Through the joint five-year National Ballet School/York University diploma degree program students can combine study towards an Honours BFA in dance with the Teacher Training Program at the National Ballet School. Students interested in this joint program will be expected to declare their interest in the first year of study.

Dance majors are eligible to apply for the Concurrent program of the Faculty of Education at the end of the first year of study.

A dance minor program is available for students who are majoring in another discipline in the Faculties of Environmental Studies, Fine Arts, Health, Liberal Arts and Professional Studies or Science and Engineering. The minor requires the equivalent of 30 credits in dance theory and practice.

Courses in Dance

FA/DANC 1205 2.25 Ballet Technique. Offers an introductory course in ballet. Emphasizes integrated movement, alignment, classical ballet vocabulary, artistic expression, as well as the creative process. Required of all BFA dance majors. Corequisite: FA/DANC 1215 2.25.

FA/DANC 1206 2.25 Ballet Technique. Offers an introductory course in ballet. Emphasizes integrated movement, alignment, classical ballet vocabulary, artistic expression, as well as the creative process. Required of all BFA dance majors. Prerequisite: FA/DANC 1205 2.25.

FA/DANC 1207 2.25 Ballet Technique. Continues the work begun in FA/DANC 1205 2.25 in ballet. Emphasizes integrated movement, alignment, classical ballet vocabulary, artistic expression, as well as the creative process. Note: Open by permission of the department only.

FA/DANC 1208 2.25 Ballet Technique. Continues the work begun in FA/DANC 1206 2.25 in ballet. Emphasizes integrated movement, alignment, classical ballet vocabulary, artistic expression as well as the creative process. Note: Open by permission of the department only.

FA/DANC 1215 2.25 Modern Technique. Offers an introductory course in modern dance. Emphasizes integrated movement, alignment, modern dance vocabulary, artistic expression, as well as the creative process. Required of all BFA dance majors. Corequisite: FA/DANC 1205 2.25.

FA/DANC 1216 2.25 Modern Technique. Offers an introductory course in modern dance. Emphasizes integrated movement, alignment, modern dance vocabulary, artistic expression, as well as the creative process. Required of all BFA dance majors. Prerequisite: FA/DANC 1215 2.25.

FA/DANC 1217 2.25 Modern Technique. Continues the work begun in FA/DANC 1215 2.25 in modern dance. Emphasizes integrated movement, alignment, modern dance vocabulary, artistic expression, as well as the creative process. Note: Open by permission of the department only.

FA/DANC 1218 2.25 Modern Technique. Continues the work begun in FA/DANC 1216 2.25 in modern dance. Emphasizes integrated movement, alignment, modern dance vocabulary, artistic expression, as well as the creative process. Note: Open by permission of the department only.

FA/DANC 1220 1.50 Improvisation. Provides students with an introduction to theory and practice in improvisation with a focus on the creative process in dance. Required of all BFA dance majors. Open only to dance majors and minors. Corequisite: Enrolment in dance technique.

FA/DANC 1235 1.50 Fundamentals of Dance Performance: Preparation, practice and context. Explores practical and theoretical fundamentals of dance performance for BFA majors. Introductory performance and stage skills investigated through selected repertory in a variety of dance forms. Open only to BFA majors. Studio/discussion. Co-requisite: Current enrolment in dance technique or permission of the department.

FA/DANC 1270 3.00 Dance Production. Introduces the fundamentals of all aspects of theatre production as it relates to dance. Lighting and rigging, costume design, stage management, sound, front of house (which includes publicity, box office, and house management), theatre protocol and safety practices may be covered. Course includes lectures and labs and crew work on department productions throughout the year. Required of all BFA and 90-credit BA dance majors. Open only to dance majors and minors. Course credit exclusions: FA/THEA 1100 3.00, FA/THEA 1510 3.00.

FA/DANC 1320 1.50 Conditioning for Dancers. Introduces the fundamentals of movement and conditioning for dancers. Injury prevention will be emphasized through applications of , imagery, release, alignment, stretch and strength techniques and movement re-education. Required of all first-year BFA dance majors. Open only to dance majors and minors. Corequisite: Enrolment in dance technique

FA/DANC 1320 1.50 Movement Foundations and Conditioning for Dancers. Introduces the fundamentals of movement and conditioning for dancers. Injury prevention and optimal movement function are emphasized through applications of kinesthetic awareness, imagery, release, alignment, stretch and strength techniques and movement re-education. Required of all first-year BFA dance majors. . Open only to dance majors and minors.

FA/DANC 1340 3.00 Introduction to Dance Studies. Explores the contemporary themes and issues in dance using current approaches to research and theory. Required of all dance majors and minors. Open to non-majors with departmental permission.

FA/DANC 1500 6.00 The Dance Experience (Lecture/Studio). Offers studio and theoretical work in a variety of movement techniques especially designed for the non-dance majors. Not open to BFA dance majors. Studio and lecture. Note: May include improvisations, presentation of individual or group projects, reading, films, guest speakers and attendance at live performances. Audition not required.

FA/DANC 2205 2.25 Ballet Technique. Offers Ballet technique for dance majors. Ongoing training develops artistic expression, classical ballet vocabulary, musicality and performance skills. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC 1206 2.25 and permission of the department.

FA/DANC 2206 2.25 Ballet Technique. Offers Ballet technique for dance majors. Ongoing training develops artistic expression, classical ballet vocabulary, musicality and performance skills. Required of dance majors seeking the BFA degree. Five hours. Prerequisite: FA/DANC 2205 2.25.

FA/DANC 2207 2.25 Ballet Technique. Continues the work begun in FA/DANC 2205 2.25. Ongoing training in ballet to develop artistic expression, classical ballet vocabulary, musicality and performance skills. Five hours. Note: Open by permission of the department only.

FA/DANC 2208 2.25 Ballet Technique. Continues the work begun in FA/DANC 2206 2.25. Ongoing training in ballet to develop artistic expression, classical ballet vocabulary, musicality and performance skills. Five hours. Note: Open by permission of the department only.

FA/DANC 2215 2.25 Modern Technique. Modern dance technique for dance majors. Ongoing training develops artistic expression, modern dance vocabulary, musicality and performance skills. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC 1216 2.25 and permission of the department.

FA/DANC 2216 2.25 Modern Technique. Offers Modern dance technique for dance majors. Ongoing training develops artistic expression, modern dance vocabulary, musicality and performance skills. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC 2215 2.25.

FA/DANC 2217 2.25 Modern Technique. Continues the work begun in FA/DANC 2215 2.25. Ongoing training in modern to develop artistic expression, modern dance vocabulary, musicality and performance skills. Note: Open by permission of the department only.

FA/DANC 2218 2.25 Modern Technique. Continues the work begun in FA/DANC 2216 2.25. Ongoing training in modern to develop artistic expression, modern dance vocabulary, musicality and performance skills. Note: Open by permission of the department only.

FA/DANC 2225 3.00 Dance Composition I. Introduces the study of the basic principles of dance composition; both practical movement studies and analytic/critical work will be employed to explore the creative process and to begin to develop the craft and skills of choreography. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC 1205 2.25, FA/DANC 1206 2.25, FA/DANC 1215 2.25 and FA/DANC 1216 2.25 or permission of the instructor. Corequisite: Current enrolment in dance technique, or permission of the department.

FA/DANC 2226 3.00 Dance Composition II. Further study of the basic principles of dance composition; development of studies toward completed works, and examination of production and performance as it relates to choreography. Continued analytic/critical work of choreographed dances. Prerequisite: FA/DANC 2225 3.00. Corequisite: Current enrolment in dance technique or permission of the department.

FA/DANC 2235 1.50 Fundamentals of Dance Performance. Explores practical and theoretical fundamentals of dance performance for BFA majors. Performance and stage skills investigated through selected repertory in a variety of dance forms. Open only to BFA majors. Studio/discussion. Co-requisite: Current enrolment in dance technique or permission of the department. Degree credits exclusions: None.

FA/DANC 2320 3.00 Dance Kinesiology. Introduces the field of dance kinesiology, and the analysis of movement from a scientific perspective. Correct and efficient movement patterns for dance technique are discussed through the examination of the muscular/skeletal system and its functions. Study includes identification of common muscle imbalances that impede good alignment, and the optimal execution of dance technique. Required of all dance majors seeking the BFA degree. Prerequisite or corequisite: One of SC/NATS 1610 6.00, SC/NATS 1620 6.00, SC/NATS 1650 6.00, HH/KINE 2031 3.00. Open to non-majors.

FA/DANC 2340 3.00 Dance History: 20th Century and Later. Examines the multi-faceted nature of western theatrical dance from the early-20th century to post-modernism. Required of all dance majors seeking the BFA degree. Open to non-majors.

FA/DANC 2355 3.00 Music for Dancers I. Combines theoretical studies and studio work which emphasize an integrated approach to music and dance. Development of skills relating to rhythm, music notation, musical form and style, through movement and library projects and listening assignments. Open to non-majors by permission of the department.

FA/DANC 2501 3.00 Introduction to Dance Studio I. Studies selected western dance forms such as ballet or modern dance in format especially designed for the non-BFA major. Different forms selected for study in different years. Open to B.A. Honours dance majors but not open to BFA majors in Dance. Previous dance experience recommended. No audition. Studio/discussion. Open to non-majors.

FA/DANC 2502 3.00 Introduction to Dance Studio II. Continues the studies of selected western dance forms begun in FA/DANC 2501 3.00 such as ballet or modern dance in format especially designed for the non-BFA major. Different forms selected for study in different years. Open to B.A. Honours dance majors but not open to BFA majors in Dance. Prerequisite: FA/DANC 2501 or permission of the department. Previous dance experience recommended. No audition. Studio/discussion. Open to non-majors.

FA/DANC 2510A 3.00 Introduction to World Dance Practices: Sub-Saharan Africa. Introduces the study of selected dances of west, central, east and southern Africa such as Ghanaian social dance and Yoruba ritual, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510A 3.00, Intermediate African Dance. Open to non-majors.

FA/DANC 2510B 3.00 Introduction to World Dance Practices: North Africa, Middle East, Central Asia and Diaspora. Introduces the study of selected dances from Morocco, Egypt, Israel, Iran and Azerbaijan, including belly dancing, folk and dervish dances, with attention to their cultural contexts. Different regions selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510B 3.00, Intermediate North African and Middle Eastern Dance. Open to majors and non-majors.

FA/DANC 2510C 3.00 Introduction to World Dance Practices C: Spanish and Latin American Dance Cultures. Studies selected dances, including folk, social and theatrical dances from Spain, Cuba, Mexico, Brazil and Argentina such as flamenco, salsa, merengue, samba, capoeira, and tango with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or permission of the department. Open to majors and non-majors.

FA/DANC 2510D 3.00 Introduction to World Dance Practices D: North American Dance Cultures. Studies selected urban, folk, social, jazz, tap, ballroom and popular dance styles such as Lindy hop, twist, break, hip hop and club, with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or permission of the department. Open to majors and non-majors.

FA/DANC 2510E 3.00 Salsa and Related Forms. Studies various forms of Latino social dance in their sociological and historical context, with a focus on salsa and related or contrasting Latin American popular dance forms. Studio, occasional lectures, discussion, films, guest artists, possible field trip to a salsa club. Evaluation will be based on both studio and studies components. Open to non-majors. Previous experience in dance recommended. Beginners should register in 2510 E, and experienced dancers may register in 3510 E.

FA/DANC 2510F 3.00 Introduction to World Dance Practices: East Asian Dance Cultures. Introduces the study of folk, ritual and theatrical dance traditions from the countries such as China, Japan, Korea, including contemporary Butoh. Different countries selected for study in different years. Studio/discussion. Pre-requisite: FA/DANC 1500 6.00 or permission of the department. More advanced students will be placed in FA/DANC 3510 F 3.00. Open to majors and non-majors.

FA/DANC 2510G 3.00 Introduction to World Dance Practices: European Dance. Introduces the study of selected folk, social, national and theatrical dance forms from countries such as France, Germany, Great Britain, Greece, Hungary, Italy, Scandinavia and Russia with attention to cultural contexts. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510 G 3.00 Intermediate European Dance Cultures. Open to majors and non-majors.

FA/DANC 2510H 3.00 Introduction to World Dance Practices: East Asian Dance. Introduces the study of folk, ritual and theatrical dance traditions from countries such as China, Japan and Korea, including contemporary Butoh. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510 F 3.00 Intermediate East Asian Dance Cultures. Open to majors and non-majors.

FA/DANC 2510J 3.00 Introduction to World Dance Practices: Southeast Asian Dance Cultures. Introduces the study of folk, ritual and theatrical dance traditions from countries such as Cambodia, Indonesia, Malaysia, Philippines, and Thailand. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510 J 3.00 Intermediate Southeast Asian Dance Cultures. Open to majors and non-majors.

FA/DANC 2511A 3.00 Introduction to World Dance Practices: Sub-Saharan Africa. Sub-Saharan Africa and Diaspora: study of selected dances of west, central, east and southern Africa such as Ghanaian social dance and Yoruba ritual, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510A 3.00, Intermediate African Dance.

FA/DANC 2511B 3.00 Introduction to World Dance Practices: North Africa, Middle East, Central Asia and Diaspora. Studies of selected dances from Morocco, Egypt, Israel, Iran and Azerbaijan, including belly dancing, folk and dervish dances, with attention to their cultural contexts. Different regions selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3510B 3.00, Intermediate North African and Middle Eastern Dance. Open to non-majors.

FA/DANC 2511C 3.00 Introduction to World Dance Practices C: Spanish and Latin American Dance Cultures. Studies selected dances, including folk, social and theatrical dances from Spain, Cuba, Mexico, Brazil and Argentina such as flamenco, salsa, merengue, samba, capoeira, and tango with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 2511D 3.00 Introduction to World Dance Practices D: North American Dance Cultures. Continues the work of DANC 2510 D; North American Dance Cultures: studies selected urban, folk, social, jazz, tap, ballroom and popular dance styles such as Lindy hop, twist, break, hip hop and club, with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 2511G 3.00 Introduction to World Dance Practices: European Dance. Continues the study of selected folk, social, national and theatrical dance forms from countries such as France, Germany, Great Britain, Greece, Hungary, Italy, Scandinavia and Russia with attention to cultural contexts. Different countries selected for study in different years. Studio/discussion.

FA/DANC 2511H 3.00 Introduction to World Dance Practices: East Asian Dance. Continues the study of folk, ritual and theatrical dance traditions from countries such as China, Japan and Korea, including contemporary Butoh. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510F 3.00 or permission of the department; more advanced students will be placed in FA/DANC 3510 F 3.00 Intermediate East Asian Dance Cultures. Open to majors and non-majors.

FA/DANC 2511J 3.00 Introduction to World Dance Practices: Southeast Asian Dance Cultures. Introduces the study of folk, ritual and theatrical dance traditions from countries such as Cambodia, Indonesia, Malaysia, Philippines, and Thailand. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or permission of the department; more advanced students will be placed in FA/DANC 3511 J 3.00 Intermediate Southeast Asian Dance Cultures. Open to majors and non-majors.

FA/DANC 2540 3.00 Dance and Popular Culture. The 20th century produced a mass market for dances and dance images that reflected and changed social norms and expectations. This course investigates, interprets and analyzes the position of 20th-century popular dance entertainment in Western culture. Open to fine arts majors and minors, or by permission of the department.

FA/DANC 3205 2.25 Ballet Technique. Offers ballet technique for BFA dance majors. Ongoing training develops artistic expression, classical ballet vocabulary, musicality, and athleticism. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC2206 2.25, and permission of the department. Corequisite: FA/DANC3215 2.25.

FA/DANC 3206 2.25 Ballet Technique. Offers ballet technique for BFA dance majors. Ongoing training develops artistic expression, classical ballet vocabulary, musicality, and athleticism. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC3205 2.25. Corequisite: FA/DANC3216 2.25.

FA/DANC 3207 2.25 Ballet Technique. Offers a continuation of the work begun in FA/DANC 3205 2.25. Ongoing training in ballet to develop artistic expression, classical ballet vocabulary, musicality and athleticism. Note: Open by permission of the department only.

FA/DANC 3208 2.25 Ballet Technique. Offers a continuation of the work begun in FA/DANC 3206 2.25. Ongoing training in ballet to develop artistic expression, classical ballet vocabulary, musicality and athleticism. Note: Open by permission of the department only.

FA/DANC 3215 2.25 Modern Technique. Offers modern and contemporary technique for BFA dance majors. Ongoing training develops artistic expression, modern and contemporary dance vocabulary, musicality, and athleticism. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC2216 2.25. Corequisite: FA/DANC3205 2.25.

FA/DANC 3216 2.25 Modern Technique. Offers modern and contemporary technique for BFA dance majors. Ongoing training develops artistic expression, modern and contemporary dance vocabulary, musicality, and athleticism. Required of dance majors seeking the BFA degree. Prerequisite: FA/DANC3215 2.25. Corequisite: FA/DANC3206 2.25.

FA/DANC 3217 2.25 Modern Technique. Offers a continuation of the work begun in FA/DANC 3215 2.25. Ongoing training in modern to develop artistic expression, modern dance vocabulary, musicality and athleticism. Note: Open by permission of the department only.

FA/DANC 3218 2.25 Modern Technique. Continues the work begun in FA/DANC 3216 2.25. Ongoing training in modern to develop artistic expression, modern dance vocabulary, musicality and athleticism. Note: Open by permission of the department only.

FA/DANC 3220 3.00 Choreography. Offers selected projects in choreography with continued work in structure and forms, and an increased focus on development of individual interests and style. Continued work in production, performance and criticism as related to choreography. Prerequisite: A grade of B+ or higher in FA/DANC 2226 3.00 or permission of the department. Corequisite: Current enrolment in dance technique.

FA/DANC 3235 3.00 Repertory/Reconstruction I. Introduces the study and performance of original or reconstructed choreographic works in a rehearsal and presentation setting. Rehearsal time outside of the course meetings will be scheduled close to performance dates. Corequisite: Current enrolment in dance technique.

FA/DANC 3236 3.00 Repertory II. Continues the study and performance of original or reconstructed choreographic works in a pre-professional rehearsal and presentation setting. The course provides opportunity to work closely with an experienced choreographer or recreator and to bring the work to a performance level. Rehearsals outside of the course meetings will be scheduled close to performance dates. Corequisite: Current enrolment in dance technique.

FA/DANC 3240 3.00 Dance Ensemble Apprenticeship. Offers an enriched performance/production experience for highly motivated third-year dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and out-of-town performances. Ensemble apprentices will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Students in FA/DANC 3240 are expected to continue with FA/DANC 4245/4246 Dance Ensemble in the following year. Prerequisite: Admission is by juried audition. Corequisites: Performers must be enrolled in FA/DANC 3205 2.25, FA/DANC 3206 2.25, FA/DANC 3215 2.25 and FA/DANC 3216 2.25.

FA/DANC 3240 6.00 Dance Ensemble Apprenticeship. Offers an enriched performance/production experience for highly motivated third-year dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and out-of-town performances. Ensemble apprentices will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Students in FA/DANC 3240 are expected to continue with FA/DANC 4245/4246 Dance Ensemble in the following year. Prerequisite: Admission is by juried audition. Corequisites: Performers must be enrolled in FA/DANC 3205 2.25, FA/DANC 3206 2.25, FA/DANC 3215 2.25 and FA/DANC 3216 2.25.

FA/DANC 3259 3.00 Animating Communities Through Dance and Related Arts Practices. Surveys a spectrum of existing community arts programs and projects, with emphasis on those involving dance in some form. Participants undertake individual research on a self-selected program, with the goal of developing their own community art project. Open to non-majors as an in/out for Fine Arts and as an elective for Education students.

FA/DANC 3280 3.00 Jazz Dance I. Introduces the practice of jazz dance technique reflecting North American culture. Styles of jazz dance that may be covered in different years include Broadway, funk, street lyrical, hip hop and theatre dance. Open to non-majors with permission of the department.

FA/DANC 3320 3.00 Somatic Education. Offers experiential and theoretical study of selected approaches to somatic education, such as Bartenieff Fundamentals, the Feldenkrais Method of Somatic Education,

the Alexander Technique and Ideokinesis. Studio/lecture, projects, demonstrations. Prerequisite or corequisite: One of SC/NATS 1610 6.00, SC/NATS 1620 6.00, SC/NATS 1650 6.00, or AS/SC/KINE 2031 3.00.

FA/DANC 3321 3.00 Prevention and Care of Dance Injuries. Examines the prevention, recognition and treatment of dance injuries. Specific study of proper versus improper technique and its correlation to resultant injuries. Follow-up remedial procedures and therapeutic modalities to enhance healing are also studied. May be offered in extended or normal format. Prerequisite or corequisite: One of: SC/NATS 1610 6.00, SC/NATS 1620 6.00, SC/NATS 1650 6.00, AS/SC/KINE 2031 3.00 and FA/DANC 2320 3.00.

FA/DANC 3322 3.00 Embodied Thought: Moving, Sensing and Learning. An experiential look at the relationship between movement, awareness and thought. Practical and theoretical studies in selected methods of somatic education provide a context for motor/sensory experimentation and highlight embodied movement as a way to consider issues such as creativity, problem solving, focus and social interaction. Open to non-majors.

FA/DANC 3330 3.00 The Canadian Dance Mosaic. Examines dance as a human phenomenon that both reflects and shapes culture. Through readings, films, lectures, discussions and guest artists, students are introduced to a variety of dance forms from different traditions represented in Canadian society. The course examines the place of dance in its own cultural setting as well as approaching issues facing dance in Canada as a multi-ethnic society. Open to non-majors. Two hours lecture, one hour lab. Course credit exclusions: FA/DANC 2390 3.00, FA/DANC 3390 3.00, FA/DANC 2330 3.00.

FA/DANC 3340 3.00 Early Western Theatrical Dance History. Examines the theoretical, technical, and artistic developments of western theatrical dance prior to the 20th century. Topics may include historical dance practice and performance, ballet and gender in the Romantic era, the rise of the Russian Ballet, and reconstruction as a method of dance research. Occasional studio sessions will enhance the appreciation and knowledge of dance forms through the ages. Prerequisite: DANC 1340, 2340, or permission of department. Open to non-majors.

FA/DANC 3370 3.00 Dance Pedagogy. Examines the methods and materials associated with teaching dance technique to the adolescent and the adult. The lecture/studio portion of the course is augmented by assisting or observing a series of dance classes. Prerequisite or corequisite: One of SC/NATS 1610 6.00, SC/NATS 1620 6.00, SC/NATS 1650 6.00 or AS/SC/KINE 2031 3.00 or permission of the department.

FA/DANC 3371 3.00 Young Dancers: Creators, Performers, and Critics. Examines the young dancer as performer, choreographer, audience member and critic. Studies the philosophic principles, pedagogical practices, creative processes, and performance habits of young dancer companies, and/or dance companies that perform for young audiences. Prerequisites: None. Open to non-majors.

FA/DANC 3501 3.00 Intermediate Dance Studio I. Offers the exploration of Western dance practices at an intermediate level. The material varies according to the technique being addressed, and enhances students' understanding of selected dance forms such as modern dance or ballet through physical experience, performance attendance and discussion. Open to B.A. Honours Dance majors but not open to BFA majors in Dance. Prerequisite: FA/DANC 2502; or permission of the department. Previous dance experience required. No audition. Studio/discussion. Open to non-majors.

FA/DANC 3501 3.00 Intermediate Dance Studio I. Offers the exploration of Western dance practices at an intermediate level. The material varies according to the technique being addressed, and enhances students' understanding of selected dance forms such as modern dance or ballet. Open to B.A. Honours Dance majors but not open to BFA majors in Dance. Prerequisite: FA/DANC 2501; FA/DANC 2502 or permission of the Course Director. Open to non-majors.

FA/DANC 3502 3.00 Intermediate Dance Studio II. Continues the exploration of Western dance practices at an intermediate level. The material varies according to the technique being addressed, and enhances students' understanding of selected dance forms such as modern dance or ballet. Open to B.A. Honours Dance majors but not open to BFA majors in Dance. Prerequisite: FA/DANC 35013.00 or permission of the Course Director. Open to non-majors.

FA/DANC 3510A 3.00 Intermediate World Dance Practices: Sub-Saharan Africa. Studies selected dances of west, central, east and southern Africa such as Ghanaian social dance and Yoruba ritual, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 3.00 or FA/DANC 2511 3.00 or permission of the department.

FA/DANC 3510B 3.00 Intermediate World Dance Practices: North Africa, Middle East, Central Asia and Diaspora. Studies selected dances from Morocco, Egypt, Israel, Iran and Azerbaijan, including belly dancing, folk and dervish dances, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 3.00 or FA/DANC 2511 3.00 or permission of the department.

FA/DANC 3510C 3.00 Intermediate World Dance Practices C: Spanish and Latin American Dance Cultures. Studies selected dances, including folk, social and theatrical dances from Spain, Cuba, Mexico, Brazil and Argentina such as flamenco, salsa, merengue, samba, capoeira, and tango with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or 2511 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3510D 3.00 Intermediate North American Dance Practices. Studies selected urban, folk, social, jazz, tap, ballroom and popular dance styles such as Lindy hop, twist, break, hip hop and club, with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or 2511 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3510E 3.00 Salsa and Related Forms II. Studies various forms of Latino social dance in their sociological and historical context, with a focus on salsa and related or contrasting Latin American popular dance forms. A continuation of FA/DANC 2510 E, occasional lectures, discussion, films, guest artists, possible field trip to a salsa club. Evaluation will be based on both studio and studies components. Open to non-majors with previous experience in dance. Beginners should register in 2510 E. and experienced dancers may register in 3510E. Students will learn intermediate salsa dancing in studio as well as an understanding of the origins, development, aesthetic values, and social role of salsa and related dance forms.

FA/DANC 3510F 6.00 Intermediate World Dance Practices: African Performing Arts in Context. Surveys dance forms of specific geographical regions and people of Africa. Studies factors influencing the origin and development of African performing arts; music, dance, and drama, their social, religious, economic and political contexts and functions, and their aesthetic evaluation. Studio participation in dancing, singing and playing of African instruments, such as drums, bells, flutes and xylophones; performance observation and participation in the field in Ghana as well as visits to historic and cultural sites. This intensive course involves two weeks' preparatory study at York followed by four weeks in Ghana.

FA/DANC 3510G 3.00 Intermediate World Dance Practices: European Dance. Studies selected folk, social, national and theatrical dance forms from countries such as France, Germany, Great Britain, Greece, Hungary, Italy, Scandinavia and Russia with attention to cultural contexts. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 G 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3510H 3.00 Intermediate to World Dance Practices: East Asian Dance. Studies selected folk, ritual and theatrical dance traditions from countries such as China, Japan and Korea, including contemporary Butoh. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 F 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3510J 3.00 Intermediate World Dance Practices: Southeast Asian Dance Cultures. Studies selected folk, ritual and theatrical dance traditions from countries such as Cambodia, Indonesia, Malaysia, Philippines, and Thailand. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00, or 2510 3.00 or 2511 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3511A 3.00 Intermediate World Dance Practices: Sub-Saharan Africa. Offers a study of selected dances of west, central, east and southern Africa such as Ghanaian social dance and Yoruba ritual, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 3.00 or FA/DANC 2511 3.00 or permission of the department.

FA/DANC 3511B 3.00 Intermediate World Dance Practices: North Africa, Middle East, Central Asia and Diaspora. Studies selected dances from Morocco, Egypt, Israel, Iran and Azerbaijan, including belly dancing, folk and dervish dances, with attention to their cultural contexts. Different regions selected for study in different years. Open to non-majors. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 3.00 or FA/DANC 2511 3.00 or permission of the department.

FA/DANC 3511C 3.00 Intermediate World Dance Practices C: Spanish and Latin American Dance Cultures. Studies selected dances, including folk, social and theatrical dances from Spain, Cuba, Mexico, Brazil and Argentina such as flamenco, salsa, merengue, samba, capoeira, and tango with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or 2511 3.00 or 3510 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3511D 3.00 Intermediate North American Dance Practices. Continues the work of DANC 3510 D; North American Dance Cultures: studies selected urban, folk, social, jazz, tap, ballroom and popular dance styles such as Lindy hop, twist, break, hip hop and club, with attention to their cultural contexts. Different dance forms selected for study in different years. Studio/discussion. Prerequisite: DANC 1500 or 2510 3.00 or 2511 3.00 or 3510 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3511G 3.00 Intermediate World Dance Practices: European Dance. Continues study of selected dances from folk, social, national and theatrical dance forms from countries such as France, Germany, Great Britain, Greece, Hungary, Italy, Scandinavia and Russia with attention to their cultural contexts. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 2510 G 3.00 or FA/DANC 2511G 3.00 or FA/DANC 3510 G 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3511H 3.00 Intermediate World Dance Practices: East Asian Dance. Continues study of selected folk, ritual and theatrical dance traditions from countries such as China, Japan and Korea, including contemporary Butoh. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00 or FA/DANC 3510 F 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3511J 3.00 Intermediate World Dance Practices: Southeast Asian Dance Cultures. Studies selected folk, ritual and theatrical dance traditions from countries such as Cambodia, Indonesia, Malaysia, Philippines, and Thailand. Different countries selected for study in different years. Studio/discussion. Prerequisite: FA/DANC 1500 6.00, or 2510 3.00 or 2511 3.00 or permission of the department. Open to majors and non-majors.

FA/DANC 3530 3.00 Ecstatic Dance: From Rituals to Raves. Examines various cultures where ecstatic dance is vital to the life of the community. The significance of ecstatic dance in today's North American society will be observed through postmodern ecstatic dance rituals such as raves. Prerequisite for non-majors: FA/DANC 1500 6.00 The Dance Experience or permission by the department. Open to non-majors.

FA/DANC 3550A 3.00 World Dance Studies: Sub-Saharan Africa I. Surveys the dance forms of Sub-Saharan Africa. Study of factors influencing the development of dance, its social, religious and/or political functions, aesthetic standards, cultural significance and historical roots. Different regions are selected for study in different years. Lecture/studio. Open to non-majors.

FA/DANC 3550B 3.00 World Dance Studies: North Africa, Middle East, Central Asia and Diaspora I. Surveys the dance forms of North Africa, Middle East, Central Asia and Diaspora. Study of factors influencing the development of dance, its social, religious and/or political functions, aesthetic standards, cultural significance and historical roots. Different regions are selected for study in different years. Lecture/studio. Open to non-majors.

FA/DANC 3551A 3.00 World Dance Studies: Sub-Saharan Africa II. Surveys the dance forms of Sub-Saharan Africa. A continuation of FA/DANC 3550A 3.00. Study of factors influencing the development of dance, its social, religious and/or political functions, aesthetic standards, cultural significance and historical roots. Different regions are selected for study in different years. Lecture/studio. Open to non-majors.

FA/DANC 3551B 3.00 World Dance Studies: North Africa, Middle East, Central Asia and Diaspora II. Surveys the dance forms of North Africa, Middle East, Central Asia and Diaspora. A continuation of FA/DANC 3550B 3.00. Study of factors influencing the development of dance, its social, religious and/or political functions, aesthetic standards, cultural significance and historical roots. Different regions are selected for study in different years. Lecture/studio. Open to non-majors.

FA/DANC 4205 3.00 Ballet Technique. Offers ballet technique for BFA dance majors. Ongoing training refines artistic expression, classical ballet vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Optional for all dance majors. Prerequisites: FA/DANC 3206 2.25 and permission of the department.

FA/DANC 4206 3.00 Ballet Technique. Offers ballet technique for BFA dance majors. Ongoing training refines artistic expression, classical ballet vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Optional for all dance majors. Prerequisite: FA/DANC 4205 3.0 and permission of the department.

FA/DANC 4207 3.00 Ballet Technique. Offers a continuation of work begun in FA/DANC 4205 3.00. Ongoing training in ballet to refine artistic expression, classical ballet vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Note: Open by permission of the department only.

FA/DANC 4208 3.00 Ballet Technique. Offers a continuation of work begun in FA/DANC 4206 3.00. Ongoing training in ballet to refine artistic expression, classical ballet vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Note: Open by permission of the department only.

FA/DANC 4215 3.00 Modern Technique. Offers modern and contemporary dance technique for BFA dance majors. Ongoing training refines artistic expression, modern dance vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Optional for all dance majors. Prerequisites: FA/DANC 3216 2.25 and permission of the department.

FA/DANC 4216 3.00 Modern Technique. Offers modern and contemporary dance technique for BFA dance majors. Ongoing training refines artistic expression, modern dance vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Optional for all dance majors. Prerequisite: FA/DANC 4215 3.00 and permission of the department.

FA/DANC 4217 3.00 Modern Technique. Offers a continuation of work begun in FA/DANC 4215 3.00. Ongoing training in modern to refine artistic expression, modern dance vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Note: Open by permission of the department only.

FA/DANC 4218 3.00 Modern Technique. Offers a continuation of work begun in FA/DANC 4216 3.00. Ongoing training in modern to refine artistic expression, modern dance vocabulary, musicality and athleticism. Includes a theoretical component which may be written projects, oral presentations, and class discussions. Note: Open by permission of the department only.

FA/DANC 4220 3.00 Choreography. Offers selected projects in choreography with an emphasis on interdisciplinary productions, and continued work on structure and form. Increased focus on the development of individual interests and style in choreography. Designed for highly motivated creative individuals. The course requires students to commit themselves to pre-performance and performance schedules related to productions of their work. Lectures/presentations/performances. Four and one-half hours. Prerequisites: For dance majors, a grade of B+ or higher in FA/DANC 2226 3.00 and permission of the course director. This course is open to other qualified third or fourth year Fine Arts students by permission of the course director only.

FA/DANC 4221 3.00 Interactive Dance Studio: Explorations in electronically mediated performance. This interdisciplinary studio course explores interactive dance contexts. Through the creation of electronically mediated performance environments, students in dance and new media art collaborate to merge movement and technology. Prerequisite: FA/FACS 3931 3.00 or FA/DANC 3220 3.00 or FA/DANC 4220 3.00 or permission of the course director.

Cross-listed to: FA/DANC 4221 3.00, FA/FACS 4932 3.00

FA/DANC 4245 3.00 Dance Ensemble I. Offers an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Students in FA/DANC 4245 3.00 are expected to continue with FA/DANC 4246 3.00. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: Admission is by juried audition. Open to other fine arts majors by permission of the course director. Corequisite: Performers must be enrolled in FA/DANC 4205 3.00 and FA/DANC 4215 3.00.

FA/DANC 4245 4.50 Dance Ensemble I. Offers an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Students in FA/DANC 4245 4.50 are expected to continue with FA/DANC 4246 4.50. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: Admission is by juried audition. Open to other fine arts majors by permission of the course director. Corequisite: Performers must be enrolled in FA/DANC 4205 3.00 and FA/DANC 4215 3.00.

FA/DANC 4245 6.00 Dance Ensemble I. Offers an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Students in FA/DANC 4245 6.00 are expected to continue with FA/DANC 4246 6.00. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: Admission is by juried audition. Open to other fine arts majors by permission of the course director. Corequisite: Performers must be enrolled in FA/DANC 4205 3.00 and FA/DANC 4215 3.00.

FA/DANC 4246 3.00 Dance Ensemble II. Continues the work of FA/DANC 4245 3.00, an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and possible out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: FA/DANC 4245 3.00/6.00. Corequisite: Performers must be enrolled in FA/DANC 4206 3.00 and FA/DANC 4216 3.00.

FA/DANC 4246 4.50 Dance Ensemble II. Continues the work of FA/DANC 4245 4.5, an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and possible out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: FA/DANC 4245 3.00/6.00. Corequisite: Performers must be enrolled in FA/DANC 4206 3.00 and FA/DANC 4216 3.00.

FA/DANC 4246 6.00 Dance Ensemble II. Continues the work of FA/DANC 4245 6.00, an enriched performance/production experience for highly motivated upper-level dance majors wishing to concentrate on the performance and/or production areas. Students are required to commit to an intensive schedule, including evening rehearsals and possible out-of-town performances. Ensemble members will focus on one or more aspects of dance company activity, which include performance, choreography, tour management, production support and publicity. Due to the heavy rehearsal schedule, there is a minimum of 12 hours per week. Prerequisite: FA/DANC 4245 3.00/6.00. Corequisite: Performers must be enrolled in FA/DANC 4206 3.00 and FA/DANC 4216 3.00.

FA/DANC 4247 3.00 Dance Ensemble I. Continues work begun in FA/DANC 4245 and FA/DANC 4246. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4247 4.50 Dance Ensemble I. Continues work begun in FA/DANC 4245 and FA/DANC 4246. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4247 6.00 Dance Ensemble I. Continues work begun in FA/DANC 4245 and FA/DANC 4246. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4248 3.00 Dance Ensemble II. Continues work begun in FA/DANC 4247. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4248 4.50 Dance Ensemble II. Continues work begun in FA/DANC 4247. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4248 6.00 Dance Ensemble II. Continues work begun in FA/DANC 4247. Ongoing performance/production experience for exceptional fourth year Dance majors wishing to concentrate on performance and production, including choreography, performance, touring, company management, production support, and publicity. Open by invitation.

FA/DANC 4250A 3.00 The Choreographic Process. Offers selected projects in choreography with an emphasis on movement research and the exploration of a broad range of creative approaches to dance. Continued work on issues of composition and form as well as increased focus on the development of individual choreographic interests. Creation of innovative choreographic material is the primary focus. Issues of performance, production and criticism as related to choreography is also addressed. Prerequisite: FA/DANC 2226 3.00.

FA/DANC 4250B 3.00 Dance and Technology. Explores how dance and technology have interacted since the use of machines in 17th-century opera staging and the invention of the pointe shoe. This course examines representative interactions of technology in dance in various periods and cultures and involves the creation and/or analysis of practical applications of technology to contemporary dance. Open to non-majors with permission of the department.

FA/DANC 4270 3.00 Lighting Design for Dance I. Introduces the theory and practical application of stage lighting design with an emphasis on lighting for dance. Prerequisites: FA/DANC 1270 3.00, or permission of the Dance Department. Credit Exclusions: FA/THEA 3130 6.00, FA/THEA 4130 3.00.

FA/DANC 4280 3.00 Jazz Dance II. Continues the work begun in FA/DANC 3280 3.00 Jazz Dance I, with emphasis on artistic expression. Styles of jazz dance that may be covered are Broadway, funk, street, lyrical, hip hop and theatre dance. A theoretical component will involve the study of historical and cultural aspects of the North American jazz dance vernacular. Prerequisite: FA/DANC 3280 3.00 Jazz Dance I or permission of the department. Open to non-majors.

FA/DANC 4285 3.00 Indian Dance: Movement, Repertoire and Fusion. Introduces the practice and theory of classical East Indian dance with reference to various styles. The course presents an integrated approach to rhythmic and movements of Indian dance for those with previous movement training. Open to non-majors with permission of the department. Studio lab/lecture. Prerequisites: FA/DANC 1206 2.25 and FA/DANC 1216 2.25, or prior training in a classical Indian music or dance form and permission of the department. Course credit exclusion: FA/DANC 4390C 3.00.

FA/DANC 4300A 3.00 Aesthetics of Dance and Related Arts. Investigates the aesthetic philosophies of the world cultures with an emphasis on dance and related arts. Explores the concepts of aesthetics, provides cross-cultural comparison, and highlights the factors that shape the dance/arts forms of global cultures and form the bases of their evaluation.

FA/DANC 4310 3.00 Dance Writing. Focuses on reading selected historical and contemporary writing about dance, and it provides practical experience in critical, journalistic and promotional writing. Prerequisites: FA/DANC 1340 3.00 and FA/DANC 2340 3.00 or equivalents. Open to non-majors with permission of the course director.

FA/DANC 4320 3.00 Motor Learning and Motor Control for Dance. Examines motor learning and neuromuscular patterning for dance practice. Investigates current theories of motor development through childhood and adolescence, with a particular emphasis on pedagogical and training concerns. Explores the inter-relationship of creativity and motor development in dance. Prerequisites: FA/DANC 2320 3.00 Dance Kinesiology, or permission of the department.

FA/DANC 4330 3.00 Anthropology of Dance in Canada. Surveys classical, folk, tribal and social dance traditions within the Canadian cultural context. Open to non-majors. Four hours. Prerequisites: FA/DANC 3330 3.00 and third- or fourth-year standing, or permission of the department.

FA/DANC 4340 3.00 Topics in Historical or Cultural Dance Style. Offers practical and theoretical studies in historical or cultural dance style from a historical or ethnological perspective. The study of style in movement as it reflects a culture or a period of history is a central issue in dance scholarship. Methodologies of describing, recording and interpreting movement patterns in context are emphasized. Topics are announced each year in the spring. Prerequisites: FA/DANC 3330 3.00 or equivalent and third- or fourth-year standing, or permission of the department. Open to non-majors.

FA/DANC 4340A 3.00 Topics in Historical or Cultural Dance Style: Projects in Historical and Contemporary Jazz Dance. Examines the history of jazz dance as a context for the reconstruction or creation of selected jazz dance pieces. Both the theatrical and social contexts of jazz dance will be considered. Lecture and discussion sessions will be supplemented by studio sessions involving jazz dance practice, including the role of improvisation. Open to non-majors with permission of the department.

FA/DANC 4340B 3.00 Topics in Historical or Cultural Dance Style: History and practice of couples dancing. Studies the history and practice of couples dancing in North America and elsewhere. Attention will be paid to aesthetics, sexuality, gender, training, race, and class. Open to non-majors. Lectures, discussion, studio.

FA/DANC 4340C 3.00 Topics in Historical or Cultural Dance Style: Projects in Historical Dance Forms. Studies the history and practice of dance forms prior to 1930. This course examines the history of selected historical dance forms (e.g., Renaissance, Baroque, 19th-century, "Animal" dances) Both the theatrical and social contexts of the chosen dance forms will be considered. Lecture and discussion sessions will be supplemented by studio sessions involving historical dance practice, including the role of improvisation. Open to non-majors. Lectures, discussion, studio.

FA/DANC 4345 3.00 Canadian Dance History. Investigates selected periods, people, cultural, social and political events in the development of Canadian dance during the 19th and 20th centuries. Prerequisites: FA/DANC 2340 3.00, and third- or fourth-year standing, or permission of the department.

FA/DANC 4370 1.50 Mentoring Practicum. Designed for fourth-year dance majors to develop practical teaching skills through mentoring and coaching entering students in the Department of Dance. Students create and implement individual programs through observation, analysis and communication. For 2002-2004 only, students entering the dance program before 2001 may opt to take this course for 1.50 credits. Prerequisites: Third-year level technique course. Corequisite: Current enrolment in dance technique.

FA/DANC 4370 3.00 Mentoring Practicum. Designed for fourth-year dance majors to develop practical teaching skills through mentoring and coaching entering students in the Department of Dance. Students create and implement individual programs through observation, analysis and communication. Prerequisites: Third year level technique course. Corequisite: Current enrolment in dance technique.

FA/DANC 4375 3.00 Dance and the Child I. Provides theories, tools and applications for teaching dance to children (ages three-six). Lecture/studio, practicum. Prerequisites: FA/DANC 2206 2.25, FA/DANC 2216 2.25 or permission of the department.

FA/DANC 4376 3.00 Dance and the Child II. Provides theories, tools and applications for teaching dance to children (ages seven-12). Three hours lecture/studio, two hours practicum. Prerequisites: FA/DANC 2206 2.25, FA/DANC 2216 2.25, or permission of the department.

FA/DANC 4380 3.00 Creativity Studies and the Performing Arts. Provides an integrated course examining current theories, methodologies and findings in creativity studies literature, applying them to individual or collaborative research projects on creativity in the performing arts, with a focus on dance. Open to fourth-year fine arts majors by permission of the department.

FA/DANC 4400 3.00 Senior Projects. Students develop one or a series of self-directed interlinked projects, which may consist of research or field studies on a topic of interest (theoretical or creative) leading to a major piece of writing, a performance, an internship or some combination of these activities. Adjudication of the credit weighting of each project will be made by the department, based on the proposal. A supervisory committee may be established for projects involving more than six credits. Prerequisite: Fourth-year standing.

FA/DANC 4400 4.50 Senior Projects. Students develop one or a series of self-directed interlinked projects, which may consist of research or field studies on a topic of interest (theoretical or creative) leading to a major piece of writing, a performance, an internship or some combination of these activities. Adjudication of the credit weighting of each project will be made by the department, based on the proposal. A supervisory committee may be established for projects involving more than six credits. Prerequisite: Fourth-year standing.

FA/DANC 4400 6.00 Senior Projects. Students develop one or a series of self-directed interlinked projects, which may consist of research or field studies on a topic of interest (theoretical or creative) leading to a major piece of writing, a performance, an internship or some combination of these activities. Adjudication of the credit weighting of each project will be made by the department, based on the proposal. A supervisory committee may be established for projects involving more than six credits. Prerequisite: Fourth-year standing.

FA/DANC 4400 9.00 Senior Projects. Students develop one or a series of self-directed interlinked projects, which may consist of research or field studies on a topic of interest (theoretical or creative) leading to a major piece of writing, a performance, an internship or some combination of these activities. Adjudication of the credit weighting of each project will be made by the department, based on the proposal. A supervisory committee may be established for projects involving more than six credits. Prerequisite: Fourth-year standing.

FA/DANC 4400 12.00 Senior Projects. Students develop one or a series of self-directed interlinked projects, which may consist of research or field studies on a topic of interest (theoretical or creative) leading to a major piece of writing, a performance, an internship or some combination of these activities. Adjudication of the credit weighting of each project will be made by the department, based on the proposal. A supervisory committee may be established for projects involving more than six credits. Prerequisite: Fourth-year standing.

FA/DANC 4401 3.00 Independent Studies. Students develop one or a series of interlinked self-directed research projects, which may consist of research on a topic of interest (theoretical or creative) leading to a major piece of writing, thesis or series of essays. Open by application to the department. Adjudication of the appropriate credit weighting will be made by the department, based on the proposal.

FA/DANC 4401 4.50 Independent Studies. Students develop one or a series of interlinked self-directed research projects, which may consist of research on a topic of interest (theoretical or creative) leading to a major

piece of writing, thesis or series of essays. Open by application to the department. Adjudication of the appropriate credit weighting will be made by the department, based on the proposal.

FA/DANC 4401 6.00 Independent Studies. Students develop one or a series of interlinked self-directed research projects, which may consist of research on a topic of interest (theoretical or creative) leading to a major piece of writing, thesis, or series of essays. Adjudication of the appropriate credit weighting will be made by the Department, based on the proposal. Open by application to the department.

FA/DANC 4401 9.00 Independent Studies. Students develop one or a series of interlinked self-directed research projects, which may consist of research on a topic of interest (theoretical or creative) leading to a major piece of writing, thesis, or series of essays. Adjudication of the appropriate credit weighting will be made by the Department, based on the proposal. Open by application to the department.

FA/DANC 4401 12.00 Independent Studies. Students develop one or a series of interlinked self-directed research projects, which may consist of research on a topic of interest (theoretical or creative) leading to a major piece of writing, thesis, or series of essays. Adjudication of the appropriate credit weighting will be made by the Department, based on the proposal. Open by application to the department.

Design – Fine Arts at York, Sheridan Institute of Technology and Advanced Learning

Department of Design, York University:

4008 Technology Enhanced Learning Building, Tel.: 416-736-5885

Chair:

W. Wong

Graduate Program Director:

TBA

Professor Emeritus:

D. Newgren, A. Tomcik

Associate Professors:

W. Janczak, M. Longford, A. Norwood, C-K. Peng, D. Scadding, W. Wong

Assistant Professors:

D. Cibanca, S. Gabriele, J. Hadlaw, P. Sych

Department of Design, Sheridan Institute of Technology and Advanced Learning:

A100 Sheridan-Trafalgar, Tel.: 905-845-9430, ext. 2324

Associate Dean:

M. Large

Design Program Coordinator:

B. Ross

Professors:

B. Donnelly, A. Iarocci, M.A. Maruska, E. Naus, B. Ross, B. Tsang, D. Whitton

Program of Study

The Honours bachelor of design program, which provides a professional education in a humanistic context, is jointly run by the design departments of York University and Sheridan College Institute of Technology and Advanced Learning. Students in the bachelor of design Honours program enrol in courses at both institutions. The bachelor of design program offers a comprehensive, intensive and professional education in communication design and a curriculum that reflects the distinct theoretical, research and practicum focus and needs of the design profession and the standards of the Registered Graphic Designers of Ontario. Students in the program benefit from small studio/practicum classes, design studies classes and an internship program. The design practicum courses focus on three major areas of design: communications, information and interactive/multimedia design; the design courses provide an integrated approach to design history, research, design management and critical issues in design.

For information on supplementary evaluation requirements and program requirements, please refer to the Faculty of Fine Arts section.

Courses in Design

FA/YSDN 1001 3.00 Visual Language. Examines and explores the elements and principles of design comprising our visual language on the two-dimensional level through various exercises and projects. This operational form language is developed via tactile and computer application processes. Required course for design major. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 1002 3.00 Design & Image. Examines the process of creating representational, graphic, and abstract images in the context of visual communication design. Different methods of generating and manipulating images are investigated with consideration given to form and content of images as well as their potential for the communication of ideas. Required course for design major. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 1004 3.00 Design & Colour. Studies colour perception, systems or classification and the nature of light, pigment and colour materials through a series of tactile and computer exercises and projects. The creative use of colour using a variety of materials and processes, and the use of colour in various periods is investigated. Note: For students not in the BDes program, compulsory and voluntary supplemental fees apply.

FA/YSDN 1005 3.00 Typography 1. Introduces the history and development of letters, letterforms and the typography system as practiced in contemporary print and electronic design. The typographic vocabulary, system of measurement, prioritization of information and issues of readability and legibility are introduced. Required course for Design major. Prerequisite: Design major or permission of the Department of Design. Course credit exclusion: FA/YSDN 2002 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 1006 3.00 Interactivity Design 1. Examines and explores the forms of interactivity through designing visual representations of the human computer interface based on the introduction of the developing theories and models of interaction. Required course for design major. Prerequisite: FA/YSDN 1001 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 1010 3.00 Introduction to Design: Practice and Appreciation (for non-majors). Introduces a fully online course designed for non-majors who are interested in design. It provides students a basic understanding of design practice as a profession and an appreciation of design in business and society through both hands-on projects and writing assignments. Note: This course is designed for Non-majors. No transfer credit is provided towards the YSDN Bachelor of Design degree.

FA/YSDN 1101 3.00 Critical Issues in Design. Introduces students to many of the central themes of critical theory as applied to visual culture in general and in particular to graphic design. Prepares students for further in-depth exploration of these themes in upper year design studies courses. Note: Open to non-majors by permission of the Department of Design. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 1110 3.00 Communications in the Urban Environment. Focuses on the urban environment as a resource for developing and reinforcing a critical design vocabulary and awareness of visual and behavioural structural diversity - formal, stylistic and functional effects will be addressed. Note: This course counts as a free elective for BDes majors. Open to non-majors. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2003 3.00 Typography 2. Further investigates the history, principles and application of contemporary typographic systems and issues of readability and legibility in print and electronic communication design. Required course for design major. Prerequisite: FA/YSDN 1005 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2004 3.00 Communication Design 1. This practicum course concentrates on building skills in two-dimensional visual communication design. Various communication and learning theories are integrated into the design process assisting students to develop a multi-disciplined approach to design. Required course for design major. Prerequisites: FA/YSDN 1001 3.00 and FA/YSDN 1002 3.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 2004 3.00 prior to 2001. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2005 3.00 Interactivity Design 2. The introduction of a general system model to provide a theoretical foundation for systematic solving of design problems is developed. Research, analysis, synthesis and evaluation processes with related methods are employed to develop electronic based communications. Required course for Design major. Prerequisite: FA/YSDN 1006 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2006 3.00 Design and Perception. Examines the perception of visual information and communication on three distinct levels: representational, symbolic and abstract. Visual concepts of proximity, similarity and figure/ground relationships are examined. Introduction to basic communication models, perception theories and semiotics provide a theoretical foundation for the studio problems. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2007 3.00 Typography 3. Continues an in-depth investigation into contemporary explorations and applications of typographic principles, information theories, history and various approaches to solving visual communication problems. Letterpress printing and digital processes are investigated. Required course for Design major. Prerequisites: FA/YSDN 2003 3.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 3002 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2008 3.00 Information Design 1. The relevant theories and methodologies which allow the designer to prioritize, simplify and creatively visualize a wide range of complex textual and visual information are examined and applied. Required course for Design major. Prerequisite: Second year standing in the Department of Design or permission of the Department of Design. Course credit exclusion: FA/YSDN 3007 3.00. Note: For students not in the BDes program, compulsory and voluntary fees apply.

FA/YSDN 2010 3.00 3D Design. The elements and principles of three-dimensional design are examined and applied through various exercises and projects. Communication of three-dimensional concepts through two-dimensional representations and three-dimensional prototypes is introduced and developed. Course credit exclusion: FA/YSDN 1003 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2011 3.00 Visualization Methods. Offers an in-depth study of graphic visualization systems, mechanical drawing devices and visual theory. Supervised studio time will strengthen students' observation, rapid sketching and visualizing abilities. Course credit exclusion: FA/YSDN 2001A 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2012 3.00 Drawing for Design. Develops a visual vocabulary for the representation of objects and ideas for communication in design applications. Ideas and concepts will be explored and translated into literal, abstract and symbolic form for use in graphic representations, pictograms, symbols and letterforms in order to help communicate with impact. Prerequisites: Design major or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2013 3.00 Materials and Methods. Engages students in hands-on experimentation with materials and production techniques to understand the design process as a vehicle for inquiry and innovative problem solving within visual communication. Both hand and digital methods will be explored along with strategies for concept generation.

Prerequisite: FA/YSDN 1001 3.00 or permission of the Department of Design. Not open to non-majors. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2102 3.00 History of Design. Examines functional objects, past and present, and their relationship to the process of design, conditions of the time, the problems met, important influences and the importance to our time. The primary focus is from the industrial revolution to today with required reading and much critical looking at our own environment. Required course for design major. Prerequisite: FA/YSDN 1101 3.00 or permission of the Design Department. Course credit exclusion: FA/YSDN 2102 6.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2103 3.00 Research in Design. Offers an examination of the context, theory, and methods of both qualitative and quantitative design research, and their practical application in problem solving to enhance the effectiveness, relevance, and creativity of contemporary visual communication design. Required course for Design major. Prerequisite: Second year standing in the BDes program or permission of the Department of Design. Course credit exclusion: FA/YSDN 2103 3.00 prior to Fall 2008. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2104 3.00 Design Thinking: Creative and Critical Pathways. Examines the similarities and differences between creative and critical thinking. Both types of thinking are required in the design process to provide the student with the theory and operational skills necessary to improve their design process and problem-solving abilities. Course credit exclusion: FA/YSDN 2101A 3.00. Note: This course counts as a free elective for BDes majors. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2105 3.00 History of Media in Graphic Design. Analyses various media practices as related to graphic design in the West since 1750. Explores advertising, illustration, photography, film, scientific representation, fashion, and digital imagery in the context of how they have shaped, and been shaped by, graphic design. Prerequisites: FA/YSDN 2102 3.00/6.00 or permission of the Department of Design. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2106 3.00 Graphic Design in Canada. Examines graphic design in Canada, from books and posters to advertising, magazines, typefaces, and information design. Traces developments from the First Nations to British colonial administration and contemporary digital practices. Locates design in its social context, as a visual culture, and as an aesthetic technology. Prerequisites: FA/YSDN 2102 3.00/6.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2107 3.00 History & Development of Typography. Explores the development of typographic form, from the origins of alphabet to the present. Discussion includes the study of historical and cultural periods, typographic classifications and exploration of contemporary typography. Prerequisite: FA/YSDN 2102 3.00/6.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 3101A 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 2108 3.00 Evolution of Information Design. Examines the origin and development of designed artifacts to provide clarity and enable understanding of complex data, processes, and environments. It considers influencing factors of social, technological and historical developments the representation of information. Prerequisite: FA/YSDN 2102 3.00/6.00 or permission of the Department of Design. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3003 3.00 Typeface Design. Introduces students to a number of methods for designing a typeface, with an emphasis in using vector drawing software. Starting with a number of initial exercises, students will learn about the design decisions that go into shapes, serifs/sans serifs,

spacing, and other often overlooked details. Prerequisite: FA/YSDN 2007 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3004 3.00 Communication Design 2. Continues investigation into two-dimensional, print-oriented design problems. Various communication and learning theories are integrated into the design process assisting students to develop a multi-disciplined approach to design. Prerequisite: FA/YSDN 2004 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3005 3.00 Design and Systems. Continues investigation into complex problem-solving which emphasizes the application of systemic design methods. Individual and team problem-solving techniques are utilized to identify and analyze problems, develop content, specify functions, evaluate solutions and produce prototypes at the system level. Prerequisite: FA/YSDN 2005 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3006 3.00 Design and Information Architecture. Students broaden their knowledge and understanding of the conceptual principles of organizational structures and methodologies involved in the presentation of information in virtual environments. In a series of projects, students explore various types of data and structural organization models of information. Prerequisites: FA/YSDN 2005 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3008 3.00 Information Design 2. Building on the basic principles of visual organization and hierarchy introduced in Information Design 1, students will apply relevant modes of visualization to various types of content (statistics, time, text, imagery) to explain a given topic. Prerequisite: FA/YSDN 2008 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3009 3.00 Time-based Communication. Focuses upon the visual grammar and language syntax of time-based communication and motion graphics and explores concepts and techniques involved in the integration of images, typography, digital video and audio into vibrant and persuasive communication environments. Prerequisites: FA/YSDN 1006 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3010 3.00 Package Design. This specialized practicum course focuses on the principles, vocabulary and contemporary production of package design. An historical overview and current design strategies in the context of the retail environment will be investigated. Prerequisites: FA/YSDN 2010 3.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 4001B 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3011 3.00 Editorial Design. Focuses on the design of print and electronic editorial documents. Students will investigate the relationship between type, illustration, photo and graphic imagery. Prerequisites: Third or fourth year standing in the BDes program or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3012 3.00 Information Design 3. Builds on the visual and organizational principles introduced in earlier Information Design courses through the examination of theories and methodologies related to wayfinding, mapping and signage systems. Prerequisite: FA/YSDN 2008 3.00 (previously FA/YSDN 3007 3.00) or permission of the Department of Design. Course credit exclusion: FA/YSDN 3008 3.00 prior to Fall/Winter 08/09. For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3013 3.00 Time-Based Communication 2. Extends the curriculum of Time Based Communication. It enables students to acquire in-depth knowledge and understanding of the visual grammar and language syntax of time based communications. Through the analysis and

construction of meaningful messages and the development of communication strategies, students develop projects through the application of design process. Pre-requisite: FA/YSDN 3009 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3014 3.00 Environmental Graphic Design. Examines visual communication within the built and natural environment including wayfinding systems, signage, exhibition design, interpretive installations and themed sites. Through projects and field research, students will build knowledge of spatial design, typography, materials, construction, and designing for human interaction. Prerequisites: FA/YSDN 2008 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3015 3.00 Typography for Information Design. Explores the typographic issues specific to three areas of information design: print, screen and environmental applications. Students will examine how legibility and readability of text information that is crucial to understanding can affect communication through maps, diagrams and instructions, large text collections and navigation systems in real and virtual environments. Pre-requisites: FA/YSDN 2003 3.00 and FA/YSDN 2008 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3102 3.00 Contemporary Problems in Design. Offers an identification and examination of the various roles that design and designers play in the solving of visual and cultural problems in today's rapidly changing society. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3104 3.00 Design for Public Awareness: Investigation, Identification and Integration in Design Communication. Focuses upon the contribution of design to public awareness of social issues in this design studies course. Students learn that responsible designers also have social responsibilities, and have the opportunity to be of service to marginalized populations. Students will be introduced to the role(s) of graphic agitation, interventions, major and alternative modes of public address and culture jamming. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3105 3.00 Self, Society and Design. Examines the practices, images and objects of graphic design in relation to issues of personal agency and wider social structure, and so places visual and material culture in the context of concerns which are central to the social sciences of (primarily) anthropology, sociology and social psychology. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3106 3.00 Image and Influence: Graphics in the 20th Century. Explores the relationships between graphic design and art in the 20th century, with particular attention to the associations between pictorial Modernism and the use of image and text in graphic design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3107 3.00 Archetypes in Science, Nature and Design: Utilizing Cosmic Principles in the Design Process. Offers an exploration of nature and science through the designer's eye in order to both consciously compare the universe's creative processes to our own and also to understand how form is a graphic expression of forces of cosmic energy. This course will be a synthesis of these ideas from science and nature made accessible and usable for designers. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 3111 3.00 Design Internship. Lectures introduce students to current design business practices, legal requirements and ethics. Full-time participation is required for three weeks in an approved professional design environment. Required course for design major. Prerequisite: Third-year standing in the BDes Program. Course credit exclusion: FA/YSDN 4103 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4001C 3.00 Design in Interactive Environments. Introduces students to theories and practices of communication design for interactive environments. Interaction scenarios and user experience will be explored through alternative interfaces using sensors, and other inputs to control projected video, graphics, and sound. Prerequisite: FA/YSDN 3009 3.00 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary fees apply.

FA/YSDN 4002 3.00 Type in Motion. Explores the storytelling abilities of motion design for broadcast and cinema using the temporal and sequential aspects of typography, image and sound. Work is created using both analog and digital methods, and is deliberately focused on using experimental techniques and graphic means to make graphic communication. Prerequisite: FA/YSDN 2007 3.0 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5402 3.0.

FA/YSDN 4003 3.00 Interactive System Design. Offers an advanced investigation into systems-intuitive and learned-that support human activities via interactive communication and distribution networks. An understanding of these communication/distribution methods working in reciprocal fashion from users to the computer and back, is presented. Prerequisite: FA/YSDN 3005 3.0 or FA/YSDN 3006 3.0 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5403 3.0.

FA/YSDN 4004 6.00 Design Workshop. Students develop a series of self-directed projects using a multidisciplinary approach in solving two-dimensional, three-dimensional and interactive digital design problems. The student proposal is adjudicated by a department committee. Required course for design major which can only be taken in their graduating year. Prerequisites: All required practicum and studies courses or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4005 3.00 Book Design. Offers an advanced level practicum course that explores the structuring of bound, print-oriented, multiple page documents. The history, anatomy, and structural dynamics of the book are examined and the contemporary private and commercial press/publishing process of the printed book is investigated. Prerequisite: Third or fourth year standing in the BDes program or permission of the Department of Design. Course credit exclusion: FA/YSDN 4001A 3.0. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5405 3.0.

FA/YSDN 4006 3.00 Sustainable Design. Introduces current and emerging practices and theories related to sustainable design with specific focus on the artifacts and systems created within visual communication. The social, cultural, and environmental impacts of design will be examined through projects and readings. Prerequisites: Third or fourth year standing in the BDes program or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4007 3.00 Corporate Identity Design. Focuses on the design of a corporate identity system for an organization. The system will involve the design of graphic identifiers, typography, selected applications and supporting documents. Prerequisite: Third or fourth year standing in the BDes program or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5407 3.0.

FA/YSDN 4008 3.00 Information Design 4. Explores the affordances of both print and digital media for the application of Information Design principles and methodologies introduced and developed in earlier courses. This course will take an intra-disciplinary (print, interactivity, time-based, environmental) approach to researching and developing a comprehensive presentation of a site to be determined by each section. Prerequisite: FA/YSDN 3008 3.0 or FA/YSDN 3012 3.0 or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5408 3.0.

FA/YSDN 4010 3.00 Advanced Package Design. Offers a continued in-depth examination of the conceptualization and creation of effective package structures and graphics in relation to contemporary society and the realities of professional practice. Prerequisite: FA/YSDN 3010 3.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 4001A 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4102 3.00 Design Management. Examines the theories and practice of design management in contemporary organizations. Through case studies and presentations by visiting speakers, students learn to construct practical working models of management systems. Projects require students to demonstrate investigative, analytical, organizational and business-oriented communication skills. Prerequisite: Third or fourth year standing in the BDes program or permission of the Department of Design. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply. Integrated with GS/MDES 5412 3.0.

FA/YSDN 4104 3.00 Professional Aspects of Design. The areas of professional responsibility, accreditation, presentation techniques, portfolio preparation, branding and promotion will culminate in the planning and mounting of a graduation exhibition. Required course for Design major. Corequisite: FA/YSDN 4004 6.00 or permission of the Department of Design. Course credit exclusion: FA/YSDN 3103 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4110 3.00 Building a Discipline. Examines graphic design as a number of themes. It does not use writings on graphic design for study, but rather uses primary sources to enter territories conventionally reserved for literary theory, philosophy, psychoanalysis, cultural studies and linguistics. Course credit exclusion: FA/YSDN 3109 3.00. Note: For students not in the BDes program, compulsory and voluntary supplementary fees apply.

FA/YSDN 4900 3.00 Independent Studies: Design Practicum. Offers an individualized study program for highly motivated students in their final year of study who wish to pursue specific and intensive independent practicum projects under the supervision of a faculty member on topics not available in other courses in the department. No more than one independent study course may be taken in any given year. Prerequisites: Fourth year standing in the BDes program, an overall major average of 7.0 (B+) and permission of the Department of Design. Note: Applications are available in the spring for the following academic session. Applications must include written support of faculty supervisor prior to submission to the department for approval.

FA/YSDN 4900 6.00 Independent Studies: Design Practicum. Offers an individualized study program for highly motivated students in their final year of study who wish to pursue specific and intensive independent practicum projects under the supervision of a faculty member on topics not available in other courses in the department. No more than one independent study course may be taken in any given year. Prerequisites: Fourth year standing in the BDes program, an overall major average of 7.0 (B+) and permission of the Department of Design. Note: Applications are available in the spring for the following academic session. Applications must include written support of faculty supervisor prior to submission to the department for approval.

FA/YSDN 4901 3.00 Independent Studies: Design Studies. Offers an individualized study program for highly motivated students in their final year of study who wish to pursue specific and intensive independent studies projects under the supervision of a faculty member on topics not available in other courses in the department. No more than one independent study course may be taken in any given year. Prerequisites: Fourth year standing in the BDes program, an overall major average of 7.0 (B+), and permission of the Department of Design. Note: Applications are available in the spring for the following academic session. Applications must include written support of faculty supervisor prior to submission to the Department of Design for approval.

FA/YSDN 4901 6.00 Independent Studies: Design Studies. Offers an individualized study program for highly motivated students in their final year of study who wish to pursue specific and intensive independent

studies projects under the supervision of a faculty member on topics not available in other courses in the department. No more than one independent study course may be taken in any given year. Prerequisites: Fourth year standing in the BDes program, an overall major average of 7.0 (B+), and permission of the Department of Design. Note: Applications are available in the spring for the following academic session. Applications must include written support of faculty supervisor prior to submission to the Department of Design for approval. prior to submission to the Department of Design for approval.

Digital Media – Fine Arts, Science and Engineering

Drama Studies/Études d'art dramatique – Glendon

Program Coordinator/Coordonnateur du programme :

G. Bernardi

Professor/Professeur :

C.D. Zimmerman

Courses in Drama Studies/Cours en études d'art dramatique

GL/DRST 2200 6.00 Smoke and Mirrors. An Introduction to Technical Theatre. This course aims to give students an introduction to the various aspects of theatrical production, including scenery, lighting, sound, properties, publicity and production stage management. Students will apply their new skills to support at least one Glendon drama studies production.

GL/DRST 2210 3.00 Performance I/Arts de la scène I. This course acquaints students with key elements of performance through the study of written texts and practical exercises. After introducing major concepts central to all the performing arts, it focuses on fundamentals specific to text-based performance.

Language of Instruction: English/French

GL/DRST 2215 3.00 Performance II/Arts de la scène II. This course builds on Performance I/Arts de la scène I. It pursues at a more advanced level the study of major concepts central to the performing arts, and the practice of performance exercises. It prepares the students to deal with text and acquaints them with various performance styles./Ce cours renforce les acquis du cours Performance I/Arts de la scène I. Il poursuit à un niveau plus avancé l'étude des concepts fondamentaux des arts de la scène et la pratique d'exercices. Il initie les étudiants au travail sur le texte et à différents styles de jeu théâtral. Prerequisite/Condition préalable : GL/DRST 2210 3.00.

Language of Instruction: English/French

GL/DRST 2610 3.00 Western Theatre: Masked Beginnings. The course provides a text-based study of major theatrical achievements from early Greece to the European Renaissance. This study situates the plays within cultural and historical contexts while focusing on practices of theatrical staging. Course credit exclusion: GL/EN/HUMA 2610 6.00.

Cross-listed to: GL/DRST 2610 3.00, GL/EN 2610 3.00, GL/HUMA 2610 3.00

GL/DRST 2612 3.00 Western Theatre: From Early Modern to Naturalism. The course provides a text-based study of major theatrical achievements from the early modern period to the late nineteenth century. This study situates the plays within cultural and historical contexts while focusing on practices of theatrical staging. Course credit exclusion: GL/EN/HUMA 2610 6.00.

Cross-listed to: GL/DRST 2612 3.00, GL/EN 2612 3.00, GL/HUMA 2612 3.00

GL/DRST 2615 6.00 Molière, homme de théâtre. Ce cours aborde l'oeuvre de Molière en soulignant trois dimensions complémentaires de la carrière du grand homme de théâtre : l'écrivain, l'acteur et le chef de troupe. La production au Théâtre Glendon de l'une des pièces étudiées est un élément essentiel de ce cours. Cours incompatible : GL/FRAN 2330 6.00 - "Le moment classique".

Language of Instruction: French

Cross-listed to: GL/DRST 2615 6.00, GL/FRAN 2615 6.00

GL/DRST 2617 6.00 Performing Texts: An Introduction. The course examines the theoretical and practical questions involved in the staging of a play. It focuses specifically on the issues and operations that take place when a text is expressed into non-verbal systems of signs (acting, scenography, costume and lighting designs etc). Prerequisites: GL/DRST 2200 6.00, GL/DRST 2210 3.00 or GL/DRST 2215 3.00 or permission of the Department.

Cross-listed to: GL/DRST 2617 6.00, GL/EN 2617 6.00

GL/DRST 2635 6.00 Modern and Contemporary Drama. This study of modern and contemporary drama in Europe and North America relates the practice of theatrical production to the literary features of plays within their historical and cultural contexts. Course credit exclusion: GL/EN 2530 6.00, GL/EN 2630 6.00.

Cross-listed to: GL/DRST 2635 6.00, GL/EN 2635 6.00

GL/DRST 2645 6.00 Par delà le réalisme : l'art dramatique français au XXe siècle. Étude de la production et de la théorie théâtrale au XXe siècle en France et au Québec. La première partie du cours explore tout particulièrement des réalisations qui illustrent l'anti-réalisme à la fois dans les textes et dans la production théâtrale. La seconde partie du cours est consacrée à la production d'une pièce au Théâtre Glendon étudiée dans la première partie.

Language of Instruction: French

Cross-listed to: GL/DRST 2645 6.00, GL/FRAN 2645 6.00, GL/HUMA 2645 6.00

GL/DRST 3100 3.00 Individual Studies. Students do independent reading and research together with written assignments under the guidance of a member of the college. All individual studies in drama studies at Glendon are subject to specific regulations which the program will supply on request. (Since there is no assurance that a proposed project will be accepted, students are encouraged to enrol in another course until a decision is made concerning the proposal.)

GL/DRST 3600 3.00 La dramaturgie du XVIIe siècle. Ce cours porte sur le théâtre du « Grand Siècle ». Seront étudiées certaines oeuvres de Corneille, Molière et Racine aussi bien que quelques pièces baroques et les théories de Boileau sur le théâtre. Condition préalable : GL/FRAN 2335 6.00 ou permission du département. Cours incompatible: GL/FRAN 3250 3.00.

Language of Instruction: French

Cross-listed to: GL/DRST 3600 3.00, GL/FRAN 3600 3.00

GL/DRST 3602 6.00 Opéra et histoire. "L'opéra est la mise en scène de nos désirs." C'est aussi le lieu où s'affrontent des enjeux divers: politiques, sociaux, idéologiques. A travers l'écoute attentive — enracinée dans l'Histoire — de plusieurs opéras célèbres, on se propose d'étudier la relation existant entre cette forme d'art et nos fantasmes individuels ou collectifs.

Language of Instruction: French

Cross-listed to: GL/DRST 3602 6.00, GL/HUMA 3602 6.00

GL/DRST 3610 3.00 Théâtre québécois. Étude structurale et thématique de certaines oeuvres des auteurs les plus marquants du théâtre québécois. Condition préalable : GL/FRAN 2335 6.00 ou permission du département.

Language of Instruction: French

Cross-listed to: GL/DRST 3610 3.00, GL/FRAN 3610 3.00

GL/DRST 3615 3.00 Contemporary Women Playwrights. This course studies selected plays by contemporary American, British and Canadian women playwrights. Primary methodology is close reading. Attention will also be paid to how theatrical and cultural contexts and material circumstances are embedded in the representations of gender. Course credit exclusions: GL/EN/WMST 3011 6.00 (2000-2001), GL/EN/CDNS 3010 6.00/WMST 3800 6.00 (1998-1999), GL/CDNS/WMST 4012 3.00 (Fall 1995), GL/EN/DRST/CDNS/WMST 3615 6.00.

Cross-listed to: GL/CDNS 3615 3.00, GL/DRST 3615 3.00, GL/EN 3615 3.00, GL/WMST 3615 3.00

GL/DRST 3615 6.00 Contemporary Women Playwrights. This course studies selected plays by contemporary American, British and Canadian women playwrights. Primary methodology is close reading. Attention will also be paid to how theatrical and cultural contexts and material circumstances are embedded in the representations of gender. Course credit exclusions: GL/EN/WMST 3011 6.00 (2000-2001), GL/EN/CDNS 3010 6.00/WMST 3800 6.00 (1998-1999), GL/CDNS/WMST 4012 3.00 (Fall 1995), GL/EN/DRST/CDNS/WMST 3615 3.00.

Cross-listed to: GL/CDNS 3615 6.00, GL/DRST 3615 6.00, GL/EN 3615 6.00, GL/WMST 3615 6.00

GL/DRST 3620 6.00 Reading Shakespeare. A study of a representative selection of Shakespeare's playtexts, with particular attention to how we produce their meanings. Prerequisite: Six credits in literature or drama studies. Course credit exclusion: GL/EN 3420 6.00.

Cross-listed to: GL/DRST 3620 6.00, GL/EN 3620 6.00

GL/DRST 3622 6.00 Postcolonial Drama in English. This course examines contemporary English-speaking postcolonial drama issuing from one or a combination of the following regions: South and West Africa, Southeast Asia, India, Australia, New Zealand, the Caribbean and Canada.

Cross-listed to: GL/DRST 3622 6.00, GL/EN 3622 6.00

GL/DRST 3625 3.00 Early English Drama: The Middle Ages. The early development of English drama from the Biblical cycles of the medieval craft guilds, and the moralities and interludes, through to the humanist drama of the early 16th century. Course credit exclusion: GL/EN 3520 3.00(EN). Prerequisite: GL/EN 2510 6.00 or GL/EN 3210 6.00 or permission of the instructor.

Cross-listed to: GL/DRST 3625 3.00, GL/EN 3625 3.00

GL/DRST 3627 3.00 Canadian Drama on the Margins. This course studies plays by minority artists who dramatize their stories and their issues from the unique perspective of their particular marginalized group.

Cross-listed to: GL/CDNS 3627 3.00, GL/DRST 3627 3.00, GL/EN 3627 3.00, GL/WMST 3627 3.00

GL/DRST 3627 6.00 Canadian Drama on the Margins. This course studies plays by minority artists who dramatize their stories and their issues from the unique perspective of their particular marginalized group.

Cross-listed to: GL/CDNS 3627 6.00, GL/DRST 3627 6.00, GL/EN 3627 6.00, GL/WMST 3627 6.00

GL/DRST 3630 3.00 Early English Drama: Shakespeare's Contemporaries. Major comedies and tragedies from the flowering of the London professional theatre between 1576 and 1642. Prerequisite: GL/EN 2510 6.00 or equivalent, or permission of the instructor. Course credit exclusion: GL/EN 3525 3.00(EN).

Cross-listed to: GL/DRST 3630 3.00, GL/EN 3630 3.00

GL/DRST 3640 6.00 Art dramatique : texte et production. Le but du cours est d'apporter des connaissances générales sur le théâtre et d'amener les participants à explorer leurs possibilités d'expression créatrice. Ils auront de plus l'occasion de se familiariser concrètement avec toutes les disciplines d'une production théâtrale lors d'un spectacle public. Condition préalable : GL/DRST 2200 6.00 ou GL/DRST 2210 3.00, ou GL/DRST 2615 6.00.

Language of Instruction: French

GL/DRST 3650 3.00 Théâtre français du XXe siècle. Étude de la dramaturgie française au 20e siècle, des développements dans le théâtre et de la place du théâtre dans les grands mouvements intellectuels et culturels du siècle. Lecture de pièces choisies d'auteurs tels que Paul Claudel, Jean Anouilh, Albert Camus, Jean-Paul Sartre, Eugène Ionesco, Jean Genêt, Samuel Beckett.

Language of Instruction: French

Cross-listed to: GL/DRST 3650 3.00, GL/Fran 3650 3.00

GL/DRST 3950 6.00 English-Speaking Theatre in Canada. A study of the development and present state of the English-speaking theatre in Canada, focusing on the major companies and the emergence of contemporary Canadian drama.

Cross-listed to: GL/DRST 3950 6.00, GL/EN 3950 6.00, GL/HUMA 3950 6.00

GL/DRST 3955 6.00 Approaches to Theatre. This course will introduce students to theatre by the study of theoretical and practical approaches to production. First-term classes and workshops will culminate in a second-term production.

Cross-listed to: GL/DRST 3955 6.00, GL/EN 3955 6.00, GL/HUMA 3955 6.00

GL/DRST 4100 3.00 Individual Studies. Students do independent reading and research together with written assignments under the guidance of a member of the college. All individual studies in drama studies at Glendon are subject to specific regulations which the program will supply on request. (Since there is no assurance that a proposed project will be accepted, students are encouraged to enrol in another course until a decision is made concerning the proposal.)

GL/DRST 4100 6.00 Travaux individuel. Tout étudiant choisit un programme d'étude individuelle qu'il mènera à bien sous la direction d'un professeur du collège. Attention : tous les « Travaux individuels » offerts dans le cadre d'Études d'arts dramatiques à Glendon sont régis par des règlements précis, que le secrétariat du programme tient à la disposition des étudiants. (Étant donné qu'il n'existe aucune garantie que ce projet soit accepté, on conseille vivement à l'étudiant de s'inscrire dans un autre cours jusqu'à ce qu'une décision soit prise.)

Language of Instruction: French

GL/DRST 4100 6.00 Individual Studies. Students do independent reading and research together with written assignments under the guidance of a member of the college. (Since there is no assurance that a proposed project will be accepted, students are encouraged to enrol in another course until a decision is made concerning the proposal.)

GL/DRST 4612 3.00 Théâtre du XVIIIe siècle. Ce cours se veut une étude de l'évolution du théâtre au XVIIIe siècle : ses enjeux, ses querelles et ses tentatives de refléter des réalités nouvelles, comme la lutte philosophique, la montée de la bourgeoisie et les valeurs contestataires qui vont préparer la Révolution française. Condition préalable : GL/Fran 2335 6.00. Cours incompatible : GL/Fran 4600 3.00.

Language of Instruction: French

Cross-listed to: GL/DRST 4612 3.00, GL/Fran 4612 3.00

GL/DRST 4615 3.00 Théâtre du XIXe siècle. Étude du théâtre du XIXe siècle dans ses principales manifestations : le Romantisme qui conteste le code esthétique du classicisme; le théâtre sentimental et la comédie bourgeoise qui reflète la nouvelle classe dominante; le théâtre naturaliste et la farce, puis le renouveau du genre à la fin du siècle. Condition préalable : GL/Fran 2335 6.00. Cours incompatible : GL/Fran 4600 3.00.

Language of Instruction: French

Cross-listed to: GL/DRST 4615 3.00, GL/Fran 4615 3.00

GL/DRST 4617 3.00 Les genres dans les littératures orales d'Afrique francophone sub-saharienne. Ce cours vise à explorer les caractéristiques théoriques et linguistiques des divers genres dans les littératures orales d'Afrique francophone sub-saharienne. Nous nous intéresserons particulièrement aux panégyriques, aux épopées, aux chants, aux proverbes, aux récits de vie, etc. Condition préalable : GL/Fran 2335 6.00 ou permission du département. Cours incompatible : GL/Fran 4265 3.00 (FR).

Language of Instruction: French

Cross-listed to: GL/DRST 4617 3.00, GL/Fran 4617 3.00

GL/DRST 4618 6.00 Teatro español y latinoamericano: Del drama a la actuación/Spanish and Latin American Theatre: From Drama to Performance. Este curso estudia una selección de obras teatrales de España y Latinoamérica en el contexto de movimientos estéticos y sociopolíticos. Se establecerán conexiones entre lectura/actuación y teoría de drama/teatro y de su práctica. En el segundo semestre se producirá una obra teatral a fin de que los estudiantes apliquen conocimientos adquiridos en el primer semestre./This course is designed to study selected plays from Spain and Latin America in the context of aesthetic movements and sociopolitical events. Connections will be made between reading/performance and drama/theatre theory and its practice. In the second semester students will apply skills learned in the first semester by mounting a theatrical production. Prerequisite: GL/SP 2610 6.00, GL/SP 2300 6.0, 3 credits 3000 or 4000 level in GL/SP. Co-requisite: 3 credits 3000 or 4000 level in GL/SP.

Language of Instruction: Spanish

Cross-listed to: GL/DRST 4618 6.00, GL/SP 4618 6.00

GL/DRST 4621 3.00 Current Intercultural Performance Practices. Intercultural theatre practices have become a major phenomenon on the world stage. This advanced course provides an historical and theoretical framework to understand these intercultural practices and examines how these practices shape performances and productions today.

Cross-listed to: GL/DRST 4621 3.00, GL/EN 4621 3.00, GL/HUMA 4621 3.00

GL/DRST 4621 6.00 Current Intercultural Performance Practices. Intercultural theatre practices have become a major phenomenon on the world stage. This advanced course provides an historical and theoretical framework to understand these intercultural practices and examines how these practices shape performances and productions today.

Cross-listed to: GL/DRST 4621 6.00, GL/EN 4621 6.00, GL/HUMA 4621 6.00

GL/DRST 4635 6.00 Cinema in Spain and Latin America. The course studies major accomplishments in Spanish film, from the cinema of Luis Buñuel to the main trends in contemporary Spain. The course also studies a selection of Latin American cinema, including recent films from Mexico, Argentina and Cuba. Films with English subtitles. Prerequisite: GL/SP 2610 6.00 or GL/SP 2240 6.00 and GL/SP 2300 6.00 or permission from the Department of Hispanic Studies.

Cross-listed to: GL/DRST 4635 6.00, GL/HUMA 4635 6.00, GL/SP 4635 6.00

Earth and Atmospheric Science – Science and Engineering

Location:

102 Petrie Science and Engineering Building, 416-736-5245

Chair:

I.C. McDade

Distinguished Research Professors:

J.C. McDonnell, G.G. Shepherd

Professors:

Q. Cheng, G.T. Jarvis, I.C. McDade, P.A. Taylor

Professors Emeriti:

K.D. Aldridge, J.R. Miller, G.G. Shepherd, D.E. Smylie

Associate Professors:

B. Hu, M.A. Jenkins, G.P. Klaassen, S.D. Pagiatakis, B.M. Quine, A.M.K. Szeto, J.A. Whiteway

Assistant Professors:

C. Armenakis, S. Bisnath, Y. Chen, R.S.K. Lee, B.M. Quine, J. Shan, G. Sohn, Z.H. Zhu

Associate Lecturers:

H. Chesser, J.G. Wang

Lecturer:

Y.L. Lin

The Department of Earth and Space Science and Engineering offers interdisciplinary instruction in applied science areas dealing with the solid Earth and the atmosphere. Several distinct streams of instruction are offered.

In the earth science stream, students obtain a strong background in the physics and chemistry of the solid Earth and the techniques of mineral and petroleum exploration. It is important for the earth science student planning a career in exploration to gain practical experience working in the area during summer periods prior to graduation.

In the atmospheric science stream, students obtain solid grounding in the physics, chemistry and dynamics of the atmosphere.

The department offers a Specialized Honours degree stream in space science, developed to meet the needs of rapidly expanding technologies in these fields.

The course requirements of programs in Earth and Atmospheric Science are given in the Faculty of Science and Engineering Programs of Study section (for the space science stream, see separate entry in the Faculty of Science and Engineering Programs of Study section).

The department also offers certificates in Geographic Information Systems and Remote Sensing and in Meteorology, which are described in the Faculty of Science and Engineering Undergraduate Degree and Certificate Programs section.

Courses in Earth and Atmospheric Science

The prerequisites and corequisites stated indicate the standard of preparation with which admission is usually automatic. Admission to any course should otherwise be determined in consultation with a program adviser.

SC/EATS 1010 3.00 The Dynamic Earth and Space Geodesy. An overview of modern geophysics: origin of the Earth, impact cratering, internal structure and rheology, earthquakes, plate tectonics, geomagnetism. Space geodetic positioning techniques such as VLBI, SLR and GPS are introduced as means of detecting and monitoring tectonic movements. One term. Three credits. Prerequisites: 12U calculus and vectors or 12U advanced functions and introductory calculus (pre 2007 version) or equivalent, or SC/MATH 1515 3.00; 12U physics or SC/PHYS 1510 4.00. Course credit exclusions: SC/EATS 1010 6.00, SC/NATS 1750 6.00. Prior to Fall 2009: Prerequisites: 12U calculus and vectors or 12U advanced functions and introductory calculus (pre 2007 version) or equivalent, or AS/SC/MATH 1515 3.00; 12U physics or SC/PHYS 1510 4.00. Course credit exclusions: SC/EATS 1010 6.00, SC/NATS 1750 6.00.

SC/EATS 1011 3.00 Introduction to Atmospheric Science. The origin, composition and vertical structure of the Earth's atmosphere and those of other planets. The present global atmospheric circulation. Weather systems, measurements and weather maps; atmospheric chemistry; the ozone layer and atmospheric pollution. Three lecture hours per week, five three-hour laboratory sessions. One term. Three credits. Prerequisites: 12U Calculus and vectors or 12U advanced functions and introductory calculus (pre 2007 version) or equivalent; SC/MATH 1515 3.00; 12U physics or SC/PHYS 1510 4.00. Course credit exclusions: SC/EATS 1010 6.00, SC/NATS 1750 6.00. Prior to Fall 2009: Prerequisites: 12U Calculus and vectors or 12U advanced functions and introductory calculus (pre 2007 version) or equivalent; AS/SC/MATH 1515 3.00; 12U physics or SC/PHYS 1510 4.00. Course credit exclusions: SC/EATS 1010 6.00, SC/NATS 1750 6.00.

SC/EATS 1410 6.00 Natural, Technological and Human-induced Disasters. This course examines the science and significance of natural, technological and human-induced disasters, providing an understanding of the physical and other processes that lead to disasters, and their results. Note: This course is not permitted for major credit by students who are EATS program majors.

SC/EATS 2010 3.00 Introductory Meteorology. An introduction to atmospheric radiation and thermodynamics, clouds and precipitation. Vertical soundings and an introduction to the analysis and interpretation of tephigrams. Atmospheric motion on the global, synoptic, meso- and micro-scales. Two lecture hours and three laboratory hours, or three lecture hours per week; one tutorial hour in alternate weeks. One term. Three credits. Prerequisites: SC/CSE 1540 3.00; SC/MATH 1013 3.00 and SC/MATH 1014 3.00, or equivalents; SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 1540 3.00 (formerly COSC); AS/SC/MATH 1013 3.00 and AS/SC/MATH 1014 3.00, or equivalents; SC/PHYS 1010 6.00 or SC/PHYS 1410 6.00.

SC/EATS 2030 3.00 Geophysics and Space Science. Seismic waves, earthquake fault plane solutions, tectonics on a sphere, geochronology, paleomagnetism, Earth's magnetic field, its origin and deformation by solar winds. VLBI measurements of fluctuations of Earth rotation, gravitational perturbations of satellite orbits, planetary exploration and communications issues. Three lecture hours and a one-hour computer laboratory. One term. Three credits. Prerequisites: SC/MATH 1014 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00. Prior to Fall 2009: Prerequisites: AS/SC/MATH 1014 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00.

SC/EATS 2050 4.00 Mineralogy and Petrology. Introduction to the study of geology, minerals, rocks and structural geology. Physical and chemical properties of commonly occurring rock-forming minerals. Origin of commonly occurring igneous rocks. Interpretation of textures and geneses of these rocks. Three lecture hours and a laboratory session. One term. Four credits. Prerequisites: OAC Chemistry or 12U Chemistry or SC/CHEM 1500 4.00, and OAC Physics or 12U Physics or SC/PHYS 1510 4.00; or AP/SC/GEOG 1400 6.00. Prior to Fall 2009: Prerequisites: OAC Chemistry or 12U Chemistry or SC/CHEM 1500 4.00, and OAC Physics or 12U Physics or SC/PHYS 1510 4.00; or AS/SC/GEOG 1400 6.00 or AK/GEOG 2510 6.00.

SC/EATS 2060 3.00 Economic Geology and Ore Genesis. Mining geology. Morphology of the principal types of ore deposits. Fluid inclusions, wall rock alteration, stable isotope and radioactive isotope studies, zoning and timing of mineralization, concepts of ore deposit formation, classification of ore deposits, metallogenic provinces and epochs. Three lecture hours per week. One term. Three credits. Prerequisite: SC/EATS 2050 4.00. Course credit exclusion: SC/EATS 4040 3.00.

SC/EATS 2470 3.00 Introduction to Continuum Mechanics. Introductory tensor algebra and calculus. Stress and strain analysis. Symmetry of stress tensor, equilibrium conditions. Lagrangian and Eulerian descriptions of strain. Physical interpretation of stress, strain and strain rate tensors. Conservation laws in continua. Consistency and compatibility considerations. Constitutive relations. Two lecture hours and a tutorial or problems laboratory session. One term. Three credits. Prerequisites: SC/CSE 1540 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00. Course credit exclusion: SC/EATS 2470 4.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 1540 3.00 (formerly COSC); AS/SC/MATH 1025 3.00; AS/SC/MATH 2015 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00. Course credit exclusion: SC/EATS 2470 4.00.

SC/EATS 2610 2.00 Geomatics and Space Engineering. Introduction to geodesy and geomatics engineering: surveying, geodesy, hydrography, space geodesy and geodynamics, photogrammetry and digital mapping. A survey of communications, remote sensing and geodetic satellites, their engineering characteristics, payloads and use; features of Low Earth Orbiter (LEO) missions. One and one-half lecture hours per week, one and

one-half laboratory hours per week. One term. Two credits. Prerequisites: SC/EATS 1010 3.00; SC/PHYS 1010 6.00; or permission of the course instructor.

Cross-listed to: SC/EATS 2610 2.00, SC/ENG 2110 2.00

SC/EATS 2620 4.00 Fundamentals of Surveying. Coordinate systems, conventions and transformations. First and second geodetic problem: trig sections, traverses, eccentricities, areas. Distance measurements, angular measurements, heights. Topographic mapping and property surveys. Route surveying. Introduction to other surveys: alignment, deformation surveys for buildings, bridges, dams, tunnels, pipelines. Three lecture hours per week and three laboratory hours per week. One term. Four credits. Prerequisites: SC/EATS 1010 3.00; SC/MATH 1014 3.00; SC/MATH 1025 3.00; SC/EATS 2610 2.00 or SC/ENG 2110 2.00; or permission of the course instructor.

Cross-listed to: SC/EATS 2620 4.00, SC/ENG 2120 4.00

SC/EATS 2630 3.00 Field Surveys. A two-week field camp comprising field and office work that simulate professional practice. Students participate in organizational, planning, scheduling and logistical aspects of field operations, instrument familiarization and testing, establishment of geodetic control, and land boundary, highway and construction surveys. Two-week field surveys. No lecture. Three credits. Prerequisite: SC/EATS 2620 4.00 or SC/ENG 2120 4.00.

Cross-listed to: SC/EATS 2630 3.00, SC/ENG 2130 3.00

SC/EATS 3001 1.00 Organization and Management Seminar in Space and Communication Sciences. A seminar course taught by guest speakers from industry, government and the University. Content changes from year to year, but includes such topics as professional ethics, communications regulations, space law, space science policy, project management, privacy and security issues in computing. One lecture hour in alternate weeks. Two terms. Prerequisite: Eligibility to proceed in the Specialized Honours stream in Space and Communication Sciences beyond the 2000-level requirements, or permission of the course director. Course credit exclusions: SC/CSE 3002 1.00, SC/ENG 3000 3.00 Prior to Fall 2009; Prerequisite: Eligibility to proceed in the Specialized Honours stream in Space and Communication Sciences beyond the 2000-level requirements, or permission of the course director. Course credit exclusions: AS/SC/CSE 3002 1.00, AS/SC/COSC 3002 1.00, SC/ENG 3000 3.00

Cross-listed to: SC/CSE 3001 1.00, SC/EATS 3001 1.00, SC/PHYS 3001 1.00

SC/EATS 3010 2.00 Introductory Applied Geophysics. Students are introduced to the theory and operation of the instruments of applied geophysics. As well as the traditional applications to mineral and petroleum exploration, the use of geophysical instruments in engineering and environmental monitoring is described. Two lecture hours. Second term. Two credits. Prerequisites: SC/EATS 2030 3.00; SC/CSE 1540 3.00 or equivalent programming experience. Corequisites: SC/EATS 3020 3.00; SC/EATS 3180 3.00. Prior to Fall 2009; Prerequisites: SC/EATS 2030 3.00; AK/AS/SC/CSE 1540 3.00 (formerly COSC) or equivalent programming experience. Corequisites: SC/EATS 3020 3.00; SC/EATS 3180 3.00.

SC/EATS 3011 1.00 Applied Geophysics Field School. A one-week field school is held on campus (usually in May) and includes instruction in field geology and mapping, orienteering and practical exercises in the in-field use of geophysical instruments. One credit. Prerequisites: SC/EATS 3010 2.00; SC/EATS 3020 3.00; SC/EATS 3180 3.00.

SC/EATS 3020 3.00 Global Geophysics and Geodesy. Studies of isostatic equilibrium and glacial rebound; seismic tomography and spherical harmonic representation of gravity and the geoid; Earth rotation and geodesy; geothermal heat flow and mantle convection. Three lecture hours. One term. Three credits. Prerequisites: SC/EATS 2030 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00; SC/PHYS 2020 3.00. Prior to Fall 2009; Prerequisites: SC/EATS 2030 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; AS/SC/MATH 2015 3.00; AK/AS/SC/MATH 2271 3.00; SC/PHYS 2020 3.00.

SC/EATS 3030 3.00 Atmospheric Radiation and Thermodynamics.

Applications of basic thermodynamic principles to dry and moist atmospheric situations. Solar (short wave) and terrestrial (long wave) radiation with respect to absorption and scattering processes involving atmospheric atoms, molecules, aerosol particles and clouds. Three lecture hours. One term. Three credits. Prerequisites: SC/MATH 2015 3.00; SC/MATH 2271 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00. Prior to Fall 2009; Prerequisites: AS/SC/MATH 2015 3.00; AS/SC/MATH 2271 3.00; SC/PHYS 1010 6.00, or a minimum grade of C in SC/PHYS 1410 6.00 or SC/PHYS 1420 6.00.

Cross-listed to: SC/EATS 3030 3.00, SC/PHYS 3080 3.00

SC/EATS 3040 3.00 Atmospheric Dynamics I. Dynamics of large-scale weather systems. Development of the equations of motion, geostrophy, thermal wind, vorticity and divergence, Ekman layers and the quasi-geostrophic theory. Three lecture hours. One term. Three credits. Prerequisites: SC/EATS 2010 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00. Prior to Fall 2009; Prerequisites: SC/EATS 2010 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; AS/SC/MATH 2015 3.00; AK/AS/SC/MATH 2271 3.00.

SC/EATS 3130 3.00 Introductory Atmospheric Chemistry. An introductory course linking chemistry and atmospheric science. Topics include atmospheric evolution; biogeochemical cycles; sources, transformations and sinks of atmospheric species; human impacts such as acid rain, photochemical smog and depletion of the ozone layer. Three lecture hours. One term. Three credits. Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; one of SC/MATH 1010 3.00, SC/MATH 1014 3.00, SC/MATH 1310 3.00, SC/MATH 1505 6.00. Prior to Fall 2009; Prerequisites: Both SC/CHEM 1000 3.00 and SC/CHEM 1001 3.00; one of AS/SC/MATH 1010 3.00, AS/SC/MATH 1014 3.00, AK/AS/SC/MATH 1310 3.00, AS/SC/MATH 1505 6.00.

Cross-listed to: SC/CHEM 3060 3.00, SC/EATS 3130 3.00

SC/EATS 3140 4.00 Sedimentology and Structural Geology.

Weathering, clastic rocks, diagenesis, mudrocks, carbonates, evaporites, orthographic construction, structural contours, stereographic projection, faults, folds, fabric analysis. Normally offered in alternate years. Three lecture hours, three laboratory hours. One term. Four credits. Prerequisites: SC/EATS 2030 3.00; SC/EATS 2050 4.00.

SC/EATS 3180 3.00 Seismology. Theory and applications of the propagation of seismic waves in the Earth; laboratory and computer exercises where appropriate; practical exercises as required. Two lecture hours and a laboratory session. One term. Three credits. Prerequisites: SC/EATS 2030 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; SC/CSE 1540 3.00 or equivalent FORTRAN programming experience; SC/MATH 2015 3.00; SC/MATH 2271 3.00. Prior to Fall 2009; Prerequisites: SC/EATS 2030 3.00; SC/EATS 2470 3.00 or SC/PHYS 2010 3.00; AK/AS/SC/CSE 1540 3.00 or equivalent FORTRAN programming experience; AS/SC/MATH 2015 3.00; AK/AS/SC/MATH 2271 3.00.

SC/EATS 3280 3.00 Physics of the Space Environment.

An introduction to the physical processes of the upper atmosphere, the ionosphere, the magnetosphere and the heliosphere, and the interactions that occur with space vehicles that traverse these regions of space. Prerequisites: SC/PHYS 2020 3.00, SC/MATH 2015 3.00, SC/MATH 2271 3.00. Prior to Fall 2009; Prerequisites: SC/PHYS 2020 3.00, AS/SC/MATH 2015 3.00, AS/SC/MATH 2271 3.00.

Cross-listed to: SC/EATS 3280 3.00, SC/PHYS 3280 3.00

SC/EATS 3300 3.00 Geographical Information Systems (GIS) and Spatial Analysis.

The fundamental concepts and techniques of GIS are presented along with detailed discussion of computer implementation. The emphases include database management and map analysis/spatial modelling. PC ArcView with Spatial Analyst extension GIS programs are used for hands-on exercises. Normally offered in alternate years. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisites: SC/CSE 1540 3.00 or SC/CSE 1030 3.00 or SC/CSE 1520 3.00; SC/MATH 2560 3.00 or AP/SC/GEOG 2420 3.00 or SC/MATH 1131 3.00; SC/MATH 1025 3.00 or SC/MATH 1013 3.00; both SC/EATS 1010 3.00 and SC/EATS 1011 3.00, or SC/EATS 2030 3.00, or AP/SC/GEOG 1400 6.00, or permission of the instructor. Prior to Fall 2009; Prerequisites:

AK/AS/SC/CSE 1540 3.00 or AK/AS/SC/CSE 1030 3.00 or AK/AS/SC/CSE 1520 3.00 (formerly COSC); AK/AS/SC/MATH 2560 3.00 or AS/SC/GEOG 2420 3.00 or AK/AS/SC/MATH 1131 3.00; AS/SC/MATH 1025 3.00 or AS/SC/MATH 1013 3.00; both SC/EATS 1010 3.00 and SC/EATS 1011 3.00, or SC/EATS 2030 3.00, or AS/SC/GEOG 1400 6.00, or AK/GEOG 2510 6.00, or permission of the instructor.

SC/EATS 3610 4.00 Geodetic Concepts. Geodesy. Reference systems, frames and datums; time systems; the natural system of coordinates; terrestrial, celestial and orbital coordinate systems. Coordinate system transformations. Relative three dimensional positioning; the inertial frame of reference. Positions on the ellipsoid and mapping plane. Height systems. Three lecture hours and three hours of laboratory exercises per week. One term. Four credits. Prerequisites: SC/EATS 2610 2.00 or SC/ENG 2110 2.00; SC/EATS 2620 4.00 or SC/ENG 2120 4.00; SC/MATH 2015 3.00; SC/CSE 2501 1.00. Corequisite: SC/EATS 3620 4.00 or SC/ENG 3120 4.00. Prior to Fall 2009: Prerequisites: SC/EATS 2610 2.00 or SC/ENG 2110 2.00; SC/EATS 2620 4.00 or SC/ENG 2120 4.00; AK/AS/SC/MATH 2015 3.00; AK/AS/SC/CSE 2501 1.00 (formerly COSC). Corequisite: SC/EATS 3620 4.00 or SC/ENG 3120 4.00.

Cross-listed to: SC/EATS 3610 4.00, SC/ENG 3110 4.00

SC/EATS 3620 4.00 Adjustment Calculus. Minima and maxima of functions, Weierstrass theorem, Lagrange multipliers. Quadratic forms. Observables, observations, parameters and mathematical models. The least squares principle; weight matrix and variance factor; parametric, condition and combined adjustments. Three lecture hours and three hours of laboratory exercises per week. One term. Four credits. Prerequisites: SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/EATS 2620 4.00 or SC/ENG 2120 4.00; SC/CSE 2501 1.00. Corequisite: SC/EATS 3610 4.00 or SC/ENG 3110 4.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/MATH 1025 3.00; AK/AS/SC/MATH 2015 3.00; SC/EATS 2620 4.00 or SC/ENG 2120 4.00; AK/AS/SC/CSE 2501 1.00 (formerly COSC). Corequisite: SC/EATS 3610 4.00 or SC/ENG 3110 4.00.

Cross-listed to: SC/EATS 3620 4.00, SC/ENG 3120 4.00

SC/EATS 3630 4.00 Analysis of Overdetermined Systems. Hilbert space and statistics. Statistical testing and assessment of observations, parameters and mathematical models. Optimal design. Generalized adjustment, problems with constraints and singularities, step-by-step procedures, Kalman filtering, least-squares collocation. Three lecture hours and three hours of laboratory exercises per week. One term. Four credits. Prerequisites: AP/SC/GEOG 2420 3.00, SC/EATS 3610 4.00 or SC/ENG 3110 4.00, SC/EATS 3620 4.00 or SC/ENG 3120 4.00. Prior to Fall 2009: Prerequisites: AS/SC/GEOG 2420 3.00, SC/EATS 3610 4.00 or SC/ENG 3110 4.00, SC/EATS 3620 4.00 or SC/ENG 3120 4.00.

Cross-listed to: SC/EATS 3630 4.00, SC/ENG 3130 4.00

SC/EATS 3640 4.00 Geodetic Surveys. Instrument systems and procedures for high-precision geodetic surveys. High-precision surveys in engineering physics; geodetic network densification, adjustment and analysis; procedures for deformation surveys and strain analysis. Establishment and observation of control networks for construction and monitoring of large engineering structures. Three lecture hours and three hours of laboratory exercises hours per week. One term. Four credits. Prerequisites: SC/EATS 2620 4.00 or SC/ENG 2120 4.00, SC/EATS 2630 3.00 or SC/ENG 2130 3.00, SC/EATS 3610 4.00 or SC/ENG 3110 4.00; SC/EATS 3620 4.00 or SC/ENG 3120 4.00 Corequisite: SC/EATS 3630 4.00 or SC/ENG 3130 4.00.

Cross-listed to: SC/EATS 3640 4.00, SC/ENG 3140 4.00

SC/EATS 3650 4.00 Photogrammetry. Image and object space. Direct and inverse problems of projective and similarity coordinate transformations. Collinearity and coplanarity. Orientation procedures. Measurement and correction of image coordinates. Stereomodel formation and error analysis. Analog, analytical, independent model, strip and block adjustments. Image rectification. DEM generation. Digital Mapping Applications. Project planning. Three lecture hours and three hours of laboratory exercises per week. One term. Four credits. Prerequisites: SC/EATS 2620 4.00 or SC/ENG 2120 4.00; SC/EATS 3620 4.00 or SC/ENG 3120 4.00. Corequisite: SC/EATS 3630 4.00 or SC/ENG 3130 4.00.

Cross-listed to: SC/EATS 3650 4.00, SC/ENG 3150 4.00

SC/EATS 3660 3.00 Advanced Field Surveys. A two-week camp comprising field and laboratory work. It involves organizational, planning, scheduling and logistical aspects of high precision field operations related to engineering physics, establishment and observation of control networks for construction and monitoring large engineering structures. Two week field surveys. No lectures. Prerequisites: SC/EATS 3640 4.00 or SC/ENG 3140 4.00.

Cross-listed to: SC/EATS 3660 3.00, SC/ENG 3160 3.00

SC/EATS 4000 3.00 Research Project. A major written report or thesis on field measurements, laboratory research or computer modelling in the Earth or atmospheric sciences. Work is supervised by a faculty member. Open to exceptional students. One term. Three credits. Note: Permission of the department Chair is required.

SC/EATS 4000 6.00 Research Project. A major written report or thesis on field measurements, laboratory research or computer modelling in the Earth or atmospheric sciences. Work is supervised by a faculty member. Open to exceptional students. Two terms. Six credits. Note: Permission of the department Chair is required.

SC/EATS 4001 6.00 Space and Communication Sciences Workshop. This course is intended to allow the student to carry out the development of a specific space project, under the supervision of a faculty member, a government scientist or an industrial associate. The equivalent of nine laboratory hours per week for two terms. Prerequisite: Satisfactory completion of the 3000-level courses in the space and communication sciences core. Course credit exclusions: SC/CSE 4080 3.00, SC/CSE 4081 6.00, SC/CSE 4082 6.00, SC/CSE 4084 6.00, SC/ENG 4000 6.00. Prior to Fall 2009: SC/COSC 4001 6.00, AK/AS/SC/COSC 4080 3.00 or AK/AS/SC/CSE 4080 3.00, AK/AS/SC/CSE 4081 6.00, AK/AS/SC/CSE 4082 6.00, AK/AS/SC/CSE 4084 6.00.

Cross-listed to: SC/CSE 4001 6.00, SC/EATS 4001 6.00, SC/PHYS 4001 6.00

SC/EATS 4010 6.00 Applications of Geophysics and Interpretation Theory. Seismic, gravity and electromagnetic methods in applied geophysics and their interpretation. Mining and petroleum exploration, engineering, hydrological and environmental applications of geophysics are included. The laboratory involves instrumental surveys on campus and reduction and interpretation of previous field school measurements. Normally offered in alternate years. Two lecture hours and a laboratory session. Two terms. Six credits. Prerequisites: SC/EATS 3010 2.00; SC/EATS 3011 1.00; SC/EATS 3020 3.00; SC/EATS 3180 3.00.

SC/EATS 4020 3.00 Time Series and Spectral Analysis. Treatment of discrete sampled data involving correlation, convolution, spectral density estimation, frequency, domain filtering, and Fast Fourier Transforms. Three lecture hours. One term. Three credits. Prerequisites: SC/CSE 1540 3.00 or equivalent programming experience; SC/MATH 2015 3.00; SC/MATH 2271 3.00. Course credit exclusions: SC/CSE 3451 4.00, SC/CSE 3451 3.00, SC/MATH 4130B 3.00, SC/MATH 4930C 3.00. Prior to Fall 2009: Prerequisites: AK/AS/SC/CSE 1540 3.00 or equivalent programming experience; AS/SC/MATH 2015 3.00; AS/SC/MATH 2271 3.00. Course credit exclusions: AK/AS/SC/CSE 3451 4.00, AK/AS/SC/CSE 3451 3.00, AS/SC/MATH 4130B 3.00, AS/SC/MATH 4930C 3.00

Cross-listed to: SC/EATS 4020 3.00, SC/MATH 4830 3.00, SC/PHYS 4060 3.00

SC/EATS 4050 3.00 Synoptic Meteorology I. Analysis of mid-latitude synoptic scale weather systems: an introduction to storm tracks, fronts and air masses, and diagnostic methods. Analysis and interpretation of surface weather maps and upper-air charts. Two lecture hours, three laboratory hours. Fall term. Three credits. Prerequisite or corequisite: SC/EATS 3040 3.00.

SC/EATS 4051 3.00 Synoptic Meteorology II. Synoptic and mesoscale weather systems with emphasis on prediction: focus on forecasting with emphasis on the interpretation of numerical weather prediction models

such as the GEM, MC2 and SEF models. Satellite and radar image interpretation for nowcasting. Two lecture hours, three laboratory hours. Winter term. Three credits. Prerequisite: SC/EATS 4050 3.00.

SC/EATS 4120 3.00 Cloud Physics and Radar Meteorology. Thermodynamics of cloud processes. Buoyancy and convection. Weather radar. Storms and associated precipitation. Cloud droplet formation and growth of ice crystals. Snow, graupel and hail. Microphysical processes and climate. Normally offered in alternate years. Three lecture hours. One term. Three credits. Prerequisite or corequisite: SC/EATS 3030 3.00.

SC/EATS 4130 3.00 Atmospheric Dynamics II. The theory and behaviour of Rossby, baroclinic and internal gravity waves in the atmosphere, including their origin, structure and propagation. Barotropic and baroclinic instability and the global circulation of the atmosphere. Normally offered in alternate years. Three lecture hours. One term. Three credits. Prerequisite: SC/EATS 3040 3.00.

SC/EATS 4140 3.00 Numerical Weather Prediction. The development of computational techniques for the solution of problems in atmospheric dynamics. The construction of numerical models for the prediction of weather. Three lecture hours per week, eight three-hour laboratory sessions. One term. Three credits. Prerequisites: SC/EATS 3040 3.00; SC/CSE 1540 3.00 or equivalent FORTRAN programming experience. Prerequisite or corequisite: SC/EATS 4130 3.00 strongly recommended. Prior to Fall 2009: Prerequisites: SC/EATS 3040 3.00; AK/AS/SC/CSE 1540 3.00 (formerly COSC) or equivalent FORTRAN programming experience. Prerequisite or corequisite: SC/EATS 4130 3.00 strongly recommended.

SC/EATS 4160 3.00 Climate and Climate Change. The Earth's climate and the general circulation of the atmosphere. Climate models. Long-term stability of the Earth's climate. Anthropogenic impact on the climate, carbon dioxide and other climate change issues. Normally offered in alternate years. Three lecture hours. One term. Three credits. Prerequisite: SC/EATS 2010 3.00 or SC/EATS 3040 3.00 or permission of the instructor.

SC/EATS 4220 3.00 Remote Sensing of the Earth's Surface. Principles used in extracting physical information about the Earth's surface using remote sensing. Remote sensing in the visible, short-wave infrared, thermal infrared and microwave regions is discussed in terms of potential applicability to forestry, agriculture, water resources and geology. Two lecture hours, three laboratory hours. One term. Three credits. Prerequisite(s): SC/PHYS 2020 3.00, or SC/PHYS 2060 3.00, or both SC/PHYS 2211 1.00 and SC/PHYS 2212 1.00.

SC/EATS 4230 3.00 Remote Sensing of the Atmosphere. An introduction to and summary of the area of remote sensing of the atmosphere from space platforms and from the ground. Topics include atmospheric radiation, atmospheric spectroscopy, inversion theory, instrumentation, satellites, space platforms and future technology. Three lecture hours per week, occasional laboratory sessions. One term. Three credits. Prerequisites: SC/EATS 2010 3.00 or SC/PHYS 2060 3.00; SC/MATH 1025 3.00; SC/MATH 2015 3.00; SC/MATH 2271 3.00. Prerequisite or corequisite: SC/EATS 3030 3.00 or permission of the course director. Prior to Fall 2009: Prerequisites: SC/EATS 2010 3.00 or SC/PHYS 2060 3.00; AS/SC/MATH 1025 3.00; AS/SC/MATH 2015 3.00; AK/AS/SC/MATH 2271 3.00. Prerequisite or corequisite: SC/EATS 3030 3.00 or permission of the course director.

SC/EATS 4240 3.00 Storms and Weather Systems. The study of mesoscale circulations and precipitating storm systems. Basic governing equations and instabilities. Nature and evolution of isolated convection, thunderstorms, mesoscale convective systems, precipitation bands, extratropical cyclones, fronts and frontogenesis, hurricanes, blizzards, polar lows and orographic storms. Normally offered in alternate years. Three lecture hours. One term. Three credits. Prerequisites or corequisites: SC/EATS 3040 3.00; SC/EATS 4120 3.00.

SC/EATS 4250 3.00 Space Geodynamics. The dynamical behaviour of the Earth from space measurements. Included are the external gravity field of the Earth, orbital dynamics of artificial satellites, satellite geoid, internal figure of the Earth, rotation of the Earth and its measurement by space

techniques. Normally offered in alternate years. Three lecture hours. One term. Three credits. Prerequisites or corequisites: SC/EATS 3020 3.00; SC/MATH 3241 3.00 or SC/CSE 3121 3.00; SC/MATH 3271 3.00. Prior to Fall 2009: Prerequisites or corequisites: SC/EATS 3020 3.00; AS/SC/MATH 3241 3.00 or AS/SC/CSE 3121 3.00 (formerly COSC); AS/SC/MATH 3271 3.00.

Cross-listed to: SC/EATS 4250 3.00, SC/PHYS 4410 3.00

SC/EATS 4400 3.00 Geographical Information Systems (GIS) and Data Integration. Project-oriented geomatics course using GIS systems (Arc/Info and S-Plus or SPSS for UNIX) and various techniques (map algebra, statistical, fuzzy logic, AI, neural network and fractal/multifractal) for integrating diverse dataset (geological, geophysical, geochemical, remote sensing and GPS). Normally offered in alternate years. Two lecture hours, two laboratory hours. One term. Three credits. Prerequisite: One of SC/EATS 3300 3.00, AP/SC/GEOG 3180 3.00, APSC/GEOG 4340 3.00, ES/ENVS 3520 3.00, ES/ENVS 4520 3.00, or permission of the instructor. Prior to Fall 2009: Prerequisite: One of SC/EATS 3300 3.00, AS/SC/GEOG 3180 3.00, AS/SC/GEOG 4340 3.00, ES/ENVS 3520 3.00, ES/ENVS 4520 3.00, or permission of the instructor

SC/EATS 4610 3.00 Global Positioning Systems. Positioning by space vehicles. Coordinate systems and transformations. GPS, GLONASS, GALILEO, Satellite Laser Ranging, Very Long Baseline Interferometry. Positioning of moving vehicles and platforms: marine, land, airborne and space vehicles. GPS/INS integration. Real time kinematic applications. Three lecture hours weekly and three hours of laboratory exercises every other week. One term. Three credits. Prerequisites: SC/EATS 3020 3.00; SC/EATS 3610 4.00 or SC/ENG 3110 4.00; SC/EATS 3620 4.00 or SC/ENG 3120 4.00; or permission of the course director.

Cross-listed to: SC/EATS 4610 3.00, SC/ENG 4110 3.00

SC/EATS 4620 3.00 Physical and Space Geodesy. Local treatment of the Earth's gravity field. Boundary value problems. Normal and disturbing potential, the normal gravity formula. Geoid, geoidal undulations, deflections of the vertical. Stokes and Vening Meinesz formulae. Gravimetry and gravity reductions. Height systems. Tides. Gravity space missions. Three lecture hours weekly and three hours of laboratory exercises every other week. One term. Three credits. Prerequisites: SC/EATS 3020 3.00; SC/EATS 3610 4.00 or SC/ENG 3110 4.00; SC/EATS 3620 4.00 or SC/ENG 3120 4.00; SC/EATS 4610 3.00 or SC/ENG 4110 3.00.

Cross-listed to: SC/EATS 4620 3.00, SC/ENG 4120 3.00

SC/EATS 4630 3.00 Image Processing for Remote Sensing and Photogrammetry. Digital imaging from remote platforms. Image processing and analysis, including radiometric and geometric corrections and geometric enhancements, multispectral classification, digital photogrammetry fundamentals, workstations, photogrammetric processing. Two lecture hours and three hours of laboratory exercises per week. One term. Three credits. Prerequisites: SC/EATS 3650 4.00 or SC/ENG 3150 4.00; SC/EATS 4220 3.00.

Cross-listed to: SC/EATS 4630 3.00, SC/ENG 4130 3.00

SC/EATS 4640 3.00 Digital Terrain Modeling. Digital Terrain Modeling concepts. Mathematical techniques in data acquisition, processing, storage, manipulation and applications. DTM. Surface representation using moving averages, linear projection and Kriging techniques. Grid resampling methods and search algorithms. DTM derivatives and applications. LIDAR systems and applications. Two lecture hours and three hours of laboratory exercises per week. One term. Three credits. Prerequisites: SC/EATS 2620 4.00 or SC/ENG 2110 2.00; SC/EATS 3620 4.00 or SC/ENG 3110 4.00.

Cross-listed to: SC/EATS 4640 3.00, SC/ENG 4140 3.00

SC/EATS 4650 3.00 Hydrography. Hydrography and its role in offshore management. Elements of oceanography, tides and water levels, seabed and sea water properties. Underwater acoustics. Bathymetric and imaging methods. Marine positioning and navigation. Three lecture hours and three hours of laboratory exercises per week. One term. Three credits. Prerequisite: SC/EATS 4610 3.00 or SC/ENG 4110 3.00.

Cross-listed to: SC/EATS 4650 3.00, SC/ENG 4150 3.00

SC/EATS 4660 3.00 Cadastral Surveys and Land Registration Systems. Cadastral systems, survey law and the role of the professional land surveyor. The Dominion Lands Survey System and Land Surveys Acts and Regulations. Cadastral surveys, including surveys of Canada lands for aboriginal land claims and coastal boundaries. Land registration systems in Canada. Three lecture hours and three hours of laboratory exercises per week. One term. Three credits. Prerequisite: SC/EATS 2620 4.00 or SC/ENG 2120 4.00.

Cross-listed to: SC/EATS 4660 3.00, SC/ENG 4160 3.00

SC/EATS 4670 3.00 Survey Law. Property boundaries, survey monuments, party walls, fences, future issues. Natural boundaries formed by waters and the right of access. Property title issues, legislation, and standards of practice. Prerequisites: SC/EATS 4660 3.00 or SC/ENG 4160 3.00.

Cross-listed to: SC/EATS 4670 3.00, SC/ENG 4170 3.00

East Asian Studies – Liberal Arts and Professional Studies

Location:

209 Vanier College, Tel.: 416-736-2100, ext. 33214, E-mail: easp@yorku.ca

Program Coordinator:

G. Shen, Humanities

Affiliated Faculty:

B.N. Cham, Political Science (Glendon); M. Gewurtz, History/Humanities; P. Giordan, Languages, Literatures and Linguistics; T. Goossen, Humanities; S. Henders, Political Science; T. Hyun, Humanities; P. Kelly, Geography; J. Kim, History; B. Luk, History; D.P. Lumsden, Anthropology; J.A. Nagata, Anthropology; N. Ota, Languages, Literatures and Linguistics; S. Otto, Music (Fine Arts); A. Schrauwers, Anthropology; J. Van Esterik, Social Science; P. Van Esterik, Anthropology; B.T. Wakabayashi, History; X. Xueqing, Languages, Literatures and Linguistics

The East Asian Studies program offers a broadly based approach to the study of the peoples and civilizations of East Asia. It is a rich and flexible program of study that brings together courses from the academic disciplines of the humanities, social sciences, languages and literature and fine arts. The East Asian Studies program offers a number of undergraduate degree program choices: within the general guidelines and requirements of each, a student can choose from a rich array of course offerings every year to create a combination which best serves her/his academic interests and career aspirations. Students should consult the coordinator when designing their programs of study.

For specific program requirements and the list of program courses, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Economics/Science économique – Glendon, Liberal Arts and Professional Studies

Glendon

Location/Bureau :

327 York Hall, Tel.: 416-487-6712

Interim Chair/Directeur par interim :

TBA

University Professor and Professor Emeritus/Professeur de l'Université et Professeur émérite :

D. McQueen

Associate Professors/Professeurs agrégés :

X. de Vanssay, R. Gomez, O.F. Hamouda, V. Hildebrand, M. Lavoie

Associate Professors Emeriti/Professeurs agrégés émérites :

J.R. Savary, N.S. Tryphonopoulos

Assistant Professor/Professeurs adjoint :

C. Erutku

Assistant Professor Emeritus/Professeur adjoint émérite :

J.I. McDonald

Sessional Lecturer/Chargé de cours contractuel :

J.E.M. Robert Despatie

Note: GL/ECON 2500 3.00 and GL/ECON 2510 3.00 are prerequisites for all economics courses except the following: GL/ECON 1500 3.00, GL/ECON 2680 6.00, GL/ECON 3670 3.00.

N.B. : Les cours GL/ECON 2500 3.00 et GL/ECON 2510 3.00 sont des prérequis pour tous les cours de Science économique à l'exception des cours suivants : GL/ECON 1500 3.00, GL/ECON 2680 6.00, GL/ECON 3670 3.00, GL/ECON 2710 3.00 et GL/ECON 2720 3.00.

Note/N.B. : The following courses are open to first-year students/Les cours suivants sont ouverts aux étudiants de première année : GL/ECON 1500 3.00, GL/ECON 2500 3.00, GL/ECON 2510 3.00, GL/ECON 2680 6.00.

Chair:

J. Beare

Undergraduate Program Director:

I. Ferrara

Graduate Program Director:

W. Ho

Professors:

M. Anam, E. Appelbaum, S. Bucovetsky, S.H. Chiang, A.J. Cohen, G. Fallis, J. Landa, A. Mansoorian, P. Rilstone, B. Spotton Visano, J.B. Smith, J. Smithin

Associate Professors:

L. Anderson, J. Beare, G. Fearon, R. Grinspun, W.M. Ho, J. Jasiak, Y. Kong, N. Jazairi, N. Lagerloef, S.L. Lanfranco, R. Latham, F. Lazar, B. Lebrun, K.C. Lo

Assistant Professors:

B.D. Abner, A. Adamopoulos, A. Akyol, M. Brzozowski, N. Buckley, B. Esteve-Volart, I. Ferrara, G. Georgopoulos, M. Jametti, A. Kimakova, X. Li, A. Lileeva, S. Maitra, J. Miquel-Florensa, A. Podhorsky, A. Semenov, X. Song, R. Sufana, H. Tam, A. Wilczynski

Lecturer:

A. Podhorsky

Professors Emeriti:

K. Carpenter, M.D.G. Copeland, C. Plourde

Professors Emeriti:

H. Drost, G.E. Eaton, M.S. Marzouk, A.N. McLeod, P.G. Reinhardt

Sessional Assistant Professor:

S. Wald

Undergraduate training in economics is intended to familiarize students with the discipline of economic thinking, and so equip them for intelligent appraisal of contemporary economic problems. It is also intended to make students aware of the nature of economic science and of directions in which economic theory is currently moving. The discipline of economic thinking has three related parts: identifying specifically economic problems; developing and applying economic theory to improve our understanding and ability to solve the problems; evaluating the adequacy of our theoretical understanding through the use of data and empirical testing.

Specifically, economic problems arise out of the conflict between apparently limitless human demand for goods and services and a limited supply of resources for satisfying those demands. Courses in economics expose students both to the wide range of individual and social problems that arise from this conflict and to the distinctive economic approach to their solution. Economic theory provides students with the analytical framework necessary for understanding and solving economic problems. Empirical work provides a basis for improving existing theories and for distinguishing between competing theories.

An undergraduate degree in economics prepares students for careers in business and government, for graduate training in economics and for professional training in business, law, public administration and other disciplines.

For specific program requirements, please consult the Faculty of Liberal Arts and Professional Studies Programs of Study section.

Courses in Economics/Cours en science économique

AP/ECON 1000 3.00 Introduction to Microeconomics. Introduces the principles and methods of economics with emphasis on microeconomic theory. Topics include general and basic concepts of demand and supply, utility analysis and demand, production and costs, pricing in competitive and monopolistic markets, and government regulation. Note: Successful completion of this course, together with AP/ECON 1010 3.00, is required for all students who intend to pursue additional courses in economics at the 2000, 3000, and 4000 level and in order to pursue degree studies in economics, business economics, and financial and business economics. Course credit exclusions: GL/ECON 2500 3.00, SB/INTL 1200 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 1000 3.00, AK/ECON 2410 3.00 (prior to Summer 1995), GL/ECON 2500 3.00, SB/INTL 1200 3.00.

AP/ECON 1010 3.00 Introduction to Macroeconomics. Introduces the principles and methods of economics with emphasis on macroeconomic theory. Topics include basic models of national income and employment determination, fiscal policy, banking and monetary policy, the theory of international trade and finance, and contemporary macro-economic issues such as unemployment, inflation, and government budget policy. Note: Successful completion of this course, together with AP/ECON 1000 3.00, is required for all students who intend to pursue additional courses in economics at the 2000, 3000, and 4000 level and in order to pursue degree studies in economics, business economics, and financial and business economics. Course credit exclusions: GL/ECON 2510 3.00, SB/INTL 1210 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 1010 3.00, GL/ECON 2510 3.00, SB/INTL 1210 3.00.

AP/ECON 1530 3.00 Introductory Mathematics for Economists I. Introduces and develops topics in differential calculus and integral calculus with applications to marginal analysis and profit maximization. Prerequisite: Grade 12U Advanced Functions or equivalent. Prerequisites/Co-requisites: AP/ECON 1000 3.00 or AP/ECON 1010 3.00, or equivalent. Recommended completion: high-school calculus or equivalent. Course credit exclusions: SC/MATH 1000 3.00, SC/MATH 1013 3.00, SC/MATH 1300 3.00, SC/MATH 1505 6.00, SC/MATH 1513 6.00, SC/MATH 1550 6.00, GL/MATH/MODR 1930 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 1530 3.00, AS/SC/MATH 1000 3.00, AS/SC/MATH 1013 3.00, AK/AS/SC/MATH 1300 3.00, AS/SC/MATH 1505 6.00, AS/SC/MATH 1513 6.00, AS/MATH 1530 3.00, AK/AS/MATH 1550 3.00, GL/MATH/MODR 1930 3.00.

Cross-listed to: AP/ECON 1530 3.00, SC/MATH 1530 3.00

AP/ECON 1540 3.00 Introductory Mathematics for Economists II. Introduces and develops topics in comparative statics of general function models and matrix algebra with applications to input-output models, unconstrained and constrained optimization with applications to microeconomic and macroeconomic models, and elements of linear programming with applications to decision-making in economics. Prerequisite: AP/ECON 1530 3.00 or equivalent. Prerequisites/Co-requisites: AP/ECON 1000 3.00 or AP/ECON 1010 3.00, or equivalent. Note: No credit will be retained for this course for students who have successfully completed or who are currently enrolled in SC/MATH 1021 3.00, SC/MATH 1025 3.00, or SC/MATH 2221 3.00. Course credit exclusions: SC/MATH 1505 6.00, SC/MATH 1550 6.00, GL/MATH/MODR 2650 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 1540 3.00, AS/SC/MATH 1505 6.00, AS/MATH 1540 3.00, AK/AS/MATH 1550 6.00, GL/MATH/MODR 2650 3.00.

Cross-listed to: AP/ECON 1540 3.00, SC/MATH 1540 3.00

AP/ECON 1900 3.00 Introduction to Economics for Non-Majors.

Introduces both microeconomic and macroeconomic concepts with applications to public policy issues. Provides concise economic fundamentals without the mathematical details of AP/ECON 1000 3.00 and AP/ECON 1010 3.00. Course credit exclusions: None. Note: No credit will be retained for this course for students who have successfully completed or who are currently enrolled in AP/ECON 1000 3.00, AP/ECON 1010 3.00, GL/ECON 2500 3.00, GL/ECON 2510 3.00, SB/INTL 1200 3.00, and SB/INTL 1210 3.00. Note: AP/ECON 1900 3.00 will not count for economics major or minor credit, business economics major, financial and business economics major, or for business and society major credit. PRIOR TO FALL 2009: Course credit exclusion: AS/ECON 1900 3.00.

GL/ECON 2010 6.00 Introduction to Evolutionary Economics.

This course is intended to serve as a one-year undergraduate-level introduction to the new and expanding field of evolutionary economics. It presents the basics of the way modern evolutionary thinking is being integrated into micro- and macro-economics, in contrast to the approach of neo-classical economics.

AP/ECON 2300 3.00 Intermediate Microeconomic Theory I.

Studies how individuals, households, and firms make decisions given the incentives and constraints of their economic environment. Topics include consumer decision-making, production and costs, competitive equilibrium, and the role of prices in a market economy. Prerequisites: AP/ECON 1000 3.00, AP/ECON 1010 3.00, and AP/ECON 1530 3.00, or equivalents. Prerequisites/Co-requisites: AP/ECON 1540 3.00. Course credit exclusion: GL/ECON 3230 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 2300 3.00, GL/ECON 3230 6.00.

GL/ECON 2300 6.00 Économie de gestion.

Ce cours présente la théorie de l'organisation des firmes d'un point de vue économique. On s'attardera sur les modes de fonctionnement de l'entreprise et sur les divers aspects qui définissent le processus de gestion. Condition préalable : GL/ECON 2500 3.00 et GL/ECON 2510 3.00 ou la permission du département. Cours incompatible : AP/ECON 3411 3.00.

Language of Instruction: French

GL/ECON 2300 6.00 Management Economics.

This course presents the theory of the management of the firm from an economics perspective. We examine the different aspects that define the management process and the functioning of the firm. Prerequisite: GL/ECON 2500 3.00, GL/ECON 2510 3.00 or the permission of the department. Course credit exclusion: AP/ECON 3411 3.00.

AP/ECON 2350 3.00 Intermediate Microeconomic Theory II.

Applies the analytical tools from AP/ECON 2300 3.00 to analyze resource allocation in imperfectly competitive markets and factor pricing in alternative market structures. Considers basic concepts of general equilibrium and welfare economics. Prerequisite: AP/ECON 2300 3.00 or equivalent. Course credit exclusion: GL/ECON 3230 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 2350 3.00, GL/ECON 3230 6.00.

AP/ECON 2400 3.00 Intermediate Macroeconomic Theory I.

Equips students with the basic tools for analyzing short-run and long-run macroeconomic phenomena in a closed economy. Topics include aggregate demand and supply, consumption and investment behaviour, demand for money, government stabilization policy, and fiscal issues. Prerequisites: AP/ECON 1000 3.00, AP/ECON 1010 3.00, and AP/ECON 1530 3.00, or equivalents. Prerequisites/Co-requisites: AP/ECON 1540 3.00. Course credit exclusions: GL/ECON 3240 6.00, SB/ECON 2000 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 2400 3.00, AK/ECON 2400 6.00 (prior to Summer 1983), AK/ECON 3300 3.00 (prior to Summer 1995), GL/ECON 3240 6.00.

AP/ECON 2450 3.00 Intermediate Macroeconomic Theory II.

Applies the analytical tools from AP/ECON 2400 3.00 to analyze the problems of inflation, unemployment, and government deficits, focusing on the role of expectations. Introduces open economy issues under fixed and flexible exchange rates. Prerequisite: AP/ECON 2400 3.00 or equivalent. Course

credit exclusions: GL/ECON 3240 6.00, SB/ECON 2000 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/AS/ECON 2450 3.00, AK/ECON 2400 6.00 (prior to Summer 1983), AK/ECON 3310 3.00 (prior to Summer 1995), GL/ECON 3240 6.00.

AP/ECON 2500 3.00 Introductory Statistics for Economists I. Provides an introduction to statistical techniques. Topics covered include descriptive statistics and frequency distributions, measures of location and dispersion, random variables, sampling distributions, probability theory and mathematical expectations, the normal distribution, correlation, and the design and interpretation of hypothesis tests. Prerequisites: Grade 12U Advanced Functions or equivalent. Course credit exclusions: AP/ADMS 2320 3.00, AP/POLS 3300 6.00, AP/SOCI 3030 6.00, ES/ENVS 2009 6.00, GL/MATH/MODR 1610 3.00, GL/POLS/SOCI 2610 3.00, GL/PSYC 2530 3.00, HH/KINE 2050 3.00, HH/PSYC 2020 6.00, HH/PSYC 2021 3.00, SC/BIOL 2060 3.00, SC/GEOG 2420 3.00, SC/MATH 1131 3.00, SC/MATH 2500 3.00, SC/MATH 2560 3.00, SC/MATH 2565 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/ADMS 2320 3.00, SC/BIOL 2060 3.00, AK/ECON 3470 3.00, AS/ECON 2500 3.00, ES/ENVS 2010 6.00, AS/SC/GEOG 2420 3.00, AS/KINE 2050 3.00 (Prior to Fall/Winter 2007-08), HH/KINE 2050 3.00, AK/AS/SC/MATH 2560 3.00, AK/AS/SC/MATH 2565 3.00, AS/POLS 3300 6.00, AK/AS/SC/PSYC 2020 6.00 (Prior to Fall/Winter 2007-08), HH/PSYC 2020 6.00, AK/AS/SC/PSYC 2021 3.00 (Prior to Fall/Winter 2007-08), HH/PSYC 2021 3.00, AS/SOCI 3030 6.00.

GL/ECON 2500 3.00 Introduction to Economics: Microeconomics. An introduction to economic analysis covering the theory of consumer and household behaviour, and the theory of the firm in perfectly and imperfectly competitive industries. Course credit exclusions: AP/ECON 1000 3.00, AP/ECON 1000 3.00.

GL/ECON 2500 3.00 Éléments d'économie : l'analyse micro. Une introduction à l'analyse économique comprenant la théorie du comportement des consommateurs et des ménages, et la théorie de l'entreprise en concurrence parfaite et imparfaite. Cours incompatibles : AP/ECON 1000 3.00, AP/ECON 1000 3.00.

Language of Instruction: French

GL/ECON 2510 3.00 Introduction to Economics: Macroeconomics. An introduction to economic analysis covering national income determination and employment theory, money and banking, monetary and fiscal policy, economic growth. Course credit exclusions: AP/ECON 1010 3.00, AP/ECON 1010 3.00.

GL/ECON 2510 3.00 Éléments d'économie : l'analyse macro. Une introduction à l'analyse économique comprenant la détermination du revenu national et de l'emploi, la monnaie et le système bancaire, la politique fiscale et monétaire, les échanges internationaux et la balance des paiements, et la croissance économique. Cours incompatibles : AP/ECON 1010 3.00, AP/ECON 1010 3.00.

Language of Instruction: French

GL/ECON 2680 6.00 Modern Economic History: A Canadian Perspective. The economic history of Canada seen as an aspect of North American and, more generally, North Atlantic development, from the earliest staple trade to the present day.

Cross-listed to: GL/ECON 2680 6.00, GL/HIST 2680 6.00, GL/SOSC 1680 6.00

GL/ECON 2710 3.00 Comptabilité financière. L'objectif de ce cours est d'initier les étudiants à la comptabilité financière par une étude des procédures courantes de la comptabilité. Condition concomitante : GL/ECON 2500 3.00. Cours incompatibles : AP/ADMS 2500 3.00, AP/ECON 3580 3.00, GL/ECON 2010 3.00(FR) (Automne 1993).

Language of Instruction: French

GL/ECON 2710 3.00 Financial Accounting. The intent of this course is to furnish the students with an understanding of financial accounting principles and concepts through an examination of current accounting

procedures. Corequisite: GL/ECON 2500 3.00. Course credit exclusions: AP/ADMS 2500 3.00, AP/ECON 3580 3.00, GL/ECON 2010 3.00(FR) (Fall 1993).

GL/ECON 2720 3.00 Comptabilité de gestion. Une documentation comptable et une bonne compréhension du fonctionnement de la comptabilité sont nécessaires aux personnes chargées de la planification et du contrôle des activités de gestion. Le cours cherche à repérer les problèmes de la comptabilité de gestion et à examiner les techniques de comptabilité disponibles pour les étudier. Condition préalable : GL/ECON 2500 3.00 et GL/ECON 2710 3.00. Condition concomitante : GL/ECON 2510 3.00. Cours incompatibles : AK/ADMS 2510 3.00, AS/ECON 3590 3.00.

Language of Instruction: French

GL/ECON 2720 3.00 Managerial Accounting. Accounting information and understanding is necessary for those engaged in the planning and controlling of business activities. This course seeks to identify the accounting problems of management and to examine the accounting techniques available for consideration of those problems. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2710 3.00. Corequisite: GL/ECON 2510 3.00. Course credit exclusions: AP/ADMS 2510 3.00, AP/ECON 3590 3.00.

GL/ECON 3010 6.00 Structural Change and Innovation Economics. This course will look at trends in industry, trades and services in relation to structural change and innovation in the economy and the evolution of markets. Globalisation of enterprises, new growth centres and problem regions, and sustainable development are all featured. Prerequisites: GL/ECON 2500 3.00, GL/ECON 2510 3.00.

AP/ECON 3120 3.00 Operations Management. Management of operations in today's business environment usually involves mathematical and statistical modeling. This course provides a working understanding of the operations management models and techniques such as process analysis, quality management, aggregate planning, inventory control, and material requirements planning. Prerequisite: AP/ADMS 2320 3.00. PRIOR TO FALL 2009: Prerequisite: AK/ADMS 2320 3.00, AK/ADMS 3320 3.00 (prior to Summer 2005). Course credit exclusions: AK/ADMS 3351 3.00.

Cross-listed to: AP/ADMS 3351 3.00, AP/ECON 3120 3.00

AP/ECON 3130 3.00 Sampling Techniques and Survey Design. This course deals with different sampling techniques and their applications to management problems. Survey design, pilot surveys, use of focus groups, in-person interviews, mail surveys and polling, will also be dealt with. Prerequisite: AP/ECON 2500 3.00 or AP/ADMS 2320 3.00, or, for students with equivalent preparation, permission of the coordinator. Note: This course counts as an elective in an economics major. Course credit exclusions: None. PRIOR TO FALL 2009: Prerequisite: AK/ECON 3470 3.00 or AK/ADMS 2320 3.00 or AK/ADMS 3320 3.00 (prior to Summer 2005), or, for students with equivalent preparation, permission of the coordinator. Course credit exclusion: AK/ADMS 3352 3.00.

Cross-listed to: AP/ADMS 3352 3.00, AP/ECON 3130 3.00

AP/ECON 3150 3.00 International Trade. Studies the microeconomic aspects of international trade, tracing its historical development from the theory of comparative costs to the theory of customs unions and tariffs. Topics include trade patterns, trade barriers and free trade versus protectionism, economic growth and development in the international economy, and international institutions. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusion: GL/ECON 4290 6.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3570 3.00, AS/ECON 3150 3.00, GL/ECON 4290 6.00.

AP/ECON 3190 3.00 Approaches to Global Economics. Explores approaches to the global economy, emphasizing structural and policy-related aspects. Course credit exclusions: AP/ECON 3199 3.00, AP/POLS 3270 3.00, AP/POLS 3275 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/POLS 3700 6.00, AS/ECON 3190 3.00, AS/ECON 3199 3.00, AS/POLS 3270 3.00, AS/POLS 3275 3.00.

AP/ECON 3199 3.00 Approaches to Global Economics (writing).

Explores approaches to the global economy, emphasizing structural and policy-related aspects. Course credit exclusions: AP/ECON 3190 3.00, AP/POLS 3270 3.00, AP/POLS 3275 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/POLS 3700 6.00, AS/ECON 3190 3.00, AS/ECON 3199 3.00, AS/POLS 3270 3.00, AS/POLS 3275 3.00.

AP/ECON 3200 3.00 Industrial Organization. Studies the non-strategic and strategic behaviour of firms and industrial organizations under different markets structures, with emphasis on imperfectly competitive markets. Topics include pricing and non-pricing strategies, vertical and horizontal restraints, entry deterrence, advertising, investment, and innovation. Prerequisite: AP/ECON 1000 3.00 or equivalent. Course credit exclusion: GL/ECON 3370 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3750 3.00, AS/ECON 3200 3.00, GL/ECON 3370 3.00.

AP/ECON 3210 3.00 Use of Economic Data. Introduces the theory and practice of empirical analysis of economic models. Develops tools to estimate economic relationships involving two or more variables and to test their significance. Relies on the use of Canadian data sets and statistical software packages to show how linear regression analysis is applied. Prerequisite: AP/ECON 2500 3.00 or equivalent. Note: No credit will be retained for this course for students who have successfully completed or who are currently enrolled in AP/ECON 4210 3.00. Course credit exclusions: HH/PSYC 3030 6.00, SC/MATH 3330 3.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: SC/BIOL 2060 3.00, AK/AS/ECON 3210 3.00, AK/AS/SC/MATH 3033 3.00, AS/SC/MATH 3330 3.00.

AP/ECON 3230 3.00 Urban Economics. Examines the economic performance of urban areas and applies economic theory to study contemporary metropolitan problems such as poverty and welfare, housing and land, transportation and traffic, and pollution and the urban environment. Considers theories of location to understand the existence and location of cities and the spatial distribution of alternative activities within cities. Prerequisite: AP/ECON 1000 3.00 or equivalent. Course credit exclusion: GL/ECON 3320 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3640 3.00, AS/ECON 3230 3.00, GL/ECON 3320 3.00.

GL/ECON 3230 6.00 Microeconomic Theory. A study of the theory of consumer behaviour, the theory of the firm, market equilibrium and the efficiency of different market structures. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00. Course credit exclusions: AP/ECON 2300 3.00 and AP/ECON 2350 3.00.

GL/ECON 3230 6.00 La théorie microéconomique. Première partie: théorie de l'utilité et axiome des préférences, la demande individuelle, les différents concepts d'élasticité de la demande, applications de la théorie des préférences, théorie de la production, théorie des coûts et offre de la firme. Deuxième partie: structure de marché, équilibre de la firme et de l'industrie, analyse du marché des facteurs, théorie de l'équilibre général et bien-être économique. Conditions préalables : GL/ECON 2500 3.00 et GL/ECON 2510 3.00. Cours incompatibles : AP/ECON 2300 3.00 et AP/ECON 2350 3.00.

Language of Instruction: French

AP/ECON 3240 3.00 Labour Economics: Theory. Applies economic theory to labour markets. Topics include labour force participation, hours of work, investment in education and training, worker mobility, demand for and supply of labour, the effects of market structure on wages and employment, and theories of trade unions and collective bargaining. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: AP/ECON 3249 3.00, GL/ECON 3540 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3610 3.00, AS/ECON 3240 3.00, AS/ECON 3249 3.00, GL/ECON 3550 3.00.

GL/ECON 3240 6.00 Macroeconomic Theory. A study of the determination of real output, employment and the price level, and the impact of monetary and fiscal policies on these magnitudes.

Macroeconomic aspects of an open economy are studied, as are basic growth models. Course credit exclusions: AP/ECON 2400 3.00 and AP/ECON 2450 3.00.

GL/ECON 3240 6.00 La théorie macroéconomique. Étude de l'économie nationale: emploi, prix, utilisation des politiques fiscales et monétaires dans le contexte macroéconomique; commerce extérieur et mécanisme de paiements internationaux; croissance économique élémentaire et choix de politique et de développement économique. Cours incompatibles : AP/ECON 2400 3.00 et AP/ECON 2450 3.00.

Language of Instruction: French

GL/ECON 3245 3.00 Marketing and Consumer Economics. This course uses the fundamental principles of economics to analyze the decision-making process in business and the outcomes associated with the four pillars of marketing: product, price, promotion and place. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00.

GL/ECON 3245 3.00 Économie du marketing et de la consommation. Ce cours utilise les principes économiques fondamentaux pour comprendre le processus de décision de l'entreprise et les enjeux associés aux quatre piliers du marketing (produit, prix, promotion et distribution). Conditions préalables : GL/ECON 2500 3.00 et GL/ECON 2510 3.00.

Language of Instruction: French

AP/ECON 3249 3.00 Labour Economics: Theory (Writing). Applies economic theory to labour markets. Topics include labour force participation, hours of work, investment in education and training, worker mobility, demand for and supply of labour, the effects of market structure on wages and employment, and theories of trade unions and collective bargaining. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: AP/ECON 3240 3.00, GL/ECON 3540 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3610 3.00, AS/ECON 3240 3.00, AS/ECON 3249 3.00, GL/ECON 3550 3.00.

AP/ECON 3250 3.00 Labour Economics: Institutions. Examines the economic impact of trade unions, labour legislation, and industrial organization of the labour market. Prerequisites: AP/ECON 3240 3.00 or AP/ECON 3249 3.00, or equivalent. Course credit exclusions: AP/ECON 3259 3.00, GL/ECON 3550 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3600 6.00, AS/ECON 3250 3.00, AS/ECON 3259 3.00, GL/ECON 3540 3.00.

GL/ECON 3250 3.00 Histoire de la pensée économique. Un survol des développements des idées économiques depuis Adam Smith, Jean-Baptiste Say, jusqu'aux écrits de John Maynard Keynes. Conditions préalables : GL/ECON 2500 3.00 et GL/ECON 2510 3.00. Cours incompatibles : GL/ECON 4630E 6.00, GL/ECON 3010E 3.00 (Automne 1991 et Automne 1995).

Language of Instruction: French

AP/ECON 3259 3.00 Labour Economics: Institutions (Writing). Examines the economic impact of trade unions, labour legislation, and industrial organization of the labour market. Prerequisites: AP/ECON 3240 3.00 or AP/ECON 3249 3.00, or equivalent. Course credit exclusions: AP/ECON 3250 3.00, GL/ECON 3550 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3600 6.00, AS/ECON 3250 3.00, AS/ECON 3259 3.00, GL/ECON 3540 3.00.

GL/ECON 3265 6.00 Personal Financial Management. The Foundation of Personal Financial planning are presented in a rigorous framework as a first step to manage one's own personal finances based on sound principles. Students are requested to solve case studies with the assistance of appropriate financial planning software. Prerequisite: GL/ECON 2500 3.00, GL/ECON 2510 3.00 and GL/ECON 2710 3.00.

AP/ECON 3340 3.00 Environmental Economics. Applies the techniques of analytical economics to the study of environmental issues. Topics include externalities and the cost of environmental pollution, public goods, property rights, direct and indirect costs and benefits of abatement schemes, public regulation, and environmental policies in Canada.

Prerequisites: AP/ECON 1000 3.00 or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3340 3.00, AS/ECON 3800 3.00.

GL/ECON 3340 3.00 Game Theory and Economics. Game theory is the analysis of decision making by individuals, businesses and governments where the outcomes of these decisions are affected by the actions of other decision makers and where that interdependence is recognized and taken into account by all the decision makers. Corequisite: GL/ECON 3230 6.00. Course credit exclusions: AP/ECON 4130 3.00, GL/ECON 3010 3.00(EN) (Fall/Winter 1992-1993), (Fall/Winter 1993-1994) and (Fall/Winter 1994-1995).

AP/ECON 3350 3.00 Economic Theories of Entrepreneurship. Covers materials on various economic theories of entrepreneurship, as well as sociological, psychological and cultural theories. Includes case studies of entrepreneurship in various countries, including Asia Pacific countries, as well as Socialist economies in transition. Prerequisites: AP/ECON 1000 3.00 or AP/ECON 1010 3.00, or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ECON 3350 3.00.

GL/ECON 3350 3.00 Financial Theory. This is an introduction to modern financial theory. Subjects covered include portfolio management, various models of shares' evaluation and new financial instruments. Prerequisites: GL/ECON 2500 3.00, GL/ECON 2510 3.00 and GL/ECON 3670 3.00. Course credit exclusions: GL/ECON 3011F 3.00 1992-1993, 1993-1994 and 1994-1995.

GL/ECON 3350 3.00 Théorie financière. La théorie financière moderne présentée d'un point de vue théorique et pratique. Les sujets abordés sont: les modèles d'évaluation des actions, la gestion de portefeuille et les nouveaux instruments financiers. Conditions préalables : GL/ECON 2500 3.00, GL/ECON 2510 3.00 et GL/ECON 3670 3.00. Cours incompatibles : GL/ECON 3011 3.00(FR) (Automne/hiver 1992-1993), (Automne/hiver 1993-1994), et (Automne/hiver 1994-1995).

Language of Instruction: French

GL/ECON 3370 3.00 Industrial Organization I. An application of economic analysis to the conduct and performance of modern business enterprise in various market structures. Particular attention is given to the goals, strategies and decision-making processes of large firms including pricing, product differentiation and innovation. Industrial organization in both Canada and the United States is considered. Course credit exclusions: AP/ECON 3750 3.00, AP/ECON 3200 3.00.

GL/ECON 3375 3.00 Industrial Organization II. An analysis of Canadian and foreign laws and policies affecting competition and direct public regulation of business. Issues dealing with competition, patents, copyrights, public ownership and regulation of industry are examined in part through the medium of case studies. Prerequisite: GL/ECON 3370 3.00 or permission of the instructor. Course credit exclusion: AP/ECON 3760 3.00.

GL/ECON 3380 3.00 The Economics of Canadian Financial Institutions. A study of Canadian financial institutions and monetary policy. Topics considered include the money market, portfolio analysis, the demand and supply of money, the effects of monetary disequilibrium on real economic variables and the functioning of monetary policy. Prerequisite or corequisite: GL/ECON 3240 6.00. Course credit exclusions: AP/ECON 3430 3.00, AP/ECON 3140 3.00.

GL/ECON 3390 3.00 Monetary Theory and Policy Canadian Context. A discussion of the theoretical underpinnings of monetary policy, and of monetary policy itself. Emphasis is placed on recent Canadian experience. Prerequisite or corequisite: GL/ECON 3240 6.00. Course credit exclusion: AP/ECON 3440 3.00.

AP/ECON 3411 3.00 Managerial Economics and Strategy. Introduces students to the economic concepts and frameworks which the general manager can use to formulate, analyze, and implement strategy. Covers issues pertaining to firms' boundaries, the economics of the make-versus-buy decisions, the transaction costs of market exchange, and diversification. Additional topics include the theories of competitive

strategy such as market and entry strategies and strategic positioning and dynamics. Prerequisites: AP/ECON 2300 3.00 and AP/ECON 3500 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3411 3.00.

AP/ECON 3430 3.00 Monetary Economics I: Financial Markets and Institutions. Studies the principal financial institutions and markets in the Canadian economy. Analyzes the economic function, regulation, and operational features of these institutions and markets. Considers the corresponding institutions and markets in other countries. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusion: GL/ECON 3380 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3430 3.00, AS/ECON 3140 3.00, GL/ECON 3380 3.00.

AP/ECON 3440 3.00 Monetary Economics II: Theory and Policy. Studies the central bank and its use of monetary theory to control growth and fluctuations in the Canadian economy through the chartered banking system. Considers links between Canada's financial system and the international financial system, with particular emphasis on the restraining influence of international financial requirements on the attainment of national goals. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusion: GL/ECON 3390 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3440 3.00, GL/ECON 3390 3.00.

AP/ECON 3469 3.00 Political Economy of Public Policy. Examines how and why real world public policies differ from optimal policies prescribed by neoclassical economic theory. Incorporates models of political representation to different frameworks for studying issues in the areas of fiscal, monetary and trade policies, and special topics in government regulation. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3460 3.00, AK/POLS 3480 3.00, AK/PPAS 3480 3.00.

Cross-listed to: AP/ECON 3469 3.00, AP/PPAS 3480 3.00

AP/ECON 3471 3.00 Impact of the Internet on Economy. Examines the impact of information and communication technology on economic structures and economic process as well as its effects on emerging forms of economic research. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3471 3.00.

AP/ECON 3473 3.00 Global Business Economics. Deals with international business decision-making and includes concepts of international trade and finance, strategy, marketing, and the international "rules of the road" that are the responsibility of such organizations as the WTO and IMF. Brings together insights from economics, strategy, and finance to address the challenges of international business economics, including the theory of transactions costs applied to global outsourcing. Prerequisite: AP/ECON 2400 3.00 or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3473 3.00.

AP/ECON 3480 3.00 Introductory Statistics for Economists II. Extends hypothesis testing and point and interval estimation to variance and differences between means and proportions. Introduces special distributions and non-parametric tests. Covers simple and multiple regression analysis and forecasting. Prerequisite: AP/ECON 2500 3.00 or equivalent. Course credit exclusions: GL/MATH/MODR 1620 3.00, SC/MATH 2570 3.00, AP/POLS 3300 6.00, GL/POLS/SOCI 2620 3.00, GL/PSYC 2530 3.00, HH/PSYC 2020 6.00, HH/PSYC 2022 3.00, AP/SOCI 3030 6.00. Note: Acceptable course substitutes are available in the Calendar. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3480 3.00, AK/AS/SC/PSYC 2020 6.00, AK/AS/SC/PSYC 2022 3.00.

AP/ECON 3500 3.00 Introductory Mathematical Statistics for Economists. Provides an introduction to mathematical statistical analysis. Includes distributions of random variables and of functions of random variables, conditional probability, independence, special distributions, moment-generating functions, the central limit theorem, estimation and hypothesis testing. Prerequisites: AP/ECON 1530 3.00, AP/ECON 1540 3.00, and AP/ECON 3470 3.00. Course credit exclusions:

GL/ECON/MODR 3670 3.00, SC/MATH 2030 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ECON 3500 3.00, GL/ECON 3670 3.00, AS/MATH 2030 3.00, GL/MODR 3670 3.00, AK/AS/SC/PSYC 2022 3.00 (Prior to Fall/Winter 2007-08), HH/PSYC 2022 3.00.

AP/ECON 3510 3.00 Health Economics. Examines the determinants of supply and demand in the health services industry and the causes of medical cost inflation. Introduces economic models of physician and hospital behaviour and uses case studies to consider the influence of health insurance, reimbursement schemes, and practitioners' discretion on the delivery system. Prerequisite: AK/ECON 1000 3.00 or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3510 3.00.

AP/ECON 3530 3.00 Intermediate Mathematics for Economists. Develops and demonstrates the mathematics commonly used in the analysis of static economic models. Topics range from concavity and convexity to constrained optimization and comparative static analysis including the implicit function and envelope theorems. Prerequisites: AP/ECON 1530 3.00 and AP/ECON 1540 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ECON 3530 3.00.

GL/ECON 3540 3.00 Economics of Labour and Manpower. A survey of the application of economic theory and analysis to labour markets. Topics considered include: competing theories of the labour market, labour supply and demand, human capital, wage structures, impact of collective bargaining and employment and unemployment. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00. Course credit exclusions: AP/ECON 3600 3.00, AP/ECON 3250 3.00 or AP/ECON 3259 3.00.

AP/ECON 3550 3.00 Economic Growth and Development. Studies the economic problems of poor countries and poor communities. Explores the meaning of development by considering the characteristics of economic underdevelopment, poverty, income and wealth distribution, rural versus urban development, population growth, and unemployment and migration. Additional topics include theories of development, growth and technological change, strategies for environmentally sustainable development, education, and health. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: GL/ECON/ILST 3920 3.00, AP/ECON 3559 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3550 3.00, AS/ECON 3310 3.00.

GL/ECON 3550 3.00 Labour Economics: Institutions and Policies. The Canadian labour movement; collective bargaining; experience in the labour market of women; francophone and other specific groups; government labour and manpower policies; unemployment amidst inflation-the stagflation problem. Prerequisite: GL/ECON 3540(EN) or permission of the instructor. Course credit exclusions: AP/ECON 3610 3.00, AP/ECON 3240 3.00 or AP/ECON 3249 3.00.

AP/ECON 3559 3.00 Economic Growth and Development (Writing). Studies the economic problems of poor countries and poor communities. Explores the meaning of development by considering the characteristics of economic underdevelopment, poverty, income and wealth distribution, rural versus urban development, population growth, and unemployment and migration. Additional topics include theories of development, growth and technological change, strategies for environmentally sustainable development, education, and health. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: GL/ECON/ILST 3920 3.00, AP/ECON 3550 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3550 3.00, AS/ECON 3310 3.00.

AP/ECON 3560 3.00 Economic Policy in Developing Countries. Examines policy issues arising from development planning. Topics include agriculture versus industry, international trade, monetary and fiscal policies, foreign investment, foreign aid and self-reliance, and global issues. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: AP/ECON 3569 3.00, AP/PPAS 3569. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3560 3.00, AS/ECON 3320 3.00, AK/PPAS 3560 3.00.

Cross-listed to: AP/ECON 3560 3.00, AP/PPAS 3560 3.00

AP/ECON 3569 3.00 Economic Policy in Developing Countries.

Examines policy issues arising from development planning. Topics include agriculture versus industry, international trade, monetary and fiscal policies, foreign investment, foreign aid and self-reliance, and global issues. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: AP/ECON 3560 3.00, AP/PPAS 3560 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3560 3.00, AP/ECON 3320 3.00, AK/PPAS 3560 3.00.

Cross-listed to: AP/ECON 3569 3.00, AP/PPAS 3569 3.00

GL/ECON 3570 3.00 Introduction to the Economics of the Public Sector. Introduction to the fiscal role of governments, the theory of public goods, the justification of public expenditure and the principles of taxation. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00. Course credit exclusions: AP/ECON 3450 3.00, AP/ECON 4070 3.00 or APS/ECON 4080 3.00, GL/ECON 3012 3.00(EN) (1992-1993), (1993-1994) and (1994-1995) and GL/ECON 4240 6.00(EN).

GL/ECON 3575 3.00 Economics of Industrial Innovation. Innovation is an essential condition of economic progress and critical to firms and national economies. Economists have always recognized the central importance of innovation but it was only recently the subject of systematic economic analysis. The course addresses the recent advances in economics of science and technology. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00.

GL/ECON 3575 3.00 Économie de l'innovation. Le cours propose d'étudier, de façon théorique et empirique, les contributions de la science économique aux phénomènes d'innovation technologique. Comme ces derniers se retrouvent au centre des mécanismes économiques, la science économique leur a fait une place relativement importante depuis les travaux de Schumpeter. Condition préalable : GL/ECON 2500 3.00 et GL/ECON 2510 3.00.

Language of Instruction: French

AP/ECON 3580 3.00 International Monetary Economics. Introduces students to international monetary economics. Topics include the exchange rate and exchange rate regimes, the automatic adjustment process, open economy macroeconomics and policy, international financial markets, and economic integration. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3580 3.00, AS/ECON 4200 3.00.

GL/ECON 3580 3.00 Growth and Public Policy I. The course deals with the study of economic policies in a context of economic growth. A series of political issues will be studied from a theoretical perspective in economics. Different traditions in economic growth models will be presented. A comparative international approach will be used. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00.

GL/ECON 3580 3.00 Croissance et politiques publiques I. Ce cours propose l'étude de politiques économiques dans un contexte de croissance économique. Le cours abordera certains grands dossiers politiques d'un point de vue de la théorie économique. Différentes traditions de modèles de croissance économique seront présentées. Une approche comparative internationale sera utilisée. Condition préalable : GL/ECON 2500 3.00 et GL/ECON 2510 3.00.

Language of Instruction: French

GL/ECON 3585 3.00 Growth and Public Policy II. The aim of this course is to study from an empirical perspective some core policy issues based on data developed at the international level. Prerequisite: GL/ECON 3580 3.00.

GL/ECON 3585 3.00 Croissance et politiques publiques II. Ce cours propose d'étudier de façon empirique certains grands dossiers politiques d'actualité sur la base de banques de données développées dans un contexte international. Condition préalable : GL/ECON 3580 3.00.

Language of Instruction: French

AP/ECON 3590 3.00 Economics of Education and Training. Examines economic aspects of educational/training systems and their links to the labour market. Topics include the effects of education/training on wages, distribution of earnings and economic growth, school-to-work transition, job-education mismatch, occupational projections, and the financing of post-secondary education. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3590 3.00.

AP/ECON 3620 3.00 Economics of Unemployment. Studies the post-war unemployment in Canada and discusses policy options to reduce unemployment. Includes an analysis of the effects of demographic changes, social security and minimum wage legislation, unions, technological change, cyclical changes, and industrial restructuring on unemployment. Prerequisite: AP/ECON 1010 3.00 or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3620 3.00.

GL/ECON 3620 3.00 The Economics of the Multinational Firm. An examination of the multinational firm in the world economy; topics include the theories of the multinational firm and the relations between multinational firms and governments. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00.

Cross-listed to: GL/ECON 3620 3.00, GL/ILST 3620 3.00

GL/ECON 3642 3.00 Business Ethics. This course examines some contemporary issues in business ethics such as the ethical justification of the free market, corporate responsibility, deceptive advertising, business and the environment, preferential hiring practices and whistleblowing.

Cross-listed to: GL/ECON 3642 3.00, GL/PHIL 3642 3.00, GL/SOSC 3642 3.00

AP/ECON 3650 3.00 Canadian Economic Policy. Identifies contemporary economic problems facing Canada and examines the economic policy options that are available for addressing these issues. These issues include government transfer payments, industrial productivity, unemployment, health care, economic growth and inflation, and globalization. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3650 3.00, AK/PPAS 3650 3.00.

Cross-listed to: AP/ECON 3650 3.00, AP/PPAS 3650 3.00

GL/ECON 3670 3.00 Mathematical Statistics. Elements of probability, random variables, probability distribution, sampling theory, theory of estimation and tests of hypotheses and regression analysis. Prerequisites: GL/MODR 1930 3.00 and GL/MODR 1940 3.00. Course credit exclusion: AP/ECON 3500 3.00.

Cross-listed to: GL/ECON 3670 3.00, GL/MODR 3670 3.00

GL/ECON 3672 3.00 Capital humain, capital social et croissance économique. Le cours propose d'examiner le capital humain comme facteur de croissance économique ainsi que les liens entre capital humain et capital social afin d'expliquer les disparités de croissance économique des pays de l'OCDE. Ce cours empruntera une perspective internationale. Condition préalable : GL/ECON 2500 3.00 et GL/ECON 2510 3.00. Cours incompatibles : AP/ECON 3550 3.00, AP/ECON 3310 3.00 ou AP/ECON 3320 3.00.

Language of Instruction: French

Cross-listed to: GL/ECON 3672 3.00, GL/SOSC 3672 3.00

GL/ECON 3672 3.00 Human Capital, Social Capital and Economic Growth. The sharp disparity between growth rates across OECD countries is one of the most striking economic phenomena. While human capital has been traditionally understood as being one important growth factor, economists are increasingly looking at the linkages between human capital and social capital to explain growth. Without sufficient social capital, human and physical capital are less effective. Recently, international organizations (OECD, the World Bank) provided a forum in which these

questions have been analyzed and debated. Prerequisites: GL/ECON 2500 3.00 and GL/ECON 2510 3.00. Course credit exclusions: AP/ECON 3550 3.00, AP/ECON 3310 3.00 or AP/ECON 3320 3.00.

Cross-listed to: GL/ECON 3672 3.00, GL/SOSC 3672 3.00

AP/ECON 3700 3.00 Economics of Gender. Introduces students to gender gaps and discrimination, especially in connection with labour markets, policy towards gender equality, and features of family economics such as issues of power within the family. Examines some empirical evidence, but in a non-technical way. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Recommended prior completion: AP/ECON 2300 3.00. Course credit exclusions: AP/ECON 3709 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ECON 3700 3.00, AS/ECON 3709 3.00.

AP/ECON 3709 3.00 Economics of Gender (Writing). Introduces students to gender gaps and discrimination, especially in connection with labour markets, policy towards gender equality, and features of family economics such as issues of power within the family. Examines some empirical evidence, but in a non-technical way. Prerequisites: AP/ECON 1000 3.00 and AP/ECON 1010 3.00 or equivalents. Recommended prior completion: AP/ECON 2300 3.00. Course credit exclusions: AP/ECON 3700 3.00. PRIOR TO FALL 2009: Course credit exclusions: AS/ECON 3700 3.00, AS/ECON 3709 3.00.

AP/ECON 3790 6.00 Women in the North American Economy. Focuses on women's economic activities and the economic position of women in the North American economy. Includes an analysis of household work as well as labour force activity. Note: This course counts as a major course in women's studies and health studies. It is a multidisciplinary course for students in economics, health studies, women's studies, and related disciplines. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 3790 6.00.

AP/ECON 3810 3.00 The Economics of Project Appraisal and Feasibility. Covers prefeasibility and feasibility studies of proposed projects, forecasting of demand and plant capacity, estimation of production, sales, costs, and revenues, alternative commercial profitability criteria (net present value, rate of return) for project evaluation and selection, and sensitivity analysis under risk and uncertainty. Prerequisites: Grade 12U Advanced Functions, AP/ECON 1000 3.00, and AP/ECON 1010 3.00, or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3810 3.00, AK/ECON 3820 3.00.

GL/ECON 3920 3.00 Économie du développement. La première partie du cours est une revue générale des problèmes des pays en voie de développement. Cette partie couvre: i) les théories du développement; ii) les facteurs critiques du développement économique comme la mobilisation des ressources, démographie et capital humain, le développement agricole, l'industrialisation et les systèmes d'organisation; et iii) les politiques fiscales, monétaires et le commerce extérieur. La deuxième partie du cours traite des questions de planification économique et de stratégie de développement. Le cours se concentre sur l'évaluation des projets d'investissement (analyse des coûts et bénéfices) basée sur des cas d'études relevant de l'expérience d'organismes se spécialisant sur les problèmes du développement comme la Banque mondiale. Cours incompatible : AP/ECON 3550 3.00.

Language of Instruction: French

Cross-listed to: GL/ECON 3920 3.00, GL/ILST 3920 3.00

AP/ECON 4000 3.00 Directed Reading. Permits students to undertake special programs of private studies under the guidance of a full-time faculty member. Prerequisites: 78 credits including AP/ECON 1000 3.00, AP/ECON 1010 3.00, AP/ECON 1530 3.00, AP/ECON 1540 3.00, AP/ECON 2300 3.00, AP/ECON 2350 3.00, AP/ECON 2400 3.00 and AP/ECON 2450 3.00, or equivalents. Note: Students must be accepted by a faculty supervisor and receive the approval of the Undergraduate Program Director before they can register in the course. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 4000 3.00, AS/ECON 4980/4980A/4989/4989A 3.00.

AP/ECON 4010 3.00 Advanced Microeconomic Theory. Examines important contributions to the microeconomic literature. Covers advanced topics from consumer theory, the economics of the firm, competitive and non-competitive markets, factor pricing, income distribution, general equilibrium, and welfare economics. Prerequisites: AP/ECON 2300 3.00, AP/ECON 2350 3.00, and AP/ECON 3530 3.00, or equivalents. Recommended prior completion: AP/ECON 2400 3.00 and AP/ECON 2450 3.00. Course credit exclusion: GL/ECON 4230 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 4010 3.00, AS/ECON 4000 3.00, GL/ECON 4230 3.00.

AP/ECON 4020 3.00 Advanced Macroeconomic Theory. Surveys recent developments in macroeconomic research. Among the topics covered are rational expectation models, consumption theory, new Keynesian models of staggering wages and prices, menu costs, efficiency wages and imperfect competition, and new classical and new Keynesian business cycle theories. Prerequisites: AP/ECON 2400 3.00 and AP/ECON 2450 3.00 or equivalents. Recommended prior completion: AP/ECON 2300, AP/ECON 2350 3.00, and AP/ECON 3530 3.00. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 4020 3.00, AS/ECON 4010 3.00, GL/ECON 4230 3.00.

AP/ECON 4030 3.00 Experimental Economics. Introduces the theory and practice of experimental economics as an important economic research methodology. Focuses on experimental economic publications on a particular topic to motivate the power of behavioural economic analysis and laboratory methods. Prerequisites: 78 credits including AP/ECON 2300 3.00 and AP/ECON 2500 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 4030 3.00.

AP/ECON 4039 3.00 Experimental Economics. Introduces the theory and practice of experimental economics as an important economic research methodology. Focuses on experimental economic publications on a particular topic to motivate the power of behavioural economic analysis and laboratory methods. Prerequisites: 78 credits including AP/ECON 2300 3.00 and AP/ECON 2500 3.00 or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AK/ECON 4030 3.00.

AP/ECON 4059 3.00 History of Economic Thought I. Focuses on the theoretical development of classical political economy up to 1870 in the works of the Physiocrats, Smith, Ricardo, and Marx. Emphasizes the contrasts and similarities between classical and neoclassical theories. Prerequisites or co-requisites: AP/ECON 2300 3.00, AP/ECON 2350 3.00, AP/ECON 2400 3.00, and AP/ECON 2450 3.00, or equivalents. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ECON 4059 3.00.

AP/ECON 4069 3.00 History of Economic Thought II. Focuses on major developments in economic theory since 1870, the emergence of neoclassical general equilibrium theory (especially in the works of Jevons, Menger, and Walras), and the development of Keynesian economics as a distinctive theory. Prerequisite: AP/ECON 4059 3.00 or equivalent. Course credit exclusions: None. PRIOR TO FALL 2009: Course credit exclusion: AS/ECON 4069 3.00.

AP/ECON 4070 3.00 Public Finance I. Identifies the role of government in a modern economy and examines the interaction between government's attempts to provide services and the financing of expenditures through traditional and non-traditional means. Prerequisites: AP/ECON 2300 3.00, AP/ECON 2350 3.00, AP/ECON 2400, and AP/ECON 2450 3.00, or equivalents. Course credit exclusion: GL/ECON 3570 3.00. PRIOR TO FALL 2009: Course credit exclusions: AK/ECON 3450 3.00, AS/ECON 4070 3.00, GL/ECON 3570 3.00.
